OPTION ON ARCTURUS

For Three Million Dollars Is Reported.

Given to the Oliver-Snyder Steel Company.

The end is not yet in big money for iron mining properties. It is reported that the Oliver-Snyder Steel company has either purchased or taken an option on the purchase of the Arcturus mine, on the western end of the Mesaba range, at $3,000,000.

It will be recalled that about three months ago an option for the purchase of the property at $750,000 was given through Charles Purdon and the Eaton brothers to George C. Howe, P. L. Kimberley and others. This option is supposed to expire on the 12th of next month. In the meantime further operations with the idea of proving up the extent of the deposit as well as the quality of the same have been going on under the direction of Capt. Henry Jarchow.

The body of ore on this property is supposed to be one of the most enormous on the Mesaba range. What ore has been shown up has been largely on one forty, while the property embraces 1600 acres in one parcel and a small piece in another location. The value of it is enhanced by the fact that the purchase frees the buyer from the necessity of paying royalties, for he will own the fee himself.

The report that the property has again been sold is denied by some of those who were interested in the original optioning of the property. It is said that of the $750,000 to be paid for the original sale, Charles Purdon will receive $80,000, the Eatons $60,000 and the St. Cloud people $600,000.

The iron ore has been found on sections 13 and 14-56-24.

The taking of an option on the Holman forty mine on the new western end of the Mesaba range, which is referred to in the hotel news in today's Herald, has been verified in an authoritative quarter. It is denied, however, that the option has been formally acted upon, though it is admitted that the present intention is to close the deal and acquire the property from Morton Miller.

The Donora Mining company, which holds the option, is the mining interest of the Union Steel company, and the entrance of such a large consuming company on the new part of the range is believed to be an augury of early mining operations there. The Cleveland-Cliffs company is known to be exploring on the new Western Mesaba. The Oliver company, otherwise the Steel corporation, is also investigating some prospects there. J. J. Hill interests are exploring actively in the same general locality, and exploratory

(Continued on page 8.)

KILLED AT A WEDDING

Philip Bishman, a Well Known Character of Waseca, Minn, Was Murdered at a Wedding at Village of Wilton.

St. Paul, June 19.—A Waseca, Minn., special to the Dispatch says: Philip Bishman, a well-known character about town and formerly a prosperous farmer and thresherman, was killed early this morning, at a wedding in the old village of Wilton about five miles south of Waseca. Bishman went out to the wedding early last night to take out some beer, and Mike Mulcahy went along for the ride, expecting to return at once. Instead they remained and he too was severely pounded and barely escaped with his life. Bishman's head was pounded into a jelly with clubs and rocks. He was killed in his buggy and afterwards dragged into a barn. Fred Kugath and Ernest Baer are in jail charged with murder and other arrests may follow.

TWO FAVORITES DRAWN

"Cruzados" and "McChesney," Two Horses Injured at the Trial Races, Will Not Start Saturday In the American Derby.

Chicago, June 19.—Baldwin's "Cruzados" and Hildreth's "McChesney," injured in the "Derby Trial Special" at Harlem yesterday and carrying a lot of money in the winter books, will not start Saturday when the American Derby is run at Washington park.

This information was given out today by the respective owners of the two horses. Cruzados was cut to the bone in his right hind hock, but he will be started in the Sheridan stakes, to be run July 4. In reference to reports that Cruzados "quit" yesterday, Mr. Baldwin today declared that he would match his horse for $20,000 against any horse in the world at one mile. McChesney's injuries are far from severe, but after "sleeping on it" Mr. Hildreth concluded that the horse could not do himself justice in Saturday's classic.

The disappointment of both owners was keen. Meanwhile preparations for the greatest of Western races are nearing completion under the eye of James Howard, secretary of the Washington Park club. The probabilities are for a fair day and a perfect track. Mr. Howard said that owing to the high class of the entries he expected that the crowd would number 50,000 people, 10,000 more than witnessed the victory of Robert Waddell last year. Heno, the favorite, did a three-mile canter this morning, after which Trainer Hill said: "Heno is fit as a fiddle and I won't throw a saddle over him till Saturday for anybody."

Arsenal and Pentecost are due here from the East tonight. Both are quoted at 4 to 1 today, while Heno's price was 11 to 5.

TO PREVENT X-RAY BURNS

New York, June 19.—By the use of a single coat of paraffine, what is known as the ray burn can be prevented, according to the statement of a physician of this city. Indiscriminate use of the X ray in medical work has been handicapped by this burn, caused, it is supposed, by the powerful shaft of light driving certain particles of bacteria in the atmosphere into the parts under the ray. This action can be entirely prevented, it is claimed, by applying a coating of molded wax to the skin.

DETECTIVE KING ON TRIAL

St. Paul, June 19.—Special to The Herald.))—The jury which began the trial of Detective Norbeck in Minneapolis was this morning discharged, the county officials reporting to the court that Norbeck could not be found. The trial of Detective Norman King was then begun. The process of securing a jury will probably require two or three days.

BISHOP OBJECTS TO TOBACCO

Milwaukee, June 19.—Bishop Nicholson, of the Milwaukee Episcopal diocese, has created a mild sensation among the priests and laity of the diocese by issuing a sort of pronunciamento against the use of tobacco. The pronunciamento is submitted as an object lesson and while the bishop commends it to the good judgment of the priests, without decreeing against the use of tobacco in so many words, nevertheless it has created quite a considerable stir. The bishop maintains that there is one trace of spiritual help or physical gain from the use of tobacco, but untold evils have resulted from its use. The extent to which the bishop's abhorrence toward tobacco is evidenced by the statement that if it is true that Sir Walter Raleigh introduced tobacco into England "'Tis a pity that the ship that carried him did not sink in the ocean."

AN ARRAY OF TALENT

For Opening of New Tilden Club In New York.

Former President Cleveland to Be One of the Speakers.

David B. Hill Will Be Heard---Bryan Was Invited.

New York, June 19.—Former President Cleveland, David B. Hill, Governor A. J. Montague, of Virginia, and Col. Gaston, of Boston, will be the speakers at the opening of the new Tilden club, Seventy-fifth street and Broadway, tonight. Robert Dowling, president of the club, has received responses from the gentlemen named in which they say they will be present.

William J. Bryan also received an invitation to be present but it is said no response has been received from him.

There will be a reception and collation in the main hall, but on the floor above there will be a special banquet for seventy guests. There Mr. Cleveland and Mr. Hill will meet. The speech making however, will begin before the banquet. Leading Democrats in the city, state and nation haves accepted invitations to be present. Among them are Edward M. Shepard, St. Clair McKelway, John B. Stanchfield, Congressman McClellan, Bird S. Coler, George M. Palmer, Democratic leader of the assembly; Justice O'Gorman of the supreme court; Frank Campbell, August Belmont, Lewis Nixon, D. Cady Herrick, Corporation Counsel Rives, Senator McCarren, Elliot Danforth, Jr., Dr. Joseph Bryant, John C. Sheban, Bourke Cockran and Wilson S. Bissell.

BUENCAMINO.

Irrepressible Filipino Repeats His Story at Chicago.

Chicago, June 19.—Don Felipe Buencamino, who was secretary of state in Aguinaldo's cabinet, will make Chicago the principal stopping place in his tour of commercial investigation in the United States. He arrived from St. Louis last night and will remain here until he hears from Canton, where he hopes to call on Mrs. McKinley if her health will permit the visit.

He has come to learn about the political and commercial prospects of the Philippines, and has already visited Washington, Charleston, Atlanta and St. Louis. He is strongly in favor of the continuance of American rule in the archipelago.

"My objects in coming to this country are many," said he. "I want to explain to the people of the United States the situation in the islands at the present time; to ask for amnesty for former rebels; for further educational facilities for the people, such as an appropriation permitting the education of young Filipinos in this country, to secure 6,000 more American teachers in the islands, at higher salaries tha nthey are at present receiving, and to collect data to hold an exposition in Manila in honor of the Philippine hero, Dr. Rizal.

"Another purpose of my visit is to further the development of commercial relations between the archipelago and the United States. The American people should understand clearly that peace is completely restored. All that remains are a few robber bands, which easily can be disposed of by the native constabulary, and they probably will be dispersed or exterminated within six months.

"In regard to the reports of atrocities committed by American soldiers in the islands, there have been some abuses, but the authorities have seen that the perpetrator received punishment they deserved. It is not fair to condemn the whole army for the abuses of a few soldiers."

OLD LETTER

Written By Former President Cleveland and Never Published.

Lexington, Va., June 19—At the graduating exercises of Washington and Lee university, Hon. Isador Strauss, of New York, delivered the address at the unveiling of a monument to the Hon. William L. Wilson, late president of the university, and in discussing Mr. Wilson's work in regard to the Wilson tariff, read a letter sent by President Cleveland to Mr. Wilson. Mr. Strauss said that letter had never been made public. It is as follows:

"Executive Mansion, Washington, August 15, 1894.

"My Dear Mr. Wilson—I suppose a man very much depressed and disappointed may write a word of sympathy to another in like situation. We both hoped and wrought for better things; but now that we know our fate I shall not let a moment pass before I acknowledge the great and unselfish work you have done in an attempt to bring about an honest and useful result.

"Much has been developed which has shocked and surprised you and me, and I have within the last hour found myself questioning whether or not our party is a tariff reform party. This, however, is only temporary, and such feeling is quickly followed by my old trust in Democratic doctrines and the party which professes them.

"But I intend only to express sympathy with you and my gratitude for the fight you have made for genuine tariff reform.

"I hope now that you will be mindful of yourself, and that you will try and repair a strained mental and physical condition by immediate care and rest.

"Yours very sincerely,

"GROVER CLEVELAND."

Hon. William L. Wilson.

MORRIS BILL IS PASSED

For Opening of Chippewa Reservation.

Went Through House as Adopted By Committee.

From The Herald Washington Bureau.

Washington, June 19.—(Special to The Herald.)—The Morris Chippewa reservation bill has passed the house without amending its form as adopted by the committee.

Washington, June 19—The attendance both upon the floor and in the galleries of the house today was larger than usual in anticipation of the opening of the debate upon the Philippine civil government bill.

Some routine business was transacted before the regular order was demanded. Bills were passed to authorize the Charleston, Suburban and Summerville Bridge company to construct two bridges across the Ashley river, S. C.; to authorize the appointment and retirement of James W. Long, as a captain of infantry; to fix the salaries of district superintendents in the life-saving service at $2000 per annum; to purchase at a cost not exceeding $16,000 certain real estate at Wilmington, N. C., for revenue and customs purposes, and to authorize the secretary of war to furnish condemned cannon for an equestrian statue of the late Gen. William J. Sewell. A number of conference reports were adopted. The senate amendments to the bill, to refund taxes upon legacies, etc., were concurred in.

The regular order then was demanded. It was upon an amendment to a bill to amend an act for the relief and civilization of the Chippewa Indians of Minnesota, which was under consideration when the house adjourned last night. The amendment had been offered by Mr. Eddy (Minn.). It provided for open bids for sale of timber lands upon the Indian reservations in Minnesota. Mr. Eddy, in support of his amendment, said the arguments in favor of the sealed bids which the interior department advocated, on the ground that they would prevent collusion among bidders, were not sound.

Mr. Curtis (Kas.), Mr. Payne (N. Y.) and Mr. Lacey (Iowa) opposed the bill on the ground that the open bids would only inure to the benefit of Minnesota bidders.

The Eddy amendment was lost. The bill was then passed.

SOME DISSATISFACTION

Expressed By the Striking Miners Because Date For Special National Convention Has Been Fixed a Month Away.

Wilkesbarre, Pa., June 19.—Now that the call for a special national convention has been made for July 17, it is not expected there will be any important developments in the coal strike situation until that time. It is not unlikely, however, that some of the bituminous districts will take action similar to that of the Central Pennsylvania district, which last night decided to cut down the soft coal production from that territory one-third. More soft coal is coming into the anthracite market from that section than the labor leaders expected and they will make a special effort to reduce the output. They are handicapped in this effort to some extent by the fact that not more than two-thirds of the 42,00. workers in the district are organized.

A little issatisfaction was expressed by some of the strikers because the date of the convention was set a month hence. They feel that something ought to be done without waiting thirty days. While the leaders around strike headquarters will not talk it is believed the fixing of the date for July 17 was a wise move. A partial curtailment of coal production or even a total suspension would have a serious effect on the business interests of the country, and it is hoped that during the next month some plan may be devised by which that state of affairs can be avoided. A total suspension of coal mining is practically impossible, because the United Miners do not control all the miners in the country.

President Russell and Secretary Ryan, of the Illinois Miners' union, will arrive here today.

Conditions in the anthracite region remain unchanged. The entire coal belt was extremely quiet. Anth is failing today, which is not favorable to the companies. It will, however, cause no serious inconvenience because is not heavy enough to swamp the pumps.

GOLD CUP DAY AT ASCOT

An Immense Gathering of Distinguished People at the Heath---The Gold Cup Race Won By William the Third.

London, June 19.—Gold Cup day, the most important from a social viewpoint of the whole Ascot week, attracted an immense concourse of spectators to the heath today. The royal procession, which was identical with Tuesday's, arrived on the ground at about 1 o'clock in the afternoon. Queen Alexandra, the Prince and Princess of Wales, the Duke and Duchess of Connaught and others members of the royal family, and the Windsor guests, entered royal carriages, which, attended by a mounted cavalcade, drove up the course to the royal pavilion, greeted on all sides with salvos of cheers from the brilliant gathering of people. The array of coaches and motor cars was unusually great, and the club tents and the royal and other enclosures were filled with ladies in dainty summer costumes, Oriental princes in vari-colored raiment and distinguished visitors from all parts of the world.

Among those present were Whitelaw Reid, the special ambassador of the United States to the coronation of King Edward, and Mrs. Reid, Ambassador Choate and Mrs. and Miss Choate, Henry White, the secretary of the United States embassy, and Mrs. and Miss White; John R. Carter, the second secretary of the embassy, and Mrs. Carter; William Corcoran Eustis, formerly third secretary of the embassy; Commander Richardson Clover, the United States naval attache, and Mrs. Clover, and Mrs. Montgomery Sears.

The all-aged stakes were won by a French horse, Reine Des Fleurs, ridden by J. Reiff, the American jockey.

The Gold Cup (value 1,000 sovereigns with 3,000 sovereigns in specie in addition; about two miles), was won by the Duke of Portland's William the Third. Osboch was second and Santo I. wa sthird.

SOUTH AFRICAN RETALIATION

Chicago, June 19.—A special to the Record-Herald from Baton Rouge, La., says: Goevrnor Heard has been notified by the British consul that Louisiana cattle will be shut out of South Africa. This action is believed to be in retaliation for Heard's protest to the state department against mule shipments and operations of the British military camp at Port Chalmette.

REBELS TAKE SAN FELIPE

Willemstad, Island of Curcao, Monday, June 16.—San Felipe, capital of the province of Yaracuy, Vez., has been captured by the Venezuelan revolutionists, under Gen. Aular, and Yaritagua, province of Lara, has fallen into the hands of the revolutionists under Gen. Solagni. At Valencia, capital of the state of Carabobo, a fight took place on Saturday night (June 14) in the heart of the city. The decomposition of President Castros' government progresses daily. Cable and land telegraphic communication with Maracaibo, capital of the state of Zulia, and other points in that part of the country, has been interrupted by the revolutionists.

ANOTHER MAN GOES WRONG

Washington, June 19.—Henry Rechtin, disbursing officer of the department of justice, today was arrested on the charge of misappropriating $7600 of government funds. He confessed to the shortage. Rechtin is from Cincinnati. Information received by Attorney General Knox some time ago led to a suspicion that something was wrong with Rechtin's books, and the arrest followed an examination of the books, under direction of Comptroller of the Currency Tracewell.

EMPLOYES ARE ARMED

Each Silk Worker Supplied With a Revolver.

Will Protect Themselves From the Strikers.

Paterson, N. J., June 19.—Mayor Hinchcliffe too personal command of the police of this city today. He was much displeased that the meeting of strikers Tuesday night was not broken up. It was at this meeting that speeches were made, which, it is believed, led to the disorders of yesterday. The mayor went to police headquarters today and had all the men of the reserves lined up in front of him. Then he sad to them: "Men, if your clubs prove useless, you know what to do. Be agressive from the start."

The reserves, who looked as if they fully approved the command as to the agressiveness, were then dismissed to await the call to action. In addition to the regular police force of 104 men, there were sworn in today twenty-three constables, twenty-five deputies and fifteen firemen, who are to do duty as policemen. All these men were immediately armed with revolvers and heavy night-sticks.

Ten silk manufacturing firms opened for work this morning. These firms have their plants in the Hope, Harmony and Todd mills. Each employs about twenty-five men. In each of these plants every employe was armed today with a revolver. The weapons were supplied by the men's employers with the approval of Mayor Hinchcliffe.. Before taking this step the mayor had been consulted by the manufacturers and he expressed the opinion that the employers were justified in arming their men and that it was a necessary precaution, in view of yesterday's riots.

When the employes of the Pelgram & Meyer mills, on Matlock street, reported for work this morning, every fourth man was provided by the management with a gun. During the night shotguns, Winchesters and revolvers comprising a small but formidable arsenal were carried into the mill. Accompanying the weapons was thirty rounds of ammunition for each piece. With the arrival of the men workers the firearms were distributed and the employes went armed to their looms. Not one dye shop started up this morning, although several were opened.

The dye house owners were willing to start operations, but the men refused to go to work, as they feared violence at the hands of the strikers.

The police had a slight encounter with a body of strikers and their sympathizers today. About 400 Italian strikers and others gathered in the quarter of the city where the larger part of the Italian colony lives and, forming in procession, started to march to Turn hall. The hall is only a block from police headquarters. It is said that the proposed meeting there today was arranged for at a meeting of anarchists last night. The police had been keeping a sharp watch on the movements of the strikers, and the procession had barely got under way when the reserves charged the paraders. There was a quick scattering in all directions by the men in line, and in a remarkably short time there was not a parader to be seen in the neighborhood.

At the hospitals and the county jail the condition of those who were wounded in yesterday's disturbances was reported to be about unchanged. Harry Harris, the reporter who was knocked down, beaten and finally shot with his own revolver by the mob, was very low today, but hope of his recovery is entertained.

Mayor Mincheliffe announced today that only the executive committee of the Dyers' Helpers' union would be permitted to hold meetings for the present and that if at any of these sessions one word was uttered that tended to incite violence, the speaker would instantly be arrested. The mayor insisted that representatives of the city government be present at a meeting of the strikers' excetive committee this afternoon. He says that if the proceedings are in any way obnoxious all the members of the committee will be liable to arrest.

As the morning advanced more of the silk mills opened up, including some of the largest in the city.

It was reported that a number of silk mills in Jersey City had been shut down on account of lack of material, as a result of the closing of dye houses at Paterson.

HAD A NARROW ESCAPE

Jockey Burns and a Woman Companion Were Nearly Drowned After Burns' New Naphtha Launch Had Exploded.

New York, June 19.—Thomas Burns, William C. Whitney's jockey, and a woman companion have narrowly escaped death by drowning in Sheepshead bay, after Burns' naphtha launch exploded. The rescue was effected in the sight of two thousand excited summer colonists, by Thomas Osborn, the Democratic leader of Sheepshead Bay and clerk of the Coney Island police court, and Andrew Jamison.

Burns recently bought the launch for $3500. He was out for a ride, accompanied by a lady whose name he refused to divulge. The little boat was scudding along toward the Manhattan Beach bridge, when Osborn and Jamison, who were on the verandah of a hotel, first saw it. Burns forgot to lower his smokestack and as the bow of the craft went under the bridge the smokestack fouled with the timbers.

There was a crash and a scream from the woman and then an explosion that brought all the summer visitors to the shore. The boat burst into flames forward and Burns and his companion retreated to the stern. The flames were blowing back upon them when Osborn and Jamison, who had run to the beach and pushed off in a small boat, started to row to the rescue.

Before they reached the boat, Burns and the woman had to jump into the water. The woman was first dragged into the row boat, and then Burns was picked up. Neither had received any injury beyond a wetting.

TWO NEGROES ROB AND KILL

St. Joseph, Mich., June 19.—Two negroes and four white men boarded a fruit train here late last night going south. At Bridgeman one of the white men displayed some small change, which caused an altercation. The negroes drew guns on the white men, two of whom jumped from the train. The third gave up what money he had. The fourth refused to disgorge and was shot dead by the negroes, his body being thrown from the train at Lakeside while it was running thirty-five miles an hour. Later the two negroes were captured near Buffalo.

"SOONERS" GOT BEST LANDS

Pocatello, Idaho, June 19.—It has become evident that the "sooners" have secured both the best lands and the most promising prospects on the Fort Hall reservation, and there will be innumerable contests over both land entries and mineral locations. Details have been received of the race for the Belle Marsh copper mine, believed to be the best prospect in the reservation. There were more than 100 after it. Senator Clark of Montana had a party in the race, and so had James A. Murray, of Butte, as well as Dr. Dubois, a brother of Senator Dubois of Idaho. Clark reached the mine first, but found that the Murray men were in possession. The Clark men will contest.

FRANCE MAKES A PURCHASE

Chicago, June 19.—Telegrams received at Yokohama just before the Victoria sailed announce that the French have purchased the promontory of Katal, near Macao, a Portuguese settlement, in the vicinity of Hong Kong, says a special to the Chronicle from Tacoma, Wash. The point was secured for $120,000 for the ostensible purpose of establishing a naval hospital for the use of the French fleet in Oriental waters. This promontory commands the approach to Linton bay and part of Hong Kong harbor.

The English at Hong Kong are much disturbed and have protested to the Pekin government that the sale should not have been made. It is feared that France will fortify Katal, as the French have lost no opportunity during the past three years of strengthening their position in Southern China.

Freimuth's
Greatest Daylight Store.

Peerless Bargains for Busy Under-Price Friday!

Union Suits—Onelda Union Suits—summer weight—made from fine quality cotton; low neck and wing sleeves, nicely trimmed—regular price 50c—Friday's price ---------- **29c**

Belts, Satin and silk Belts with pretty metal buckles, side and back pieces — regular prices 65c and 75c—Friday the price---- **50c**

SOLDIERS RETURN

Back From the Finest Encampment In History of Regiment.

Regimental Band Proves the Delight of Regular Army Officers.

Local Crack Shots Will Prepare For Coming Competition.

Bronzed and happy the Third Regiment band and companies A and C returned from the tour of camp duty at Lake City this morning.

It was without doubt the busiest and most successful encampment in the history of the regiment and the Duluth soldiers carried off many honors as usual.

The regimental band, composed of Duluth musicians, is pronounced one of the finest bands in the United States by competent regular army officers that visited the regiment last week.

The band is said to have passed the highest inspection of any similar organization in the history of the Minnesota national guard and Director Flaaten and the members are highly elated.

Companies A and C are said to have passed excellent inspections, though the ratings will not be made public by the inspector-general's office for some time.

From now until the first of August the companies expect to put in a great deal of time on the rifle range in order to qualify a team to compete for places on the state rifle team.

On Aug. 4 the crack shots of every company in the regiment will assemble at Lakeview and from their work on the range the members of the state team will be chosen. It is quite an honor to make this team and the Duluth soldiers are especially anxious to make it this year.

While company C excelled all others in volley shooting the Duluth men did not show up as well in shooting at known distances as in former years. This was undoubtedly due to the fact that the long continued wet weather prior to the encampment barred them from the customary spring practice work on the local range.

Maj. H. V. Eva had charge of the guard duty during the encampment and reports are to the effect that he made quite a record in instruction in this very important branch of the service.

Maj. F. E. Resche was assigned the duty of giving the companies a preliminary brush up for the inspection in general tactics and company and battalion movements. His work, too, is praised by the returning soldiers.

Lieut. Josten, of company C, will now go ahead with preparations to take about sixteen members of the company on the vaudeville stage early in September. These men will give the famous military drill of all nations and each drill will be accompanied by a clever dancing exhibition. It is reported that several of the best dancing girls on the vaudeville stage have been secured to participate in the performance. They will keep the audiences engaged while the men are making the necessary changes in uniform to present the work of the different nations.

IS GROWING.

Commercial Club's List of Paid Members Reaches 560.

The Commercial club has 560 paid members and it is expected that the minimum of 600 will be secured before the end of the week. The officers of the club are especially anxious to reach the minimum of paid members so that they may not only close the lease for the club rooms, but that they may give contracts for the billiard and pool tables and other furniture needed to equip the new quarters so that it can be secured by the time the building is finished.

Several important discussions occurred at the general monthly meeting of the club members last night. Among subjects brought up that had not been scheduled was that of the cost of living in Duluth. President Patrick laid down the proposition that he did not believe that the cost here was so much greater relatively than in other cities similarly situated and of similar size. He added that he believed the club should make an investigation of the question and if found not true he believed that the country should be made to know that Duluth had been given a reputation it did not deserve. As a result, a committee of three will be named to make an investigation.

Mayor Hugo, as chairman of a committee appointed to consider a proposition of the Hundred Thousand club of Superior that Wisconsin and part of Minnesota points be set aside as a military reserve, read a report favoring the proposition. It was recommended that a committee be appointed to act in conjunction with the Superior committee in seeking to induce the federal government to take steps looking toward the end indicated. A committee of three will be named.

The committee to which was referred the question of arranging for packaging by carrier routes on the mail cars the letters arriving on the Omaha fast mail, through A. C. Weiss, reported progress and asked for further time, which was granted.

Mayor Hugo called attention to the advisability of extending invitations to various conventions and bodies to meet in Duluth. He said he had been asked when away why Duluth did not enter the lists for these meetings. The club will probably take this matter up actively.

A committee will be named to urge President Roosevelt to visit Duluth. This committee, it is expected, will work in conjunction with committees from political and civic bodies here.

The proposition of agitating the patronage of home industries was also discussed and some crusade along this line will probably be planned.

DANGEROUS.

Small Craft Are Having Trouble With Dead Heads In Harbor.

Launches and small sailing craft in the Duluth-Superior harbor are being badly damaged by half sunken logs and heavy pieces of timber.

The complaint is so general that there is some talk of the owners of launches getting out in a sort of "dead-head" pulling bee. The matter was called to the attention of Mayor Hugo, who, while heartily in sympathy with the boat owners complaining, says that it would be too momentuous an undertaking for small pleasure craft.

Recently while out through the ship canal on business the mayor's launch nearly sank as the result of a collision with a submerged log.

Sailing down Superior bay is said to be dangerous on account of the large number of obstructions floating around just beneath the surface of the water. Several sail boats were put out of commission last week on account of this trouble.

Mayor Hugo says: "It seems that the danger from this source has only arisen during the present season of navigation. Of course, a man navigating a small launch in a harbor like Duluth's must be constantly on the alert for obstructions, but it seems to me that the number of floating obstructions has increased greatly and something should be done to clear the harbor."

MUST REFRAIN.

Fire Crackers Barred Until the Fourth.

Duluth youngsters that are giving premature celebrations of the Fourth of July are to be sternly suppressed.

Complaints were received at the city hall this morning, to the effect that the boys were scaring horses with fire crackers. The mayor called the attention of Chief Troyer to the fact and orders were given the patrolmen to look out for the offenders.

Without special permission from the mayor the shooting of fire crackers is prohibited by the city ordinances, except on the Fourth of July.

Nearly Died of Starvation.

A young man in one of our large cities was recently found in an unconscious condition, and upon examination it was found that he was dying of starvation. Food was given in small quantities and in a few days the patient recovered. There are many other people starving themselves because they are afraid to eat good substantial food. Their stomachs are weak and cannot therefore digest it properly. Consequently the patient loses flesh and the blood and nerves become impoverished. A few doses of Hostetter's Stomach Bitters will restore the stomach to its normal condition and cure headache, indigestion, dyspepsia, flatulency, constipation and biliousness. It is the best stomach strengthener and health builder in existence. Try it and see for yourself.

WOMEN IN SESSION

Auxiliary of Duluth Missionary District Holds Annual Meeting.

Opening Sermon Delivered By Rev. W. R. Webster of Moorhead.

Mrs. Morrison Delivers President's Address--- Reception For Visitors.

The final session of the seventh annual convocation at St. Paul's church of the Episcopal district of Duluth came to a close this morning. The delegates, in conjunction with the Woman's Auxiliary, received holy communion this morning at 10 o'clock, administered by Bishop J. D. Morrison, assisted by Dr. Ryan, after which the convocation delegates adjourned to the rectory, where they finished up the work of the session.

Rev. Dr. A. W. Ryan read a memorial on the labors of the late Bishop Whipple. H. M. Green was re-elected dean of the Red River valley, and Rev. H. F. Parshall, of the Mississippi valley; Rev. H. M. Green, of Crookston, and B. F. Mockel were elected delegates to the missionary convention which meets at Cincinnati in October. W. S. Bishop was re-elected treasurer of the district; W. J. Johnson, assistant treasurer. Reports of and appointments to various committees occupied the remainder of the morning.

WOMAN'S AUXILIARY.

The Woman's auxiliary meeting began with an address by Rev. W. R. Webster, of Moorhead. He said that something was due from us to God for all of the benefits that he has bestowed upon us. There are two contradictory instincts in man which should be harmonized and made to work for each other. There is that instinct which not only teaches man of the reality of his personal being, but also teaches him what he owes to himself. Here the "ego" is predominant. The other is the sympathetic instinct, which teaches men what is due to those about him.

"There is indeed much that man owes to himself, but no man can fully repay himself, give to himself that which is his due, unless he strives to develop within him that other instinct which urges him to do for others. Self-preservation is the greatest natural instinct, and yet the giving of one's life for the preservation of others is the greatest offering one can make. Here we have the most complete harmonization of the two instincts of which they are capable. This is equally true in the spiritual as well as in the physical world. Those who enjoy the blessings of redemption, of worshipping the true God in spirit and in truth, are bound to do for those who have not the same blessings. And why must we do so? Simply because we must, if we be true men and arise to the natural possibilities, develop the sympathetic instinct which bids us do for others, and because our inheritance in Christ Jesus is an inheritance which must be shared if we are to enjoy its full privileges and blessings."

Rev. Webster said that love was the underlying principle of all missionary effort. He spoke at some length of the missionary cause, making his main point that Christianity is not selfish. He said that the debt which the church owes the Woman's auxiliary is one that can never be paid.

Noonday prayers for missionaries were held at 12 o'clock, after which lunch was served by the Ladies' auxiliary in the guild room.

At 2 o'clock this afternoon the president's address was given by Mrs. Harriet M. Morrison, and several letters from missionaries were read. The question box was opened and an address delivered by Bishop Morrison.

This evening Bishop and Mrs. Morrison will hold a reception for the delegates and the women of the auxiliary at their home on East Superior street.

A JUROR DIES.

Schadle-Smith Case Continues With Eleven Men.

St. Paul, June 19.—(Special to The Herald.)—William F. Pease, one of the jurors in the Schadle-Smith case, died last night at his home on Ashland avenue. His death was reported by the attending physician, Dr. Kern, this morning.

Judge Kelly stated the case at the opening of court this morning, adding: "It is for the parties to decide whether they will go on with the remaining eleven or begin again." A moments conference of attorneys Munn and Butler settled it that the trial go on. Dr. Schadle resumed the stand and was cross-examined by Mr. Munn.

SILBERSTEIN & BONDY CO.

Will Commence Tomorrow Their Half Annual Clearance of Spring and Summer Tailored Suits and Jackets For Women and Misses at Exactly Half Price.

Following their usual custom of cleaning up their stocks—the Silberstein & Bondy Co. have made the above announcement for the sale of Women's and Misses' Spring and Summer Suits and Jackets at half their regular price. It is undoubtedly the trading event of this season—and as this firm's announcement can be absolutely relied upon to the letter to mean half when they so advertise, it will undoubtedly be the means of crowding the cloak and suit parlors.

Sunday Outing.

Sunday train. Duluth to Solon Springs, leaving Duluth at 9:15 a. m., returning leave Solon Springs at 6:25 p. m., arrive Duluth at 7:55 p. m. Tickets 90 cents on sale at ticket and depot ticket offices North-Western Line.

REDUCTIONS IN SUGAR.

New York, June 19.—The following reductions were made in refined sugar today: Grades 5, 6 and 7, ten points; all other grades five points.

INJURED DOING WELL.

Creede, Colo., June 19.—The injured in yesterday's fire are recovering. William Stewart and Fritz Zint, who were reported missing, have been found.

AT WEST DULUTH

Progress is being made steadily with the construction of the temporary street railway tracks on Thirty-ninth avenue west, which will be used while the service is discontinued at the Jenswold street subway. The work has taken longer than was expected for the reason that the street railway company had first to put in another track from the bridge at the Driving park to the corner of Thirty-ninth avenue west. There was only track westward from the switch at the bridge and the macadam had to be torn up to put down a few blocks of the other track. A temporary double track will have to be constructed on Thirty-ninth avenue west in order that the company may keep up its schedule of West Duluth cars in the afternoon and early evening.

The board of public works is ready to begin tearing down the old wooden bridges and viaducts, just as soon as the new track is ready for use. The company has expected to have the track ready by the first of this week, but it will probably be the first of next week before the cars will be taking the West Third street route to West Duluth.

PLEASED OVER IT.

The Republicans of West Duluth are feeling well pleased over the successful banquet held last evening and the felicituous speeches. They say the affair turned out even better than was anticipated and the club hopes to be able to give as good an entertainment another year. There was not one hitch in the proceedings and the West Duluth Republicans have received many compliments from the downtown partisans on their success. The supper by the women of the Methodist church and the music by Lanner's orchestra is specially spoken of in complimentary terms.

JUMPED JUST IN TIME.

Two West Duluth young men who were returning yesterday afternoon from a fishing trip at the Northern Pacific bridge at this end of the city, over the St. Louis river, witnessed the narrow escape from death of a couple of section men near the bridge. A gravel train came over from West Superior, the engine happening to be attached to the rear and pushing along at a rapid rate. The section men did not see the train approaching and did not learn its presence until it was nearly on them. The crew on the train shouted just in time and the men jumped, one of them being struck lightly by the corner of the car.

TOUTOFF-DELANEY.

Justice and love played tag in Judge Stone's court yesterday afternoon. A lawsuit in the forenoon and a marriage in the afternoon were responsible for the extremes. About 4 o'clock yesterday afternoon Miss Rose Toutoff and Joseph Delaney, both of this city and county, appeared before Justice Stone with the necessary documents and acquainted him with their desire to become man and wife. The clerk of court had just gone down the street for blanks, and Judge Stone called in the ladies next door and the blushing pair were made one.

This afternoon the affections of Mrs. Mary Sorrow for her pet dog, now departed, and the alleged base, cruel action of one Al Chaurette in killing the canine, will receive the attention of the West Duluth justice court. The complaining witness claims that the defendant willfully and without good reason, took Towser's life, while the latter will claim that the dog made a rush for him, frothing at the mouth, and to protect himself from danger he drew his revolver and stopped the canine with a good-sized chunk of lead.

CHECK WAS BAD.

A hobo giving the name of J. S. Rossiter was arrested in West Duluth yesterday on the charge of attempting to pass a bogus check for $41. He tried the check on Bellmuer & Rossiter, claiming relationship to the latter, but the deal failed to work. Mr. Rossiter, becoming suspicious, notified the police. When arrested the stranger had tried to get the check cashed at Kastriner & Neumann's, but without success. He claims to have been employed by the Omaha Packing company, at Omaha, and says the checks were given to him by a roommate in Superior. Detective Irvine took the suspect uptown.

SHIPMENTS OF LIMESTONE.

Another shipment of limestone has arrived at the blast furnace. This is not the first shipment, as several cargoes have already been landed there since the furnace changed hands. A large amount of coke is being received it being the evident policy of the furnace company to prepare for contingencies in event the coal strike cuts off the supply of coke later on in the season.

WEST DULUTH BRIEFS.

The Leading Stars, West Duluth's latest baseball aggregation, will play in Cloquet next Sunday. It is expected that quite a crowd of the West Duluth sports will accompany the ball team.

Mrs. Robert Forbes and son Sabin returned yesterday from Port Arthur, where they attended the marriage of Mrs. Forbes' niece.

John Rollins has gone up the St. Louis river on a fishing trip.

Miss Allie Glover is on the sick list.

Miss Blanch Kiltin, who has been suffering from a severe swelling on the side of her face, has undergone an operation and is improving.

The ladies of the St. James parish gave a very successful ice cream social at the corner of Fifty-sixth avenue west and Cody street last evening. Music was furnished by Lanner's band.

The funeral of Mrs. Bessie Woods took place this morning from the St. James church, Rev. Father Peeheley officiating. The decedent suffered from consumption. She was the daughter of Mr. and Mrs. Peter Dorev of 336 Sixtieth avenue west.

Miss Mildred Pearson entertained a party of little people at her home yesterday afternoon in celebration of her 12th birthday anniversary.

Mrs. J. A. Kirkwood and Mrs. D. G. Parsons are visiting at Cloquet.

The annual meeting of the W. C. T. U. was held at the Congregational church this afternoon.

Sold in Duluth by S. F. BOYCE, Druggist, 335 West Superior Street.

"WORN OUT IN MIND AND BODY"

Pe-ru-na Tones Up the Entire System By Cleansing the Mucous Surfaces of the Whole Body.

Mr. Hugh McLaughlin, 205 Coubent street, San Antonio, Texas, official stenographer of the United States court, Western District of Texas, writes:

"My official duties have at times required constant attention and application about eighteen hours out of twenty-four. After a week of exertion I have found myself so worn out in mind and body that it seemed that I must give up.

"Last winter at the close of session of court, the severest in my experience, I was simply a physical wreck, unable to eat or sleep. In my extremity a messenger of help came in the shape of one of your little booklets. I read it with interest and that night bought a bottle of Peruna. It seemed a veritable elixir of life to me and I only took it for three weeks to renew my strength."—Hugh McLaughlin.

In systematic catarrh there is more or less catarrh of every organ in the body. The catarrh may have originated in the head or throat, but it has finally prevailed the whole system. It produces a wretched condition.

The mucous membranes of the whole body refuse to do their work properly. Sight, hearing, and taste are slightly affected. The lungs are weak; the voice husky. The tonsils are red and inflamed. The stomach does not digest food well. The liver gets sluggish, and the nervous system gradually becomes deranged.

Peruna strengthens weak nerves, not by temporarily stimulating them, but by removing the cause of weak nerves—systematic catarrh. This is the only cure that lasts. Remove the cause; Nature will do the rest. Peruna removes the cause.

Peruna cures catarrh wherever located. As soon as Peruna removes systematic catarrh the digestion becomes good, appetite regular, nerves strong, and trouble vanishes.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

An Ice Cream Social and
DANCE
Will be given by West Duluth Lodge No. 85 Degree of Honor at Gilley's Hall Friday, June 20. Columbian Orchestra. Dance Tickets 50 cents. Ice Cream and Cake 15 cents.

A. O. U. W.

Grand Lodge Will Meet at St. Paul Next.

Portland, Ore., June 19.—The vote last night on choice of the next meeting place of the grand lodge of the A. O. U. W., stood St. Paul, 313; Cincinnati, 255.

The following were elected delegates to the National Fraternal congress: A. C. Harwick, Webb McNall, C. R. Mathon, W. H. Miller, D. H. Shields, W. F. Robson and H. C. Sessions.

A resolution was adopted recommending that all grand lodge jurisdictions contribute to the erection of a temple for the fraternity at the St. Louis exposition.

STRIKE OPPOSED IN IOWA.

Des Moines, June 19.—President J. P. Reese of the Iowa district of United Mine Workers, is opposed to a strike in this state, and predicts that none will take place. Other union offices are said to hold similar views. The miners, who number 15,000 are under contract with the operators at an agreed scale for one year from April 1 last. The miners are thoroughly organized.

Cuts, Bruises and Burns Quickly Healed.

Chamberlain's Pain Balm is an antiseptic liniment, and when applied to cuts, bruises and burns, causes them to heal without maturation and much more quickly than by the usual treatment. For sale at Boyce's drug store.

IN VERMONT.

Republican State Convention Rent With Bitter Contests.

Montpelier, Vt., June 19.—The Republican state convention here today has before it some of the most bitter contests that has ever confronted a body of delegates in this state. With great energy the supporters of three gubernatorial candidates, Gen. John J. McCullough, of Bennington; Percival W. Clement, of Rutland, and Fletcher Proctor, of Proctor, battled up to and even after the hour of opening the convention, the supporters of Clement, who is the "high license" and "local option" candidate demanded a resolution adopted by the Vermont Local Option league be incorporated in the platform and the members of the state committee were wrestling with this question prior to the opening of the convention. There was also a three-sided contest for the office of lieutenant governor, the candidates being F. W. Baldwin, of Barton; D. F. Stanton, of Roxbury, and D. M. Bartlett, of Brighton.

SUBSIDY

For Ocean Liners Is Favored By Lord Brassey.

London, June 19.—Testifying before the house of commons committee on steamship subsidies today, Lord Brassey, former civil lord of the admiralty and at one time its secretary, said he favored the policy of subsidizing ocean liners for use as armed cruisers. Undoubtedly it would be to the public advantage to have a number of auxiliary war vessels, but it could not be accomplished without subsidies. The owners of the Cunard line now remained as the only British champions in the Atlantic traffic and it would be a national disaster if the line was transferred to a foreign flag. If the Cunard line could not hold its own unassisted the government ought, for the patriotic motives, to render the assistance necessary to retain the company under the British flag.

SERENO E. PAYNE, LL. D.

Hamilton, N. Y., June 19.—Colgate University today conferred the degree of LL. D. on Cereno E. Payne, chairman of the ways and means committee of the house of representatives.

STRIKE DECLARED OFF.

Chippewa Falls, June 19.—The proposed strike of men employed in the sawmill was declared off at a meeting of the Mill Men's union last night, all returning to work this morning. Citizens are jubilant over the action of the men as the closing down of the plant would be a serious blow to the business interests of the city.

Fine assortment of Papers at ..... **6c, 5c and 3c**

Don't fail to take advantage of these prices.

PROVIDES A PLACE

Resignation of Judge Edson Will Leave Good Job Open.

Will Devolve Upon Gov. Van Sant to Name Suecessor.

Daniel Waite, J. A. Hanks and W. L. Windom Mentioned.

The announced intention of W. D. Edson to resign the municipal judgeship on Sept. 1 is likely to cause something of a scramble for the office he vacates.

The municipal court judgeship carries with it a salary of $3000 a year, and when Judge Edson retires in September there will still be a year and a half of the current term unexpired.

The vacancy will be filled by Governor Van Sant, and it is understood that he was approached regarding the matter during his short stay in Duluth last night.

The leading names mentioned in connection with the filling of the vacancy left by Judge Edson are: Daniel Waite, William L. Windom and James A. Hanks.

None of these men are avowed candidates for the appointment, but it is known definitely that their names were presented to Governor Van Sant yesterday during a few informal talks regarding the local political situation, and especially during the conversation about Judge Edson's candidacy for congress.

All three men are prominent Republican members of the St. Louis county bar. Mr. Waite has made something of a record for himself as chairman of Republican city committees, and it is said that he has a strong following for the municipal court judgeship.

William L. Windom is also prominent in law and politics. His leadership of the Republican faction opposed to the Wilcuts machine and his presidency of the State League of Republican Clubs have given him a political reputation throughout the state.

James A. Hanks was special judge of the municipal court for several years and he has also been in aldermanic politics several times.

The expression is freely heard that the resignation of Judge Edson is likely to be effective only in case of his winning the congressional nomination.

The judge, in talking to a friend yesterday, dispelled the idea that there was a string attached to the resignation. He said that in resigning the office of municipal judge to become a candidate for the congressional nomination there was no string whatever attached to the resignation. He realized that he was taking chances in giving up the judgeship in the middle of his term to enter the congressional race, but would abide by the consequences.

ADDRESS HIGH SCHOOLS.

State Supt. Olson Goes Up to Mesaba Range.

J. W. Olson, state superintendent of schools, was in the city today on his way to the Mesaba range. He will speak at the high school graduating exercises in Eveleth tonight, and at similar exercises in Virginia tomorrow night.

Both of these schools have been placed on the state high school list. County Superintendent Park said this morning that the schools of McKinley and Sparta stand a good chance of being made state graded schools very soon. Their records are such as to make them superior to many schools that are now graded.

C. S. Palmer, of Duluth, has been elected principal of the Proctorknott schools.

ANDERSON ALIVE.

Soldier Reported Dead In the Philippines Returns.

St. Paul, June 19.—A special to the Dispatch from Red Wing, Minn., says: O. A. Anderson, who served with the Thirteenth regiment in the Philippines, was some time ago reported dead at Hibbing and his obituary published. Last night he turned up here, greatly surprising his friends.

E. W. Grove
This signature is on every box of the genuine Laxative Bromo-Quinine Tablets the remedy that cures a cold in one day.

CITY BRIEFS.

Tibbetts, undertaker, 31 East Sup. St.

Smoke X-Ray and Duluth Herald cigar.

Parlor theater—Great show this evening.

The Silberstein & Bondy company commence tomorrow their half-price annual clearance of spring and summer tailored suits and jackets for women and misses at half price.

Attend the dance tonight at Lester.

There was quite a rush of applicants at the local land office today to file on claims in the new town, 58-26 in the Bowstring country. The land is said to be well timbered.

Parlor theater—Jolly vaudeville bill.

PERSONALS.

Miss Helen Mackey left today for Mason City, Ia., to attend the wedding of her sister, Miss Cora Mackey, to William H. Brisbane, of Winona, Minn., next Wednesday. Miss Mackey has many Duluth friends.

Miss Agnes Bonnier, of Cloquet, and Mrs. F. Dallas, of Port Arthur, are visiting at the home of Mrs. J. A. Ryan, of 1339 West Superior street.

Miss Anna Ryan has returned from school to spend the vacation with her parents, Mr. and Mrs. James A. Ryan.

E. L. Rakowsky returned last evening from St. Paul and other points in the southern part of the state. He attended the state convention of the Young People's Alliance of the Evangelical association at Preston, Minn., and was elected vice president of the convention. Rev. L. S. Sinpf, who attended the same convention, returned this morning.

Edward March, of Fargo, N. D., is making his annual visit to Duluth for the summer, visiting his daughter, Mrs. R. C. Henry, o. 324 East Second street.

Richard Schell returned on the Iroquois this morning from a trip to Port Arthur, Isle Royale and Houghton.

Capt. Singer was a passenger on the return trip of the Iroquois this morning, from Isle Royale, where he has been in the interests of the new hotel he is building.

H. F. Brown will go East over the South Shore this evening.

Ralph Ash has returned from a trip to New York city, where he took in the Suburban races last Saturday. It is said he returned a great admirer of the odds of 15 to 1.

J. H. Nordby and daughter, of Two Harbors, will leave on the fast mail this afternoon for Chicago.

M. J. Bryan is back from a trip to La Crosse and the Twin Cities.

Dr. Magie took the Lake Superior limited this afternoon for St. Paul.

L. J. Belden is going to St. Ignace this evening.

H. C. Marshall will be a passenger for Chicago over the Omaha this afternoon.

Capt. C. Peterborough has returned from an Eastern trip.

George Bliss, chief clerk at the Spalding hotel in the early '90s, died last night at Madison, Wis. No particulars are known. The news came in a telegram to J. H. McFadzean. Mr. Bliss for many years was chief clerk at the Eastern hotel at Hot Springs in the winter and at the big resort at Put-in-Bay in the summer.

Will S. Taylor came up from Appleton this morning. He is at the Spalding.

G. G. Barnum went to Minneapolis this afternoon over the Great Northern.

Henry Connelly, a leading merchant, and E. Donlan, both of Shell Lake, are at the McKay today.

Mr. and Mrs. W. O. Felgelstock, who have been visiting friends here, left on the Great Northern today for New York.

Capt. John A. Redfern and wife, of Hibbing, are at the Spalding.

Frank Chestor leaves for Chicago this afternoon.

Fred Lewis will be a passenger on the Fast Mail this afternoon. He is going to Chicago to see the derby.

J. H. Nordby and daughter, Althild, will leave today for a short trip to England, Sweden and Norway. Roy Nordby accompanies them as far as Chicago for a two weeks' stay.

Peter Patterson, formerly of Duluth, but who now makes his home on the Pacific coast, is in the city for a short visit.

MARRIED AT WINONA.

Duluth Man Weds Young Woman of That City.

The marriage of Miss Frances Vanderoy, of Winona, Minn., and Otto C. Borth, of Duluth, took place Wednesday at the home of the bride, the ceremony being performed by Rev. S. F. Kerfoot, pastor of the Central M. E. church of Winona. The Winona Independent speaks thus of the wedding:

"The wedding was a very quiet affair only the immediate relatives of the contracting parties and a few friends being present. The couple were unattended. The bride wore a very pretty white dress and carried roses.

"The bride and groom are both well known in this city, the bride having lived here for a number of years, and is a very popular young lady. Mr. Borth was a resident of Winona up to a short time ago, when he removed to Duluth, where he is connected with a wholesale harness establishment. Mr. and Mrs. Borth will reside in Duluth."

Swingle-Dennis.

The marriage of Miss Myrtle Swingle, eldest daughter of Mr. and Mrs. Adelbert Swingle, of 503 Ramsey street, and Adrian Dennis, a dispatcher at Proctorknott, for the Missabe road, will take place at the home of the bride's parents, the second week in July. It will be a family affair and very quiet. Mr. and Mrs. Dennis will make their home at Proctorknott.

IS STILL ON STAND

Mrs. Mueller's Examination In Mueller Case a Long One.

Handwriting Expert Curtis Was to Be Called For Her.

Alleged Widow Describes Exhumation of Johann Mueller's Remains.

Mrs. Mueller was on the witness stand in the Mueller case all of this morning, and at noon the direct examination was concluded, and she was to be cross-examined later.

This was put over to receive the testimony of hand-writing experts, who will figure largely in the case. C. C. Curtis, of Minneapolis, a famous expert in this line, was to be called by Mrs. Mueller's attorneys this afternoon. The purpose of this testimony is to connect the handwriting of Mrs. Mueller's husband with that of the Johann Mueller who owned the property in dispute.

The testimony was of a ghastly nature this morning, Mrs. Mueller giving detailed evidence as to the process of digging up Mueller's body from the grave that held it in Superior.

The witness showed a disposition to indulge in tears frequently, especially when she spoke of identifying her husband in the remains that she had dug up.

Yesterday afternoon Mrs. Mueller testified that some years after their marriage her husband received a quantity of money from his mother and left for America. He did not tell his wife that he was going, and she did not hear from him until he arrived in New York. Later, under date of March 12, 1872, he wrote her from Detroit, and this letter was introduced in evidence. In it he asked her to follow him to Detroit, and she reached Detroit June 1 of that year.

In 1875, Mrs. Mueller said, her husband got into some trouble with an acquaintance, the nature of which he did not state, and the acquaintance threatened to shoot him. He was forced to leave Detroit, and never returned to her. She heard of him several times, and eight years ago she caught a glimpse of him as he alighted from a street car in Detroit. She spoke to him, but he refused to recognize her and hurried away. She never saw him alive after that time.

This morning she testified that her husband was a Catholic, and that they were married by a Catholic priest. Her husband was firm in his faith, she said, and the children were christened in the Catholic church.

She said she first heard of the Duluth Mueller when a young man in Detroit brought her a copy of a paper containing a summons in the present case. Then she began to investigate it. Later she came to Duluth and remained here three months. At that time she visited Johann Mueller's grave at Superior, finding it marked by a cross bearing the name of "J. Mueller."

Dec. 22, 1900, two years after Mueller's death, she had the body exhumed. Her son, Anton Schulte, Jacob Schuler, an undertaker, two doctors, two workmen and two lawyers were present. The remains were recognizable, and she said they were those of her long-lost husband. In her testimony she insisted upon saying that the ravages of the grave were the result of the surgeon's knife, and she described the ghastly process under which she thought the body had gone in a hospital in Superior.

The remains were buried again in a new coffin, the old one having been broken, and later she took them to Detroit and had them buried.

At the close of her testimony she was shown a photograph. It is one of the Johann Mueller who owned the land in dispute. She began to cry again when she saw it, and said that it was a picture of her husband.

Shortly before the noon adjournment the direct examination of Mrs. Mueller was concluded. She had been on the stand nearly a day and a half. The cross-examination comes next, and it will be quite an ordeal. All of the attorneys, except her own, represent interests hostile to hers, and most of them will have questions to ask her.

There was some discussion of the order of cross-examination, the various attorneys wanting somebody else to start it. Judge Cant suggested that Mr. Severance, for the plaintiffs, should examine her first, and this will be done.

PRIMARIES.

Democrats Will Select Delegates to County Convention.

The Democratic primaries will be held tonight between 7 and 8 o'clock, when delegates will be selected to the county convention to be held Saturday. The county convention will select forty-four delegates to the state convention that will be held in Minneapolis June 25, when a complete state ticket will be placed in the field, headed by John Lind, it is supposed, though the name of H. P. Hall has come out within the past twenty-four hours, the veteran newspaper man believing that John Lind will not accept the nomination.

The Republican primaries will be held Saturday evening.

A Delightful Trip.

After June 20th the Detroit and Cleveland Navigation company's steamships will make direct connection with the D. S. S. & A. railroad at St. Ignace, Wednesday and Friday of each week, running to Detroit, Toledo and Cleveland. This is one of the most delightful water trips that could be imagined, and the service is in every way commendable. Meals are served a la carte at popular prices, and every comfort is provided for the accommodation of passengers. Tickets may be secured at the city ticket offices of the D. S. S. & A. railroad, 426 West Superior street.

A SEARCH FOR GOLD

In Kansas Shale Vigorously Prosecuted By Moneyed Men.

The Statements of Scientists Are Much at Variance.

Some Declare That There Is Gold There In Paying Quantities.

Smoky Hill City, Kan., June 19.—This new town is in the heart of the Kansas gold field, so-called. It is a beautiful town site, but there isn't much of a town. Col. E. J. Smith keeps the general store, the hotel and the post-office, and there are a dozen or more shacks occupied by prospectors. Two miles away is the mill owned by a company which uses what is known as the Gage process for the extraction of gold from the shale found in abundance in the region surrounding Smoky Hill City. Two miles away in another direction is the site of the mill now building by the company which uses the Fahrig process. A score of companies are selling stock in shale "mines," but the only companies which are doing anything toward the development of the "find" are those which have the processes mentioned.

This region is known as the Trego-Ellis country, because it extends over a large portion of Trego and Ellis counties. There is, however, no excitement here, as the residents of the country do not believe there is any gold in the shale. The excitement is at Topeka, where most of the shale enthusiasts live, and at Lawrence, where the state university is located. In Topeka the "shalionaires," as they are called, believe they have struck it rich, while at Lawrence the university professors do not hesitate to pronounce the gold discovery a humbug.

Three months ago H. P. Dillon, president of the Shawnee Fire Insurance company, of Topeka; W. J. Black, general passenger agent of the Atchison, Topeka & Santa Fe Railroad company; F. W. Freeman, cashier of the Merchants' National bank of Topeka; Charles J. Lantry and W. A. L. Thompson, representing themselves and a dozen other Topeka men of equal prominence, engaged Dr. Ernest Fahrig, expert chemist of the Philadelphia Commercial museum, to come to Smoky Hill City and test the shale. Dr. Fahrig came, brought with him his process and a small mill, made several tests, and on May 2 made a report to the men who engaged him. He gave the results of twelve mill runs, as follows:

Friday, April 11, 1 value per ton.....$ 60
Monday, April 14, 2 value per ton... 2.80
Tuesday, April 15, 3 value per ton... 6.75
Wednesday, April 16, 4 value per ton. 2.80
Thursday, April 17, 5 value per ton.. 2.80
Friday, April 18, 6 value per ton... 5.20
Saturday, April 19, 7 value per ton.. 2.60
Monday, April 21, 8 value per ton... 2.20
Tuesday, April 22, 9 value per ton... 2.25
Thursday, April 24, 10 value per ton.. 2.90
Friday, April 25, 11 value per ton... 1.20
Saturday, April 26, 12 value per ton... 1.20
Average per ton, $2.80.

In the opinion of Dr. Fahrig and the gentlemen to whom he reported shale could be handled in large quantities at about $1 a ton, so they decided to make an extensive experiment. They formed a company with a capital of $50,000, the amount being subscribed for by the seventeen men who employed Fahrig. No stock was offered for sale on the market. Fahrig has been engaged to manage the mill for six months, taking his pay in the company's stock. That's how much confidence he has in his assays.

Erasmus Haworth, professor of physical geology and minerology of the state university, whose reputation as a scientist, in Kansas at any rate, has been second to none, attacks both the Gage and Fahrig processes. He says the Gage process is simply the cyanide process "with a few frills to fool the laymen." He doesn't pretend to say what the Fahrig process is, and as both are supposed to be secret, outsiders have as yet been unable to learn anything definite about it.

The first report of gold in the Kansas shale came in 1894. H. H. Arts, a Populist politician, said an old Indian whom he befriended told him there was gold in the rocks near the town of Wakeeney. Arts started a "mine" and found what he said was gold. He carried a button of gold around for months, saying a Denver assayer got it out of a piece of shale. He interested some men here, who spent a little money, but without favorable result. Ever since that time there has been periodical booms in Kansas shale.

Professor Haworth visited the Arts mine and made an examination of the shale, declaring that it did not contain gold. In 1897 Haworth was chairman of the Kansas geological survey, and made a careful investigation of the shale fields, and in his report said:

"So far as this department knows, no conditions obtain anywhere in Kansas which would warrant a hope that any of the precious metals can be found in paying quantities."

Haworth made another report about the mineral resources of Kansas in 1898, giving a short chapter on gold. He said that 200 samples of shale from the Trego-Ellis district had been analyzed at the State university, and that while traces of gold had been found, 60 cents a ton was the largest yield obtained.

In 1899 Haworth made still another report. The university sent to fourteen different parts of the Trego-Ellis district for samples of shale. "Not a single one of the fourteen samples," says Haworth, "yielded an appreciable quantity of gold, although the methods employed were the most recent and reliable known to assayers."

Nothing more was heard from Haworth till last week, when he again went on record declaring that there was no gold worth hunting for in the Trego-Ellis district.

The men with processes are not paying any attention to Haworth. The reporters tried to interview them, but they wouldn't talk. "What's the use to fuss?" one man asked. "In three months the world will know who is right," he said, in answer to his own question.

"Professor" A. G. Gage, who has one of the processes, is not known as a scientist, although he is a practical miner, having spent many years in the Galena zinc mines. Among the men who are backing him are Chief Justice Frank Doster of the Kansas supreme court; John R. Mulvane, president of the Bank of Topeka; J. H. Richards, general attorney for the Missouri Pacific railroad, and D. R. Beatty, who lately cut quite a figure as an oil magnate at Beaumont.

The Gage mill has been in operation a month, but up to this time no gold has been shipped. Gage says the results are "satisfactory," but that the machinery is not right. The Fahrig mill will be in operation by July 20, if the factory can make the machinery in time.

The men who are backing Fahrig say the Philadelphia Commercial museum is one of the most reliable institutions in the United States, and that Fahrig has no "standing." The Topeka papers point out that the company backing Fahrig has nothing to sell, which fact is held to be something in his favor.

Somebody is woefully mistaken about the Trego-Ellis "gold fields," and in three months, or less time, the public will know who he is. Either Dr. Fahrig or Professor Haworth will be in bad repute with the institution which pays his salary.

SECRETLY AND QUIETLY.

Coffee Slowly and Steadily Poisons Some Persons.

There is no doubt that coffee secretly and quietly causes an immense amount of misery to the human race, but in the majority of cases the person does not suspect the cause of the trouble.

A Virginia lady had an interesting experiment with coffee poison. She says, "For about five years I was troubled with indigestion, weak stomach and palpitation of the heart so bad that at times I would fall and have to be carried into the house. Finally I began to have spasms and suffered untold misery. I tried all kinds of patent medicines and different doctors, only to get temporary relief.

I finally gave up all hope of getting well. My stomach was in such condition that everything but stale bread would throw me into spasms. I nearly starved myself but never suspected that coffee was the cause of all the trouble, nor did I have any idea what the cause was.

One day Father told me he had been reading how Postum Food Coffee helped so many people who were sick from coffee drinking and he urged me to leave off coffee and try Postum. I said, 'Oh, Father, I cannot try it and do not believe it would do me any good,' but he persuaded me to try a package.

The first making tasted so flat that it made me half sick, but I determined to give it a fair trial so I read the directions carefully and found that it must be boiled at least fifteen minutes. Well I boiled it 25 minutes then added some good cream and I tell you it was delicious. I like it better than the ordinary coffee and, of course, stick to it.

Well, I have been using it since the 15th of July now, quite two months. I have gained about 25 pounds. I gained six pounds in 13 weeks, and can eat anything I want and all that I want. My stomach never hurts me. I have gained strength until now I can do my own work and go to church every Sunday.

People say, 'You are looking so well, what kind of medicine are you taking?' I tell them I have quit all kinds of medicine and also coffee and am only using Postum Coffee.

You may be sure I will recommend it and will guarantee a cure where the person will boil it long enough and drink enough of it. I would do without a meal for the sake of one cup of Postum.

I could tell a lot more but space will not permit. You are at liberty to print this letter and my name also for the benefit of others." Mrs. A. T. Brown, Central Station, W. Va.

Silberstein & Bondy Co. | Silberstein & Bondy Co.

Commencing Tomorrow, Friday Morning

We shall place on sale the remainder of our Spring and Summer lines of Women's and Misses'

Tailored Suits and Jackets at Exactly Half Price

The Suits consist of Basket Weaves, Etamines, Broadcloths, Homespuns, Coverts, Venetians and Cheviots—in all of the very newest styles and colorings—all Jackets are silk lined—some Skirts are plain Percaline lined — most of them silk lined.

The Jackets are all of the season's newest novelties and consist of Broadcloths, Cheviots, Venetians, Coverts, etc. —*to them we add our entire line of Silk Jackets*—in Taffetas, Peau de Soie and Moire, all lined with either silk or satin.

(Alterations charged for.)

This is following our usual policy of cleaning up our entire lines each season.

The handsomest as well as the medium and popular priced lines are all included—

$20.00 Tailored Suits at.....$10.00

CANDIDATES

Who Have Filed For Various State Nominations.

St. Paul, June 19.—(Special to The Herald.)—Albert F. Foster, of Litchfield, today filed with the secretary of state for the Republican congressional nomination in the Sixth district.

Representative E. W. Stark, of Harris, filed for a renomination as representative in the legislature from Chisago, Anandee and Pine counties. The district has a senator and two representatives. Stark will be in a combination with Dr. D. W. Conan, of Sandstone, who is running for the senate to beat Senator McKusick, who has already filed for the nomination.

John L. Olson, of North Branch, and W. F. Rowe, of Lindstrom, filed for the house at the same time McKusick filed for the senate, and Stark will try to beat one of these candidates.

2000 MEN'S SUITS

Selling at The Big Duluth at Nearly Half Price.

The entire lot divided into three lots. Lot 1 consists of your choice of 500 all-wool suits in black and blue cheviots and fancy cassimeres that have been selling at $8, $10 and $12, for $5.85. Lot 2 consists of your choice of 500 men's strictly all-wool suits in fancy cassimeres, in brown and gray checks and plaids, beautiful cheviots in plain black and blue, fancy worsteds in stripes and checks, fine clay worsteds and blue serges, all made up in first-class linings and trimmings, and all sewed with silk—not a suit in the entire 500 that ever sold for less than $14, $15 and $16—your choice for $9.85. Lot 3 consists of 1000 finest tailor-made suits in the best blue and black serges, Hockanum fine worsteds, English clay worsteds, genuine Scotch cheviots—one thousand suits in single and double-breasted sack suits and cutaway frock suits that are better trimmed, better lined, better sewed and more style and fit to them than those made to order at $30 to $40 and retailed elsewhere at $18, $20, $22 and $25—your choice of the entire thousand suits for $14.85.

Badly Chopped Face.

The "sausage face" is the latest in police circles. Eric Norman wore it, and it certainly looked the part. He told the police that supposed friends enticed him from a lodging house and down on the railroad tracks, where they robbed him of his watch and kicked him in the face several times. Liquor prevented him telling a very straight story, but the police are making every effort to apprehend the thieves.

Clark-Sampson Wedding.

Noble Sampson, the popular city sealer of weights and measures, was quietly married last evening to Miss Isabella Clark. After receiving congratulations today from many surprised friends, Mr. and Mrs. Sampson went away on a short wedding trip.

The Best Cough Medicine.

I sell more of Chamberlain's Cough Remedy than of all similar preparations put together, and it gives the best satisfaction of any medicine I ever sold. I guarantee every bottle of it.—F. C. Jaquith, Inland, Mich. This remedy is for sale at Boyce's drug store.

MARRIAGE LICENSES.

Aaron P. Carlson and Anna Hendrickson.
John G. Johnson and Josephine Solan.
Charles Carl and Audo Gulbranson, of Douglas county.
Noble Sampson and Isabella Clark.
Joseph Delaney and Rose Tontoff.
Edward C. Mehling and Petrine Pederson.

BIRTHS.

A MATTER OF PRICE

Is Causing Some Restriction In Purchase of Iron.

Steel Corporation and Furnace Men Somewhat at Variance.

Foundries Are Buying For First Half of 1903.

Cleveland, June 19.—The Iron Trade Review ...sensing market conditions in its current issue says: More of a disposition to buy for the first half of 1903 appears among the foundries, and considerable business has been closed or negotiated in the week with northern furnaces. Southern producers as a rule are not quoting for next year. Ohio furnaces are selling for 1903 on the basis of $21 and $21.50 at furnaces. The recent reports of purchases and negotiations by the United States Steel corporation of Bessemer iron for the second quarter of next year are erroneous. No purchases have been made since that of two months ago for the six months ending with March, 1903. It is not expected business for the second quarter of 1903 will be put through in the near future, as valley furnace men and the steel corporation are at variance on the matter of prices. The restraining influence of the consolidation is recognized throughout the market, yet the course of prices for plates and in the East for structural materials shows that the tendency is to pass to the point at which restriction of consumption is sure to result. The tonnage of pig iron purchases under discussion by foundries for delivery next year, and at prices close to those prevailing recently for 1902 deliveries, indicates less opposition to this high level than might have been looked for. Foundries are making new contracts with their customers for the year beginning July 1 and are compelled to ask considerably higher prices than last year's, thus far without signs of reduced demand. While fear of the effect of high prices is felt throughout the trade and the more as the period of sustained or of advancing prices lengthens the check to demand for which all are looking does not yet appear. So far as pig iron is concerned, buyers seem to feel more interest in business for 1903 than producers show. Pig iron production, reduced at the beginning of the month by the valley furnace strike, is now cut down by the West Virginia coke strike. Seven furnaces in the Hanging Rock district are banked but the embargo is not expected to last long. In eastern Pennsylvania irregular ... supply has increased the amount of low grade iron made by the furnaces and reduced the supply for foundries, so that foreign metal still finds a ready market. From a weekly rate of 352,064 tons May 1, pig iron output was cut down by the blast furnace workers' strike to 316,758 June 1, but it is now close to the May rate, equivalent to 18,500,000 tons a year. Stocks fell off about 200 tons in May and are no longer a factor to reckon with.

METCALF IS PRESIDENT.

New York, June 19.—J. G. Metcalf, president of the Evansville & Terre Haute railroad, and formerly general manager of the Louisville & Nashville and Denver & Rio Grande railroad companies, has been elected president of the Mexican International Railroad company.

DOING WELL.

South Dakota Crops of All Kinds Showing Up Nicely.

South Dakota crops are in a very satisfactory condition according to the report for the week ending Monday last. It says:

The temperature during the week averaged about the normal. The afternoons were generally warm and the nights generally cool. Well distributed and beneficial showers, in most localities of fair to generous amount, occurred, but there are a few limited areas where rain is needed, though nothing is suffering.

Although there is a small percentage of late wheat that is weedy, more particularly in some middle and northern counties, the general condition, stand and progress of this crop is very satisfactory, as are also oats, barley, spelts and rye. Early barley and spring rye are heading, and also some early oats. Winter rye is beginning to fill, and early wheat is jointing.

Corn, on the whole, has made good progress and cultivation has generally progressed favorably, but growth has been slow in some northern and extreme eastern localities, due to the cool nights. Cut-worms are necessitating some replanting, mostly in middle and northern counties, but generally the stand is good.

There is still some flax to be sown. The growing flax has made good progress and is generally in thrifty condition.

Potatoes and gardens continue in thriving condition generally. The earliest potatoes are generally blossoming, and the prospect for a good crop is bright.

Grass continues to make healthy growth, a good hay crop seems assured, and haying has begun in some southeastern counties. Range live stock is in thriving condition.

Millet sowing continues and the growing millet is in thrifty condition. Alfalfa harvest is in progress where it is raised, with fine yields.

Over a limited area in eastern Davidson county and western Hanson county very heavy rain on the 6th, with some hail, caused some damage, especially in rye in head, and necessitated replanting of some fields of corn.

Calling at Washington Harbor Isle Royale, by daylight. FARE $5 ROUND TRIP including Meals and Berth.

KILLED BY TREE.

Ed Johnson of Bayfield Meets Sudden Death.

Bayfield, Wis., June 19.—Ed Johnson was struck by a falling tree yesterday afternoon, at the camp of the Red Cliff Lumber company, and died shortly after reaching here. He was unconscious from the time he was struck until he died and it is not known where he came from or if he had any relatives.

AMERICAN LABOR UNION.

The Executive Council Plans For Future Work.

Denver, June 19.—The executive council of the American Labor Union is considering plans for future work. "We are going to have the greatest year in our history," said President Daniel McDonald at the close of the meeting. "The union intends to put in at least six new organizers in the field at once. Eight applications for charters have been received from the East. Among them five from Massachusetts, one from Chicago and one from Peoria."

Another Improvement.

CHICAGO, BOSTON AND NEW YORK TRAVEL.

On and after June 15th, the Erie railroad will still further improve their Boston and New York service by offering to the public a handsome limited train to leave Chicago from Dearborn station every day at 10:30 a. m., arriving New York next afternoon at 3:30, and Boston at 9 o'clock.

There is no doubt that this service will be highly patronized, as this new train will land the traveler in New York city in ample time to permit him to proceed leisurely to his hotel or home, rest, dress, dine and spend the evening in whatever manner may appeal to him most.

This every-day morning train will consist of standard Pullman drawing-room and sleeping cars. All meals en route served by the famous Erie dining cars. No extra fare charged on this train.

Ticket office, 242 South Clark street, Chicago.

IN MICHIGAN.

Barrel of Oil Found Believed to Be From Northerner.

L'Anse—A barrel of oil fished out of the bay is believed to have been one of the many which went down with the steamer Northerner, which sunk here ten years ago. The oil is apparently unaffected by its long immersion and the salvage of the balance of the cargo may be undertaken.

Ishpeming—The Augustina synod adjourned to meet next year at Paxton, Ill. Included in the closing business was the adoption of a memorial to Senator Nelson, of Minnesota, urging favorable action on the proposition of a congressional amendment relating to the prohibition of polygamy. For home missionery work $30,000 was appropriated, with $7500 additional for special work in Utah, Montana, Idaho and Alaska.

Bessemer—In the persons of four men who gave their names as Wilson, Tillson adwards and Lang, the Gogebic county officers believe they have made an important capture. Two complete burglars' outfits were found on them when searched, and each of the quartet carried a revolver. The men are under arrest for safe cracking, the scene of their operations being at Watersmeet, where the safe of a saloonkeeper was blown up and about $300 in money secured.

Houghton—Houghton is having a building boom. There are forty or more new residences being erected, and several new business blocks are to be built this year. The contractors, carpenters and builders are all busy, and there is a healthy activity in real estate. The outlook several months ago was anything but encouraging but matters have adjusted themselves so that there promises to be considerable of a boom here this summer. It was first thought that the carpenters' demands would put a stop to building operations but this matter has been easily adjusted and contracts are being awarded daily.

Hancock—It is quite possible that the Hancock township division matter will be settled out of court. Conferences have recently been held by the authorities of the new township of Stanton and the township board of Hancock. Supervisor Coggin and others have also canvassed the matter with the school officers of district No. 1. All concede that the township division will be settled to the satisfaction of both parties. The new township will assume a portion of the school and township debt of Hancock township. The basis of settlement has nearly been arrived at and the whole matter will be disposed of before the case is called in the circuit court June 18.

Acre Tracts

Near Woodland to lease, with privilege of purchase, in qtre of T. C. and R. M. Hunter, Exchange building.

There is a pretty girl in an Alpine hat.
A sweeter girl in a sailor brim,
But the handsomest girl you'll ever see,
Is the sensible girl who uses Rocky Mountain Tea.

ARE CUT IN HALF

Northern Pacific Makes Large Cut In Switching Charges.

Affects Rate to Points on Duluth Transfer Railway.

Reduction Applies to All But Purely Local Switching.

The Northern Pacific has cut in half the cost of transfer charges between many connecting lines and points on the Duluth Transfer railway. This is a result of the purchase of the Transfer road by the Northern Pacific.

Since the transfer road was bought by the Northern Pacific, other roads have made complaint that the effect of the purchase had been to double the former cost of setting in cars from their lines at points on the old Transfer tracks. For instance, the Omaha had direct connections with the old Transfer road and could deliver cars arriving over its line direct to the Transfer without passing through the medium of the Northern Pacific. It consequently used to cost the Omaha only the amount of the Transfer's charge of $1.50 a car for switching to the mills as far as West Duluth. When the Northern Pacific acquired the Transfer, the question arose of how much to charge for the service and pending instructions from the general offices instructions were given to apply the old Northern Pacific rules, which were based on the assumption all the business that would go through that road to the Transfer would have to pay a switching charge of $1.50 to each company or $3 altogether. At the same time, it is rumored that a low charge to be universal all over the terminals, including the old Transfer lines, as far west as the limits of West Duluth, was recommended by the local officials of the Northern Pacific.

It is understood that the decision to make a universal charge of $1.50 a car was reached yesterday, and that the decision was postponed until after the visit of President Mellen last Saturday. It seems that the management came to the conclusion that it would be best to try making the charge as low as possible, or in other words to establish the lowest minimum switching charge that heretofore has been applied here to transferring between any points. This action is looked upon as most liberal in character, and it is pointed out that far from the absorption of the Transfer resulting in burdens to shippers it has already proven a decided advantage.

The reduction in charges does not apply to business as delivered to or from the Duluth & Iron Range road, but otherwise is general in its scope, except as to purely local switching—that is cars loaded at some point in the city to be unloaded at some other point on the terminal—and this charge is continued at $3 a car.

These switching and transfer charges are usually absorbed on competitive business, but in the case of cars coming off the range roads or being delivered to them the charge falls on the shipper or consignee. Still, on competitive business it is considered that the reduction of the switching charge will result often in the ability of the shipper to get a little better gross rate on special business than he might sometimes get if the old schedule of charges were in existence. For instance, on shipment to or from the West Duluth blast furnace, the reduced tariff makes the switching charge $1.50 a car, whereas the former tariff was $3 a car.

HAVE BEEN CONTINUED.

Injunctions Against Freight Discrimination Still Stand.

Information has reached freight traffic men here that the injunctional orders issued against a number of Western roads, preventing them from making discriminations in freight rates have been continued in effect until some time next fall. They were scheduled to be returnable this week before the federal court at Chicago.

While the injunctions were not especially directed against the Duluth lines, the general effect has been to hold rates in a more legitimately healthier condition than they have been in this territory for years. A prominent man in speaking of this today said that as far as he had been able to learn not a single freight tariff was being shaded out of Duluth. He couldn't remember a time in the past, prior to the issuing of the injunctions, when such a condition had existed.

The effect of the injunctional method of preventing the quoting of secret rates, locally at least, has been in the line of the publication of open rates on the basis of or nearly the old freight rates that had been quoted to large shippers for years. The lumber rate East, for instance, had always been based on ostensibly 15 cents a hundred to Chicago. At the same time, for several years, 10 cents has been the figure universally quoted to anybody that had enough cars to ship to warrant soliciting the freight. Soon after secretly quoted rates were withdrawn, new tariffs were published, making this 10-cent rate open.

That is simply an illustration of what has been done pretty well down the line. In many instances, perhaps, freights in published tariffs have not been reduced quite to the point quoted secretly, but for the most part rates on commodities that move freely from here have been given a lower published rate than existed before.

It is said that Eastern roads—lines in central traffic and trunk line territory—upon withdrawing their secret quotations clung to their published tariffs and have refused to publish new rate sheets shading the former open figures. So that the chief benefit to the general public has come from the Western and Northern lines.

NEW MESABA TOWN.

Nashwauk Lots to Go on Sale Monday.

Lots in the new town of Nashwauk will be put on sale at the office of E. J. Longyear at Hibbing, Minn., Monday, June 23. Nashwauk is located in the southwest corner of town 57-22, between Hibbing and Grand Rapids, in the immediate vicinity of the Hawkins mine. This town is far enough distant from both Grand Rapids and Hibbing to have a large field to itself. It will become one of the most important towns on the Mesaba range. Much iron ore is being shown up in that vicinity; a railroad is now in the course of construction into this location and will be completed this fall. Nashwauk now centers the most active field of iron exploration in the Lake Superior district. Nashwauk is located in one of the best pine timber forests in Minnesota, and, like Hibbing, will be both a mining and lumber town. There is immediate demand for stores in all lines at this new location.

TEDDY, JR., IS PUNCTUAL.

New York, June 19.—Theodore Roosevelt, Jr., of the second form, was awarded a prize for punctuality at the graduating exercises of the Groton school, says a Groton, Mass., special to the Herald. Miss Alice Roosevelt, his sister, was present.

TO YIELD GRACEFULLY

Is Object of Cardinals In Friars Land Matter.

New York, June 19.—It is reported that the first conclusions of the cardinals about the American Philippine propositions have been submitted to the pope, says a Tribune dispatch from Rome. The strictest secrecy is maintained, but from what is learned, it is believed that the cardinals are chiefly concerned about the best methods of satisfying the natives, seeking to do so and without running the risk of being reproached with not having sufficiently safeguarded the interests of the religious orders.

Rome, June 19.—Judge Taft, civil governor of the Philippine Islands, and the Americans who are with him, lunched at the American college today. The judge toasted the pope and President Roosevelt. The rector, the Rev. Dr. Thomas F. Kennedy, and the students responded with hearty cheers.

WAS WITH WALLER.

A. S. Williams Arrives Home on Sick Leave.

San Francisco, June 19.—A. S. Williams, who is home on sick leave, has arrived on the Hong Kong Maru. He was a member of Maj. Waller's expedition and suffered untold privations with his men. Ten of his command died from lack of food and from wounds. Lieut. Williams personally suffered severe bolo wounds in a pitched battle with the natives.

The officer was greeted here by his father, Former Inspector Williams, of the New York police department. The latter came from New York to take charge of his invalid boy.

Chicago 5:30 p. m. Today—Atlantic City 4:35 p. m. Tomorrow.

The Pennsylvania Limited takes passengers through in that time. No transfer—merely step from the Limited to seashore train in Broad Street Station, Philadelphia. Baggage checked through to Atlantic City, or to any of the popular resorts on the New Jersey Coast. The Limited runs by daylight over the Alleghenies. Find out how nicely you can go East over Pennsylvania Short Lines. Address H. R. Derling, G. P. Agt., 248 South Clark St., Chicago.

RIOTING RESUMED.

Disturbances at Pawtucket Quickly Ended By Infantry.

Pawtucket, R. I., June 19.—Disturbances in the street car strike were resumed here this morning after two days of quiet. The first cars on the Weeden and Prospect street lines were attacked with stones Two employes were hurt by being struck with the missiles. The arrival of a detachment of infantry quickly put an end to the trouble.

McKENNA SUCCEEDS BRADLEY.

Chicago, June 19.—Gen. MacArthur has appointed Capt. Frank B. McKenna chief signal officer of the department of the lakes, to succeed Capt. John J. Bradley, who has been transferred to the department of the Dakotas, with headquarters in St. Paul. Capt. McKenna will enter upon his new duties at once.

BOYCOTTED?
YES!
But doing more business than ever before

WHY WERE WE BOYCOTTED?
BECAUSE WE SELL TOO CHEAP!

Selling goods at the PROPER CASH VALUE has made us unpopular with our competitors, but is building up for us a substantial and steadily increasing trade.

We Intend to Continue This Policy, Regardless of Outside Dictation!

On Sale Tomorrow:

Complete assortment of FRESH FRUITS AND VEGETABLES AT PRICES LOWER THAN EVER. No matter what you need in our line, we have it in stock, and will continue to receive fresh supplies daily, so we can save you money.

THE DAKOTAS.

Indians on Rosebud Reservation Will Reap Rich Harvest.

SOUTH DAKOTA.

Pierre—The Indians on Rosebud reservation will reap a rich harvest this year from the cattle which drifted onto the reservation last winter. All the round-up wagons were called into requisition to handle the stock which had crossed the White river, onto Indian lands, and they are at present holding fully 40,000 head of cattle, which they have gathered. These will all be crossed at Westover, in about ten days. As the cattlemen are to pay 50 cents per head for all cattle rounded up south of White river, this will give the Indians $20,000. Stockmen are somewhat disturbed as to the conditions next winter, as it is the intention of the Indian department to fence the entire northern line of the reservation this year, and with the drift of so large a number of cattle to that region in case it should be a severe winter, there is likely to be a heavy loss along this fence.

The state land department Monday distributed $270,924 to the schools of the state, the money being income from the permanent school fund of the state. The distribution is made on per capita of school population, and the distribution was made on a school population of 125,001, which is an increase of 3,001 over the number used in any former apportionment. While the number of pupils has increased, the distribution has also increased in size, being 15 cents per capita greater than any former June distribution. Minnehaha county received the largest amount, $16,759.25. According to the present census figures, Minnehaha county has a school population of 7,95; Lawrence, 3,59; Brown, 488; Turner, 477; Hutchinson, 389. This being the list of counties which each secure more than $10,000 of the fund.

Rapid City—The big cattle round-up of the Belle Fourche and Rapid City ranges is well on its way. It has started near Belle Fourche and is working this way, it being the plan to reach Cheyenne river in about three weeks. The heavy rains of the past few weeks have made the round-up one of the most difficult in the history of the cattle industry of the Black Hills. Gumbo is everywhere, and all of the streams are running full of water.

NORTH DAKOTA.

Fargo—Burglars carried away a dozen rifles, eighteen shot guns and sixteen revolvers from Johnson's sporting goods establishment. A gang that has been doing some work in smaller towns is suspected and some members were in Johnson's store, it is said.

A dealer in corn cultivators states that he has sold more machinery of that nature this spring than for the ten years he has been in business in the state.

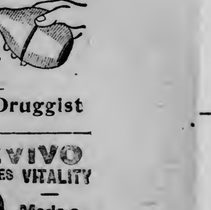
FIRE AT READING, PA.

Reading, Pa., June 19.—The pattern shop and foundry of the Diamond Drill works at Birdsboro, this county, was destroyed by fire today. The patterns and machinery were very valuable, and the loss will aggregate nearly $300,000.

SUCCESSFUL SWINDLE.

New York, June 19.—Reports are in circulation, says a London dispatch to the Tribune, of a successful swindle in connection with the booking of the grand stand seats for the coronation procession by which a couple of astute Americans are said to have made a considerable haul at the expense of the British public.

Every Woman is interested and should know about the wonderful MARVEL Whirling Spray
The new Vaginal Syringe. Injection and Suction. Best—Safest—Most Convenient. It Cleanses Instantly.



Ask your druggist for it. If he cannot supply the MARVEL, accept no other, but send stamp for illustrated book—sealed. It gives full particulars and directions invaluable to ladies. MARVEL CO., Room 98F, Times Bldg., New York.

STRICTURE

"I cure Stricture without cutting or dilating, thus avoiding the horrors of surgery."

HAVE YOU ANY OR ALL OF THESE SYMPTOMS ?

Tenderness in urethra, at times accompanied by dull or shooting pains; frequent desire to pass urine, but not able to empty the bladder; voiding the urine at frequent intervals during the night; a gradual decline of virility, resulting eventually in complete loss of power. The physical suffering is equalled only by the accompanying mental distress, which generally takes the form of gloomy forebodings, and feelings of impending disaster.

OUR ELECTRO-MEDICAL TREATMENT

Will promptly correct this serious trouble. It acts immediately and directly upon the stricture, dislodging and completely removing all diseased tissue, allaying all irritation and inflammation; restores the sexual powers completely, and leaves the urinary canal entirely free from obstruction, and in a healthy and sound condition.

The longest established, most successful and reliable specialist in diseases of men as medical diplomas, licenses and newspaper records will show.

We do not treat all diseases, but we cure all we treat; we treat men only and cure them to stay cured. We cure to stay cured Varicocele, Stricture, Lost Manhood, Atrophied or Shrunken Organs, Syphilitic Blood Poison, Nervo Sexual Debility, Rupture, Kidney, Urinary Diseases, and all associate diseases and weaknesses of men. We charge nothing for private counsel and give to each patient a ***LEGAL CONTRACT*** to hold for our promises. Is it not worth your while to investigate a cure that has made life anew to multitudes of men, and to which countless tongues gladly testify? If you cannot call at our office, write your symptoms fully.

WEST END STREETS

Business Men's Club Is Actively Working For Their Betterment.

Finds Serious Difficulties In the Way at Present.

Wide Tires For Wagons Find Many Warm Advocates.

City Engineer Patton, at the request of Secretary R. D. Haven of the Business Men's club of the West End, has furnished an estimate of the cost of paving Michigan street with macadam from Fifteenth avenue west to Twenty-fourth avenue west, and figures that it will cost $11,555.

The proposition to get a better road between the main part of the city and the West End has been receiving much attention from the business interests of the West End, in fact the members of the club argue that it is one of the most important matters they can consider at the present time. The West End streets are in bad shape for heavy teaming, to say nothing of driving with light rigs.

The situation has been all the more discouraging to the West Enders from the fact that the city authorities have found no way except through a charter amendment to get Superior street paved from Eighth avenue west to Thirteenth avenue west. At the last meeting of the Business Men's club it was stated that the only good roadway from Thirteenth avenue west past the Point of Rocks is on the macadam placed between the street car tracks. On either side of this macadam the road is full of holes because of rotted pavement or else the jagged ends of rock stuck up to make travel dangerous for horses.

The council received an estimate at the last meeting, of the cost of paving Superior street from Fifteenth avenue west to Twenty-fourth avenue west, with macadam or cedar blocks, and this is practically the only portion of the street from Eighth avenue west to Fifteenth avenue west where the required percentage of property owners owning the required percentage of property to be benefitted can be reached by a petition.

The estimate for the macadam roadway on Michigan street was not obtained for the council although the figures may be taken up later in that body. The West End people figure that macadam will make a substantial roadway on Michigan street between the city and the West End regardless of whether or not they should agree on macadam or cedar blocks when it comes to paving West Superior street.

The Business Men's club will hold a meeting tomorrow evening, when the estimate for the cost of paving Michigan street will be discussed, and some action will probably be taken by the organization toward urging the starting of a petition among the Michigan street property owners.

It is also understood that the club will not confine its attention alone to the matter of getting a good street between the West End and the main part of the city, but will consider itself a sort of good roads association in the absence of such an organization in this city, to discuss and take what action is deemed best toward getting better roads in the city and county. One of the features of this discussion will be the wide tired wagon question. Wide tires for all teaming work have warm advocates in this city among the aldermen and other city officials. Commissioner C. H. Martz of the board of public works has given the subject no small amount of attention and last year he urged some legislation by the city council, before the Superior street paving was finished, toward fixing the standard width of tires for heavy vehicles at 4 inches.

Alderman R. D. Haven, secretary of the Business Men's club has also been getting a few statistics and collecting some facts about the advantage of wide tires and he will be prepared to show the great saving not only to the pavement but to the owners of teams in the matter of horse flesh, when a 4-inch tire is used instead of the narrow tires found on some of the heavy wholesale wagons now in use in this city. Attention will be called to the laws passed by some of the state legislatures in the East fixing the standard of wagon tires and the result of which has been better roads in every part of the country where wide tires has been adopted. Alderman Haven believes that wide tires will have special advantage over narrow tires on the unpaved streets in Duluth. There are a large number of streets that still have deep ruts in them caused by heavy traffic over them after the recent rains, with narrow tired wagons.

Other matters of interest will also come up at the meeting tomorrow evening. It is expected that the membership list will be increased by a large number of new names. The charter of the club is to be held open until July 1.

The Non-Irritating Cathartic

Easy to take, easy to operate—

Hood's Pills

FREE STREET CARNIVAL.

Ringling Bros.' Parade a Most Gorgeous Spectacle.

A magnificent free street parade will be Ringling Brothers' introduction to Duluth next Monday.

The parade, which will take place at 10 o'clock in the morning, and pass over the principal down-town streets, is not simply a collection of horses, cages, elephants and tableau floats, jumbled together without design or order, but an elaborate and gorgeous pageant—a display, admirably arranged to secure the most brilliant color effects representing the combined efforts of hundreds of the world's greatest artists and decorators. The parade is divided into thirty sections, and, while each is complete in itself, they constitute in unison the most resplendent and beautiful display of pageantry that human ingenuity and artistic taste has ever brought to perfection.

Among the most striking sections is the military division, which serves to introduce representatives of the crack military organizations of the world. The handsome uniforms, the brightest accoutrements and the magnificent, caparisoned horses render this picture of mimic warfare brilliant beyond anything ever before attempted. There is a mounted division of red-coated English soldiery, a platoon of German Uhlans, a squadron of French Cuirassiers, a detachment of Cossacks from Russia, a company of the Mikado's Imperial Japanese infantry, and a troop of Uncle Sam's heavy cavalry. An Egyptian caravan crossing the desert, with its camels, dromedaries, wiry Arabian horses, Bedouins of the desert, Soudanese and other strange people, vies in interest with the Boer section, which illustrates a Dutcher commando trekking across the plains of South Africa, with its long train of ox-teams and its hardy native ponies. There is a special children's section, with tiny cages and miniature Mother Goose tableaux drawn by dwarf ponies, and an entire division devoted to the sports and martial glories of old Rome, with its gladiators, its fearless standing riders, its charioteers and its gorgeous racing chariots, so thrillingly described in "Ben Hur" and "Quo Vadis."

The wild animal section contains scores of cages of rare wild beasts, many of which are displayed in open dens, the only giraff known to exist, and a great double herd of thirty big and little elephants. The costuming throughout is superb, and the display of the stock unequalled. There are 500 horses, splendidly groomed and gorgeously trapped, and they constitute a sight never to be forgotten.

The parade, superb as it is, is simply a prelude to the two splendid performances to be given here by this greatest of all great shows, a gorgeous horse ballet, a magnificent three-ring circus performance and a thrilling Roman hippodrome, are some of the big features that are offered the public this year.

STRUGGLE ENDED.

County Board at Superior Elects Poor Commissioner.

After a long bitter struggle between opposing factions, the Douglas county board of Wisconsin, in a meeting held at West Superior yesterday afternoon elected John C. Bertrand county poor commissioner to succeed William Kennedy. The election was a surprise for the reason that up to the present time there seemed no chance of the two factions agreeing on a commissioner.

The election seems to give general satisfaction for the reason that Mr. Bertrand, who has been for years an alderman in West Superior is regarded as one of that city's substantial men and seems to have the confidence and respect of all, regardless of politics.

C. A. Anderson was re-elected superintendent of the poor farm, but the salary of that office was cut from $65 to $50 per month.

Attorney T. L. McIntosh filed an anonymous letter in which serious charges were made relating to some road work in the town of Gordon. It was stated that $1200 was paid for the work when it should have cost but $500. The statement had appended to it an itemized account of every dollar expended on the work. The letter was referred to the county board committee with the instruction to investigate the matter.

Annual Reunion.

Capt. T. H. Pressnell, E. R. Jefferson, J. O. Milne and H. E. Foster will attend the annual reunion of the First Minnesota regiment in St. Paul, tomorrow. A splendid time is anticipated at this reunion. President James J. Hill of the Great Northern system has donated $100 to be used in providing for the entertainment of the old veterans. A new feature that will be introduced at the reunion this year will be, termed "The Last Man's Supper." At the banquet a bottle of wine will grace the table and hereafter, every year, a bottle of wine will be drunk by the survivors until the last man is left to drink the wine and pay his respects to his departed comrades.

At Oatka Beach.

Good weather and excellent music combined to bring about a very pleasant evening's entertainment at the Oatka Beach auditorium last evening. The attendance was large, about 300 young people being present from West Superior. The dancers enjoyed themselves up to the last minute and few left before the last car. This evening the Somerset Y will have a dancing party at the auditorium and Saturday there will be another public dance.

A refined appearance, delicate shade of fascinating beauty, given by Satin-Skin Powder (flesh, white, brunet tints).—25c.

BIG SAVING.

Result of Administration of Poor Affairs By the Board.

During the first year of its administration the county poor board has made an opulent saowing.

On the first day of May, 1901, the control of the poor farm and county department for aiding the indigent was placed with John Jenswold, John Pengilly and J. H. Upham. Mr. Upham was succeeded later by Ward Ames.

These business men took hold of the proposition as if it were a matter of personal, private interest and the result is that if any one person could own the poor farm it would make that person rich if managed in the same manner it has been handled in the past year.

It is estimated that the change in management has saved the taxpayers $10,-601.73.

The poor farm has been extensively improved, and, where but ten acres was under cultivation before the new board took control, there are now about forty acres.

One may dwell beneath poverty's lowly roof, or live in mansions of brick. They'll find a friend in Rocky Mountain Tea. It rids life of its burdens. Ask your druggist.

BAGLEY-BALL.

Pretty Wedding at Home of Bride.

The marriage of miss Mayme Bagley and John Horace Ball was celebrated last evening at the home of the bride's parents, Mr. and Mrs. H. F. Bagley, 405 East Third street. While simply a quiet home wedding the appointments were superb and altogether it was one of the most charming events of the June bridal season.

The hour was 8 o'clock, Dr. T. H. Cleland, pastor of the First Presbyterian church, read the marriage service. Miss Bagley's maid of honor was Miss Margaret Conklin, of Minneapolis. Mr. Ball was attended by his brother, Arthur G. Ball, of Minneapolis.

Mr. and Mrs. Ball are taking an Eastern trip and will return to Duluth within a few weeks.

Many Minneapolis people were up for the wedding. Among them were: Mr. and Mrs. S. G. Ball, Mr. and Mrs. W. C. Falk, Mr. and Mrs. R. M. Hicks, Mrs. E. J. Cromwell, Mrs. B. W. Mulford, Mr. and Mrs. E. W. Lonsdale and Reginald Haley.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

The uniform success of this remedy has made it the most popular preparation in use for bowel complaints. It is everywhere recognized as the one remedy that can always be depended upon and that is pleasant to take. It is especially valuable for summer diarrhoea in children and is undoubtedly the means of saving the lives of a great many children each year. For sale at Boyce's drug store.

THE MAN IN ARMOR

Was no match for the microbe. Giants he might slay but this microscopic organism defied him, and in many a campaign more men were destroyed by camp diseases than by the enemy's sword.

The one way to arm against microbic disease is to keep the blood pure. Impure blood both breeds and feeds disease.

The signs of impure blood are easy to read. Pimples, boils, and eruptions generally proclaim the blood to be impure. Scrofulous sores and swellings, salt-rheum, eczema, etc., are other signs of a corrupt condition of the blood.

Doctor Pierce's Golden Medical Discovery purifies the blood and cures diseases caused by the blood's impurity. It cures scrofulous sores, boils, pimples, eczema and other defiling and disfiguring diseases.

"It gives me great pleasure to express my faith in the virtue of Dr. Pierce's Golden Medical Discovery," writes Mr. Ezekiel Floro, of Graytown, Ottawa Co., Ohio. "I suffered everything for two years with humor on my face, which baffled the skill of some of the most noted physicians. Was at once advised to go to the hospital; was doctored there for three months without success. Came home discouraged. Then began to doctor with a 'chemist.' He also failed to help me. Then I began Dr. Pierce's Golden Medical Discovery, with no faith whatever in it. Did it only to please my wife; but I am happy to tell you that after taking five bottles I am entirely cured."

FREE. Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

THE DEBT CLEARED

First Methodist Church Will Burn Mortgage Sunday, June 29.

In Less Than Three Years Congregation Has Raised $42,500.

Rally Service at Which H. M. Bradley Will Apply the Match.

Sunday evening, June 29, the mortgage which has covered the First Methodist church property from the time the church was built will be publicly burned.

The payment and burning of this mortgage will remove an immense load from the congregation, and is an evidence of what earnestness of purpose and self-denial will accomplish when an effort is begun.

One Sunday in November, 1899, Dr. Samuel P. Long, pastor of the church, began the movement to raise the church debt. Bishop Joyce, of Minneapolis, was present, and at the morning and evening service a very large sum was subscribed. During the time that has since elapsed the work has been steadily going forward, and efforts that may well be termed herculean have been made. Success has crowned the labors of the workers, the mortgage has been sent for, next week will see the last payment made, and then the public burning and rejoicing will follow.

To pay this mortgage the congregation has had to raise $42,500 since the time the movement for its payment was begun, something more than two and one-half years ago. The contributors to this sum number about 700 and the amounts they gave ranged from 25 cents to $15,000.

Besides the contributions to this fund the church expenses have been met and the floating debt cleared, a most remarkable showing.

The exercises on the day of the mortgage burning will be in keeping with the importance of the event. In the morning there will be a sacramental service, with the reception of members.

In the evening at 8 o'clock there will be a rally service, at which Dr. Robert Forbes, presiding elder of the Duluth district, will be present.

At this service the burning of the mortgage will take place. H. M. Bradley, chairman of the board of trustees, will light the match and touch the flame to the mortgage.

The music will be appropriate to the occasion and the entire service will be one of great rejoicing.

CLOSE CALL.

Peyton, Kimball & Barber Mill Has a Narrow Escape.

The Peyton, Kimball & Barber sawmill plant at the foot of Connor's Point had a narrow escape from fire late yesterday afternoon, in fact there was a report current on the streets that the plant had burned.

An old wooden structure close to the mill that had been used as a barn for some time, burned down. The timber was very dry and the blaze was a fierce one. Desperate work on the part of the fire department prevented a spread of the flames to the mill, but a number of unoccupied buildings on the point caught fire from the sparks and burned down. The loss of the old wooden structure is not regarded as a serious loss but rather a good thing for the reason that it removes from the vicinity of the mill yards what has been regarded for some time as a fire trap.

EXPECTS A FURLOUGH.

Lieut. Richard Smith to Return July 20.

First Lieut. Richard Smith, of the Twelfth United States infantry, expects to get his furlough about July 20 when he will visit his mother, who came from Pennsylvania a few weeks ago, in order to meet her son at his old home, for Lieut. Smith was a well-known newspaper man of West Superior before entering the regular army. When he received his promotion from a second lieutenancy, Lieut. Smith was transferred to Company G, and has had command of that company ever since the regiment returned to the states, the captain remaining in the Philippines. The company is stationed at Fort Duchesne, Utah. Lieut. Smith is now touring Utah with a recruiting party. He has seen active service in the Philippines for the past three years.

BRIEF TELEGRAMS.

Charles W. Needham, of Washington, was elected president of the Columbian University to succeed Rev. Dr. Whitman, who resigned two years ago. Dr. Needham for several years has been dean of the law school of the University and also of the school of comparative jurisprudence and diplomacy.

The president has notified the senate he had approved the Hansbrough-Newlands irrigation bill.

"Terry" McGovern, the pugilist, while playing baseball at College Point, L. I., was knocked down in a collision with a base runner and his collar bone broken. McGovern was taken to his home in South Brooklyn, where the attending physician said he would be laid up for several weeks.

J. B. Respess' Bella C. Commoner, an outsider in the betting in the American Derby, which will be run at Chicago, Saturday, won the Derby trial special Wednesday at Harlem. The colt ran a marvellous race, covering the mile and an eighth in 1:55 2-5 and won in a gallop by three lengths.

Thirty-five men who were relaying the track in the Grand Trunk tunnel under the St. Clair river narrowly escaped asphyxiation from gas generated by the large engines which haul the trains through the tunnel.

Miss Rose Wheeler, aged 25, is dead and her mother, Mrs. William Wheeler, aged 68, is dying as the result of a murderous assault made upon them at Toledo by Mrs. George Leightner, aged 26, wife of an iron worker. The two families reside in a double house and the three women had been quarreling all day. Mrs. Leightner was arrested and with her two children was taken to the station. She says that the deed was committed in self-defense.

Mme. Yale's Hair Tonic.

The first and only discovery in the history of chemistry known to turn gray hair back to its natural and original color without dye. It acts on the natural live coloring matter of the hair, increasing and giving it circulation. It tones up the debilitated nerve force and the torpid glands to a healthy reaction, curing all diseases of the scalp. It creates a luxuriant growth, stops hair falling in from twenty-four hours to one week. It softens the hair when harsh or dry; contains no greasy matter, sulphur or lead, or any other injurious or unpleasant substance. Permanently cures dandruff.

MME. YALE'S HAIR TONIC is a perfect Hair Dressing, rendering the hair glossy and fluffy, greatly aiding it to remain in curl.

Manufactured only by Madame M. Yale, 189 Michigan avenue, Chicago.

Call for Mme. Yale's book to beauty, "Women's Wisdom" (contains 96 pages.) Given Free.

We see Mme. Yale's Hair Tonic at cut price and are her Duluth agents.

Peterson-Dickey.

The marriage of Miss Louisa Patricia Peterson and J. L. Dickey, of Glidden county, Iowa, was solemnized last evening at the home of the bride's parents, Mr. and Mrs. O. Nolander, 1518 London road. The ceremony was performed by Rev. S. P. Long, pastor of the First M. E. church. The wedding was very quiet, only a few friends being present.

Mr. and Mrs. Dickey left afterward for St. Paul and will go from thence to Glidden, Iowa, to make their home.

Schaffer-Miller.

The marriage of Miss Clara Schaffer, of this city, and Charles H. Miller, of Pine county, was celebrated last evening at the home of the bride's parents, Mr. and Mrs. C. H. Schaffer, 419 South Nineteenth avenue east. Dr. Long, officiating. The bride was attended by her sister, Miss Anna Schaffer, and the groom by James P. McDonald.

CHECK FROM ROCKEFELLER.

New York, June 19.—President Schurman, of Cornell, has received, according to a World special from Ithaca, a check for $250,000 from John D. Rockefeller, who offered the money ten months ago on condition that the university raise a like amount. This was accomplished.

KNOW IT WELL

Familiar Features Well Known to Hundreds of Duluth Citizens.

A familiar burden in every home,
The burden of a "bad back,"
A lame, a weak, or an aching back,
Tells of kidney ills.
Doan's Kidney Pills will cure you.
Here is Duluth's testimony to prove it.

Mr. M. Tretheway, of 609 Sixty-third avenue, says: "Though a very old man, counting by years, my general health, with the exception of kidney complaint, has always been good. Persistently I tried to help myself by using ordinary household remedies, as well as buying sure cures for kidney complaints, but until I procured Doan's Kidney Pills at W. A. Abbett's drug store and took them, I never received anything but the most unsatisfactory results. The action of Doan's Kidney Pills upon these secretions was very marked, and as I continued the treatment the backache slowly disappeared. I do not like to say that I am radically cured, but it does not require a great stretch of the imagination to reason as follows: If Doan's Kidney Pills were so prompt in bringing the assistance at a time when I sorely needed it, if any recurrence takes place they can be appealed to with every chance of again affording relief."

For sale by all dealers, price 50 cents Foster-Milburn company, Buffalo, N. Y., sole agents for the United States.

Remember the name, Doan's, and take no other.

PANTON-WHITE COMPANY THE BIG GLASS BLOCK STORE DULUTH, MINNESOTA

Bargains From the Big, Busy

Basement Bazar

Housefurnishings Dept.

A little saving on each item means a big saving when you come to fit up the entire kitchen. We have everything you need (except stoves) and are always glad to give you prices on anything. The basement department is famous for economy, and these prices are quoted to give you an idea of the low prices.

Tea Pots and Coffee Pots — We carry dozens of kinds — one of our special offers is a two-quart all copper tea or coffee pot, with finest quality nickel plate outside, and cold handle — our special price 69c

Stove Lifters, cold handle cover or lid lifters, in full nickel plate—each 5c

Enameline Stove Blacking—the regular 5c size—selling at, each 3c

Aluminum Tea Spoons — another lot just received—they are the finest thing known for table, picnic, or kitchen use—come in and see them—our special price for tomorrow—per dozen 75c

Dover Egg Beaters—each 5c

Wood Rolling Pins—made of maple—each 5c

Handy Vegetable Slicers — slices your apples, potatoes, etc., in a "jiffy"—each 10c

Knives and Forks—made of solid nickel—no plating to wear off—just the thing for everyday use—set of six knives and forks selling tomorrow for $2.50

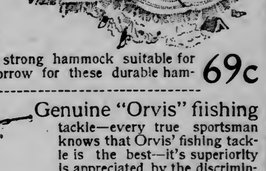
Table Spoons, Tea Spoons, Sugar Spoons and Butter Knives in solid nickel—at low prices.

Picnic Goods.

Everything for the camp, outing or picnic party. If you are to spend a day, week or month out of doors you'll need some of these goods.

Picnic Baskets—split wood with cover, double handles.
No. 1 measures 11x8x7—price 15c
No. 2 measures 13x9x8—price 19c
No. 3 measures 15x11x10—price 23c
Open Market Baskets—both sizes at, each 5c

Steel Cups; white enamel steel cups and saucers—per doz. $2.50—each 23c



White enamel plates—per dozen only $2.00—Friday's price each, only 18c

Genuine Palmer Hammocks — 35x78—in five-eights color—with concealed spreader at head and wood bar at foot—a strong hammock suitable for picnics or camps—the price tomorrow for these durable hammocks is only 69c

THE WEATHER.

United States Agricultural Department, Weather Bureau, Duluth. Synopsis of weather conditions for the twenty-four hours ending at 7 a. m. (Central time), June 19.—Showers fell over the Missouri, Middle Mississippi and Ohio valleys, the lake region, South Atlantic and Eastern Gulf states. Barometric pressures remain high in the Northwest and low in the Southwest but the Western Ontario "low" has moved to Eastern Ontario. The temperature changes during the past twenty-four hours were generally slight. In the lake region the weather this morning is generally fair with fresh to brisk westerly winds.

Maximum temperatures for the past twenty-four hours:

Abilene	96	Miles City	72
Battleford	56	Milwaukee	78
Bismarck	66	Minnedosa	58
Boston	80	Modena	86
Buffalo	76	Montgomery	98
Calgary	46	Moorhead	66
Charleston	82	New Orleans	94
Chicago	82	New York	80
Cincinnati	74	North Platte	62
Davenport	74	Oklahoma	84
Denver	66	Omaha	66
Detroit	74	Pittsburg	84
Duluth	70	Port Arthur	70
El Paso	98	Portland	80
Escanaba	72	Prince Albert	62
Galveston	86	Qu'Appelle	54
Green Bay	66	Rapid City	64
Havre	62	San Francisco	64
Helena	68	Santa Fe	84
Houghton	70	Shreveport	98
Huron	76	Spokane	72
Jacksonville	92	St. Lauos	80
Kamloops	76	St. Paul	70
Kansas City	74	Sault Ste. Marie	64
La Crosse	68	Swift Current	50
Los Angeles	72	Washington	80
Lander	72	Williston	64
Marquette	72	Winnemucca	82
Memphis	86	Winnepeg	58

Local forecast for twenty-four hours from 7 p. m. (Central time) today: Duluth, West Superior and vicinity: Probably showers tonight and Friday; slightly cooler Friday: fresh winds, mostly northerly.

H. W. RICHARDSON,
Local Forecast Official.

Chicago, June 18.—Forecast until 7 p. m. Friday: Wisconsin—Partly cloudy w.. possibly showers Friday and in west portion tonight. Minnesota—Probably showers tonight and Friday. The Dakotas—Showers tonight; Friday fair and cool. Upper lakes—Winds becoming variable; generally fair tonight; possibly showers on Michigan and Superior Friday.

American Trade With the Orient.

There is no doubt that the Orient is well disposed toward the United States in the matter of trade. China is ready to welcome American products and it is only necessary to master the peculiar conditions of the foreign market to secure the lions' share of the business. The United States holds the most advantageous position for Pacific trade. It is only 5000 miles from China and Japan, while England, Germany and France are 12,000 miles distant. Commerce at 5000 miles is easier and more profitable than at 12,000 miles. The United States even now furnishes one-fifth of the imports of Japan, against one-tenth twenty years ago, while Great Britain's proportion of Japanese imports in the same time has declined from one-half to one-fourth. The trans-Pacific steamship tonnage, which was 160,000 in 1899, will be 300,000 by next year, exclusive of Australia's share. Americans are pushing the construction of immense steel vessels to ply regularly across the Pacific. A few days ago a steamship discharged at one of our Pacific ports the largest cargo from the far-East ever landed in this country. Often this subject is treated as mainly an opportunity for our Western states, but the Isthmian canal will open the field to all the states, and particularly to the South, which raises the fiber that clothes the Orientals, and is also learning rapidly to turn it into the most profitable form of manufactured goods. Our legislators and merchants have been slow to appreciate these opportunities but the time is coming when they will be appreciated and our trade will increase forthwith.

A Great Season of Amnesty.

This seems to be a season of general amnesty an unusual period when pardon and forgiveness appear to prevail in several countries. President Palma, on taking the reins of government of the new republic of Cuba, opened wide the prison doors and many a convict with a long term of imprisonment staring him in the face is a free man. One of the features of the coronation of King Edward will be the amnesty offered to many criminals of the British empire. Many will go free and will rejoice in the crowning of the monarch by whose pardon they will be free. Next will be the Filipinos. They are now rejoicing over a coming proclamation by the president which is to open the prison doors to them. This plan has been in contemplation for some time, and since Governor Taft's visit to Washington it has taken more substantial form and been the subject of cable correspondence between the administration and Acting Governor Wright. It was at first proposed to delay the proclamation till Governor Taft gets back to Manila; but the shape things have taken at Rome make it improbable that he will reach the islands before September, as he will stay where he is till either the whole subject of negotiation is settler, or the train is laid so surely to an early settlement that there is no further need of his being called upon for personal conferences with the church authorities. It would have gratified him very much to be an official promulgator of the proclamation, which will be quite in the line of his policy of kindness and conciliation, but he would not allow his protracted absence to postpone for one hour longer than necessary the good news and the salutary influence expected of it. It is not improbable, therefore, that the preliminaries would be so far on the way to completion by the end of the present month that it will be practicable to issue the proclamation as a Fourth of July present to the colonists. The exact terms of the instrument have not yet been decided, so that it cannot be said whether it will include the return of all the persons exiled for sedition or not. The impression prevails that it will, but something may depend upon the attitude of those parties themselves. Good will come of this general good-will and pardons in these three countries. It cannot fail to be beneficial from a moral as well as materia' standpoint.

KILLED BY FLETCHER.

Loren Fletcher, of Minneapolis, one of whose chief missions in congress is to look after the interests of the lumber barons of that city, has succeeded in killing the Morris bill to open the Chippewa reservation to settlement. By raising the point of no quorum he forced an adjournment of the night session of the house, leaving the bill unacted upon. It is improbable that it can be reached again at the present session of congress, and therefore may be considered dead. Fletcher's ostensible reason for killing the bill was his failure to secure an amendment providing for the sale of the pine at public auction instead of by sealed bids, as provided in the bill reported by the house committee. The interior department favors sealed bids as the best method to secure free and unrestricted competition, having found that publications result in the formation of combinations among the purchasers.

Outside of a few Minneapolis lumbermen that have grown rich at the expense of the Indians and the government, Fletcher does not represent the views of the Hennepin county district nor of the state generally. His whole record in congress has been the serving of private interests, and it is time he was retired to private life. There are far abler men in Minneapolis than Fletcher, and many who would serve the public interests as opposed to special interests.

CUBAN RECIPROCITY.

The senatorial caucus on the Cuban reciprocity bill resulted in no action being taken, and the conclusion has been reached that there is little possibility of passing a reciprocity measure at the present session of congress. For this result the "beet rooters" and other Republican "insurgents," as they are called, including the whole Minnesota delegation, must be held responsible. President Roosevelt has done all within his power to secure the passage of a law that would establish reciprocal trade relations with Cuba, in accordance with the policy of the late President McKinley, and the failure to deal justly with the Cuban people cannot be charged up against him. It is a wanton disregard of our duty towards the Cuban republic at a critical period in its existence, and it is in opposition to the almost universal sentiment of the American people. Minnesota has been shamefully misrepresented by her congressmen on this question.

The Minneapolis Journal yesterday published the result of a general inquiry among the Republicans of Minnesota as to their attitude toward the president's Cuban reciprocity policy. The Journal says that, in collecting these opinions, care was taken to exert no influence upon the results of the inquiry one way or another. Correspondents were simply instructed to ask leading Republicans in their various localities as to whether they supported the delegation or the president on the subject of Cuban reciprocity. Newspaper readers of this state understand very well what the difference is between the delegation and the president, and the question of the way in which the attitude of the delegation is viewed by the public is certainly an interesting one for development and consideration. The attitude of the delegation is disapproved by a very large and overwhelming majority of those interviewed on the subject, and this expression is a fair indication of opinion in this state.

In this connection the Journal says: "We see no reference to Cuban reciprocity in J. Adam Bede's platform. Recalling that he was a strenuous advocate of free trade with Porto Rico, we assume that J. Adam forgot about Cuba. It is not too late for him to remember." Neither is it too late for Judge Edson to express his views on this important subject. The columns of The Herald are open to both Messrs. Bede and Edson to explain their attitude on the president's Cuban reciprocity policy.

THE PHILIPPINE BILL.

The Philippine civil government bill having passed the senate, is now under consideration by the house. The house committee has a bill which differs radically in many respects from the senate bill. While there are many changes that ought to be introduced into the Philippine bill, it will be robbed of its most dangerous features from the economic standpoint if the land question is entirely eliminated from the bill and is left to be settled by future legislation in congress. This is what has been done by the amended senate bill. That measure merely permits natives to take up land in plots of forty acres. It leaves the question of corporation land grants for future legislation. It, however, prescribes that this legislation shall be drafted by the Philippine commission and after being approved by the president shall become law unless disapproved by congress. Congress thus abdicates its power of land legislation, retaining only a potential veto. he house bill contains the same specifications as to the power of congress, but it permits the commission not only to grant lands in tracts of 2,000 hectares (about 5,000 acres) to corporations on condition that they shall at once operate the land thus obtained.

Gen. MacArthur, a vigorous supporter of the administration, testified that the grant of large tracts of land to corporations, however honestly these might be administered, would be disastrous both economically and socially to the natives. Consequently all provisions for corporation land grants should be omitted from the final bill and relegated to future discussion as is now done by the senate bill. When the matter comes up in the future the whole subject can be gone into on its merits. This is no more than a prudent step of protection for the inhabitants of the Philippines to whom this land really belongs and who may be permitted the future enjoyment of economic opportunities if their land can be saved for them. Above all, the question should be a subject for legislation by congress and should not be left to the Philippine commission, restrained only by an improbable congressional disapproval.

The Herald trusts that the Minnesota members of congress will insist on the following:

(1)—Omit all provision for corporation grants of land from Philippine bill.

(2)—Require that congress shall retain the power to pass land legislation for the Philippines instead of permitting the commission to promulgate it if not disapproved by congress.

They should also insist on retaining the house provisions for the creation of a native legislative body. They do not go far, but they would be at least a sort of earnest of some measure of future self-government.

The recurrence of peace in South Africa will reopen a wide and important field for American business enterprise. Before the war broke out many of the engineers, managers and operators in the Transvaal mines that were producing over $80,000,000 of gold a year, were Americans, and much of the expensive machinery required to operate the mines was manufactured in the United States. The cessation of hostilities and the reopening of the Transvaal mines means, therefore, employment and opportunity for many American miners and manufacturers. It will also turn into the channels of trade $400,000,000 more of gold yearly.

The platform adopted by the Pennsylvania Republican state convention declares that "the country has prospered and Pennsylvania with her great agricultural and industrial interests has derived a just measure of the benefits. For this we make acknowledgement to the wisdom and energy of our United States senators and representatives in congress." Providence has no standing in a Republican convention in Pennsylvania alongside Matt Quay.

Says the Indianapolis News: "There can be little hope for the consumer in the event of the settlement of the coal strike, as it is shown that whenever the operators have consented to an increase in wages they have raised the price of coal, so as not only to make the consumers pay the bill, but also to increase their profit. The coal monopoly is about the worst ever."

Students at Butler college, Indiana, have been debating the resolution that "pie is of greater service to civilization than ice cream." That baked beans have been of greater service to civilization than either ice cream or pie is not open to debate, asserts the Boston Globe. But the Globe is hardly unprejudiced.

The Cuban congress has voted a $25,000 salary to President Palma, but he doesn't seem to be particular about it. "I want nothing for my services," he says, "All I ask is sufficient property to support my family and maintain the dignity of my office." This has the ring of patriotism.

The demolition of the Lerch barn is a reminder that the citizens of Duluth are extremely patient. Such an eyesore and source of danger to life and limb would not have been permitted to exist in another community for a single week, and yet this barn obstructed a leading street for several months!

The Boer general, Pearson, who expressed so much displeasure at our permission of a British camp at New Orleans, still thinks enough of us to become an American citizen. But he knows enough not to blame the American people for all that the administration at Washington does.

A New Jersey woman declined to contest a lawsuit because only $975,000 was involved. There is not a man in the world who would do that. They would rather give the lawyers twice as much to fight it out to the court of last resort.

Will the Minnesota Republicans, when they assemble in state convention, endorse the president's Cuban reciprocity policy or approve the course of our delegation in congress. They will certainly be between two fires.

The prospect of a general strike of all the soft coal miners, to aid their anthracite brethren, is alarming. —ack diamonds may be worth as much as w....e ..amonds very soon.

Some person has estimated that Americans spent $25,000,000 for theater tickets last year. But who w... estimate how much was spent "between the acts" and after the play?"

Why should not the United States offer one or two European countries statues of the author of the Monroe doctrine? That might even up the score a little.

Reflections of a Bachelor.

New York Press: Married life is dough, the leaven of which is an occasional cadet.

There is nobody who has so large a respect for a widower as the man who isn't yet.

The man who knows how to build a fire in the parlor grate is a great deal nearer to the accomplishment of the unattainable that he ever dreams of.

When a man's appetite for dinner is not as good as usual his wife begins to fret right away about whether he is wearing the right weight of underwear.

You can never make a woman understand that if there are two windows in a room and you screen one of them you don't necessarily keep out half the mosquitoes that otherwise would get in.

The Good Old Days.

Oh, for the good old hat of straw
Ere came the flaunting Panama
To claim our money,
The old straw hat of simple weave,
Which one might wear and not believe
That he looked funny.
With beef and coal still on the rise,
The gilded youth in sad surprise
Gets up and hollers—
"That hat, as good to all intents,
That once cost 67 cents
Now costs $10!"

—Washington Star.

AT THE HOTELS

"Lind isn't a candidate," said Dar S. Reese at the Spalding this morning, just prior to taking a train for Wadena to make an address before the Park Region association, "but I rather think he will be nominated. A close friend of his in Minneapolis, a well known banker, told me that when Governor Lind went into his present law partnership he agreed to have nothing to do with politics for a term of years. Still the party seems to think it needs the man, and the man may be forced to look at it in the same light. Furthermore, the former governor has a little of that original desire for revenge that was handed down to us from the early days of the human race, and recollecting that his fight with Van Sant before was a very close one, he may conclude that this is the time to get back at the governor."

"I believe," chipped in J. Adam Bede, who was present, "that the Democratic convention will meet and leave the matter of a nomination for governor in the hands of the state central committee, or at least let the question lie over for ten days until the Populists have made their nomination."

"Yes," continued Mr. Reese, "a well known Populist told me the other day that his party was not going to simply endorse the action of the Democrats this year. He said there was considerable talk of nominating P. M. Ringdal, formerly railroad commissioner, for the head of the ticket.

"Governor Lind told a personal friend of his not longer than ten days ago, and the latter informed me, that he would not be a candidate. Moreover, his personal friends all say he will not run under any circumstances, but I wouldn't be surprised to see him put on the ticket.

"Odin Halden, your candidate for state auditor, is a mighty good fellow. I wouldn't care to express an opinion on the subject of the rivalry for the nomination, however. I don't think delegations from many counties in the state will be instructed as to auditor. The delegations from the home counties of the three candidates and counties nearby will probably be instructed, but the other counties may largely split up."

• • •

W. B. Holman, the former owner of the fee to the Holman forty mine, near Grand Rapids, is at the McKay this morning, accompanied by Mrs. Holman. He says he understands that Morton Miller has practically sold the mine to the Donora Mining company for $300,000. The explorers of the property paid Mr. Holman $30,000 for it. They sold a half interest in the fee subsequently to Mr. Miller for $30,000, and then it is understood sold the other half to him for $150,000. Within a year, according to this, a total of $300,000 has been made by three sets of parties out of what for a long time was considered only an average homestead.

"Iron has been found within two and a half miles of Grand Rapids," said Mr. Holman. "I don't know the exact description, but the property lies between Grand Rapids and Prairie river, and it is said is being explored by Corrigan-McKinney or George W. Wallace. I have seen men working there with two diamond drills, and it is reported that they have excellent prospects.

"Good prospects have been discovered also west and south of Grand Rapids.

"On the Holman forty a working shaft is being put down, and it looks as if they were getting ready for business. The property is eleven miles from Grand Rapids, from which point it would be nearest to build a spur track.

"I still hold a promising piece of iron property in 24-60-24, which I am in no haste to get rid of, having confidence in what is there and that somebody will want it at my figures."

• • •

A. J. Coates, a well known politician, and timber and iron man of St. Cloud, arrived at the St. Louis last night. Mr. Coates enjoys the distinction of figuratively being a resident of two counties, for while the greater part of St. Cloud is in Stearns county, a part of it lies across the river in Benton county, and it is in the latter section that Mr. Coates has his residence, though his political activities are largely performed in Stearns county.

• • •

"Please deliver in dining room."

This was the inscription on a nice square letter that was delivered at the Spalding this morning to Mr. and Mrs. G. V. Michaud, of St. Paul.

On the back of the envelope was a small roseate of white satin ribbon, neatly attached to the letter with sealing wax. Just above the decoration was an apologetic explanation:

"N. B.—They're on their honeymoon!"

This is a great season for bridal couples at the Spalding.

Mr. and Mrs. John Horace Ball, who were married last night, were guests at the hotel. Another young and dignified but a little self-conscious couple from the Red River valley arrived this morning, and while no stray grains of rice fell out of their hats and no kind friends had sent on an announcement of what had happened, still Mr. Raidt became philosophic and smiled a knowing smile.

• • •

W. E. Smith, one of the owners of the Sturgeon River Lumber company, arrived at the McKay this morning from Marshfield to spend the summer. He is accompanied by Mrs. Smith and C. V. Smith, his son, who is enjoying a vacation from his studies at St. John's academy.

• • •

W. W. Richards, the St. Paul legislator, arrived at the St. Louis last night.

• • •

Among the guests at the Spalding are W. H. Yawkey, the Detroit land owner, and C. C. Yawkey, of Wausau, Wis.

• • •

J. H. Kurtzman, of Rochester, Minn., is one of the recent arrivals at the McKay. Mr. McKay is said to have bought a 10,000-acre tract of farming land in the vicinity of Grand Rapids.

• • •

W. J. Mitchell, M. Baer, George R. Warnwood, St. Paul; Hans Peterson, Mora, Minn.; J. H. Finley, Grand Rapids; A. G. Scherf, Red Wing; L. L. Crosby, J. H. Milton, Minneapolis; E. E. Larson, Eau Claire, and F. A. Auspach, St. Paul, are at the St. Louis.

• • •

Mr. and Mrs. Dener S. Byard, New York; Mrs. F. M. Crouch, Marquette; George W. Griffin, St. Louis; N. M. Waldo and wife, Grand Forks; O. R. Cairns, Milwaukee; W. M. Parker, Chicago, and C. B. Hoy and wife, Minneapolis, are at the Spalding today.

• • •

John P. Sunde, R. Sunde, L. Lon, Marshalltown, Iowa; Fred Erickson, Peter McGrath, Ashland; William Heasley, Cloquet; J. W. Woodfill, Jr., Two Harbors; William Dutcher, Appleton, Wis.; A. Schwartz and wife, Ashland, are at the McKay.

CARNEGIE CHOSEN.

New York, June 19.—Andrew Carnegie has been chosen a vice president of the Society of American Authors to fill the vacancy caused by the death of Dr. Thomas Dunn English.

AMUSEMENTS.

MANSFIELD IN "BEAUCAIRE."

The dramatic treat of the season will be the appearance here Monday of the great actor, Richard Mansfield, in his new success, "Beaucaire," an original comedy in five acts by Booth Tarkington and Evelyn Greenleaf Sutherland. The echoes of the praise bestowed upon this distinguished artist's new creation have been beating on all ears. It is loud and emphatic. The character is one of rare charm, vital with chivalry, scintillating with wit. A large public is already familiar with "Monsieur Beaucaire" through the classic novelette by Booth Tarkington. Mansfield's characterization is said to be the finest portraiture and the most painstaking piece of comedy and romance he has disclosed in years. It is generally agreed that "Beaucaire" will become more generally and permanently popular than any of his other characters, except perhaps "Prince Karl" and "Beau Brummel," to whom he is akin without any reminiscent suggestion.

THE FROLICSOME PEGGY.

There is nothing that succeeds like success. This principle is particularly applicable to successful old plays. For example, the standard comedies which were great successes when they were first presented have met with the same popular approval when they have been revived. A good case in point is the "Country Girl," which was produced for the first time in London over two centuries ago. Since then frequent revivals have been made and each time with much success. The latest presentation of this amusing old comedy is by Kathryn Kidder, who is winning new laureis by her impersonation of the frolicsome Peggy, the heroine of David Garrick's play. All reports state that it is one of the genuine theatrical treats of the season. Local theatergoers will welcome the announcement that Manager Marshall has succeeded after long negotiations in arranging for Miss Kidder's appearance here at the Lyceum on June 30. She will be supported by a particularly strong company, including many artists of national reputation such as Lewis Massen, Robert V. Ferguson, Norman Hackett, T. C. Hamilton, Munroe Salisbury, Seymour Stratton, H. L. Davidson, T. C. O'Brien, Marion Ashworth and Olga Flinck.

ECLECTICS

Listen to the Annual Report of Secretary Ellingwood.

Milwaukee, June 18.—Professor Finley Ellingwood, M. D., of Chicago, secretary of the National Eclectic Medical association, presented his annual report at today's session. He urged the association to adopt a plan of general organization, thorough, comprehensive, inclusive, to extend into every country of every state in the Union, to cement eclecticism into a close body, united to continue its work of the past more energetically than ever and to resist with the most strenuous effort the determination of the regular school to absorb them, claiming that absorption means annihilation.

The report was referred to a committee for suggestion, the committee to report tomorrow.

The remainder of the day was devoted to the discussion of technical subjects.

A MISTAKE.

Hayes Did Not Know Hill Who Died Recently.

Los Angeles, June 19.—The story published in this city of the alleged solution of the mystery surrounding Charles Hill, who died here recently, leaving a fortune of $142,000 in cash, in which one George Hayes, who claimed to have known Hill in Mystic, Conn., stated that he had seen and conversed with the old man a few days before he died, is now declared to be without foundation. Hayes has said since the publication of the story that he was mistaken.

Attorney Moss has completed arrangements to exhume the body of the man who left the fortune. The purpose is to ascertain whether there were any scars upon the body, and if so to take a special description of them. The reason for this is obvious. If there are distinguishing marks they will be kept secret and the real heirs, whoever they may be, will have to describe them fully before they can establish any claim to the estate.

AMERICAN MECHANICS.

Junior Order Meets Next at San Francisco.

Milwaukee, June 18.—The junior order of the United American Mechanics decided today to meet next year in San Francisco. The convention also reaffirmed all the acts of the last national council board of officers, which is a decided victory for the administration forces. Officers were elected as follows: National councillor, George B. Bowers, of Pennsylvania; national vice councillor, James L. Cooper, of Texas; national secretary, Edward S. Deemer, of Pennsylvania; national treasurer, J. Adam Sohl, of Maryland; national conductor, E. R. Dillingham, of Georgia; national warden, C. J. Place, of Rhode Island; national inside sentinel, J. M. Douglas, of Wisconsin; national outside sentinel, A. E. White, of Vermont; beneficiary degree, R. J. Armstrong, of Missouri; chaplain, Rev. D. M. Lichliter, of Pennsylvania.

MICKEY WON.

Secured Nomination For Governor at Convention.

Lincoln, Neb., June 19.—In a spirited free-for-all contest between seven promising candidates, John H. Mickey, of Osceola, Polk county, was nominated for governor by the Republican state convention at 10 o'clock last night after an almost continuous session since 2:30 in the afternoon. The nomination came to Mr. Mickey on the thirteenth ballot, after a vain effort in turn to name W. M. Robertson and J. N. Dinsmore.

The ticket was completed as follows: Lieutenant governor, E. G. McGilton, of Omaha; secretary of state, George W. March, Falls City; treasurer, Peter Mertensen, Ord; auditor, Charles Weston, Rushville; attorney general, F. N. Prout, Beatrice; commissioner of public lands and buildings, G. D. Folmer, Nelson; superintendent of schools, W. E. Fowler.

The nominees, excepting governor, lieutenant governor and treasurer are present state officers and the selections were made by acclamation. The feature of the convention was the unanimity and enthusiasm with which the national administration was endorsed. The convention adjourned at 12:15.

SALISBURY HAD A CHILL.

London, June 19.—A cabinet meeting today, at which Lord Salisbury presided, was held at his official residence in Arlington street, for the convenience of the premier, who is recovering from a chill.

Complete Housefurnish'gs

A larger line than has ever been shown before. Far superior goods offered at very low prices. Five large floors for displaying our samples. Every one crowded to the utmost with the very newest goods that can be shown. The display is astonishing.

OUR PRICES—considering the recent advances which have taken effect, our low prices are an innovation and a blessing—we have made no advances and still maintain our schedule of LOWEST PRICES.

CREDIT TO ALL—To those who want it we offer very liberal terms of credit at no additional charge. We make our terms to suit your purse.

The largest store in Duluth, where you're sure to find exactly what you want.

The G. C. Steele Co.
226-228 West Superior Street.

DESOLATE.

Ruins of St. Pierre Present a Grewsome Appearance.

Roseau, Island of Dominica, June 19.—With the permission of M. L'Huerre, the governor of Martinique, the ruins of St. Pierre were visited by the administrator of the island of Dominica, H. H. Bell, and a body of friends who proceeded for Martinique. Ashes fell upon the steamer when she was passing Mount Pelee. There were intermittent detonations, and the summit of the volcano was completely obscured by clouds of steam and ashes. Great dense volumes of steam, apparently from small craters, rose by the seashore near the ruins of the Guerin sugar factory and several places up the cleft from which the stream of mud had poured May 5.

The ruins of St. Pierre presented a ghastly sight. Torrential rains had removed much of the sand and ashes with which they had been covered, and many corpses were partly exposed. The odors were strong and nauseating. The valley of the river Roxellane has been blocked, and a portion of the river has been turned into the ruins of St. Pierre, the northwest portion of which is partially flooded.

While Mr. Bell and his party were proceeding with their inspection of the ruins, an avalanche of black scoriae and sand fell to the east of the town, accompanied by loud detonations which alarmed the visitors.

The north end of the island of Martinique is gray with ashes, and the whole population of that section appear to have left the scene of death and destruction.

HALL A CANDIDATE.

Newspaper Man Out For Gubernatorial Nomination.

St. Paul, June 19.—H. P. Hall, the veteran newspaper man, announced last night that he would be a candidate for the Democratic nomination for governor.

"I believe," said Mr. Hall in an interview, "that John Lind will absolutely refuse to accept the nomination if it is tendered to him by the state convention. He has said so, and his word must be taken. An effort may be made to force the nomination upon him, but I do not believe even that will be successful. If, prior to the convention, Mr. Lind intimates in any way that he will accept the nomination, I shall not be a candidate, for I am a sincere admirer of Lind and believe he could be again elected. There has been some talk of nominating me for clerk of the supreme court, but, if I can poll votes at the tail end of the ticket, I can also do it at the head, and I want to round out my career as governor of this great state. The office of clerk of the supreme court is a purely mercenary one, and I do not want it. If I receive the nomination for governor, I shall at once take the stump and make a few speeches that will stir things up. I may offend some Democrats, but I will get a lot of Republicans in line for me. If elected I shall give the state a business administration—a newspaper man's administration in everything that that phrase suggests."

TENNESSEE NOMINATIONS.

Nashville, Tenn., June 19.—The state Republican convention in session here yesterday nominated the following ticket: Governor, H. T. Campbell; railway commissioner, H. R. Elliott; supreme court judges, T. A. Wright, J. S. Parks, T. T. Coldwell, B. W. Starnes, C. H. Trimble; court of chancery appeals, George T. McCall, George S. Ramsey, Xenopen C. Hicks.

NO RESULT

From Conference of Republican Senators on Cuban Matter.

Washington, June 19.—The Republican senators were prompt in beginning their conference on the Cuban reciprocity bill last night. The meeting was held in the marble room just off the senate chamber. When at 8 o'clock Senator Allison, as chairman of the caucus, called the meeting to order, all the Republican senators with six exceptions were present. Four of the six absentees were out of the city. The six senators who were not present were Messrs. Depew, Dolliver, Frye, Hawley, Kearns and Simon. Senator Wellington, who has not acted with his party for the past two years was among those in attendance and was among the first to present himself.

The conference was preceded by two meetings to which some significance was attached. The first of these was a gathering of the Republican steering committee and the second a dinner given by Senator Burrows in his committee room to the beet sugar senators. The steering committee discussed nothing but the executive business in the senate and decided to recommend that the reciprocity bill be made the unfinished business after the discussion tomorrow of the Isthmian canal bill, subject, of course, to the action of last night's conference. This was as far as the committee felt it could go in indicating its opinion to the conference, but this was accepted as a pronouncement favorable to the proposed legislation.

The Burrows' dinner was attended by seventeen of the nineteen senators who are pledged to opposition to the reciprocity bill. There was no effort to transform the dinner into a conference, but the senators present gathered in small groups for the discussion of the situation. A poll led to the announcement that one-third of the Republican membership of the senate was present at the dinner; that eleven states were represented and that they were as firmly united as they ever had been.

The discussion continued until after the conference adjournment. No conclusion was reached, but the opinion was expressed even by those who would vote for a reciprocity bill that there was little possibility of passing such a measure at this session of congress. The seventeen beet sugar senators present each made a speech saying that he would not support the Spooner bill or any measure of that character.

CLARK CONFIRMED.

Advanced Seven Numbers and Made Rear Admiral.

Washington, June 18.—The senate had an executive session soon after meeting today, and Senator Hale reported favorably the nomination of Capt. Charles E. Clark, to be advanced seven numbers and made a rear admiral. He asked to have the nomination confirmed, but Senator Warren objected, and the nomination went over. Subsequently Senator Warren withdrew his objection, moved an executive session, and Capt. Clark was confirmed.

A refined appearance, delicate shade of fascinating beauty, given by Satin-Skin Powder (flesh, white, brunette tints). 25c.

AMUSEMENTS.

LYCEUM THEATER
C. A. MARSHALL, Lessee and Manager.
Special Announcement!
On June 30 evening, the distinguished artiste, Kathryn Kidder, will appear in a grand revival of David Garrick's immortal comedy, "The Country Girl." This will be the most notable event of the present theatrical season. The sale of seats will commence on June 28. Prices 25 cents to $1.50.
On account of the great interest already manifested in this engagement, and the large number of inquiries at the box office, it has been decided that applications for seats made before the opening of the sale will be filed in the order of their receipt.

Learn Book-keeping.
Single and Double Entry, By Mail, at Your Own Home.

We teach young men and women the modern and up-to-date methods of bookkeeping as used by the large business houses of the country and fitting them for good positions as bookkeepers and cashiers. Do not waste your time and money learning the old system. The wide-awake business man of today needs bookkeepers that understand the newest and quickest ways of doing business, and will pay good salaries for competent help. Anyone can learn it within a few weeks; thoroughly practical and remarkably inexpensive. Good paying positions secured by our students immediately after the course is completed. Write today for full particulars. Michigan Business Institute, 140 Institute Bldg., Kalamazoo, Mich.

THEY DINE AND TALK

Banquet of West Duluth Republican Club.

Distinguished Members of Party Are Heard.

The West Duluth Republican club's second annual banquet, held last evening in Great Eastern hall, West Duluth, was a thorough exemplification of the Bede doctrine, "Love one another," for it was a veritable love feast, a commingling of kindred spirits, a reign of good fellowship and an exuberantly joyful evening all around.

Three hundred guests sat down to one of the neatest lunches ever spread in the city for such an event. It was prepared by the women of Asbury M. E. church, who added grace to the affair by serving it themselves. They were the subjects of many flowery compliments from the speakers of the evening for their labors in behalf of the banquet.

Then, when the banquet had been disposed of, came the real business of the meeting, which was speech-making.

GOVERNOR VAN SANT.

Six affable gentlemen, all candidates for office, were present to speak, and the hearers included a number of other affable gentlemn, also candidates for office.

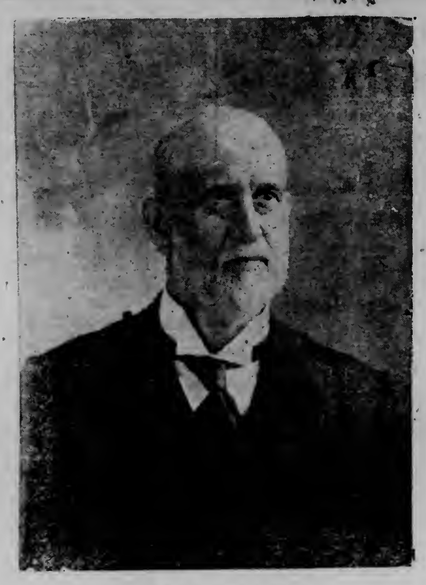
One of the things that contributed greatly to the good time was the absence of formality. Unlike most banquets, no toasts had been assigned to anybody, and while it was something of an innovation, it worked to perfection. The effect of it was that nobody had any solemn and formidable topic to discuss, and therefore nobody was solemn and formidable. All that was exected was that the speakers should say a little something calculated to add to the enthusiasm of the gathering, and if possible to say something that would raise a laugh. Laughs came easily, and there were many of them.

There was the greatest good feeling all around, and peace and harmony and brotherly love beamed and scintillated all over the hall. It was very affecting. The outside guests of the evening included Capt. Samuel R. Van Sant, of Winona, at present governor of the state and a believer in a second term for himself; Ray W. Jones, of Minneapolis, a lumberman, business man and unopposed candidate for lieutenant governor; Dar F. Reese, clerk of the supreme court for eight years, one of the best of good fellows and a candidate for four years more as clerk; W. B. Douglas, attorney general and unopposed candidate for renomination; Joseph G. Miller, of Two Harbors, member of the board of railroad and warehouse commissioners; W. W. Rich, of New Brighton, Ramsey county, Minn., a member of the late legislature and a candidate to succeed himself; Albert G. Scherf, of Red Wing, of whom the same is true; Dr. J. D. Budd, of Two Harbors, a candidate for Representative Thomas A. Bury's seat in the legislature, who is very likely to receive a nomination; Thomas A. Bury, of Two Harbors, an efficient member of the legislature, but a novelty in that

DAR. F. REESE.

gathering, because he is not a candidae for any office; J. Adam Bede, of Pine City, candidate for congress in this, the Eighth district; James Nash and Henry Hanke, of Minneapolis; John Bingham, of Two Harbors, and P. Eliard Dowling, of Eveleth, newspaper men, the latter being also a candidate for the legislature in the Forty-ninth district.

Others on the platform with the speakers were these: Rev. Harry W. Knowles, chaplain of the last legislature; T. M. Pugh, member of the same



JUDGE W. D. EDSON.

and a candidate for promotion to the state senate; George R. Layburn, ditto; George J. Mallory, toastmaster of the evening, member of the last legislature and candidate for re-election; A. Miller, member of the legislature and not a candidate for re-election; Capt. D. E. Stevens, a possible candidate for member of the legislature; J. P. Johnson, clerk of the district court and a candidate for re-election; L. H. Whipple, county treasurer and candidate for re-election; A. Lofgren, register of deeds and candidate for re-election; W. G. Bonham, judge of probate and candidate for re-election; E. R. Jefferson, candidate for member of the legislature; Millie Bunnell, manager of the News Tribune.

There was lots of handshaking there last night, with this formidable list of candidates on hand.

George J. Mallory acted as toastmaster, and he did it with grace, eloquence and tact. In opening, he thanked the women of Asbury church for their assistance, and congratulated the club on the success of its banquet. He welcomed the guests, and stated that he had letters of regret from Odin Halden, Senator E. B. Hawkins and J. B. Cotton. In regard to the fact that no toasts had been assigned to any of the speakers, he said that the Republican party and its policy was wide enough so no toasts were needed; there was enough for everybody to say about the party.

VAN SANT GETS OVATION.

Governor Van Sant was then introduced and received an ovation that appeared to delight him very much.

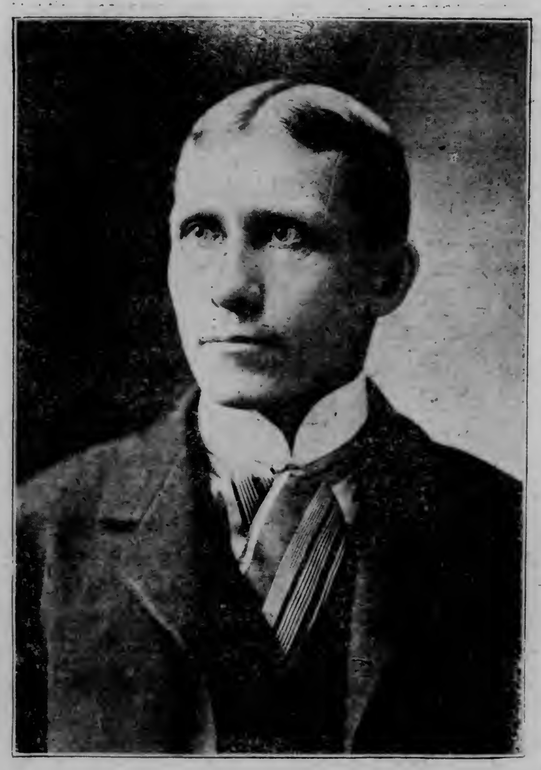
"Nationally things are in excellent shape. Roosevelt will be president in 1904. There never was such unbounded prosperity. As a man said to me the other day, the prosperity will continue as long as people have confidence, and they will have confidence as long as the Republican party is in power. Therefore keep it in power. I thank you for your cheers; they are sweet. But your votes will be sweeter in November."

RAY W. JONES SPEAKS.

Ray W. Jones, of Minneapolis, had a good reception and made a good impression. He spoke briefly, saying that the Republican party is the party that does things. It has solved every great question that has come before it, and it will continue to do so in the future. In Minnesota the party has a governor who is loved by the people because of their confidence in his absolute integrity and unimpeachable honesty. He will be unanimously renominated and overwhelmingly re-elected.

THE ATTORNEY GENERAL.

Attorney General W. B. Douglas in opening his address, said he had understood that the banquet was in honor of George Mallory, and that he had even heard that yesterday was his birthday. However, George had assured him that this was untrue, and that he only had a birthday every two years now. Continuing Gen. Douglas said that the Republican party stands where it always stood, for the interests of the people, for that which is good and that which is just. It has never been nearer to the days of '56 and '60 than it is today, with the staunch, sturdy form of Theodore Roosevelt at the helm of the ship of state. In Minnesota



J. ADAM BEDE.

In paying a tribute to the women who had contributed so much to the success of the banquet, he told the story of Betsy Ross, to indicate how women have their way. He told how when the flag was being made up, Betsy Ross insisted that there should be five points to the star instead of six. Pointing up at the flags draped over his head, he said:

"And Betsy Ross had her way. She took one point off the star, and that is something no nation has ever been able to do since. I came here to have a good time more than to make a speech. I am glad to be here, as I always am. In two weeks the battle will be on and we shall have something to fight for. I can scarcely wait the two weeks, for I am ready to begin right now. To my fellow-candidates I would say, work for yourselves, or you cannot succeed; but if defeat comes, work for the man that defeated you, for the Republican party is kind to those who accept defeat gracefully.

"There can be no campaign issues for the opposition this time. About the only thing is that they want our jobs. I have changed my mind about one thing. Last year I thought that one term was enough for a governor, but now I believe in two terms.

the party has a man of as rugged character in Samuel R. Van Sant.

DAR REESE TALKS.

to the women grouped near the right hand side of the stage, by saying that if he had attended more banquets in West Duluth this could not be said of him, made a ringing speech in his accustomed style. He said that the Republican party is so broad that every man may stand upon its platform. There might be planks upon which all could not agree, but all can. Dar F. Reese, with whom Toastmaster Mallory had some fun because he is a single man, and who responded with a bow stand together for the good of the majority. We can support our present congressmen and senators because they are patriots, and each is trying to do the same thing, though it may be in different ways. Great problems are crowding in upon the party. There is a great struggle impending for the possession of the vast markets of the awakening Orient. The Republican party can be depended upon to grasp and met these problems, and to make this country supreme among the nations of the earth. People can no longer think in townships; they must think in continents. We must broaden our views. We must join in the procession, we must lead it.

J. ADAM BEDE HEARD.

J. Adam Bede was given a very warm reception, applause continuing for several minutes when he arose to speak. He made a characteristic address, sandwiching fun with more solid stuff, and he made an excellent impression. He said that if he were writing a platform for the Republican party he would simply make a record of its achievements, not of what it had believed should be done, and had not done, but what it had really accomplished. It believed slavery was wrong, and it abolished it. It disapproved of polygamy, and that went, too. It attacked lotteries and the disappeared. It has made legislation for the working man and legislation for the farmer, and it has built up a great school system. He was a Republican because the Republican party was right on the great issues. The Republican party stood right on the gold standard, and the country became the money center of the world.

JUDGE EDSON'S SPEECH.

Judge W. D. Edson was given a cordial reception, and he spoke briefly. Holding up the little flag that came in the ice

ATTORNEY GENERAL DOUGLAS.

cream that was served to the guests, he made it the basis of a neat little talk on the accomplishments of the Republican party that he said had made that flag more loved and honored. The spirit of John A. Dix, who said: "If any man attempts to haul down the American flag, shoot him on the spot!" is alive today. That banner speaks of protection to American industries and protection for freedom, not only to America, but to the isles of the sea that America now protects.

Governor Van Sant and Attorney General Douglas returned to St. Paul last night, but most of the outside remained over to today, returning this afternoon.

MORRIS BILL

Knocked Out By Fletcher on Point of No Quorum.

Washington, June 19.—Indian legislation was considered at last night's session of the house. The Morris bill to open up the Chippewa Indian reservation to settlement and dispose of the pine thereon was called up. After the bill had been read Congressman Eddy arose and offered an amendment to strike out the provision relating to sealed bids being received for the pine, and to provide that the pine be sold at public auction. Representative Cannon said that but few members understood the bill, and he claimed that it would denude the big Northern forests.

Mr. Sherman, of New York, called attention to the fact that this was not a new law, but merely an amendment of the existing Nelson law. Mr. Cannon finally yielded to Judge Morris who declared at the outset that this bill instead of denuding the forests would prove the salvation of the timber reservation, because it provided for a permanent forest reservation to be forever perpetuated. He explained the bill at length. Mr. Eddy, speaking in favor of his amendment, said that the sealed bids proposition would not prove of advantage to the Indians. "I want it understood," said Eddy, "that I am strongly in favor of the bill, but I am against the sealed bid proposition. Why not have the pine sale open and above board, that every person, the small lumberman just as well as the big one, may know what he is doing?" Mr. Eddy was followed by Brown, of Wisconsin, who spoke for the sealed bids proposition. Towney and Fletcher, of Minnesota, spoke in favor of the sale by public auction. Eddy's amendment was defeated by a vote of 32 to 47. Mr. Fletcher then raised the point of no quorum, and the house, at 10:45 p. m., adjourned, leaving the bill unacted upon. It is hardly likely it can be reached again at this session.

AT CLOQUET.

Cloquet, Minn., June 19.—(Special to The Herald.)—A meeting of citizens was held in village hall, Tuesday afternoon to arrange for the celebration of the Fourth of July. H. Hornby was chairman, and F. D. Vibert, secretary. A fine program was arranged, and the committees were appointed. The day is to begin with a parade and end with a display of fireworks. The new Library building will be dedicated in the afternoon.

The village council will hereafter meet the first, instead of the third Monday of each month, commencing in July. The time of holding the meeting is also changed to the afternoon.

Dr. H. B. Allen and Louis McCullough were visitors in Duluth Tuesday.

It is reported that a leading Duluth firm is to open a dry goods and clothing establishment in the Elm block, when it it ready for occupancy.

President McKinnon is to visit St. Paul to talk with State Auditor Dunn over that bonding busines, and report to the council.

At the Democratic primary Tuesday evening, twelve delegates were elected to attend the county convention, at Carlton, next Saturday.

John C. Campbell, wife and family, with a party of friends left Tuesday for Island Lake, where they will spend the summer.

Children's day will be observed in the First M. E. church, by a special service next Sunday evening at 7 o'clock, instead of 8 p. m. as usual.

The Cloquet Lumber company's mill had a break-down Tuesday afternoon. Work was resumed, however, on the night shift.

Mr. and Mrs. Amos Fax are rejoicing over the birth of a son.

August Bartloff's little girl died Monday and was buried on Wednesday morning.

B. J. Summerfield is to open a branch store in the Loisel building on Cloquet avenue and Tenth street, early in July.

AT BELOIT.

College Closed With the Graduation of Thirty-Six.

Beloit, Wis., June 18.—The fifty-fifth commencement exercises of Beloit college closed today with the graduation. There were thirty-six graduates, one-third of whom were ladies. The address was made by Professor T. C. Chamberlain of the University of Chicago. It was announced that Professor Chamberlain and Horace White, editor of the New York Post, have been elected trustees. In making the announcement, Acting President Collie said this may be called the year for victories. Not only have business matters of the college been satisfactory, but the college has won eight oratorical and debating contests. The college baseball team won fourteen out of eighteen games, defeating the great Western universities; the football team won half of its games, and this was the only college to get points in the conference athletic meet, the others being universities.

Married Women

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at $1.00 per bottle. Our little book, telling all about this liniment, will be sent free.

A SHARP ADVANCE

Wheat Starts Higher and Continues Upward All Morning.

Unfavorable Reports From Southwestern Country and France.

Duluth Works Some Wheat For Export--- Flax Is Lower.

Duluth Board of Trade, June 19.—The wheat market started out a little higher today and continued its upward course throughout the session, finally closing at an advance of better than a cent in Duluth, Minneapolis was the weakest market. Reports were generally bullish. Advices from France were that the weather continues very discouraging for the crop. In the Southwest in this country there is too much wet weather and threshing returns are not satisfactory. Cables were strong, too, Liverpool showing an advance of ½d and Paris 1½@2c. The cash situation continues strong and there was some export business done in the Duluth market, about six loads.

Primary receipts of wheat were 304,000 bus, last year 468,000 bus. Shipments 175,000 bus, last year 831,000 bus. Clearances of wheat and flour aggregated 356,000 bus.

July corn in Chicago was again weaker today declining ¼c. Oats closed without change. Primary receipts of corn were 835,000 bus, last year 545,000 bus. Shipments 227,000 bus, last year 542,000 bus. Clearances were 2000 bus.

Receipts of wheat at Duluth and Minneapolis, 247 cars, and at Chicago, 27, a total of 274 cars, against 149 last week and 835 last year.

Trading in wheat on the Duluth floor was very light and the market somewhat stronger. It opened 1c up at 74¼c, sold at 74½c at 10:28, at 74⅝-½c at 10:36, at 74⅝c at 11:20, at 75¼c at 12:10, and closed on sales on 75¾c, an advance of 1¾c. Chicago advanced ⅞-1c and Minneapolis ⅞c.

Cash prices were unchanged at ½c over July for No. 1 northern, 1½c under for No. 2 and 3c under for No. 3. Sales were 10,000 bus.

Flax trading was very light and the market weaker, the close on cash seed being off ¼c and on September and October ½c. September oats advanced ¼c and cash and September rye were ¼c stronger.

Following are the closing prices:

Wheat—Cash No. 1 hard, 77¾c; No. 1 northern, 75¼c; No. 2 northern, 74c; No. 3 spring, 72¼c; to arrive, No. 1 hard, 75¾c; No. 1 northern, 75¾c; July, 75¼c; September, 72¾c; Manitoba cash No. 1 northern, 75¼c. No. 2 northern, 73¾c. Oats, September, 30c; rye, 55½c; September, 53¼c. Flax, cash, $1.70 to arrive, $1.69; on track, $1.70; June, $1.65; September, $1.40; October, $1.36¼.

Cars inspected—Wheat, 11; last year, 18; corn, 3; oats, 1; flax, 1.

Receipts—Wheat, 8777; rye, 1317; barley, 1318; flax, 683.

Shipments—Wheat, 25,800; oats, 1948.

THE CHICAGO MARKET.

Corn Opens Again In an Erratic Manner.

Chicago, June 19.—Corn opened again today in a very erratic manner, but in comparison to yesterday's pit antics, trading was tame. There was little stuff offered early and as a consequence some of the few small shorts who had not been squeezed out tried to cover at low prices. July sold unchanged to 1c higher at 65½c to 66 for initial sales. From the top figure there was a quick slump to 65¼c, and almost as quick a recovery to 65¾c, on yesterday, almost any trade affected the price. Gradually small liquidation and a little pressure pushed July back to a somewhat steady position near 65¾c. Natural conditions were of little influence. Wet weather was also reported in many corn sections. September stuff, which might be considered for the time a fair criterion for corn prices, opened a shade to ⅛@¼c up at 58½ to 58⅝c and eased to 58⅜c. Cash stuff was about steady; near 60c for No. 3 that would not grade No. 2, and 62c for No. 3 that probably would grade contract. Receipts were 187 cars, 15 of contract.

As the session advanced, corn dropped back to second place in importance on the floor. Prices still fluctuated nervously on fair sales and July eased to 65c, closing fairly steady, ¼c lower, at 65¼c. September closed easy, ¼c lower, at 58⅛@⅜c.

Soaring prices in France seemed to dominate the wheat pit early in the day. English cables were firm, but Paris was up as high as 2¼c, presumably on wet, cold weather. This influence, together with more wet weather in the Southwest and rather cool temperatures in many localities started good buying. The cash prospects were improved. Statistical journals were somewhat bearish, but had only a momentary influence. July started a shade to ⅛@¼c higher at 72½@72⅝c, dipped to 72⅜@¼c and recovered sharply to 72⅝c. Local receipts were 27 cars, 2 of contract grade; Minneapolis and Duluth reported 247 cars, making a total for the three points of 274 cars, against 179 last week and 386 a year ago.

Active purchases here of wheat for shipment to France kept wheat on the advance all day. Wet weather talk in Kansas where cutting is going on and fears of damage aided in the upturn. July sold at 73¾c and closed strong, ⅞@1c higher at 73⅝c.

Oats were dull and featureless early. There was some demand for new July and September stuff, but trade was light and prices fluctuated very narrowly. July opened unchanged at 29c and hung idly between that price and 29¼c. Receipts were 112 cars.

Provisions were very strong early on a good demand, fair cash business and a higher hog market. Brokers were again manipulating the market upwards for the packing houses. July pork opened 10c up at $17.70 and sold to $17.80; July lard 7½@10c higher at $10.30 and July ribs 5c up at $10.52½ and sold to $10.57½@10.60.

Close: Wheat, June, 73¾c; July, 73⅝c; September, 72¾@¾c; December, 72⅞@73c. Corn, June, 64¼c; July, 65¼c; September, 58⅜@⅝c; December, 45c; May, 43¼c. Oats, July, 42c; July, 30½c; new, 30¼@⅜c; August, new, 31½c; September, 28⅝c; new, 30⅜@⅞c; December, 28½@⅝c; new, 31½@⅝c. Pork, June, $17.75; July, $17.75; September, $17.65; January, $16.35. Lard, June, $10.35; July, $10.35; September, $10.37½@10.40; October, $10.35; November, $10.00; December, $9.57½; January, $9.30; May, $9.30. Ribs, June, $10.62½; July, $10.62½; September, $10.50; January, $8.57½. Flax, cash Northwestern, $1.75; Southwestern, $1.54; September, $1.40; October, $1.36. Rye, July, 50½c; September, 54¼c. Barley, cash, 66@70c. Timothy, September, $4.52½. Clover, cash, $5.35. Cash wheat: No. 2 red, 80c; No. 3 red, 77@79c; No. 2 hard winter, 75@76c; No. 3 hard winter, 73@75c; No. 1 northern spring, 75c; No. 2 northern spring, 74c; No. 3 spring, 67@73c. Corn, No. 2, 60½c; No. 3, 61@½c. Oats, No. 2, 42½c; No. 3, 41½c.

GRAIN GOSSIP.

Logan & Bryan, Chicago: Wheat—The tone of the market was firm and there is rather more activity. The strength in Paris which is said to be caused by unfavorable weather was partly responsible, but the tendency in this country toward wet weather west, together with disappointing returns from the threshing sieve caused some buying. Neither of these latter are acute so far, but the tendency is that way. Northwest stocks show a small decrease and a moderate decrease only in the visible on Monday seems likely. There is a fair cash demand for wheat and premiums interfere with business. Unless weather improves, prices will, we think, go higher and on any breaks caused by better weather we would buy wheat.

Corn—The market was very quiet. While there is still a large shattered short interest in July there is also a large scattered long interest and we think on the whole most of the trading. The cash situation is bearish but is not regarded. The continued showery tendency of the weather is unfavorable to the growing crop, but the trade remains optimistic and it occasions so far little or no speculative buying.

Oats—It is a fairly active market, but steady. There is good buying of September oats for local account and the selling is of course mainly from shorts. We regard September oats as cheap under the circumstances. While favorable harvest conditions might prevent an advance it might bring a small decline and any unfavorable weather would cause a sharp upward turn. The tendency of the weather is unfavorable.

* * *

Marris, Gates & Co.: Our Liverpool cable today reads: "Weather was warm and bright in England." The weather map shows excessive rains in Southern Kansas. There was a good cash demand here yesterday. Cash wheat sales here so far this week about 500,000 bus. Local corn receipts are only 187 cars, and only 15 cars of contract, but the private elevators turned out this morning, 116 cars of contract corn, and 40,000 bus, about 200,000 bus in all and making probably 700,000 bus contract corn manufactured by the private houses this week. Weather not unfavorable for the corn this morning except too wet in Kansas.

* * *

Cincinnati Price Current: Another week of good growing weather. Winter wheat is heading well in the northern section. In the southern section harvesting progressing with some drawbacks by rain, but less than preceding week. Spring wheat and corn making satisfactory progress. Oats are good, but too rank and lodging some.

NEW YORK GRAIN.

New York, June 19.—Close: Wheat—July, 79¾c; September, 77⅝c. Corn—July, 66⅝c; September, 63⅛c.

MARKET REPORT.

Received over private wire of B. E. Baker, grain and stock broker, 507 Board of Trade, Duluth, Minn.

Chicago, June 16.—There was a large and active trade in wheat today and the market ruled strong on covering by shorts owing to rainy weather throughout the winter wheat belt and sharp advance in the Paris markets said to be due to unsettled weather and very small stocks, but our own friends cabled us that the weather in France was fine and crop prospects somewhat better. The weather in England was reported favorable, but Liverpool closed ½d higher in sympathy with the strength in Paris. It is generally thought that France will have to import a fair quantity of wheat before her new crop is ready for consumption. There was a moderate demand for cash wheat here but the seaboard reported export demand rather quiet. It was reported during the day that large sales had been made to go to France but nothing could be confirmed. In fact, the seaboard exporters reported their limits quite out of line. Trade has been large all day and a great deal of short wheat has undoubtedly been covered, but the future course of the market will depend on the weather in this country and abroad. Estimated receipts for tomorrow, 35 cars.

Trade in corn was very light today and the market was inclined to rule dull. The July option sold at 66¾c early, but later declined to 65c and closed at 65¼c sellers. There was very little doing in the September, which closed ⅛c lower than last night. The market is manipulated but stocks of contract corn are increasing every day. Foreign markets are quiet. Liverpool closed ½d lower for the day. Our Rosario friends cabled that they look for large shipments from the Argentine to Europe. Weather generally favorable for the growing crop. Estimated receipts for tomorrow, 255 cars.

There was a fairly large trade in oats today and the market ruled steady. There was more or less selling of old July, but new July was in good demand. The market closed: Old July, unchanged; new July, ¼c higher than last night; September was firm and closed ⅜c higher than last night. Country offerings were very light, cash demand was good. Weather on the whole generally favorable for the growing crop. It is said Eastern consumers are practically bare of stock and will soon be forced to come to this market and buy freely. The cash situation is strong and we think July oats around present prices are a purchase. Estimated receipts for tomorrow, 160 cars.

Provisions opened strong on unexpected light receipts and sharp advance at the yards. Leaders worked hard for an advance and secured it. Considering the advance the amount of trade was small. Pit trade was followed the lines of the grain home long. There has been showy buying of September pork for several days and there is talk of manipulation, although July drags and carrying charges have widened from a discount for September to a discount July 20c. The whole list was hulled today and trade in the futures is large. Although we do not believe there is fear of manipulation, we advise trading now in January and May, ignoring the temporary and passing circulation on a new crop of hogs and corn, and leave the market for near futures entirely alone. Estimated receipts for tomorrow, 23,000 hogs.

COLONEL WAS KILLED.

Austrian Officer Was In Service of Columbia.

San Francisco, June 19.—News of the death of Col. Battenberg, an Austrian army officer in the service of the Colombian government, has been received by teh steamer Lellenaw, arriving direct from Panama.

Col. Battenberg, who had rendered great service to the Colombian government troops, was killed June 1 in a fight with insurgents. The colonel was in charge of a battery of field guns and made a heroic stand in the face of superior numbers.

At a critical time he was deserted by his men, who fled before the insurgent troops and left him to be stricken down. He died fighting. His body was recovered soon after by the government officers and taken to Bocas del Toro.

NEWSPAPER SOLD.

Director of Mint Buys Iowa State Register.

Des Moines, June 19.—The Iowa State Register, of this city, announces today the sale of the property to George B. Roberts, United States director of mint. For thirty-two years it has been owned by the Clarkson Bros., and the announcement today contains the information that the sale was made on account of ill-health of R. P. Clarkson. Mr. Roberts' home is at Fort Dodge. The price paid for the property is reported to be $125,000.

STRIKE THREATENED

Because Men Were Discharged By Transit Company.

St. Paul, June 19.—(Special to The Herald.)—Because the Twin City Rapid Transit company discharged eight employes in this city, who had participated in a meeting for the purpose of organizing a union, a strike is now threatened, between 500 and 600 men being involved.

DECLINE IN STOCKS

Opening Rather Firm But a Selling Movement Developed.

Part of Losses Recovered By Some Leading Stocks.

Others Continued Heavy and the Closing Was Irregular.

New York, June 19.—Illinois Central was lifted ¾ at the opening. Otherwise prices were lower throughout on widely distributed selling. A thousand shares of Reading sold at 66½ to 66¾, compared with 67¼ last night and there were losses of about a point in Missouri Pacific, Canadian Pacific, Colorado Fuel and American Ice.

Realizing in Illinois Central caused a reaction of a point and the continued liquidation in Colorado Fuel lowered it 2½. Other stocks reached a lower level but losses were limited to fractions except in a few cases. St. Joe & Grand Island yielded 1¾ and Wabash, St. Louis Southwestern, Great Northern preferred, Sugar, Delaware & Hudson and Pullman about a point. Large buying orders appeared in Atchison and when it crossed 83, other stocks rallied slightly. Colorado Fuel recovered 1¼ and Westinghouse Electric advanced 1½. The rally was not held and prices began to recede again. Dealings became quite active when the bears detected profit-taking by the bulls and made a general attack on prices. Many of the principal stocks fell between 1 and 2 points below yesterday's close, the list including Missouri Pacific, Illinois Central, Union Pacific, Reading, Manhattan and Amalgamated. St. Paul was relatively firm and stocks which have not shared in the recent bull campaign were not much affected. Bonds were easier at noon.

Selling became more urgent and losses were largely extended throughout. Stocks which had shown some resistance earlier, notably St. Paul and the Eastern trunk lines became decidedly weak and the general tendency was accelerated by heavy liquidation of United States Steel. The common stock fell to 30¾ and the preferred to 87½. Declines elsewhere reached 2 points in many important stocks and 3 in Great Northern preferred. Amalgamated declined 1 o'clock the market was quieter and slightly above the lowest.

A spasm of liquidation spent its force and there were some substantial fractional recoveries as the shorts took their profits. Canadian Pacific recovered a point and Colorado Fuel 2. The market became decidedly dull on the rally.

Missouri Pacific was bid up on the rally with some aggressiveness and recovered all but ¼ of its loss. Some other leading stocks recovered practically all their losses, but others continued heavy. General Electric dropped 3¾ and Northwestern 2¾. With the demand from the shorts satisfied, the market began to recede again. The closing was dull and irregular.

Stock quotations reported for The Herald by Edwards, Wood & Co., Room A Torrey building, Duluth. Closing prices are bid prices:

STOCK GOSSIP.

Ridgley to W. H. Laidley & Co.—The big men are gradually working the market higher; it looks like we might have some decline Monday or tomorrow, but I am of the opinion that until we get a big volume you need not look for reactions to exceed a point or so. The stocks continue very weak. I look for them to stiffen up, however. I believe the best idea is to buy on a scale such stocks as Union Pacific and Southern Pacific. Missouri Pacific has advanced for three days and may react today, but it will go higher later. There are too many bears on copper for it to go down much.

* * *

Bache to Paine, Webber & Co.—The Twin City Rapid Transit company's earnings in the second week in June increased $5000. From January 1 they have increased $185,000.

* * *

Warrington to W. H. Laidley & Co.—The market is becoming more active and pronounced in its tendency and it is evident that powerful interests are working in harmony for advance all along the line. I would not take profits on Missouri, Reading or St. Paul; yet. They will go higher. Atchison, Union Pacific, Southern Pacific, Wabashes, New York Central, Brooklyn Rapid Transit, Tennessee Coal and Iron and Copper will have advances.

* * *

Waldorf to Edwards, Wood & Co.—Although outside interest in the present upward movement in the stock market is but slight, representative brokers say tonight that there is more public disposition to buy than there has been for two or three months and they look for a continuation of activity and strength. It is regarded as of the greatest significance that the highest class shares are particularly in the bull movement, attention having been drawn to those by advance in Illinois Central. The big buying in this stocks began when the latter was about ten points lower with the purchase noted by this writer at the time of some 40,000 shares by Rockefeller. While today's outburst of activity in Illinois Central is to a conservative extent enveloped in mystery, it is understood to be due to buying by substantial rights and important plans looking to closer union of Southern and affiliated roads including Chicago & Eastern Illinois, Louisville & Nashville and the Southern Railway. As to the future of Illinois Central stock a friend of E. H. Harriman quotes the latter as saying that these shares will be quoted above 170. In the opinion of the largest operators the best indications bearing on the general market is the increased activity and strength of Union Pacific, the buying of which is said to be first class, part of it being created to Kuhn, Loeb & Co.

* * *

S. B. Dickinson to W. H. Laidley & Co.—A message from private source this morning says that profit taking yesterday was the feature of the market and predictions are that it will be full of irregularity today but at the same time looks for a decided advance. All of the powerful interests such as Gould, Harriman and others of like standing are working on the bull side. The information comes that Atchison and Pennsylvania stocks, are being put in position for an early advance. A reaction, however, they feel is due, but I am advised to purchase stocks on the slightest recession.

* * *

H. A. Schettel to Paine, Webber & Co.—From what I see it looks to me as though the large holders of steel are sewing it order to see the color of the coin. They are getting tired of looking on.

* * *

Bache to Paine, Webber & Co.: The weakness in the steel stocks may be traced to the following causes: First, the great legal entanglements the corporation is encountering in the effort to convert its preferred stock into bonds; second, the efforts of President Mitchell of the coal workers to induce other labor organizations to assist in his struggle and which brings a fear of general shut outs; third, the temptation to realize on any advance at this particular time which brings a lot of long stock into the market. Toward the close a recovery ensued, but the general tone of the market is rather bearish.

THE COPPER STOCKS.

Following are the closing quotations of copper stocks at Boston today, reported by Paine, Webber & Co., 308 West Superior street.

Stock.	Bid.	Asked.
Adventure	23½	24½
Arcadian	46	51
Allouez	2⅜	2⅝
Atlantic	30½	31½
Anaconda	2½	2⅝
Amalgamated	67	67⅛
Calumet & Hecla	580	600
Centennial	18	19
Copper Range Con.	56½	57
Franklin	1a	1⅞
Isle Royale	12	13
Bingham	34	34½
Mass	18¾	19¼
Mayflower	2¾	3
National	1½	2
Mohawk	41½	42
Michigan	11½	12
Old Colony	2½	2¾
Old Dominion	21	22
Osceola	61	62
Parrot	28	30
Phoenix	4½	5
Quincy	135	140
Rhode Island	1¼	2
Santa Fe	1⅞	2
Tamarack	175	180
Tecumseh	2½	3
Tri-Mountain	95	100
Utah	21½	21½
Victoria	6	6½
Winona	4	4½
Wolverine	54½	56½
Wyandotte	1	1¼
Elm River	...	3½
Trinity	12½	13
Dominion Coal	137	139
U. S. Mining	20	20¼
Daley-Western	43¾	44½
Calumet & Hecla	...	42

COPPER GOSSIP.

Hayden, Stone & Co. to W. H. Laidley & Co.: A private report that the Calumet & Hecla production for the year ending April 30, 1902, will show an output of 20,000,000 pounds less than the previous year, is incorrect. The output for the fiscal year just closed will not show any decrease from that of preceeding year, although it is doubtful if any increase is recorded.

* * *

Boston to Paine, Webber & Co.: The drive in Amalgamated which carried it down to 66¾ looked like a further move to accumulate long stock at a low price. There was very good buying demand in all the other coppers on the reaction. London copper came higher and the tone of the domestic metal market is working firmer today as we have that today for the first time since it sold above 70 the buying of Amalgamated has been first-class. We believe this is a good time to stick to first-class coppers and to buy them.

THE COTTON MARKET.

New York, June 19.—The cotton market opened firm with prices 3 to 7 points higher and for a time displayed a disposition to do even better on a scare of local shorts based on bullish cables. Profit taking by ring longs caused a break to 8.49 for July and 8.— for August by 10:30. Before 10:30 by the close of the first hour the whole market was firm again and a shade above the opening figures on demand from shorts who became alarmed over reports that the great part of the cotton territory was without rain again today. Trading was moderately active all the forenoon. Receipts were light and spot cotton reports were less bearish than anticipated.

Cotton spot closed, firm; middling uplands, 9¼; middling gulf, 9½; sales, 146 bales. Cotton futures, closed steady: June, 8.86; July, 8.68; August, 8.25; September, 8.00; October, —; November, 7.84; December, 7.85; January, 7.85; February, 7.85; March, 7.87.

TREASURY BALANCES.

Washington, July 19.—Today's statement of the treasury balances in the general fund, exclusive of the $150,000,000 gold reserve in the division of redemption, shows: Available cash balance, $300,957,449; gold, $59,969,322; silver, $24,515,706; United States notes, $9,767,117; treasury notes of 1890, $7,495,; national bank notes, $9,555,008; total receipts this day, $1,798,-607; total receipts this month, $29,721,652; total receipts this year, $484,348,373; total expenditures this day, $1,565,000; total expenditures this month, $26,175,000; total expenditures this year, $563,646,797; deposits in national banks, $126,649,351.

NEW YORK MONEY.

New York, June 19.—Close: Money on call steady, 2½@3 per cent; closed offered at 2¾ per cent; prime mercantile paper, 4½@5 per cent; sterling exchange firm with actual business in bankers' bills at $4.87⅝ for demand and $4.85½@4.85¾ for 60 days; posted rates, $4.86 and $4.88½; commercial bills, $4.85-4.84.85½. Bar silver, 52½c; Mexican dollars, 42¼c. Government bonds, steady; state bonds, inactive; railroad bonds, weak.

SUPERANNUATED.

Employes of Metropolitan Line to Be Pensioned.

New York, June 19.—In accordance with plans announced some time ago, all superannuated employes of the Metropolitan Street railway and its allied lines will be able to take advantage of the benefits of the new pension system which, it has been decided, shall become operative on July 1.

Notices have been posted in the barns, stables and power houses of the company, directing employes who consider themselves eligible for the pension allowance to make application to their employing officers. The pension system includes all men employed by any railway operated by the Metropolitan Street railway whose annual wages do not exceed $1200.

SOUTH DAKOTA G. A. R.

Sioux City, Iowa, June 19.—The South Dakota G. A. R. encampment at Brookings elected T. E. Blanchard, of Mitchell, commander, and Warren Osborn, of Yankton, vice commander. Big Stone secured the next encampment.

ASK PRAYERS FOR PARKER.

London, June 19.—The substitute of the Rev. Joseph Parker, minister of the city temple, in the temple this morning, asked for the prayers of the congregation in behalf of Dr. Parker, whose health is occasioning grave anxiety.

NEWS OF THE LAKES

General Manager Sinclair of Tug Trust Denies Compromise.

Says Company Stands Just Where It Stood All Along.

Pumping Begun on Hadley and She Will Float Soon.

The officers of the Great Lakes Towing company deny that they have made any compromise with the Cleveland striking tug men, as stated in reports sent out from there a day or two ago.

H. G. Inman, manager of the local tug company, this afternoon received the following telegram from General Manager Sinclair:

"H. G. Inman, manager Union Towing and Wrecking company, Duluth, Minn.: Understand report to effect we have compromised with Cleveland men has been sent out. This is not correct. We have not changed our position.

"(Signed) "O. H. SINCLAIR."

This would appear to settle the reports that settlement negotiations were in progress. If the tug trust stands in the same position the strike situation is unchanged, for the men have not made any advances so far as can be learned.

PUMPING IS BEGUN.

Wrecking Work on Hadley Has Reached That Stage.

Pumping on the steamer George G. Hadley began at 10 o'clock this morning, and this afternoon considerable progress had been made.

It was expected that the wrecked steamer would be raised late this afternoon or tonight, and towed to the dry dock, where she will be taken in and repaired. The appraisers will probably make their survey of the vessel after she is dry-docked, it is expected.

The present stretch of good weather is the longest the Hadley wreckers have had, and they are not losing any of it. The last northeaster found the work too far advanced to be set as far back as it had been before, so there was not much to do this time.

INDIA AGROUND.

The Anchor liner India was aground in the harbor basin for a couple of hours yesterday afternoon. She was in tow of the tug Record, which started toward the Superior side of the bay with her. The captain of the tug, one of the new men and not yet thoroughly familiar with the channels, took his course too far to port and found himself going aground. He reversed and called to the linesmen to throw off the line, but this was not done in time and it had to be cut. The steamer struck the tug on the starboard quarter, making a slight dent in the waleste ak. The injury was insignificant and the tugs released the India in a couple of hours.

PASSED DETROIT.

Detroit, June 19.—(Special to The Herald.)—Up: Majestic, 10 last night; Aztec, Commodore, 10:20; Forest City, 2 a. m.; Montcalm, 2:40; Langell, 3:20; Armour, 3:30; Denver, 3:40; Chisholm, 4; Lindsay and barges, 5:15; Nimick, Palliki, 5:40; Olympia, 6; Corona, 6:40; Holden, 7:15; Van Hise, Jenney, George Peavey, 7:30; Centurion, 7:50; Leafield, Barr, 8:20; Manola, Manda, 8:30; Mack, Bartlett and whaleback 39; Argonaut, 9:20; Harvey Brown, Starbuck, Plankinton, Confiberry, Bloom, 10:15. Down: Itaila, Amazon, 9:30 last night; Beatty, 10:40; Eads, 10:50; Buffalo, 11:10; Whitaker, 11:20; Hurlbut, Clint, 2 a. m.; Manistique and barges, 3:40; Emma Thompson, Spry, 4:40; Huron City and barges, Rehard and barges, 7; Irton, 8:10; Ogdeb, 9:20; Alabama, 9:40; Saturn, 9:50; Steel King, 10; Huron, 10:15; Mary Elphicke, 10:30; Choctaw, 10:50.

Up y

What's Der Use

OV GROIN UP WID OUT HAVIN ANY FUN?.

Der Aint Any.....

AN WATS MORE, WE'S GOIN TER KEEP HAVIN FUN as long as dere's half a chance. One ov dem chances is comin de 25th of June, we're all ov us newsies goin ter giv Manager Clow of der steamer "Newsboy," and de res ov de crew, all dey want in de way of excitement on our trip up de St. Louis river tu Chambers' Grove tu ofr picnic.

Der'll be lemonade goin & comin and evryting wats good.

Boat 'ill leave the "Newsboys'" dock at foot ov 5th ave. west at 8 a. m. an git back at 3:30 p. m. de same day.

When we git tu de grounds some uv us 'ill go swimin wid de big fellers to wach us, some ov us 'ill try ter catch all de fish in de river, cause its been reported roun town dat de fishin is fine up dare.

Base ball 'ill git a chance tu cause some rutin, an de races 'ill come in fer dere share.

We wont do a 'ting tu dat hundred pounds 'ov peanuts, dere great stuff, an good etin.

An if water melons be in de market—an we guess dey is—we'll cause a famin in dat line dat 'ill take all sumer tu git over—just wach us—its nex Wedensday.

MURDER IN MONKEY'S HEART.

"Monkeys have their likes and dislikes, just like men," said a young man who lives uptown, to the New Orleans Times Democrat, "and I know it because of my recent experience at my boarding house. The lady who runs the house has a pet of this kind. He is an ole s—ng fellow. He looks like he might have came down from prehistoric times. We call him Jo, and some of the boarders have a great deal of fun out of the old fellow. But Jo, for some reason, has taken a violent dislike for me, and he does not fail to show it, whenever I get in his presence. His face is a perfect picture of terror when I enter the house, and I have been inclined to cease him since observing that he did not like me, of course, has aggravated the situation. His dislike has developed into a sort of revengeful hatred, and he shows a disposition to do me bodily harm. I believe he would slap me if he could, and my experience with him during the past few days has convinced me that I will have to keep an eye on Jo, or get hurt. I did not pay much attention to his grimaces, his ferocious jabbering and things of that sort. I knew he did not like me from these antics, but I did not think his dislike was as violent as it is. A few days ago, when I entered that portion of the house where Jo is chained, he grabbed a heavy glass tumbler and threw it at me with fearful force. It missed my head by an inch and broke into 100 pieces against the wall. I made a few conciliatory remarks, but Jo did not take kindly to my advances. It was several days later when I threw a newspaper at Jo in a joking way. It threw him into a fit of rage almost instantly, but he exercised a bit of cunning which I did not think was in him. He held on to the newspaper with one paw and he held it so that it would conceal his other arm and paw. I had no idea what Jo was up to, and all of a sudden he hurled a big lump of coal at me. He missed me again, an I got out of his range as soon as possible. Since then I have had nothing to do with Jo, and in the future I will give him a wide berth. I do not care to be killed by a monkey, and I am satisfied that Jo would kill me if he could. He has murder in his heart, so far as I am concerned, and he has proved the fact by his conduct toward me during the last few weeks."

HOW HE KILLS HAWKS.

Folks in the Smithsonian institution and other authorities say that only two or three kinds of American hawks are harmful to farmers, and that these are not so very harmful; the other kinds put in their time destroying field mice, rabbits, gophers and kindred fauna which work ill to crops. Robert Wyche, who raises cotton and such things in Northern Louisiana, pays no attention to the scientists, however, says the New York Sun.

There are twelve varieties of hawks in that country, and he believes that they all catch young chickens. He is ready to make oath that he has killed more than one of each variety either in the act of swooping into his barnyard or perched upon a tree with a chicken in its talons. He declares that even the small sparrow hawk, most beautiful and diminutive of Kites, will tackle chicks not more than two weeks out of the shell.

Wyche has used bl—-whistler buckshot upon the great gray hawks, almost as large as eagles, and duckshot upon the other varieties, until he has grown tired of it. It takes half a day of a farmer's time to circumvent and slay a gray hawk which has carried off a pullet.

Blue whistlers are used on them because they are wary and must be picked off at seventy-five yards. An old negro told Wyche of a hawk-killing scheme which he has put into effect, and now he rests easily.

Hawks perch only on dead trees, or bare limbs, at a good height. They make themselves conspicuous in doing so, but are better able to look over the surrounding country and watch for prey.

Wyche made a strong pole fifty feet long by nailing scantlings together. Then he took an old scythe, ground and whetter its edge to razor keenness and tied it transversely to one end of the pole with the sharp edge down. Then he set the pole up firmly 200 yards from the barnyard and waited.

Within an hour a black hawk lit on the scythe, grasped it with its talons in order to steady itself on the narrow upper edge and cut its feet badly. It glanced down and struck at the scythe viciously with its beak.

It was cut again and made crazily angry by the scent of its own blood, which always happens; a broken-winged hawk will attack anything, big or little, that comes within its reach. It drove its beak once more against the scythe and fell to the ground with its head cut open.

Wyche has killed a lot of hawks with the scythe. Sometimes when their feet are cut they fly away, but this does not happen often. Almost always they attack the steel with their beaks, or swoop against it and are slain.

Even the man who says he don't read advertisements goes to a well-advertised store and calls for an advertised article. To "soak in' ads should appear often in The Herald.

VOTE WILL BE TAKEN

In the Senate on the Cuban Reciprocity Bill.

So Says Chairman Platt After Talk With President.

The Beet Root Senators Will Be Placed on Record.

Washington, June 19.—Senator Platt, of Connecticut, chairman of the committee on Cuban relations, today was an early caller at the White House, where he had a conference with the president on the subject of the probable fate of the Cuban reciprocity measure in the senate. He declined to make any statement concerning the president's views as expressed to him, but said that, speaking for himself, he would force the senators who are holding out against reciprocity to cast their vote either with or against the party. "There is not a beet sugar state," said the senator, "where, if the question was put before a Republican convention, reciprocity would not be endorsed. Where a lot of men are setting themselves up in opposition to their party, they will be forced to go on record by their vote."

Senator Millard (Neb.), who opposes the reciprocity plan, was present during part of the conference, and the president remarked to him that Nebraska had endorsed his (the president's) course and turned down her own senators. To a number of his callers today President Roosevelt stated that he finds a sufficient endorsement of his stand on the Cuban question in the actions of the conventions recently held in South Dakota, Kansas and Nebraska. To a personal friend today he said he felt particularly to Congressman Burkett, of Nebraska, and Martin, of South Dakota, for their attitude in their conventions; also that he took a particular pride in the endorsements from the three states above named, because he was peculiarly close to those states.

It is known that the president would negotiate a treaty with Cuba, provided he has the assurance of fifty senators that they would vote for it, but he does not want to try this expedient without a guarantee beforehand that it would carry. Those close to the president assert that the feeling now is that, if reciprocity is not granted at this time, it must come sooner or later, and that those senators who at present are opposing it, eventually will be led to see that our duty and obligations toward Cuba must be carried out, according to the pledges made.

The Republican senators who favor reciprocity with Cuba are not ready to acknowledge that nothing can be done. They say that with thirty-five votes in the senate they can do anything they need surrender to the nineteen who declared themselves last night against the bill. Two methods are suggested, one to negotiate a treaty with Cuba and the other to bring in and pass the house bill. The action of the Nebraska Republican convention in endorsing the president's message and reciprocity with Cuba was commented upon quite freely about the senate today, and the reciprocity senators quizzed Senators Millard and Dietrich in a good-natured way about the manner in which the Nebraska platform differed from their statements made in caucus last evening, when Mr. Dietrich declared that four Nebraska congressional districts would go Democratic if the reciprocity bill was passed.

OFFICERS ELECTED

By National Eclectic Medical Association at Milwaukee.

Milwaukee, June 19.—The National Eclectic Medical association today selected Indianapolis as the next convention city and elected officers as follows: President, J. D. McCann, Monticello, Ind.; first vice president, R. C. Wintermute, Cincinnati; second vice president, J. V. Stevens, Jefferson, Wis.; third vice president, Marshall B. Ketchum, Lincoln, Neb.; recording secretary, Finley Ellingwood, Chicago; treasurer, W. T. Gemmill, Forest, Ohio; corresponding secretary, N. A. Graves, Chicago.

It was decided to have 15,000 copies of the secretary's report printed and distributed in the various states.

The convention adjourned sine die this afternoon.

PAPER BOX MAKERS

Met In Milwaukee and Elected Their Officers.

Milwaukee, June 19.—Sixty members of the Western Paper Box Manufacturers' association, met in convention at the Hotel Pfister and after transacting routine businessfi decided to meet in Chicago next January. The following officers were elected: President, T. M. Patterson, Portsmouth, Ohio; vice president, W. W. Clark, Chicago; treasurer, Robert Hartman, St. Paul; secretary, Fred Davenport, Cincinnati; executive committee, W. H. Barger, South Bend, Ind.; Fred H. Wolff, Chicago; Louis D. Rebes, Detroit.

Some Interesting Figures.

It is estimated that the population of the earth is 1,500,000,000, and that four-fifths of this number of people are under the control of ten powers. Students of statistics and others will be interested in knowing that passengers numbering in the aggregate more than oen-sixth of the total population of the world traveled one mile during the year 1898 on the lines of the Milwaukee road, and that a large proportion of this number enjoyed the comforts of the celebrated Pioneer Limited—the famous train of the world—running daily between the Twin Cities and Chicago and Milwaukee. The berths in the private compartment and sixteen-section sleeping cars on this train are longer, higher and wider than those of any other cars in America.

BIG CROWDS.

Many People Coming on the Excursions This Week.

The last of these excursions scheduled for the immediate present will arrive in this city tomorrow and Saturday. It is estimated that 3500 people will arrive on these two excursions.

This afternoon the local Northern Pacific offices were advised by the general passenger department that reports from along the line this side of Wahpeton, N. D., indicated that the excursion from there, which is scheduled to arrive here at 1:45 tomorrow afternoon, will bring 1500 people. This excursion will arrive on two special trains, which will remain here until 4:15 Sunday afternoon.

The estimates of the crowd that will come on the Great Northern's special excursion trains Saturday afternoon range between 1500 and 2000. This excursion is given in the interest of the old settlers of Benson and Litchfield and intermediate points. They will bring with them the Atwater and Benson bands. A section will start Saturday morning from Benson and another from Litchfield and run to Willmar, where they will both come up the main line. These trains are scheduled to leave here at 7 o'clock Sunday evening.

The Omaha offices here were advised today that that line will put in effect tomorrow a 6-cent local rate on lumber from Duluth to the Twin Cities and Minnesota Transfer. The rate since June 1 has been 7 cents. This will have the effect of reducing also to 6 cents the rate to points between Duluth and the Twin Cities.

FOR JUDGE DICKINSON.

Supreme Court to Hold Memorial Session.

Tomorrow the supreme court of the state of Minnesota will devote the afternoon to memorializing the late Judge D. A. Dickinson, of this city, who was formerly a member of that court. Attorney W. W. Billson, of this city, is now in attendance at the court and it is hoped that a number of the Duluth friends of the departed jurist will be present to speak at the memorial services, which will begin at 2 o'clock in the afternoon.

WISCONSIN

Prohibitionists Place a State Ticket In the Field.

Milwaukee, June 19.—The Prohibition state convention today elected their ticket as follows: Governor, E. W. Drake, Milwaukee; lieutenant governor, Wesley Mott, Neenah; secretary of state, John C. Martin, Mineral Point; state treasurer, Dr. Henry A. Russell, West Superior; attorney general, Charles L. Allen, Eau Claire; superintendent of public instruction, Professor L. V. Collins, of Stevens Point; railroad commissioner, R. H. Churchill, Marinette; insurance commissioner, Hans S. Moe, Woodford.

The platform declares it to be "our profound conviction that annihilation and complete overthrow of the legalized saloon system and the absolute prohibition of the manufacture, sale, importation, exportation and transportation of all intoxicating liquors for beverage purposes is the one paramount political issue before the American people."

A pledge is given, if elected, that laws will be enacted that will destroy such traffic.

DEATH LIST.

Chicago, June 19.—Mrs. Alice C., wife of Frederic W. Upham, died early today at the family residence, after a protracted illness. Mrs. Upham's maiden name was Juil and she was born at Ripon, Wis., April 6, 1856. Deceased was a member of the Woman's Women's Athletic and Mayflower clubs and prominent in Presbyterian church circles. The remains will be taken tomorrow afternoon to Ripon, where the funeral will be held Saturday morning.

Chicago, June 19.—William C. Pullman, a nephew of the late George M. Pullman, and well known in railroad circles as a dealer in supplies, died last night of heart disease. Mr. Pullman was a member of the Chicago, Chicago Athletic and the Wasmington Park clubs. He leaves a widow and two children.

WHILE DERANGED.

Terra Haute Man Cuts Nurse and Himself.

Terre Haute, Ind., June 19.—While temporarily deranged William T. Agar today cut the throat of his nurse, Mrs. Lavada Agar and then cut his own throat and jumped into a cistern. He was rescued by his brother and taken to jail where he made another attempt at suicide by stabbing himself near the heart with a pocket knife.

Agar had been ill for several weeks and had frequently shown signs of mental aberration. Both are still alive and there is a possibility of their recovery.

COLUMN OF SLIME.

Ejected From Mount Pelee, Striking Bosse Pointe.

Fort de France, Island of Martinique, Wednesday, June 19.—A column of slime, one hundred metres high has been ejected from the volcano of Mount Pelee and has fallen on Basse Pointe, enveloping the lower portion of the town and completely razing twenty-two houses. No loss of life has been reported.

FAILURE TO LYNCH.

Vincennes, Ind., June 19.—A mob made another unsuccessful effort early this morning to take William Edson, charged w... assaulting a 4-year-old girl from the Knox county jail and lynch him. It threatened to return tonight. Sam Edson, brother of William Edson, was arrested this morning and sentenced to the workhouse for flourishing a pistol before the mob. At the workhouse Edson attempted to escape from a policeman who shot him in the hand.

NOMINATIONS.

Washington, June 19.—The president today sent the following nominations to the senate: Navy—Captains to be rear admirals—Yates Stirling and William C. Wise. Postmasters—Iowa, Charles C. Bender, Spencer. Michigan, William H. Arthur, Marshall. Wisconsin, J. F. Corbett, Weyauwega.

SAILOR SMOTHERED.

Toledo, Ohio, June 19.—This morning fire destroyed the Sinclair hotel, a small establishment next to the Empire theater. Robert Smith, a sailor from Oswego, was smothered in bed. There were forty inmates, many of whom had narrow escapes. The damage was small.

PANAMA VICTORY

The Spooner Bill Passed By the Senate, 67 to 6.

Closing Speech Made By Morgan On Nicaragua Route.

The House Enters Into Discussion of Philippine Bill.

Washington, June 19.—When the senate convened today at 11 o'clock it was with the intention of beginning the voting upon the isthmian canal question at 2 o'clock.

Mr. Proctor (Vt.) was relieved from service as one of the senate conferees on the military academy appropriation bill and Mr. Burrows (Mich.) was named in his stead.

Mr. Morgan (Ala.) presented the following letter he had received from Secretary of State Hay concerning the point raised in the isthmian canal debate by Mr. Kittridge (S. D.):

"I am requested by the minister of Costa Rica to inform the committee on inter-oceanic canals that he has been instructed by his government to make known to that of the United States that the government of Costa Rica is prepared to take all necessary steps to put themselves in a position to negotiate with the government of the United States a treaty for appropriate concessions for an isthmian canal on terms substantially as proposed by the government of the United States."

The communication was laid on the table.

The conference report on the bill to prevent the false branding or labelling of food or dairy products was agreed to.

Consideration of the isthmian canal question was resumed, and Mr. Spooner offered formally his amendment as a substitute for the pending so-called Hepburn Nicaragua canal bill.

Mr. Clark (Mont.) then addressed the senate in support of the Nicaragua canal route. He thought if one-half the objections to both the Nicaragua and the Panama routes were valid, neither route would be adopted. However, he was satisfied the consensus of conservative opinion in this country was that a great isthmian waterway should be constructed. The American people, he said, were not to be deterred. "You may delay the project," said he, "but you cannot defeat it." The difficulties of constructing the canal, he believed, were exaggerated. He thought that the Nicaragua route was more to be preferred, as it was, in his opinion, more feasible and practicable than the Panama route. Mr. Clark declared that the Panama canal scheme was a hoodoo which ought to be shunned and avoided. He said the Panama canal plan had left a heritage of ruin, disaster and desolation.

Mr. Allison explained why he should vote for the Spooner substitute. He believed there was a general desire among the American people for an isthmian canal, and the people desired, too, that the United States government should construct and control the canal.

Mr. Morgan, chairman of the inter-oceanic canal committee, at the conclusion of Mr. Allison's remarks, began a speech closing the debate.

The first actual test on the isthmian proposition was on an amendment offered by Mr. Mitchell (Ore.) giving the president the choice of routes even if he could secure title for the Panama route. It was laid on the table, 42 to 32.

At 2 p. m. debate upon the canal question was concluded by previous agreement.

The Spooner amendment, as perfected, was read and adopted, 42 to 34.

The Spooner bill for construction of the Panama canal as amended passed the senate, 67 to 6.

IN THE HOUSE.

Washington, June 19.—At 1 o'clock, after the routine business had been disposed of, and in pursuance of an agreement, the house went into committee of the whole to consider the bill giving civil government in the Philippines, with Mr. Gillet (Mass.) in the chair.

Mr. Cooper (Wis.), chairman of the insular committee, began an extended speech opening the debate in support of the bill. He referred to the momentous and worldwide significance of the cession of the Philippines, creating a new era in the history of the world. It had brought the United States forward in the arena of world powers, it had given us a foremost place in the adjustment of Chinese affairs. Viewed in its commercial aspect, it had placed us at the gateway of the Orient, where the world's commercial conflicts of the future are to be waged. But our mission in the archipelago was, he said, one far transcending business and commercial considerations. We are in the Philippines to perform a duty, to expand the bounds of freedom, to carry the blessings of civilization to a benighted race, to establish in the place of a decrepit old monarchy an invincible young republic.

$4.30 St. Paul & Minneapolis and Return—Democratic State Convention.

June 24th and 25th the Northern Pacific Ry. (Duluth Short Line) will sell tickets for Democratic State Convention to Minneapolis and return for $4.30, good returning June 27th. Three trains daily. For tickets and full information call at City office, 332 West Superior street, or Union Depot.

Detroit and Return $13.50.

The Annual spring excursion to Detroit via Duluth, South Shore & Atlantic Ry. and eDtroit & Cleveland Navigation Company, will leave Duluth 6:45 p. m., June 27th, fare for the round trip $13.50. Return limit, July 18th.

Special sleepers between Duluth and St. Ignace, where direct connection will be made with the steamer City of Alpena, due to arrive Detroit 3:00 p. m., June 29th.

Tickets will be on sale and good only on excursion train leaving Duluth June 27th.

Reserve your sleeping car and state room accommodation early.

City Ticket Office, 426 Spalding Hotel Block.

DISMISSED.

Hearing Before Commissioner Pressnell In Wage Libel.

A hearing was held yesterday before United States Commissioner Pressnell on the complaint filed by Robert Stoddard, engineer of the steam tug Walter W. Richardson, of which Capt. John Shea is master and owner, in which he alleged that after working two days on the tug he quit and demanded his pay, amounting to $5.06, less a small payment that had been made, and payment was refused by Capt. Shea. Capt. Shea claimed that before Stoddard quit work he had agreed to give twenty-four hours' notice if at any time he desired to leave his situation. Stoddard admitted this, but claimed their agreement was that he would give twenty-four hours' notice if he could do so, but that circumstances were such that he was obliged to quit without giving notice.

They both agreed that there was but one witness to the conversation and that was Leon Adrianne, who was sworn as a witness in the case and substantiated the statement of Capt. Shea and flatly denied that there were any conditions to the agreement.

After the testimony the commissioner found that under the law it is not necessary for a tug operating in the harbor or towing logs, or for vessels plying between ports in adjoining states to carry articles of agreement or make such agreement with their crews, and that the master is at liberty at any time to discharge his crew or any member thereof, and any member of the crew has the privilege of quitting the employment of the master and is entitled to his wages at the time of quitting.

This, however, does not prevent the master and his crew, or any member of the crew from making either written or verbal agreement as to his terms of shipment, or condition of his employment after he has shipped. In event such an agreement has been made, however, it has all the binding effects of a contract and should be observed by all parties to it.

The commissioner held that in this case the evidence showed that, while the plaintiff was in the employ of the master of the tug, they came to an agreement by which the complainant agreed, in case he desired to quit the service at any time, to give the master twenty-four hours' notice in writing. It was held that the agreement was a contract that should be observed and a violation of it by the complainant would have the same effect as the violation of shipping articles provided by the statute, if properly executed. It was ordered, therefore, that the complaint be dismissed.

THROUGH BRIDGE.

Fatal Accident to Train In North Carolina.

Shelby, N. C., June 19.—A portion of a mixed train on the South Carolina & Georgia Extension railroad fell through an approach to the bridge over the Broad river this afternoon, killing one man and injuring a number of passengers.

The dead:

LEROY GRIGG, Shelby.

Injured: Edward Truner, conductor; D. W. Phifer, trestle master; Riley W. Hisenant, a negro.

A dozen other passengers, including two ladies, were also injured, but their names are not known.

About the time the rear coach was on the span, just above the river, Engineer Albert felt the trestle giving away, and opening the throttle sent the train across the bridge, saving all of it except the rear coach and three box cars. The coach fell precipitately fifty feet on the bank of the river swollen by the recent rains, and was caught by the stone pier supporting the bridge, which saved the passengers from a watery grave.

TUGMEN.

May Now Have Licenses Taken Away From Them.

Cleveland, June 19.—United States Judge Wing today refused to issue an injunction restraining steamboat inspectors from considering a complaint filed against President Michael McDonough of the Licensed Tugmen's Protective association and eleven other members of that order by the Great Lakes Towing company asking that the licenses of the tugmen be revoked.

Judge Wing held it was the duty of inspectors to examine applicants for license and that they were also given authority to revoke them whenever they found that such licenses had been guilty of misbehavior, negligence or unskillfulness. The decision is in connection with the tugmen's strike on the lakes and is in favor of the Great Lakes Towing company, who will now demand that the strikers' licenses be revoked.

BRING ABOUT HARMONY.

Milwaukee, June 19.—In the convention of the Junior Order of United American Mechanics today, a committee of three was appointed to confer with a similar committee of the so-called insurgent faction to receive proposals with relation to bringing about harmony. The committee is to report at the next national convention.

SOLDIER HOLDS SECRET.

One of Uncle Sam's soldiers, who is a prisoner on Governor's island, is looking forward to the day when he is to be set at liberty with a good deal of eagerness and pleasant anticipation, says the New York Tribune. He holds the secret to an onyx field in the northern part of the state and his detention on Governor's island is the only thing that stands between him and a handsome reward for locating the field for a company that has been formed by a number of capitalists to quarry the stone. The soldier has a standing offer of $1000 in cash, $2000 in stock of the company and a place with the company at a salary of $25 a week as long as the quarry pays.

A stranger visited Governor's island last week and obtained permission to talk with the prisoner. It was then that the offer was made and the story leaked out. A Tribune reporter met the visitor on the boat coming over from the island to the battery.

"We have made a substantial offer to the soldier," he said, "if he will direct us to the onyx field, but he steadfastly refuses to divulge a syllable until he is released. The sooner he obtains his freedom the sooner we will be able to reap our harvest. We realize that thoroughly and will make every effort to have his term shortened. Powerful influences will be brought to bear on the authorities at Washington, and we hope to free him soon. He is wide awake to this fact and makes his release one of the conditions.

"He discovered the onyx field accidentally. Before he enlisted in the army he lived in the upper part of the state and was an ardent hunter after big game. One day while out with his gun he spied a deer and gave chase. The deer led him over a rocky hill. The sides of this hill were very steep, and to ascend it the hunter had to cut niches in the stone to get a foothold. He was attracted by the brilliancy and beauty of the pieces of stone and placed several of them in his pocket. When he returned to Syracuse, where he lived, he gave these pieces to some friends as souvenirs. A piece of the stone, with its history, came into my possession and I recognized at once that it was valuable onyx. I had it tested and found that it was of the very best quality and that the small piece which I possessed, measuring perhaps a square inch, was worth 50 cents, uncut and unpolished."

DR. BATES

Of Virginia Is Reported to Have Been Found Dead.

A private telegram was received here this afternoon to the effect that Dr. Stuart Bates, of Virginia, had been found dead at Fond du Lac, Wis., last night or this morning.

There was a report that he had been killed, but no confirmation of this could be secured. Nothing further could be learned, and none of the details are known here as yet.

Dr. Bates was a well known range physician and surgeon, and he had a private hospital at Virginia. He had been postmaster and mayor of Virginia.

WILHELM AND THEODORE.

The decision went to the kaiser at the end of a discussion on "Who is the best all-around man in the world?" at a London bachelor girls' tea recently, says the New York Sun.

Which led some one to sum up the most striking accomplishments of the ruler of united Germany as follows: He can talk fluently in six languages. He has written a play and conducted its rehearsal. No man lives a busier life than he, but on the discovery of the Roentgen ray he telegraphed for Professor Roentgen and talked with him for hours. He has written a public prayer and conducted a choir. He can cook his own dinner, can play chess, paint pictures and draw caricatures. He has learned engineering and studied electricity.

Though he can use only one arm he can shoot game for four hours at the rate of two a minute. He has over a hundred titles and is an admiral in three of the largest navies. In twenty-five years he has shot 23,000 head of game. He changes his dress a dozen times a day, has a dozen bulets, and his wardrobe is worth $100,000. And all this in addition to being boss of an empire—a fact which nobody has any doubt about since he dropped the pilot, Bismarck, so unceremoniously. It is probable that in a variety of occupations and interests President Roosevelt would rank as second to the kaiser. As far as his public life is concerned he has had a more varied experience than his "great and good friend" of Berlin. He has been a New York assemblyman, a candidate for mayor, a United States civil service commissioner, a New York police commissioner, assistant secretary of the navy, a colonel of volunteer cavalry, governor of the state of New York, vice president, and is now at the head of the nation. If this is not a case of being "all around," what is it?

But, in addition to all this, Mr. Roosevelt can run a ranch, can shoot big game, can bag his own dinner and cook it, can put up his fists with a professional, knows something about wrestling, can't be tired out in the saddle, and is keen on all sorts of exercise. He may not write operas or poetry, but, young as he is and busy as he has been, the books he has produced fill a goodly sized shelf. He has really given a new word to literature as "strenuous," which is now used wherever English is spoken, in the specialized sense in which it was employed in Mr. Roosevelt's essay.

ARTICLES OF INCORPORATION of Northern Electrical Company.

We, the undersigned, have associated ourselves together to form a corporation for the purpose hereinafter mentioned, pursuant to the provisions of Title 2, of Chapter 34, of the Statutes of the state of Minnesota, and acts amendatory thereof, and for that purpose have organized by adopting and signing the following articles of incorporation:

Article I. The name of this corporation shall be Northern Electrical Company.

The principal place where the business of said corporation is to be transacted is Duluth, Minnesota.

The general nature of the business of this corporation shall be to buy, sell, install and manufacture electrical supplies, machinery, fixtures and appliances of every description; to acquire, use, improve and dispose of any and all machinery, stock and other personal property necessary or convenient for the transaction of any of the aforesaid business.

Article II. The time of the commencement of said corporation shall be June 16th, 1902, and the period of its continuance shall be thirty (30) years thereafter.

Article III. The amount of the capital stock of said corporation shall be fifty thousand dollars ($50,000), divided into five hundred (500) shares of the par value of one hundred dollars each, which shall be paid in cash or in other property, at such times, in such manner and in such amounts, as the board of directors shall determine.

Article IV. The highest amount of indebtedness or liability to which said corporation shall at any time be subject, shall be the sum of twenty-five thousand ($25,000) dollars.

Article V. The names and places of residence of the persons forming said corporation are as follows: Walter L. Seaton, Walter H. Vilett, James Richardson and Erle M. Jones, all of Duluth, Minnesota.

Article VI. The names of the first board of directors of said corporation are James Richardson, Walter H. Vilett and Erle M. Jones, who shall hold their offices until the first annual meeting of the stockholders, which shall be held in Duluth, Minnesota, on the third Monday in June, 1902, at 10 o'clock a. m. and thereafter the annual meeting shall be held at such time as shall be fixed by the by-laws. The government of said corporation and the management of all of its affairs shall be vested in a board of three directors, who shall be stockholders of said corporation, and who shall be elected annually at the stockholders' annual meeting.

There shall also be the following officers, who shall have such powers and duties, as may be prescribed by the board of directors, and who shall be elected annually at the first meeting of said board immediately following the annual meeting of the stockholders: A president, a secretary and a treasurer.

In witness whereof, we have hereunto set our hands and seals this 3rd day of June, 1902.

WALTER L. SEATON. (Seal).
WALTER H. VILETT. (Seal).
JAMES RICHARDSON. (Seal).
ERLE M. JONES. (Seal).

Signed, sealed and delivered in presence of:
JESSIE J. CARRUTHERS.
WM. E. RICHARDSON.

STATE OF MINNESOTA, COUNTY OF St. Louis.—ss.

On this 5th day of June, A. D. 1902, before me, a notary public within and for said county personally appeared Walter L. Seaton, Walter H. Vilett, James Richardson and Erle M. Jones, to me known to be the persons described in and who executed the foregoing articles of incorporation and each acknowledged that they executed the same as their free act and deed.

WM. E. RICHARDSON,
Notary Public, St. Louis Co., Minn.
(Notarial Seal).

Register of Deeds.
By THOS. CLARK,
Deputy.

STATE OF MINNESOTA. DEPARTMENT OF State.

I hereby certify that the within instrument was filed for record in this office on the 6th day of June, A. D. 1902, at 9 o'clock a. m., and was duly recorded in Book C $ of Incorporations, on page 196.

P. E. HANSON,
Secretary of State.

Notice to Contractors.

Sealed proposals addressed to the Village Council of Grand Rapids, Minnesota, and endorsed, "Proposals for an Electric Light Plant," will be received by the Village Recorder of the said Village of Grand Rapids until 8 o'clock p. m. of Monday, the 7th day of July, 1902, for the construction of an electric light plant for the Village of Grand Rapids, according to the specifications and plans now on file.

Bonds of the village for the sum of $25,000 have been issued and sold by it, at par, for the purpose of raising funds sufficient to purchase, build, establish and control all necessary buildings, machinery, apparatus and material for making, generating and supplying light for public and private use in said village.

Proposals will be received on the following work:

First—The building.
Second—The machinery.
Third—The electric lines.

Bidders may make in addition a proposal for the entire work.

Proposals will be publicly opened and read at a meeting of the Village Council on the evening of July 7th, 1902. The proposal or proposals which are deemed for the best interest of the village will be accepted.

The right is reserved to reject any or all proposals, and to change any item or items in the specifications.

Blank forms of proposals, instructions to bidders and specifications may be obtained and plans may be seen and examined at the office of the Village Recorder of Grand Rapids, Minnesota, and at the office of Edward P. Buren, Consulting Engineer, 1210-1212 Guaranty building, Minneapolis, Minn. All information will be given on application.

D. M. GUNN,
President.
FRED A. KING,
Recorder.
Grand Rapids, Minnesota, June 14, 1902.
Duluth Evening Herald, June 17 to July 7, 1902.

NOTICE TO PAINTING CONTRACTORS.

Sealed bids will be received by the board of education of the city of Duluth at their office, Central High School, city, on or before Tuesday, July 1, 1902, at 12 o'clock noon for painting, tinting, etc., in the public school buildings of this city, according to specifications, which may be obtained at said office. E. R. COBB.

Superintendent of Buildings.

SERMON BY EMPEROR

William Makes a Striking Speech on Religion.

Admonishes His People to Uphold the Church.

Aix La Chappelle, Prussia, June 20.—A striking speech on religion was delivered by Emperor William at the city hall here yesterday afternoon after his arrival yesterday from Bonn, accompanied by the empress and the Crown Prince Frederick William. After observing that the city was the cradle of the German Emperor Charlemagne, on whom Rome conferred the dignity of a Roman Caesar, having fixed the seal of government here, the emperor said:

"Our tongue is passing beyond the seas. Every thought of science is first turned to account by us, to be afterwards adopted by other nations. This is the worldwide imperium after which Germanic genius strives.

"But it must not be forgotten that the empire was rooted in simplicity and fear of God. I look to all, priests and laymen, to help me uphold religion among the people, in order that the German name may preserve its health and strength. This applies equally to the two creeds, Catholic and Protestant.

"It is with pride and joy that I am able to tell you that the pope said to my special ambassador who went to Rome on the occasion of the holy father's jubilee that he had always kept a high opinion of the piety of the Germans and especially of that of the Germany army. The pope asked my ambassador to tell his sovereign that the country in Europe where control, order and discipline still prevailed, with respect for authority and regard for the church, and where the church could live was the German empire, and for this the see was indebted to the German emperor. "This justifies me," continued the emperor, "in saying that our great creeds must, while living side by side, keep in view their one great aim—to uphold and strengthen the fear of God and reverence for religion. Whether we are moderns or whether we labor in this or that field does not matter at all. He who does not found his life on religion is a lost man. I rejoice that I have placed my whole empire, my people and my army as well as my self and my house, beneath the cross and under the protection of Him who said "Heaven and earth shall pass away, but my word shall not pass away."

Emperor William concluded with calling for three cheers for Aix La Chappelle.

TROOPS TO GUARD MILLS

Newark, N. J., Cavalry Are at Paterson to Assist the Local Authorities In Preventing Any Further Rioting.

Paterson, N. J., June 20.—The Essex troop of cavalry of Newark arrived here today and proceeded at once to the armory. The streets were lined with people while the cavalry proceeded toward the armory, but there was no demonstration or excitement of any kind. Contrary to expectations an order was issude today ordering the local companies of the national guard to report for duty. It had been expected that only troops from other cities would be called upon to do strike duty here.

A number of silk mills opened at the usual hour today, the owners relying upon the promise of the mayor that troops would be called out to protect property. At all mills that started up policemen, firemen or deupty sheriffs were on guard, and every crowd that gathered at any of the plants was promptly dispersed. The orders of the mayor are that no gathering of people shall be permitted in the street and these orders are being fully carried out by the force at his command. In addition to the silk mills, two dye houses opened up this morning. At these places the bosses went to work, assisted by non-union dyers' helpers.

At mills that have opened the employes were supplied with arms and ammunition to protect themselves and their employers' property in case of attack.

A mass meeting of the striking dyers' helpers was held in the town hall today, at which seven policemen were in attendance. It was conducted in a quiet and orderly manner. The only speaker was President McGrath of the Dyers' Helpers' union, who expressed his deep regret at the riotous demonsetration on Wednesday, and said that such actions could only harm the cause of the workmen.

The First and Second battallons of the First regiment of Newark have arrived and are held at the armory. Italian strikers and their sympathisers to the number of about 700 are gathered in the vicinity of the armory, keeping a close watch on the movements of the soldiers. So far they have made no demonstration.

Union Hill, N. J., June 20.—Every silk factory in Union Hill with one exception was closed today. The owners decided not to attempt to resume operations for the present, owing to yesterday's riotous distrubances.

SUICIDE OF CASHIER

A Crisis Brought About In the Affairs of the Merchants Bank of Newport By Shooting of Cashier.

Newport, R. I., June 20.—Anthony Sherman, cashier of the Merchants' bank of this city, shot himself in the head last night and probably will die. Today the bank, which is a private institution, was closed.

The crisis in the affairs of the bank was precipitated by the attempted suicide of Cashier Sherman. Today some of the creditors applied to Governor Kimball for action under the law to close the bank. This proceedure calls for the appointment of a commission to investigate the condition of the institution. The bank is an old state institution, having been chartered in 1817, and is a small one, though a few years ago it did a flourishing business with summer residents.

TO RESTRICT OUTPUT

Miners of Bituminous Coal Ordered By Union Officials Not to Work More Than Four Days a Week.

Clearfield, Pa., June 20.—Patrick Gilday, president of the District Miners' union, issued an official order today reciting that bituminous coal is being shipped to points east to aid in breaking the strike in the anthracite region. In order to prevent this it is ordered that the output of Northern and Central Pennsylvania be restricted, and the miners are notified not to work more than four days a week. The order is the result of an interview between President Gilday and National President Mitchell.

Wilkesbarre, Pa., June 20.—Quietness prevails throughout the Wyoming valley. Strike headquarters presented a deserted appearance all the forenoon, district leaders, with the exception of President Mitchell, being scattered through the coal belt. There was no change noticeable in the working forces of the coal companies, very few, if any, men being brought out in this valley today.

MOURNING DAY FOR IRELAND

London, June 20.—The United Irish league is preparing to keep coronation day as a "Day of mourning for Ireland." The district council of Clare-Morris, County Mayo, has resolved to hoist a black flag over the council chamber, June 26 to June 28 and has issued an invitation to the other councils to join in thus celebrating the "Coronation of the English king to whose government the people of this country are so much indebted for famines, coffin ships, coercion and castle rule."

A MIGHTY STRUGGLE

Will Be the 'Varsity Race at Poughkeepsie.

Wisconsin Stands a Good Chance of Winning.

Poughkeepsie, N. Y., June 20.—One hundred and eleven brawny young men, the finest specimens of physical development that can be produced under the system of athletic training in vogue in American universities today, are putting the finishing touches to their preparations for the intercollegiate races that are to be rowed on the Poughkeepsie course tomorrow. They compose the crews of the six universities that have been entered in the three races which make up the day's program.

Reports received from all the crew headquarters today as to the condition of the contestants and their readiness to race show an average so high and at the same time so full as to force the conclusion that the university will show one of the closest finishes ever seen in these contests. Although the sale of tickets for the observation train and other indications point to the largest crowd tomorrow since 1897, comparatively few persons had arrived today, and the influx of college men and others will not be at its height until tonight. Among those who are here such betting as there is seems to favor Cornell, the general opinion being based upon the performance of last year, the magnificent form the 'varsity crew has been showing since it reached Poughkeepsie and the confidence Courtney has shown whencver he has been questioned about his crew. The Cornell adherents received sonething of a shock today, however, and the stock of Wisconsin went up several points at the same time, through statements of such judges as H. W. Flickwer, captain of Pennsylvania 1900 Henley crew, and John Rogers, the former Yale rowing coach. Both saw all the crews at work this morning for the first time, and both expressed the opinion that Wisconsin's chance of winning this year is better than ever before. Flickwer thinks they are stronger as a general average. Rogers says:

"Wisconsin has what Cornell lacks, the power in the boat to stand any amount of punishment, and are strong, as has been their finest characteristic in the past."

When Courtney heard what these gentlemen had to say about his crew, he smiled and said: "It may be so. You know I have told you all along that there are a lot of good crews here, and that it is anybody's race until it is over."

Ideal water conditions prevailed this forenoon when the crews were out for practice. Five Columbia crews were boated. Hanlan followed in a launch, megaphoning instructions. He lined up his boats for a quick start and a short brush. The freshmen received a handicap of three-quarters of a length. The 'varsity crew started on even terms. They got off well, rowing the high stroke of 36 for three-eighths of a mile. The 'varsity won out by a fraction of a length over the freshmen, with the four several lengths in the rear. The boats then rowed a quarter of a mile further up the river and then turned around for a second racing start and a quarter-mile contest against the tide. No handicap was given the freshmen. The 'varsity rowed 37 throughout, while the freshmen did not exceed 35, and the former crew won by a full length.

Both Wisconsin crews were out this morning without Coach O'Dea. Each crew rowed two miles at a moderate stroke, going down the river at first and returning with the tide on short spurts. The coxswains of both crews drilled their men in racing starts and hitting up the stroke on spurts. The work at the Syracuse boat house was very light. The Syracuse oarsmen deny the rumor that the 'varsity eight is overtrained.

SCATHING CRITICISM

Lord Beresford Scores the Navy In a Vigorous Manner, Says British Admiralty System Is Rotten and Extravagant.

London, June 20.—During the discussion of the navy estimates in the house of commons today, Rear Admiral Lord Charles Beresford, Conservative, scathingly criticised the deficiencies of the navy. He declared the whole admiralty system was rotten and led to great extravagance, and that there was a general want of efficiency in the navy, on which depended the existence of the empire. This was the judgment of all the commissions of inquiry, and had been proven a fact. Every increase in the number of ships and every improvement in them had been the result of outside agitation. As the result of such agitation, the British Mediterranean fleet was now a fourth stronger than any other fleet.

It was remarkable, Lord Beresford added, that both army and navy officers were compelled to threaten to resign in order to get things righted. Great Britain had only 20,000 naval reserves instead of the requisite 80,000 and the engine room departments were thousands of men short. As to armament, both the United States and France possessed superior guns. Blunders would continue until a separate business board was appointed at the admiralty, and was made responsible for the efficiency of the fleet. Treasury control was fatal to efficiency. As an instance, the speaker pointed out the case of Sir William Vernon Harcourt, who, when chancellor of the exchequer, put his pen through the ammunition supplies after the guns had been ordered.

WATER CURE PROVED FATAL

Guthrie, Okla., June 20.—The authorities at Pottawattomie county are investigating the death of Arthur E. Pecore, aged 14, near Shawnee, alleged to have resulted from the attempts of several companions to treat him with the water cure. He was submerged in the Canadian river until his lungs and stomach were filled with water, resulting a few days later in his death.

FRANK EUSTIS ASPHYXIATED

Minneapolis, June 20.—(Special to The Herald.)—Frank Eustis, treasurer of the Eustis Loan and Realty company, with offices in the Guaranty building, was found dead in bed at his home, 115 West Grant street, about 8:30 last night. Death resulted from asphyxiation.

With the doors and windows of his room closed, Mr. Eustis slept in death while a double jet gas fixture in the room poured out a volume of illuminating gas that filled the room for more than 18 hours. Death is believed to have resulted from an accident since there was absolutely no reason for suicide.

IS WHITEMAN A KIDNAPER?

St. Paul, June 20.—A special to the Dispatch from Buffalo, N. Y., says: A theory is advanced that Marion Murphy had been mistaken by kidnapers who wanted to steal the child of Mr. and Mrs. Albert Gibbs, who live next door. Mrs. Gibbs is a sister of Alonzo J. Whiteman, of Minnesota, repeatedly charged with bank swindling and forgery. She has frequently supplied money to assist her brother ,and he has been insatiable in his demands for more money, threatening her at one time. The Gibbs child is dark, however, while Marion Murphy is very fair and Whiteman himself could not have made the mistake.

A CHILD FATALLY BURNED

Pittsburg, June 20.—Annie Reno, aged 10 years, was fatally burned at Braddock today and four others who went to her assistance were severely burned. The injured are: Jennie Ellis, Mrs. Annie Baker, Mrs. Mary Maloy and Justice John G. Richards. The little girl was playing near a rubbish fire in the rear of the Robinson hotel when her clothing caught fire. Her screams brought help and the four people who rushed to her assistance were all seriously burned. They will recover. The girl was burned so badly that her death was only a question of a few hours.

CRASHED TOGETHER

Passenger Trains on Northern Pacific Collide on Siding at Staples.

Five Trainmen Known to Have Been Killed.

All the Passengers Escaped Injury But One.

Staples, Minn., June 30.—(Special to The Herald.)—A headend collision occurred at Lower Lake Siding, two miles west of here on the Northern Pacific at 1:45 this morning, between No. 7 passenger westbound and No. 8 passenger eastbound. Engineer Scott of No. 7 took the siding, expecting No. 8, which had the right-of-way, to pass. The latter, believing everything clear, came along at a high rate of speed. The switch, however, had in some way not yet explained, been turned, and No. 8 dashed into the waiting train. All the passengers escaped injury except Harry Zeigler, of Hammond, Ind., in the smoker of No. 8, which was telescoped. He received serious internal injuries, and was taken to the hospital at Brainerd. The dead are:

CONDUCTOR NOBLE, of No. 8.
GEORGE RASSMUSSEN, fireman, No. 8.
WALTER SCOTT, engineer, No. 7.
UNKNOWN TRAMP on No. 8.
ERNEST SCHULTZ, engineer, No. 8.
—— MOLLER, baggageman, No. 8.

Besides these, W. H. Montgomery, fireman of No. 7, and Express Messengers Gibson and Heidrick are badly injured.

The wreck caught fire, but the passengers formed a bucket brigade and kept the flames under control for a time. But at 4:35 the work was given up and the fire burned four coaches and three or four mail, express and baggage cars.

Engineer Scott's body has not yet been recovered, and it is thought that two or three mail clerks and baggagemen are not yet accounted for.

At noon General Manager Cooper of the Northern Pacific told the Associated Press representative that his latest reports showed four employes killed and three employes injured, one tramp killed and four passengers slightly injured, making a total of twelve killed and injured. All the injured have been taken to the Northern Pacific hospital at Brainerd. The body of Conductor Moeller, previously reported missing, has been found, but Engineer Scott is still missing and believed to have been killed. It has been impossible yet to verify the names.

HANGED.

Walter Gordon Meets Fate With Utmost Sang Froid.

Brandon, Man., June 20.—Walter Gordon, who was convicted at the last assizes here for the murder of a young Englishman named Charles Daw, and who has confessed to the murder of Jacob Smith, Daw's hired man, was hanged here today. The prisoner manifested the greatest sang froid to the end. Gordon had arranged to purchase Daw's farm, but when the time came for completing the bargain he lacked the money. He took possession of the farm and held it for some time, but fearing detection he fled to Dakota, where he enlisted in the United States army. Afterwards he deserted and going to Halifax, enlisted in the Second Canadian Mounted Rifles for South Africa. He was arrested just as he was embarking.

FOOTBALL.

Some Radical Changes to Be Made In the Rules.

Chicago, June 20.—There will be some radical changes in football this year, according to the Tribune's Philadelphia correspondent.

Walter Camp, of Yale, chairman; John C. Bell, Pennsylvania; Alex Moffatt, Princeton; Robert D. Wrenn, Harvard; Paul J. Dashiel, U. S. Naval academy, and L. M. Dennis, Cornell, the committee on foot ball rules, have so recommended.

Of so radical a nature are two of the changes decided upon that the committee suggested that each member should talk over the new rules with the football authorities at his particular college, and if any objection was raised word should be sent to the chairman, Walter Camp, and a call for another meeting would be issued. If no objections were raised the new rules would be printed in the official football guide for 1902.

The most important revision was a rule providing that the opposing teams should change sides after each touch down scored or field goal kicked.

The other radical change is in the kicking of a goal from the touchdown. The new rule provides for the bringing out of the ball as heretofore to kicking distance, say, twenty yards from the goal posts; that this point shall be a line of scrimmage, and the try for the goal can be made by snapping the ball either for a place kick or a drop kick behind the line of scrimmage.

KILLED BY PARTNER.

Valley City, N. D., Has a Midnight Tragedy.

Valley City, N. D., June 20.—Jennie Daley was shot and killed by William Bennett, her partner in a restaurant, who then committed suicide. The affair occurred at midnight and Bennett fired six times at the woman after a violent quarrel. They have been business partners for many years.

RUGBY SCORCHED.

Business Section of North Dakota Town Burned.

Rugby, N. D., June 20.—Fire in the night wiped out the business portion of the town with a loss of $40,000, partially insured. The residence section was saved only by most strenuous endeavors.

LOST AT MONTE CARLO.

New York, June 20.—Anthony Shonederf, of New York, 72 years old, has attempted to commit suicide here, says a Paris dispatch to the World, by throwing himself in front of a locomotive on the Paris Belt railway at the Courcelle station. Both legs were cut off below the knees and he will die.

Shonederf is said to have lost heavily at Monte Carlo last April. His daughter-in-law arrived breathless at the station just in time to see the wheels roll over him. Then she fainted.

LIBRARY FOR LAWRENCE.

Lawrence, Kas., June 20.—Andrew Carnegie has offered $25,000 to the city for a library on the usual terms.

CAT BITE PROVED FATAL

Aged Woman of Sauk Center, Minn., Mrs. William Murphy, Is Dead From Blood Poisoning, Caused By Attack of Cat.

St. Cloud, Minn., June 20.—(Special to the Herald.)—Mrs. William Murphy, aged 63 years, died at the home of her daughter, Mrs. R. J. Rooney, at Sauk Center, of blood poisoning.

Mrs. Murphy had been a prominent resident of Holding Ford for many years, and about three weeks ago had both arms bitten by a pet cat. One of the arms was quite severely scratched and the other but slightly. The slightly injured one was neglected and several days later it began to swell and blood poisoning set in. It continued to grow worse and Mrs. Murphy was taken to the home of her daughter at Sauk Center, where she could secure the best medical attention. It was found impossible to stay the progress of the poison and death resulted. A husband and son, William Murphy, Jr., and another daughter, Mrs. E. W. Collins of Little Falls, survive.

The Murphy family has for years been a prominent one in Stearns county. The funeral was held from the family home at Holding Ford Friday morning.

KOSSOFF CAUSES WORRY

The Mystery Concerning the Unaccountable Disappearance of the Popular Menominee Merchant Is as Deep as Ever.

Menominie, Wis., June 20.—The mystery surrounding the sudden and unaccountable disappearance of August Kossoff, the Menominie merchant who left home June 9, has not yet been cleared. He has not been seen or heard from, and no trace or clue has been found. The Minneapolis detective force has been working on the case several days, but can discover nothing that will throw any light on his whereabouts.

His prominence and popularity are such as to cause widespread interest in his case, and much apprehension is felt by his friends as to his safety. He was in excellent health and spirits when he left home, and no cause is known to exist why he should voluntarily remain absent.

The Kassoffs are among the most esteemed and highly respected people of Menominie, and general concern is felt over the strange disappearance. Mr. Kassoff's brother John and his brother-in-law, Timothy Murphy, are conducting his business.

ARCHIE, THE PONY AND NEGRO

New York, June 20.—Archie Roosevelt, the 8-year-old son of the president, his pony and a negro have stirred Oyster Bay by getting mixed up in the vagaries of the last mentioned member of the trio.

The negro, whose name is Levy, began by going into the local bank, taking money belonging to a depositor and running into the street. He was captured and the money taken from him.

Levy then went to the postoffice, where Archie Roosevelt appeared on his pony. Levy stepped up to the president's son and asked to hold his horse.

When young Roosevelt entered the postoffice the negro jumped on the pony's back and made off. He was captured by citizens before the had gone far and was locked up.

TO DISTILL THE DISTILLERS

New York, June 20.—It is planned to put the Distilling company of America through a process of reorganization, says the Herald. If plans now formulated are a success, there will be a large reduction in securities of the company.

The present capitalization of the Distilling Company of America consists of $31,250,000 of preferred stock and $46,427,000 of common stock. All of this, it is proposed, shall be retired and scaled down in a new issue of stock amounting approximately to $32,000,000.

Plans are also arranged for the refunding of the present bonded indebtedness of the company. The total bond issue proposed is $16,000,000. This amount, it is announced, will be sufficient to take up the outstanding bonds as well as provide ample funds for a working capital.

PETER DOWLING SAVES THREE

Sacramento, Cal., June 20.—Peter Dowling, the baseball player, has saved the lives of three men. Patrolman Du Page, Alex Stevens and James McGrath were bathing in the river. Stevens got into trouble and Du Page went to his aid. They went down and McGrath, in trying to get them out, became exhausted and helpless. Dowling dashed into the deep water and succeeded in dragging the men to a sand bar.

MUST ACCOUNT FOR PROFITS

St. Paul, June 20.—(Special to The Herald.)—Judge Bunn has sustained the contention of the plaintiffs in the suit of W. Melbourne McDowell and May D. Seymour, as executors of the estate of the late Fanny Davenport McDowell, against Clarence M. Brune, the Clarence Brune company, L. U. Scott and C. E. Beech, to annul the alleged sale of plays, and compel an accounting of the profits from their production.

DUNN IS WORKED UP

Denies That He Was Mixed Up In Rich's Game.

Another Candidate For State Auditor In the Field.

Clarence B. Miller Becomes Political Manager For Judge Edson.

The Herald's article explaining the visit of Capt. W. W. Rich, of St. Paul, to this city last week has stirred up the animals not a little.

Bob Dunn's Duluth friends flocked to his defense, and set up the claim that it was ridiculous that he should think of mixing in the state auditorship contest. Bob Dunn himself gave the Minneapolis Journal an interview in which he vigorously denied having mixed in the fight at all. He disclaims any knowledge of Capt. Rich's plans and purposes, and said that all of the candidates were friends of his and that he would not interfere between them.

Nevertheless, the story was absolutely straight, difficult as it is to attack the statement made so plainly and flatly by Mr. Dunn. However, he said in his interview that he was not going to interfere, and perhaps he may not—any further.

The scheme to alarm St. Louis county by mentioning the name of Jacobson miscarried widely. It only served to stiffen up Halden's friends in this county. They do not see anything to be gained by flocking to the Iverson standard, and they say that if there is any flocking done along that line the Iverson people will have to come over into the Halden camp.

• • •

The entrance of a new candidate for the nomination for state auditor is complicating affairs in the Seventh district somewhat. E. J. Miller, of Ortonville, Big Stone county, has announced himself as a candidate, and he will draw many votes from the Jacobson standard. Big Stone county adjoins Lac Qui Parle on the north, and would probably have been a Jacobson county. Mr. Miller has been investigating the Jacobson claim of a solid Seventh district delegation, and his candidacy is the result. He put up a strong fight for appointment as public examiner last fall and showed up considerable strength.

• • •

W. L. Windom, who is mentioned as a candidate for the place to be left vacant by the resignation of Judge Edson, if it takes effect, says that he has never mentioned the matter to anybody, and that he is not seeking the place.

"I should accept it if it were offered me," he said this morning, "and there are not half a dozen attorneys in the city who would not. But I am making no effort to get it."

Daniel Waite is making a canvass, however, assisted by his friends, and he is getting very substantial backing for the place.

• • •

Judge Edson has appointed Clarence B. Miller, of the firm of Adams & Miller, as his campaign manager. Mr. Miller is one of the most promising young attorneys in the city, and he has made rapid progress during the time he has been located here. He took an active part in the Hugo campaign, and he is a hustler. He will probably gain considerable political experience in handling Judge Edson's campaign.

• • •

The Democratic primaries were held last night throughout the county, and delegates were selected to go to the county convention Saturday afternoon.

There was not a very large attendance at the primaries, owing to the lack of any contests. It is generally regarded here that John Lind must be the candidate for governor, and it is as generally accepted that it will be so difficult for him to refuse that he will find it impossible to do so.

vention that will be held in Minneday afternoon at the city hall, when forty-four delegates to the state convention that will be held in Minneapolis June 25 will be selected. They will probably be instructed for John Lind.

A blessing alike to young and old: Dr. Fowler's Extract of Wild Strawberry; nature's specific for dysentery, diarrhoea and summer complaint.

IS NOT DEAD.

Report of Death of Dr. Bates of Virginia Not True.

The report of the sudden and unexpected death of Dr. Stuart Bates, of Virginia, that was current upon the street last night happily turns out to be unfounded. The genial physician is said to be in good health and to be having a good time with an outing party at a fishing resort near the city of Virginia. The telegram received here yesterday was from a source that seemed to be reliable, but happily was not.

"One Minute Cough Cure beats all other medicines for coughs, colds, croup and throat and lung troubles,' says D. Scott Currin, of Loganton, Pa. Perfectly safe. Acts immediately. Croup yields to it. Cure grip, bronchitis, coughs. Max Wirth.

Complete Treatment FOR EVERY Humour

Price $1.00

CUTICURA SOAP, to cleanse the skin of crusts and scales and soften the thickened cuticle, CUTICURA OINTMENT, to instantly allay itching, inflammation, and irritation, and soothe and heal, and CUTICURA RESOLVENT PILLS, to cool and cleanse the blood. A SINGLE SET of these great skin curatives is often sufficient to cure the most torturing, disfiguring, itching, burning, bleeding, crusted, scaly, and pimply skin, scalp, and blood humours, with loss of hair, when all else fails.

Millions of People

USE CUTICURA SOAP, assisted by CUTICURA OINTMENT, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itchings, and chafings, and for all the purposes of the toilet, bath, and nursery. Millions of Women use CUTICURA SOAP in the form of baths for annoying irritations, inflammations, and excoriations, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sanative, antiseptic purposes which readily suggest themselves to women.

CUTICURA RESOLVENT PILLS (Chocolate Coated) are a new, tasteless, odorless, economical substitute for the celebrated liquid CUTICURA RESOLVENT, as well as for all other blood purifiers and humour cures. In screw-cap vials, containing 60 doses, price 25c.

Sold throughout the world. SOAP, 25c., OINTMENT, 50c., PILLS, 25c. British Depot: 27-28, Charterhouse Sq., London. French Depot: 5 Rue de la Paix, Paris. POTTER DRUG & CHEM. CORP., Sole Props., Boston, U. S. A.

IN DULUTH.

Nels Lofdahl, Reported Dead, Seen Here Within Two Days.

Friends of Nels Lofdahl, who is reported by the morning paper to have disappeared from St. Louis, and whom it is claimed may have been murdered, say that they have seen him in Duluth within two days, and that he was looking particularly well and hearty. The report says that he disappeared from St. Louis, that the police there have been looking for him, and that so far they have been unable to locate him. He went to St. Louis to take a position under the World's Fair management, and the report says that he was there three days and then failed to show up. The fact that he had some money with him and that it is claimed that the Fair grounds have been infested with thugs led to the report that he had been murdered.

Joseph Nylander, of the Scott-Graff mill, said this morning that Lofdahl had been at the mill to see him twice within the past two days, the last time two days ago.

No one would ever be bothered with constipation if everyone knew how naturally and quickly Burdock Blood Bitters regulates the stomach and bowels.

MAY APPEAL.

Capt. Fitzgerald May Carry His Case to Supervising Inspector.

It is reported that Capt. M. Fitzgerald, of the steamer Hadley, whose license as a pilot and master was revoked by Local Inspectors Monaghan and Chalk, after the investigation of the collision between the Hadley and Wilson, will appeal his case to Supervising Inspector Sloane, of Dubuque, Iowa. Mr. Sloane is now in the city in charge of the local office during the absence of Inspectors Monaghan and Chalk. The papers in Capt. Fitzgerald's case are being prepared by Charles E. Kremer, of Chicago, attorney for W. P. Rend & Co., of Chicago, owners of the Hadley.

A marine man who is acquainted with Capt. Fitzgerald says that the accident and subsequent action of the inspectors in revoking his license has been the saddest blow the captain has ever received, and he feels his position keenly. He further states that the captain during his long service on the lakes has acquired a competence, and that fascination for the lakes has kept him in the service the past year or so more than any sense of necessity. Capt. Fitzgerald is said to have made up his mind to retire from the lakes last season, but when the time came to quit he felt that he could not give up the life so easily and decided to remain in the service another year.

Capt. Cameron, of the steamer Wilson, has a relative at the head of the lakes, Hugh J. Cameron, a cousin, who resides in West Superior, and is secretary of the Draper Drug company.

GILLETTE RETURNS.

New York, June 20.—William Gillette, the American actor who has been filling a protracted engagement in England, has arrived from Liverpool on the steamer Ivernia, says a Boston dispatch to the Times.

SAVED FROM AN AWFUL FATE. "Everybody said I had consumption," writes Mrs. A. M. Shields, of Chambersburg, Pa. "I was so low after six months of severe sickness, caused by hay fever and asthma, that few thought I could get well, but I learned the marvelous merit of Dr. King's New Discovery for consumption, used it and was completely cured." For desperate throat and lung diseases it is the safest cure in the world, and is infallible for coughs, colds and bronchial affections. Guaranteed bottles 50c and $1.00. Trial bottles free at W. A. Abbett's Drug Store.

The Sale of High Class Tailor-Made Suits and Jackets for Women and Misses—at Half Price—Continues....

The important time is here—the half-yearly clean-up—the time when you can buy a handsome Tailor-made Suit or Jacket—for your self or the miss—at a mere fraction of its real value.

It is our standing rule to carry nothing over from season to season—hence these prices now—at a time when you want them most.

Everybody knows that reductions here are absolutely truthful—no marking up to mark them down! The original tickets and prices are on each garment. Pick it out and pay just half what it is marked!

(Alterations charged for.)

The Suits consist of Basket Weaves, Etamines, Broadcloths, Homespuns, Coverts, Venetians and Cheviots—in all the very newest styles and colorings—all jackets are silk lined — some skirts are plain percaline lined—most of them silk lined.

The Jackets are all of the season's newest novelties— consist of Broadcloths, Cheviots, Venetians, Coverts, etc. — *to them we add our entire line of Silk Jackets* — in Taffetas, Peau de Soie and Moire, all lined with either silk or satin.

The handsomest as well as the medium and popular priced lines are all included—

$20.00 Tailored Suits at---------- $10.00
$25.00 Tailored Suits at---------- $12.50
$30.00 Tailored Suits at---------- $15.00
$40.00 Tailored Suits at---------- $20.00

$50.00 Tailored Suits at $25.00.

CLOTH JACKETS.

$ 7.50 Cloth Jackets $3.75
$10.00 Cloth Jackets $5.00
$15.00 Cloth Jackets $7.50
$20.00 Cloth Jackets $10.00

Silberstein & Bondy Company

SILK JACKETS.

$10.00 Jaskets at $5.00
$12.50 Jackets at $6.25
$18.00 Jackets at $9.00
$25 Jackets at $12.50

IS A GOOD WITNESS

Mrs. Mueller Stands Her Cross-Examination Very Well.

She Sticks Closely to Her Original Story All Through.

Hand Writing Experts Will Have Their Hearings Next Week.

Mrs. Mueller was still on the stand in the Mueller case today, and she is making an excellent witness for herself, greatly to the surprise of those who had seen her in one of her excitable moods about the courthouse before the trial began.

The impression is beginning to prevail about the courthouse, too, that she is making out a stronger case than many had expected. The opinion seems to be that even if she is mistaken in her belief that the Johann Mueller that owned the land in question is the man that was her husband, she is sincere in it. Either that or she is very much more crafty and shrewd than her appearance would indicate.

Attorneys say that if the papers in the case, the deed and mortgages, are upheld, and her claim of relationship is sustained, she will be entitled to her dower right of one-third of the property because she did not sign the instruments.

Her cross-examination by Mr. Severance continued all of yesterday afternoon and most of this morning, and shortly before noon George P. Knowles, representing one of the conflicting sets of heirs, took her in hand.

She stood Mr. Severance's cross-examination very well. She stuck to her story throughout, and showed great caution about making her statements. She was shown some of the books that had been introduced showing her husband's signature, and asked if the other writing in the books was also his. She stuck to her original story as to these, and while positively identifying his signature was not sure about some of the other writing.

In answer to questions by Mr. Severance, she said her husband was strongly built, had broad shoulders, walked erect and carried himself well. When she saw him in Detroit eight years ago he carried himself as well as ever, and she noticed no change. He was not lame.

"Did you see him limp?" asked Mr. Severance.

"Only when he was drunk," said the witness, laughing.

Asked how tall the body in the coffin that she had exhumed in Superior was, she said it was just as tall as her husband. Asked if it was not the body of a tall man, she said it was the same size as her husband. Asked if it was not the body of a man 5 feet 10 inches tall, she said it was as her husband was, 5 feet 5 inches.

She said the face looked as well as it had in life, but when she exhumed it the second time the nose had been filed off, the chin removed and other changes made. She said somebody had done this.

Mr. Knowles asked her about her schooling, and she said she had gone to school 8 years and learned the common branches in Germany. She could write, and had written to her husband, but not to others, even to her relatives. She last wrote to her husband in Chicago, about four years after he left her. The letter was not returned through the mails, but she got no answer. She thought the reason was that detectives were looking for him for the Detroit man with whom he had had trouble, who wanted to shoot him.

In regard to her husband's leaving her, she said she never abused him or scolded him. They never had any trouble and were happy until the last moment. He was an affectionate husband and father. His youngest child was 7 months and his oldest 10 years when he left. When he went away he did not say a word about it.

She was still under cross-examination by Mr. Knowles when court adjourned.

C. C. Curtis, the Minneapolis handwriting expert, who is to be called for the widow, had to go West on a murder case, and he will not be called until next week. The plaintiffs will also have a hand-writing expert, who will appear for them.

To ordinary eyes the hand-writing of Mrs. Mueller's husband and that of Johann Mueller that owned the land in dispute is very similar, though the experts may develop a difference of opinion upon it. Mrs. Mueller's exhibits were written from thirty to forty years ago, while the signatures to the deeds and mortgages were made within a few years.

BASE BALL
ONEOTA PARK
Saturday, 3:30 p. m.
BIG DULUTH VS. BOARD OF TRADE
ADMISSION 25c.

A HEARING.

Capt. Gaillard to Report on Highland Company's Proposed Dam.

The application of the Highland Canal and Power company for permission to construct a dam across the Cloquet river, about twenty-five or thirty miles above Cloquet, Minn., has been referred by the United States war department to Capt. D. D. Gaillard, the government engineer of this district, for an investigation and report.

Capt. Gaillard says that it might be desirable that he hear the views of all persons interested in the matter before he makes his report, and for that purpose he will give attention to any persons who are interested in the project or who are opposed to the construction of the dam. There is no provision under the laws for an official announcement.

CITY BRIEFS.

Tibbetts, undertaker, 31 East Sup. St

Smoke X-Ray and Duluth Herald cigar.

Parlor theater—Great show this evening.

The Silberstein & Bondy company will continue tomorrow their half yearly clearance sale of high class tailor-made suits and jackets for women and misses, at exactly half price.

Articles of incorporation of the Sundby Test company, with a capital stock of $10,000 and a limit of indebtedness of $4000, have been filed with the register of deeds by Andrew B. Peterson and Christian J. Ness.

Two new towns in the Bowstring country, 62-27 and 63-27 were opened for application at the local land office today and a large number of applications were filed. The town of 63-24 was opened June 17 and today about a dozen applications made before the United States commissioner at Koochiching were received at the local land office.

A large supply of roses and carnations received daily from our greenhouses, Elschen Bros., 129 West Superior street.

Trunks only $1 each and satchels 25 cents at the Two Stock sale, 19 East Superior street.

Parlor theater—Jolly vaude-ville bill.

Theophilus Wilson, of 212 East Fourth street, has just been awarded an original pension of $6 a month, dating from March 16, 1901.

The ferry service time has been changed. Boats now leave at 10, 30 and 50 minutes past the hour, instead of 20 and 40 minutes past the hour.

PERSONALS.

Capt. D. D. Gaillard returned today from an inspection trip to the other Lake Superior harbors. He will begin now preparing the annual report of the government engineer for the Lake Superior district.

Miss Clara Norton, of Fergus Falls, is visiting Mrs. F. H. Greene, of East Fourth street.

H. S. Clarke and wife leave for Buena Vista, Wis., for a week's outing.

Alderman Krumsieg and Miss Adelene Krumsieg are visiting friends in St. Paul for a few days.

Dr. and Mrs. Shipman and family, of Ely, are at the St. Louis.

Judge and Mrs. J. H. Boyle and daughter have gone to Minneapolis and various points in Wisconsin.

N. S. Coffin, secretary of the Pioneer Fuel company, was in the city this morning from Minneapolis. He left during the forenoon for Northern Wisconsin, where his wife and children are sojourning with Dr. and Mrs. Lynam and children. Mr. Coffin was formerly a resident of Duluth.

The following railroad men were registered at the various hotels today: G. E. Hustis, general western agent of the N. Y., N. H. & H. R. R.; W. B. Dixon, Northwestern passenger agent, and Joseph Caldall, traveling passenger agent, Great Northern railroad; A. S. Kelly, contracting agent for the Pacific Packing and Navigation company, and Ronald Stewart, Great Northern Express company.

W. B. Pillsbury, of Minneapolis, is a guest at the McKay.

S. F. Hanna and wife, of Roby, Ind., are registered at the Spalding.

Mrs. L. D. Kitchell has gone East to visit friends in Ohio.

P. A. Bruden, of Philadelphia, is at the St. Louis, where he was joined this morning by his brother, T. S. Bruden, of West Superior.

Rev. L. I. Belden left yesterday over the South Shore road, bound for Hartford, Conn., to spend his summer vacation.

F. D. Hamilton left today over the Omaha for Chicago.

Nellie Nettel, of Tower, is at the McKay.

Mrs. K. L. Myrick, of Ely, is at the St. Louis.

Mr. and Mrs. H. S. Gates, Mr. and Mrs. James Smith, and Mrs. Elizabeth Murray and daughter, of Lisbon, N. D., and G. H. Gates, of Willmar, N. D., are visiting M. C. and A. R. Murray and families.

W. D. Boyce, of Chicago, the proprietor of Boyce's Weekley and several other publications, and the head of a large New York printing establishment, is at the Spalding.

Men's Suits tomorrow, $5, $6.50, $8.75 and $11.75, worth double. New styles, all sizes. M. S. Burrows.

IS DELAYED.

Excursion Train Several Hours Late Because of the Wreck.

The excursion trains on the Northern Pacific from Wahpeton and Fergus Falls were delayed today by the wreck on that line and are not expected to reach here until four or five hours after the time set for their arrival, which will be at about 6 o'clock. Some of the excursionists were luckier than the others. They were those that live west of Wahpeton. If they had come on the excursion train today they would have had to stop over last night at Wahpeton, so the road brought them through on the regular train last night that arrives here in the forenoon.

There were about fifty in the party, and about half this number engaged rooms at the St. Louis, some went to the McKay and the balance scattered around town.

Some on the Train.

There was considerable uneasiness among members of the Episcopalian church over the fact that a number of ministers who were in attendance at the convocation here Wednesday and Thursday left last evening for their homes in the western part of the state, and are supposed to have been on the Northern Pacific train which was in the wreck at Dower Lake early this morning. Among those who went were Rev. H. M. Green, of Crookston, and Rev. W. Watson, of St. Vincent.

Apprentice at Home.

Apprentice T. Wetterlind, of the battleship Massachusetts, a son of Mr. and Mrs. T. Wetterlin, of this city, is home on leave of absence. The lad enlisted as an apprentice in April, 1898. He is an apprentice of the first class. The Wetterlind family have made a record in the army and navy. T. Wetterlind, the apprentice, is the only one in the navy but among the other five brothers four have been or are in the military. The fifth boy is not yet old enough to enter the service. Two of the Wetterlind boys were in company C of the Fourteenth Minnesota, under Capt. Resche. There are three of them now in company C of the national guard in Duluth.

Good Revolver Shot.

Among the records made in the target practice at the state encampment of the militia at Lake City, Minn., Maj. Resche, of this city, scored well to the front in revolver practice, in fact there were two others, Lieut. H. P. Whitaker and Lieut. McCorquodale, who scored the same number of points, 46. But one higher score was made and that was 50 points by Capt. William Nelson, of Brainerd, who received the Ames revolver. These scores were all shot at a range of 100 yards at the figure of a man standing.

DEATH LIST.

Phoenix, Ariz., June 20.—Robert Towne, a well known journalist, is dead at Prescott of tuberculosis. Although only 32 years old he had achieved notable success as a journalist. He was a reporter on the Topeka and Kansas City papers and later was connected with the Chicago Times.

New York, June 20.—Dr. Alba Vaughan Elliott, who served as a paymaster in the army from 1865 until 1880, is dead at Florence, Italy, from heart trouble. He was a son of the late Dr. Samuel Elliott, an eminent oculist, and was born in this city sixty-five years ago.

New York, June 20.—Mrs. Ernestine Schaeffer, known as the "Tombs angel," previous to entery into rescue work of Mrs. Foster, who lost her life in the Park Avenue hotel fire, is dead. She had been in poor health for several years an was compelled to give up her work in the city prison on that account.

AYERS-LAWSON.

Pretty Wedding Takes Place In West End.

The marriage of Miss Maude Ayers, daughter of Mr. and Mrs. Frank Ayers, of Fifteenth avenue west, and William Lawson, city salesman for the Cudahy Packing company, took place yesterday afternoon at 2 o'clock at St. Luke's church, in the West End, Rev. Mr. Belden, the pastor, officiating. The church decorations were very pretty. The wedding march was played by Miss Lizzie Morton. The bride was becomingly gowned in white and carried white roses. Miss Gunda Olsen, of Cloquet, was bridesmaid, and was dressed in pink, carrying pink roses. William Heasley, of Cloquet, was best man. The ushers were Harry Kelly and Edward Miller. The ceremony was witnessed by the relatives and a few of the intimate friends of the couple. A large reception was held after the ceremony at the home of the bride's parents, and Mr. and Mrs. Lawson left last evening for a visit in the Twin Cities. They will be at home after July 1 on Fifteenth avenue west. Among the out-of-town guests were Mrs. Schultz, of St. Paul; Mr. and Mrs. Hornby, Misses Alice and Dorothy Hornby, Harold and Roy Heasley, Miss Florence Cameron, Mr. and Mrs. Heasley, all of Cloquet.

To Insure Them.

A meeting of the board of public works was held this morning. It was decided to recommend to the council to authorize the placing of liability insurance on the men employed at the rock crusher. Several applications from property owners in the outlying districts to have sprinkling abandoned on certain lots and blocks were received. The board could not see its way to grant this for the reason that the contracts for districts have already been awarded and if some of the property owners are allowed to get out of paying their share the amount would fall upon the other property owners.

PATCHED UP.

Burton Induced to Remain As Candidate For Congress.

Washington, June 20.—Senator Hanna and Representatives Burton and Dick held a conference this afternoon regarding the controversy over Burton's accepting the nomination from the Cleveland district. After the conference it was stated that as a satisfactory adjustment was assured, Burton would remain a candidate. Although another conference is to be held, it is expected that the basis of settlement will be that the county committee will conduct the county campaign, and that Mr. Burton will organize the congressional committee to conduct his campaign.

THE ENGLISH SPARROW.

Two old residents of Germantown took advantage of a delightful day to saunter up Germantown avenue, stopping now and then at the different places of historic interest along the avenue, says the Philadelphia Telegraph. They spent some of the time at the old Ship house, telling each other about the ancient structure, and as to how the ship came to be placed there, when their attention was attracted by myriads of sparrows that congregated up on the roof.

"Ah! That reminds me," said the elder of the two, "of the old John Bardsley house and the story of how the sparrows came to Germantown."

Walking up the avenue farther they came to a halt in front of a little white painted two-story house at the northeast corner of Upsal street and Germantown avenue. For over an hour the two old men lingered in front of this "old house," and the following story was told:

The house was occupied for a number of years by the late John Bardsley, better known as "Sparrow Jack." During the time that William F. Smith represented the Twenty-second ward in councils he presented an ordinance appropriating $300 with which to purchase English sparrows to destroy the measuring worms that had become a nuisance in the city squares. John Bardsley, an Englishman, but for many years a resident of Germantown, was delegated to go to England to secure the sparrows. Being familiar with the English birds, he had no trouble in catching them in nets. He secured between 300 and 400. On his way over from England one-half the sparrows died, but enough existed to insure a rapid increase of the little pests, which have since become more troublesome than the worms.

Bardsley was always an enthusiastic admirer of the sparrows, and to show his love for them he fed them regularly during the winter months and had a number of fantastically constructed boxes, surmounted with weather vanes and ornaments, for their use. He always reproved anyone who interfered with or abused the sparrow.

GATELY'S

Is the Place to Buy Your Goods.

Why? Because their prices are right and can furnish you home complete.

AGAINST CHANGE

Chairman Greene Believes Civil Service Rules Should Stand.

Commission Will Consider Them at a Meeting Tonight.

Report From City Attorney on Meaning of Rules Expected.

A meeting of the municipal civil service commission was held last night, but no business of interest was transacted. Another meeting will be held this evening, at which time the commission probably will take action on the approaching examination for positions in the fire department. The situation between the mayor and the commission is unchanged as regards promotions. Speaking of the rumpus between the city's executive and the commission on this score, Chairman H. F. Greene of the commission said to a representative of The Herald today:

"There has been no change in the situation. As the public is probably aware, the mayor requested the commission to certify to three names for promotion from our eligible lists. Under our rules we can certify to but one. The mayor wishes us to change the rules so that we may certify to three. At present we certify to but one, and that one is the man who stands highest in the examination. We have declined to change the rules, and the commission has not receded from its position in the matter.

"At the last meeting of the commission, previous to last night, we asked the city attorney for an opinion as to whether the detectives come within the province of the civil service commission, and we expect a reply on that point tonight. The controversy, however, is not only over detectives, but over all promotions.

"As far as I know the commission is not likely to recede from its position, or change it in any manner whatsoever. Of course I have no right to speak for anybody else on the commission. The present rules were drafted by the entire commission, all members being equally responsible, and they were approved by the mayor. They ought, in my judgment, to stand as they are."

AT WEST DULUTH

Mrs. Bridget Lyons, aged 95 years, died yesterday at the home of her grandson, Joseph D. Van, of 819 Sixty-third avenue west. Up to the time of her death Mrs. Lyons was the oldest person in West Duluth, and probably the oldest person in the city. She had been a resident of West Duluth for the past fourteen years, coming here from Minneapolis.

One of the interesting features connected with her residence in this city is that at the time of her death there were four generations of her family living in the same house, nee-sell, daughter, grandchildren and great-grandchildren. Such instances are rather unusual.

For a person of so advanced an age Mrs. Lyons was very sprightly, was active in getting around, and up to within a short time of her death was never sick. The primary cause of her death was old age. A few days ago she told the attending physician that she could not understand why she was "feeling so poorly." Her mental faculties she retained up to the moment that death came.

Details of her earlier life before coming to the head of the lake is said to be of interest, but these were not available this morning. Mrs. Lyons had three sons in the civil war. She was the grandmother of J. W. Sheridan, manager of the Duluth Van and Transfer company; Mrs. Joseph D. Van and Charles Sheridan, of this city; Philip Sheridan, of West Superior, and William Sheridan, of North Dakota. Besides these the decedent had a large number of relatives, some living in the southern part of the state and others scattered over the country.

The funeral will be held from the St. James church tomorrow morning at 8:30 o'clock, Rev. Father Fecheley officiating. Interment will be made at Calvary cemetery.

BAD WALKS DO EXIST.

If Commissioner C. H. Martz of the board of public works has any need of further proof of his assertion that new walks are very much needed in West Duluth, despite the protest of some property owners, he has but to call on Evan E. Lloyd, an old citizen who resides near Raleigh street and Seventy-second avenue west. While walking down the walk on Raleigh street, a few days ago with a friend, at Seventieth avenue west, the friend stepped on a board from which the stringer at one end had rotted away. The board flew up tripping Mr. Lloyd so that he fell heavily, bruising his face. The walk looked apparently all right, but the stringers underneath were found to be in wretched condition.

ALL THINGS MOVING WELL.

The Fourth of July committee held a meeting last evening with a view of furthering the arrangements that are being made for the celebration at this end of the city. Every committee reported things moving along in the most satisfactory way to bring about the best time West Duluth ever had on an Independence day. Already a program or map of the parade is being prepared, but there are a number of details to be perfected before it is to be given out to the public.

ANNUAL ELECTION.

At the annual election of officers of the W. C. T. U. yesterday afternoon, Mrs. C. R. Keyes, of West Duluth, was elected president for the coming year, and Mrs. Patterson was chosen secretary. It was decided to hold the annual picnic this year at Oatka beach, on Park Point, July 3. The past year has been a most successful one for the society as the annual reports from all the committees indicated.

WEST DULUTH BRIEFS.

The funeral of the infant raughter of Mr. and Mrs. John Reeves, of 331 Sixtieth avenue west, was held yesterday afternoon from the family residence. Burial was made at Oneota cemetery.

Twin daughters arrived yesterday to grace the home of Mr. and Mrs. Samuel Trembly, of 13 South Fifty-sixth avenue west.

The family of Superintendent Robertson, of the blast furnace, has arrived. They will make their home in West Duluth.

Rev. Father Rehill, of St. Paul, who has been a guest of Rev. Father Feeheley, left this afternoon for his home.

Mr. and Mrs. K. A. McDonald, of Munger row, are entertaining Mrs. Mellville and Mrs. Hopkinson, of Alpena, Mich.

C. C. Salter is back from the state encampment of the militia.

Mrs. Sleverts, of Canby, Minn., is visiting Mr. and Mrs. F. G. Hofler.

The two young West Duluth girls that were reported missing from their home the first of the week are said to be visiting relatives in Saginaw, Mich.

P. H. Martin returned from Fond du Lac, Wis., where he attended the marriage of his niece.

Harry Merritt left today for Nebraska.

The match factory has been closed for a few days because of a lack of wood.

The Lumber Pilers' union will hold a special meeting at 2 o'clock Sunday afternoon at the hall on Grand avenue.

AT THE HOTELS

The new name of Skibo, that has been given to the Duluth & Iron Range station at mile post 67—formerly called St. Louis station, has excited a good deal of curiosity. At the McKay last night Frank W. Laird of the lumbering firm of Nolan Bros. & Laird enlightened a group in the lobby as to the cause of the change.

"When we started our plant up there our postoffice was at Norman and our freight was billed to that place frequently as well as to St. Louis. Our letters would also sometimes be addressed to St. Louis and would be sent to the world's fair city in Missouri. There is another station called Norman in the southern part of the state on the Albert Lea road and our freight would go meandering off down there.

"Something had to be done and Vice President Viele solved the problem. He hunted for a name different from any other postoffice or railway station in the United States and after consultation with our firm it was agreed that we should adopt the name of Andrew Carnegie's castle in the highlands of Scotland for our postoffice and depot. President House concurred in the idea and now our freight and mail comes through on time and we reside at the only village named Skibo in the world."

* * *

Editor James Coggswell of the Two Harbors Iron News and Mrs. Coggswell arrived at the Hotel St. Louis from Sault Ste. Marie this morning and left in the afternoon for their home at Two Harbors.

Mr. and Mrs. Coggswell have been taking a trip down the lakes to Erie, Pa. They left home about a week ago on the steamer Mariposa and returned on the same vessel as far as the Soo where they took the South Shore train for home, preferring the overland trip to the cold of Lake Superior at the present time. Mr. Coggswell was emphatic in his praise of the equipment of the new train on the South Shore road, to polities at Two Harbors he had heard would away that Dr. Budd was out for the nomination on the Republican ticket for the legislature. "He will make a splendid representative," said Mr. Coggswell.

* * *

At the Spalding: W. D. Boyce, Chicago; Nelson C. Brown, Winona; C. A. P. Turner, Minneapolis; G. E. Doble, London, Ont.; J. Alberg, New York; C. F. Haglin, Minneapolis; L. R. Matlock, Philadelphia; A. Y. Bayne, Minneapolis; John H. Bogue, Chicago.

* * *

At the St. Louis—Louis Drabek, Iowa; H. R. Cornell, Rutledge; James M. Smith, St. Paul; R. C. Barton, Minneapolis; A. E. Wilder, Will Nesbitt, Grand Rapids, Minn.; W. F. Street, Bemidji; P. F. Walsh, St. Paul.

POLICE COURT.

Railroad Switchman Is Up on Serious Charge.

The proceedings in police court this morning seemed to have taken their cue from the weather—both were dull and gloomy, not to say monotonous. There were three or four dispirited drunks and one very much disturbed young man charged with a serious crime. Charles E. Carroll, a switchman in the employ of the Missabe road, is the man and the complainant is Stefamia Mady. Bail for Carroll's appearance to stand examination June 28, in the sum of $300, was furnished.

* * *

John Hathaway, a camp cook, was arrested last night on suspicion of having stolen a watch from a woodsman on the Bowery. The man Hathaway was observed fumbling about the side of the woodsman, and later the latter complained of having lost his watch. Hathaway was arrested on suspicion but the police were unable to discover the watch and could make no case against the prisoner and he was released about 10:30 o'clock. The man was suffering from the effects of excessive potations and received his "valuables" from Capt. Resche with trembling hands and quaking limbs. He had but little money, and remarked as he walked out of the station that he would have to go and sell the new pair of shoes that he had purchased but a day or two before. The police were satisfied that, while his actions had excited suspicion, he had not stolen the watch.

AERIAL BRIDGE.

General Manager Baine Says Steel Is Nearly Ready.

A. Y. Baine, general manager, and C. A. P. Turner, engineer of the Duluth Canal Bridge company, which was organized to build the aerial bridge across the Duluth ship canal, were in the city today. They came up to consult City Engineer Patton regarding some of the minor details of the construction. Also for the purpose of viewing the bridge abutments with a view of accepting the work.

Mr. Baine announced while here that he expected the steel for the bridge would soon begin arriving in Minneapolis, where the shop work will be done upon it before it is forwarded to Duluth to be erected. The shop work consists of cutting, shaping, riveting, etc.

The abutment for the bridge were completed some time ago. The work, which was done by Hugo & Tims, was inspected by the bridge officials yesterday. The steel work of the bridge will be erected the coming winter and the structure ready for use the coming spring.

Rates For Fishermen.

If you wish to take a little fishing trip out of the city over Sunday, either alone or with your family, take advantage of the fishermen's rates offered by the South Shore road. For good trout fishing go to Winneboujou, on the famous Brule river. Fare round trip, $1.25. There is a splendid bass and pike fishing and every convenience for fishermen at Middlebrook and Delta, Wis. The round trip fare to Middlebrook is $1.50 and $1.75 to Delta, Wis. You can leave the city over the South Shore road at 6:45 p. m. Saturday, and return at 8:30 Monday morning. The rates are good, however, Friday night, returning Tuesday morning.

MAYOR LOW

To Give Weekly Talks to the Reporters.

New York, June 20.—Mayor Low has announced that beginning with the second Thursday in July it is his intention to give a weekly talk to the reporters. His plan is to discuss for the benefit of the public through the newspapers the workings of the different departments. He proposes to take up each department in turn and to reply to all inquiries put to him concerning that particular department. Should the public appreciate this departure of the mayor in taking it into his confidence he will hold two conferences weekly, one on Mondays for the morning newspapers and another on Thursday for the evening papers.

THIRD TRIAL

Of Jessie Morrison For the Castle Murder.

Eldorado, Kan., June 20.—A jury to try Jessie Morrison for a third time for the murder in June, 1900, of Mrs. Olin Castle, was completed today after a week's effort, and the taking of testimony was begun. Miss Morrison is charged with having killed Mrs. Castle by slashing her throat with a razor. The first jury disagreed and the second found her guilty and assigned her punishment at ten years' imprisonment. This verdict was reversed on a technicality.

AGENTS HEAR NOTHING.

London, June 20.—The London agents of the American line have heard nothing from the report in circulation here last night that the steamer Belgenland, of that line, which left Queenstown yesterday for Philadelphia, was returning to the former port. Dispatches from Queenstown this morning say that vessels which have arrived there today have not sighted any disabled steamer. The report regarding the Belgenland is now believed unfounded.

$4.30 St. Paul or Minneapolis and Return

Via the Great Northern railway, account Democratic state convention. Tickets on sale June 24 and 25. Good returning until and on June 27. City ticket office, corner Spalding hotel.

IMMENSE BENEFIT

Prof. Shaw Comments on Jean Du Luth Stock Farm.

Dwarfs State Experimental Station Almost Into Insignificance.

Land Is Being Rapidly Cleared---Horses, Sheep and Angoras.

"St. Louis county could well afford to bonus the Jean Du Luth stock farm. It is doing more good to this county and the state at large than any manufacturing enterprise, and dwarfs the state experimental farms almost into insignificance."

So spoke Professor Thomas Shaw yesterday when visiting the stock farm in company with President C. P. Craig, of the company owning it.

Professor Shaw was formerly president of the state agricultural college and projector and superintendent in chief of the experimental farm system of Minnesota. He is at present editor of the Farmer, the leading agricultural publication of the Northwest.

In company with President Craig and other members of the company, President Shaw made a thorough inspection of the stock, buildings, soil and general characteristics of the company's property. The soil, which is a splendid sandy loam with a clay subsoil, especially excited his admiration. The average depth of this loam is six feet, and in some places as much as twenty feet. The lands not yet cleared are heavily timbered with sugar maple basswood, hard yellow birch and elm. About 4300 acres of land is embraced is being cleared as rapidly as possible, within the limits of the farm, and this About fifty men find constant employment at this work and in looking after the stock.

The pride of the ranch is "Fanchette II." This prize Percheron mare is the finest type of draft mare in America, and President Craig intends to enter her at the state fair this fall against all comers of whatever breed of draft horses. There are thirty-five head of horses on the farm, mostly blooded Percherons, of which number fifteen are brood mares.

The sheep number 450 head. They are all blooded Shropshires, and all have pedigrees as long as that of a Spanish grandee. Western ranchmen are already inquiring for ram lambs, and one man has made a proposition to take all the young rams at a price about five times as much as they would bring for mutton.

Besides the Shropshires there are 225 Angoras, owned by the company. These pretty and valuable animals are often called "Angora Goats," but if they do belong to the goat family, they have none of the disagreeable characteristics of the common "billyboat." The hair of the Angora is long and silky, and is known as mohair in commercial parlance. The longest quality is worth $1 per pound, and the average hair will bring 30 cents per pound.

The company has decided not to purchase any cattle until the spring. They are led to this decision by the uncertainty of the yield of their forage crops, that cover the cleared land. Crops on new land are generally uncertain propositions, and are especially so this year owing to the general inclemency of the weather and the incessant rains. The principal items forming the forage crops are oats, barley, millet, rape, three kinds of clover, timothy, bluejoint, Kentucky blue grass, potatoes and other roots. Some fodder corn and sorghum has been planted, and this fall a crop of rye will be sown.

Professor Shaw has always contended that Northeastern Minnesota would eventually become a great stock raising and agricultural section of the state, and the promised success of the Jean Du Luth ranch seems to him to presage the fulfillment of his predictions and hopes. He is about to try an interesting experiment here with Alfalfa. Recently he imported a small quantity of seed from Turkestan and he will send a portion of the seed here, and will try it to see if it will stand this northern climate. This is the first time that this crop has ever been considered for such a high latitude as St. Louis county.

MOONLIGHT EXCURSION.

It is understood that the lower portion of the new building will be used for store purposes, as the installation of the interstate street car traffic past the corner of Superior street and Garfield avenue instead of Michigan street has made the corner a very desirable one for business purposes.

Excursion to Fond du Lac.

The Svea Glee club, of Duluth and Superior, is making extensive preparations for its excursion to Fond du Lac Sunday. Nothing is being left undone that can make it a great success. Valuable prizes have been selected for those participating in the races and will be distributed at the close of the exercises.

VIRULENT CANCER CURED.

Startling proof of a wonderful advance in medicine is given by druggist G. W. Roberts, of Elizabeth, W. Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklin's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and microbe poisons at the same time this salve exerts its matchless healing power, blood diseases, skin eruptions ulcers and sores vanish. Bitters, 50c; Salve, 25c, at W. A. Abbett's Drug Store.

JOINS CLUB.

Whist Players Merge Themselves With the Commercial Club.

The tables, furniture, equipment, etc., of the Duluth Whist club have been turned over to the Duluth Commercial club, and hereafter the whist club members will be identified with the Commercial club. It is believed that the merger will have the effect of creating more interest in the Whist club and make the organization stronger. To become a member of the Whist club one must now be a member of the Commercial club.

Regarding the proposed location of a cereal food plant here by Charles V. Eades, of Chicago, Secretary Preston has received a communication indicating that the management will expect a bonus. The letter stated that $25,000 would have to be expended at once in fitting up a plant, but that would be only a small part of what would be needed before the plant is ready for business. The suggestion has been made that in the event of the cereal company coming to Duluth, one of the flouring mills might be utilized for a plant.

Want Them to Turn Out.

The regular meeting of the Business Men's club of the West End will take place this evening in the club rooms in Normanna hall, corner of Twenty-first avenue west and Superior street. In view of the agitation now started looking toward better streets and the matter of repaving West Superior and Michigan streets, in the West End, it is desired that there be good representation of the property owners along those streets.

IS A BAD MAN.

Denver, June 20.—Charles Savage, a mulatto, 62 years old, has been arrested on the charge of having robbed the registry department of the Denver postoffice last Monday night. It is not known what evidence has been obtained against him. Savage was arrested in Kansas City some time ago on the charge of robbing a traveling man in Portland, Ore., of several thousand dollars' worth of diamonds. He was tried and acquitted.

MEN'S SUITS!

A PHENOMENAL SALE OF MEN'S SUITS

We Offer You $13.50, $15 and $16.50 Suits for

$9.75

A week ago today we announced this great sale of Men's Fine Suits. The response was hearty and enthusiastic, hundreds have taken advantage of this exceptional opportunity. Tomorrow will be the banner day of this great sale. We have secured extra salespeople and all will be properly waited upon.

We Offer You $18.50 and $20.00 Suits for

$13.75

FLOAN, LEVEROOS & CO.

NEW BOOKS.

List of Those Recently Added to Duluth Library.

The following books have been recently added to the Duluth public library:

Cockerell, Douglas, "Bookbinding and the Care of Books."
Herrmann, Prof., "Herrmann's Book of Magic."
Fiske, Lewis R., "Man-Building."
Sadler, Rev. F., "Bible—New Testament, St. Matthew; Bible—New Testament, St. Mark; Bible—New Testament, St. Luke; Bible—New Testament, St. John.
Trench, Richard C., "Notes on the Miracles of Our Lord."
Lee, Gerald S., "Shadow Christ."
Lady Poverty, "A Thirteenth Century Allegory."
Lewis, A. H., "Sunday Legislation, Its History to the Present Time."
Cary, Rev. O., "Japan and Its Regeneration."
Abbott, Edward, "Japan and the Nippon Sei Kokwai."
Dennis, James S., "Foreign Missions After a Century."
Pierson, Arthur T., "Crisis of Missions; Or, The Voice Out of the Cloud."
Pitezel, Rev. John H., "Lights and Shadows of Missionary life."
Wilson, Mrs. A. M., "Lives of Mrs. Ann H. Judson, Mrs. Sarah B. Judson and Mrs. C. Judson; Missionaries to Burmah."
Younge, C. M., "Pioneers and Founders."
Wolf, Simon, "American Jew As Patriot, Soldier and Citizen."
Flickinger, J. R., "Civil government as Developed in the States and in the United States."
Holt Henry, "Talk on Civics."
Balch, T. W., "Alaska-Canadian Frontier."
Hopkins, James H., "History of Political Parties in the United States."
Carnegie, Andrew, "Empire of Business."
Bucher, Carl, "Industrial Evolution."
Tucker, George F., "Monroe Doctrine."
Burton, T. E., "Financial Crisis and Periods of Industrial and Commercial Depression."
Balch, Thomas, "International Courts of Arbitration."
Addams, Jane, "Democracy and Social Ethics."
Canfield, James H., "College Student, The and His Problem."
Corbin, John, "An American at Oxford."
Bourne, H. R. Fox, "English Merchants."
Pascoe, C. E., "Pageant and Ceremony of the Coronation of Their Majesties, King Edward the VIIth and Queen Alexandria."
Smith, Charles John, "Synonyms Discriminated."
Hopkins, William J., "Telephone Lines and Their Properties."
Mowbray, J. P., "Journal to Nature."
Hodge, C. F., "Nature Study and Life."
Kennedy, A., "The Story of the West Indies."
Davey, R., "The Sultan and His Subjects," 2 vols.
Noble, F. P., "Redemption of Africa."
Bangs, J. K., "Uncle Sam, Trustee."
Ellis, E. S., "Young People's History of the United States."
Ramsay, D., "History of the United States from 1807 to 1808."
Hosmer, J. K., "The History of the United States."
Brown, A., "English Politics in Early Virginia History."
Bedwell, H., "Historical account of the expedition against the Ohio Indians in 1764.
Brain, B. M., "Transformation of Hawaii."
Alden, W. L., "Drewitt's Dream."
Altsheler, J. A., "My Captive."
Baum, L. F., "Dot and Tot."
Baum, F. L., Mother Goose in Prose."
Bell, Lilian L., "Abroad with the Jimmies."
Bourget, Paul, "Monica," and other stories.
Brady, C. T., "Hohenzollern."
Clemens, S. L., "A Double-Barrelled Detective Story."
Clifford, Mrs. W. K., "Margaret Vincent."
Cotes, Mrs. E. "Those Delightful Americans."
Crosby, E. H., "Captain Jinks."
Crowley, Mary C., "Heroine of the Strait."
Daskam, J. D., "Fables for the Fair."
Dickson, Harris, "The Siege of Lady Resolute."
Dixon, Thomas, Jr., "The Leopard's Spots."
Doyle, A. C., "The Hound of the Baskervilles."
Eggleston, G. C., "Dorothy South."
Flynt, J., "The Little Brother."
Foote, M. H., "The Desert and The Sown."
French, Allen, "The Colonials."
Garland, Hamlin, "The Captain of the Gray Horse Troop."
"Gilly Flower," a story for girls, by the author of "Miss Tosey's Mission."
Glasgow, Ellen, "The Battle Ground."
Green, A. K., "One of My Sons."
Harland, Henry., "As it Was Written."
Taylor, Henry, Poetical works, 3 vols.
Fowler, Harold N., "A History of Ancient Greek Literature."
Perry, W. C., "Boy's Odyssey."
Perry, Walter C., "The Women of Homer."

NO BONES WERE BROKEN.

New York, June 20.—Terry McGovern, the pugilist, who injured his shoulder while playing baseball at College Point on Wednesday afternoon is not so badly injured as at first reported. It was thought at the time of the accident that his shoulder bone was fractured, but a further examination disclosed the fact that no bones were broken.

STOMACH COMPLAINTS

CAN BE CURED.

There are hundreds of people today who are suffering from Stomach Complaints because they believe there is no cure for them. However, there is one medicine that will positively cure stomach ills and that is

HOSTETTER'S Stomach Bitters

It contains only such ingredients as will be helpful to the stomach and no matter how long standing your complaint, the Bitters will surely help you. We urge you to try it. It has cured these people and will not fail you.

Brooklyn, N. Y.

Dear Sirs—I have been troubled with Indigestion and other stomach complaints and your bitters has been my only remedy of relief. I cheerfully recommend it.
THOS. W. CHRISTY.

Brooklyn, N. Y.

Dear Sirs—I have used your Bitters and found it an excellent remedy for Indigestion and other stomach troubles. I heartily recommend it to everyone.
E. T. TROTTER.

OUR PRIVATE STAMP IS OVER THE NECK OF THE BOTTLE.

CHARGES ARE UGLY

Appointees of Governor Van Sant Accused of Gross Fraud.

Deputy Inspectors Have Sent In False Returns on Oil.

Governor Stopped the Fight on Standard Oil Trust.

St. Paul, June 20.—Incompetence, corruption and practically malfeasance in office on the part of Governor Van Sant's appointees to the state oil inspection department and submission to dictation from the Standard Oil company, as against the best interests of the people by the governor himself, are the charges made by the friends of the Big Four and State Oil Inspector Fred C. Schiffmann.

Peace abideth not in the halls of the Republican party. The governor's latest fling at the Big Four in general and Fred C. Schiffmann in particular has stirred up another mare's nest, and promises to give an airing to another batch of exceedingly dirty administration linen. The gang's friends are warm under the collar, and talk right out in meeting.

While the governor of Minnesota was in Washington he evidently took a hand in the tactics which the close followers of the administration have worked at home for some time. Wherever the administration people have found a disposition toward soreness over the operations of the Big Four, they have quietly given it out that the governor has been deceived and misused by the Big Four, and that he will never forgive Reese and Schiffmann. To the members of the gang and their friends a different story has been told, and the Big Four has until very recently endeavored to decry the reports of strained relations between themselves and the governor of Minnesota.

Knowing Schiffmann would under no circumstances accept a second appointment at his hands, the governor while in Washington evidently made a play for the anti-gang sentiment which bids fair to cost him dearly before he has heard the last of it. Yesterday the Washington correspondent of a Twin City paper let the cat out of the bag by telling how the governor had given it out in Washington that upon his reelection Schiffmann would be dropped and a Minneapolis man given the job. A squeal immediately arose from the Big Four's henchmen. One of them yesterday said:

"Van Sant knew when he made that play for capital that Schiffmann would under no circumstances accept another appointment at his hands. He would not serve another term as oil inspector if the emoluments of the office were to remain unchanged; if the term was ten years instead of two; if there were no anti-fee bills to fight in the legislature, or campaign assessments to pay, nor even if there were no Van Sant.

"Schiffman has had quite enough of that job. He has not only made no money out of it, but he has been obliged to suffer incompetent men placed in the department by the governor, who have hampered him to the extent of interfering when Schiffman attempted to enforce the law and compel the oil trust to furnish the people of Minnesota with decent and safe illuminating oil. It is a notorious fact that the only incompetent and viciously negligent men in the department are the men put there and kept on the pay rolls by the governor. A dozen of his incompetents are kept under the constant surveillance of Chief Deputy Barrows, who entirely repudiates their inspection reports and condemns or rejects oil on his own inspections.

"They do not perform their duties and have repeatedly made false returns of inspections. Why don't Schiffmann remove the incompetents? That's easy enough explained. They are the governor's men and they must be kept. Just one instance will illustrate the kind of administration work of Schiffmann has been obliged to submit to. It's only one of many and is not an exaggerated case. One of Van Sant's appointees made a return of an alleged inspection of a tank of kerosene. The test blanks were all filled in with figures which gave the oil an exceptionally good rating.

"As a matter of fact, that tank contained gasoline and the inspector had never been near it. That tank, as is true of every tank which goes into his district, had been inspected before it reached his district and the chief inspector knew what to expect in the way of a report. Every tank that goes to his district is intercepted and inspected, and not the slightest attention is paid to his reports, which are made out without his ever seeing the oil on which he reports.

"The governor has not been content with foisting off incompetents on the man to whom he owes, in a large degree, his election, but he has actually interfered with the work of the department through his fear of the displeasure of the oil trust. Less than a year ago Schiffmann served notice on the oil trust that if it did not stop sending inferior oil into Minnesota he would advertise every inferior consignment in the local papers in the vicinity in which it was offered for sale and on application furnish the consumers with directions for securing good oil.

"The governor at once threw a fit. He sent for Schiffman and after inquiring, 'What do you expect to gain by fooling with the Standard Oil company?' called the game off. Schiffmann bowed to the will of his superior, the octupus garroter per excellence, and the people of the state who pay their good money for bad oil are footing the bills."

KING DEAD.

Albert of Saxony Has Passed Away at Dresden.

Dresden, June 20.—King Albert died at 8:05 p. m. yesterday.

King Albert of Saxony was the last of the generals who commanded the German army of 1870. He could hardly be called one of the empire makers for it was his father, King Johann, who brought Saxony into the empire, but with her own active ascent. That the late king had considerable military capacity is shown by the fact that he had an independent command in the Franco-Prussian war.

King Albert contributed to the foundations of the empire, and although he fought against the Prussians in the war of 1866, he immediately reconciled himself to the situation and supported Prussia's political and military aspirations.

As his majesty grew older he shared in the idealization which influenced the group of great statesmen which surrounded William I. His sober life produced few incidents in the Protestant-Catholic country he ruled, and his support of his own church, the Roman Catholic, never caused a conflict with popular opinion.

Emperor William always referred to King Albert as a fatherly friend. It is understood that the emperor will at once suspend his tour of the Rhine and return to Berlin to take part in the funeral services of the dead king. The death of King Albert will certainly limit the regatta festivities at Kiel the latter part of this month, when it was purposed to hold a series of banquets. It is now not regarded probable that Emperor William will attend the Kiel regatta.

STATE OF OHIO, CITY OF TOLEDO, LUCAS COUNTY.—ss.

FRANK J. CHENEY makes oath that he is the senior partner of the firm of F. J. CHENEY & CO., doing business in the city of Toledo, county and state aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH CURE.

FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886.

MANUAL TRAINING

Of Boys of the South Subject of Earnest Plea.

Necessary In Order That the South Be Fully Developed.

Figures Which Show the Growth of South's Wealth.

Atlanta, Ga., June 20.—In his address at the commencement of the Georgia School of Technology yesterday, Richard H. Edmonds, editor of the Manufacturers' Record, of Baltimore, made an earnest plea in behalf of the broadest sort of manual and technical education for Southern boys. He said that in the struggle for individual community or national success the trained expert is to be leader, and that unless the South promptly develops is now limited facilities for the industrial training of the tens of thousands of white boys who would gladly avail themselves of the opportunity, its greatest natural advantages will no more enable them to win in competition with the technical experts of other sections than would a naturally strong position enable an army equipped with the old muzzle-loader to withstand the repeating rifle and the breech-loading cannon. He mentioned Southern men who have already practically recognized the pressing necessity, and, comparing the South and other sections, said:

In the Lake Superior district nature has piled her wealth of iron ores, and in West Virginia and Pennsylvania she has stored unlimited coal, but a Carnegie and a Frick were needed to take these materials and center the world's iron and steel trade at Pittsburg. Pennsylvania is 6000 square miles smaller than Alabama, it has less ore and less coal and less timber than Alabama, its agricultural capabilities are not greater than Alabama's, but its industrial advancement, based on coal and iron and timber, is almost beyond the power of our minds to grasp. The census of 1900 tells us that the manufacturing interests of Pennsylvania employed in that year $1,551,548,712 of capital, and yielded $1,843,790,860 of product. This is $400,000,000 more than the combined manufacturing capital of the whole South, and $350,000,000 more than the product of the South's factories.

But turn to Massachusetts, one of the smallest states in the Union, only one-seventh as large as Georgia. Of such as we usually class as raw materials Massachusetts has little or none. It has neither coal, nor iron, nor cotton, nor timber, but many years ago it took its one raw material—its boys and girls—and developed that by teaching them how to do things, how to work with hand and and with brain, how, out of the coal and iron and cotton of other sections, to create wealth until it outstripped the fourteen Southern states in industrial employment and in the value of its manufactured products. Ten years ago that little state, with its 2,250,000 people, had a greater productive capacity in manufactures than the South's 20,000,000. Our progress during the past ten years has placed us at last ahead, but just a little. Think of it, and grasp its meaning to us as indicating the potentialities of the South's future, that the 2,500,000 people of Massachusetts can take our cotton, our iron, our coal and our timber, and by the power of the technically-educated brain and hand turn out manufactured products equal in value to those of the South, with its population of 25,000,000.

One meaning for us is that the South must at once begin to give to its boys—to the poor and rich alike—the broadest facilities for that training which will prepare them to do their part in this great development. Let no man say we are too poor. Thirty years ago that plea might have been justified, but now it is misleading. We have talked poverty, and talked of our dependence upon the energy and capital of other sections, until we have convinced ourselves and the world that we can do nothing by ourselves. But do you realize that the total true valuation of the property of the Southern states at present is equal to the total for the United States in 1860? In that year the total wealth of the whole country was $16,106,000,000, and the census will show that in 1900 the South's wealth was about the same. Look for a moment at a few really amazing figures. In 1860 the entire country made 884,474 tons of pig iron; today the South alone is making nearly 3,000,000 tons, or more than three times as much. In 1860 the total output of bituminous coal in the United States was 5,775,077 tons; last year the South mined over 51,000,000 tons. Alabama alone having an output nearly double the total bituminous coal production of the whole country forty years ago. Today the South has over 55,000 miles of railroads; the country had only 30,592 miles in 1860, and of this 9000 miles were in the Southern states. The value of the manufactured cotton goods of the South is now over $110,000,000 a year, while the output in 1860 for the United States was only $115,000,000. The value of the lumber products of the country in 1860 was $96,000,000, while today the South is annually marketing over $200,000,000 worth. Our mineral and manufactured products in 1900 aggregated $1,620,000,000, against $1,900,000,000 for the whole country in 1860. Then the country had 402 miles of street railways; now the South has nearly 3000 miles. Then the petroleum output was only 500,000 barrels; now the South is marketing over 20,000,000 barrels a year, the output being limited only by transportation facilities, and it is, as lately expressed by a London expert, "the Gibraltar of the lights and fuels of the world." Even in banking capital we have nearly one-half as much as the United States had in 1860, viz., $205,000,000, against $420,000,000.

These facts are unanswerable arguments as to our ability to educate our own people. They should awaken our self reliance and create in the South a determination, while bidding a hearty welcome to all voluntary contributions from other sections, to depend upon ourselves alone in this vital work. Yes, we are abundantly able to provide the broadest manual and technical educational facilities for every white boy and to do it ourselves. When we awaken to this fact and to its vital importance, politicians and taxpayers alike will unite to demand that it be done. Unless we do it, we shall be false to every interest of the South and false to Anglo-Saxon civilization itself.

Piles always yield to DeWitt's Witch Hazel Salve. Cures skin diseases, all kinds of wounds. Accept no counterfeits. Max Wirth.

The DORCUS SHOES for Ladies.

THE DORCUS OXFORDS

for Ladies.

Special Prices

on a few lines of Shoes for **Saturday, June 21.**

COST OF WAR.

Secretary Root Furnishes Information Concerning Philippines.

Washington, June 20.—Secretary Root made answer to the senate resolution of April 17, calling for information as to the cost of the war in the Philippines. It is shown that $50,000 was advanced for the expenses of the Philippine commission originally from the United States treasury, but this amount was afterwards reimbursed out of the Philippine treasury. For railroad transportation of troops and supplies to and from the Philippines since the peace treaty was ratified the cost has been $4,803,448.

Reports of various bureaus are submitted to show the cost of the Philippine war, including outstanding obligations, showing that the total up to date is $170,326,586. The expenditures by years were as follows:

Fiscal year 1898 (two months, May and June) there was expended $2,686,550; fiscal year 1899, $26,230,673; 1900, $50,869,543; 1901, $55,567,422, with $12 for liabilities; 1902 (ten months, July to April inclusive), $34,499,022, with $473,060 for liabilities.

Secretary Root concludes with the following explanation: "Attention is invited to the fact that large quantities of valuable property, such as ships, lighters, etc., horses and mules, wagons and harness, clothing, equipage and ordinance, medical, signal and engineer supplies, the cost of which is included in the foregoing statement, still remains on hand in the Philippine islands for use.

"Parts of these supplies are already being reshipped to this country.

"It should also be observed that a large part of the expenses during the past should not properly be treated as occasioned by military operations in the Philippine islands, for the reason that it consists of pay and maintenance of troops whom we would have had to pay and maintain whether they were in the Philippines or not, in order to keep up the minimum number of troops required by law as a safeguard against future contingencies. The minimum at which the regular army is required to be maintained, by the act of Feb. 2, 1901, is 52,967 men, and the maximum is 100,000. We have now less than 10,000 in excess of the minimum number. The cost of that excess only is properly to be treated as occasioned by operations in the Philippines.

"The present scale of expense in the Philippines is, of course, greatly reduced from that shown in the foregoing statement, because of the continuous reduction in the army, made possible by the restoration of peaceful conditions. Thus, in the middle of the fiscal year ending June 30, 1901, there were about 70,000 American soldiers in the islands; that number is now reduced to about 23,000."

"SOLDIER"

Played By Two Boys With Fatal Results.

North Vernon, Ind., June 20.—The 6-year-old son of Ed Whealon and the 9-year-old son of John Hubbard were playing soldier, when the little one fell, instantly killed by a shotgun in the hands of the older boy. Mr. Hubbard heard the shots and entered to see both boys still standing, guns in hand, facing each other. The little one started to fall and died in less than two minutes.

BRIDE

Who Was Secretly Wed Carries Bullet Wound.

Cleveland, Ohio, June 20.—Miss Marion Abbott, daughter of Capt. E. A. Abbott of the secret service, and Frederick L. Hastings, were secretly married last Saturday. Since then the couple have been living quietly at Hastings's home, and it was not until today that news of the wedding leaked out. The news came as a surprise to the friends of the bride, as she has barely recovered from a self-inflicted bullet wound in her breast. She attempted suicide last week, and the motive for the deed was given as despondency over her mother's death.

WARM TIME

In the Republican Convention In Staid Old Vermont.

Montpelier, Vt., June 20—Amid scenes of marked disorder and turbulence, the Republican state convention yesterday nominated Gen. J. G. McCullough of Bennington for governor on the third ballot, a body of delegates supporting Percival W. Clement, of Rutland, marching out of the hall as a protest against the action of the majority. The bolting delegates later, at an impromptu open air demonstration, nominated Mr. Clement for governor on an independent ticket, but later developments indicate that the high license men would devote some time to a consideration of the political outlook before placing an independent ticket in the field.

Mr. Clement himself last night advised his followers to go home and think it over before taking any hasty action.

Z. S. Stanton, of Roxbury, was nominated for lieutenant governor on the second ballot over F. W. Baldwin, of Barton.

For secretary of state Fred G. Fleetwood, of Morristown, was chosen without opposition, and D. L. Bacon, of Hartford, was similarly nominated for treasurer.

There were four candidates for auditor, Horace F. Graham, of Craftsbury, winning out on the second ballot.

The convention then adjourned sine die.

GOT A DIVORCE.

Husband Wanted Her to Eat a Cereal Food.

Bellefontaine, Ohio, June 20.—Mrs. Lucetta Hyatt was restored to her maiden name of Painter an granted a divorce from Thomas Hyatt, to whom she was married one year ago. The grounds upon which the divorce was granted was that he compelled her to live on a certain cereal food of his own invention. He is 71 and she is 61.

CHURCHMAN SUED.

Wealthy Widow Alleges That He Assaulted Her.

Kenton, Ohio, June 20.—Mrs. Matilda Anderson has begun a $10,000 damage suit against Peter Houser. She asserts that Houser broke into her house, beat her and criminally assaulted her. Houser is a prominent carriage dealer and a staid church member. Mrs. Anderson is a widow, owning a large farm and city property. The suit has created a sensation.

DISAPPEARED

On the Night When Good News Arrived.

Utica, Ohio, June 20.—Adolph Miller, the destitute cripple who mysteriously disappeared from the Licking county poorhouse a few days ago, is being sought far and wide by officers who think they have good news of a legacy and a home in Germany for the unfortunate man.

Miller was employed last summer by Walter Upson, in Newark. In November he was stricken with paralysis. Being without means of support, he was sent to the infirmary.

A few days ago the Newark chief of police received a cablegram from one Moeller, at Lockstedter, in Holstein, inquiring for the man, and investigation was made at the infirmary, when it was discovered that the same night in which the cable was sent Miller had disappeared.

Miller is about 39 years old. He alleged he had a wife and two children at Alliance, and search is being made for him along the probable route he would take if he attempted to go to that city.

"I suffered from dyspepsia and indigestion for fifteen years," says W. T. Sturdevant, of Merry Oaks, N. C. "After I had tried many doctors and medicines a friend persuaded me to try Kodol. It gave immediate relief. I can eat anything I want now and my digestion is good." Max Wirth.

SENATOR HANNA

Has Declared War on Mayor Tom L. Johnson.

Cleveland, Ohio, June 20.—Senator Hanna has declared war on Mayor Tom L. Johnson, and from now on a fierce battle is to be waged. Three times in succession has the mayor inflicted crushing defeats up on the Republican party in this city and county, but the senator is determined not to permit it to occur again if he can help it.

He has decided, now that peace with Congressman Burton has been made, to harmonize the several factions of Republicans in this county and to conduct the campaign himself, with the aid of the regular committee. He proposes to Meet Johnson upon the latter's pet hobby, low fares, and not only assist the Republicans in the managerial and financial way, but will take the stump and make speeches throughout the county and state.

Hanna realizes that Johnson will become a power in national politics if he wins in this county and state this fall, and it is with the view of eliminating his honor from the political sphere that the senator has declared war.

KIDNAPED FOR RANSOM.

Supposed Fate of a Beverly, Mass., Boy.

Boston, June 20.—The little son of A. W. Clark, of Beverly, is missing and his parents are forced tob elieve that he has been kidnaped for ransom. Mr. Clark is a prominent railroad official, being connected with the transportation department of the Boston & Maine road. He is a man of wealth and as the missing boy is his only child, he would be willing to pay any sum within his power to insure his safe return. Some time ago when a strike was in progress on the railroad, Mr. Clark incurred the displeasure of the strikers and threats to "get even" were made freely by the dissatisfied workmen. The disappearance of the boy leads the father to believe that he has been spirited away by one of his former employes. On Monday the Clark family moved to their summer cottage on the shores of Chebaco Pond, and the little fellow went over to the water for a bath. He has not been seen since and the pond has been thoroughly dragged without result. Footprints were found in the woods which the boy's shoes fitted exactly, and accompanying them were the footprints of a man. A woman living in the vicinity of Chebaco pond says she saw a boy answering the description being dragged along the Manchester turnpike on the afternoon of which the Clark child disappeared.

WOULD ARBITRATE.

Italian Chamber of Commerce Names a Committee.

New York, June 20.—The Italian chamber of commerce of this city has decided to try to arbitrate the differences between the striking silk dyers of Paterson and their employers. At a secret meeting of that organization many of the members who are silk importers, whose business is affected, a committee was appointed to visit Paterson today and confer with the city officials, the strikers and the mill owners, and to offer to act as arbitrators or in any other acceptable way toward the settlement of the strike.

Trenton Falls, N. Y.

For a great many years Trenton Falls has been known as a summer resort with more than usual attractions. At this point the West Canada creek, which drains a large area of the Southern Adirondacks, descends about 300 feet through a picturesque gorge, forming a series of wonderfully beautiful falls and cascades, called by the Indians Kauya-hoo-ra, "Leaping Water." For several years the surroundings have been undergoing extensive improvements; an electric plant has been installed, and the falls, gorge and woods are illuminated by night, presenting a picture of rare beauty. Trenton Falls is eighteen miles north of Utica, N. Y., and is reached via the New York Central. You may read all about it in the New York Central's "Four-Track Series" No. 6, entitled "In the Adirondack Mountains." Sent free on receipt of a 2-cent stamp by George H. Daniels, general passenger agent, Grand Central station, New York.

POSITION FOR H. H. RAND.

Washington, June 20.—H. H. Rand, of Wisconsin, has been appointed assistant superintendent of the salary and allowance bureau of the postoffice department.

CABLE INTERRUPTED.

New York, June 20.—The Comercial Cable company this morning issued the following notice: "We are advised that the cable between Mozambique and Majunga, Madagascar, is interrupted.."

$4.30 St. Paul & Minneapolis and Return—Democratic State Convention.

June 24th and 25th the Northern Pacific Ry. (Duluth Short Line) will sell tickets for Democratic State Convention to Minneapolis and return for $4.30, good returning June 27th. Three trains daily. For tickets and full information call at City office, 332 West Superior street, or Union Depot.

FIGPRUNE Cereal

SOLD BY ALL GROCERS

Duluth Brass Works,

Manufacturers.

Brass and bronze castings and babbits. Special attention paid to railroad, mill and steamship castings. Also furnish tin, spelter, antimony and lead. We manufacture hot water heaters for wood or coal. We have also a general machine shop, can do repair work or manufacture in iron or brass. Special attention paid to experimental work. Office and works corner Oneota and Ramsey streets, West Duluth.

ORDER FOR HEARING ON CLAIMS.—State of Minnesota, County of St. Louis—ss. In Probate Court, Special Term, June 6th, 1902.

In the matter of the estate of Levi Keith, deceased:

Letters testamentary on the estate of Levi Keith deceased, late of the county of Madison, state of New York, being granted to Wellington R. Richards.

It is ordered that three months be and the same is hereby allowed from and after the date of this order, in which all persons having claims or demands against the said deceased are required to file the same in the probate court of said county, for examination and allowance, or be forever barred.

It is further ordered that the 8th day of September, 1902, at 10 o'clock a. m., at a term of said probate court to be held at the probate office in the court house in the city of Duluth, in said county, be and the same hereby is appointed as the time and place when and where the said probate court will examine and adjust said claims and demands.

And it is further ordered, that notice of such hearing be given to all creditors and persons interested in said estate by forthwith publishing this order once in each week for three successive weeks in The Duluth Evening Herald, a daily newspaper printed and published at the city of Duluth, in said county.

Dated at Duluth, Minnesota, the 6th day of June, A. D. 1902.

By the Court,
W. G. BONHAM,
Judge of Probate.

(Seal of Probate Court, St. Louis Co., Minn.)
Duluth Evening Herald, June-6-13-20-1902.

NOTICE OF APPLICATION.—

An application having been made to me by Charles Broman under the provisions of Chapter 42, General Statutes of 1894, for a deed of so much of lot 61, West Johnson street in that part of Duluth formerly called Portland, as lies within the limits of lot 7, in block 144, Portland Division of Duluth, St. Louis County, Minnesota, according to the recorded plat thereof; it is

Ordered, that said application be heard before me at the court house, in the city of Duluth, in said county and state, on Saturday, the 5th day of July, 1902, at 9:30 o'clock in the forenoon, at which time and place all persons claiming such portion of said lot 61, West Johnson street, or any right, title or interest therein, are hereby notified to attend and establish their right to receive a deed to said portion of said lot 61, West Johnson street, or to make any objections they may have to the granting of said application; and that notice of said application and hearing be given unto all parties by publication hereof in The Duluth Evening Herald once in each week for three successive weeks before said date of hearing.

Dated June 13th, 1902.

WM. A. CANT,
As Judge of the District Court of the Eleventh Judicial District of Minnesota.
McGIFFERT & HUNTER,
Attorneys for Applicant,

Duluth, Minn.
Duluth Evening Herald, June-13-20-27-1902.

ARTICLES OF INCORPORATION of Northern Electrical Company.

We, the undersigned, have associated ourselves together to form a corporation for the purposes hereinafter mentioned, pursuant to the provisions of Title 2, of Chapter 31, of the Statutes of the state of Minnesota, and acts amendatory thereof, and for that purpose have organized by adopting and signing the following articles of incorporation:

Article I. The name of this corporation shall be Northern Electrical Company.

The principal place where the business of said corporation is to be transacted is Duluth, Minnesota.

The general nature of the business of this corporation shall be to buy, sell, install and manufacture electrical supplies, machinery, fixtures, and appliances of every description; to acquire, use, improve and dispose of any and all machinery, stock and other personal property necessary or convenient for the transaction of any of the aforesaid business.

Article II. The time of the commencement of said corporation shall be the 15th, 1902, and the period of its continuance shall be thirty (30) years thereafter.

Article III. The amount of the capital stock of said corporation shall be fifty thousand dollars ($50,000), divided into five hundred (500) shares of the par value of one hundred dollars each, which shall be paid in cash or in other property, at such times, in such manner and in such amounts, as the board of directors shall determine.

Article IV. The highest amount of indebtedness or liability to which said corporation shall at any time be subject, shall be the sum of twenty-five thousand ($25,000) dollars.

Article V. The names and places of residence of the persons forming said corporation are as follows: Walter L. Seaton, Walter H. Vilett, James Richardson and Erle M. Jones, all of Duluth, Minnesota.

Article VI. The names of the first board of directors of said corporation are James Richardson, Walter H. Villett and Erle M. Jones, who shall hold their offices until the first annual meeting of the stockholders, which shall be held in Duluth, Minnesota, on the first Monday in June, 1902, at 10 o'clock a. m., and thereafter the annual meeting shall be held at such time as shall be fixed by the by-laws. The government of said corporation and the management of all of its affairs shall be vested in a board of three directors, who shall be stockholders of said corporation, and who shall be elected annually at the stockholders' annual meeting.

There shall also be the following officers, who shall have such powers and duties, as may be prescribed by the board of directors, and who shall be elected annually at the first meeting of said board immediately following the annual meeting of the stockholders: A president, a secretary and a treasurer.

In witness whereof, we have hereunto set our hands and seals this 3rd day of June, 1902.

WALTER L. SEATON, (Seal).
WALTER H. VILETT, (Seal).
JAMES RICHARDSON, (Seal).
ERLE M. JONES, (Seal).

Signed, sealed and delivered in presence of:
JESSIE J. CARRUTHERS,
WM. E. RICHARDSON.

STATE OF MINNESOTA, COUNTY OF St. Louis.—ss.

On this 8th day of June, A. D. 1902, before me, a notary public within and for said county personally appeared Walter L. Seaton, Walter H. Vilett, James Richardson and Erle M. Jones, to me known to be the persons described in and who executed the foregoing articles of incorporation and each acknowledged that they executed the same as their free act and deed.

WM. E. RICHARDSON,
Notary Public, St. Louis Co., Minn.
(Notarial Seal).

OFFICE OF REGISTER OF DEEDS. State of Minnesota, County of St. Louis.—ss.

I hereby certify that the within instrument was filed in this office for record June 18, 1902, at 9 a. m., and was duly recorded in Book R of Misc., on page 279.

A. LOFGREN,
Register of Deeds.
By THOS. CLARK,
Deputy.

STATE OF MINNESOTA, DEPARTment of State.

I hereby certify that the within instrument was filed for record in this office on the 6th day of June, A. D. 1902, at 9 o'clock a. m., and was duly recorded in Book C 3 of Incorporations, on page 196.

P. E. HANSON,
Secretary of State.

WHITE DOVE CURE never fails to destroy craving for strong drink, the appetite for which cannot exist after using this remedy. Given in any liquid with or without knowledge of patient; tasteless; $1 at S. P. Boyce, druggist, 332 West Superior st., Duluth.

THE EVENING HERALD
AN INDEPENDENT NEWSPAPER.

THE WEATHER.

United States Agricultural Department, Weather Bureau, Duluth. Synopsis of weather conditions for the twenty-four hours ending at 7 a. m. (Central time), June 20.—Showers fell over the Northwest and along the Atlantic and Eastern Gulf coasts. The barometer continues high throughout the Northwest and low in the Southwest. Cooler weather prevails in most northern districts with frost in Montana. The winds in the lake region are easterly and southerly and generally fresh.

Maximum temperatures for the past twenty-four hours:

Abilene	94	Miles City	58
Battleford	52	Milwaukee	74
Bismarck	56	Minnedosa	52
Boston	74	Modena	90
Buffalo	66	Montgomery	92
Charleston	90	Moorhead	54
Chicago	82	New Orleans	92
Cincinnati	82	New York	76
Davenport	72	North Platte	56
Denver	84	Oklahoma	94
Detroit	76	Omaha	66
Dodge City	80	Pittsburg	80
Duluth	68	Port Arthur	60
El Paso	100	Portland	84
Escanaba	70	Prince Albert	54
Galveston	86	Qu' Appelle	52
Green Bay	76	Rapid City	54
Havre	58	San Francisco	66
Helena	48	Santa Fe	82
Houghton	60	Shreveport	100
Huron	64	Spokane	78
Jacksonville	90	St. Louis	80
Kamloops	76	St. Paul	70
Kansas City	70	Sault Ste. Marie	62
Knoxville	86	Swift Current	48
La Crosse	70	Washington	84
Lander	68	Williston	58
Los Angeles	74	Winnemucca	84
Marquette	66	Winnipeg	58
Memphis	86		

Local forecast for twenty-four hours from 7 p. m. (Central time) today: Duluth, West Superior and vicinity: Generally fair tonight and Saturday; probably a frost tonight; slightly warmer Saturday; fresh to brisk westerly winds.

H. W. RICHARDSON,
Local Forecast Official.

Chicago, June 20.—Forecast until 7 p. m. Saturday: Wisconsin—Showers this afternoon; generally fair tonight and Saturday; cooler tonight. Minnesota—Fair tonight and Saturday; light frost in north and cooler in south portions tonight; slightly warmer Saturday. The Dakotas—Fair tonight and Saturday; light frost tonight; warmer Saturday. Upper lakes—Fresh to brisk westerly winds; showers this afternoon or tonight; Saturday fair.

Quay and the Statehood Bill.

While it is the general opinion that the statehood bill is doomed for this session of congress by the action of the committee in deciding to postpone consideration until next December, the friends of the measure are much encouraged over the action of Senator Quay and some of them go so far as to predict that the bill will be passed before congress adjourns. Senator Quay is very anxious to secure action at the present session. He has served notice that he will move for the discharge of the committee in charge of the bill and will urge the passage of the measure directly before the senate. "I can see no reason for delaying action upon the bill at this time," said the senator. "It has been passed by the house, and has been, I am confident, examined by every member of the senate. I do not believe there is any necessity for extended debate on the measure. It is well understood. New Mexico has been asking for admission for half a century, and her claims are well known. Oklahoma and Arizona are also entitled to admission. Oklahoma certainly beyond question. The Republican party is pledged to the admission of the three territories, and, in my judgment, it would be unwise to longer refuse to recognize them. I am convinced that more than sixty members of the senate are ready to vote for the admission of the territories, and that the bill will be passed." The proposed action of Senator Quay in practically taking the consideration of a bill out of the hands of a committee is unusual, but not without precedent. The effect of it will be to produce a test vote at least upon the statehood question. The refusal of the senate to adopt his motion for the discharge of the committee on territories from further consideration of the bill would not affect the status of the measure, but would leave it in the hands of the committee for consideration and report at the next session of congress. The adoption of his motion would place the bill before the senate for immediate consideration. Friends of the measure claim that they have assurances that at least fifty members of the senate will vote to pass the bill at the present session. The vote to put over the bill until December was purely a party division and the people of the United States as a whole will be glad if Senator Quay is able to accomplish the ends he desires.

The Eastern Dredging Combine.

The fact that a trust or combination exists among the leading dredging firms of the East is well known to the officials of the war department and they will make an effort to circumvent their schemes when it comes to awarding the $65,000,000 worth of river and harbor contracts authorized by the bill just signed by the president. The last appropriation bill of this sort was two years ago, and at that time the army engineers were convinced that an arrangement had been entered into among the principal dredging firms on the Atlantic coast to divide the work. About a dozen firms managed to secure all the big contracts on this coast, and their bids were so nicely adjusted that one did not interfere with the other. There was no cut-throat competition among them, and although it appeared on the face of the bids that certain contracts were keenly sought after, the final results showed that each firm had been well cared for and that the various projects had been distributed around very evenly. Some of the small firms that were not taken into the deal howled loudly, but as the government disposed of the work at what were considered very fair figures, these protests were not heeded. It is believed at the war department that this trust is still effective, and for fear that it may now attempt to control prices as well as work, steps are to be taken to keep the contractors in check. The department has a fund for the construction of a fleet of six additional government dredges, all of which will be used for dredging channels, under direction of the army engineers, so that to this extent, at any rate, the government will be independent of the private firms. These dredges will cost from $125,000 to $250,000 each, and, added to those already owned by the government, will make quite an imposing fleet. The private contractors have protested vigorously against the government going into the dredging business, and used every means to defeat the appropriation for the department dredges. While on general principles it is well to allow this work to go to private corporations, in case their charges become exhorbitant the government should be in a position to checkmate their designs.

DEMOCRATIC UNITY.

The gathering of representative Democrats at the opening of the handsome new quarters of the Tilden club in New York, at which ex-President Cleveland and David B. Hill met in harmony for the first time in twelve years, was a significant example of the unifying process that is going on in the Democratic party. Many Democrats who left their party six years ago have returned and are taking an active part in the councils of the party. At the state convention in Illinois last week Democrats were present who had not attended a political convention for several years. The same was true of the Democratic state convention in Indiana. The platforms adopted in both states also wisely omitted reference to the questions which cause the split in the party—questions which have been removed from the list of active issues, temporarily and perhaps permanently.

The prospects of Democratic success in the coming congressional campaign are much improved by this restoration of harmony within the party. There are new issues created during the last few years that have crowded the old questions to the rear, and from the issues that have developed a platform can be constructed upon which every true Democrat can take his stand.

A SAD DAY FOR FLETCHER.

Loren Fletcher's effort in the house to defeat the Morris bill for opening the Chippewa Indian reservation failed completely, and the bill passed the house yesterday in the form in which it was reported by the Indian committee. It was supposed that Mr. Fletcher, by raising the point of "no quorum" and compelling the house to adjourn Wednesday night when the bill was under consideration, had sidetracked the measure. But it subsequently developed that Fletcher had unwittingly paved the way for the early passage of the bill.

Fletcher was anxious to incorporate in the bill, in the interest of the lumber barons at Minneapolis, a provision for the public auction of the timber, failing which he wanted the bill defeated. Things looked promising for his scheme. The amendment to substitute public auctions for sealed bids in disposing of the reservation pine failed to carry, and then Fletcher used his axe to kill the bill, as he supposed, by raising the point of "no quorum." But just at that moment Chairman Sherman of the Indian committee gave "your uncle Loren" a lesson in parliamentary tactics by slipping in a motion to have the "previous question" ordered. This was carried before Mr. Fletcher knew what was going on, and it destroyed any parliamentary advantage he may previously have had. This compelled the house, on taking the bill up again, to proceed immediately to a vote on final passage. When the regular order was reached yesterday the bill was taken up immediately. There was another vote on the "public auction' amendment of Representative Eddy, and it was defeated, 89 to 9. Representative Fletcher then got on his feet again, making a point of "no quorum," but the speaker looked right over his head. Mr. Fletcher was shouting and gesticulating in an effort to secure recognition, but the speaker recognized Mr. Sherman, who moved the third reading of the bill. This was ordered, and the bill went back to the senate, having been amended in some minor points by the house committee.

It was a sad day for Loren Fletcher.

As soon as the senate passes the amended bill, it will be signed by the president and become a law. This will end the long struggle to secure the opening of the Chippewa reservation and the settlement of the rich land contained therein. It means much to Duluth, because it will result in the development of a new and rich territoy that will add largely to the trade of this city.

OLEO BUTTER.

If the people who have been in the habit of eating oleomargarine will be satisfied to eat the uncolored product after July 1, when the anti-oleomargarine law goes into effect, they will save money, and spoil the schemes that the butter and oleo men have for making a handsome sum under the new law. Millions of people have eaten oleo and have not known it. The colored product so closely resembles butter that many do not know the difference. The uncolored oleo tastes just the same as the colored oleo, and resembles white butter, and the tax upon it is only one-fourth of a cent per pound, and the price will undoubtedly be lower than ever before. The price of butter is already beginning to soar in anticipation of the anti-oleomargarine law, which places a tax of 10 cents per pound on the artificially colored oleo.

It is apparent, however, that the pure butter men are not the only ones who are making money out of the new legislation. The tax on oleomargarine does not go into effect until July 1, and all oleo that is manufactured in the meantime and gotten out of the factories goes at the old rate of 2 cents a pound. The manufacturers are making hay while the sun shines, and ever since it was certain that congress was going to pass the hostile law the factories have been working night and day. Tremendous quantities of oleomargarine have been turned out and packed away in cold storage. It is estimated that enough surplus stock to supply the country for six months will have been been on hand by July 1. The treasury department statistics show that the factories are being worked to their utmost, for there has been a great run on Commissioner Yerkes for oleo stamps. For instance, the receipts from the sale of 2-cent internal revenue oleomargarine stamps during the month of April were $101,269 more than they were for the same month of last year. The gain in the receipts for the month of April represented about 50 per cent of the total increase for the ten months of the current fiscal year. The figures for May are not yet ready, but many of the collectors ran out of stamps and had to make additional requisitions.

Now then comes the question, at what rate will the oleomargarine men put their surplus stock on the market? Will they sell so as to realize the usual profit, or will they boost it 10 cents a pound, in accordance with the increased tax? The department officials are inclined to think that the dealers will adopt the former course, for by doing so they can control the butter trade for the next six months or so. Some people think that oleo will go up 10 cents a pound after July 1, in which event the manufacturers who are now so busy will get an additional profit of 8 cents a pound on their product. The net profits from the sale of this stock would be very large, an would feather the nests of the oleo men while they make their fight to prevent the complete extermination of imitation butter. To block any scheme of the colored oleo makers, users should bear in mind that the uncolored is just as good, and thereby save their money.

THE PANAMA ROUTE.

The senate, by a large majority, has decided the fight over the Isthmian canal question by adopting the Spooner bill which authorizes the president to acquire the rights and property of the Panama Canal company if it shall be found that a good title can be furnished. If not, the president is authorized to acquire the Nicaragua route.

While the senate has thus gone on record in favor of the Panama route, it does not follow that the United States will finish the construction of that canal. The house must also pass on the question, and that body has already passed a bill for a canal at Nicaragua. Until the two branches of congress agree on a route and the other details, nothing can be done. Of course both houses will appoint a conference committee, but it is hardly likely that it will make a report at the present session of congress. This means that the next session will see a hard fight in the house over the question of the route. Then, if the house agrees to the Spooner bill, it will be necessary to negotiate a treaty with Colombia, and its ratification by a two-thirds vote of the senate secured. Thus it will be seen that the Isthmian canal question will not be settled for some time to come.

A Los Angeles man, who is suing a railroad company for damages claims that on account of said company's negligence, his right arm was broken in three places, his right hand smashed and the fingers amputated; all ribs on right side broken, two ribs on left side broken; left arm broken, collar bone broken, ear torn off, nearly all teeth knocked out, besides other permanent injuries. At the rate of damages usually claimed for one broken bone or a bad bruise, he should have demanded the whole railroad as damages.

Figaro, the great Paris newspaper, engaged M. Lemaitre, one of the foremost literary and political figures of that capital, and one of the forty immortals, to interview J. P. Morgan, and had a leading banker, a friend of the American magnate, to introduce him, but all the French celebrity could get out of Morgan was, "I've nothing to say; good morning." Morgan is a tough proposition for the interviewers.

The Herald has received an invitation to the celebration of the semi-centennial of the city of Mankato, one of Minnesota's most enterprising and prosperous communities. The fiftieth anniversary of the settlement of Mankato will be celebrated from June 30 to July 5, and one of the special features will be old settlers' historical day on Thursday, July 3.

Frequently husbands have provided in their wills against the marriage of their widows, in order that some other fellow might not squander their property. A St. Louis man has varied this program by providing that the widow shall not marry any man with less than $2000. This is a wise provision.

A Bridgeport, Conn., item says: "Percy L. Baker, who eloped with Miss Margaret Stone on Monday, followed the example set for him by his three elder brothers—Arthur, Thomas and Chilton." Does this mean that all four brothers have eloped with Miss Stone?

A police judge in Kansas City is in doubt whether playing "freeze-out" is a gambling game or not. By a protracted and determined effort it might possibly be made so in fact, but that might not make it so in law.

There were seventeen deaths from cholera in Manila on June 16. Cholera is one of the things we have acquired with our conquest, and we shall do well if we can keep it from coming this way.

The president believes Cuban reciprocity to be right and just, and President McKinley earnestly advocated reciprocity. But the Minnesota delegation will have none of it.

Before the World's fair at St. Louis opens its doors, it should be officially proclaimed whether the name of the city is "St. Louis" or "St. Louie."

The closing of the St. Louis World's fair on Sunday will be a great thing for the baseball magnates. What crowds the games will draw on Sunday!

The refusal of the Republican leaders in congress to grant statehood to the territories is another proof that platform promises are like piecrust.

A Missouri editor ridicules a Boston contemporary for using the word "gotten." In Missouri they say "done got."

Perhaps the bigger the coal miners' strike becomes, the quicker it will be ended.

Vegetarians claim that the beef trust is a blessing in disguise. It is certainly a perfect disguise.

The Kansas farmers are said to be cutting their wheat by moonlight.

Even Mark Twain himself does not take his degree of LL.D. as a joke.

THE FOURTH IS BUT A SHORT TIME AWAY! ARE YOU READY?

Is your outfit complete? A few working days—then July Fourth—the Great Holiday of the year. For the selection of your new Suit for this great day we place on sale 2000 Men's Finest Suits at nearly HALF PRICE. We've divided the entire lot into three lots:

LOT 1—Consists of your choice of 500 all-wool Suits in blue and black Cheviots and fancy Cassimeres, worth $8, $10 and $12, at

$5.85

LOT 2—Consists of 500 Men's strictly all-wool Suits in fancy Cassimeres, in brown and gray checks and plaids; beautiful Cheviots in plain black and blue—handsome Cheviots in fancy checks and plaids; fancy Worsteds in stripes and checks, fine black Clay Worsted, rich Oxford Serges, fast color blue Serges; all made up in first-class linings and trimmings and all sewed with silk. Not a Suit in the entire 500 that ever sold for less than $14, $15 and $16—at

$9.85

LOT 3—Consists of 1000 finest tailor-made Suits in the best blue and black Serges, Hockanum fine mixtures, English Clay Worsteds, costly Globe Worsteds, new weaves in unfinished Oxfords, genuine Scotch Cheviots, black and blue Cheviots—one thousand Suits in single and double-breasted Sack Suits and Cutaway Frock Suits; Suits that are better trimmed, better lined, better sewed, and more style and fit to them than those made to order at $30 to $50, and retailed elsewhere at $18, $20 and $22—at

$14.85

The BIG DULUTH

125-127 W. SUPER'R STREET.

WILLIAMSON & MENDENHALL.

A Ruined Life

By William Carrington.

(Copyright in the United States, by W. R. Hearst).

Mignonette grew in the little garden where Rose Edwards sat at work. She had plucked some of it and fastened it to her smooth black hair. Its very fragrance seemed a part of her. At least so Will Harrington thought as he stood looking at her.

"Mignonette," he said, stooping toward her, "mignonette."

He would not have spoken so to one who would have quite understood him, but she, who had gathered all she knew at the hubble school of the small Vermont town, had never heard that mignonette means "little darling." It was no new thing for him to speak softly when he addressed her, and she looked up neither surprised nor startled. She said, "Yes, Mr. Harrington, I love mignonette."

Just then he was inclined to forget everything but that she was pretty. He was more or less a man of the world, prided himself on his family and spent a generous income in a generous way. To his great surprise he found amusement and interest this summer in a home that was very dear to his mother in years gone by. It was true he had fallen in love with a country girl, humble even among simple people in her position, for she was poor and the grandchild of two old people who could leave her nothing.

Will Harrington drew Rose toward him and looked down into her eyes and said: "Rose, be my mignonette?"

What he meant dawned upon her. She blushed and trembled. Then he spoke more plainly: "I love you, Rose; will you be my wife?" She answered "Yes."

Afterward they sat just so, his arm about her waist, her work dropped in her lap under her small brown hands. Then a voice broke the charm, a harsh old voice with a nasal twang. "Rose" it said, "yew come in tew tea and p'raps Mr. Harrin'tun, yew better come tew."

But the gentleman addressed declined and took his way homeward. Walking over the country road to the fine home on the hill he thought of many things. His thoughts were not altogether satisfying.

"I shall take Rose away," he muttered. "These people will be nothing to us. We will travel a year or two and she will acquire the necessary manners."

When they parted he put a ring upon her finger and promised to come for her in the autumn. They were to correspond of course—and that was a pleasant thing to Rose. And he left her with moist eyes and a little bunch of mignonette.

The summer holidays had ended and the fashionable world had come to the city again to keep its winter holiday, and Harrington found everything as of yore, and as many gay beauties ready to unite upon him. There was an old flirtation, too, which could not well be ended while the lady was so willing it should turn into something more, between Miss Hastings, the heiress, and himself. At first he did not mention Rose to his friends, because there was time enough. At last, because it was an awkward business being put off so long. And Rose wrote too many letters and put them into coarse yellow envelopes. Her grammar was none too careful and she spoke far too much of her grandparents, who jarred upon Harrington's sensibilities.

Amidst balls, parties and dinners Miss Hastings began to reassert her old supremacy. Reproaches for neglected answers came from Rose and vexed her lover. Still he smoothed this over and would have gone to the Vermont town to keep his troth in the autumn had not Rose written him in the fulness of her reconciliation a loving letter in which she spoke of the trials of her grandparents and of her joy in looking forward to the time when she would have a home to which to welcome them. That letter was never answered. He burned it with a savage oath, and that night proposed to Miss Hastings.

In a month they were married, and there was a wedding and a reception in a fashionable graystone house overlooking the Hudson. Then came the honeymoon, spent in Florida, for the chill was already in the air. Before the honeymoon was over Harrington had discovered that he never loved his wife. He was always thinking of a little black-haired girl in the mountains of Vermont.

His wife, who had been a belle in society, discovered the truth in a brief space of time. She intended to be a true wife, but she now took revenge in kind—to make her husband jealous was the task of her life. She flirted as she never done in her girlish days. And as there is no danger of going too far with one who can not be angling for a husband, a married woman can flirt when she pleases. The husband watched her with mad, jealous eyes, and the unhappy match ended in a quarrel, then a separation.

He went abroad and his wife led a gay life apart from him and was the subject of much talk. One day news came to him that she had died. He returned to his New York home, was seen at his clubs occasionally and took more interest in the world's doings. Rose and her mignonette were slowly re-entering his mind.

It had been his fault that she had been wretched and had made him so, but he never thought of that. He only felt that he was free. Rose had not married and he would win her again. The world was nothing to him. Rose should do as she chose. There should be nothing which he would not give her leave to do. And so he left the city behind him for the sweet purity of the country and one of nature's children.

He knew she would be proud at first—either cold or angry—but he would woo so humbly that she should forgive him in the end. As one condemned to death might pray for pity and mercy he would beseech Rose for pity and pardon. And then, yes, she would let him draw her to his heart, and touch her brow with his lips, and call her Mignonette, his little darling.

He had come to this thought when the door opened and he stood ready to greet Rose.

But it was not Rose, only her old grandmother, common of feature as ever but with a strange grief-stricken face. She did not see him, but went straight to the beds of mignonette and began to pluck handfuls with her horny hands. Then he spoke to her and she looked up.

"I'm pickin' 'em for Rose," she said, then gave a start. "I didn't know yer at first, Mr. Harrin'tun. I don't was the minister. You're aged and you're kind o' gray. Yes, these are for Rose. I used to be hard on her for likin 'em, so I'm afraid. But I wanted her to be steady. Ef I'd knowed"—

Then came a sob. Harrington caught the old woman's arm.

"What is it? What has happened?"

"I reckon you know Rose was dead. You see she kind o' faded when your letters stopped comin'. She wouldn't tell me. I supposed you quarrelled. She got tired of things and sat a great deal by herself. Plenty wanted her. She was pretty, but she didn't seem to care. Six months ago she was took down. There was no hope then, and yesterday she died. Says she, 'Grannie, it's most over; when I'm gone put his letters in the grave with me, and put mignonette in my hair. And tell him,' says she, 'for I think he'll come, that I always loved him.' Perhaps you'd like to see her?"

Harrington followed her and saw Rose dead, with his letters upon her bosom. Little of him was ever seen in his native country after that. Until the old people died no saw that they wanted nothing. Faithful at last to the one love of his life he made pilgrimages to her grave. Near it, also, his own has grown green for many years, and over both creep soft beds of mignonette in the summer time, luring the golden bees from the gardens with its fragrance.

EXODUS

Of Foreign Diplomats From Washington Begins Soon.

Washington, June 20.—The usual summer exodus of the diplomatic body is about to begin in earnest. Ambassador Cambon will depart for France Sunday next, Ambassador Aspiroz will go to Mexico some day next week, and Minister Brun will start for Denmark and Minister Ploda for Switzerland about the same time.

Minister Wu has received new papers containing copies of the edict which announced his appointment as one of the ministers to adapt a code of foreign laws to the Chinese practice, but he has not yet received the edict itself. The minister is not sure if the assignment would involve his return to China, as much of the work might be done here.

FIREMEN

Of Wisconsin Have Some Close Contests at Reedsburg.

St. Paul, June 20.—A Reedsburg, Wis., special to the Dispatch says: In the hose contest the first prize of $100 and the state association championship prize was won by Delavan in 35 3-5 seconds; second, Lake Mills, 36 seconds; Fort Atkinson and Monroe, owing to an accident, both failed to make couplings and were given a chance to compete for third place by a hub and hub race. Fort Atkinson won in 35 2-5 seconds, making the best time record of the day. Monroe was fourth.

The hook and ladder contest, first prize of $100 and the state association championship prize, was won by Lake Geneva in 20 4-5 seconds; second, Jefferson, 31 seconds; third, Horicon, 31 4-5 seconds; fourth, Oconomowoc, 32 seconds. The time was very close, only one and one-fifth seconds separating first and fourth.

The parade prizes to a company of not less than sixteen making the best appearance was won by Lake Mills, Fort Atkinson second, South Milwaukee third, Delavan fourth. The distance prizes have not been announced.

This is the fifteenth annual meeting of the firemen and is the largest gathering in the history of the association. Oevr 1000 firemen with fine bands make an excellent appearance. Many of the best homes have been thrown open to accommodate the vast gathering.

AMUSEMENTS.

LYCEUM THEATER.
C. A. MARSHALL, Lessee and Manager.
Tonight and Rest of Week.
THE FLINTS in their furiously funny program of Suggestion.
Introduction of the "Little Hypnotic Sunbeam," MRS. HERBERT L. FLINT.
Prices—25c, 35c and 50c.

LYCEUM THEATER,

MONDAY, JUNE 23.
One Appearance Only.
MR. RICHARD MANSFIELD
With his entire company and his complete original production, in
BEAUCAIRE.
Prices—$3; Parquette, $2.50 and $2; Family Circle, $1.50; Balcony, $1; Gallery, 50c. Seats on sale Wednesday.

LYCEUM THEATER
C. A. MARSHALL, Lessee and Manager.
Special Announcement!
On June 30 evening, the distinguished artiste, Kathryn Kidder, will appear in a grand revival of David Garrick's immortal comedy, "The Country Girl." This will be the most notable event of the present theatrical season. The sale of seats will commence on June 28. Prices 25 cents to $1.50.
Free list positively suspended for this engagement.

CLEVELAND AND HILL

Address Gathering of Leading Democrats at Tilden Club.

Reorganization Strongly Urged By the Speakers.

Event Is One of Most Notable In Democratic History.

New York, June 20.—Democratic unity was the keynote last night of a great gathering of representative Democrats who had come to attend the opening of the handsome new quarters of the Tilden club. Addresses were made by prominent Democrats and afterwards a collation was served in the banquet hall to the distinguished guests of the evening, and a buffet supper was served in the basement for the rank and file.

To Democrats the event was one of the most memorable for many a day, as Grover Cleveland and David B. Hill met in harmony, seeking to draw the factions of their party together. It was the first public political appearance of the ex-president in five years. He spoke first, ex-Senator Hill speaking after him, and then Gov. A. J. Montague, of Virginia, and Col. W. A. Gaston, of Boston, delivered addresses. William J. Bryan had been invited to attend, though not to speak, but no reply was received from him.

Mr. Cleveland arrived at the club house accompanied by H. D. Hotchkiss, Dr. Joseph E. Bryant and John C. Calhoun. He had scarcely got into the building when ex-Senator David B. Hill, accompanied by L. Laflin Kellogg, came in. Mr. Hill's eye caught Mr. Cleveland as soon as he had entered the spacious club foyer and a moment later they were cordially shaking each other's hand.

Loud and continued applause greeted the two men as they entered the assembly room. President Dowling, of the club, soon began to speak and in introducing ex-President Cleveland, said:

"We have founded this club to promote the best interests of the Democratic party. For that reason we have invited Democrats from all parts of the country to listen to the words of those prominent in their party. We have named this club after that great statesman, Samuel J. Tilden, and this club stands for the political and governmental honesty for which the name of Tilden stands.

"We have with us here tonight the greatest of living Democrats. The first speaker I have the honor of introducing to you is the successful candidate of two national campaigns, ex-President Grover Cleveland."

EX-PRESIDENT CLEVELAND.

There was tremendous applause as Mr. Cleveland ascended the small platform. This applause wound up with three cheers and a "tiger." When quiet was restored the former president began speaking. He said:

I have been urged to participate in this occasion by those who have assured me that this handsome structure is to be dedicated tonight to the rehabilitation and consolidation of the Democratic party, under the inspiration of a name which during the days of Democratic strength and achievement, was honored in every Democratic household. Such an assurance made to one who followed with hearty devotion the leadership of Samuel J. Tilden when living, and who has since found in his career and fame the highest incentive to Democratic steadfastness, could hardly fail to overcome the temptations of my contended retirement from political activity. Perhaps there are those who could define my position as one of banishment instead of retirement. Against this I shall not enter a protest. It is sufficient for me in either case that I have followed in matters of difference within our party the teachings and counsel of the great Democrat in whose name party peace and harmony are tonight invoked. No confession of party sin should therefore be expected of me. I have none to make; nor do I crave political absolution. I am here to take counsel with others professing the same party faith concerning the Democratic situation. I suppose we all are convinced that this situation might be improved; and some of us may think it is perilously undermined. Whatever the measure of its impairment may be, our condition as an organization cannot be improved by calling each other harsh names, nor by inaugurating a system of arbitrary proscription and banishment. The members of a business firm in financial embarrassment should not sit down and look in each others faces in mute despair; neither will they gain financial soundness or the confidence of the business community by recrimination and quarrel; nor will any members of the firm aid in its restoration to solvent strength by a nangry insistence upon a continuation of the business methods which have invited its embarrassment.

The Democratic party is very far from political insolvency; but no one here should be offended by the suggestion that its capital and prospects have suffered serious injury since Mr. Tilden was elected president. Then and afterwards Northern Democratic states were not rare curiosities; Northern Democratic senators, now practically extinct, were quite numerous, and Northern Democratic governors, now almost never seen, were frequently encountered.

If this state of impairment exists, an instant duty presses upon the managers of the Democratic establishment, and one which they cannot evade with honor. Those of us less prominent in the party—the rank and file—are longing to be led through old Democratic ways to old Democratic victories. We were never more ready to do enthusiastic battle than now. If we can only be marshaled outside the shadow of predestined defeat. Is it too much to ask our leaders to avoid paths that are known to lead to disaster? Is it too much to ask that proven errors be abandoned and that we be delivered from a body of death, and relieved from the burden of issues which have been killed by the decrees of the American people? Ought we not to be fed upon something better than the husks of defeat? If these questions are met in an honest, manly fashion, I believe it will be productive of the best kind of Democratic harmony.

In dealing with new issues we of the Democratic faith are extremely fortunate in the simplicity of Democratic standards and the ease with which new questions can be measured by those standards. A party based upon care for the interests of all the people as their aggregate condition demands, with no unjust favoritism for any particular class; a party devoted to the plan of popular government as our fathers ordained it and for the purposes which they sought to establish; a party whose conservatism opposes dangerous and un-American experiments, and yet puts no barrier in the way of genuine and safe progress, ought to be able to deal with new questions in a manner quite consistent with Democratic doctrine, and stimulating to Democratic impulses and instincts.

Let us not forget, however, that it is not in the search of new and gaudy issues, nor in the interpretation of strange visions that a strong and healthy Democracy displays its splendid power. Another party may thrive on the ever shifting treatment of the ever shifting moods of popular restlessness, or by an insincere play upon unreasoning prejudice and selfish anticipation, but the Democratic party never. Democracy has already in store the doctrines for which it fights its successful battles; and it will have them in store as long as the people are kept from their own, and just as long as their rights and interests are sacrificed, by favoritism in government care, by inequality in government burdnes, by the encouragement of huge industrial aggregations that throttle individual enterprise by the reckless waste of public money, and by the greatest of all injuries, as it underlies nearly all others, a system of tariff taxation whose robbing exactions are far beyond the needs of economical and legitimate government expenditure, which purchases support by appeals to sordidness and greed, and which continually corrupts the public conscience.

What but infatuation with the visage of defeat can explain the subordination of these things by Democrats when they prepare for battle?

If we are to have a rehabilitation and re-alignment of our party in the sense suggested, it is important that it be done openly and with no mystery or double meaning. Our people are too much on the alert to accept political deliverances they do not understand; and the enthusiasm of the Democratic rank and file does not thrive on mystery.

The Democratic harmony of which we hear so much, cannot be effectively constructed by mathematical rule nor by a formal agreement on the part of those who have been divided, that there shall be harmony. It grows up naturally when true Democratic principles are plainly announced, when Democratic purposes are honestly declared, and, when as a result of these, confidence and enthusiasm stir the Democratic blood. It was such harmony as this, growing out of such conditions which with the battle cry of "Tilden and Reform" gave us the Democratic victory of 1876 against odds great enough to discourage any but a harmonious Democracy, and against an opposing force brazen and desperate enough to take from us by downright robbery what the voters of the land gave to us.

I believe the times point to another Democratic opportunity as near at hand; but I believe we shall reap the fruits of it only by following the line of conduct I have indicated. In any event I have a comforting and abiding faith in the indestructability of the party which has so many times shown its right to live and its power for good, and I am sure the reserve of patriotic Democratic wisdom will at some time declare itself in the rescue of our country and our party.

My days of political activity are past, and I shall not hereafter assume to participate in party councils. I am absolutely content with retirement; but I still have one burning, anxious political aspiration. I want to see before I die the restoration to perfect health and supremacy of that Democracy whose mission it is to bless the people—a Democracy true to itself—untempted by clamor—unmoved by the gusts of popular passions and uncorrupted by offers of strange alliance—the Democracy of patriotism—the Democracy of patriotism— the Democracy of safety—the Democracy of Tilden, and the Democracy that deserves and wins success.

At the point in his speech where Mr. Cleveland announced his absolute retirement from politics the crowd yelled "No, no, no."

DAVID B. HILL SPEAKS.

Senator David B. Hill, who spoke next, was received almost as enthusiastically as Mr. Cleveland. Mr. Dowling in introducing him said:

"Mr. Hill is today the recognized leader of his party in New York state and under his guidance and leadership we are confident of victory."

Mr. Hill (among other things) said: The signs of the time point unmistakably to an awakened interest in the promotion of the success of Democratic principles of government. These manifestations, however, are not confined within strict party lines, but renewed activity in political affairs is displayed as well among those of independent proclivities and among the people generally who are not satisfied with existing political conditions and desire a change of the public policies now prevailing.

There is especially a deep conviction among thoughtful people that there is something radically wrong in the foreign policy of the present administration.

Mr. Hill here referred to the recent speech of Mr. Hoar in the senate upon the Philippine question and said that it had made a profound and lasting impression upon the heart and conscience of the country.

This great and patriotic speech, continued the speaker, was not met or answered by the partisan address of President Roosevelt, delivered on Decoration day in violation of the propriety of the occasion wherein he purposely or inadvertently confused the well recognized distinctions which exist between the administration and the government—between the army and the government and between all the other officials of the government and the government itself; and assumed to question the loyalty of those who have ventured to criticise the cruelties of a few officers of the army, who, if semi-official reports are correct, have undoubtedly disgraced the uniform which they wear. This confusion of the state itself with the ruler thereof is not new in history.

It was Louis XIV who once made the same mistake when he assumed to be France and uttered the famous declaration "I am the state"—a remark which might have lost him his head in later times of his despotism and President Roosevelt in another sense, seems to have already lost his head when he forgets that this country differs from both ancient and modern France in that here it is not a crime to criticize the army or the president or any other servant or servants of the people; and he needs to be reminded that this is a government of law—a government under a written constitution wherein the right of every citizen to freely express his sentiments upon administrative questions is expressly guaranteed—and that loyalty to the government does not consist in loyalty to individuals or to the policies of those who happen to hold official positions.

Loyalty to this government consists in attachment to our free institutions—in the fait..., observance of constitutional provisions—in respect for its flag as the emblem of civil liberty—in support of the authorities of the United States against the attacks of our foreign or domestic foes, but it does not consist in ostentatious professions of "intense Americanism." Nor in indifference to the preservation or spread of Republican forms of government everywhere, nor in suppression of free speech, nor in conquering the free people of other and distant lands, who desire to govern themselves; nor in unlawfully sending accredited representatives of this government abroad, without the consent of the senate, to witness the coronation of a king whose monarchial government, to its shame be it said, has just succeeded in crushing the two struggling republics of South Africa. And right here I may be permitted to suggest that the administration of President Roosevelt will be particularly noted in history as the one during the existence of which the republics of those brave and gallant people were destroyed—destroyed without one word of protest or one effort to save them or one kind word of sympathy for them in their unequal struggle, expressed on the part of this—the greatest republic of the world, whose influence should always be exerted on the side of free institutions.

In contrast with that supine attitude of the Roosevelt administration we should not forget the vigorous and patriotic action of that Democratic president—who honors this club with his presence here tonight—who when that same mighty empire of Great Britain in 1895 attempted to crush the republic of Venezuela, promptly sent that famous message to congress, which electrified the country, wherein he insisted that Great Brtain must not be permitted, under the pretense of a boundary dispute, to seize Venezuela without first submitting the alleged difference to international arbitration, or see this government would interpose its strong arm for the protection of that republic. And Great Britain finally concluded to arbitrate the dispute and Venezuela was saved from destruction.

The ex-senator then took up the subject of Cuba dealing first with the administration of Gen. Wood, whom he bitterly arraigned. The use of money for "partisan and lobbying purposes in aid of administrative measures pending before congress," he declared, "served to emphasize the irresponsible and dangerous character of arbitrary rule anywhere, whether temporary or permanent."

"The subject," he went on, "demands the investigation of congress and the prompt punishment of the offending official. If he can be reached through criminal or military law.

"The history of our country does not furnish a more flagrant breach of official duty, as well as official propriety, than that presented by the misconduct of Wood. Yet he has neither been arrested nor rebuked, nor censured, nor called to account by the administration; but attention to the scandal was sought to be diverted by the sudden interposition of a special message to congress imperiously demanding the passage of a miserable compromise '20 per cent measure' of 'justice to Cuba.'"

Discussing the Cuban tariff question, Mr. Hill said the present controversy in congress over that subject served to illustrate "the hypocrisy as well as the unsoundness of the whole Republican position in the subject of tariffs."

Proceeding on this topic he said: "The whole system of governmental favoritism whereby the constitutional power to tax with the purpose of providing revenue for the needs of the federal treasury, is improperly used to build up one man's business at the expense of another's, by discriminating in favor of one industry as against another—is a vicious system which has long afflicted the country and which has grown more and more intolerable with years and against which the Democracy have ever protested.

It is utterly indefensible upon any just and proper principle of government. There is no justification for the exercise of the power of legislation to make millionaires of one class of people and paupers of another.

"The country is just now aroused to the injustice and enormity of the Dingley tariff which it should not be forgotten was passed by a Republican congress and approved by a Republican president, especially in its application to the sister republic of Cuba, and public sentiment is apparently demanding that the whole wrong should be righted; but instead of that being proposed to be done, the subject is being juggled within the United States senate and a tub is proposed to be thrown to the whale in the shape of an unsatisfactory compromise with injustice, whereby four-fifths of the official robbery shall be permitted to remain—not in the interest of the country, but solely in the interest of the preservation of 'Republican harmony.'

"It is not believed that it is the province of the Democrats in congress to assist in the consummation of any such inadequate and questionable scheme.

"Let the injustices be wholly or substantially righted, not by piecemeal legislation, but by a complete and comprehensive measure based upon sound Democratic principles and along right lines.

"A reciprocity measure is a misnomer which does not contemplate at least 50 per cent reduction of the existing tariff burdens. When the people of Cuba are asking for bread we should not offer them a stone.

"If the policy of protection is to continue in whole or in part to be tolerated by the country, it may be well to consider whether it were not better than its evils, should not be attempted to be mitigated by piecemeal or popgun legislation, but that our efforts should be reserved until the country has become so surfeited with its monstrous injustice that it is prepared to destroy the whole citadel of protection and the return to a constitutional and just system of taxation for purposes of revenue only.

"Neither are we insensible to the appeals of Cuba for relief from the tariff exactions imposed by the Republican party. We were the friends of Cuba when she was suffering from Spanish oppression and when a Republican administration was reluctant to interfere in its behalf.

"We are the true friends of Cuba today and we are prepared to mete out to her not merely a paltry '20 per cent,' but the full measure of justice to which she is entitled and which the present national administration refuses to concede to her."

Mr. Hill asserted that the logic of events had demonstrated the soundness of many Democratic contentions of recent years. He recalled that portion of the Kansas City platform which condemned the Dingley law as a trust-brewing measure and said that this measure had not only succeeded in creating more trusts than ever before in the history of the country, but it has also succeeded in stifling competition to a greater extent than was ever known. He declared further that it had succeeded in unnecessarily raising the cost of living and had caused more strikes on the part of working men than at any period of our history.

"That there has existed for some time a popular sentiment demanding relief in some form from trust exactions is quite apparent. Acting upon the assumption that the trusts should be prosecuted by their friends and not their enemies, the national administration was at last constrained to institute some civil suits to test the efficiency of the Sherman act. What has been the result? A few temporary injunctions have been obtained with the tacit consent of the trusts themselves, or at least with little or no opposition, which in general terms restrain the trusts from violating the Sherman act, (which they expressly deny they have violated or are now violating), and little or nothing else has been accomplished, and the courts will soon adjourn for the summer—the business is continued and prices remain the same. It is a sufficient commentary upon the whole proceedings to say that no criminal prosecution has been instituted; no arrest has been made and no indictment found anywhere.

"What the people want is immediate relief from the present high prices exacted from them. That relief can be obtained by the application of a speedy and effectual remedy in the repeal of all tariff duties upon productions controlled by the trusts.

"It has unreasonably increased public taxation for the benefit of private interests," he continued. "And finally, it has promoted dangerous speculation to an extent which the boldest business gambler never dreamed, whereby millions upon millions of worthless stocks have been unloaded upon a deceived public upon the promise and expectation of dividends which cannot be earned and can never be realized, creating an alleged prosperity which must necessarily be false and fictitious; and when the bubble bursts—as ere long it surely must—it will inevitably bring destruction to the business community, and the public will have learned to their sorrow that lesson of political economy which teaches that a people can never become rich by simply taxing themselves."

Upon the subject of "Democratic unity" he said: "There is substantial accord among the Democrats of the country upon all the timely issues which are now engrossing public attention.

"We are all united in favor of the preservation of constitutional liberty wherever our flag floats. We are opposed as the permanent policy of this government to the maintenance of dependent colonies to be governed outside of the pale of the constitution.

"We are all agreed that the civil should always be superior to the military power.

"We all concur in the principle that public taxation should be imposed for public purposes only.

"We all favor freedom of commerce and therefore favor genuine reciprocity with foeign nations, but are all opposed to sham Republican reciprocity which is only another name for Republican hyperisy.

"There is no division in sentiment in our opposition to corporate combines of capital, which create monopolies, stifle competition, and unreasonably enhance prices for the necessaries of life.

"We all stand for free trade in all articles controlled by trusts.

"We all desire justice for Cuba and justice to the consumers of the United States also.

"We all stand where Jackson, Benton and Tilden stood, in favor of hard money, as opposed to on irredeemable paper currency.

"We all recognize the dignity of labor and its right to demand just and adequate compensation.

"We are all opposed to an immense standing army in the times of peace.

"We are all in favor of the constitutional reform involved in the election of United States senators by the people of the several states, rather than by state legislatures.

"We all adhere to that doctrine declared by Jefferson as follows: 'Peace, commerce and honest friendship with all nations; entangling alliances with none.'

"With this substantial unity which exists upon these and other fundamental principles of Democratic faith to which I need not refer, we may safely appeal to the people; and in view of that satisfactory situation it would be folly to longer divide upon abstract or unreasonable questions.

"Let us not seek to cross any uncertain bridges until we reach them."

Mr. Hill concluded with a welcome to Democrats from other states saying:

"The Democracy of this state welcome the distinguished citizen of New Jersey—the only living ex-president of the United States, who testifies by his presence here tonight and by his remarks to which we have so intently listened, his interest in the success of Democratic principles. The administration was at last constrained to institute some civil suits to test the efficiency of the Sherman act. What has been the result? A few temporary injunctions have been obtained with the tacit consent of the trusts themselves, or at least with little or no opposition, which in general terms restrain the trusts from violating the Sherman act, (which they expressly deny they have violated or are now violating), and little or nothing else has been accomplished, and the courts will soon adjourn for the summer—the business is continued and prices remain the same. It is a sufficient commentary upon the whole proceedings to say that no criminal prosecution has been instituted; no arrest has been made and no indictment found anywhere.

"What the people want is immediate relief from the present high prices exacted from them. That relief can be obtained by the application of a speedy and effectual remedy in the repeal of all tariff duties upon productions controlled by the trusts.

"It has unreasonably increased public taxation for the benefit of private interests," he continued. "And finally, it has promoted dangerous speculation to an extent which the boldest business gambler never dreamed, whereby millions upon millions of worthless stocks have been unloaded upon a deceived public upon the promise and expectation of dividends which cannot be earned and can never be realized, creating an alleged prosperity which must necessarily be false and fictitious; and when the bubble bursts—as ere long it surely must—it will inevitably bring destruction to the business community, and the public will have learned to their sorrow that lesson of political economy which teaches that a people can never become rich by simply taxing themselves."

Upon the subject of "Democratic unity" he said: "There is substantial accord among the Democrats of the country upon all the timely issues which are now engrossing public attention.

"We are all united in favor of the preservation of constitutional liberty wherever our flag floats. We are opposed as the permanent policy of this government to the maintenance of dependent colonies to be governed outside of the pale of the constitution.

"We are all agreed that the civil should always be superior to the military power.

"We all concur in the principle that public taxation should be imposed for public purposes only.

"We all favor freedom of commerce and therefore favor genuine reciprocity with foeign nations, but are all opposed to sham Republican reciprocity which is only another name for Republican hyperisy.

"There is no division in sentiment in our opposition to corporate combines of capital, which create monopolies, stifle competition, and unreasonably enhance prices for the necessaries of life.

"We all stand for free trade in all articles controlled by trusts.

"We all desire justice for Cuba and justice to the consumers of the United States also.

"We all stand where Jackson, Benton and Tilden stood, in favor of hard money, as opposed to on irredeemable paper currency.

"We all recognize the dignity of labor and its right to demand just and adequate compensation.

"We are all opposed to an immense standing army in the times of peace.

"We are all in favor of the constitutional reform involved in the election of United States senators by the people of the several states, rather than by state legislatures.

"We all adhere to that doctrine declared by Jefferson as follows: 'Peace, commerce and honest friendship with all nations; entangling alliances with none.'

"With this substantial unity which exists upon these and other fundamental principles of Democratic faith to which I need not refer, we may safely appeal to the people; and in view of that satisfactory situation it would be folly to longer divide upon abstract or unreasonable questions.

"Let us not seek to cross any uncertain bridges until we reach them."

Mr. Hill concluded with a welcome to Democrats from other states saying:

"The Democracy of this state welcome the distinguished citizen of New Jersey—the only living ex-president of the United States, who testifies by his presence here tonight and by his remarks to which we have so intently listened, his interest in the success of Democratic principles.

"We should have been glad to welcome that other distinguished Democrat, who hails from the great West—our honored standard-bearer in the last two presidential elections—that able and eloquent Democratic orator, Mr. Bryan, of Nebraska—had he been able to be present on this occasion.

"The interests of the Democracy of New York, are those of the Democracy of every other section of the country.

"We have no criticism to make of any Democrat in the land. We are neither assuming to make or to unmake national platforms at this time. We are excluding no man or set of men from the party councils. We have no test oaths to administer to those who wish to join us. We need recruits for our cause and our Democratic doors are thrown wide open.

"The Democracy of New York, with no selfish interests to serve, and no ambitions to gratify, are simply endeavoring to strengthen our lines for the contest of the future, and in this necessary and patriotic work by which we expect to promote the success of good government in our state and nation, we invite the cooperation of every man who believes in the principles of Jeffersonian Democracy."

Spring fever is another name for torpid liver and inactive bowels. DeWitt's Little Early Risers remove all danger by stimulating the laiecr, opening the bowels and cleansing the system of impuritis. Safe pills. Max Wirth.

MONEY OR DAUGHTER.

Threatening Letters Caused Brooklyn Man Anxiety.

New York, June 20.—Five thousand dollars, or the life of his daughter Agnes, 21 years old, is the price demanded of Charles Hart, a prominent contractor and builder of Brooklyn, by a blackmailer for whom the police have been looking for a week. Two letters, one warning Miss Hart not to leave Brooklyn and the other threatening to shoot her, have been received from the blackmailer, and Miss Hart was on one occasion followed by a man believed to be the sender of the letters. So seriously does Mr. Hart take these threats that he has had his daughter guarded every time she has left her home since last Thursday morning. Detectives have followed her wherever she has gone, and one has been stationed outside of the Hart home at 118 Prospect Park west since the first letter was received.

VAN WYCK A LIFE RESCUER

Gallant Rescue By New York's Former Mayor.

New York, June 20.—Ex-Mayor Van Wyck saved a young woman from being killed in a runaway by a sensational rescue. A team of horses, which had become frightened by a trolley car ran down Broadway at full speed, when the former mayor ran out into the street and grasped the horses' heads. He was dragged for a considerable distance through the crowded street, but succeeded in bringing the team to a standstill.

Four years ago Mr. Van Wyck plunged into the water at a summer resort and saved two young women from drowning.

WRATH OF PELEE

Turned on Snakes and Is Destroying the Fer-de-Lance.

It Is the Most Deadly and Loathsome Reptile Known.

How It Came to Be So Thick In Martinique.

Fort de France, June 20.—Mount Pelee's death dealing clouds were not without a patch, at least, of silver lining. The inhabitants of Martinique in time to come will date from the earthquake year the disappearance of the loathsome fer-de-lance, the most dangerous serpent in the world.

For years the snake has been the perpetual terror of all the inhabitants. It has been a constant menace to life in every section of the island, save perhaps in the very streets of the cities. Many efforts had been made to exterminate it, or, at least, to drive it out of certain sections. Considerable sums of money have been expended in the work, and various animals have been imported to war against it, but in vain.

In addition to the actual loss of life from the ravages of the fer-de-lance, there has been considerable inconvenience in working the fields infested by it. The natives have over and over again flatly refused to expose themselves on certain slopes of the island where the snakes were known to be particularly numerous. The disappearance of the fer-de-lance, is to be sure a small compensation in view of the frightful desolation by Mount Pelee, yet it is one which is certain to be greatly appreciated when the cultivation of Martinique is resumed.

The fer-de-lance is at once the most venomous and the most vindictive snake in the world. It is very easily aroused, it is practically impossible to elude its attacks, and its poison has no known antidote. It preys upon all animals alike and is absolutely fearless in its attacks.

The fer-de-lance pest of Martinique was, curiously enough, self-inflicted. It is not a native of the island. Its presence is due to its having been especially imported. The native home of the fer-de-lance is in the mountainous regions of Brazil. It is found in great numbers in the sugar plantations, where it thrives and increases with astonishing rapidity.

It has been often observed that when the fer-de-lance makes its home in a field of sugar cane the surrounding country is quickly vacated by every other kind of animal life. Some years ago the sugar plantations of Martinique and St. Lucia were overrun with rats to such an extent that the crops were seriously menaced. As a relief from the ravages of these rodents it was proposed to import the fer-de-lance, which was known to be their deadly enemy, and turn the snakes loose in the rat-infested districts.

A number of the large planters of the islands contributed to the cause. An agent was sent to Brazil, where he collected a number of the living reptiles, and returned with them to Martinique.

It was quickly noticeable that the rat pest was subsiding. The sugar crop grew undisturbed and flourished. All too soon, however, the islanders began to discover their awful mistake. Within an incredibly short time the snakes had spread to the uttermost parts of the islands. Heretofore only their good habits had been talked of. The population, taught by very bitter experience, soon came to realize the other side of their character.

The average inhabitant of the tropics is not readily frightened by snakes. The abject terror with which the population soon came to regard the fer-de-lance was only taught after many had paid the death penalty.

The efforts made to do away with the comparative harmless rats were soon far excelled by the attempts to drive out the snakes. Whole fields of sugar were actually destroyed in the hope of extinguishing the invaders, but in vain. Poisons were set out temptingly, in wholesale quantities, and many snakes were killed, but their number, nevertheless, continued to increase almost beyond belief. Still another plan was to turn hogs loose in the infested areas. The pig is the only animal which does not fear the fer-de-lance. It is protected from the most venomous bites by its layers of fat. Despite the attacks of the snake it calmly tramples its enemy to death and then proceeds quietly to eat its remains. But the porcine population failed to make any serious inroads on the fer-de-lance.

The most recent and, probably, of all the most costly, attempt to exterminate the fer-de-lance has been the introduction of the mongoose into Martinique. The mongoose, a member of the squirrel family, increases rapidly, and its natural alertness makes it a dangerous enemy of the fer-de-lance. All of this happened several years ago and yet, despite all efforts, the fer-de-lance has thrived and increased in multitudes. The inhabitants of the island have despaired of ever ridding their lands of the fer-de-lance. The price which Martinique has paid for its riddance is frightful, but the means, it must be recognized, were extremely effective.

The fer-de-lance is the only snake in the world which always takes the initiative in a fight with a man and pursues him vindictively to death.

It has been found almost impossible to escape its haunts. It usually conceals itself under dead leaves or amid the heavy foliage of parasitic plants. Often it is found coiled up in the nest of a bird which it has devoured. From such a vantage point it will spring, without the slightest warning, or hiss or rattle, and deal its blow as swiftly and straight as a fencer's thrust. Even when moving at racing speed through the grass and underbrush its progress is noiseless, except for an uncanny, scraping sound, which is made by the end of its horny spine brushing against some rough object.

The color of the fer-de-lance varies considerably. Its back is usually a dark olive tint, covered with broad cross bands of a draker shade of the same color. These markings of the back vary, but are always inconspicuous. The color renders them almost invisible when partly covered with foliage. The color of the underbody is usually a whitish gray, covered with minute dark spots. The head, which is very large in proportion to the rest of the body, is brown.

The fer-de-lance is a large snake, generally measuring from five to six feet in length, and frequently growing to a length of seven or eight feet.

Oddly enough, the fer-de-lance invariably travel about in pairs. It is believed to be the only snake in the world with this peculiar social habit. This renders it still more dangerous.

The fer-de-lance were found in largest numbers on the very slopes of the mountains. The result of all the efforts to exterminate them had only succeeded in driving them away from the coast line and centers of population. They were, therefore, exposed to the full fury of Mont Pelee's wrath. Beneath the heavy layers of hot ashes which have everywhere covered the islands, the fer-de-lance has been at last very effectively destroyed.

LIBRARIES EVERY DAY.

London, June 20.—Andrew Carnegie's benefactions in the shape of libraries are almost daily occurrence. Today he offered the burg of Partick, near Glasgow, £10,000 providing its officials undertook to conduct the library under the provisions of the public libraries' act.

RECHTIN WAIVES HEARING.

Washington, June 20.—Henry Rechtin, of Cincinnati, who was arrested yesterday on a charge of misappropriating $600 funds in his care as disbursing officer of the department of justice, today waived examination in the police court and renewed his bond of $10,000. The case now goes to the grand jury.

Window Screens, extending 34 inches 19c

TWO TIMES

Negro Was Bought Out of Slavery---Great Industry.

Columbia, S. C., June 20.—The life story of Dick Hunter, a negro, who died a few days ago near Laurens, is a remarkable illustration of integrity and industry.

He was a son of Dublin Hunter, who came to this state in the early '30s from a British colony in Africa. Being a free negro, Dublin required a guardian under the then existing laws, and this office was performed by T. C. Hunter, a large slave-holder. Dublin was a first-class carpenter, and was industerious. He soon saved enough money to buy a young negro woman, whom he married.

Dublin died ten years before the civil war, and, although it had been supposed he was well-to-do, it was found he was in debt. To satisfy the claims against his estate, his wife and children, who were his personal property, were sold.

Dick Hunter, then 17 years of age, was purchased by Samuel Nugent, of Laurens. He accepted his changed condition uncomplainingly, but was determined to be free. He was a skillful workman and therefore possessed means of making money in his odd hours. He told his new master of his wishes, and they agreed that for $1500, paid in fifteen equal installments, Dick should have his freedom.

But in the midst of the war, after Dick had paid $1100 on account, Mr. Nugent died. To settle the estate Dick was sold with the other negroes. He had married a free woman, however, and she bid him in at auction for $900. Times were hard in this state, and the husband and wife could not raise the money they expected. So Dick was about to be sold again when Clarke Templeton, a Laurens planter, came to his aid, indorsed the note of Dick and his wife for his freedom, and the man continued independent.

When the war closed a balance of $500 was due on the note. Dick had been freed, of course, by the emancipation act and was not bound to pay; but he had a fine sense of honor, and, although "greenbacks" were very scarce and it was hard to get a dollar. Dick in time paid every cent, proudly buying his freedom for the second time, and this, too, years after his emancipation by law.

To save this money the negro had exercised industry, thrift and frugality, and when the debt was paid he continued these habits. He bought a farm and a home and was regarded as one of the best market gardeners in Upper Carolina. He was one of the few farmers in the state who held their cotton till they got their price, and last spring sold some he had held for eleven years.

It is said he had something for market every day in the year, and got the highest prices.

There is a pretty irl in an Alpine hat.
A sweeter girl in a sailor brim,
But the handsomest girl you'll ever see,
Is the sensible girl who uses Rocky Mountain Tea.
Ask your druggist.

HEAVY TRACK

Is Rather Expected For the Great American Derby.

Chicago, June 20.—Today's forecast indicates showers tonight, but clear weather for the American derby to be run at Washington park tomorrow. Turf followers figured today that the track would be slightly heavy. Work on the course will continue throughout the night and tomorrow if necessary.

Petecost, Arsenal and Heno, the Eastern colts which are expected to furnish the winner and Belles Commoner, winnerof the derby trial race Wednesday, did two mile gallops this morning. Pentecost did the last mile in 1:56, while Belles Commoner went the distance in 1:52, the last furlong in 13 seconds. Mr. C. H. Mackay, owner of Heno, and a party of friends visited the track and watched Heno do a leisurely canter.

The derby candidate still at Harlem will be taken to the Washington park track tomorrow morning.

MOST SENTENCED.

Anarchist Will Serve One Year In Penitentiary.

New York, June 20.—Johan Most, who was convicted on a charge that he printed an incendiary article in a newspaper conducted by him, was sentenced to serve one year in the penitentiary. The article was printed at the time President McKinley was shot. The case was carried to the court of appeals which confirmed the judgment of the lower court.

LOVED HER AT SIGHT

So Minister Told a Pretty Woman of Canton, Ohio.

Later She Learned She Was Not the Only One.

Startling Stories Told About Rev. Walter Kling's Past Life.

Canton, Ohio, June 20.—Walter Kling, the former pastor of the Calvary Presbyterian church at North Market and North streets, who was indefinitely suspended from the office of the ministry by the Mahoning Presbytery, of which he was a member, as the result of the church trial, was found guilty of immoral and improper conduct. The statement issued by the Presbytery declared that Kling was guilty of "nothing criminal," but the testimony taken in the trial of the accused man was not entered into.

This decision of the Presbytery was practically unanimous, but one vote being taken. Rev. R. E. Porter, of Columbiana, was appointed moderator of the session of Calvary church, and on next Sunday he will declare the pulpit which has been occupied by Mr. Kling vacant. In accordane with the rule of the Presbytery the session of the church will supply the pulpit.

Mrs. Laura E. Jackson, of Tenth and Walnut streets, was the star witness against Kling. Mrs. Jackson was not a member of Calvary Presbyterian church, but of the First Presbyterian church. She and Kling met in the house of her mother, where the minister found her crying over a petty quarrel with her husband. Kling tried to console her by offering his love, stated Mrs. Jackson. His attentions grew in warmth. On the first visit Kling found Mrs. Jackson at the family fireside. This was in December. On subsequent visits he was more fortunate, finding Mrs. Jackson alone. Then, she said, he became more attentive to her, but without any response on her part. Finally, stated the woman, he made an attempt to assault her. She raised an alarm and one of the neighbors rushed in to her rescue. She said she then wrote Kling a letter warning him to stay away from her home. He returned, however, maintained the woman, and offered her money and proposed to take trips away from the city. Mrs. Jackson is a pretty, black-eyed woman, originally from Kentucky, and is full of vivacity. She is about 26 years old.

Mrs. Norman Blum, also a member of the other Presbyterian congregation, testified that Kling visited her without an invitation and immediately began to grow familiar by endeavoring to hold her hand. On one occasion he wanted to lift her, "to see how much she weighed." She forbade him the house.

Among the other women who appeared before the presbytery were Mrs. Stafford, teacher of the infant class in the Sunday school; Mrs. Catherine Gordon, wife of Mail Carrier George Gordon; Mrs. Alexander, of North Cleveland avenue, and others.

Some startling stories concerning Mr. Kling's past were developed at the trial, it is stated. John C. Glasgow, a member of the board of trustees of the church, made several trips to New Carlisle and Dayton, where the accused minister formerly resided. Kansas City was the starting point of his career. Here, it was stated, he was deposed as minister of the Methodist Episcopal church in connection with some stories of a grave nature.

He is next heard of in Dayton, where the presbytery was informed Kling had betrayed an 18-year-old girl. All the witnesses examined before the presbytery were asked whether they had heard of the girl. In New Carlisle similar rumors were heard of. A letter was received from a preacher in that city, it is stated, in which an absolute refusal was received to a request for a favorable consideration for Kling. There were other stories.

Rev. W. E. McCauley, of Salem, prosecuted Kling. When Mrs. Jackson was testifying before the presbytery she stated that Kling told her that he fell in love with her at first sight. Mr. McCauley laid his hand on the woman's shoulder and said: "There were others he said that to, Mrs. Jackson."

COAL FROM WALES.

New York, June 20.—A cargo of bituminous coal is on its way from Wales to this city. It is being brought here as an experiment. The cargo, which consists of 4000 tons, will be put on the market, it is said, at $5 or $5.50 a ton.

CUSTOMS UNION

Not Yet Practical For British Colonies.

London, June 20.—In an interview today on the subject of the forthcoming colonial conference, Edmund Barton, premier of Australia, said he considered that an imperial customs union was not within the bounds of practical politics, though it might be possible many years hence. Free trade within the empire now would deprive the young communities of their main source of revenue, namely, the customs, and render it impossible to carry on their internal government successfully. Mutual tariff concessions within the empire stood on a more practical basis, and he hoped to see the difficulties in the way of such concessions removed.

It's a mistake to imagine that itching piles can't be cured; a mistake to suffer a day longer than you can help. Doan's Ointment brings instant relief and permanent cure. At any drug store, 50 cents.

IN CONFERENCE

Will Struggle Over Canal Bill Be Held.

Washington, June 20.—The house committee on inter-state and foreign commerce today decided to recommend that the isthmian canal bill, which passed the senate yesterday, go to conference without the preliminary of further reference to the committee on consideration in the house. The measure is on the speaker's table and Chairman Hepburn will move non-concurrence in the senate agreeing to the conference already asked by the senate. It is rather expected that Messrs. Hepburn, Sherman, of New York, and Adamson, of Georgia, three strong supporters of the Nicaraguan route, will be the house conferees. If this recommendation is approved by the house, the future struggle over the canal will be in conference.

Lynch & Blodgett

will open the doors of their up-to-date shoe store at 124 West Superior street tomorrow morning. The stock is a brand new one made up in its entirecty expressly to their order by the leading manufacturers of shoes in America. BURROWS WINS CASE

Supreme Court Decides Check Suit In His Favor.

Opinion Reverses the Decision of the District Court.

Chief Justice Does Not Agree With the Majority.

St. Paul, June 20.—(Special to The Herald.)—The supreme court today divided on the question as to whether a telegraph company is liable for money paid to the wrong party.

A majority of the court holds that the company is responsible to an innocent party who cashed the company's check. Chief Justice Start dissents, holding that when the party obtained the check by fraud it was not his property, and he could not deliver property to which he had no title. Justice Collins writes a separate opinion, concurring with that of the majority and saying that in these days it is the business of a party issuing a check to know that he issues it to the right party.

The decision is in the case of M. S. Burrows, appellant, vs. Western Union Telegraph company, respondent, and comes from Duluth.

In October, 1900, a man representing himself to be J. E. Jerome, a traveling agent of Scheffer & Rossum, St. Paul, went into the Western Union office at Duluth and wired the St. Paul company for $50 at once, saying that he had a special deal on. Scheffer & Rossum wired the money. The man was identified by one Belleview, of Duluth, as J. E. Jerome, and was given the telegraph company's check for the $50. He went across the street to Burrows' store, purchased a hat and had the check cashed.

Later the company learned that the man was not "Jerome" and stopped payment on the check. Then Burrows began suit against the company to recover the money.

The municipal court at Duluth decided in favor of Burrows. The district court reversed that decision and held that for the company. Now the supreme court, except Chief Justice Sturt, reverses the district court and holds for Burrows.

In the opinion written by Justice Lewis for the majority of the court it is stated that the question as related to a telegraph company is new.

Justice Collins, in his concurrent opinion, says that on the facts no distinction can be made between the case at bar and that in Schuneman vs. Tolman, in which the court, in a per curiam decision, characterized the appeal as frivolous and the question at issue unworthy of decision; that in these days it is the duty of the drawer of a check to know that the party to whom it is delivered is the party for whom it is intended.

The following decisions were also filed by the supreme court today:

Albert Johnson, as executor of the will of Jacob Wohlers, deceased, appellant, vs. H. Holst, C. F. Holst and Bertha C. Meyers, respondents, Goodhue county. Suit by the executor to recover possession of promissory notes alleged to belong to the Wohler estate. Finding of the lower court that Wohlers before his death had made a gift of the notes to the defendant is sustained. By Justice Brown.

Justice Brown affirmed the judgment of $2000 awarded by the Ramsey county court to Henry Dieters against the St. Paul Gas Light company. Dieters had his hand crippled by the falling of a defective trap door while making repairs for the company on Fourth street. Dieters sued for $3000 and was awarded a verdict of $2700, which Judge Kelly reduced to $2000.

An order of the Minneapolis municipal court awarding Dr. James M. Ristler a verdict against Andrew Johnson et al., defendants, and the Backus-Brooks company, appellant, is affirmed in a decision by the whole court. The suit involved a small fee for medical services.

The Itasca county court is reversed in the case of Charles H. Anderson, respondent, vs. Itasca Lumber company, appellant. Anderson was suing the lumber company and his attorney had agreed to take one-third of the amount recovered as his compensation. It was agreed that neither plaintiff nor attorney should settle the case without consulting the other. The attorney expended $300 in preparing the case.

At the trial the jury disagreed. Later plaintiff dismissed the case without consulting the attorney. The latter had the case reinstated, and the supreme court holds that the lower court erred in reinstating it; that the case was not dismissed on account of any settlement, nor to defraud the attorney; that the latter had only a prospective lien which would become vested only upon the entry of a verdict or order for judgment for the plaintiff. Justice Lewis wrote the opinion.

LONGER THAN EXPECTED.

St. Louis Mill Not Yet Able to Resume.

The management of the St. Louis Lumber company has announced a shutting down of the mill at West Duluth for a longer period than was at first expected. The lumber company has some logs on the north shore that can only be brought down by rail, but as the Duluth & Iron Range road is now very busy with its ore shipments, the logs will not be brought down until the latter part of next month. After these logs have been sawed, the mill will not operate until Sept. 1, when it will start up and run all the fall and winter. The St. Louis Lumber company cut contract logs all the past winter.

Builders' Labor Union.

The Builders' Labor union held its meeting in the Kalamazoo hall last evening for the annual election of officers. A great deal of enthusiasm was manifested in the meeting, over 200 of the members being present. The election resulted as follows: President, George Hayett; vice president, James Furlong; secretary, Harry Vaughn; financial secretary and business agent, William Prindle.

POPE ACCEPTS PROPOSITION

Rome, June 20.—The papal secretary of state, Cardinal Rampolla, today assured the Rt. Rev. Thomas O'Gorman, bishop of Sioux Falls, S. D., that the vatican accepts the propositions of Judge Taft, governor of the Philippine islands, regarding the disposition of the friar lands on all the main points, but dissents on minor points.

The official documents are being prepared at the vatican and will be delivered to Judge Taft today.

A GENUINE SALE.

Hub Clothing Company Decides to Handle Union Goods Exclusively.

The Hub Clothing company have started a clearance sale of Men's and Boys' Clothing which will continue until the entire stock is disposed of, they having decided to open the fall season with a stock of exclusive union made goods. This sale differs somewhat from others in that it is the regular stock and not the odds and ends or clothing purchased simply as a guise to start a sale on. The Hub Clothing company sell only the best makes of Men's and Boy's Clothing and at the prices they quote on another page this will prove a profitable time to dress up for the Fourth.

Steamers Leave Booth's Dock, Near Canal.

LEAVE OF ABSENCE

Given to Capt. Hobson Under Rather Unusual Restrictions.

Navy Surgeons Will Keep Close Watch on His Eyes.

See That Lectures For Money Do Not Injure Them.

Washington, June 20.—Capt. Richmond P. Hobson, the hero of the Merrimac, has placed himself in an awkward position at the navy department, and he is now practically under surveillance by the office of the surgeon general. Capt. Hobson applied for a leave of absence for an indefinite length of time. This was refused because the naval construction bureau is run on a short allowance of officers, and the building of the new navy has required the services of every available man.

Since the war with Spain the record appears to show that Mr. Hobson has had more and longer leaves of absence than any officer in the construction corps, and for the last eighteen months, except for a brief tour of duty at Elizabethport, N. J., his work has been confined to serving as one of the representatives of the navy department at the expositions at Buffalo and Charleston. His duties in both places were almost wholly nominal, and he had frequent opportunities, which he always availed himself of, to deliver public lectures for a compensation.

Capt. Hobson applied for retirement on the ground that he was physically incapacitated for work. A board of officers declined to retire him, and it was hinted at the time that he expected to receive his three-quarters pay for ill-health and then go about the country on a lecturing tour. Later an application was made in congress for the passage of a bill retiring Capt. Hobson, in spite of the adverse action of the naval board. This was finally turned down by the naval committee, and thereupon Capt. Hobson made application for a long leave of absence. He alleged that his eyes had given out.

The application immediately followed his assignment to duty at Elizabethport, and it was disapproved by Rear Admiral Bowles, chief constructor of the navy. Secretary Moody, however, has decided to give Capt. Hobson the benefit of the doubt so far as the leave of absence is concerned. This approval of Capt. Hobson's application for leave is, however, coupled with a singular condition. It is a matter of notoriety in the department that the hero of the Merrimac and of the kissing episodes has engagements to lecture for the next three months, which of course he could not fill if he were assigned to duty at Elizabethport. In granting the leave of absence the secretary of the navy has ordered the surgeon general to make an examination for the purpose of finding out whether Capt. Hobson's eyes, which are too weak to do service in the navy, will not be injured by the glare of the lights and other work in connection with the preparation and delivery of lectures.

As a matter of fact, Capt. Hobson has been under surveillance by the medical officers of the navy, with the understanding that if they find lecturing is as bad for the eyes as constructing ships in the navy yard, his leave is to be revoked at once. The whole transaction has created a vast amount of talk in the department, as it is not considered good form for officers of the navy to shirk routine work for the purpose of attending to private business.

SILBERSTEIN & BONDY CO.

Half Yearly Clean Up of High Class Tailor Made Suits and Jackets Continues Tomorrow.

The Silberstein & Bondy company's cloak and suit parlors were crowded from early morning until closing time today.

The half-yearly clearance of tailor-made suits and jackets at half price was the attraction. They are following their usual policy of cleaning up those stocks, and in doing so certainly lose sight of original values. Twenty-dollar tailor-made suits and jackets are being sold for $10, $30 ones for $15, $40 ones for $20, etc., throughout the stock, and include all the desirable shades and black, and in all sizes for women and misses.

FORTUNE IS GONE

Wife Took Husband's Riches to Aid a Texas Sect.

Oil Fields Wrested From the Heirs By a Fanatic.

Supported Her Fellow Believers and Husband Is Impoverished.

Bowling Green, O., June 20.—One of the most interesting law cases of this country is now being concluded. The litigation has swept away a big fortune, broken up families and the principal figure, Ephraim Shanaberger, once the farmer king of this country, is in poverty.

When oil was discovered in this section Shanaberger's land was in the center of the richest territory. Soon paying wells drilled in almost every corner of the fields of grain and pasture land, and in one year the old man became almost a millionaire. One day there came into this neighborhood a man who professed to be the prophet of a new religion. This man gained the attention of Mrs. Shanaberger and converted her to his beliefs. Little was known of him, and little was ever discovered, for he left it to his disciples to spread his doctrines, keeping himself much in the background.

In time this new sect obtained a wide hold on the community, and secret meetings were held at night in groves and woods, carefully guarded from all who were not known to be sincere believers in the teachings.

Then the apostle of the sect announced an all-important discovery. It was that a scroll had been revealed to him whereon, in graven letters, was the warning to the faithful that a destroying fire was about to descend on the earth. In only one spot thereon could his followers find safety from the flames sent to destroy the unbelievers.

Near Livingstone, Tex., was the place to which these devotees were commanded to hasten. The entire number, led by the prophet and Mrs. Shanaberger, set out for the refuge. There on a knoll of desert and, in a clump of sunburned trees, they established a haven.

As nothing would grow there to sustain life and they must have money for food, Mrs. Shanaberger appealed to her husband. He remained at home, but supplied his wife with such funds as she demanded, hoping that time would cure the strange fanaticism and that she would return to him. But at length her requests for money reached a point where he felt compelled to refuse them.

Then began the litigation which has impoverished Shanaberger. His wife sued for a partition of the estate and for her portion. Against his will Shanaberger was drawn into legal complications. The wife obtained piece after piece of the land owned by her husband, and as fast as the property was awarded to her she converted it into cash and devoted all to the strange community which she alone maintained.

When she had wrested from her husband all the property the courts would allot to her, she devised other means to get his money, and, eventually, enmeshed him in a series of legal tangles from which he has not been able to get loose.

He lost all interest in his business affairs and dumbly watched the lawyers fighting over his property. In various way his money went from him until, after a time, he, too, joined the Texas colony his property had supported and took to himself the beliefs of those who had ruined him.

In a fit of disgust he returned here and began action to recover money which, he contended, had been obtained from him by unlawful means.

Attorneys from here have just returned from Texas where they took depositions in a case now pending in which Shanaberger and the sect are implicated. These attorneys are perhaps the only persons not members of the sect who have ever entered the place, and they say that Shanaberger's condition there, in view of his former riches, is pitiable. The Shanaberger money is gone, and as the sect have exhausted this resource, provisions are becoming scarce on the sand knoll, and the attorneys say the fate of the fanatics will soon be determined.

SUSTAINED.

Action of Commissioner Williams Endorsed By Secretary Shaw.

Washington, June 20.—President Roosevelt today granted a special hearing to a number of New York men, who made a protest against the recommendations of Commissioner of Immigration Williams, involving certain dealings with immigrants. Those composing the committee were Congressmen Lessler and Littauer, Judge Jacob Neu, Henry B. Ketchum and Emil Schwab. Secretary Shaw and Mr. Williams also were present. The interview with the president was sought in order that the facts in connection with the recent letting of contracts for the feeding of immigrants, the changing of their money and for their transportation might be known. The conference lasted an hour, at the conclusion of which it was announced that Secretary Shaw remained firm in his position of accepting Mr. Williams' recommendations. It developed during the hearing that Commissioner Williams had given the contract for feeding the immigrants to two reporters on a New York paper and it was represented that they were not capable of rendering satisfactory service. It was further represented that they received the contract at a figure higher than other bidders.

After hearing the principal facts in the case, the president withdrew from the conference leaving Secretary Shaw to conduct the hearing.

On leaving the White House Judge Neu and Mr. Ketchum stated that they would file a vigorous written protest with the president asking that the action of Commissioner Williams and Secretary Shaw be overruled. Commissioner Williams came here by direction of the president and took breakfast with him this morning during which the matter was discussed.

Men's Suits tomorrow, $5, $6.50, $8.75, and $11.75, worth double. New styles, all sizes. M. S. Burrows.

The Greatest Travelers.

The American people travel more than any other people in the world. One reason is their energetic and progressive character as a nation, and another the character of the traveling facilities afforded by our railroads. Constant improvements have been made in passenger accommodations by American roads during the past decade until today we have the Milwaukee's celebrated Pioneer Limited, the famous train of the world. This train runs daily between the Twin Cities and Chicago, and is patronized by discriminating travelers. No American railroad is as well known the world over as is the "Pioneer Limited."

$4.30 St. Paul and Minneapolis.

—VIA NORTH-WESTERN LINE.

June 24th and 25th THE NORTH-WESTERN LINE (C., St. P., M. & O.) will sell tickets to St. Paul, Minneapolis and return at the low rate of $4.30 good returning until June 27. Tickets good on the famous "Twilight Limited," leaving Duluth daily at 4 p. m. from the Omaha depot; day express, 8:50 a. m. Secure tickets at 405 West Superior street, or Omaha depot.

THE PICNIC.

Newsies Wax Eloquent Over Their Coming Festivities.

Der picnic season's started, der weather's gittin nice. Us boys'll start it rollin, an' never mind der price. Each one of us, both large an' small, 'ill take a lunch along. We'll play at games an' races, but cut dat new ping-pong. Dat game it may be right enough ter cause er lot of fun, but its to slow fur us jus now, we'll put it on de run.

Nex, Wedensday is de day what's set, its June de twenty-five, we'll form in line, our tickets git; you'll know dat we're alive. We'll march along in columns two; right long side by side; down to dat dare Newsboy boat, to git dat promised ride. Wen dat boat lands at Fond du Lac, der'll be all sorts of doin'. De people dere 'ill forget about dere blues, an' bruin. If dey don't smile wen we arive, an' git tings well a goin', dey better go back in de woodsg, an' see the ferns a growin'.

Dey say de swimmin's good up dere, we'll take a whirl at dat. De fishin', too, dey say is fine, we'll catch 'em all—dats pat. De lemonade 'ill suffer some, de peanuts dey'll all go, dey scramble dem around, so's we all git a show. It takes a lot ter fill us up; der game's been tried before, we eat, an' eat, an' eat, den holler some fer more.

De Newsboy is de boat, wats goin' ter take us dere. We all go long fer nothin', dey won't be any fare. We got ter have a ticket, no gittin' out of dis. Mr. Pearson said so, an' dat settles it. We have to have our names down, dere put in a big book; so's dey kin look it up some time, an' know just who dey took. Dat book is kept from year to year, de Herald knows where its at; dey keep track ov all of us, de small, de lean, de fat.

When we grow up to be big men, an' quit our Heralds a sellin', we'll look back to dese happy times, an' be tu friends a tellin—Dat we were once among de crowd what to dese picnics go, an' may be if we're lucky we'll have some prize to show.

Dere aint no use ov talkin, dese picnics be great stuff. We're always ready fer to go, and never holler nuff.

Moonlight Excursion

On Steamer

ARGO!

From Booth's Dock, foot Lake Avenue.

SATURDAY EVENING, JUNE 21st, AT 8:30 O'CLOCK.

Grand Concert and Vaudeville Entertainment by Duluth Male Glee Club and other Duluth artists. Refreshments will be served.

Tickets, 25 Cents

RATHER DULL.

Local Labor Market Not Very Active This Week.

Matters are rather dull in the local labor market this week and the number of men sent out for work has been notably less. It is claimed that the decreased demand for men has also resulted in a little shading of wages, which up to the present time have been the highest that they ever were in the Northwest for the spring and early summer work. Railroad construction work pays now from $1.50 to $2 per day, where a few weeks ago not a man could be hired for less than $2 per day. The street railway company is paying $1.90 per day. A year ago this time the company raised the pay on its common labor on tracks from $1.75 to $2 per day.

COAL MINES SOLD.

Butte, June 20.—H. Frank, of this city, has sold a three-fourths interest in his coal mines at Frank, B. C., to a French syndicate for $1,300,000. A payment of $85,000 has been made to bind the sale.

SEASON PASSING

The Day of the Strawberry Is On the Wane.

Minnesota Berries Still Due and Will Be the Last.

Cherries Now In Their Flood---Potatoes Are Getting Cheaper.

The day of the strawberry of this season is on the wane.

Berries are coming and going, and there are several new ones on the market, but the supply of strawberries is running low. The principal berries on the market are from Wisconsin, but the supply is lessening, and from now on the berries will be smaller and more expensive. The last of the picking is coming in now. Oregon berries are still on the market, but not in any such quantities as the Wisconsin berries, of course. One car has been received, and one or two more will come.

The Minnesota berries are due, but they do not make much of a ripple on Michigan street. In fact, the supply is so small that they are seldom handled by the commission men, but go direct to the dealers. Some of them are on the market now, and they will hold out for some little time yet.

Raspberries, mellow and velvety, are making their first appearance of the season. They are selling at $2.90 per case of twenty-four pints.

Currants and gooseberries are in the game, too, though not yet in very large quantities. They are selling at $1.50 the case.

Cherries are nearing their flood, and they will not be much cheaper than they are now. They are down to $1.25 and $1.35 per case on Michigan street.

New potatoes are now down to $1 per bushel, where the old stocks were not so very long ago. Old potatoes are becoming rather a drug on the market at 55 and 60 cents per bushel.

Pineapples are down to $1.50 per dozen ,which is probably about as low as they will get this season. Valencia oranges are higher, having been raised from $4.50 and $5 per box to $5 and $5.50.

Green peas have had a drop of 50 per cent by the bushel, and are selling at $1. Cucumbers are down to 60 cents a dozen, and cauliflower is down $1.50 per dozen instead of $1.75 and $2. Radishes are cheap, bringing only 15 cents per dozen bunches. Tomatoes by the crate are sharing in the general drop, and have gone from $1.40 to $1.60 to 90 cents. New beets and carrots are down to 30 cents per dozen bunches, and so it goes.

Meats are holding their own, and the meat trust does not show the slightest sign of experiencing a change of heart or becoming conscience-stricken.

Poultry is easier, hens having gone of from 12 to 11 cents per pound. Butter is slightly easier, and fresh prints of creamery can be bought on Michigan street for 22 cents, though there is some of it that calls for 23 cents. Eggs are slightly firmer, and are quoted at 16 to 16½ cents instead of 16 cents.

AMUSEMENTS.

RICHARD MANSFIELD.

The appearance of Richard Mansfield at the Lyceum next Monday evening in "Beaucaire" is naturally exciting great anticipations for there is no doubt that Mansfield is at the head of the stage in this country. The cast of "Beaucaire" is a long one. There are twenty-six speaking parts and almost as many more people of experience to complete the picture of the smart set of Bath when Beaucaire played his little comedy with Lady Mary and the Duke of Wintersett. The play is in five acts. Far from being a dramatization of "Monsieur Beaucaire," the author, Booth Tarkington, admits that his book is merely a scenario of the play. The picture of the fopperies of a swagger English watering place under the social sway of Beau Nash is the colorful background of the comedy, but the dressing is that familiarly known as the constitutional monarch of France only, the cousin of "Beauclaire, the Barber," was in reality the dictator of the world's fashion.

POPULAR KATHRYN KIDDER.

There is perhaps no other actress in the country who numbers among her admirers more distinguished people than Miss Kathryn Kidder. In Washington her first nights invariably include the president's family and the leaders of the various departments. At her first performance this season in Elizabeth, N. J., the theater held the most distinguished audience ever appearing within its walls. Among those present were Governor Voorhees, Mrs. Grover Cleveland and representatives of the most prominent families of New York city, who made the trip to Elizabeth especially to honor Miss Kidder. At the opening of Miss Kidder's Boston engagement all of the elite of that cultured city were present, and such notables as Governor Crane of Massachusetts, Mayor Collins, President Elliott of Harvard college and Chief Justice Oliver Wendell Holmes of the supreme court. Already much interest has been manifested in "The Country Girl," which will be presented here for the first time at the Lyceum on June 30.

UP IN MINNESOTA

The Women Know How.

Food, and good food, is the right kind of foundation to build good health on. A Minnesota woman writes: "I thought I would like to tell you of the good Grape-Nuts has done for me.

"Last winter I got sick and kept getting weaker and weaker. I could not eat anything but some crackers and a little cup of beef tea for every meal, then I was put on Grape-Nuts and used it with some cream for breakfast. My stomach got strong gradually, and before I had used three packages my digestion was so good that I could eat any kind of food, even cabbage, pastry, etc., and I notice that my memory is very much better than it used to be.

"On the 5th of July I weighed 102 pounds and two months later, after using Grape-Nuts, I weighed 122 pounds and was able to do my house work.

"This is a good, honest statement of facts about Grape-Nuts, and you can publish my name if you like." Mrs. E. Fredrickson, Center City, Minn.

Delicious recipes for warm weather desserts in each package of Grape-Nuts.

The Two StocK Sale!

19 East Superior Street.

Clothing and Furnishings are going fast. Our wind up for Saturday. Prices that we advertise are cut in two. We don't want the stock. Take advantage.

READ THESE PRICES:

Every Kabo and Royal Corset in the house, actual value 98c to $3.00 going at only ---------- **24c**

Ladies' Kid Gloves—ranging in value from 89c to $1.49; while they last the price will be only ---------- **29c**

Silks Belding Bros.' Cortticelli & Richardson's Silks, 1,000 yards at **1c yard**

Dress Buttons—A large assortment, match any color you like, two dozen on a card; the wind up price, per card ---------- **5c**

Underwear—Every garment that is called underwear in the house; first advertised at $1 to $3; the wind up price ---------- **19c**

MEN'S CLOTHING—Only 250 Suits left and you can't afford to miss this opportunity.

$25 Suits For $6.00.

READ THESE PRICES:

We have not sold any RUBBER FOOTWEAR as yet, as we were crowded for room to display it; now is the time; price cuts no figure. TAKE THEM HOME at your own price.

Corset Waists—worth 79c to $1.49, at ------- **12c**

We cannot afford to mention every article in the store. Advertising costs money. Come and take the goods home at ten cents on the dollar.

Ask your neighbor what she got, and be convinced.

Remember the Two Stock Sale at 19 East Superior St.

19 East Superior St.

IS TOO WET.

National Iron Works Is Hustling to Lease Present Site.

One of the causes that is said to be hurrying the National Iron Works company in its efforts to get located in the new quarters at the Iron Bay plant in West Duluth is the fact that a large portion of its machinery has been forced to stop because of the flooding of a part of the Garfield avenue plant by water.

For some time past the Northern Pacific Railway company has been pumping sand and water on its property south of the National Iron works and across the tracks. While the sand remained on the Northern Pacific company's property a great deal of the water found its way through the culvert into the pond on the north side of the track and adjoining the Iron works. Last week the water was so high that the flywheel could not run, and this week it is said to have been necessary to shut down other machinery.

A small stationery engine and pump has been employed for a few days to pump the water out of the pond, but it is understood that the plan is not satisfactory. The matter of filling in the pond hole has been discussed by the business men of the West End, but no action was taken for the reasons that it was intimated that the owners of the property intend to do something of the kind and the Northern Pacific company will put in a sewer that will carry off the surplus water hereafter and make the property where the Iron works is located quite valuable for some other fair-sized industry.

It has been reported that the National Iron works will not relinquish the Garfield avenue plant this summer, but will operate at both places, the old location and the new quarters at West Duluth. This will mean the employment of a larger force of men than was at first anticipated and indicates a gratifying increase in the business of the concern.

A DAMPENER.

Wet Weather Interferes With Pleasures at Ascot Races.

London, June 20.—The return of the rainy weather today dampened the spirits of the occupants of the country houses at Windsor and around Ascot, and the attendance at the races was in no way comparable with that of the earlier days of the Ascot meeting.

The Ascot high weight stakes was won by Victor Don, ridden by J. Reiff. The duke of Portland's William the Third (Cannon) won the Alexandra plate, Osboch (Maher), was second, and Ameer Picon (Rigby) third. Six horses ran.

The principal race of the day, the Wokingham stakes (handicap for 3-year-olds and upward, six furlongs), was won by an outsider, His Lordship. Papdale was second and Pinnace was third. Twenty-five horses started.

IN MICHIGAN.

Many English-Americans Will Celebrate Coronation Day.

Tamarack—June 26, the day when Edward will be formally crowned king of England, will be properly celebrated in the copper country. The matter has been taken up by the English-Americans of Tamarack, and there is reason to believe that the whole of the copper country will join in one all-day celebration at some convenient place. It is the purpose of the promoters to get every town and location of the copper country interested, and there is no doubt that such efforts will be successful, as the matter is being undertaken in a systematic manner.

Escanaba—Smallpox is either being stamped out by the health authorities of Escanaba, or the warm weather is giving temporary relief. Probably the latter condition prevails, for such is the nature of the disease. Up to the present time there have been 115 cases of smallpox in Escanaba, forty-eight of which number have been from the city. Yet not a single death has occurred. Not a case has been reported to the health officer since June 2, and the five patients in the pesthouse and the three quarantined homes are about ready to be released.

Houghton—The Houghton Light infantry will go on a forced march Saturday and some of the conditions of real camp life will be experienced. The militia boys will leave about 7 o'clock Saturday evening. Just where they will pitch their tents is not known, but this will be arranged during the week. This will be the first forced march of the season. Provision has been made to furnish tents and food, and the soldiers will be in camp somewhere near the Twin Cities on Sunday, returning in the evening. There will be no drill during the week and the feature of the week's military work will be the Sunday encampment. Blanket rolls will be carried and tents provided.

THE DAKOTAS.

Missing Huron Woman Eloped Instead of Being Drowned.

SOUTH DAKOTA.

Huron—What was supposed to have been the accidental death of Mrs. G. S. McEathron turns out to have been a cleverly planned disappearance that miscarried, if the story of an alleged confederate is true. Many prominent people of Huron spent much time dynamiting Jim river in the expectation of finding the body of Mrs. McEathron, only to learn that she had attempted to elope. This, in substance, was the story of Roy Underhill, employed on the McEathron ranch. A telephone message from the McEathron stock farm said that the woman had gone out for a drive, and later the buggy was found on a bridge across the Jim river, upside down, and the team later reached the McEathron ranch, the buggy tongue trailing between the horses and a search for her body was at once begun. Underhill has confessed that he placed his buggy in the position in which it was found and broke parts of it to make it seem that an accident had occurred. Underhill says that he drove Mrs. McEathron to Iroquois in a rig hired here. His plan was to return and assist in creating the impression that the overturned and broken buggy, in its dangerous position on the bridge, pointed conclusively to a fatal accident. When this view was accepted, his intention was also to leave the country.

Deadwood—Two former well-known residents of the Black Hills—William Morin and J. J. Goff—recently died, the former at North Platte, Neb., and the latter at Salt Lake City, Utah. Mr. Morin conducted an extensive freight business here in the early days.

The Elks are planning a flower fiesta as one of the principal features during their carnival in Deadwood the latter part of July. The business men and citizens are taking a deep interest in the coming carnival, which is to last five days.

Yankton—The Southeastern South Dakota Woodman's picnic was held here Thursday, but was badly spoiled by a heavy, steady rain. Despite this over 2000 were gathered.

NORTH DAKOTA.

Jamestown—Attorney Leslie, of Carrington has made arrangements to begin the building of a telephone line from Jamestown to Carrington to connect with his Carrington-Fessenden-Harvey line.

Grand Forks—Commencement exercises at the University of North Dakota conclude with the alumni banquet Friday evening. The exercises were held in the opera house in the afternoon. There were orations by Misses Cunningham, Sanford and Feiring and Messrs. Leroy Jackson, L. C. Davies and S. Steenberg. The Clarke prize was awarded to Leroy Jackson by a committee consisting of Mrs. Frank White, wife of the governor, and Judge Templeton and George B. Winship, of this city. Governor White presented the diplomas with a brief but very neat address, and remarks were also made by President Merrifield. The president's reception, which was held last evening, was one of the most brilliant events which ever took place at the university.

Fargo—The county Republican convention at Buffalo was a regular love feast, and the sixty-eight delegates selected for the state convention are unanimous in their support of ex-Congressman B. L. Spalding. The resolutions indorsed Spalding and his efforts to secure renomination, instructing delegates to use all honorable means to that end. Proxies were prohibited and the unit rule adopted. The national administration and the state representatives in congress were indorsed and also the state administration. Spalding made a short speech at the close of the convention work and was enthusiastically cheered.

WHITE SAYS NOT SO.

London, June 20.—Henry White, secretary of the United States embassy, has requested the Associated Press to contradict the announcement printed in New York and which has just reached here, of his daughter's engagement to Marshall O. Roberts.

NEGRO MURDERERS HANGED.

Baltimore, June 20.—Frank Jones and John Johnson, negro murderers of Israel Radetsky, a Hebrew peddler, were hanged in the jail yard at Elliott City, near this city, at 3 o'clock this morning.

OHIO STEEL RANGES

The Cook's Best Friend.

It is indispensible in a well equipped kitchen. Having protected ourselves by buying heavily in this line, before the recent advance, we are still able to make the

SAME OLD PRICES

And the purchaser reaps the benefit. Those contemplating the purchase of cooking apparatus, should avail themselves of this opportunity.

TEMPERANCE LESSON

International Sunday School Lesson For June 22, 1902.

Romans 13:8-14. "Owe no man anything, save to love one another: for he that loveth his neighbor hath fulfilled the law. For this, Thou shalt not commit adultery, Thou shalt not kill, Thou shalt not steal, Thou shalt not covet, and if there be any other commandment, it is summed up in this word, namely, Thou shalt love thy neighbor as thyself. Love worketh no ill to his neighbor: love, therefore, is the fulfillment of the law.

"And this, knowing the season, that now it is high time for you to awake out of sleep: for now is salvation nearer to us than when we first believed. The night is far spent, and the day is at hand: let us therefore cast off the works of darkness, and let us put on the armour of light. Let us walk honestly, as in the day; not in revelling and drunkenness, not in chambering and wantonness, not in strife and jealousy. But put ye on the Lord Jesus Christ, and make no provision for the flesh, to fulfill the lusts thereof."

Golden text: "Let us therefore cast off the works of darkness, and let us put on the armor of light." Romans 13:12.

LOVE AS LAW.

Love is a debt each man owes to every other man. It is not left for any one to choose whether he will love others or not. He must do it if he would be obedient to the laws of life, for love is at the root of all proper regulations of our relations with other people. As early as the time when Leviticus was written, love was recognized as the summary of the law; in the nineteenth chapter of that book a number of negative commands are given and then summed up in the antithetical precept, "But thou shalt love thy neighbor as thyself." The Apostle James calls love the "royal law." Paul follows the words of Jesus in declaring that love is the summary of the commands of the decalogue.

This doctrine is based upon the universal fatherhood of God. We are not only to love each other from motives of utility, that is, because mutual love makes life easier and happier; but, still more, because God is our common Father and all we are brethren, in whose souls flows the current of the spiritual life of our Father. We are bound together by a great kinship and ought to maintain a profound regard for our kindred. God loves us all, and all our lives should be fused into mutual love in the furnace of divine affection.

If a person truly loves another, that love is stronger than statutes and police power to prevent him from doing injury to that other person by the sins of adultery, murder, theft, lying, covetousness, drunkenness, or any other sin in the category of immoralities or crimes. Love never purposely does injury to another, but ever seeks to bestow the highest good. God is love, and his Divinity finds no better or finer expression than in serving man. But the devil was never known to render unselfish service to anyone, but in a thousand way is continually injuring those who yield to his allurements. To be godlike, then, one must render to his fellow-men the practical love of a useful life, and he must be scrupulous to avoid doing any injury to his fellows.

In his pyramid of character Peter puts love at the apex. "Add," "add," "add," was his advice; but when you have strengthened and beautified your life with all these other traits, such as diligence, virtue, temperance, patience, godliness and kindness, if love is lacking, the character is far from complete. Paul renders a paean of glory to love as the greatest of the graces, and points to it as the more excellent way, and tradition says that John, the beloved disciple, the author of the fourth gospel and the book of Revelation, when he was a very old man, would sit in the assembly of the church and, with an outstretched hand, say to the brethren, "My little children, love one another." The perfection of Christian character demands that the quality of love be continuously refined and that its quantity be increased.

The process of human thought has followed the outline suggested by divine revelation. Scientific men for a long time told the world that the struggle for life was the predominant motive and the highest; but now some of them tell us that a higher motive has been discovered, and that without it much life would become extinct. This higher motive is the struggle for the life of others. In the care of animals for their young we do not call it love, but instinct. It is, however, the same thing that in man we call mother love, and account the sweetest trait of the race. Yes, love is the fulfillment of the law of life.

THE FUTURE AS A MOTIVE.

If the caterpillar could conceive the beauty it will attain after emerging from its chrysalis stage, could see the variegated tints of its butterfly wings and have a foretaste of the sweets it will sip as it flits through the golden sunlight from flower to flower, how much its humble existence would be transformed! So man might think. But let man apply the principle to himself and he will easily discover that he fails to take advantage of that very opportunity. Man lives upon the earth in humble circumstances; his future as a child of God is far more glorious than anything he ever attains on the earth. And yet most persons do not live as though they cared whether or not their present manner of life fitted them for the future, they do not even seem to care if their present way of living actually unfits them for the future.

The nearness of our final salvation and the necessity of being prepared for it is repeatedly presented in the New Testament as a motive to the highest living. The early disciples were taught to live each day in readiness for the Lord's return, in case he should come at dawn or noontide or evening. In the Old Testament the day of the Lord was a favorite theme for the prophets who warned the people against laxity of moral life, lest the day of the Lord should come and find them not ready to meet him and be judged by him for all their deeds. The same principle is at the bottom of our Lord's parable of the talents. Paul's argument in the present lesson seems to go a step farther, since he pleads for spiritual activity because our final salvation is nearer than when we first believed. The plea is a logical one, for, the farther along one gets in his Christian life the more efficiently and zealously he ought to serve the Lord.

It has been sometimes said that the motive of the future has been borrowed too much as an incentive to right living in the present. Perhaps this has been true in some cases where the near approach of death or the uncertainty of life has been presented as the chief motive to moral conduct; whereas righteousness itself ought to be a sufficient and always a principal motive. If we say, work hard for Christ because death is near, the answer is apt to be ready on many lips that they can work less hard because they are confident that death is far away; and no reasoning ever invented can produce the practical conviction that death is at all times imminent. If we learn to work and live for Christ because we love him and his truth, then our motive will always be a steady one and not subject to the slight variations from minor incidents that characterize less comprehensive and powerful motives.

In the battle of Borodino thirty thousand dead Frenchmen and fifty-two thousand dead Russians were left on the field. Why such a terrific battle fought at so insignificent a village? Because the fate of Moscow was decided there, seventy miles away. Many times in life the effort one has put forth seems to be expended on a thing of little consequence, but in fact it is the winning or losing of something important for the future. The victories of forty are assured by the battles won in the thirties of life. We live today for the future as well as for the present. The present may seem dark and discouraging; but light it out with courage, for, "The night is far spent, and the day is at hand." The morning dawn will show a reason for all the present struggles.

HONEST LIVING.

The investment of character demands the attention of every person, because from the character flows the stream of conduct. "Out of the heart are the issues of life." When Paul says, "Put ye on the Lord Jesus Christ," he does not refer to some mystical, intangible idea, but to the possible participation by the believer in the character of Christ who came as a light to the world. It is, therefore, a very apt simile that enforces the truth in the exhortation to put on the armor of light. Paul describes this armor in the sixth chapter of Ephesians. But it must ever be remembered that this armor is not something artificial that can be tacked on to the outside of a man like veneer, but is a part of man's very self. Light enters into life. So life light of Christ enters into the Christian's life and gives it energy as well as purity, fits it for deference as well as for positive, aggressive character and conduct.

Carefulness is essential to the best living. "Let us walk honestly" does not refer merely to the strict sense of honesty, which has to do with one's integrity in matters of finance or business, but rather refers to the larger sense of clean, upright conduct in all matters of life. One ought to be sober, virtuous, truthful, industrious at all times. He ought to take care to hold in his passions and appetites, ever remembering the danger that will arise from giving them free rein. The man at the helm in a sail boat can easily cause the death of all on board by carlessness in handling the tiller; a driver in a carriage is responsible for the control of his horses, which could quickly imperil the safety of many persons if the driver should hold a careless rein. Likewise, carelessness of conduct may easily result in riotousness and jealousy and strife and all other disturbances of the moral relations of life, affecting not only the guilty person, but also injuring others who are totally unconnected with the guilt. American social life is now at a point where it is absolutely essential for the Christian to strive earnestly to provide things honest and pure before all men, else he will be swept away as in a tornado of social infamity.

One must keep forever adding new elements and strength to his character if he would actually partake of the divine nature. As Peter wrote, "Yea, and for this very cause adding on your part all diligence, in your faith supply virtue; and in your virtue knowledge; and in your knowledge temperance; and in your temperance patience; and in your patience godliness; and in your godliness love of the brethren; and in your love of the brethren love." Henry Drummond wrote a discourse on the ideal man from the text in Acts 13:22, "A man after mine own heart, who shall fulfill all my will." He is a man who is here to do God's will, whose sustenance is the food of Jesus who said, "My meat is to do the will of him that sent me." The society he seeks is that of those who do God's will and speak the language of Canaan and praise God with their hearts, seeking the education of divine grace, in reliance on the sure promises of God. Such a man will abide forever and have abundant entrance into the kingdom of heaven. He has put on Christ and made provision for the life of the spirit, instead of seeking to fulfill the lusts of the flesh.

BOWER REYNOLDS PATRICK.

SCROFULA

I bequeath to my children Scrofula with all its attendant horrors, humiliation and suffering. This is a strange legacy to leave to posterity; a heavy burden to place upon the shoulders of the young.

This treacherous disease dwarfs the body and hinders the growth and development of the faculties, and the child born of blood poison, or scrofula-tainted parentage, is poorly equipped for life's duties.

Scrofula is a disease with numerous and varied symptoms; enlarged glands or tumors about the neck and armpits, catarrh of the head, weak eyes and dreadful skin eruptions upon different parts of the body show the presence of tubercular or scrofulous matter in the blood. This dangerous and stealthy disease entrenches itself securely in the system and attacks the bones and tissues, destroys the red corpuscles of the blood, resulting in white swelling, a pallid, waxy appearance of the skin, loss of strength and a gradual wasting away of the body.

S. S. S. combines both purifying and tonic properties, and is guaranteed entirely vegetable, making it the ideal remedy in all scrofulous affections. It purifies the deteriorated blood, makes it rich and strong and a complete and permanent cure is soon effected. S. S. S. improves the digestion and assimilation of food, restores the lost properties to the blood and quickens the circulation, bringing a healthy color to the skin and vigor to the weak and emaciated body.

SSS

Write us about your case and our physicians will cheerfully advise and help you in every possible way to regain your health. Book on blood and skin diseases free. THE SWIFT SPECIFIC CO., Atlanta, Ga.

SALOONS

And Poverty Discussed By Secretary Gilbert of Y. M. C. A.

To the Editor of The Herald:

The topic of the Sunday school lesson for Sunday next is "Temperance." Realizing that there is a demand for fresh lines of thought in this connection (all Christians admit that drinking is immoral now-a-days) the writer ventures to suggest a few facts for the consideration of the Sunday school workers and scholars of the city.

Duluth's 160 saloons at $50 each per day equal $8000 daily. Taking for granted they are closed on Sunday (which they are not) we have 313 business days, and 313 days at $8000 equals $2,504,000. The drinking men alone in one year, in this city could buy the following with this worse than wasted money:

Give employment to 1000 needy men for one year at $2 per day	626,000
Give employment to 100 teams for one year at $2.50 per day	78,250
Present 200 widows with $100 each	20,000
Distribute 1000 bbls flour at $5	5,000
Distribute 120 families (needy) 100 bus of coal at 25c	3,000
Distribute 1000 pairs shoes to needy at $2	2,000
Buy 1000 dresses for women at $10	10,000
Buy 1000 dresses for girls at $5	5,000

Total	$2,097,250

Leaving a balance of $406,000 for miscellaneous expenses or bank account.

If it be true that 50 per cent of the prosecutions in the city of Duluth are primarily caused by liquor, the saving to the taxpayer by the abolishment of the traffic would amount to tens of thousands of dollars annually. It would mean, among other things:

1. A reduction in police force expenses, etc.
2. A reduction in expense for running jail, etc.
3. A reduction in expense for juries and other machinery required in prosecutions.

The little more than $160,000 received from the saloons as license is more than devoured by the enormous expense required to take care of its wards. Chief Troyer estimates that "most all" arrests are caused by drunkenness.

The licensing of the liquor traffic has been declared by all political economists and statesmen everywhere to be the most idiotic and unjust piece of legislation ever devised as it violates every law of economics, morality and common sense. It is held to be utterly unconstitutional by the leading legal authorities of the nation. Why it is tolerated is one of those strange inconsistencies that time will solve. There is not a single authoritative writer on the subject of economics who has not testified that the traffic is without a single redeeming feature.

The Sunday school teachers and scholars of the city will find many an interesting point for discussion by looking at the saloons from an economic standpoint. Some of these points suggested are:

1. Advantage to home life by abolition of the traffic, better food and clothing, more luxuries, better health, better dwelling houses, etc.

2. Advantage to business: Prompter payments, greater demand for goods (the money for which formerly was spent in drink, more travel by boat and trains and vehicle, greater demand for supplies, etc.

3. Advantage to morals: More order and cleanliness, better civic conscience, better educated children who formerly had to drop out and work because of the drunkenness of the breadwinner, better church collections.

And so ad infinitum.

What ought to be can be. What can be shall be. This is no dream. The railroad corporations are giving the world an object lesson on the application of plain, business-like, courageous, horse sense to government. What they require of their men and successfully obtain, this great government can and must do successfully.

IN SWEDEN.

Steel Corporation Said to Be Acquiring Mines There.

According to the Engineer, a London mining journal of high repute, the United States Steel corporation has extended its operations to the iron mines of Sweden. Discussing the subject, the Engineer says:

"The production of ore in Sweden in 1900 was 2,607,925 tons, in comparison with 2,434,606 tons in 1899 and 2,038,094 tons in 1896. About 40 per cent of the 1900 total came from Narhattenlan, nearly the whole quantity being the output of the Gellivara mines. The Kopparberg district furnished 32 per cent, and Orebro 12.50 per cent. In the Annual Review of the Swedish Iron and Steel Trade it is stated that the production of ferrous rock was 4,530,000 tons, which yielded 2,582,020 tons of dressed ore, or 58 per cent. The Gellivara contribution averaged 61.8 per cent. As much as 89.6 per cent of all the ore obtained in the country was magnetic.

"Considering the disability under which it suffers by the lack of coal, Sweden continues to hold its position very well. The production last year was less than 250,000 tons and the whole of that was anthracite, useful for railway and steamers and domestic consumption, but not for the iron industry. As a consequence of its poverty in this respect the country is under the necessity of importing large quantities of fuel to keep its iron works going. It draws mainly upon the United Kingdom for its coal, and, as a fact, it took from us last year 4,500,000 tons. But for this there can be no reasonable doubt that Sweden would have been heard of to much better purpose in this particular. In all other respects the conditions are favorable—more favorable, perhaps, than in Germany—certainly more favorable than in Belgium and France, if only for the presence of very high grade ore right at the doors of the mills. There being, in these circumstances, a limit to Sweden's capacity for progress in iron manufacture, and its deposits of ore being exceedingly abundant, there is no good reason why some of this wealth should not be utilied by other countries; but we should have liked to see the Gellivara mines pass into the control of Englishmen instead of an all-absorbing American combine.

"The Gellivara mines, with their annual output of over 1,000,000 tons, are not in the market; but there are other important producers, notably the Grangesberg mines in the Kopparberg and more which might be named in Gefleborg, Vestmanlands, and Orebro, to say nothing of localities known to contain ore, but not developed by reason of insufficient encouragement. Then further north than Gellivara are enormous beds quite untouched. With the completion this year of the railway from Gellivara to Ofotenfiord, on the Norwegian seaboard, the deposits of magnetic at Kirunavaara, and the more moderate deposits at Luossavaara, in the same neighborhood, will be made readily and cheaply accessible. The enterprise of the Swedish government in constructing a line in the extreme north of the country has made this possible; and, as a result, European ironmasters will be enabled to supplement their present supplies of ore with inexhaustible quantities of Swedish ore, averaging 67 per cent of iron.

"On the Kirunavaara range there is an unbroken stretch of three miles of ore-bearing ground, the deposits averaging from 100 feet to 840 feet in width, and a very conservative computation puts the total amount of ore waiting to be raised at 215,000,000 tons. The Luossavaara deposit extends for 4,200 feet, has a maximum width of 200 feet, and contains at least 18,000,000 tons of ore. These estimates are concerned only with the ore above the level of Lake Luossajarvi. There is every reason to believe that the veins persist below the level of that lake; but this may be left a neglected quantity until that time in the distant future when the more readily available material shall be in danger of depletion."

Another Improvement.

CHICAGO, BOSTON AND NEW YORK TRAVEL.

On and after June 15th, the Erie railroad will still further improve their Boston and New York service by offering to the public a handsome limited train to leave Chicago from Dearborn station every day at 10:30 a. m., arriving New York next afternoon at 3:30, and Boston at 9 o'clock.

There is no doubt that this service will be highly patronized, as this new train will land the traveler in New York city in ample time to permit him to proceed leisurely to his hotel or home, rest, dress, dine and spend the evening in whatever manner may appeal to him most.

This every-day morning train will consist of standard Pullman drawing-room and sleeping cars. All meals en route served by the famous Erie dining cars. No extra fare charged on this train.

Ticket office, 242 South Clark street, Chicago.

TONE IS STRONG

Foreign Inquiry For Wheat the Best In Many Months.

Duluth Market Strongest, Advancing a Full Cent.

New Crop Flax Futures Advance on Fear of Frost.

Duluth Board of Trade, June 20.—The Duluth market was very strong today, advancing 1c, while Chicago advanced ⅞c and Minneapolis ⅝c. The feature here was the very strong tone of the foreign inquiry. A state cable from London reported an advance of 1d in London August wheat after the close on sales to France. While not a great many loads were worked here for export the significant feature was the manner in which the foreigners bought wheat in the face of the advance here, he sentiment over there seems to be decidedly different from what it has been and is stronger today apparently than it has been for months.

Every influence seemed to be bullish in wheat, in the wheat country the rains are continuing to such an extent as to be alarming. The cables were strong, Liverpool showing an advance of 5@6d, and Paris, 1½@2c. Receipts were moderate.

Primary receipts of wheat were 728,000 bus, last year, 447,000 bus. Shipments, 475,000 bus, last year, 324,000 bus. Clearances of wheat and flour aggregated 1c,000 bus. Argentine shipments for the week were 767,000 bus, against 304,000 bus the previous week and 888,000 bus last year. Bradstreet reported clearances of wheat and flour for the week of 3,590,000 bus, against 3,460,000 bus last week, and 5,521,000 bus last year.

Corn in the Chicago market was slightly stronger advancing ¼c. Oats advanced ⅝c. Primary receipts of corn were 735,000 bus, last year, 225,000 bus. Shipments were 132,000 bus, last year 289,000 bus. Clearances of corn were 6000 bus. Argentine shipments for the week were 1,456,000 bus last week, 1,068,000 bus last year, 1,302,000 bus. Bradstreet reported clearances for the week of 111,000 bus; last week, 550,000 bus; last year, 2,435,000 bus.

Receipts of wheat at Duluth and Minneapolis, 293 cars, and at Chicago, 25, a total of 318 cars, against 245 cars last week and 293 last year.

Trading in wheat on the Duluth floor was light and the market very strong. The opening was ¼c up at 69½c and it sold steadily up to 70c at 9:55 and continued steady at that price for more than an hour, finally selling to 70¼c at 11:22. It continued at that price to the close, which was at 70½c. This was an advance of 1c.

Cash prices continued at ¼c over July for No. 1 northern, 1¼c under for No. 2 and 3c under for No. 3. Sales were 12,000 bus.

Fears of frost in the flax country caused a lively advance in the fall futures today, the September option showing a gain of 2½c and the October 3½c. Trading was fairly active.

Following are the closing prices:

Wheat—Cash, No. 1 hard, 73¾c; No. 1 northern, 70½c; No. 2 northern, 68c; No. 3 spring, 73¼c; to arrive, No. 1 hard, 73¾c; No. 1 northern, 70—c; July, 70¼c; September, 72⅝c; Manitoba, cash No. 1 northern, 70½c; No. 2 northern, 68¼c. Oats, on track, 45c; September, 30¼c. Rye, 55½c; September, 53¼c. Flax, cash, $1.70; to arrive, $1.65; on track, $1.65; June, $1.65; September, $1.41½; October, $1.39⅝; Cash Northwestern, $1.75.

Cars inspected—Wheat, 36; last year, 36; corn, 5; oats, 1; barley, 1; flax, 3.

Receipts—Wheat, 11,955; corn, 2955; rye, 1628.

Shipments—Wheat, 107,655; rye, 1318.

THE CHICAGO MARKET.

Bullish Sentiment Pervaded Grain Pits at Opening.

Chicago, June 20.—Bullish sentiment pervaded the grain pits at the opening today on the influence of strong cables and wet weather. July wheat started ½c to ⅝c up at 73⅞c to 74c and advanced to 74½@¾c. Rains fell over most of the wheat country. Bad weather was reported from Texas and although fair weather prevailed in France prices there were 1c to 1½c higher. There were some small offerings on the bulge and July slipped off to 73⅝@¾c and steadied. Local receipts were 25 cars, 2 of contract grade; Minneapolis and Duluth reported 293 cars, making a total for the three points of 318 against 245 cars last week and 293 a year ago. Argentine shipments were 764,000 bus, compared to 304,000 bus last week.

General reports of rain arrived as the session advanced and harvest advices told of much water in the wheat. The result was an advance for July wheat to 74½@¾c. Some liquidation at top prices took off a little of the gain, but July closed strong ⅞c higher, at 74¼c.

Corn started fairly active and stronger on wet weather and the wheat bulge. July opened ¼c to ⅝c higher at 65¼c to 65⅞c and sold at 66c. Liquidation for profits by a few small longs, together with a slight pressure by the bull party depressed July back quickly to 65¼c. September was in very good demand early. Receipts were increased at 229 cars, 22 of contract.

Corn fluctuated after the lead of wheat late in the session and July closed firm ⅛c up, at 65½c.

Oats opened firm with a good commission house demand. Selling was only scattered early and on small receipts a continued good cash demand and light offerings, prices held well. July started ½@¼c to ½@⅝c up at 39⅜c to 39¾c and ruled hung about 39¾c. Receipts were 181 cars.

Provisions were strong at opening on a strong early hog market and a good demand from packers. The closing hog market eased somewhat but after a small dip the provisions the whole list recovered strength and held strong. July pork opened 10c higher at $17.85, the top price of the year, sened to $17.77½ and regained its opening figure. July lard started 5c up at $10.40 and sold at $10.42½ and July ribs 2½ to 5c up at $10.65 to $10.67½ and sold at $10.70.

Close, wheat, June, 74¼c; July, 74¼c; September, 72¾c; December, 73⅝c. Corn, June, 64½c; July, 65¼c; September, 58¾@¾c; December, 45¼c; May, 43⅞c. Oats, June, 42c; July, 39⅞c; new, 39⅝c; September new, 34¾@35c; December, 35¾c; new, 33⅝c. Pork, June, $17.87½; July, $17.87½; September, $18.07½; January, $16.65. Lard, June, $10.45; July, $10.45; September, $10.47½ @10.50; October, $10.42½. Ribs, September, $10.67½; December, $9.67½; January, $9.57½; May, $9.30. Ribs, June, $10.75; July, $10.75; September, $10.80; January, $8.85. Bradstreet reported clearances of wheat and flour for the week of 3,590,000 bus, against 3,460,000 bus last week, and 5,521,000 bus last year.

Corn in the Chicago market was slightly stronger advancing ¼c. Oats advanced ⅝c. Primary receipts of corn were 735,000 bus, last year, 225,000 bus. Shipments were 132,000 bus, last year 289,000 bus. Clearances of corn were 6000 bus. Argentine shipments for the week were 1,456,000 bus last week, 1,068,000 bus last year, 1,302,000 bus. PUTS AND CALLS.

Minneapolis market.—
Puts, July wheat, 70¼-⅜c bid.
Calls, July wheat, 71⅛c asked.
Curb, July wheat, 70⅝c.

MARKET REPORT.

Received over private wire of B. E. Baker, grain and stock broker, 507 Board of Trade, Duluth, Minn.

Chicago, June 20.—The wheat market ruled very strong all day with a large and active trade, unsettled weather abroad, also rains again in the winter wheat belt caused free covering by shorts. There was more or less profit-taking during the day which caused slight reaction early, but good buying toward the end of the session caused prices to rally again. The market closed firm, July ⅝c, September ⅞c and December ⅝c higher than last night. Foreign markets were generally firm, especially Paris, affected by the weather. Liverpool closed ⅝@⅝d higher for the day. Cash demand was rather quiet. Advance in the market checked business. The seaboard reported similar conditions there. The weather in this country looks like improving and should conditions abroad become more favorable we look for a setback in the market, as shorts have covered pretty freely. However, should conditions continue unfavorable, prices undoubtedly will work to a higher level. Estimated receipts for tomorrow, 30 cars. Trade in corn was very light today and there was no special feature to the market. July option after starting at 66c, declined to 65¾c and closed at 65¾c bid. The far futures were firmer on fear of too much wet weather. September closed ⅛c and December ¼c higher than last night. Country acceptances were generally light, because cash people are not bidding very freely in the country on account of daily manipulation. Cash demand was very quiet; in fact there is hardly any demand. Estimated receipts for tomorrow, 255 cars.

There was a fairly large trade in oats today and the market ruled very strong. There was plenty of cash demand and No. 2 white was reported selling on track at 47½c to 48c. Country offerings were very light. The market closed July old and new, ⅝c higher than last night; September closed, old, ⅝c, and new, ⅞c higher than last night. Weather was very unfavorable and complaints are coming of too much rain. The general situation looks strong and the cash demand alone, in our opinion, will put prices higher. We believe in buying new July oats on all weak spots. Estimated receipts for tomorrow, 350 cars.

Provisions opened with a rush to buy on very light receipts of hogs and a sharp advance at the yards. h'e great strength in wheat helped and the outsider was a ready and persistent buyer all day. There was supposed to be attempts by leaders to sell but the market was very nervous and then it was stimulated by buying orders. January product was traded in quite heavily and it is now so that good orders can be executed without trouble, this position is around we think to soon monopolize the trade. Cash demand was reported better and was worked for all it was worth, but the unexpected selling by packers and others broke the market. We advise selling January land and pork on all rallies for a long pull. Estimated receipts for tomorrow, 16,000 hogs.

Good to prime steers, $5.50@8.00; poor to medium, $4.75@7.40; stockers and feeders, $2.00@5.35; cows, $1.40@5.75; heifers, $2.50@6.25; canners, $1...@2.40; bulls, $2.25@5.00; calves, $2.50@6.00; Texas steers, $4.00@6.00. Hogs, receipts today, 16,000; tomorrow, 12,000; left over, 3000. Ten cents higher. Mixed and butchers, $7.20@7.65; good to choice heavy, $7.35@7.75; rough heavy, $7.20@7.40; light, $7.15@7.50; bulk of sales, $7.35@7.50. Sheep, receipts, 5000. Steady. Lambs steady. Good to choice, $4.00@4.75; fair to choice mixed, $3.75@4.50; Western sheep, $2.50@4.75; native lambs, $6.00@7.00; Western lambs, $6.00@7.00; spring lambs, $7.25. Yesterday, receipts—Cattle, 7381; hogs, 20,287; sheep, 12,142. Shipments—Cattle, 3234; hogs, 2386; sheep, 917.

TREASURY BALANCES.

Washington, June 20.—Today's statement of treasury balances in the general fund, exclusive of the $150,000,000 gold reserve in the division of redemption shows: Available cash balance, $202,136,146; gold, $99,712,731; silver, $24,120,702; United States notes, $9,373,712; treasury notes of 1890, $92,096; national bank notes, $9,601,864; total receipts this day, $1,925,754; total receipts this month, $31,648,807; total receipts this year, $545,377,526; total expenditures this day, $1,620,000; total expenditures this month, $27,796,000; total expenditures this year, $465,166,797; deposits in national banks, $127,363,819.

CLASS DAY AT HARVARD.

Cambridge, Mass., June 20.—The annual class day exercises of Harvard university were held today. The class oration was delivered by Roscoe Conkling Bruce, of Tuskegee, Ala. Bruce is a colored man and is going into educational work in the South.

ACCIDENTALLY SHOT.

Ottumwa, Iowa, June 20.—James Wharton, a well-known traveling man of Atchison, Kan., was accidentally shot and killed in a restaurant at Leon last night by Lou Betrick, the proprietor.

Wisconsin Central Trains

Reach Chicago, Milwaukee and all principal points in Wisconsin and make connections at Chicago with all trains for Eastern and Southern points. Travelers from the head of the lakes will find comfort and satisfaction in this popular route. Detailed information may be had by consulting with M. J. Bryan, general agent, 430 West Superior street, Duluth.

DULLNESS IN STOCKS

Opening Trading Quiet and Prices Changed Only Fractionally.

Selling Movement Followed By a Sharp Advance In St. Paul.

Colorado Fuel Was Also Carried Up By the Reaction.

New York, June 20.—The opening trading in stocks was quiet and prices were changed only fractionally. St. Paul was carried up nearly a point and a sale of 3600 shares of United States Steel depressed it a quarter. The changes otherwise were mixed.

Room shorts became alarmed at the buying of St. Paul, which advanced it 1½ and covered in the general list, lifting prices well above yesterday's close. The Southwestern group were firm. Chicago & Eastern Illinois advanced 2¼ and Illinois Central, St. Louis Southwestern preferred, Cotton preferred and Lead a point. Some profit-taking followed the advance and the leaders all lost substantial fractions again, Colorado Fuel was exceptionally weak, declining 3 to 92½.

The market became intensely dull when the selling movement ceased and did not sympathize much with an advance in United States Steel to 38. Colorado Fuel rallied over 2 points, but the subsequent movement was irregular. Louisville & Nashville, St. Louis & San Francisco, first preferred, Crucible Steel and North American lost 1 to 1½. The Wabash stocks came into demand and advances of a point. Bonds were steady at noon.

The Southwesterns generally followed the rise in the Wabashes, St. Louis Southwestern preferred rose 2¾ and others in the group about a point. Snuff gained 2⅝. Rubber Goods preferred lost 2¼ St. Paul preferred and Corn Products about a point. The general market was dull and unresponsive.

The advance was renewed in St. Paul with considerable vigor and the price advanced 2 points to 174⅝. The Southwestern group reached a higher level and some of the usually inactive stocks were helped. American Snuff increased its gain to 4 points. St. Joe & Grand Island first preferred and Delaware & Hudson also followed suit. Rocking Valley first preferred declined a point and the whole market was a faction lower at 2 o'clock.

The reaction carried Colorado Fuel up to 83. The market steadied but remained very dull. General Electric fell 2 and Erie second preferred about a point. Rock Island recovered its quarterly dividend. A bid of 150 for Panama was raised to 155 without ringing out any stock. Canadian Southern rose a point and Anaconda 1¾. The closing was dull and heavy.

Stock quotations reported for The Herald by Edwards, Wood & Co., Room A, Torrey building, Duluth. Closing prices are bid prices:

The total sales were 361,500 shares.

STOCK GOSSIP.

Chicago Record-Herald: It is thought in good quarters that the decision in the injunction case against the steel trust will be against the company on appeal unless some new position from a legal point of view can be established. The essential point in the steel case is that the stockholders possess certain rights and that the enabling act of the legislature did not impair these rights. The plan of the company does not permit any stockholder to maintain his former position. Whether that position is changed for better or worse may be disputed. The position of the assenting stockholder is changed by giving him a lower rate of interest if a better security. The position of the nonassenting stockholder is changed by putting a fixed charge ahead of his dividend. Very good lawyers insist that a stockholder in such a case cannot have his position changed against his will, except in case of necessity by foreclosure. He has a right to stay as he was unless inducements are sufficient to make him wish to change. Reasoning from this it was assumed that the injunction would be continued, and it is believed in some circles at least that the ultimate decision will be against the company unless stockholders prove in the end to be satisfied to have their positions changed.

The principal interests in Missouri Pacific—who are mainly responsible for the recent activity and strength in the stock—claim that the system is now or very shortly will be in a position where it can pay regular 5 per cent dividends under any circumstances.

Commenting on the deficit of $54,534 in April an official of Missouri, Kansas and Texas says: "It is the first of our bad months. During the summer months our traffic falls off greatly, the grain supply of the previous year being exhausted about March 20 each year."

Metropolitan insiders say there is an old short interest of considerable proportions in Metropolitan stock, and that this may be forced to cover before long. The argument used to stimulate bull sentiment is that the stock is an absolutely safe investment, and with its 7 per cent dividend guaranteed it is the cheapest stock of the kind on the list.

• • •

Ridgley to W. H. Laidley & Co.—The reaction came a little earlier than I expected, in my judgment this is simply a natural reaction in a bull market and stocks should be purchased on weak spots today. Union Pacific looks as good as anything else. Southern Pacific is spending $1200 more per mile on operating expenses than Atchison. If Southern Pacific can be operated at the same rate as Atchison it will make ten million per year saved or another 5 per cent added to the present net earnings. The stock has got to advance some time. The United States Steels had ought not to go a single point lower. I prefer the railroads, however.

• • •

Waldorf to Edwards, Wood & Co.—Owing more to technical causes than to any unfavorable developments in the situation, stock sentiment tonight is unusually mixed. It is generally agreed, however, that the market acts fairly well in the face of threatened soft coal strike, the partial suspension of work by miners in the bituminous regions in Pennsylvania in sympathy with the striking anthracite workers and the talk of an early resumption of gold exports. Against these adverse influences are the favorable crop advices and increasing railroad earnings and they seem the considerations uppermost in the minds of the larger operators and investors. Hence the liquidation induced by the persistent decline in the shares of the United States Steel corporation is mostly for the act of small speculators and weak pools, while the room traders, the majority of whom are bearish are seeing freely enough to increase very largely the short interest throughout the general list. As money continues a drug the feeling obtains that railroad stocks should rally whenever the bull interests see fit to renew the aggressive tactics in evidence early in the week and that Union Pacific, Missouri Pacific Atchison and Reading common are the stocks to buy on a scale or on recessions. One of the strong reasons why conservative speculators favor these properties so consistently is the fact that the big men and baking interests identified with them give them protection when it is needed. Gould in Missouri Pacific, the Berwind interest in Atchison, Kuhn, Loeb & Co. in Union Pacific and the Morgan, Baltimore & Ohio interest in Reading are there to take care of their specialties whenever attacked and likewise to take the stock of small owners when scared into selling.

• • •

New York to Paine, Webber & Co.—The railway list is steady. St. Paul is the strong feature and is being used to stiffen the market. There has been as yet but small liquidation in steel stocks. Any continuation of the decline would bring out a large amount.

• • •

Harris, Gales & Co.: The New York Commercial presents the following figures of United States Steel corporation earnings:

"The first quarter of the United States Steel corporation for the second fiscal year, namely, the quarter ending with June 30 next, will be seen to have been quite the most prosperous in the history of the combine. It is estimated by a man on the inside, who keeps himself in close touch with these matters, and who previously has made accurate forecasts of the combine's earnings, that the net for this quarter will aggregate not less than $138,000,000. Following are the estimates by months: April, $11,600,000; May, $13,500,000; June, $13,000,000; totals, $138,100,000. In the corresponding quarter of last year, which, by the way, was the combine's initial quarter, earnings were as follows: April, $7,356,744; May, $9,612,319; June, $9,234,747; total, $26,303,540. It is seen, therefore, that the estimate of earnings for the first quarter of the second year are $11,736,160 over the net earnings for the first quarter of its first year.

• • •

Warrington to W. H. Laidley & Co.: The action of United States Steel is beginning to show evidence of uneasiness in the rest of the market. The pronounced weakness of these stocks does not argue well for other securities. It also is indication of selling in various quarters and in view of such being the case would be careful about buying on bulges. I am anticipating no serious decline.

• • •

W. H. Laidley: There seems to be a general impression which of late has sprung up and has rapidly grown, that it is only a question of time when the trust profits in United States Steel will be materially diminished by competing companies. It surely looks as if there was something wrong when a stock-paying dividend like this one does and with earnings the very best (as reported by the company) continues to decline in price with apparently no rallying power to it.

COPPER GOSSIP.

Houghton to Paine, Webber & Co.: The new Baltic hoisting machinery was set in motion last Monday and worked splendidly. The old hoist will be put in commission Saturday night. It is expected the new one will be connected up Monday. Baltic output for June will be double that of March output with but two additional machines operating. A few extra trammers furnished the only increased cost.

• • •

Boston to William H. Laidley & Co.: The only interest today was local, and that in the re-organization of the N. E. Gas and Coke company. We think the stock of the Mass Gas company will prove very popular and will show fine advances. There is nothing doing in local coppers.

Bonbright to Paine, Webber & Co.: The continued heaviness of Amalgamated caused some further selling pressure in other coppers today. Offerings were all well taken and there was no feature of special weakness in the list. Amalgamated interests were said to be offering Lake copper at 12.00 cents. Otherwise the price of copper is quoted at 12⅝ to 12¾ cents. The bearish operations in the metal lead many to believe that the operators are buying copper stocks. There has recently been some buying of coppers in this market on reactions for New York, and we think all good coppers are a buy.

THE COTTON MARKET.

New York, June 20.—The cotton market opened easy with prices 3 to 4 points lower under selling by buyers of yesterday. At 10:30 the market had stiffened up to last night's prices with the tone quite firm. Claims that Texas cotton was suffering badly through absence of rains helped to harden prices. Liverpool refused to respond to the strength here and by 11 o'clock the market had sagged back to the opening figures, with feeling rather bearish on a forecast for cloudy conditions with thunder storms over extensive portions of Texas. Trading was fairly active in a scattering way throughout the early session.

Cotton spot closed quiet; middling uplands, 9¼; middling gulf, 9½; sales, none. Cotton futures closed quiet and steady: June, 8.86; July, 8.52; August, 8.28; September, 7.91; October, 7.83; November, 7.80; December, 7.79; January, 7.79; February, 7.79; March, 7.82.

NEW YORK MONEY.

New York, June 20.—Money on call, easy, 2@3 per cent, closed offered at 2 per cent; prime mercantile paper, 4@5 per cent; sterling exchange, firm with actual business in bankers' bills at $4.85¾ for demand and at $4.85½@4¾ for 60 days. Posted rates, $4.86@4.86. Commercial bills, $4.84½ @4.85⅛. Bar silver, 52⅝c. Mexican dollars, 42½c. Government bonds, easy; state bonds, inactive; railroad bonds, irregular.

NEWS OF THE LAKES

Hadley Goes to the Bottom Again During the Night.

Pumps Got as Far as Cargo, Where They Were Blocked.

The Coal Will Be Taken Away From One Hatch.

When darkness settled down over the steamer George G. Hadley last night her stern was well up out of the water, and there was every hope that before many hours the vessel would be inside the harbor.

When daylight broke this morning the steamer was on the bottom again, as deep as ever, showing that the hard luck that has pursued the wrecking operations from the start was still on hand.

Last night at 11 o'clock word was sent in from the wreck to have the tug Inman, of the Union Towing company, sent out to bring in the Hadley. Before she could be made ready, however, the order was countermanded, for it was found that the pumps could not hold the vessel up. As soon as work was relaxed a trifle the water gained rapidly, and this morning she was on the ground again.

The water in the vessel was lowered several feet, but when the coal cargo was reached it prevented the pumps getting down deep enough into the hold. It, therefore, became necessary to shift part of the cargo under one hatch, so that the pumps could get deeper into the vessel, after which it was thought she could be raised.

The Hadley's stem did not leave the mud at all, but even when the stern was well up it held fast. The decks were not level then, however, and probably as soon as they are the stem will work loose from the sand. It was thought this morning that some of the filling in the hole in her stem had come out, and this was being looked into.

Four pumps and a hydraulic dredge were doing the pumping on the steamer, and they poured a vast quantity of water over her sides. Of course some water was coming in all the time, but the pumps kept well ahead until the coal cargo was reached.

It was hoped this afternoon that the Hadley would be floating by night.

WILL TRY IT AGAIN.

The local members of the Licensed Tugmen's Protective association say that the court's refusal to enjoin the Cleveland inspectors from revoking the licenses of the Cleveland strikers is not final, and that the attorneys for the men will make another attempt. The following telegram was received here this morning from the Cleveland council: "Injunction refused on technicalities, without deciding main question. Will amend." This is taken to mean that the pleadings will be amended to overcome the technical objections, and that the proceedings will be continued.

A telegram was also received this morning from Grand President McCarle of the L. T. P. A. at Chicago, saying that great lakes officials are there to see him and that it looks favorable for a settlement. He reports that the men are standing firm at all points.

SIGNALS ARE NEGLECTED.

The customs officials of the port of Duluth have been notified by the local steamboat inspectors that for some time past there has been negligence on the part of masters and pilots of all kinds, steamers and harbor craft, in observing the proper signals of whistles as well as the display of lights after dark. Particular stress has been made in regard to the passing signals. The customs officials will investigate the complaint and hereafter all masters and pilots that do not live up to the regulations will be subjected to a heavy fine, provided by the statutes.

SMALL LOTS OF GRAIN.

Chicago, June 20.—(Special to The Herald.)—A good deal of grain in small lots was being picked up by the lines at old rates today, but full cargoes were scarce. Rates were unchanged.

RATES MAY CONTINUE.

Cleveland, June 20.—(Special to The Herald.)—Vessel owners say they would not be surprised if present rates, both on coal and iron ore should continue throughout the summer.

WYANDOTTE IN COLLISION.

Amherstburg, June 20.—(Special to The Herald.)—The steamer Wyandotte, while rounding to in this port today, collided with the barge Dashing Wave in tow of the Annie Laura. The schooner was struck amidships and cut to the water line. She was beached at Ellicott's Point. The Wyandotte was but slightly injured in the crash.

PASSED DETROIT.

Detroit, June 20.—(Special to The Herald.)—Up: Seneca, 9 last night; Spalding, Massachusetts, 9:20; Frontenac, 10; Nottingham, 12:40 a. m.; Colonial, 1:15; Lafayette and whaleback, 1:40; Fitch, 2:20; Hope, 2:40; Worthington, Hackett, McGregor, Gilchrist, Tyrone, 3:30; Thomas Palmer, 3:40; Yuma, Alva, 3:50; Parnell, Black, 4:20; Shores and barges, Northern Wave, 5:15; Maunaloa and whaleback, 5:30; Hill, 6:20; Colonel, Shenandoah, 7; Caledonia, Wynesta, Maryland, Samoa, 9:40; Edenborn and whaleback, 10; Senator, 10:40. Down: Wells, Christopher, Hoyt and whaleback, 9 last night; City of Rome, 9:20; Ira Owen, 9:30; Lycoming, 9:40; Rochester, 10:40; Susquehanna, 11:15; Yale, 1 a. m.; Grove and barges, 1:15; Pioneer, Chattanooga, 2:50; Oliver, Norton, Tempest and barges, 3; Tacoma, Crosthwaite, 3:10; Grecian and whaleback, 3:20; Annie Laura and barges, 4; olVuntcer, Yukon, 5; Clyde, Amboy, 5:20; George Gould, James, 5:40; Masaba, Marcia, 6; Veronica and consort, 7; Neshoto, 8:10; Rose and barge, 8:21; Matoa, Manhattan, Magnetic, 8:30; Syracuse, W. L. Brown, 9:20; Priscilla (cleared), Gates, 9:30; Theano, Barium, Benton, Ferguson, 10.

Up yesterday: Presque Isle, 11:20 a. m.; Rand, Lansing, 12; Canisteo and barges, 12:20 p. m.; John Mills, 1:

OPENING DAY TOMORROW!

The New Shoe Store!

LYNCH & BLODGETT

124 West Superior Street.

The Shoes that Fashion says you must wear, are here—fresh from America's foremost makers—up-to-date and dainty—made expressly to our order, and guaranteed in every way.

Ladies' Street Shoes, Oxfords, Colonials, Sandals and Slippers.

Misses' Shoes in every good leather, every correct toe and heel, every width and size.

Children's Shoes, strong, comfortable, and of natural shape.

Come in tomorrow—We'll be pleased to see you.

124 W. Superior st.

A HOT TIME.

Wisconsin Mining Man Travels at Too Swift a Pace.

A mining man from a Wisconsin town who has sowed a heavy second crop of wild oats in Duluth during the past few days. He is a tall, fine looking man and looked quite stunning in his Panama hat, percale negligee shirt, belt and light gray suit and low shoes. He created quite a stir by attempting the unusual feat of drinking all the whisky on both sides of Superior street while going in one direction. He made many trips up and down and every time he passed the contents of every decanter on both sides of the street was visibly lowered.

He was on his way from Necedah to Port Arthur to look after some mining interests and while waiting for a boat happened to drop into the idea that it would be a fine thing to paint Duluth a deeper tint of carmine than people here were accustomed to. He walked and drove and by reason of his striking appearance, a very pronounced summery effect, and did not fail to attract all the attention that the most exacting might desire.

He kept his gait for a day or two, but today the pace grew too strong even for his style of scorching. He was told by the police several times to keep to his hotel and not be seen on the streest, but he did not heed the kindly advice nad shortly after noon yesterday he was sent to the police station in the patrol wagon to sober up.

It is not likely that a charge of drunkenness will be pressed against the stranger, for he has made no trouble for anybody. He simply "blew" himself in the most approved fashion.

A couple of days ago he was liberally provided with funds, but when searched at the station only 83 cents was found upon him, in addition to his watch.

It is said that the man has options on some Mesaba range properties. The prisoner begged hard to be allowed to go a short time after he was locked up. He appealed to Chief Troyer but the latter told him that he must get sobered up before he would be allowed to go. He has every appearance of being a gentleman and a man of affairs and does not look like a man that is accustomed to drink.

MEN PROMINENT IN THE ORGANIZATION OF THE TWENTY MILLION DOLLAR UNITED STATES SHIPBUILDING COMPANY.

In the recently organized United States Shipbuilding company are combined such powerful factors as the Union Iron works of San Francisco, which built the Oregon; the Bath Iron works, limited, and the Hyde Windlass company of Bath, Me.; the Crescent shipyard and the Samuel L. Moore & Sons company of Elizabethport, N. J.; the Eastern Shipbuilding company of New London, Conn.; the Harlan & Hollingsworth company of Wilmington, Del., and the Canda Manufacturing company of Carteret, N. J. Lewis Nixon of the Crescent shipyard and Irving M. Scott of the Union Iron works are generally regarded as the moving spirits of this gigantic twenty million dollar combination, which is expected to practically control the heavy shipbuilding of the United States.

WOOD ROASTS HILL.

Says His Statements Showed Profound Ignorance.

Washington, June 20.—Gen. Wood, former military governor of Cuba, today authorized the following statement in regard to criticism of his administration made by D. B. Hill at the Tilden club reunion last night:

"This statement made by Mr. Hill shows either a most profound ignorance of the subject to which he refers or an absolute disregard for the truth. If he had ascertained the facts and desired to state the truth, he would not have made the statement which he is credited with having made."

YALE-HARVARD GAME.

Cambridge, Mass., June 20.—The baseball game between Yale and Harvard postponed yesterday was played today. At the end of the seventh inning the score stood: Yale, 6; Harvard, 0.

Final score: Yale, 7; Harvard, 2.

The Herald is the business man's paper, because it gives him the latest news—the news of today, not yesterday. Hence, to reach him, advertise in The Herald.

IT IS NOT CREDITED

Report From Pittsburg of Big Mining Deal Not Believed.

Story That Union Steel Company Pays Million Dollars For Lands.

Arcturus Deal Denied---Mine Alleged to Be Showing Poorly.

A dispatch from Pittsburg announcing that the Union Steel company had purchased iron ore lands on the Mesaba range to the extent of $1,000,000 cannot be confirmed here. It is well known that the company has been in the market for desirable properties for the past year or two. It is presumed that the report was based upon reports from Duluth to the effect that the steel company in question had closed for the Holman property on the western Mesaba.

A local representative of the Union Steel company says that the $1,000,000 transaction, or any number of recent transactions involving that sum, is news to him. It is said today that it is not even certain that the Union Steel company will take the Holman property, but this is street talk. It is known that the Donora Iron company, which is the mining corporation of the Union Steel, has been contemplating putting down a shaft on the Holman, but that it is not certain such action will be taken.

The report that the Arcturus mine has been reoptioned is denied. The local representatives of the fee owners are disposed to maintain a discreet silence. They say that if the Howe-Kimberley syndicate want to throw up their option they are at perfect liberty to do so, but, that they will find the recovery of the money, paid for the option, a very different proposition. They also say that the property was optioned upon its merits.

In spite of all rumors to the contrary the fact remains that the Howe-Kimberley people seem to feel disappointed with their bargain and are said to declare that the ore body, shown on the blue print plans, is not nearly as extensive as it was represented.

Neither side to the controversy was willing to talk much today, but all agree that if this option should be thrown up it will mean a very bad black eye to the mining prospects of the western end of the Mesaba range.

DEAD AND INJURED

Latest List Received From the Wreck at Staples.

Five Were Killed and Twenty-Nine Were Injured.

Remains of Engineer Scott Supposed to Be In Wreckage.

St. Paul, June 20.—(Special to The Herald.)—Five killed and twenty-nine injured are given in the list of casualties in the wreck near Staples, Minn., early in the reports to the general offices of the Northern Pacific railroad in this city. Engineer Walter Scott, not found, supposed to be in wreckage; F. Moeller, dead; Conductor John Noble and Dan Kennedy, section laborer, killed; Fireman George Rasmussen, killed.

Injured: Fireman H. Montgomery, leg crushed; Harry Greene, Minneapolis, back bruised; Charles Delmore, residence unknown, arm fractured; Claude R. Black, Concord, N. C., right wrist cut; F. F. McBride, mail clerk, St. Paul, head cut and arm sprained; W. F. Haggard, express messenger, St. Paul, right leg bruised; J. Elmer Nelson, Cooperstown, head bruised; Andrew Munser, Cooperstown, forehead cut; William Krause, Ionia, Iowa, right leg bruised; Felix Simmons, Fargo, side and arm bruised; Henry Snippenheim, Beards, Minn., arm scratched; Charles Nadtezke, Delmar, Minn., scratched over right temple; Ed Baetcher, Blue Earth City, contusion of shoulder and elbow; Mrs. E. G. Haye, Spiritwood, N. D., Bruise of leg; E. Keck, St. Paul, badly shaken up; Engineer E. G. Schultz, of train No. 8, both legs broken and otherwise badly bruised; Harry Zimmer, Hammond, Ind., injured internally, probably die; Fred M. Taylor, Batavia, Iowa, right arm and side bruised; A. J. Kirkpatrick, Batavia, Iowa, right hand slightly scratched; H. Gayer, Minneapolis, back sprained; Samuel C. Feltis, Lamoure, N. D., thumb cut and wrist sprained; Oliver Resnick, St. Cloud, right hip bruised; F. F. Wilcox, Panora, Iowa, bruised over right eye; George Brean, Wadena, bruised on head and chest; L. A. Kennedy, Winnipeg, injury to abdomen, slight; George C. Bellows, French Creek, Iowa, right hand bruised; I. L. Gordon, Chicago, head bumped and back sprained; F. O. Routh, New York, left knee sprained; Nellie D. Sanford, residence unknown, head bumped slightly; S. B. Moore, Buffalo, head bumped slightly; head brakeman on train No. 8, right arm crushed and head cut.

Following were taken to hospital at once: E. C. Schultz, W. H. Montgomery, Harry Zimmer, head brakeman on No. 8. Dan Kennedy was supposed to have been stealing passage.

WHY NOT THE ARMY

Pertinent Questions By Jones In Discussing Philippine Bill.

Schley Censured But Smith and Waller Go Free.

Washington, June 20.—The house met at 11 o'clock today. A bill was passed to recognize the military service of officers and enlisted men of the First regiment of Ohio, light artillery. This regiment served three months at the opening of the Civil war, but was never formally mustered into the United States service.

The consideration of the Philippine civil government bill was then resumed, and Mr. Jones (Va.) resumed his speech. He argued that under the provisions of the bill the friar lands which the government was to purchase would find their way into the hands of corporations. He declared that, in his opinion, it would be better for the Filipino people to live under the present hybrid rule than to have imposed upon them the civil government proposed by the pending measure, which would enable the civil government to dispose of all the valuable franchises in the islands, to strip the forests of their timber and to sell the agricultural lands to corporations and syndicates. Mr. Jones devoted considerable time to the discussion of the question of the ability of the Filipino people for self-government. He quoted Prof. Schurman, president of the first commission, to the effect that the Filipino people desired independence, were entitled to it and were capable of governing themselves, and were entitled to self-government.

"Does the gentleman think Buencamino capable of self-government?" asked Mr. Crumpacker (Ind.).

"I think if Buencamino's moral character was as strong as his intellectual power he would be a very great man," replied Mr. Jones.

Mr. Jones took up the charges made against Gen. Smith and Maj. Waller of cruelt yin Samar. "Why is it," he asked, "addressing the other side of the chamber, "that you criticise and courtmartial Schley, but you will not touch a hair in the heads of those who have confessed to participating in these diabolical outrages? Why criticise an officer of the navy, and refuse to listen to criticisms of an officer of the army?"

"It is the indiscriminate criticism of the army that we protest against," interjected Mr. Steele (Ind.).

"There has been no such indiscriminate criticism," answered Mr. Williams (Ill.). "It has been a recital of specific cases."

"It is not the soldiers who should be held up to execration," declared Mr. Jones, "but those who ordered such outrages and those cowards who seek to smother them."

IN THE SENATE.

Washington, June 20.—It was decided by the senate when it convened today, that when it adjourned today it be until Monday next.

A partial conference report on the sundry civil bill was presented by Mr. Allison and agreed to. The senate insisted upon its amendments still in disagreement and Messrs. Allison, Hale and Cockrell were named as conferees.

A bill appropriating $5,000 for a monument at Fredericksburg, Va., to Gen. Hugh Mercer, a proposition which was authorized by congress in April, 1774, was discussed. Mr. Gallinger (N. H.), and Mr. Platt (Conn.), urged that there were other revolutionary heroes who ought to be honored with monuments, and Mr. Cockrell (Mo.) registered his opposition to the bill and all similar measures. The bill went over on objection of Mr. Warren (Wyo.). The senate agreed to the conference report on the militia academy bill thus finally disposing of the measure. At 1 o'clock, the senate, on motion of Mr. Warren, went into executive session to consider the nomination of Capt. Crozier to be chief of ordnance.

The nomination of Gen. Crozier to be chief of ordnance was confirmed.

The senate agreed to the conference report on the military academy bill, thus finally disposing of the measure.

At 3:10 p. m. the senate adjourned until Monday.

DANCE

will be given by the Young Men's Dancing club, Columbia hall, Saturday evening, June 21. Druit full orchestra. Stephens, prompter. Tickets 50 cents per couple. Extra ladies free. Club will give a dance every other Saturday.

WOES OF BULLWACKER.

Hardships Endured by Drivers Plains Freights.

Mr. Mugg, the old ex-pioneer, who, from developing the resources of the far West in the early '50s and '60s, had gradually risen to the position of official "first broom" in Owney Callahan's 3-cent beer saloon on the Bowery, crooned the old bullwhacker song to himself as he swept up the debris of the free lunch table, says the New York Press. Then he began to tell of his old Western life. "Once," he said, "I used to handle schooners over the prairie, now I handles schooners over the bar when I have the chance. Say! You talk about a hard life! There's nothing in the East, nor never was, in the hard line equal to the old prairie life. Yet it was, for all its hardships, a man's life! And a man had to be a man to stand it.

"Lemme tell you a few sorts of it. You see, in the early days there wasn't any railroads. Everything for the West had to be handled by oxen, mules or horses from the river—that's the Missouri. Mule skinners were tough, horse welters were tougher, but bullwhackers was the toughest. Freight rates was high, 1 cent a pound for every 100 miles was about the figure. Bull teams handled the cheapest because the cattle weren't fed anything; they fed themselves on buffalo grass, sage brush, soap weed and on cottonwood, willow, or any old kind of bark. Mules and horses had to have corn, and that had to be hauled along, and then there was their shoeing. But they made much faster time than the bulls.

"It's all right to talk about energy, courage, money, etc., as opening up the West. That's all very well, but I say that what really was the real engine that did the opening (and it's never had any proper recognition) was the bullwhacker's whip.

"Yes, that's what did the work, the bull whacker's whip. Without it not a wheel would have turned in a bull team. With it cattle could be made to do almost anything except talk, and even at that they'd bellow. The whip stock was from six to seven feet long, of tough, springy wood. The lash was from fifteen to eighteen feet long, made of plaited rawhide, greased and hand softened till it was as supple as an eel. It started in at the head, swelled like a sausage in the middle and tapered off to the thickness of a lead pencil at the point. A buckskin 'popper' was looped on at the end. The 'popper' did the real 'touch-up' work. It was cut like a big triangle. The top looped on the lash and the bottom was the 'flicker.' The lash also looped on to the whip stock tip like a swivel and swung around loose. It took two hands to work the whole outfit. An expert could do anything with his whip. He could snip a fly off a bull's nose or he could let him have it full force and cut the hide like a knife. A regular bull train consisted of from fifteen to twenty wagons, each with a trail wagon attached. It took from ten to fifteen yoke to each wagon and trail. The first wagon would carry from six to eight tons of freight and the trail three or four. Weights, of course, varied according to the class of freight handled, but bull train freight was usually heavy. Most of the early mining machinery was hauled by the bull trains. The best cattle to use in the yokes were big long-horn Texas 5 or 6-year old oxen. They were as tough as leather and used to hauling up their own grub. Then their hoofs were tougher than those of Eastern cattle, and when their shoes were out they'd just get tender-footed as quickly as the big, heavy, soft states cattle.

"Once under a yoke, a bull had no way to get out of pulling. The whip kept him going forward on the haul. If he laid down or backed up the rest of the team dragged him along, and the whip soon made him change his mind.

"Bullwhackers were early birds. A train would be under way long before sunup, and drive till about 11 o'clock if the sun was hot. Then the cattle would be unyoked and turned out to feed till about 3 or 4 o'clock, when they were yoked up again and a drive made to the next water, or, if this was too far, till darkness set in. When turned out the cattle were generally too tired to travel far, and after feeding would lie down and rest. They'd eat anything that grew on the prairie.

"There was lots of grass even in winter because it cured like hay and the cattle would nose off the snow till they reached it. Then there was sage brush in plenty and generally lots of brush and bark and twigs of trees. It wasn't so much lack of feed that knocked 'em out in the winter as want of water. Cattle could starve and tire, but want of water killed 'em quick. When the creeks were frozen over it was rough on 'em. Still lots of 'em learned to lick snow to get some relief.

"Cattle when short of water and dry for a day or two could smell the water miles and miles off long before it was in sight. Then they'd all brace up, pull like the old scratch, hit up the pace and no whip was needed to send 'em along.

"Sometimes the water ahead was alkill, and to let 'em drink that would have killed 'em like flies. It was the hardest kind of work to hold 'em off, and you'd have to keep 'em yoked up till past the alkill pools. That meant they'd get nothing, and unless a bull was real tough he'd die quick.

"I've seen all but 60 bulls out of a train of 400 die from lack of water or from getting at the alkill. Then the train had to lay up till new cattle could be got.

"From two and a half to three miles an hour, or about twenty miles a day, was good traveling for a bull train, and much depended upon the trails being good and hard. Mud and dust had much to do with the distance traveled. Also tender hoofs. Each train carried an ox frame along to shoe the bulls in. The bull was shoved in the frame, swung up in a stout rawhide sling, and small iron plates nailed on to each of the two divisions of each hoof. But it was slow work to do this and usually after being shod at the start a bull was driven till he could travel no more. Then he was killed and eaten if there was any meat on his bones.

"There was one bullwhacker to each wagon and trail wagon. A wagon boss had full charge of the entire outfit. He dictated each day's drive, how much freight should be handled, what wagon should lead, and he had to handle the men, which was the hardest job of the lot. The bullwhackers from the time they started till they got to the end of the drive never slept in a house. For months at a time they slept under the wagons in their blankets. They hardly ever washed even their faces, and it was a matter of pride to be as dirty, nasty and as frowsy as possible. Each of the big trains carried a cook. He'd get up about 3 o'clock, boil coffee with a buffalo chip fire, bake bread in a skillet, fry some bacon, and as a luxury ladle out boiled dried apples or peaches. Now and then he made a mess he called 'bull whack.' That was hot bacon grease and molasses scrambled. It was used as a 'sop' and highly esteemed by the men, who, by their continuous outdoor life, had digestions like ostriches and could stomach anything.

"When night camp was made the wagons were drawn into a circle and in the earlier days a guard was set against Indians. The cattle were herded by a man on a pony, who, if there was danger of an attack by the Indians, drove them into the circle of wagons. All the men had rifles and six-shooters and usually could stand off a big band of redskins. Of course lots of trains were wiped out by ambushes and then the reds had things their own way.

"The arrival of some big bull trains, say in Denver, made things very lively. The wages were good, running as high sometimes as $75 a month over a dangerous trail. The hurrahs of a bunch of cowboys were as nothing compared to the 'whoop-up' of a crowd of bullwhackers just in from a six months' drive with big money in their pockets, and old Denverites frequently recall the wild times when the bullwhackers got in and made the town howl."

Notice to Contractors.

Sealed proposals addressed to the Village Council of Grand Rapids, Minnesota, and endorsed, "Proposals for an Electric Light Plant," will be received by the Village Recorder of the said Village of Grand Rapids until 8 o'clock p. m. of Monday, the 7th day of July, 1902, for the construction of an electric light plant for the Village of Grand Rapids, according to the specifications and plans now on file.

Bonds of the village for the sum of $25,000 have been issued and sold BY IT, at par, for the purpose of raising funds sufficient to purchase, build, establish and control all necessary buildings, machinery, apparatus and material for making, generating and supplying light for public and private use in said village.

Proposals will be received on the following work:

First—The building.
Second—The machinery.
Third—The electric lines.

Bidders may make in addition a proposal for the entire work.

Proposals will be publicly opened and read at a meeting of the Village Council on the evening of July 7th, 1902. The proposal or proposals which are deemed for the best interest of the village will be accepted.

The right is reserved to reject any or all proposals, and to change any item or items in the specifications.

Blank forms of proposals, instructions to bidders and specifications may be obtained and plans may be seen and examined at the office of the Village Recorder of Grand Rapids, Minnesota, and at the office of Edward P. Buech, Consulting Engineer, 1210-1212 Guaranty building, Minneapolis, Minn. All information will be given on application.

D. M. GUNN,
President.

FRED A. KING,
Recorder.
Grand Rapids, Minnesota, June 14, 1902.
Duluth Evening Herald, June 17 to July 7, 1902.

ORDER FOR HEARING APPLICATION FOR APPOINTMENT OF ADMINISTRATOR.—

State of Minnesota, County of St. Louis —ss.

In Probate Court, Special Term, June 17th, 1902.

In the matter of the estate of James McDougall, deceased:

On receiving and filing the petition of Annabell Smith, of the county of Douglas, Wisconsin, representing, among other things, that James McDougall, late of the county of St. Louis, in the state of Minnesota, on the 7th day of June, A. D. 1902, at the county of St. Louis, died intestate, and being an inhabitant of this county at the time of his death, leaving goods, chattels and estate within this county, and that the said petitioner is the mother of said deceased, and praying that administration of said estate be to M. H. McMahon, granted.

It is ordered, that said petition be heard before said court, on the 11th day of July, A. D. 1902, at ten o'clock a. m., at the probate office, in the court house in the city of Duluth, in said county.

Ordered further, that notice thereof be given to the heirs of said deceased and to all persons interested, by publishing this order once in each week for three successive weeks prior to said day of hearing, in The Duluth Evening Herald, a daily newspaper printed and published at Duluth, in said county.

Dated at Duluth, Minnesota, the 17th day of June, A. D. 1902.

By the Court,
W. G. BONHAM,
Judge of Probate.

(Seal Probate Court, St. Louis Co., Minn.)

CHECKMATE ON MORGAN

British Shipping Syndicate Is to Compete.

Cunard Line Is Included In the New Deal.

New York, June 21.—The British shipping combination which intends to compete with the Morgan syndicate for the North Atlantic and Pacific freight and passenger traffic is now practically consummated, according to the London correspondent of the Herald. Many reports of the formation of the new syndicate, more or less accurate, have appeared in the last week. On good authority the following details are given:

Christopher Furness is to be the head of the new combination. It is to be capitalized at £20,000,000 ($100,000,000). The Cunard company is included in the deal.

The British government has agreed largely to increase the present subsidies, while Canada promises at least £200,000 ($1,000,000) yearly.

Six large passenger boats, capable of 25 knots an hour, are to be built, also a dozen 16-knot freighters, at an aggregate cost of £3,500,000 ($42,500,000).

The entire capital is said to have been underwritten. One well-known capitalist who offered to take up a big block of stock was told that the whole amount had been subscribed.

In the midst of those who support the scheme the Atlantic aspect is not greater than the Pacific. The main idea is the utilization of the Canadian Pacific railroad as the chief link in a chain bringing Australasia, India, China and Japan into nearer and more intimate touch with England, and providing an all-British route shorter than any at present available.

INDUSTRY PARALYZED

Coal Strike Has a Serious Effect on Iron Industry and Has Caused the Closing of Many Furnaces.

Easton, Pa., June 21.—The coal strike has had a serious effect on the iron industry in the Lehigh valley. Every furnace in the district is either banked or blown out, and an iron dealer is quoted as saying that there is not a pound of pig iron on the market in the valley. The scarcity of pig iron will be the cause of the shutting down of many other industries using that product unless the miners go to work in a very short time.

Wilkesbarre, Pa., June 21.—District President T. D. Nichols of the Lackawanna and Wyoming valley and Thomas Duffy, of the Lehigh valley, and John Fahy, of the Schuylkill region, are here today for the purpose of holding a conference with National President Mitchell. Among the matters to be considered will be the question of further pushing the work of bringing out the men still in the collieries and arranging for the national convention as far as the anthracite region is concerned.

The three district presidents also will go over the statement which President Mitchell is preparing for publication. The latter, it is understood, desires to reply to the letters of the operaters published last week. With the assistance of the three district leaders he has been gathering data for the last ten days, and probably will have the statement ready for publication Monday.

"HELLO" GIRLS ON A STRIKE

Des Moines, June 21.—Seventy central telephone girls walked out of the two telephone exchanges at 9 o'clock this morning, tieing up the Iowa and Mutual lines. The managers of the two companies are trying to fill the places of the strikers and expect to have the instruments working in twenty-four hours. The strikers, however, have organized a union affiliated with the American Federation of Labor and will attempt to make the strike general over the state. They demand an increase of wages to $30 a month and a nine-hour day.

WOULD LYNCH THE ITALIANS

New Kensington, Pa., June 21.—Dominick Sandof, Tony Madron and Louis Madron, Italians, narrowly escaped lynching early today at the hands of an infuriated mob of several hundred men and boys. Late yesterday David James, a prominent citizen, was assaulted by the Italians and Frank James, his son, who rushed to his rescue, was mortally wounded. Immediately after the shooting the assailants fled, but were overtaken and lodged in the police station.

A mob of about 500 soon gathered and demanded the prisoners, but they were quickly taken to the station for removal to the Greensburg jail, guarded by 100 armed men. The station was partly wrecked, but the officers kept the mob at bay with drawn revolvers until a carriage was procured, and they were hastily driven to Pittsburg. Later the prisoners were safely jailed at Greensburg.

LIVE STOCK INNOCULATED

New Orleans, June 21.—According to a story printed here today, the diseases now raging in South Africa among the livestock there are due to inoculations made in this port by Boer sympathizers and disgruntled muleteers, playing even with the British. It is said the virus used was secured from a Philadelphia chemist, and that it consisted mostly of carbon and glanders. It is also stated now that the British suspected that this crime was being constantly committed, and for that reason removed their headquarters from this city to Montreal. The innoculations, it is said, also were made in Lathrop, Mo., so that it was necessary to break up camp there as well. The British are now retaliating, so it is intimated, by refusing entrance of Louisiana cattle in South Africa.

JONES SENTENCED FOR LIFE

Detroit, Mich., June 21.—William M. Jones was today convicted of the murder of George H. Heywood on April 9 last and sentenced to life imprisonment at the Marquette prison. The jury was out only ten minutes. The murder was well planned, and it is generally believed that, but for the evidence of a child of the victim, Jones would have escaped conviction. The evidence against Jones was entirely circumstantial.

STRIKE TURNS TO LOCKOUT

St. Paul, June 21.—(Special to The Herald.)—The strike of the Great Northern boilermakers and helpers has turned into a lockout. An official of the company today said that the company had all the men it needed, that work was going on satisfactorily; that a few of the strikers were again at work. The boilermakers want not only an increase in wages, but the dismissal of every non-union man, the reinstatement of all old men, and other concessions as well. The helpers want an increase amounting to $1 a day and their old jobs. The conferences being held between strikers and Superintendent Deverelle are said to be at an end. The proposition submitted by the company has been refused.

NEW POSTMASTERS.

Washington, June 21.—(Special to The Herald.)—The following postmasters have been appointed: Chokio, Stevens county, Stephen Burt, vice C. H. Dyer, resigned; Tamarack, Aitkin county, E. L. Dougass, vice M. O. Tindale, resigned.

BACK TO MONTREAL

Government Victory In Gaynor-Greene Case.

Will Be Dealt With There According to Law.

Quebec, June 21.—Judge Andrews today discharged the motion for contempt against Detective Carpenter and has remanded Messrs. Gaynor and Greene to Montreal in charge of the jailer of that city.

In rendering judgment in Carpenter's case, Justice Andrews remarked that the proceedings connected with the arrest of the acused deserved certain censure. The judgment was a very elaborate one and concluded by rejecting the petitions for writs of certiorari, quashing the writs of habeas corpus and ordering that the prisoners be remanded to jail or vallee of Montreal, there to be dealt with, and orderng Sheriff Langelier to deliver both prisoners to the Montreal jailer.

PLAN TO RELIEVE CUBA

President Palma and Cabinet Have Worked Out a Scheme to Loan Money to Planters and Cattle Raisers.

New York, June 21.—President Palma and his cabinet have decided on a plan which they hope will relieve the economic situation in the country, says a Havana dispatch to the Tribune. A message will be sent to congress, probably next week, for that body to pass upon which sets forth the recommendations of President Palma and the secretary of agriculture for the amelioration of the condition of affairs. This measure calls for the expenditure of $3,500,000, to be distributed among the sugar growers and cattle raisers. Three millions is to be advanced to sugar planters at the rate of 50 cents an aroba, or twenty-five pounds; to be returned in two installments in February and March. To cattle breeders will be paid a premium of $5 for each cow imported for breeding purposes up to 100,000. Further than this, all such cattle will be admitted free of duty.

There also is to be an increased tariff on many articles imported now under small duties to raise the money to be distributed. An internal loan, secured by bonds, will be necessary. President Palma, in discussing the matter, said:

"We are afraid the senate will not act on the reciprocity question at this session, and Cuba needs immediate help. There are thousands of men idle and the conditions are bad. We must take some steps to save the sugar industry and stimulate the cattle industry, which we hope to bring back to its former prosperous condition.

"The loan will be taken up in two years. We have worked day and night in the last month to improve the prevailing conditions. Sugar growers can secure no money from the banks for the coming crop, so that the government is compelled to come to their rescue by loaning them enough to raise next season's cane."

DRIFTING TO THE ARCTIC

Steamer Portland Caught In Ice Pack Near Nome, and When Last Seen Was Slowly Being Carried North.

Nome, June 7, via Seattle, June 21.—The steamer Portland, Capt. Lindquist, the pioneer of the Northern Commercial company's fleet, was, on June 4, caught in the ice pack and is being carried up Bering straits to the Arctic ocean at the rate of from two to three miles an hour.

The Nome City came near being caught in the same manner and when she found a lead and bucked through the ice to the westward, the Portland could be plainly seen drifting northward past the Diomede islands. Three whalers also were in sight but they were in the lee of the islands and in no danger of being carried into the Arctic by the floating pack.

Capt. Daniels brought word to the Nome that the Portland was in the ice and drifting towards the Arctic. The Northern Commercial company people had friends aboard and were greatly worried. As soon as the Thetis arrived a petition was presented to Capt. Healy, requesting him to go to the rescue. The Thetis left the same evening. If any one can render the imprisoned ship any assistance Capt. Healy is that man. There is some danger of the ship being crushed in the straits. If she got through the straits and failed to find a lead to eastward or westward by which she could get clear of the pack, she will be carried into the Arctic ocean and failing to get clear of the ice, may ultimately be wrecked by heavy floes further north. In the event of her not getting crushed she will be greatly delayed, and no doubt run short of supplies and fresh water.

Seattle, June 21.—The steamer Nome City has arrived here with the record of being the first steamer to reach Nome and also the first one to return from there out of a fleet of thirty vessels. The ship bears many evidences of the fierce battles with the ice in the north but is not materially injured. The north bound trip was an exciting one. From May 4 until a month later the ship was fast in the ice, the ship being stopped short by a body of ice fully eight feet thick. The ship tried bucking its way through for two days but when within sixty-five miles of Nome it was again hemmed in. The pack in which the Nome City was caught was drifting to the northwest. For several days the vessel drifted around the island of St. Lawrence, and on May 14 was raised clear out of the water by a sudden jam. The iron sheathing put on at Seattle before starting was all that saved the vessel from being smashed to pieces. The rudder head was twisted and the ship was badly shaken up. Fortunately a lead opened on the morning of June 4, and Capt. Daniels gave the signal to go ahead at full speed, the ship bucking its way through the ice to open water and to Nome.

RELATIVES FIGHT FOR BODY

New York, June 21.—Relatives are fighting for possession of the body of Camille Lemoine, the miser tool-maker, who was found dead recently in the basement of his shop. Louis Lemoine, a nephew finally has applied to the supreme court, for an injunction to restrain the present custodians of the body from disposing of it and asking that it be returned to this city from New Jersey, whence it was taken when the trouble first began by a scramble between rival undertakers backed by the disputing relatives.

MILLIONS MORE FOR ASTORS

New York, June 21.—An immense estate is distributed among the members of the Astor and Delano families, by the will which has just been filed here for probate of Mrs. Laura Astor Delano, whose death occurred at Geneva, Switzerland on June 15. Mrs. Delano was the widow of Franklin H. Delano and a daughter of William B. Astor. There is no precise estimate of the value of her property, but it mounts up in the millions and consist of real estate and gonds all over the world. Mrs. Delano bequeaths one-sixth to John Hubert De Steurs, Margaret De Steurs and Herbert De Steurs, children of her niece, Margaret L. De Steurs. The remaining five-sixths of both estates is to be held in trust and divided into shares for the children of her deceased niece.

SHIP ON FIRE IN MID-OCEAN

San Francisco, June 21.—That the British ship Monkbarns, which has arrived here 149 days from Liverpool, ever reached her destination is due to the gallant fight against fire made for four days and nights by Capt. McNeely and his crew. The Monkbarns left Liverpool Jan. 22. All went well until Feb. 21, when, at 4:30 a. m., smoke was discovered coming out of the ventilators leading to the forehold. An investigation revealed the fact that the cargo was on fire. Four holes were cut in the deck and water was pumped on the blazing merchandise until the flames were subdued sufficiently to allow sailors to descend into the hold, fix tackle to the smouldering bales and hoist them to the deck, from where they were promptly thrown overboard. Nearly all the cargo in the forward hold was jettisoned before the fire was extinguished. Little harm was done to the hull of the ship. The cargo jettisoned and in which the fire started, by spontaneous combustion, it is thought, consisted of oakum, felt and chemicals.

LIND WILL NOT ACCEPT

Says That He Will Decline a Nomination For Governor.

Hon. John Lind is not a candidate for the Democratic nomination for governor of Minnesota. This has been known for some time past.

Mr. Lind now says that he will decline a nomination.

Mr. Lind did not seek the nomination in former years when he was the fusion nominee, but the call of his political friends was so unanimous and the pressure was so great that he head the ticket that he accepted. Many people have believed that, while not seeking the nomination this year and, in fact, declaring that he did not desire it, he would finally yield again to the solicitations of his friends. Chairman Rosing, of the Democratic state committee, has steadily claimed that Mr. Lind would be nominated and would accept, believing that he would not refuse if the state convention next Wednesday tendered him a unanimous nomination. Mr. Lin[illegible] postalled this action by w[illegible] Mr. Rosing, ex- p[illegible]der no circum- s[illegible]ecome the candi-[illegible], and that, if nom-[illegible]ecline. The letter

HON. JOHN LIND.

[illegible]apolis, June 20.—L. A. Rosing, Esq., Cannon Falls, Minnesota: Dear Sir:—The public discussion of my name in connection with the nominations to be made at the ensuing convention and my probable absence from the city next week impel me to write you. No one knows better than you do, that while I take a keen interest in public affairs, I have no love for public position—least of all for an executive office. Hence I expressed my determination on retiring from the governor's office not to again be a candidate. Some weeks ago, at the urgent solicitation of yourself and many other personal and political friends, I promised to give the matter further thought, and I have done so.

Many considerations of a personal character would seem sufficient to determine my action. But over and above considerations of this character, I cannot escape the conviction that my nomination, if ratified at the polls, would be of but little service to the state. The governor's office, by recent legislation, has been, in a great measure, deprived of its efficiency in the administration of the affairs of the state, and recent legislatures have shown no disposition to solve the state problems that confront us. I have not the patience to waste my time in idle effort, if elected, nor have I the faculty or disposition to compete in the campaign of humbuggery that the opposition leaders are apparently planning to force upon the people of this state.

The peculiar, almost personal, relations that have existed between my political supporters and myself, their loyalty and self-sacrifice in my behalf, make it most unpleasant to take any action that may cause them disappointment. For this reason I have given the subject my most careful and conscientious consideration, and I assure you that my action is not dictated by indifference or cowardice, for I would be no more willing to accept a certificate of election at the hands of the convention than the nomination. But for the reasons referred to, I have determined to announce publicly, as I have stated privately, my irrevocable determination to not accept the honor of the nomination for governor, should the convention see fit to tender it. This action, though it may disappoint some of my friends, will not, I trust, be construed as ingratitude on my part. It ought not, it seems to me, when it is borne in mind that I bore the brunt of the battle without flinching in the two Hanna campaigns, which stand unparalleled in history for debauchery and corruption.

With the deepest gratitude to you personally and to all my political associates, and with the assurance that you will always find me ready to co-operate as a private citizen in the cause of good government, I am, yours truly,

JOHN LIND.

LYNCH AGAIN REMANDED.

London, June 21.—Col. Arthur Lynch, member-elect of parliament, from Galway, and formerly of the Boer army, who is in custody on the charge of high treason, was today again remanded until June 24, witnesses in the case not having arrived in London.

A. O. U. W.

Supreme Lodge Selects Its Important Committees and Adjourns.

Portland, Ore., June 21.—The supreme lodge A. O. U. W., before adjournment last night, selected the following committees:

Finance committee—W. W. Wilson, Michigan; H. B. Dickinson, New York; S. S. Faulkner, Arkansas.

Law committee—W. S. Robson, Texas; W. M. Colville, Oregan; W. M. Wallace, Kansas.

Appeals committee—E. M. Danforth, Maine; S. S. Blitz, Kentucky; R. W. Latham, Nebraska.

Degree of Honor advisory committee—Missouri; H. E. McNutt, South Dakota.

Vital statistics—A. P. Riddle, Kansas.

W. H. Barne, California; W. A. Williams.

Board of arbitration—J. E. Riggs, Kansas; J. G. Tate, Colorado; H. C. Sessions, South Dakota; J. C. Bickford, New Hampshire; W. A. Walker, Wisconsin.

Beneficial committee—Will M. Morris, Iowa; J. M. Dement, Minnesota; C. C. Ingall, Massachusetts; J. C. Hamm, Wyoming; Alfred Orendorf, Illinois; John Stevens, Manitoba; T. D. Neal, Indiana.

The supreme lodge made numerous decisions upon points of lodge laws. The question was raised whether a Spaniard is a white man within the meaning of the regulations, and it was held that he is. In Arizona and New Mexico, the question was raised whether a Mexican was a white man. The decision was that the Mexicans of Spanish descent are white, but that Mexicans of Indian blood are not.

VALLEY A SEA OF FLAME

Miles of Fire In the Green River Valley, Washington, Threatens Hot Springs Hotels and All Surrounding Property.

Hot Springs, Wash., June 21.—For a distance of seven miles the Green river valley is a sea of flames. Since noon yesterday Dr. Kloeber and the employes and guests of the Kloeber at Green river hot springs have been persistently and successfully fighting the fire to save the hotel. Steadly the fire was held back, and assistance was asked for from Tacoma, which was promptly sent by Mayor Campbell. Near Maywood, three miles below here, a lumber camp has been burned out. On each side is a seething furnace so hot that the crew on the relief train was compelled to seek protection inside the caboose while passing it. Morgan's camp, one mile down, is partially destroyed, though it is thought the most valuable effects can be saved.

At Canton, nine miles below Hot Springs, are congregated the few settlers and woodsmen of the vicinity. They declare the forest for miles around is ablaze.

At Eagle Gorge the same condition exists, and several smaller fires are reported within a radius of twenty-five miles.

LEE KILLED FIVE COWBOYS

Albuquerque, N. M., June 21.—Five cowboys have been killed in a fight near Tucumcari with "Bud" Lee, of Dona Ana county, and an old Indian fighter. Lee, in watering his cattle at a certain spring, had walked them through the water against the protests of other cattlemen, who warned him that if he repeated the act he would be killed. The next time Lee, acompanied by an Indian fighter, appeared with his cattle, eight cowboys were lying in wait. When the battle that followed was over five of the eight cowboys were dead and the other three had fled. Lee and his partner, who were unhurt, surrendered to the sheriff. The names of the dead men are not given.

DEFECTIVE PAGE

DR. MITCHELL

Is a Wonderful Man—His Parlors Crowded Daily.

Hundreds of Cures! Hundreds Rejoicing! Hundreds of Cases!

More than ten thousand cures during the past four years prove that his method of treatment is a godsend to suffering humanity. Diseases that have baffled the skill of physicians are lost vitality, varicocele, vital weakness or nervous troubles of any kind. No matter whether caused by overwork or worry and no matter whether you are young or old you can be made strong and well by Dr. Mitchell's treatment. Dr. Mitchell is the only man living that can cure fatboid and ovarian tumors without an operation. He cures locomotor ataxia and synovitis. Dr. Mitchell cures cancer in less time and with less pain than by any other method. He cures all female troubles, blood troubles, piles, fissures, fistula, skin disease, dyspepsia, hip-joint disease, consumption, catarrh, deafness, blindness, sore eyes of all kinds, rheumatism, deformities of all kinds, constipation, neuralgia and every other disease after every other treatment fails. Mrs. Annie Harver, of the range, returned home cured of rheumatism, from which she had suffered everything. Her daughter was cured of hip-joint disease about two years ago. Mr. Edward Logan, of the southern part of the state, who was paralyzed on one side, returned home cured. Mr. Rickins had a stiff neck and shoulder for five years, cured in three treatments. If you are sick be sure to see Dr. Mitchell. If there is any cure for you he can cure you. He is the only magnetic physician that has stood the test of time. Do not be deceived by would-be magnetic healers; go to Dr. Mitchell, for he has proven himself genuine. Consultation free by bringing this advertisement. He will be glad to see all and give them his valuable advice free of charge. Call at once. 'Phone, 579.

TOO WOODY.

North Dakota Man's Ditty Causes Stampede on Bowery.

"How much wood would a woodchuck chuck
If a woodchuck could chuck wood?
A woodchuck would chuck as a woodchuck should
If a woodchuck could chuck wood."

That is what Fred Natduck, Dakota excursionist, trilled on the Bowery last night. There was a general stampede in the emporiums where liquid surcease of sorrow is dispensed. Finally the police captured Natduck as he started to sing the verse over for the one hundred and sixtieth time.

The Bowery musical critics say that the excursionist's singing was surprisingly beautiful. It was so tuneful that they could sing a march to it, or a waltz, or a coon song, and the beauty of it was that no person would know the difference if all three were sang at the same time.

Natduck, after his arrest, explained that he came in on the excursion train, traveling several hundred miles for the purpose of seeing Dailny's Bowery.

Simultaneously with his appearance on that glistening thoroughfare he became acquainted with two top-heavy persons of the frivolous set. They offered to help him sing, but they were surprisingly discreet and dexterous in the art of steering away from the high notes, low notes and middle-sized notes, so the police did not arrest them.

Natduck had only his return ticket when arraigned in police court this morning and sentence was suspended on condition that he would return home at the first opportunity.

* * *

The lowest sentence ever imposed on a person guilty of forgery in St. Louis county was imposed on Mrs. Jennie Arnott in police court this morning.

Last week Mrs. Arnott found the $6 check of a girl working in the same laundry with her. She cashed it after forging the other girl's name.

It developed in the hearing this morning that Mrs. Arnott was not naturally dishonest, but cashed the check in order to buy necessary supplies for her family in destitute circumstances.

Until a short time ago she and her husband lived in Washburn and were fairly prosperous for working people. They owned their own home. This was destroyed one night, and scarcely any of the contents saved. The family was left without a thing in the world. A few days after that Mr. Arnott met with an accident and has been in the hospital ever since. The wife started in to work, but could only secure about $6 a week. When she found the check, she needed money very badly, and yielded to the temptation.

These facts were taken into consideration by the court and prosecution, and the forgery charge was dismissed in favor of one making the check cashing petty larceny. Mrs. Arnott was then sentenced to pay a fine of $10.

In Very Low Condition.

The friends of Albert Gasser will be grieved to hear that he experienced a sinking spell this morning, and in spite of prompt and powerful remedies, is in a very precarious condition. The physician in attendance holds out a very slender hope of improvement, but says that he may live for some days to come. His brother, Col. M. M. Gasser, said at noon today that he had abandoned all hope of his brother's recovery and that all that remained to be done was to assuage his sufferings as far as possible and to surround him with all the comforts that loving hearts could devise.

ROUND TRIP 25c.

New Phone 4683. C. J. Richardson, Mgr.

WILL BE ALLOWED

Circus Parade Will Be Permitted On Superior Street.

Business Overwhelmingly Against Keeping It Off the Street.

Circus Trains Will Be Unloaded at Fifth Avenue West.

Ringling's circus will arrive in Duluth early tomorrow morning.

The big show comes in over the Northern Pacific road from Ashland in four special trains.

This year the circus will unload at Fifth avenue West so that even more Duluthians than usual will turn out to see the interesting event.

Mayor Hugo says that the circus parade will be allowed on a portion of Superior street at least, Monday morning. He is undecided yet as to what district that will be and even intimated that when the time comes there may be no effort whatever made to keep the parade off the leading business street.

Several days ago the mayor announced that owing to the danger in runaways he thought it best to keep the circus parade on First street and invited an expression of public opinion on the question. So far public opinion has been overwhelmingly and sarcastically against the mayor's idea. Business men say that Superior street is the proper place for the parade and others claim that there is less danger from runaways on that street than on First street.

On First street there is a great many new buildings in course of construction and the city officers have kindly permitted the contractors to obstruct the sidewalk space and in some instances fully half the street with sand piles, brick and structural work. A runaway on this street would be sure to mean a collision with some of this obstruction and the result might be serious.

Certain business men argue that it would be an easy matter to clear Superior street of teams during the half hour of parade, simply driving around a corner and letting the horses stand on the avenues.

Again it is argued that if the parade is compelled to go on First street only half the people could see it without great inconvenience. On Superior street the window space is available to many families, while on First street it would be catch as catch can for the best places on the curb.

One of the leading Superior street dry goods merchants today said:

"It means much trouble to our business on Monday if the parade is forced up on First street. We have several hundred clerks that are always anxious to see the parade. We let them take it in for the reason that it gives the a little diversion from their work and incidentally because there is absolutely nothing for them to do during the time the parade is passing.

"If the parade goes up on First street our clerks will either have to be denied this pleasure or we will let them go at considerable waste of time and expense to our firm. In the store the clerks can get back to their places immediately on the passing of the parade. If the parade is on First street they will have to register out and register in, losing a great deal of time. I sincerely hope that the mayor will alter his opinion in this matter."

Another argument made against the mayor's position is that if the parade would work any injury to the Superior street pavement, it would certainly play havoc with First street, which is in poor condition.

YOUTHFUL MURDERESS.

Claire, Mich., June 21.—Annie Curtis, of this city, a 12-year-old girl, was taken to the county jail this morning by Sheriff Welsh, charged with murdering the 13-months-old son of George Pardee, by administering carbolic acid while the child was sleeping at her home.

FOOT CRUSHED OFF.

St. Paul, June 21.—A Stillwater, Minn., special to the Dispatch says: Frank Dillary lost his left foot at noon while coupling cars. Standing on the ground he put in his foot to push an automatic coupling into place as two cars bumped.

COMPLAINING.

First Street Property Owners Make Kick---Engineer Explains.

Considerable complaint has been made of late by the property owners on First street east on account of the methods employed by the contractor in carrying forward the combined curbing and guttering work which is in progress on that thoroughfare. The complaint is made that the contractor is dilatory in respect to filling in between the original curb and the new curb. Under the plans of the city engineer, and the contract, this space is to be filled with loam ready for sodding.

The property owners say they have no doubt the contractor will ultimately get around to filling in the space described all along the street. What they complain of is his laxity on that particular part of the work. One property owner says that the curbing in front of his place has been completed for a couple of weeks, but that the loam has not yet been deposited. He is of the opinion that the contractor is waiting for the property owners to do the work themselves.

A representative of The Herald called upon City Engineer Patton for an explanation of the situation. He said:

"I think the property owners are a little hasty. The work on First street has been in progress only a month, and, if I am any judge, the contractor has made good progress. The contractor has been pushing the work of getting current and necessary expenses.

In a memorandum accompanying the order Judge Dibell said that enough appeared at the hearing to indicate a settled disposition on the part of the village officers to avoid paying the judgment. The action of the council in endeavoring to anticipate the whole year's revenue by various so-called appropriations the court calls a palpable subterfuge. He adds that the term current expenses does not include building a jail, beautifying a public square or equipping a fire company.

"If the officers proceed fairly they will have little difficulty in following a proper course," concludes the court. "If they disregard the statutes and injunction they and their bondsmen may subject themselves to pecuniary liability."

THE WORLD'S BEST SUMMER MEDICINE.

Paines' Celery Compound

Has Made People Well When Every Other Remedy Has Failed.

Paine's Celery Compound cures disease! It has saved the lives of thousands of sufferers. It has made the weak strong, vigorous and happy.

Paine's Celery Compound purifies the blood and builds up the nervous system as nothing else can do; it is preeminently the great lifegiver and health-maker.

Overworked and tired women stand in urgent need of this health-giving prescription to make and keep them well. All women should take advantage of the remarkable power of this best of medicines for restoring vigor to the blood and strength to the nervous system. The all-important thing for nervous, run down and sleepless women is that Paine's Celery Compound fortifies the whole physical system, and by correcting digestion and regulating the nerves, it insures sound, refreshing sleep. In every case of sickness Paine's Celery Compound completely and permanently brings back health. Mrs. Mary A. Myers, Baltimore, Ohio, saved by Paine's Celery Compound after the failure of able physicians, gratefully writes as follows:

"I suffered for eight years with nervous prostration and the general debility common to women, and had such pains in my back that I could not get around the house. I used several remedies and consulted several of the best physicians without obtaining any relief. Paine's Celery Compound restored me to health.

"I also want to say to all mothers that Paine's Celery Compound is a splendid medicine for their children."

MUST LOOK OUT.

Floodwood Official Gets a Slight Touching Up.

In granting a temporary injunction in the case of Margaret E. Stevens against the village of Floodwood, Judge Dibbell touches up the village officers somewhat.

Mrs. Stevens got a personal injury judgment for about $1,000 against the village, and she began injunction proceedings to restrain the vilage officers from spending the village money for purposes aside from the necessary current expenses.

Judge Dibbell's findings were filed this morning. And he directs that when the plaintiff furnishes a bond of $300 an injunction shall be issued restraining the village from spending the money until the judgment is paid or the case finally decided, aside from the combined curbing and guttering done, and early next week the work of filling in the space between the old and new curbs will be begun in earnest. Once it is started the attention of the entire force, the greater part of it at least, will be devoted to it exclusively."

"As for the delay in filling in, it has been necessary to allow the curbing to stand for a time to allow it to become perfectly hard. To begin filling in at once after completing it might be accompanied by unsatisfactory results. I have urged the contractor to get at the work of filling in as soon as possible and he certainly has crowded things very satisfactorily.

"As for the contractor holding off to allow property owners to fill in the space themselves, that is nonsense. The contractor would get no pay for work that property owners did. It is to his advantage to do the filling himself. As I have said, it would not be wise for the contractor to work around the green curb because he might damage it. Already the work of preparation for doing the filling is in progress."

IT SETS THE PACE

Bay View Heights Incline Has Car Telephone System.

Can Talk With Power House From Moving Car.

Will Be of Much Value In Operation of Cars.

The Duluth Belt Line Railway company, which owns and operates the cable system from Central avenue in West Duluth up the hill to Bay View Heights, has inaugurated a telephone system that is not only unique in the way of a telephone system, but probably has the distinction of being the first successful attempt at maintaining a successful telephone service between moving cars and a station.

Henry H. Myers, treasurer of the company, in speaking of the new service, today, said that it has only been in operation since the first of the week and that it was planned and put in by the Zenith Telephone company of this city. He says that the service is eminently satisfactory and persons talking over it can hear each other better, in fact, than over the ordinary telephone system.

The installation of the system was necessary as a means of communication between the cars and the engine house at the top of the incline, when the former were stopped for any reason on their way up or down the hill. Up to this week there has been an electric gong service in operation, the signal for starting or stopping being given by the conductors of each car. The system worked all right for one car, but as one of the cars ascends while the other descends the hill, when one stopped for any reason the conductor of the other had no means of knowing when the power would again be applied, and there was always the possibility of some accident. Then, too, there have been instances, it is claimed, where passengers have given the signal to stop from one car, without the knowledge of the conductor. The engineer would not, of course, start the car again until he had the starting signal, and the conductor, supposing the signal to stop had been given from the other car, would not give the signal to start, thus causing annoying and unnecessary delays.

The telephone system now in use is quite simple as it is ingenius. In putting in the electric signal system was utilized so that it now does double service. From each car there projects a metal arm that sides along a wire on the west side of the track. The wire runs to the engine house at the top of the incline and connects with a large gong. The electrical current is furnished by a battery of thirteen cells. The 'phones have been put in the cars just above the electric signal and the current from the battery is used. It is cut out both in the cars and at the engine house, to condensers. Until the current might not be strong enough to burn out the instruments, it would produce a buzzing sound, were it not for the condensers. A continuous communication is thus established and when the bell on one 'phone is rung the bells on each of the other 'phones ring.

By this new service the conductors on the cars can talk with each other no matter where the cars may be on the line, with the engineer, or the engineer may call up and talk with one or both conductors. The benefit of the service is obvious and the railway company is well pleased with it. It is wholly a local service and does not connect with any points off the belt line. But it is said to be an easy matter to put in a switch at the engine house and make connections with any other telephone system. This is not likely to be done, however, as there is no necessity of talking from the cars to any points off the line.

It is said that the Omaha company has perfected a system of telephoning from its trains, but that it cannot be done when the trains are in motion, that when the train is stopped a wire is thrown over the telegraph wires, and connection is made with a 'phone in the car. Other roads are said to be experimenting along the line of perfecting telephone systems by which persons may talk from moving trains, but so far as known to local railroad and telephone men, this has not yet been successfully accomplished.

The scheme used in the system on the belt line road could not, for many reasons, be utilized on the railroads.

GREAT DEMAND

For Competent Young Men and Women Among Business Houses.

The young man or woman now-a-days who is a good typewritest, has a knowledge of business forms, and who can compose a good business letter is certain of obtaining a good position. Employers are constantly on the lookout for bright young men or women who have had a proper business training. Perhaps no institution in the whole country is better equipped or has a more complete staff of instructors than the Duluth Business university. The instruction in every department is on the most practical and up-to-date lines, and graduates can be found in all parts of the country filling splendid positions, as well as the hundreds who are connected with the leading business houses of this city. Scores of requests are received by the principal each week for competent young men and women to fill positions in every line of business, and the earnest student is absolutely certain of obtaining remunerative employment when his or her course is completed.

Leaves Booth's Dock, foot of Lake Ave., at 8:30 sharp. Duluth Male Glee Club and best local talent. Light refreshments
TICKETS 25 CENTS.

THEY ARE TRICKY.

Some Guides With Whom Sportsmen Must Deal.

Talking upon matters pertaining to sport today, Frank A. Greene related the following story as illustrative of the ways that are dark and tricks that are vain, employed by some of the guides to whom the unwary sportsman has to entrust himself when in quest of sport in strange localities.

One of the guides upon the Brule river was one fall rowing a young fellow along the river looking for deer. The tourist had a magnilcent gun and he proudly informed the guide that it had cost him $250. This settled the fate of that piece of artillery, for shortly afterwards, while in a broad part of the river, where the game had an intimate personal acquaintance with every rock and tree, the young fellow was skilfully tipped head first into the water, gun and all. The wily guide then accomplished a heroic rescue of the man behind the gun, but left that valuable shooting iron in the silent depths of the stream. Managing to allow his boat to drift down stream he took his victim ashore and dried him out. He marked the place carefully and stripping off dived again and again for the missing firearm without success. When he was almost exhausted his employer bade him desist and pressed upon him a generous reward for rescuing him and for his strenuous work after the accident. As he had lost his gun the amateur sportsman left the woods for civilization and that same night the crafty guide recovered the missing fowling piece and appropriated it ot his own use and behalf. The trick was never discovered and the unscrupulous guide removed to another location, where he has the reputation of having the most reliable shotgun in that neck of the woods.

AUCTION SALE

10 East Superior Street.

Having decided to go out of business we have turned over the entire stock, as under, to W. D. Gordon, the merchandise auctioneer, who will dispose of the same at public auction till every article is sold. Sale commences

Monday, June 23
—TO—
Friday, June 27.

Auction sale every morning and afternoon, 10:30 a. m. and 2:30 p. m. Everything must be sold in five days. Carpets, Rugs, Linoleum, Oil Cloth, Matting, Lace Curtains, Portieres, Drapery, Couch and Table Covers, Upholstery Goods, Cretonnes, Denims, Silkoline, Drapery Silk, Cords, Fringes, Gimps, Loops, Window Shades, Curtain Fixtures, Furniture, Iron Beds and Bedding.

Remember the Time and Place.

W. D. GORDON,
Auctioneer.

Next to Gately's, 4 Doors East of Lake Avenue.

10 East Superior Street, Duluth.

Midsummer Ball

LESTER PARK—Under auspices of the Anna Stang Hive No. 61, L. O. T. M. Tuesday, June 24th. Tickets 50c. Good Music. Last car leaving Lakeside at 11:45 makes connection with West Duluth car at Lake Avenue.

ROASTS BOTH.

Judge Dibell's Spicy Decision In Bucket Shop Case.

Judge Dibbell hits both plaintiff and defendant in deciding the case of L. C. Sannicola against R. V. Simmons, a dispute over a deal whereby the plaintiff put money into a bucket shop business in Eveleth and Virginia.

He finds the defendant guilty of fraud and the plaintiff of ignorance and cupidity.

He gives Sannicola judgment for the $1,000 he put into the deal and for the cancellation of a note for $400 that Simmons holds. He finds that Simmons made false representations to get his money. In his memorandum he says:

"It is conclusive from the first that the defendant, by one pretext or another, led on Sannicola for the purpose of ultimately obtaining what money he had. Sannicola seems to have been densely ignorant and imbued with a desire to get rich quick without labor.

"Sympathy need not be wasted upon him, but he is clearly entitled to recover of Simmons, who for a time lived off his cupidity and ignorance."

CAUSE OF DEATH UNKNOWN.

St. Paul, June 21.—An Eau Claire, Wis., special to the Dispatch says: The jury of inquest on Mrs. Lowry returned a verdict that cause of decease is unknown. This verdict was the result of a chemist's test that he could find no trace of any kind of poison, although the doctors who made the autopsy testified the indications that death was due to poison were very strong.

CANAL BILL.

Looks as Though House Would Accept Spooner Amendment.

Washington, June 21.—Senator Morgan and Representative Hepburn, representing the senate and house conferees on the Isthmian canal bill, were together today to arrange the preliminaries for the meeting of the conferees. Their associates were not called in during the early hours of the day, but were asked to hold themselves in readiness for an early meeting. Meantime the friends of the respective projects were active in making plans.

Although no formal meeting of the house conferees was held, informal exchanges showed their general attitude. They are first all for a canal, and while favorable to the Nicaragua route, they will not insist upon that route to the extent of defeating all legislation. As soon as it becomes evident that the senate will not yield, the Spooner amendment will be accepted as the best solution possible.

This insures an agreement in conference without much delay, even if the house does not relieve the conferees of their responsibilities by adopting a motion to concur with the senate, which there is good reason to believe Mr. Burton (O.) is ready to make.

CREMATED.

Charles Farrell Burned to Death In Building at Sparta.

Sparta, Minn., June 21.—(Special to The Herald.)—Knute Johnson's boarding house was destroyed by fire at 1:30 o'clock this morning. Charles Farrell, a blacksmith, who was sleeping upstairs, was burned to death. The fire originated in the kitchen. Loss on building and contents, about $1,500.

LUTHERANS.

Meeting of District Synod of Evangelical Churches.

St. Paul, June 21.—(Special to The Herald.)—Today's meeting of the district synod of the Evangelical Lutheran churches of Minnesota, Iowa and the Dakotas was held at St. Matthew's Lutheran church, Dale and Sherburn avenue.

The parochial reports delivered by the ministers and delegates of the various congregations covering finances, numbers of baptisms and new members and other statistics were, on the whole, gratifying.

Professor W. D. Ahl of the Lutheran seminary, St. Paul, read a highly interesting paper on "Eternal Life." The paper was followed with a general discussion of its subject, nearly all the ministers participating.

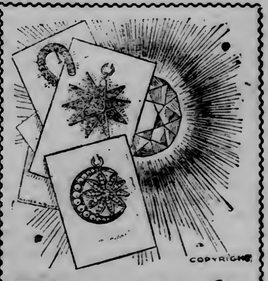
A pastoral meeting of all the seventy ministers attending the synod was held this afternoon. The best methods of guarding and increasing their pastorates were discussed at length.

The chief business of the synod will be done Monday, Tuesday and Wednesday next week. Delegates will be chosen to represent this district at the general synod, which will meet at Michigan City, Ind., in September.

BITTER

Surprise Is In Store For Colonial Secretary Chamberlain.

London, June 21.—A bitter surprise awaits the colonial secretary, Joseph Chamberlain, in connection with his approaching conference with the colonial premiers, who are now in London for the purpose of attending the coronation of King Edward. For months the government has been urging parliament not to express any kind of opinion upon the feasibility of preferential trade with the colonies, and when introducing measures tending to such an end it was warned off discussion on the ground that it would be fair to do or say anything until the colonial premiers had a chance to announce their views on the subject. Unfortunately for the government the premiers had already practically come to a decision that they would refuse to make any suggestions until the imperial government puts forward its own intentions. That is exactly what the cabinet not only does not want to do, but cannot do. Hence a perfectly tame and futile ending may be safely prophesied for the much advertised conference with the colonial premiers.



Diamonds

of the Purest Water.

Mounted in Pins, Brooches, Pendants, Rings, etc., are invariably to be found at our establishment. What we sell is not more remarkable than the figures at which we offer genuine sparklers. Before buying Diamonds come and see our stock.

J. GRUESEN,
Jeweler. 31 W. Superior Street.

ECZEMA; NO CURE, NO PAY.

Your Druggist will refund your money if PAZO OINTMENT fails to cure Ringworm, Tetter, Old Ulcers and Sores, Pimples and Blackheads on the face, and all skin diseases. 50c.

INSTRUCT FOR LIND

St. Louis County Democrats Holding Their Convention.

Direct Delegates For John Lind For Governor.

The Resolutions Endorse the Kansas City Platform.

Owing to a misunderstanding as to the hour of meeting, the Democratic county convention was late in getting together this afternoon.

The hour had been fixed at 1 o'clock, to permit an adjournment early enough to let the range delegates off on the afternoon train. This was not generally understood, and it was 2 o'clock before the convention was called to order by Dr. M. E. Cullum, chairman of the county committee.

There was a fair attendance, including a number of delegates from the range. There was no promise of anything in the way of a fight, and this left the attendance down a good deal.

Among the range delegates were: Charles J. Essmon, G. Mulligan, Eveleth; T. J. Berklund, Biwabik; S. L. Ekve, Hibbing; W. J. Millbrook, McKinley; Pat. Murray and E. Sehur, Biwabik.

Alfred McCallum read the call until Harris Bennett moved that it be dispensed with, which motion carried.

Frank Crasseweller was made temporary chairman. He made no speech, but proceeded to business after a few introductory remarks.

Thomas H. Berklund, of Biwabik, was made temporary secretary, being nominated by T. J. McKeown.

A committee on credentials, consisting of T. J. McKeon, Charles Gasper and Alfred McCallum was appointed by the chair.

The temporary organization was made permanent, after which Henry Truelsen moved the appointment of a committee on resolutions. The following committee was appointed: Henry Truelsen, W. E. McEwen, S. C. Murphy, R. C. Mitchell, Andrew Godemus, Charles Jessmore and H. H. Hawkins.

The following committee was appointed to select forty-five delegates to the state convention, on motion of F. L. Ryan: F. L. Ryan, Morris Thomas, Joseph Plutnisky, Harris Bennett, D. E. Little, Joseph Nyuanger, D. Sang, John Beutner, S. Lekva, and H. J. Millbrook.

M. M. McMahon nominated Bert Fesler for the endorsement of the convention as a member of the state committee, and Alfred McCallum named Dr. M. E. Cullum. They were recommended by acclamation.

The following resolutions were adopted:

The Democrats of St. Louis county, Minnesota, in convention assembled, endorse the principles of the Democratic party as declared in its platform made at Kansas City, Mo., July 4, 1900.

We rejoice that by Democratic insistence the nation's pledges have been kept toward Cuba, and we now insist that similar pledges be given to the Philippines, as provided by the bill introduced by the Democratic minority in the national senate.

The power of the modern trusts is a menace to the welfare of and happiness of the people. We would repeal the tariff benefits they enjoy; we would remove the railroad discriminations and rebates which aid their growth; we would forbid the subsidies they seek; we would publish and control their affairs by appropriate legislation; and we would enforce all laws against them, sparing none; we would correct the imbecile and unbusinesslike policy that diverts to other channels, by artificial barriers, such trade with Canada as naturally belongs to us. We call attention to the fact that the national Republican party has, during the past six years, become the political home of every trust magnate of the United States.

We favor the postal savings bank and the income tax; we oppose government by injunction.

We favor the election of United States senators by direct vote of the people, and will endeavor to secure the election to the senate of men pledged to that reform.

We regret that deference to party loyalty and subserviency to privileged greed should compel our United States senators to vote for the iniquitious ship subsidy in the face of the unanimous public opinion of the state.

The state's law forbidding consolidation of competing railroads should be enforced, and that in every case; and the state's neglected power to regulate rates should be exercised as the one present remedy for discrimination and extortion.

The readjustment of our tax laws for the purpose of equitably distributing the burdens of taxation, is an absolute necessity; the present state administration has proven its incompetency to deal with it, refusing from partisan motives to adopt the clear and comprehensive program submitted by the Democratic minority.

We favor taxation of non-resident corporations equitably with domestic corporations; adequate taxation of public-service corporations; and fair taxation of incomes; endorsing, for the accomplishment of these reforms, the bills and constitutional amendments introduced by Senator Baldwin in the state senate at the special session of 1902.

We would correct the errors in the law establishing a state board of control.

We would facilitate the accomplishment of municipal ownership of public-service corporations in every way in which state legislation could effect such purpose.

We favor direct legislation as the most effective method of securing to the people control and supervision of the laws, and pledge the enactment of such laws as may be necessary to give the same full force in the state of Minnesota.

We recommend to the voters the pending measure for the increase of the gross earnings tax, calling attention to the fact that its submission was secured by the last Democratic administration.

We condemn the failure of the present state administration to enforce the law against the consolidation of the Iron Range railroads.

We condemn the failure of the state railroad and warehouse commission to maintain the state's jurisdiction over railroads wholly within its borders.

We condemn the failure of the board of control to conserve the efficiency of the state's institutions.

We condemn the failure of the legislature to accomplish any relief from unjust taxation.

We abhor the theory, first promulgated by the present state administration, that the state's schools are charitable institutions.

We recognize the right and the necessity of labor to organize for the purpose of securing higher wages, shorter hours of labor, and better conditions of employment. We favor an efficient 8-hour law to apply to all state contracts. We stand for arbitration as the best means for the settlement of all industrial disputes, and favor the enactment of a law to that end, which will provide a fair tribunal to which such disputes may be submitted.

We commend the record made by John Lind as governor of the state of Minnesota, as an example to the people of the state of the results that would be obtained for their benefit if the responsibilities of government were placed in the hands of the Democrats of the state in all executive, legislative and judicial departments, and instruct our delegates to the state convention to vote as a unit for his re-nomination.

Mr. Crassweller had to go, and Mr. Truelsen took his place. He made a speech on Democratic principles and conditions.

The delegates to the state convention were instructed to vote as a unit.

Chairman Truelsen was authorized to appoint a county committee of twenty-four members. Eight are to be from the city, eight from the county outside of the city and eight at large.

TIME TO KICK.

Board of Review Will Begin Its Sessions Monday.

The first three days of next week insurance agents having risks on the city hall building will tremble with apprehension and anxiety.

It is the time set apart for persons to make kicks on their personal property assessments, and the indications are that all records will be broken.

The board of review, consisting of Mayor Hugo, Assessor Olafson and Comptroller McCormick will listen to the complaints of those that have been assessed too high or think they have.

The assessor has sent out notices to every householder in the city notifying them of the amount of their personal property assessment, so that any person under the impression that the assessors have been unfair with them will have an opportunity to present the matter properly before this board.

Those that do not make complaint at this time are requested to forever held their peace.

THE LARGEST.

Twenty - Five Hundred People Come In On Great Northern.

The Great Northern excursion train which arrived here this afternoon about 3:30 was the largest that has come here this year.

There were two sections and the total number of passengers was about 2500.

This with the train which came in yesterday over the Northern Pacific railroad gives about 3000 strangers in the city at the present time.

They are putting in their time sightseeing about the city, boating on the lake, and enjoying the striking features of Duluth and vicinity.

HAS SENT IT IN.

Judge Edson Forwards His Resignation.

The resignation of William D. Edson as judge of the municipal court is now in the hands of Governor Van Sant.

He will step down from the bench on Aug. 1 instead of Sept. 1, as originally intended, in order that he can make a more thorough canvass of the Eighth congressional district for the Republican nomination.

Judge Edson's certificate of candidacy was also filed in St. Paul late this afternoon.

Logging Train Ran Away.

Nineteen loaded logging cars were wrecked at Highland on the Iron Range road yesterday morning. Through a failure of the air brakes to work, the cars got away without a brakeman, and ran a distance of eight miles at a terrific rate of speed, when they struck the main line and the cars and logs were smashed into toothpicks and spread over a large area. The train is said to have made the eight miles so fast that in passing by a point the witness counted but seven cars. Fortunately there were no trains passing at the time, on the new road, or there would have been a terrible catastrophe.

Tumor Killed Him.

Ole Olson, of 223 Sixth avenue west, died yesterday from a tumor weighing forty-three pounds.

The growth was on the left side of the body and was so large before Mr. Olson showed it to a physician that an operation was pronounced impossible.

Mr. Olson was formerly a member of the local "Longshoremen's union, and friends from that union conducted the funeral, which was held in Flood & Horgan's undertaking rooms this afternoon

HOT CONTEST

Is Likely In Republican Convention at Eau Claire.

St. Paul, June 21.—An Eau Claire, Wis., special to the Dispatch says: A hot contest is imminent in the Republican convention today. The plans of the La Follette men are said to be to insist on a joint convention of the two assembly districts for the purpose of adopting a second set of La Follette resolutions, but that they purpose to make no opposition to the election of delegates to Madison by separate gatherings of the two assembly districts. That is, they propose to hold the two bodies together under a county convention organization, but to allow each district to choose its own delegates without interference. It is understood the La Follette men will control the Second district easily, and that they expect by a combination with anti-machine Republicans in the First district to get several La Follette men into the delegation from that district along with anti-machine stalwarts who will not support La Follette, but are glad of the chance to smash the so-called Churchill-Farr stalwart machine.

MINNEAPOLIS WHEAT.

Minneapolis, June 21.—Close: Wheat, July, 75¼c; September, 76⅝c. On track: No. 1 hard, 79¼c; No. 1 northern, 76⅝c; No. 2 northern, 74⅛c.

FROST IN MISSOURI.

Marysville, Mo., June 21.—There was a slight frost in the low places through Nodaway county this morning. The coldest weather for June for several years has prevailed for several days.

THE DENVER LAUNCHED.

Philadelphia, June 21.—In the presence of a distinguished company of naval officers, many leading citizens from Colorado and a large number of persons from New York and other cities, the unarmored cruiser Denver was successfully launched this afternoon at the Neafie & Levy ship yards.

A WISE MERCHANT

HOW HE EXTRICATED HIMSELF FROM A SERIOUS DIFFICULTY.

Mr. Outcalt Tells an Interesting Story About a Recent Important Event In His Life.

How George W. Outcalt, a well-known merchant of Wellston, Oklahoma, recently succeeded in extricating himself from a serious difficulty is one of the interesting stories now going the rounds of the papers.

"I had been working very hard," he said, in telling the story. "For a long time I had given almost every moment of my attention to my business and I did not notice what effect this was having on me. But, finally, I saw that my health was giving way—I was getting thin, was always tired and easily out of breath; my blood was poor, my stomach bad. Every now and then I would be dizzy, and any little exertion would exhaust me completely. In short, I was all run down.

"Then one day I saw an advertisement which led me to try Dr. Williams' Pink Pills for Pale People. They acted like magic. I felt better in a few days. My flesh came back till I gained my normal weight, my appetite returned and my general health is now better than it had been for many years. I have recommended Dr. Williams' Pink Pills to many of my friends and am glad of this opportunity to tell what the remedy has done for me."

What Dr. Williams' Pink Pills for Pale People did for Mr. Outcalt they will do for others similarly afflicted. They are different from ordinary medicine because they act directly on the blood and nerves. They are used with almost miraculous results in the most obstinate nervous diseases and as a blood builder and tonic are unequalled. Dr. Williams' Pink Pills for Pale People are sold by all dealers or will be sent postpaid on receipt of price, fifty cents a box; six boxes, two dollars and fifty cents, by addressing Dr. Williams Medicine company, Schenectady, N. Y. Be sure to get the genuine; substitutes never cured anybody.

CITY BRIEFS.

Tibbetts, undertaker, 31 East Sup. St.

Smoke X-Ray and Duluth Herald cigar.

Parlor theater—Great show this evening.

The regular meeting of the Central W. C. T. U. will be held in the parlors of the M. E. church on Monday next at 3 p. m. The subjects to be considered are the officers' reports and the program for the coming year.

Judge Dibell has filed findings in favor of R. H. Cox & Co. and against William B. Henderson, giving a judgment for $154.68 on a plumbing bill. Judge Dibell also gives Paine & Nixon a judgment for $130.64 against Burchell & Poosness on a building contract.

The district court has appointed Watson Mendenhall as trustee for the issue of $250,000 bonds by the Highland Improvement company, the Minnesota Loan and Trust company, the former trustee, having resigned.

"Alas poor Yarick I knew him well," for he got his clothes and hats cleaned at Kelly's. The best work, lowest prices. Both phones.

Owing to the length of the Mueller case Judge Cant has been compelled to postpone the adjourned term of court for Lake county. It was to have been held Tuesday, June 24, and it will be further adjourned to July 8.

Foresters' dance, Court Eastern Star, Lester Park, Wednesday, June 25.

Parlor theater—Jolly vaudevine olill.

Word has been received at the local weather bureau that arrangements are being completed for the installation of a weather bureau in Yellowstone Park. The nearest bureaus to the park at the present time are those at Lander, Wyoming, and at Helena, Mont.

PERSONALS.

Capt. C. M. Davis, of Milwaukee, is at the Spalding. He is watching the raising of the steamer George Hadley in the interests of the underwriters.

A. D. Slater, of New York, is at the Spalding.

F. W. Pleasance, of Cleveland, is in the city.

J. E. Jopling, of Ishpeming, an expert mining engineer, is at the Spalding. Mr. Jopling is superintendent of all the operations of the Cleveland Cliffs Iron company and is here to inspect the exploratory work now being done on the Mesaba range by that company.

Dr. H. Collins has returned home from the East.

Judge A. N. McGindley has gone to Williamsburg, Ohio, where he will deliver an address Monday at the closing exercises at the college he graduated from forty-three years ago.

William Lounsberry leaves tomorrow on the steamer America for a two months' vacation at Tobin's harbor, Isle Royale.

George Bayer, Ray Gadway and Ira Tupple, of Staples, are visiting their aunt, Mrs. Nellie M. French, of Oneota.

Miss George Beck, daughter-in-law of the late Senator Beck, of Kentucky, arrived in Duluth this afternoon to be the guest for a few days of Mrs. Helen Cody Wetmore, of Bay View Heights.

Miss Lillian St. Clair, who has been quite ill at St. Luke's hospital for some weeks was today removed to her home, 1125 East Superior street.

Mrs. N. A. Howe, of New York, is visiting at the home of her daughter, Mrs. G. A. St. Clair.

H. H. Johnson, W. M. Jeffrey and J. L. Mullen, have gone to Chicago to attend the Derby and spend Sunday.

POLO GAME.

The Third In the Series Was Won By England.

London, June 21.—The deciding polo game of the series of three for the America cup was won by the British team at Hurlingham today by a score of 7 goals to 1.

The teams were: Americans, J. M. Waterbury, R. L. Aggasiz, Foxhall Keene and Lawrence Waterbury. English, Cecil Nickalls, Patron Nickalls, George Miller and Walter H. Buckmaster.

The umpires and referee were the same as heretofore.

Although the weather was most unfavorable, the club grounds have seldom seen such an assemblage as attended. Among the many Americans present were Whitelaw Reid, the United States special ambassador to the coronation; Mrs. Reid and Miss Reid; United States Ambassador Choate and Mrs. Choate, Michael H. DeYoung, proprietor of the San Francisco Chronicle; Mrs. DeYoung and Miss DeYoung and Mr. and Mrs. Louis Hay.

The results are the London Athletic club meeting at Stamford Bridge today were as follows:

One hundred yards handicap—H. M. Hilbury 9¾ yards start, won. Time, 10 1-10 seconds; A. W. Duffy (American), was entered, but did not compete.

Hammer throw—E. B. May, Oxford, 6 feet handicap, won; distance 134 feet 3½ inches. R. W. Greene (American), scratch with 125 feet 4¼ inches was third.

NO THREE-CENT FARES.

Cleveland, June 21.—The circuit court today granted a perpetual injunction against the construction of the so-called 3-cent street railroad fare in this city. The court declared that the ordinance granted by the city council to the promoters of the new company to build roads on at least a three of the seventeen routes was invalid.

CORNELL WINNER

In the Four-Oared Race Over Poughkeepsie Course.

Came In Five Lengths Ahead, Pennsylvania Second.

Indications That Varsity Race Will Be Very Close.

Poughkeepsie, N. Y., June 21.—Cornell wins the 4-oared race by five lengths; Pennsylvania second, two and a half lengths in front of Columbia, third. Time, 10:43¾; Pennsylvania, 10:54 4-5. The record time for the course was made by Pennsylvania in 1900, 10:31 3-5.

Poughkeepsie, N. Y., June 21.—A drenching rain and a nasty gray sky, without a single rift in it to justify the hope of clearing, greeted the weather-sharps this morning when they looked out to see what the indications were for today's boat race. When the rain would slacken a bit, out from the small crowd in the hotel corridors would go a squad of hopeful college men, gazing skyward to see if they could see a rift in the sky or a streak of sunlight that would give encouragement to the expressed hope that the races could be held this afternoon. The early morning rain had a depressing effect. The early trains from the north and south, which usually bring a goodly squad of people, brought practically no one, and up to the middle of the forenoon there was the smallest gathering of spectators ever seen in Poughkeepsie on a similar occasion. There was little or no wind and the course was perfectly smooth. Mr. Bangs and Mr. Fortmeyer, of the amateur association, expressed themselves as believing that if it cleared up the conditions would be ideal for the making of fast time, and that in any event, even if the rain continued, the races should be rowed. The crews, therefore, will row this afternoon, even if the rain continues falling and if the water is in good condition, and the rain will not materially hurt the oarsmen. It was pointed out, however, that while the rain smoothed out the water of the course, it would be impossible to make record time, as the men would be cold and chilled with the rain and would not limber up for the races as they would if there was good warm sunshine.

All of the crew coaches this morning said their men were in good condition for the race. The oarsmen lounged around their boat houses this morning, or kept well indoors, to avoid the natural chill in the atmosphere.

Late last night there was a little betting, but this morning, probably because of the fact that few if any of the college men have arrived, it was pretty hard to find anybody who wanted to put up a dollar on the races. For the freshmen eight Wisconsin was this morning a decided favorite, and even Cornell backers, who are usually quick to take bets, especially when odds are offered, were asking for 2 to 1, with Wisconsin the favorite. In the 'varsity, Cornell is a strong favorite, and although in some cases the field was offered against Cornell a good advantage, there were few takers.

The only wager of importance laid was one of $1000 by Pennsylvania adherents that their 'varsity crew would beat Georgetown, the Georgetown adherents taking it at an advantage of 2 to 1. The $1000 was offered by a single individual, and the $500 which was laid on Georgetown was raised by a pool of George town supporters. Coach Courtney of the Cornell said this morning that while he considered his 'varsity crew very fit, he did not share any outside predictions of sure victory. He thought it was going to be a very hard-fought race and would not be won until the end of the last mile. He left this to his men, preferring that they should go out with the feeling that they would have to row the race for all they were worth to win.

Curiously enough, although there are a good many Columbia college people here, there is little, if any, money being placed on Columbia to win. In a pool made last night on the 'varsity race, in which Cornell sold for $9, Wisconsin for $7 and Pennsylvania for $5, Columbia sold for $1. This is strange, in view of the fact that Coach Hanlon has talked very favorably of his men and believes they will make a great showing.

The unknown factor in the race is Georgetown. Its 'varsity crew has rowed very fast over the four-mile course, but the general impression among the rowing sharps is that while she will be very formidable for three miles, she will not be able to keep the pace to the finish. Syracuse does not seem to figure in "the before the race predictions," and Pennsylvania, whose crews have made a big showing, and on several instances have won on this course, also is getting very little consideration among those who are picking winners.

Towards 10 o'clock while there was no abatement of the rain there came up a nasty wind from the south. It blew straight up the course and even with the flood tide, kicked up quite a swell, portending that when the tide ebbed and if the wind continued to blow from the south there would be such conditions that the race could not be rowed. As the day advanced, the wind increased and stayed in the same general direction from the south, but the indications toward 11 o'clock were that it might get around to the west.

At noon the rain had stopped and the wind, which before was blowing from the southeast, shifted to the south. The choppy water had subsided and the river was smooth.

There was no sign of sunshine, but old rivermen expressed the opinion that the rain was over, and that it would be fine, clear weather by the time the first race was called.

Ellis Ward, the Pennsylvania coach, sprang a surprise on his own men as well as the entire rowing colony this morning, by rigging his shells with aluminum washboards. This is an innovation in the rigging of eight-oared shells, but it was generally considered a clever idea. None of the crews did any rowing this morning, except to take their shells from their respective boat houses to the ice house at the one mile point, which is to be the rendezvous of all the crews before the race.

At 2:30 p. m. when the referee's cutters began to police the course a drizzling rain was falling and a heavy fog lay over the river so that it was hardly possible for spectators to see over a mile of the course. The water was smooth. The wind shifted to the northwest and conditions showed signs of improvement. Tide just started to run down the course.

The Syracuse launch with two shells in tow has gone to the ice house, where the crews assemble.

2:50 p. m.—In spite of the threatening weather the special trains are bringing in large numbers of enthusiastic spectators and the observation train is rapidly filling up.

3 p. m.—The wind has shifted to almost northwest and will be with the crews. It is light. The fog is heavy, but with a chance of clearing.

The Columbia launch has gone to the assembling point with the freshman shell. The Pennsylvania crew rowed to the assembling point at the ice house.

The Pennsylvania 'varsity crew has left for the crew rendezvous in their shell. Coach Ward decided that it would give his men a chance to limber up.

3:10 p. m.—The observation train is now leaving the finish line for the start.

Cornell crew has reached its stake boat. The Pennsylvania crew has reached its stake boat. Crews are getting ready.

3:47 p. m.—Four-oared race started.

Grand Excursions
On Lake Superior.
THE FAST ELEGANT STEAMSHIP
IROQUOIS
Will leave Singer's Dock, Lake Avenue and Morse Street at 8 p. m.

IN CONGRESS.

The House Discusses the Bill on Military Affairs.

Washington, June 21.—When the house met at 11 o'clock today, Mr. Hull, chairman of the committee on military affairs, called up the conference report on the military academy appropriation bill.

Mr. Hay (Va.), Mr. Clayton (Ala.), and Mr. Mann (Ill.), criticised the action of the house conferees in agreeing to the number of cadets at West Point proposed by the senate. Mr. Mann said that recently the number of cadets had been increased 100. The increased membership of the house would further increase the cadets thirty, and now it was proposed to increase that number still further. He did not believe he would legislate in the direction of a great increase in the standing army.

Mr. Clayton called attention to the fact that the army, which now cost annually $25,000,000 before the Spanish war, now costs annually $125,000,000.

Mr. Clayton demanded a division on the adoption of the report and no quorum appearing, a call of the house was ordered. After the roll had been called, Mr. Richardson, the Democratic leader, grew impatient over the fact that no announcement of the state of the vote was made beyond the fact that no quorum had responded and there was a rather sharp exchange between him and the speaker over the requirements of the rules in the premises.

Mr. Clayton finally moved to adjourn, but a second failed, 36 to 68. After waiting twenty minutes a quorum appeared and the conference report was adopted, 58 to 59.

Mr. Cannon (Ill.) called up the conference report upon the sundry civil bill and it was agreed to without division.

Mr. Grosvenor (Ohio) moved that the house concur in the senate amendment for a memorial bridge across the Potomac to cost not to exceed $2,500,000, and appropriating $100,000 for the preparation of plans. Twenty minutes debate were allowed upon a side. The motion was voted down after some debate, and the bill was sent back to conference.

The debate on the Philippine government bill was then resumed.

Dinner Sets.

We desire to call special attention to our magnificent Chinaware and Crockery. It is very extensive and well assorted, contains much beautiful Table China and a host of pretty Toilet Sets.

60-piece Dinner set—English semi-porcelain—comes in two decorations. Only $3.98

COAL MEN COMING

Bituminous Producers and Their Agents to Visit Duluth.

Elaborate Arrangements For Their Entertainment Here.

No Limit of Time Is Fixed For Their Stay.

The Lake Erie coal shippers, including all the producers of bituminous coal that ship via the lakes, together with the sales agents and officers of all the lake companies, will arrive in Duluth on an excursion next Tuesday. No limit is said to be placed on the time they will remain in the city, but that they will stay here until ready to go home.

Elaborate arrangements have been made for the entertainment of the visitors, they being in charge of J. A. Ferguson, local agent for the Pioneer Fuel company. After their arrival in the city, some time during the morning, the visitors will have a few hours' rest. During the afternoon from 1 to 4 o'clock they will be taken on an excursion about the Duluth-Superior harbor, on a tour of inspection of the docks. From 4 to 6 o'clock the visitors will be taken for a drive on the boulevard, and at 6:30 o'clock they will be given a dinner at the Spalding hotel.

Accompanying the excursion will be Gen. C. McC. Reeve and Judge M. B. Koon, of Minneapolis.

The coal companies that will be represented in the entertainment are the Pioneer Fuel company, the Youghlogheny & Lehigh Coal company, the Ohio Coal company, and the Northwestern Coal Railway company.

Dance at Oatka this evening—Lisbon Orchestra.

TRAGEDY.

City Marshal of Jefferson, Ia., and Another Man Killed.

Sioux City, Iowa, June 21.—City Marshal Swearingen of Jefferson was shot and killed this morning by S. M. Shipman, whom he sought to arrest. The latter was killed by a mob and the town is now in an uproar.

Des Moines, June 21.—The trouble originated when two boys on the way to a circus passed some remark about Shipman, which caused the latter to throw stones at them. They swore out warrants for Shipman's arrest and the city marshal visited Shipman's house to serve them. In response to his knock, Shipman fired twice, killing Swearingen instantly. News of the shooting spread and an excited mob surrounded Shipman's house. Weapons of all sorts were produced and the house was literally riddled with bullets. That from the sheriff's revolver is believed to have inflicted the fatal wound. After Shipman's death the mob dispersed. Shipman is said to be half witted.

CAPITAL STOCK REDUCED.

St. Paul, June 21.—The Guaranty Land company of Duluth, today filed amended articles of incorporation with the secretary of state, reducing its capital stock from $200,000 to $40,000.

TROOPS WITHDRAWN.

Paterson, N. J., June 21.—The guard of state troops at the silk mills was withdrawn today, after a quiet night and the places of the soldiers were taken by policemen, firemen and constables and extra deputies. The Ribbon Weavers met and decided not to return to work while the troops were on duty.

IRONWOOD MAN KILLED.

Milwaukee, June 21.—An Evening Wisconsin special from Ironwood, Mich., says: Ellas Mattson shot and killed John Llen during a quarrel. Both are Finlanders. Mattson has been arrested.

NEW BEEF TRUST DENIED.

Chicago, June 21.—Specific denial was made today by Arthur Meeker, manager for Armour & Co.'s packing plant, and by Michael Cudahy, of the Cudahy Packing company, that the companies had joined with others to form a trust under the New Jersey laws.

Dance at Oatka this evening—Lisbon Orchestra.

DRAGGED HORSE AND RIDER.

John Decker, the new driver on the Benton-Lewiston stage line, is said to have an honest eye, and yet he told me a most remarkable bear story, and if it were not for his eye I would be inclined to doubt the truth of it, says the Anaconda (Mont.) Standard.

He said that one time when he was punching cows down in Gallatin county he and another cowboy were riding a circle on the fall round-up, and as they approached a thicket of plum bushes a 2-year-old cinnamon bear ran out and attempted to escape.

John gave the alarm and he and his partner immediately gave chase. They succeeded in roping the critter without any trouble—that is, John got his rope on him, and while has partner was trying to get around the other side of him in order to rope him from another direction, the bear began to move off, dragging horse and rider with him. While the saddle horse was used to holding 3-year-old steers, he was walked along by the bruin without any trouble. John shouted to his partner to hurry and put his rope on as soon as possible in order to assist in stopping the now thoroughly frightened bear. Finally the bear's pace quickened into a trot and John's horse dutifully followed him. Then the trot grew into a run, and finally it was a mad stampede across the country.

The men wondered where the bear was leading them, and they soon found out.

They discovered that they were approaching the brink of a precipitous bank, at least fifty feet high.

Almost before John could take in the situation and loosen his rope from about his saddle horn the bear plunged over the bank and was gone. The horses stopped short and the riders looked at each other in amazement. The bear fell and rolled to the bottom and disappeared in the bushes, with the rope dragging after him.

If anyone hapens to kill a bear in that section and finds a good manila rope around his neck, he will understand that the rope belongs to John Decker, whose postoffice address is Lewistown, Mont.

BIRTHS.

OSTBY—A daughter has been born to Mr. and Mrs. Thomas Ostby, of 513 Eighth avenue east.

COLIN—A daughter has been born to Mr. and Mrs. Andro Colin, of 2625 Courtland avenue.

ERICKSON—A daughter has been born to Mr. and Mrs. A. A. Erickson, of 3725 West Seventh street.

DEATHS.

SAMPSON—Mrs. Caroline Sampson, aged 83 years, died June 20, at 5:30 p. m., at her home, 326 East Fourth street. She is survived by her children, Mrs. J. P. Hector, B. Sampson, S. S. Sampson and M. Sampson, of this city, and Mrs. H. Marshall, of Whitehall, Mich., and Mrs. H. Johnson, of Chicago.

The funeral services will be held at 2 o'clock tomorrow afternoon, (Sunday) from the late residence, 326 East Fourth street.

OLSON—Olaf Olson, age 43, died June 20, at 223 Sixth avenue west. The funeral service was held this afternoon from Flood & Horgan's undertaking rooms.

OULETTE—The infant daughter of Mr. and Mrs. M. Oulette, died June 20 at the home 1416 West First street. The funeral will be held tomorrow afternoon at 1:30 in the St. Jean de Baptiste church.

WONDERFUL PIANISTS.

Schramm Children to Appear Here Soon.

The Saturday club has arranged for the appearance in Duluth of the famous Schramm children, an announcement that will excite great interest among the musical people of the city.

Paloma and Karla Schramm are aged 12 and 9 respectively. That a child of 12 should attempt to render on the piano such pieces as Moskowski's "Valse Brilliante" or Chopin's "Nocturne," op. 9, No. 2, is wonderful enough, but that she should properly execute them with appreciation and discrimination and follow it up with creations of her own fully as difficult is phenomenal.

Karla is a pretty child and Paloma's only pupil. She shows all the aptness one would expect from a sister and will make a brilliant performer—indeed, is such at present.

An exchange says of their concert:

"Original compositions were played by both children which were more than remarkable. Karla's own 'Two Sisters,' being a simpler and more easily understood story, was cheered probably the most. Indeed, the simpler compositions all through appeared to possess the most, excepting, perhaps, Paloma's own 'Battle of the Giants,' a duet with which the performance concluded and which was followed by six or eight recalls.

"Music is a language which does not appeal to all alike, and had the great Paderewski presided at the piano last evening his performance would, no doubt, have been at least equally difficult of comprehension. But Paloma's improvisation upon a theme furnished by the audience was understood by all. A number of the musicians present handed in themes from favorite writers, and Paloma chose one haphazard. It proved to be by H. G. Herbert and from Mendelssohn. Paloma soon warmed to her subject, and soon the phrases and paraphrases, all tinged with the theme first struck off, were holding the audience breathless."

They will appear here within two weeks at the Pilgrim church.

MURPHY KNOCKED OUT.

Oakland, Cal., June 21.—Mike Donovan knocked out Tim Murphy in the last round of a 15-round contest before the Acme club of this city. Donovan had the better of the fight throughout and in the eighth round put Murphy to the floor twice with right swings to the head. The men fought at 152 pounds and the betting was even.

Oatka Beach Concert.

THE BAR'S TRIBUTES

To the Late Judge Dickinson In the Supreme Court.

Memorial Presented on Behalf of Bar of Minnesota.

Addresses By Greenleaf Clark, Judge Severance and Others.

St. Paul, June 21.—(Special to The Herald.)—In the supreme court yesterday afternoon the death of A. H. Dickinson, late of Duluth, and for twelve years a member of that tribunal, was ceremonially observed, the members of the court and of the bar of the state joining in expressions of veneration and respect of the deceased.

The court room was crowded with attorneys, most of whom were from this city, Minneapolis and Duluth, but there were many from other portions of the state.

On behalf of the bar of the state, W. E. Begg, of this city, presented the following memorial:

"The members of the bar, deeply mourning the death of their universally beloved brother, Daniel Ashley Dickinson, respectfully present for preservation among the records of this court, of which, for twelve years, he was a distinguished member, a brief memorial of his many virtues:

"For a third of a century Judge Dickinson devoted his undivided energies to the administration of justice in our own state, spending fifteen of these years at the bar and seventeen on the bench. To this service he brought a character of singular purity and probity, a cultivated but peculiarly practical mind; a sound legal judgment, scorn for every form of wrong; candor and patience unsurpassed and industry unstinted.

"In all the relationships of life, public and private, the ease and accuracy with which he appreciated the attendant obligations and amenities, were equalled only by the alacrity with which he performed them, and by the constancy with which he imposed upon himself higher standards of conduct than he exacted from others.

"It is rarely indeed that we are permitted to contemplate a character so

THE LATE JUDGE DICKINSON.

altogether pleasing from so many different points of view, and upon law, upon judiciary and upon mankind he reflected honor; and it is but justice that we and those who follow should honor him."

Hon. Greenleaf Clark, of this city, read a memorial address in which he reviewed the life history of the late Judge Dickinson, pointing out his many admirable qualities as they were revealed from time to time in certain of events of his career.

Former Judge M. J. Severance, of Mankato, which was for some years the home of Judge Dickinson, spoke of him as he had known him, expressing the highest regard for him as a man of the deepest veneration and respect for him as a jurist.

Gen. J. H. Hahn, of Minneapolis, spoke of the deceased as "A just man, whose purity of heart, gentleness of spirit and nobleness of aim are recognized and acknowledged by all who were brought within the immediate sphere of his daily life."

Gen. Hahn said further: "Daniel A. Dickinson will no longer by his genial presence and manly bearing serve as an ocular example to his brethren at the bar or the community in which he lived. But his spotless life, the high sense of which ever actuated him, his honorable career at the bar and on the bench, will stimulate and elevate in an increasing circle both bar and people."

Attorney General Douglas spoke briefly, saying that he had known Judge Dickinson but slightly, but had learned to respect him highly from the high regard in which he was held by others, and from his recorded work."

W. W. Billson, of Duluth, who has been the law partner of Judge Dickinson since he resigned from the bench, delivered a brief address, and Justice Collins, of the supreme court, spoke feelingly of his many years of pleasant association with the deceased.

In closing the exercises, Chief Justice Start directed that the memorial and the addresses be made part of the record of the court for that day.

NOT AMBITIOUS.

Duluth Young Men Not Interested In Naval Brigade.

"I can't conceive," said Hon. Thomas Pugh to a group of his friends at the Spalding today, "why the young men of Duluth do not take advantage of the bill I got passed last session to form a volunteer naval brigade. The governor was enthusiastic over the matter and everything was done to render the undertaking feasible, but somehow or other no one seems to care to start the movement.

"Duluth has advantages for such an organization that are unrivalled by any port on the lakes, if not also upon the seaboard, but the young men of this city seem to be lacking in ambition to become the 'men behind the guns.'"

"A NIGHT IN BOHEMIA."

To Be Produced Under Auspices of Elks.

Those royal entertainers, the Elks, are preparing a local theatrical treat in the shape of the well known two-act musical comedy, "A Night in Bohemia," which with local amateurs they will play at the Lyceum in the near future for the benefit of their building fund.

"A Night in Bohemia," has been played by the Elks from ocean to ocean, and the local lodge have secured the rights from the author, T. P. Getz, a prominent Elk, of Omaha. It contains about thirty-five songs, fifteen specialties and a world of local gags and funny situations. Fred Reynolds, John Doran, Bob Cox, Dr. McNulty and other prominent Elks will take the parts and about fifty people will comprise the show. Charles Goodrich, Dr. Patton and Arthur Crege, the Elks' committee, are quite elated over having secured "A Night in Bohemia," and promise a big treat.

DULUTH OPERATIC CLUB.

George Tyler Undertakes Organization of Musicians.

Many of the leading vocalists of Duluth and vicinity have from time to time urged George Tyler to head a movement in organizing an operatic club. The remarkable growth of music generally, both instrumental and vocal, during the past two or three years, is held to justify Mr. Tyler in starting the club. Operas will, at first, be given in their entirety in oratorio or concert form, with full orchestra. Soloists will be chosen from members of the club by a committee of active members. Each singer will read from his own score, thus doing doing away with the nervousness attendant upon first appearance.

This plan of producing opera was introduced in Providence, R. I., last season by Jules Jordan and resulted in a great success. Any opera meeting with success can be reproduced with action and costume by popular vote of the club. Following further the lines adopted by the Providence Operatic club, the Duluth organization will be run on the commonwealth plan, all profits accruing from performances to be divided at a ratio to be fixed on by a committee, between active members.

Mr. Tyler proposes to give two and possibly three operas during the season of 1902-03, choosing those desired by a majority of the club. "Il Trovatore," "Faust" and "Mignon," will be rehearsed in the order named.

As indicated by a card elsewhere, qualifications and conditions of membership may be learned from Mr. Tyler.

DULUTH OPERATIC CLUB

Mr. George Tyler will receive applicants at his studio, 309 Masonic Temple, Sundays 5 to 6 p.m.

TRAIN WRECK.

One Dead and Two In Debris of Nebraska Accident.

Fairbury, Neb., June 21.—One man is dead, two others buried in the wreck and three trainmen injured as the result of a freight train leaving the tracks on the Rock Island road at Thompson, a small station six miles west of this city, last evening. Eighteen cars of merchandise followed the tender of the engine into the ditch and blockaded the track for eight hours.

Three Grand Excursions

1:30 P. M. — Str. Argo leaves 1:30 p. m. for Two Harbors, returning leaves Two Harbors 4 p. m. and arrives in Duluth about 6 p. m. — 25c Round Trip.

Steamers Leave Booth's Dock, Near Canal.

SPREADING.

Interest In the Actinic or Violet Ray Cure For Cancer and All Germinal Blood Poisonous Diseases Spreading Rapidly.

Since the introduction of Dr. Finsen's violet or actinic ray treatment for cancer and consumption into Duluth by the Herbaqueen company, of 319 First avenue east it is attracting sufferers from these maladies from surrounding towns. Many in Duluth and vicinity are being treated now very successfully. The treatment is very simple and painless, and consists in exposing the affected parts to the rays of light in a large cabinet.

The rays of this light are so powerful that in a recent test in New York a photograph was printed with the light after it had passed through the body of a man.

SMALL BOY SMOTHERED.

Buried In Sand Bank at Fergus Falls.

Fergu Fall, Minn., June 21.—(Special to The Herald.)—Bennie Jelmo, the 8-year-old son of Mr. and Mrs. Ole Pelmo, was smothered in a sand bank in the rear of the Park hotel here last evening. He was playing in the sand with Roy Moen, when the bank caved in and buried him completely. The it was not anticipated that such a denouement would result.

THE DERBY AT CHICAGO

Fifty Thousand People Present to See Great Race.

Is Made One of Greatest Social Events of Year.

Track In Good Condition and Fast Time Expected.

Chicago, June 21.—Washington park this afternoon was the scene of the most famous of Western turf events—the fifteenth American Derby. This historical race was third on the program, but long before the bugle sounded for the first race the grounds were well filled, and by the time the thoroughbreds entered for the big stake race had passed the judges' stand, the stands and every foot of space up to the wire fence was occupied. In the field there was a vari-colored sea of vehicles. The American Derby is not only a sporting event of the highest class, but a social one as well. At the club house, in the boxes and in the vehicles were to be seen people of the highest standing socially and in the business and professional world. The horses were not without rivals for attention, for the social prominence of Derby day brought out a kaleidoscopic display of gowns.

It is estimated that between 50,000 and 60,000 people were present. The air was cool but the sky bright. The betting ring contained a veritable mob, the weight of the money apparently going to one or the other of the Eastern colts. The Westerners were hard played too; in fact, there seemed to be a very healthy divergence of opinion as to the merits of the contestants.

Chicago, June 21.—All of the twelve horses which are carded to start today in the fifteenth annual derby at the Washington park club track are said to be in good condition, and it is doubtful if there will be many withdrawals, though the owner of Prowl may decide that the track is not slow enough to give his colt the chance which it was thought he would have in deep going.

At present the prospects are for ideal weather, and it is believed the famous south side course will have dried up so much that by the time of the race—4 p. m.—the going will be fairly good, if not almost fast. This will enhance the chances of Heno, the favorite, and of the favorite horses generally, and will militate against the outsiders.

The city is filling up with visitors and there is every chance of a record-breaking attendance. Secretary Howard is counting on an attendance of 60,000 people, and would not be surprised if it is in excess of that number.

The latest betting on the event as announced this morning at an uptown hotel is as follows:

Heno, 2 to 1; Pentecost, 4 to 1; Arsenal, 4 to 1; Belles Commoner, 7 to 1; Hermis, 7 to 1; Otis, 10 to 1; Hildreth stable (Lord Lyon and Lucien Appleby), 10 to 1; Wyeth, 10 to 1; Aladdin, 12 to 1; Prowl, 15 to 1; Corrigan, 25 to 1.

It is announced that either J. Matthews or Otis will have the mount on Prowl, if the latter starts, instead of Davison, as was announced last night; while Coburn will ride Aladdin. The latter has come in for a strong place by some of the betters since early last night. Some of these wise men say Aladdin will win on either a good or a heavy track.

The racing stables were astir at an early hour this morning and everywhere there was an air of something important going to happen. More than half of the derby horses had passed the night at the track, and these were given light exercise on the inner track, none being allowed on the regular racing track, on which the harrows were busy. The going on the inner track will have dried enough to be not more than two seconds' slow, which will leave little hope for those horses whose chances are thought to rest on their mud running qualities.

Heno took his morning canter with Jockey Bullman in the saddle, and the rail birds watched them intently and agreed they are a good pair to beat.

THE DAKOTAS.

Mrs. McEathron Is Probably Laboring Under Mental Aberation.

SOUTH DAKOTA.

Huron—Developments in the flight of Mrs. George E. McEathron convince Sheriff Kerr that she boarded the Great Northern train Tuesday morning at Osceola and at Benson took a train for St. Paul. Further than that no trace of her has been found. Her husband arrived homes from Chicago Wednesday evening and is brokenhearted. It is now thought by some that Mrs. McEathron was laboring under a mental aberration.

Highmore—J. H. Hammer, 27 years old, living eighteen miles south of here, committed suicide by shooting himself in the head with a revolver. He came here a short time ago from Akron, Iowa, where his parents reside. No cause can be assigned for the act.

Scotland—The school board has let the contract for the new building to J. M. Detweiler, of Des Moines, Iowa, at a contract price of $17,500. The stone work is to be of Sioux Falls granite and the facing and trimming of pressed brick.

Mellette—The Old Soldiers' association of Northern Spink county held its first annual picnic at Armadale Island Thursday. Fully 2000 people were present.

NORTH DAKOTA.

Fargo—The following officers were chosen by the state G. A. R. encampment: Commander, J. C. Gipson, of Valley City; senior vice commander, James Carpenter, Park River; junior vice commander, A. L. Robert, Wahpeton; medical director, J. H. Johnston, Lisbon; department chaplain, M. H. Riff, Tower City. Delegates are F. W. Wright, Jamestown; Adolph Bressie, Wahpeton; council of administration, W. Aekermon, Grand Forks; Smith Stimmel, Fargo; D. Elemaster, Minnewaukin; A. J. Ames, Towner; E. Tibbits, Bismarck, wife W. R. C. officers elected were: President, Mrs. Fannie A. Valker, Wahpeton; senior vice, Florence Pattes, Devils Lake; junior vice, Ella J. Ryman, Lisbon; treasurer, Susan R. Morrill, Wahpeton. Delegates, Jessie Tracy, Bismarck; Agnes, Comstock, Minnewaukan. The next meeting will be at Lisbon. Commander-in-Chief Torrance was given a banquet and made an interesting speech. Col. Plummer, of Fargo, also spoke.

Grand Forks—The State Epworth league began a three days' session here Friday. The attendance is very large, and the gathering is an enthusiastic one. President Pilford is present, and Dr. Berry created a fine impression in his address. In the evening, after another address by Dr. Berry, there was a reception tendered the delegates by the local league.

OLD RELICS

Placed on Exhibition at the Haskell Museum.

Chicago, June 21.—Relics of kings who ruled 3000 years before the Christian era, together with complaints of a chief of police written on papyrus 2900 years ago, are on display for the first time in the Haskell museum of the University of Chicago. The exhibition is given by the Chicago society of Egyptian research, and the relics were gathered last summer.

One of the relics is a flat gold bar, thought to be the oldest piece of inscribed jewelry in the world. It bears the symbol of King Menes, who is thought to have ruled about 300 B. C. Another exhibit is a piece of papyrus on which is written a complaint by Nechthemetes, to a chief of police with reference to a robbery on his premises. This relic bears the date of 150 B. C.

A piece of papyrus of the third century bears a letter of Demetrius to his father, Heracleides, blaming him for not sending baskets of fodder.

MURDER.

James Gallagher and Wife Killed By Robbers.

Des Moines, June 21.—James Gallagher and wife were murdered by robbers at River Junction last night. A hired man and two children who occupied the house discovered the deed upon awakening this morning, finding Mr. and Mrs. Gallagher dead in bed. Mrs. Gallagher had been chloroformed and her husband shot in the head. A gold watch and $17 were taken.

By Plugging a Hole

In a dike with his finger a little boy saved Holland — that's history. By filling a hole in your tooth we will save you from tooth-ache—that's dentistry. We perform all dental operations from the following fees up:

Sets of Teeth $6 Gold Fillings, $2
Crowns.....$5 Alloy Fillings $1

Duluth Dental Parlors,

Near Lake Ave., 3 West Superior St.

WOMEN IN SOCIETY

Use Pe-ru-na as a Protection Against Summer Colds and Their Disagreeable Consequences.

Mrs. Charles Steinecke, a popular young society matron of Stoughton, Wis., writes:

"My experience with Peruna has been most pleasing. By carelessly leaving a heated ballroom I got thoroughly chilled and caught a heavy cold which settled on my lungs. I wore a protector, took many remedies for colds without success. With my other troubles I had catarrh of the head. Peruna was recommended to me, and I bought a bottle and soon began to improve, and kept on taking it and it cured me of all my troubles. I am most pleased to testify to its merits."—Mrs. Chas. Steinecke.

Miss Harriet F. Kimbro, Prairie View, Tex., preceptress for the Prairie View state normal and industrial college of Texas, writes: "I am pleased to state that Peruna has proven of great value to me. I often found that my duties proved too much for my strength and if it were not for Peruna I could not continue to do my work. It is a splendid tonic, invigorator and the best remedy I know of for women to take. It acts quickly in ridding the system of a cold and catarrhal affections. "MRS. H. F. KIMBRO."

Miss Florence Allan, 75 Walton Place, Chicago, Ill., recommends Peruna.

Colds are considered one of the necessary ills of life. One is liable to catch cold both summer and winter. Very often summer colds prove fatal. They are always dangerous.

A cold is the beginning of catarrh. It may cause catarrh of any of the internal organs—the head, throat, lungs and stomach, or pelvic organs. A remedy that will cure a cold then would cure all these direct effects of colds. Peruna is such a remedy. We have letters from all over the United States attesting to this fact. The poor and rich alike use and recommend it. A book of testimonials in the exact words of the writers sent to any address free of charge by The Peruna Medicine Co., Columbus Ohio.

Mrs. F. B. Henderson, 622 Grand avenue, Milwaukee, Wis., treasurer of the Schiller club, writes: "I never had any faith in patent medicines until I tried Peruna, but my experience with this reliable medicine has taught me that there is one which can be trusted and which will not fail in time of need.

PE-RU-NA FORTIFIES THE SYSTEM AGAINST CATCHING COLD.

"For the past few years I have found that I caught cold easily, which would settle in a most unpleasant catarrh of the head. I had to be especially careful about being out evenings and not to get chilled when dressed thin for parties, but since I have used Peruna my general health is improved, and my system is in such good condition that even though I am exposed to inclement weather it no longer affects me.

"I have a splendid appetite and enjoy life, being in perfect health.

"MRS. B. F. HENDERSON."

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

DULUTH BUSINESS UNIVERSITY

AND COLLEGE OF SHORTHAND, TYPEWRITING AND TELEGRAPHY.

TO HAVE STAFF OF SIX MEN TEACHERS DURING SUMMER AND NO VACATION.

Great Demand for Competent Young Men.

On this page there is a fac-simile of a letter received from the Smith-Premier Typewriter Company, of St. Paul, dealing with the scarcity of gentlemen stenographers. The letter speaks for itself. It is almost a duplication of what we have had to tell scores of business men in search of competent stenographers, as we are continually called upon to explain that we cannot furnish them. Since the first day of March we have recommended 136 young men and women from the school to responsible clerical positions, and for every young man recommended there has been at least five applications. Arguments to convince aspiring young men that they should study stenography should be unnecessary in view of these facts.

Commercial Course.

The accomplishment of bookkeeping and a thorough understanding of business principles is today an absolute necessity to any young person who expects at any time to enter a business career, however small. Our commercial course includes bookkeeping, single and double entry, commercial arithmetic, commercial law, grammar and composition, business penmanship, actual business practice, business correspondence, rapid calculation and spelling. These branches are taught by specialists. The success of our graduates from this department is all the evidence necessary to prove the thoroughness of the work done.

"IMPROVEMENT THE ORDER OF THE AGE"

TRADE MARK
325 HENNEPIN AVENUE.
G. LENDERSON, MANAGER.

MINNEAPOLIS, MINN., 5/28/02

W. W. Wiswell, Esq.
Duluth, Minn.

Dear Sir:

Replying to yours of the 27th regarding a gentleman operator for Waters & Clark, we cannot give you any encouragement, as there is no typewriter company that is able to furnish gentlemen stenographers enough for the demand. There are several employment bureaus in this city that secure positions for stenographers. It is not half the time they can furnish gentlemen enough for the positions at about $50.00. You have no idea how near an impossibility it is to get them at any price.

Yesterday you wrote me in regard to Mr. Snyder. He was not out of employment a half a day, as he went to work this morning for the Pittsburg Plate Glass Co., of St. Paul. You know we wrote you about him yesterday. There is no typewriter company any better off than we are. It is one of those cases where competent gentlemen stenographers cannot be had unless the price is something like $75.00, or higher.

A young man came up from a school in Rochester the other day, and it was not a day before we got a position for him at $50.00. He is nothing but a boy, - first position he ever had.

You say, "Kindly put several into communication with this firm at once". As we have explained, we cannot put them into communication with anybody. We appreciate the necessity of furnishing operators that can use our machine, and we are anxious to do everything we can, but when they are not to be had we cannot get them. Understand please that we are not the only typewriter company that cannot furnish gentlemen stenographers, - they can't any of them.

Yours truly,
The Smith Premier Typewriter Company

No Summer Vacation.

The College will be in session all summer and in charge of a staff of six men teachers.
Commercial, stenographic, telegraphy, English and penmanship courses will be taught.
Special rates will be made to those who wish to take up one or two English branches, which will afford excellent opportunities to young people to spend a part of their long vacation in review of their weak subjects.

Are You a Competent Stenographer?

If you can write shorthand at 125 words per minute, read your notes like print, are a good typewritist, a good penman, can compose a good business letter, rapid and accurate in figures, have a knowledge of business forms, business papers and business methods, understand the mechanical and care of the typewriter, know how to use the letter press and mimeograph, are honest and industrious, you may be considered a competent and desirable stenographer. Six months' faithful work at the Duluth Business University at a small outlay will bring you up to these requirements. If we had one hundred such young people we could place them all in good paying positions in less than twenty-four hours.

Special Rates for Penmanship—$10.00 for a Two Month's Course.

All appreciate the value and importance of good hand-writing. All may acquire it. With over 2000 students in our penmanship classes during the past ten years we did not find one who could not, by giving it the necessary time and attention, acquire a good hand-writing. We guarantee to lay the foundation for good penmanship in two months if the student is earnest and will follow carefully our directions. Four excellent penmen and teachers of penmanship will have charge of the classes and teach plain, rapid, Spencerian muscular movement business writing, just what the business world demands.

STREET AFFAIRS

West End Business Men's Club Gives Them Thorough Discussion.

Wretched Condition of West End Streets a Serious Matter.

Ways and Means For Their Improvement Are Considered.

The Duluth Business Men's club tackled the question of street improvement last evening and there was a long discussion of ways and means of getting better streets between the West End and the main part of the city. Alderman R. D. Haven, secretary of the club, presented the city engineer's estimate of $11,555, as the cost of paving Michigan street between Eighteenth and Twenty-fourth avenues west with macadam. While the street is not in best of order from Thirteenth avenue west to Eighteenth avenue west, the street railway company has filled in with crushed rock the space where the old tracks were torn up and the road will be passable.

The discussion brought out the fact that there seems to be little hope of getting a petition for any paving on Michigan street, in the West End, from 25 per cent of the property owners owning 25 per cent of the property that would be benefited. The Scott-Graff company owns some property fronting the street, and individual members of the firm own other lots on the street and those interested in the company are said to be willing and anxious that the improvement be made, but any effort in the way of getting a permanent improvement is said to be hung up by the disinclination of a land company and a number of other property owners who will not sign a petition.

Secretary Haven drew attention to the check put on any sort of street improvement by the city charter, and presented another plan which he believes will answer for a time, and make West Michigan street passable. He advocates covering the old pavement over with the screenings of the crushed rock and then packing it down by means of the heavy steam roller. Mr. Haven says that he has taken the matter up with the board of public works, but the members do not think favorably of the plan. The objection is that it will be throwing money away on the street, that the paving blocks and plank will rot underneath and cause holes.

The discussion brought out the fact that the bad condition of West Michigan street has driven the heavy traffic onto West Superior street, where the paving is fast going to pieces. The argument was made that while the repairing of West Michigan street, according to Alderman Haven's plan, might not be the best way of making a permanent good roadway, it would be an economical step in that it would prolong the life of the pavement on West Superior street by taking from it the heavy traffic.

Mr. Haven says the proposition confronting the city is that either something must be done to fix up Michigan street or abandon it. Many members of the club expressed themselves in favor of a charter amendment changing the clause relating to the petition of property owners and placing more power with the city authorities when new pavement is needed, but little hope was held out that the charter commission would ever consent to any change of the provision.

J. J. Moe called attention to the dangerous condition of the walks on Twenty-first avenue west. Secretary Haven said that a large amount of new walk has been ordered in but through some oversight a half block between the alley above Superior street to First street was not provided for, but a correction will be made and a new walk will be ordered. New walks will soon be built on First street from Twenty-first to Twenty-third avenue west, a move that has become a necessity.

A committee of three, comprised of N. O. Nelson, J. J. Moe and R. R. Forward was appointed to confer with the board of public works at an early date urging the necessity of some repair to Michigan street. Alderman Haven will also act on the committee. N. O. Nelson presented the idea of co-operative manufacturing plants and advocated a trial of the plan in the West End. He quoted several instances where the plan has been worked, that have come to his notice, and which have been very successful.

The club voted a subscription to a press clipping bureau which will supply it with notices of proposed changes of locations of manufacturing plants.

Secretary Haven presented an argument for wide tired wagons as a benefit to paved and unpaved streets in Duluth. The subject was favorably discussed but any action was laid over until some future meeting.

Applications for membership were presented from David Shesgren, Lane McGregor, Alfred Thoren, Olund & Johnson, C. Erickson, H. C. Nelson and C. A. Britz.

MIDSUMMER EXCURSION
By the
SVEA GLEE CLUB
TO FOND DU LAC
Sunday, June 22.
Tickets fare. TRAIN leaves UNION DEPOT 9 a. m. and 2 p. m. Leave Fond du Lac 5 and 8:50 p. m.

DOWN AN AIR SHAFT.

New York, June 21.—While chasing an alleged thief across the roof of a 5-story apartment house in Ninth avenue in broad daylight, Edward Dolan, a private detective, fell down an air shaft, receiving a fractured jaw, a broken ankle, a fractured hip and internal injuries which resulted in his death two hours' later.

TO A WESTERN LEAGUE.

New York, June 21.—W. M. Steinwender, of St. Louis, captain and second baseman of the Princeton team, and William E. Greene, the Princeton catcher and captain of last year's team, will, it is announced, play this summer in a Western league.

Rheumatism

What is the use of telling the rheumatic that he feels as if his joints were being dislocated?

He knows that his sufferings are very much like the tortures of the rack.

What he wants to know is what will permanently cure his disease.

That, according to thousands of grateful testimonials, is

Hood's Sarsaparilla

It promptly neutralizes the acid in the blood on which the disease depends, completely eliminates it, and strengthens the system against its return. Try Hood's.

TIMBER SCARCITY

Responsible For Increased Amount of Stripping On Mesaba.

Mines Are Now Stripped of Surface of Seventy Feet.

Proportion of Mesaba Ore Used In Furnaces Increasing.

It is said that the scarcity and high price of mining timber is resulting in a constantly increasing tendency to strip deeper surfaces from mines on the Mesaba range. Large straight timber adapted to timbering mines has become well nigh a rarity in this part of the country. It is claimed that the steel corporation has stopped the sale of the Duluth & Iron Range's spruce stumpage on land grants until the timber large enough for mining construction can be cut. At the same time, the steel corporation interests are buying large quantities of stumpage for mining timber.

Of course, once stripped, the reduced cost of mining from a surface mine as compared with a milling or deep shaft proposition is not to exceed one-third two-thirds the cost portion of taking the ore underground.

On the Croxton mine, a new property just being opened by Joseph Sellwood near Hibbing, Halvorsen & Richards will strip a surface that is at some points as much as seventy feet in depth. Ten years ago it is likely that that mine if opened would have been worked on some sort of an underground principle, or at least the thickest surface. The beauty of the deposit on this property is that the vein is said to be 100 feet deep, so that whe nonce laid open an immense quantity of ore can be reached by simply shifting the tracks from time to time.

In this connection, people that are outside of the iron business do not realize the reasons, it is said, for the large demand for Mesaba range properties. Naturally, it is appreciated that the activity on the Mesaba range is due primarily to the very largely increased demand for ore. But the average layman usually lets his stock of information go that far and no farther. The great factor in the increased product of the Mesaba range has been not only the lower cost of mining it, but the ability of the furnace men to work a larger proportion of it in their furnaces. Old timers in Duluth recall that when the Mesaba range was first worked such an excellent authority as the Iron Trade Review scoffed at the idea that its ore could be successfully used to any considerable percentage in any furnace. Its future place among the iron ranges of the Lake Superior region was given a very low rank.

In consequence of this reminiscence, it is amusing to learn that the Oliver-Snyder company is said to be using 100 per cent of Mesaba ore in its furnaces today, and no other ore whatever. This company is said to buy no hard ore whatever to mix with the Mesaba for the purpose of charging its furnaces and getting a proper structural mixture. As a result, unless the reduction of ore in this way entails additional cost, the Snyder company is considerable money ahead of those companies that use a larger percentage of hard ores, which cost two or three times as much to mine. In one way, the Oliver-Snyder is said to use all Mesaba ores at a greater cost because it uses a finely-selected lot of ores in order to obtain the proper mixture, structurally and otherwise.

The proportion of Mesaba ore with which furnaces are blown in has been growing all over the country. The Carnegie furnaces of the steel corporation are said to use about 75 per cent of Mesaba ore, and the rest hard hematite. At one time it was as low as 15 per cent in some furnaces, and at first many of the furnaces gave up the scheme as impossible. Experiments soon developed changes in the furnaces, however, that led to a constantly growing proportion of Mesaba ores. It is predicted by some that if the right proportion of the various structures could be obtained in sufficient quantities on the Mesaba, it would not be long, and may not be, before the old range mines were pretty well closed down, for a time at least.

Very few mining men look for this to come to pass, but some, while not expecting it, would not be surprised, from the developments made in the iron industry during the past fifteen years, if such a thing should come to pass.

NEW MESABA TOWN.

Nashwauk Lots to Go on Sale Monday.

Lots in the new town of Nashwauk will be put on sale at the office of E. J. Longyear, at Hibbing, Minn., Monday, June 23. Nashwauk is located in the southwest corner of town 57-22, between Hibbing and Grand Marais, in the immediate vicinity of the Hawkins mine. This town is far enough distant from both Grand Rapids and Hibbing to have a large field to itself. It will become one of the most important towns on the Mesaba range. Much iron ore is being shown up in that vicinity; a railroad is now in the course of construction into this location, and will be completed this fall. Nashwauk now centers the most active field of iron exploration in the Lake Superior district. Nashwauk is located in one of the best pine timber forests in Minnesota, and, like Hibbing, will be both a mining and lumber town. There is immediate demand for stores in all lines at this new location.

$4.30 St. Paul & Minneapolis and Return—Democratic State Convention.

June 24th and 25th the Northern Pacific Ry. (Duluth Short Line) will sell tickets for Democratic State Convention to Minneapolis and return for $4.30, good returning June 27th. Three trains daily. For tickets and full information call at City office, 332 West Superior street, or Union Depot.

NO ACTION TAKEN

The Republican Senators Hold Another Conference Without Result.

Are Unable to Agree on Cuban Reciprocity Question.

Several Speeches Made In Favor of Party Measure.

Washington, June 21.—Republican senators held another conference yesterday on the question of Cuban reciprocity and, after three hours' discussion, adjourned subject to the call of Chairman Allison without action. Almost all the Republican senators who are in teh city were present. There were eight or nine speeches made in support of reciprocity and only two in opposition to that policy. This was in accord with a previous understanding that as the beet sugar senators had monopolized the attention of the conference on Wednesday night, their opponents should have the greater share of the time yesterday.

The speeches in support of the reciprocity bill were made by Senators Foraker, Beveridge, Lodge, Hale, Warren, Aldrich, McComas and Hanna, Senator Platt of Connecticut adding a few words to what had been said at the Wednesday evening meeting. The two speeches in opposition to the proposed legislation were made by Senators Burton and Burrows. The speeches for reciprocity were all along the same general line and, without exception, were pleas for legislation and for party harmony.

Senator Foraker opened proceedings with an appeal to his party colleagues to get together in support of this measure, which had, he said, become a party question, having been made so by the attitude not only of the present chief magistrate, but by that of his honored predecessor. He said, with some appearance of feeling, that men could not be with the party at one time and against it at another and maintain their prestige. He also spoke of the necessity of maintaining the most cordial relations with Cuba. He said the question was an economic one, and that reciprocity would promote not only the interests of Cuba, but American interests as well.

Senator Beveridge dwelt on the growing importance of American trade with the outside world, and said the present opportunity to extend our hold on the good will of the Cuban people should not be lost.

Senator Lodge dwelt with especial emphasis on the importance of having Republican senators stand together at this critical point in the party's history. Much of prestige and future national standing, he said, might depend upon the step now taken, for all the world was watching with interest our treatment of the Cuban people. He declared that opposition would not suffice to prevent the continued presentation of the matter until success should be attained, and was quite positive that if reciprocity with Cuba was not secured now it would be at a later date. He said no question could be considered definitely settled until it was properly settled.

Senator Warren spoke briefly in the interest of party harmony. He thought that all the resources of the Republican senators should be exhausted to secure co-operation before attempting to take final action. Senator McComas declared his adherence to the senate reciprocity bill, saying that he considered it in the interests of the whole country to enact such legislation as was outlined in that measure.

Senator Hale said that it should be distinctly understood that in supporting this measure he did not surrender his principles as a protectionist. He was inclined, he said, to hesitate somewhat before accepting the modern day reciprocity idea, but reciprocity with Cuba he regarded as entitled to somewhat different consideration from reciprocity with other countries, because of the obligation we had assumed toward that island. He believed that the Cuban people would secure the benefit of the proposed reciprocal relation with that country, and said he was willing to set Cuba up in housekeeping.

Senator Aldrich spoke at some length. He dwelt with special emphasis on the necessity of the party's presenting a solid front at this time and with respect to his measure. He reiterated the statement which had been made by other speakers that the question was a party question, and pleaded with the opposing senators to recognize this fact and acept the situation. He ridiculed the idea that the proposed reduction would injure the beet sugar interests, saying that as sugar now receives protection amounting to about 100 per cent on the cost price, the reduction proposed in the bill suggested by the Cuban committee still would leave a protection amounting to 80 per cent. That, he said, ought to be ample, and he had no doubt that it would be, and that the beet sugar industry would continue to prosper in this country.

He, too, stated that the question of reduction was not one of today or tomorrow, and announced that the friends of the principle of reciprocity with Cuba would not content themselves until their efforts had been crowned with success.

Senator Hanna spoke of the question of extending the proper aid to Cuba as a moral question, saying that our obligations to the Cuban people were such that we would not be true to ourselves as a nation if we should fail to give them an encouraging hand at the beginning of their national career. He referred to President McKinley's attitude on this subject and quoted the president's Buffalo speech as making it imperative on this government to enter into proper reciprocal relations with Cuba.

The meeting had almost concluded when Senator Burton of Kansas took the floor to make a brief but impassioned and eloquent speech in support and defense of the attitude of the beet sugar Republicans. He took as his text certain remarks which had been made by Senator Platt of Connecticut at the Wednesday evening meeting and by Senator Foraker at yesterday's meeting. He spoke especially with reference to an intimation that the beet sugar senators were not loyal to the party. He said that the press of the country had presented only one side of the question. His side, he said, stood for the support of one of the most promising, as it was one of the most deserving, of infant industries.

The beet sugar interest was coming to the front with a rapidity and a promise to the future such as had marked the history of few interests in this country, and he urged that this interest should have the same protecting care that the Republican party had given to other struggling industries. He said that it was not true that the beet sugar men were not willing to extend a helping hand to the people of Cuba if they needed help, but he contended that there was no need for assistance to the people of that island at this time. Nor did he believe that if the contemplated legislation should be enacted the Cubans would secure the benefit. Mr. Burton said Senator Senator Platt, of Connecticut, in defending the committee's action in striking out the house provision for the extension of our labor laws to Cuba had said that Cuban labor is as well paid, as farm labor in Kansas or any other part of the United States. Mr. Burton said that if this were true the Cuban laborer certainly was not in need of alms from the people of the United States. He also urged that if the plantation owners were able to pay Kansas prices they could not be in desperate straits, as had been represented. Nor, he added, could it be said that the Cuban government was in position to ask assistance from any one, for when Governor Wood surrendered the reins of government at Havana there were $800,000 in the Cuban treasury and the government had an assured annual income of $17,000,000. His conclusion was that as neither the government, the planters or the Cuban laborers had any need of the proposed assistance it was unfair and unjust to ask the farmers of this country to sacrifice their own interests for the purpose of granting an annuity of five or six million dollars.

Senator Burrows spoke vey briefly, and his remarks were entirely in reply to Senator Hanna's reference to President McKinley's Buffalo speech. Mr. Burrows poduced a copy of that speech and read extracts from it for the purpose of showing that the beet sugar senators are in accordance with Mr. McKinley's position as outlined in that speech. He laid especial emphasis on the portion of the Buffalo speech in which the president said that he would not advocate any step that would remove the proper protection from American labor and American industries. He also quoted the last annual message of President Roosevelt, saying that the beet sugar men were in accord with the president's position as there outlined. They claimed, he said, that they were acting in accord with strict Republican policy in advocating the protection of the beet sugar interests.

The conference adjourned to meet at the call of the chairman and it is generally believed that another meeting will occur some time next week.

The Best Cough Medicine.

I sell more of Chamberlain's Cough Remedy than of all similar preparations put together, and it gives the best satisfaction of any medicine I ever sold. I guarantee every bottle of it. F. C. Jaquith, Inland, Mich. This remedy is for sale at Boyce's drug store.

$4.30 St. Paul or Minneapolis and Return

THE WEATHER.

United States Agricultural Department, Weather Bureau, Duluth. Synopsis of weather conditions for the twenty-four hours ending at 7 a. m. (Central time), June 21.—Cooler weather prevails in the Mississippi and Missouri valleys and Southwest with light to heavy frosts over South Dakota and Nebraska. It is becoming warmer again in the extreme northwest. Showers fell during the past twenty-four hours over most districts east of the one hundredth meridian. The barometer is high in the Northwest and low over the eastern lake region and west of the Rockies. The winds in the lake region are fresh to brisk northwesterly.

Maximum temperatures for the past twenty-four hours:

Abilene	96	Milwaukee	61
Battleford	62	Minnedosa	52
Bismarck	56	Modena	99
Boston	68	Montgomery	93
Buffalo	68	Moorhead	56
Charleston	84	Marquette	52
Chicago	54	New Orleans	88
Cincinnati	80	New York	58
Davenport	54	North Platte	62
Denver	50	Oklahoma	86
Detroit	68	Omaha	66
Dodge City	66	Pittsburg	72
Duluth	58	Port Arthur	46
Edmonton	56	Portland	56
Escanaba	60	Prince Albert	62
Galveston	88	Qu'Appelle	58
Green Bay	64	Rapid City	58
Havre	62	San Francisco	58
Helena	62	Santa Fe	84

Huron	60	Spokane	76
Jacksonville	90	St. Louis	72
Kamloops	80	St. Paul	62
Kansas City	66	Sault Ste. Marie	60
Knoxville	90	Swift Current	70
La Crosse	62	Washington	82
Lander	62	Williston	56
Los Angeles	76	Winnemucca	56
Memphis	80	Winnipeg	64
Miles City	62		

Local forecast for twenty-four hours from 7 p. m. (Central time) today: Duluth, West Superior and vicinity: Generally fair tonight and Sunday. Slight changes in temperature. Fresh to brisk westerly and northerly winds.

H. W. RICHARDSON,
Local Forecast Official.

Chicago, June 21.—Forecast till 8 a. m. Sunday: Wisconsin—Fair tonight and Sunday. Slightly warmer Sunday.

Minnesota—Fair tonight and probably Sunday with warmer in west and south portions.

The Dakotas—Fair tonight, possibly followed by showers Sunday afternoon or night. Rising temperature.

Upper Lakes—Brisk northwest winds except possibly high on Superior and northern portions of Michigan and Huron today, diminishing tonight. Generally fair tonight and Sunday.

May Revive an Old Industry.

The high price of cattle throughout the country may be the means of reviving an old New England industry. As a matter of fact many of the farmers are now raising more calves and using more steers and oxen on the farm than for many years. This is a healthy sign for New England agriculture, as nothing seems to be such clear gain as turning off a pair or two of fat cattle every year. Cattle raising has been too much neglected in the New England states during the past twenty years and it is a pleasure to note that on many farms cattle husbandry is again coming to the front. No better beef in the world is raised than that which is pastured on New England hillsides, even if it is topped off with Western corn, and undoubtedly cattle husbandry will lead to larger areas of corn fodder and corn to be harvested in the grain. Nothing seems to improve the farm faster than increased attention to the producing of beef and raising the necessary fodder crops and grain crops.

The Rush For Consular Positions.

The persistent demand for consular positions in the United States service is one of the peculiar features that the president has to meet. There are numerous applications for every position, and a strange thing about some of the chronic seekers is that they do not care where they are sent. Locations, dangerous from a health standpoint, are almost as eagerly sought as some of the best-paying positions. Fevers and kindred diseases are not feared by those office seekers; all they seem to want is to be placed on the salary list of Uncle Sam. As an illustration of the strange desire of some people the appointment of Mason Mitchell to Zanzibar is cited. He was a member of Roosevelt's Rough Riders, and supposed to be on good terms with the president, and his appointment as consul to Zanzibar has occasioned considerable surprise. There is a tradition in the consular service that this post and the one at Puerto Cabello, Venezuela, are reserved for the insistent office seekers who make life for the president so miserable that it finally becomes necessary to permanently make way with them. It is a brave man, and tough withal, who can survive the rigors of life at either Zanzibar or Puerto Cabello. Mitchell will be the fourth consul to be sent to Zanzibar by the state department in the past three years. The three men who have recently preceded him, found existence in the isloated and barbarous island too strenuous for comfort and one after another gave up the office. Some of them remained at their post of duty for a few months only, while one man reported one week, looked the place over, and engaged passage for home on the first returning steamer. Mitchell will succeed Charles B. Rodgers, of Indiana. This place has been regarded as a sort of haven for Indiana men, having been filled by three different Hoosier statesmen within as many years. John C. Bilhelmer, of Indiana, got the job in January, 1898, and hung on until March, 1899, although much of this time was spent in the United States. He was succeeded by Robert E. Mansfield, who lasted from May, 1899, until January, 1901. Then Rogers took hold, being appointed in February of last year. He spent only three months in Zanzibar, returning to his home in this country in July, but it was only the other day that his resignation was accepted. The trouble with Zanzibar is that it is infernally hot, and there are absolutely no sanitary arrangements in the place. Americans soon wilt under the intense heat and then fall ready victims to fevers. At Puerto Cabello, it is just as bad, the climate there being as unhealthy as might be expected at a place where deadly fevers prevail all the year round. It is thought that possibly Mason Mitchell is in search of adventures, and that he deliberately picked out Zanzibar. This is the only ground on which his appointment can be explained. The records of the state department tell of one man who outlived the terrors of both Puerto Cabello and Zanzibar. He is still on earth, William G. Reiley by name, known familiarly as Judge Reiley. He was first appointed consul at Puerto Cabello, and as that did not kill him he was sent to Zanzibar. The judge was proof against the heat and fevers of that place also, and might still be representing Uncle Sam, but for the fact that he offended the queen and his recall was demanded. The pay of the consul at Zanzibar is $2000 a year and is a sore temptation to the impecunious office seeker always hovering around the capital.

MR. LIND DECLINES.

The announcement made in the news columns of The Herald today that the Hon. John Lind will under no circumstances accept the Democratic nomination for governor of Minnesota will be received with deep regret by his hosts of political and personal friends and admirers throughout the state.

Mr. Lind has several times in the past year stated that he did not want to be governor again, and that personal as well as other considerations impelled him to remain out of active politics. There has been a lingering hope on the part of his friends, however, that he might finally yield to the pressure of his friends and the unanimous desire of the Democratic party, and a multitude of independent voters that he once more head the state ticket and lead the allied forces to victory. With this idea, it has been proposed to nominate Mr. Lind unanimously at next Wednesday's state convention. It was believed that, having thus been nominated, Mr. Lind would be induced to accept. But Mr. Lind has spoiled this well-meant scheme of his admirers by writing a letter to Chairman Rosing asserting in the most positive terms that he does not want the office of governor again and that, if nominated, he will decline.

"I would be no more willing to accept a certificate of election at the hands of the convention than the nomination," says Mr. Lind. This, he states, is his "irrevocable determination."

From this positive declaration there can be no appeal.

THE NEWSBOYS' PICNIC.

The fifth annual picnic of the Duluth newsboys will be held next Wednesday at Chambers' grove, Fond du Luc, generally acknowledged to be the most beautiful picnic grounds at the head of the lake.

The party will be conveyed to and from the grounds on the steamer Newsboy, which is admirably adapted for the purpose. Great precautions have been taken to provide for the safety of the boys, and as all the arrangements are being made by A. C. Pearson, the circulator of The Herald, under whose direction the previous successful picnics have been taken, a splendid program of amusements can be counted upon by the boys and their friends. Very liberal donations have been made by merchants and others in order that the boys may have everything to add to their pleasure and comfort, and the generosity thus exhibited is sincerely appreciated.

SUNDAY OBSERVANCE.

It is somewhat surprising to read in the Congregationalist, printed in Boston and with its utterances largely shaped by the old Puritan influence of New England, a very liberal editorial on modern Sunday observance. This religious newspaper discusses in a broad spirit the radical departure that has taken place from the old-time standards of Sunday observance. It asks: "What Sabbath legislation ought Christians to seek?" and says, first, the church should unite with wage earners to secure such legislation as shall protect the latter from compulsory labor; and second, "should support such Sabbath legislation as will secure the most healthful use of the day for all classes."

The paper defines the ideal Sunday as the one which secures physical rest, mental recreation and spiritual renewal. To attract men and women to the modern Sunday worship the church should maintain attractive houses and service. Speaking for those who do not attend church and who cannot be attracted, the Congregationalist advocates a policy that marks a distinct departure from the Puritan standpoint.

Speaking for these outsiders, the Congreationalist says: "We shall surely encourage such use of public libraries, picture galleries and museums as we make of our own libraries and art treasures on Sunday." The public park it calls the people's garden, and, it asks, "Who can look without pleasure on men who rarely see their families together during the working days, with wife and children around them in the midst of growing things of nature on a summer afternoon? Music such as is appropriate to the home adds to their happiness, and the public spirit that provides it is akin to His who had compassion on the multitude."

These views, though frequently expressed in the religious world, are not what are expected from such a conservative quarter in New England.

A VALUABLE PAPER.

On another page The Herald publishes a very valuable contribution to the history of this section by Professor Albert H. Chester of Rutgers college, New Brunswick, N. J., who led the expeditions that explored the Eastern Mesaba iron range in 1875, and the Vermilion iron range in 1880. In this paper Professor Chester describes the experiences of the party in a most interesting manner, and the paper forms one of the most valuable historical articles ever written concerning the early days of this city and county. The expeditions he describes were the beginning of the tremendous developments of iron mining in the Minnesota ranges, and his employers were the men that were instrumental in tapping the marvelously rich deposits of the Vermilion range. The paper will be read with great interest by all associated with the iron mining industry and by all who are interested in the history of the Northwest.

TEMPERANCE INSTRUCTION.

Public instruction in temperance in the Eastern schools has not proved at all satisfactory. The latest evidence of this is embodied in the preliminary report of the committee of the New York State Science Teachers' association, which was appointed in 1898 "to ascertain and report what is definitely known regarding the effects of alcohol and narcotics on the human body, and to recommend suitable methods of teaching the same in the schools of the state." The committe voted to defer its final report until after the appearance of the volume on "The Physiological and Pathological Aspect of the Drink Problem," which is to be issued shortly by the committee of fifty. But even the partial and tentative report that has just been given out constitutes a strong indictment of temperance teaching as now conducted in the New York schools.

The majority of the teachers whose opinions were collected by the committee declared that they had observed no beneficial effects from this teaching. Many teachers have noticed bad results. Thirteen gave instances in which boys had experimented with alcohol or tobacco either out of curiosity to learn its effects or to "spite the sacher." "Taken together," says the committee, "the answers do not show as marked results as might fairly be expected from a study which has been a compulsory part of the education of every school child in the state for five or more years. On the other hand, there is no means of knowing how far or in what direction the teaching now in progress may affect the future character of the child. The present system is based on the idea that if the child knows what is bad for him physically he will avoid it. The evidence shows that this is not always so. A prominent teacher writes: 'A cigarette fiend won the last W. C. T. U. prize in our school for an essay showing the effects of tobacco. He still keeps on using cigarettes.'"

The conclusions to which the committee was led by its investigations are stated as follows: "1. Physiology is the only subject in the curriculum that is dominated by legislative enactment. The result seems to be that instruction is commonly given in a perfunctory way, or that the provisions of the law regarding temperance instruction are disregarded. It should be remembered that no law, however stringent, can bring about effective teaching when the statements presented to the pupils are questioned or disbelieved by the teacher. 2. The teaching of the effects of stimulants and narcotics under the present system has not produced any marked change of sentiment in the young either for or against their use. If any change exists, it is entirely disproportionate to the outlay of time and effort which has been made. 3. Whether the matter taught is or is not excessive in amount, it is unwisely distributed through the course, and there is frequent and unnecessary repetition. 4. As the result, diminished interest and dislike of the subect prevail. 5. The preponderance of opinion expressed indicates that instruction could profitably be limited to fewer grades; those between the fifth and eighth being preferred. 6. The use of textbooks should not be made compulsory earlier than the sixth grade, if at all. 7. Although the textbook may not always be satisfactory, the teachers do not regard this fact as a marked impediment to their work. 8. Charts showing morbid physiological conditions are generally condemned. 9. The evils of alcohol and narcotics can be presented most effectively from the moral and economic point of view."

THE ST. LOUIS FAIR.

It is not probable that the managers of the St. Louis World's Fair are trying to evade the Sunday closing provision that was tacked on to the bill passed by congress granting the large sum appropriated for the fair, but the fact is they are causing the treasury department a great deal of trouble in getting a pledge from them before any of the money appropriated is turned over. Last week the department sent to St. Louis a document having the general force of a bond, pledging the fair management to keep the gates closed on the first day of the week throughout the exhibition period, and requested the signatures thereto of the board of directors. It came back promptly, signed by the president, ex-Governor Francis. It had, therefore, to be returned, with a repetition of the original request, and an explanation that the treasury wished to have the individual signatures of the directors, with some testimonial in the way of a certified copy of a resolution adopted by them at a meeting, to show that the signers had authority to act for the whole board. The directors are so many and so scattered that it is not hoped to have all sign the pledge, but it is believed that the bulk of the signatures can be obtained, and the treasury authorities do not intend to leave any loophole open for mistake.

Meanwhile, Rev. Wilbur F. Crafts, in behalf of a society for the stricter observance of the Christian Sabbath, has been besieging the department, seeking permission to scrutinize, and if necessary amend the form of the bond, on the theory that the department may not make it strong enough. The permission has been refused, the department taking the ground that it not only has the purpose but knows the best means of executing the law as congress enacted it. While the keeping open of the fair on Sunday would mean thousands of dollars to the managers there is no loophole for them to escape. They must close on Sunday to get the appropriation of congress and the sooner they realize it the better. As to the wisdom of the requirement, that is another story.

The complete surrender of the Boer forces in the late republics within two weeks after the terms of peace were signed is a satisfactory refutation of the charge that they were, in any moral sense, bands of guerrillas; and it may also be noted that by their prompt surrender, when the end had been declared by their leaders, the rank and file of the fighting Boers have gained a fresh distinction in history.

Col. D. R. Anthony, of Leavenworth, Kas., is in Washington once more on a little postoffice matter. He wants his son reappointed postmaster of Leavenworth. Forty-one years ago the colonel was in town on a similar errand, and he then got the postmastership for himself from Abraham Lincoln. On no other occasions has he ever visited the national capital, although for forty years he has been prominent in Kansas politics.

Those who desire to learn all about volcanoes, which are a subject of special interest at this time on account of the disasterous eruptions in the West Indies, find very complete information in an article by F. W. Fitzpatrick, of Washington, published in the second section of this edition of The Herald.

During the last three months of the year 1901 there was 1481 collisions on the railroads of the United States and 877 other accidents. Two hundred and seventy-four persons were killed and 2089 were injured. This is a terrible record. Most of the accidents are attributed to carelessness.

Wearing black crepe on the arm with a large miniature of the departed husband, may become fashionable among widows now that Mrs. Cushman Davis has appeared in that way. The new idea is striking as an emblem of either freedom or grief.

A Kansas farmer's wife hid $300 in the straw bed and went on a month's visit. Her husband concluded to put in fresh straw and emptied the tick in the hog pen. Yet people wonder why pork is so high.

The Topeka State Journal thinks Eugene F. Ware is faring better than his predecessor in the office of pension commissioner. He has held the position for three weeks and not a G. A. R. post has adopted resolutions of censure.

President Roosevelt declares that free trade with Hawaii has not ruined our industrial interests, though, according to the high tariff theory, it was certain to do it. The high tariffites should explain how this has not happened.

A Baltimore woman who married a man who claimed to have German estates that proved a myth, has secured a divorce. That was proper, as it was evident she was marrying the estates and not the man.

Muncie, Ind., people are preparing a welcome to Neely, convicted at Havana of postal frouds and recently released by the Cuban authorities. It is not every released criminal who receives a public welcome.

The election of Count Boni de Castellane to the French chamber of deputies is to be contested. Does the contestant want to provoke a war with the portion of the United States represented by the Gould family?

Professor Triggs declares that a college graduate is unfit for the practical affairs of life. And yet some people have supposed that the hazing would make the college man practical.

Everyone will be pleased with the resumption of the famous Dooley letters. The first of a new series starts today. They are found only in The Herald in Duluth.

It is reported from Washington that campaign orators are to be more relied upon this year than congressional documents to make the necessary misrepresentations.

Should concessions be granted to Cuba, they might be followed by a removal of the duties on the products of the oppressive trusts. And the thought of such a thing makes the trust senators shiver!

The hand miners complained of the high taxes imposed by the Boers. But the British have doubled the levy, and the miners are not saying a word.

Sunday saloon receipts will be enormous at St. Louis in the World's fair year, with the fair closed.

Mr. Bryan is a stockholder in an air-brake company. But he will not apply the brake to the Commoner.

A New York man recently stopped a game of ping-pong with a rifle. But he failed to put an end to the craze.

"Billy" Mason's presidential boom does not seem to be creating much stir.

Was a Great Speech.

Roseau County Times: James J. Hill delivered an address before the Illinois Manufacturers' club of Chicago on Wednesday evening of last week which has attracted the attention of the entire country. It was a great speech. His views were broad and liberal. Mr. Hill discussed the relation between the farmers and railroads and the railroads and manufacturers. He advocated the regulation of trusts and dwelt at length upon the future development of trade and progress of the country. It was certainly an able address and one that should be read by all.

There Was No Shooting.

Chicago News: President Roosevelt and Gen. ...es were at West Point together, and everything passed off quietly.

READ AND LOOK PLEASANT.

Brooklyn Life: Mrs. Hatterson—You don't mean to say that you have no theories about the education of children?

Mrs. Catterson—No. I have too many children.

Philadelphia Record: "Yes," said Cholly, "I've got very extravagant ideas."

"I wouldn't worry over it," remarked Cynicus. "You can't have many of them."

Los Angeles Times: "Just as the dog grabbed me by the ankle the old man came out."

"What did he do?"

"Took the bark off my shins."

Washington Star: "So you have made peace."

"Yes," answered the defeated general of a thrifty nation.

"What were the terms?"

"Terms, cash," was the laconic answer.

Detroit Free Press: "Cast off by his father, he became a landscape painter."

"Why did he choose that work?"

"He wanted to continue drawing the green."

Puck: Col. Dobbs—Dear me! How time goes by! I don't know any of these young people getting married nowadays.

Maj. Hobbs—I'm worse off than that—I don't know any of those older people who are getting divorced.

Philadelphia Press: "See here," said Col. Winders, angrily, "your reporter promised to print all I said at the banquet last night."

"Well?" replied the editor.

"Well," he printed only a few lines, although my speech was quite a long effort."

"Yes, but you didn't say much."

SOMETHING TO FORGIVE.

You say: "Such ardent friendship is mistaken; if you knew—"
There! Close your lips and listen: When the sky is clear and blue,
When sun and birds and dewdrops make the big world glad and bright,
Would all be half so precious had there been no clouds or night?
Would flowers seem so beautiful if sent from heaven above—
Does not their earthly origin add sympathy to love?
So friendships must be human if on earth they'd thrive and live—
For what does friendship feed on when there's nothing to forgive?

How could my heart be gentle to'ard a heart that knew no pain?
Could friendship go on living if its proffered help were vain?
Could I, were I not certain you were only human, feel
The tender, sweet compassion that my words to you reveal?
Oh say not, "If you only knew—" the Father knows I know;
He left His blessed impress on each human soul; and so
My loved one must be human while upon this earth I live,
For earthly love grows stronger when there's something to forgive.

—S. W. GILLILAN, in Los Angeles Herald.

Should Endorse Clapp.

St. Cloud Journal Press: The Republicans of Minnesota have established the custom of endorsing candidates for United States senators. C. K. Davis was twice endorsed, and the first endorsement was the one thing which prevented his defeat. Senator Nelson was also endorsed by the last convention for re-election. While Senator Clapp has four years to serve, the state senators elected this fall will help elect the next United States senator, and it would therefore be proper for the Republican party to endorse Clapp at the coming July convention. This would be but an expression of the sentiments of the Republicans all over the state, and such an endorsement would preserve party harmony. As long as the people cannot vote for United States senators direct, the next best thing is to express their wishes in conventions, and then elect men to the legisatiure who will obey orders.

Reflections of a Bachelor.

New York Press: Spare the bathtub and soil the child.

A woman's idea of a faithful husband is one who will stay at home while she is at a dinner party.

Some women are so innocent they can trace resemblances in their children to their husband's best friend.

Very few men know enough about women to understand they can convince them they are wrong by agreeing with them.

Some women imagine that the Lord made a man's knees to hold them on when he wants to cross his legs and smoke in peace.

Man's Inhumanity to Man.

New York Press: It is almost twenty-four hours since Senator Hanna has protested, shrieking, against being dragged by a brutal populace into the presidential chair.

Carry the News to Crunshell.

Washington Post: The vulgar idea that promotions in the army and navy should go to the men who do the actual fighting appears to be taking deep root.

But One Resort Left.

St. Louis Globe-Democrat: Every effort so far put forth to induce Senator Patterson to quit has failed. Perhaps he could be bribed with a Panama hat.

Isn't Safe Anywhere.

Baltimore American: It seems that even when Gen. Miles goes away back and sits down he gets into the wrong pew.

Where Redcoats Cannot Intrude.

Detroit Free Press: It appears that Mr. Kruger has obtained possession of a private last ditch.

Can't Find the Beef Octopus.

Philadelphia Ledger: And now Attorney General Knox is after the Lake Towing trust.

Cannon's Belated Bark.

New York World: As a "watch-dog of the treasury "Uncle Joe is a sad failure.

Methuen's Double Halo.

Philadelphia Press: Lord Methuen is sure of fame in two respects. He was the first British general to get licked and the last to get captured.

Footing All the Bills.

St. Louis Globe-Democrat: Mr. Bull understands himself to be the victor, but will have to put his South African farm in order at his own expense.

Pass the Wings, Please.

Chicago Record-Herald: When a girl secures damages in a lawsuit because the jury is said to be influenced by her beauty she is about as near heaven as it is possible to get without dying.

The Critic Cornered.

Baltimore American: It seems like the sarcasm of fate to see Mark Twain receiving a collegiate degree, when it has not been so long since he was poking fun at the people who were getting them.

Comfort For the Feeble-Minded.

San Francisco Chronicle: It is announced that the British authorities have introduced ping-pong into imbecile wards of poor houses for the purpose of affording the inmates an easy and innocent amusement at a small cost. So it seems the game has its value after all.

A New Century Wonder.

New York Tribune: Professor Moore, chief of the weather bureau at Washington, declares that he has invented a gravity apparatus which cools and cleanses the air and makes it dry and wholesome at the same time. If the wonderful invention can accomplish everything which the worthy professor claims for it, he will make the alchemists of ancient days, the seekers of the philosopher's stone and of the elixir of life, the squarers of the circle, the Ponce de Leons who went in search of the springs of eternal youth and the discoverers of perpetual motion—one and all of them—look like a faint and evanescent glimpse of the shadow of 30 cents vanishing in the dim distance.

Feels the Lack of Training.

Chicago News: Gen. Miles regrets that he was never a West Pointer, because the hazing would have been a splendid preparation for the graduation course which the war department is putting him through.

Know the Earth's Divided Equally.

Chicago Tribune: King Edward and J. Pierpont Morgan may be excused for liking to confer together. Their majesties are good fellows, and not at all jealous of each other.

Unsurmountable Obstacles.

St. Louis Globe-Democrat: A contemporary is satrical on the subject of good crops under a Republican administration. The country had good crops under the last Democratic administration, but somehow the souphouse tariff and the rest of the misfits and general incompetency beat the bounties of nature.

Looks Like the Last Straw.

Baltimore American: Fate has not forborne adding the last straw. An Irish horse ridden by a yankee jockey has won the English derby, taking the race bodily from the English scopter. As the king himself mournfully said, the superstitious could easily find an omen in this combination of circumstances.

Stirring Times In the Interior.

Chicago Inter-Ocean: With Mount Redoubt, Alaska, emitting dense smoke, cinders and flames that rise for hundreds of feet and rumbling noises in Mount Tsukaba, Japan, and Mount Pelee still belching and the volcanoes of St. Vincent in action, and Vesuvius due to arrive at any moment, it may be said that there is something doing in the interior of this old sphere.

HUNT'S PERFECT BAKING POWDER

THE PURE PHOSPHATE POWDER

SUPERIOR TO ALL ALUM AND CREAM OF TARTAR POWDERS BY REASON OF ITS WHOLESOMENESS.

25¢ a full lb. (16oz.)

The Negro—Some Things Showing His Progress.

By BOOKER T. WASHINGTON, Negro Educator.

If you come to Alabama and ask, Has the negro any executive ability? I to show you, as I can at Tuskegee, an institution of learning, originated and controlled by negroes, where there are 1200 students, 86 teachers, 26 industries, 52 buildings, 2300 acres of land and $300,000 worth of property.

When you ask, Has the negro mechanical skill? I want to show you the finest house in the country, planned and constructed by a negro. When you ask, Is the negro lazy? I want to show you the finest farm, which is owned and operated by a negro. When you ask, Is the negro honest? I want to show you a negro whose note is acceptable at the bank for $5000. When you ask, Is the negro economical? I want to show you a negro with $50,000 in the bank. When you ask, Is the negro fit for citizenship? I want to show you negroes who stand at the front in affairs of state, religion and education, mechanics, commerce and household economy.

By this method we shall so knit our civil and business interests into that of the white man that when he prospers, we shall prosper, when we fail he fails. By this method we shall crawl up, pull up or burst up.

Cuba Oppressed in 1898 and 1902.

By JOHN W. GRIGGS, Ex-United States Attorney-General.

I recollect the days in 1898 when members of congress went around with tears in their eyes and with every manifestation of political hysteria on account of the outrages being perpetrated upon the poor people of Cuba—hysterical because President McKinley, with his calm deliberation and his magnificent foresight, would not recklessly thrust this country into war to relieve the Cubans.

But today the Cubans are suffering from an oppression that is just as grievous in its way commercially as the oppression that Spain put upon them.

This is not a political question of reciprocity and protection. It is a question of honor; it is a question of justice. We have deliberately demanded of that people that they shall in all their foreign relations submit to our dictation and approval. Yet, having put over them a practical protectorate, we treat them as if they were absolute strangers and rivals of ours.

We owe to the Cubans that they should have from us a fair chance to live and prosper. We have given them clean cities, we have given them schools and educators; we have given them, we hope, a popular government—all under the broad shield of our magnificent protection. What are all thees things worth if by the most onerous taxations we impoverish their people and break down their industries and leave them to want and destitution and internal discord?

"We Have Not Paid the Pound of Flesh."

By Rev. Dr. WILLIAM S. RAINSFORD of New York.

The greatest combination of qualities in life is faith and courage. Every man has an instinctive regard for courage, and to hint against you that you do not possess a good share of it is to insult you. We do not even want a cowardly dog about us.

Some men succeed by subtlety, by adaptation of color, by craftiness or chicanery, but in the high interests of life only the courageous conquer.

Even the highest animal being must be brave. Comparative study of history bears out the truth and the certainty of that statement. Races do not survive that lack courage. You have heard it said that the Hebrew race succeeded as a race without any special exhibition of courage, but I need not say to you that that is one of the fallacies that persist and survive, for nothing but valor has saved the race. No race can point through its history to so many men who triumphed under so great and so many hardships and adversities as the great Hebrews.

Nobody doubts that the American youth is courageous, you say, and if ever a race of men came by their courage honestly the American race has. No nation has won what we have won as cheaply as we have won what we hold. The cost of the sacrifice of other nations has been almost incomparable, for many of the good things that we have today have come to us almost without effort. The man who thinks we have paid the pound of flesh does not know history.

The struggle is not won yet. We must pay the price and do our great part in the work of the world. No youth grows to well muscled manhood without growing pains. The growing pains of this nation have not been experience yet.

The Coal Strike.

Ten Cents a Ton Advance in Price Would Have Prevented It.

By Senator MARCUS A. HANNA, Chairman of the Civic Federation Committee.

The great coal strike might readily have been averted had the operaters consented to grant the demand for the 5 per cent advance. The miners at last consented to drop all demands but that for the 5 per cent advance in wages all along the line.

The men have been at all times willing to leave the matter to arbitration, but the operators have refused. An increase in price of 10 cents a ton would have fully covered this addition in wages. As it is, the price of coal has been greatly advanced without the allowance of increased wages.

From the tractability shown by theminers throughout this crisis may be inferred their realization that their interests and those of capital are identical. The workmen have combined for their own betterment just as capital has formed trusts. Thus capital and labor meet on a common ground.

The interests of capital and labor having thus become identical, it will henceforth be difficult to convince the workingman that he is the tool of the politicians. The influence of this view upon politics and labor questions is obvious.

Let the fact be accentuated that twelve members of the Civic federation represent twelve great labor organizations. Twelve leading capitalists offset the twelve labor representatives of the federation. Should a difference arise two arbitrators are selected from each side, with a third who is impartial. In this manner I believe full and fair arbitration may be secured.

The present strike has in no way shaken my faith in the Civic federation's power. Opposition, not on the part of the strikers, but the operators, was an unexpected contingency that surprised me greatly. The attitude of the miners indicates to me a great advance in the education of workingmen.

A comparatively simple concession on the part of the operators (the 5 per cent advance) would have been met more than half way by the miners and would wholly have averted the present strike and cemented more closely the relations between operators and miners.

Men's Diseases

Scientifically and Successfully Treated.

The longest established, most successful and reliable specialist in diseases of men, as medical diplomas, licenses and newspaper records will show.

After an experience of fifteen years devoted to the treatment of men's diseases exclusively, I feel fully justified in making the assertion that no other specialist has attained an equal degree of success in overcoming these most perplexing of all human ailments. I early recognized as inaccurate and unscientific the methods commonly employed in treating men's diseases, and through careful research and broad experience I have acquired the knowledge and ability that has placed me foremost among specialists in this branch of medical practice. I have laid aside those ancient and unscientific theories and processes to which others still cling, and have founded all my methods of treatment upon absolute knowledge concerning these diseases. I accept no case for treatment unless I have full confidence in my ability to effect a complete and permanent cure, and in years I have not treated unsuccessfully in a single instance. I invite free consultation.

"WEAKNESS"

That disorder commonly known as "weakness," has for years and generations baffled the efforts of physicians, yet to this very day a majority of doctors are attempting to overcome it by methods that have been in constant use and that have constantly failed for half a century. They dose the system with powerful stimulants and tonics calculated to restore nervous forces or strength that is not and never has been lacking, with a result that the functions are temporarily excited to the positive detriment of the patient. Weakness, we will call it such for convenience just now, is only a symptom resulting from a chronically swollen and inflamed prostate gland, and is curable by local treatment only. Either early dissipation or some improperly treated contracted disease is responsible for the inflammation in most instances, though accidental injury, strain, etc., may produce the same result. I have permanently cured thousands of cases of prematureness, loss of power, which demonstrates the absolute accuracy of my understanding and treatment of the disorder. In years I have not met with a single failure, and I have entire confidence in my ability to cure all cases that come to me for treatment other than that which I have perfected can completely and permanently restore strength and vigor.

CONTRACTED DISORDERS

To but partially cure a contracted disease is almost as dangerous as to allow it to go untreated. Unless every particle of infection and inflammation is removed, the probability exists that the disease will gradually work its way into the general system. All greater is the danger of the prostate gland becoming chronically inflammed, which always brings partial or complete loss of power. Perhaps 25 per cent of the cases of so-called "weakness" are a direct result of some improperly treated disease. During the past five years I have treated over 4500 cases of contracted disorders and have effected an absolutely thorough and safe cure in each instance. There have been no relapses or undesirable developments whatever and my patients have been cured in less time than other and less thorough forms of treatment require in producing even doubtful results.

VARICOCELE

Many men afflicted with varicocele are endangering their general health, their manly power and even life itself by allowing the disorder to remain uncured. Varicocele results from partial paralysis of the delicate nerve fibres that have a part in controlling local circulation of the blood. The muscular coating of the veins being deprived of nervous communication and control, become inactive, weaken and relax. The blood vessels expand from the pressure within, the circulation in the parts become sluggish, and frequently stagnant pools form in little nooks and pockets that constantly enlarge as the relaxation continues. The possibility exists that clots may form in these stagnant pools and then pass out into the general circulation. Should one find lodgment in the valve of the heart the result might be instant death, or should it be carried to the brain, general paralysis will follow.

I guarantee to cure varicocele in one week by a method that involves no cutting or ligature, or caustic. No other physician employs a like method, and so thorough is my work that there need not be the slightest fear of a relapse into the old condition. Those who have been long afflicted with varicocele will never realize the injury it has caused until they feel the vim, energy and buoyancy of spirts that a complete cure will bring.

STRICTURE

My treatment for stricture removes the necessity for surgical operations, even in severe cases of long standing. I do no cutting or dilating. No other physician employs my methous of overcoming this disorder, so the service I offer you is original and distinctive. Do not give up hope because others have failed. I will cure you and the cure will be a prompt and painless one. My treatment dissolves the stricture and permanently removes every obstruction from the urinary passage, subdues all inflammation, relieves all irritation or congestion that may exist in the kidneys or bladder, reduces enlargement of the prostate gland and restores to health and tone all organs affected by the disease.

SPECIFIC BLOOD POISON

I permanently cure this most hideous of all blood diseases. I employ harmless, blood cleansing remedies that positively drive the very last taint of virus from the system, and every symptom vanishes to appear no more.

We charge nothing for private counsel and give to each patient a LEGAL CONTRACT to hold for our promises. Is it not worth your while to investigate a cure that has made life anew to multitudes of men?

If you cannot call at our office, write your symptoms fully. Our home treatment by correspondence is always successful.

The Best Dressed Women in the World.

By Lady GORDON LENNOX, the "Best Dressed Woman in London."

American women are the best dressed in the world. All London and Paris society can tell the American woman at a glance by the beautiful cut of her gown and her irreproachable way of wearing it. She looks well dressed because she looks comfortable. Comfort is the guide in the selection of the well-dressed woman's wardrobe.

The success of the American woman in the art of dressing is in the primary question which she always asks herself, "Will this become me?"

She does not follow the fashion slavishly, as does her French rival, who trails after the fashion year in and year out, with no thought of whether the gown is becoming or not.

There is a wrong impression abroad that it takes money to dress well. The simplest dress, well chosen, of good color and well fitted, is all that is needed. Extravagances often mar rather than beautify.

I don't see why one should be ashamed of economy in dress. And one can be smart with unlimited money. It is the woman who can make a good appearance on a modest sum who is really clever, and it is that type of woman, too, who usually possesses a style of her own.

I wear what I think becomes me and is comfortable. The new fashions from year to year are only inventions to catch the eye for a moment. The woman who dresses becomingly and comfortably is always well dressed. The passerby never asks, "Is that the fashion?"

IN THEIR HONOR.

Farewell Reception to Rev. and Mrs. Lundin.

The congregation of the First Swedish Baptist church, have arranged a farewell reception in honor of Rev. and Mrs. K. A. Lundin, who are to leave next week for their new field of work in Iron Mountain, Mich. It will take place next Tuesday evening at the church on Nineteenth avenue west and first street. It was in the beginning of 1896, that Rev. Mr. Lundin took charge as pastor of the church, and his devoted efforts for the welfare of the congregation are warmly appreciated by the church. As he will leave with his family next week, he will preach his farewell sermon tomorrow evening.

NEW FINNISH HALL.

Dedication of One at Soudan Sunday Afternoon.

A new hall for the Finnish Temperance society, of Soudan, will be dedicated at that place tomorrow, and a big time is expected. Excursions will be run from Ely and the Mesaba range, and J. Adam Bede will speak. Capt. John Pengilly, who takes a large interest in the men under his direction, is largely instrumental in providing the new hall, it is understood.

E. W. Grove This signature is on every box of the genuine **Laxative Bromo-Quinine** Tablets the remedy that cures a cold in one day.

The Whirl Of Politics

The trouble has begun.

The gentlemen who thought so much of St. Louis county that they could not bear to see the job of congressman go to anyone outside of its borders, after searching for weeks and importuning various gentlemen to get them to run, at last found two that were willing.

They were awfully afraid for a few days that they had found another that was willing, but it turned out that he was not. For some reason, though his name was one of the strongest mentioned in opposition to Mr. Bede, these gentlemen did not want Senator Daugherty, and he relieved their alarms by refusing to run.

The two willing candidates were Frank E. Searle and Judge W. D. Eison of the Duluth municipal court. During a couple of days, when the final word from Senator Daugherty that he would not run was being waited for, these men were ready to spring into the field. The powers that be—or that used to be—preferred the latter, and they made up their arrangements to slip him in first. The plan came out beautifully.

As soon as Senator Daugherty's letter was received it was slipped out to Judge Edson, and he came out for congress immediately. When Mr. Searle heard about it, it was too late.

• • •

So now Mr. Bede has an opponent, and there will undoubtedly be a lively fight for the nomination. Mr. Bede has a long start; indeed, his friends say he is just slowing up on the last quarter as Judge Edson is stepping off the starting line. But Judge Edson has some advantages, too, in the way of wires to be pulled, and there will certainly be enough in the fight to make it interesting and to warm up into activity the friends of both parties.

Judge Edson's selection of Clarence B. Miller as his campaign manager is regarded as a fortunate one. It is fortunate for the candidate because he is getting a well-regarded, bright, intelligent and energetic young man to do some of his hustling; it is fortunate for Mr. Miller because he will have an opportunity to get a lot of valuable political experience that may be of great benefit to him later.

• • •

J. Adam Bede was asked this morning what he thought of the candidacy of Judge Edson. He said:

"What do I think of Edson's candidacy? I shall not consider Mr. Edson a candidate until he resigns his judgeship, nor will the public take him seriously until he does. No man can hold court in the forenoon and then solicit votes in the afternoon for a political office and make much headway among the high-minded people of Duluth. It is contrary to all the accepted ethics of the case. As to the judge himself, I have no doubt he is a very nice old gentleman, but he is such a comparatively new comer to Duluth and has been so busy holding police court almost ever since he came that I haven't had an opportunity to get much acquainted with him. In the good old days here I knew his brother, R. P. Edson, very well, and a very genial man he was, but it must be they are only half-brothers, for if R. P. were holding a good fat judicial office he wouldn't be around knocking some other fellow as the judge has me ever since I entered the race for congress. However, if I am really to have any opposition, I would prefer Frank Searle, although I consider Searle a stronger candidate in the district as a whole, as he is a very good public speaker. Mr. Edson would probably get more votes in Duluth than Searle. I think there should be another meeting in E. P. Towne's office to talk this matter over.

"As for myself, I shall not formally open the campaign until after the state convention, as I propose to hustle for the whole ticket. Just now I am more interested in Odin Halden's nomination for state auditor than in my own case. I shall be at the state convention in his behalf. It does one good to forget himself now and then and do something for others. You may say, however, that I shall carry every one of the eleven counties of the district against any candidate the knockers bring out, whether it is Searle, Edson, or any other recent arrival at the head of the lakes. And no old resident will run, for the old-timers all like me."

• • •

Today comes in the middle of events that will distract attention from the congressional troubles for a few days. This afternoon the Democrats are holding their county convention, having had their primaries Thursday evening. Tonight the Republicans are holding their primaries, and next Tuesday their county convention comes off. Wednesday comes the Democratic state convention in Minneapolis, when the great question of whether John Lind will be the candidate for governor will be settled finally. On the following Tuesday, July 1, comes the Republican state convention, when the state auditorship contest, one of the liveliest in the state for years, will be fought to a finish.

Such events as these are likely to relegate congressional and county matters to the background, temporarily at least, though county matters have not come out into the front of the field very much as yet.

• • •

There are five filings of candidates on record in the office of the county auditor up to date, those of T. M. Pugh, Capt. R. T. Lewis, Capt. J. R. Randall, William C. Sargent and W. W. Butchart. There will be more before the entries close.

• • •

"Has anyone a guess to hazard as to the personality of the man who will succeed the gentleman from Lac Qui Parle in the house?" anxiously inquires the News Tribune. That is an easy one. The answer, of course, is the gentleman from Lac Qui Parle.

• • •

The lack of much of anything in the way of a contest has robbed the approaching Democratic state convention of much interest that it might otherwise have, yet the question of whether John Lind will be the candidate has served to keep people interested. Apparently that question has been answered in the affirmative, though not officially, and it probably will not be answered officially until the convention is held. The opinion of H. P. Hall that Mr. Lind would not run, and his own determination to enter the race, upset calculations a little during the week, because it had been pretty well settled that the veteran newspaper man was to be nominated for clerk of the supreme court, in which place on the ticket—or in any other—he is sure to make a tremendous run, regardless of politics.

• • •

Locally, Democratic affairs are still dull. Few candidates have been talked of, almost none for county offices. Joseph Ward Reynolds is being discussed more and more favorably as the Democratic candidate for congress, and it is likely that if he will consent to run he will receive an enthusiastic nomination. Alfred Merritt is being talked of to make the run for senator in the Forty-ninth district against Senator Hawkins again, and he can be depended upon to make a lively race, backed as he is by a large popularity and general regard.

W. E. McEwen is being mentioned for the Democratic nomination for state auditor, and there is a pretty good chance that he will be nominated.

• • •

Odin Halden's chances for the Republican nomination for state auditor are becoming brighter every day as the convention date draws near. It is realized here that the fight is going to be one of the hardest ever put up in a state convention, and few people are willing to venture a prophecy as to how it will come out before the delegates have been gathered together and sized up. Each man has some advantages and some handicaps, though from a Republican standpoint it would seem that Mr. Halden was the logical nominee.

• • •

Mr. Halden is gaining strength in many unexpected parts of the state, and the county newspaper comment is very favorable all over.

Preparations are being made to send a big crowd down to the convention with the delegation, just to let people know Duluth is on the ground and is in earnest in asking Halden's nomination.

• • •

The Eveleth Mining News should look out. The Herald sympathized with him and got itself disliked, and now the News comes out in this fashion:

"Poor Jesse Jellison! Some kind friend ought to take him up tenderly and guide him home. His delusion is leading him into a pathetic blunder, as The Evening Herald points out."

• • •

The Milaca Times views the congressional situation thus:

"The rank and file of the Republican party in the Eighth congressional district have turned down the bosses and are shouting for Bede. Looks as if the party in this district is becoming something besides a machine."

• • •

And the Aitkin Independent looks this way at the Bede opposition:

"Judge William D. Edson, of Duluth, has decided to shy his castor into the congressional ring and contest with J. Adam Bede for the nomination to congress. Edson is said to be a good vote-getter, but he is up against a man who will keep him hustling. The Duluth crowd has worked long and faithfully to find a man to oppose Bede and had about given up in despair. They have finally succeeded, but their real work has yet to be accomplished. If the newspaper men of the Eighth district favorable to Bede will pull together we believe they can show the Duluth gang a few things in practical politics. What do you say, brethren of the country press? Will you get into the game and put up a solid phalanx against the political bunco sharps of Duluth, or will you fall in line and become tools of the Duluth grafters?"

• • •

The legislative districts are now all full of candidates on the Republican side. In the Forty-ninth district Senator Hawkins will be the unopposed nominee for senator, and George J. Mallory and P. Ellard Dowling are in the fight. There will be others. In the Fiftieth district T. M. Pugh and E. R. Jefferson have a little difference as to who is to get the nomination for senator, while Capts. Ray T. Lewis and J. R. Randall have come out for the house. There will be others. In the Fifty-first district Senator F. B. Daugherty and George R. Laybourn will dispute for the senatorship, and N. F. Hugo, of Duluth, and Dr. J. D. Budd, of Two Harbors, are in the race for the house. There will probably be other candidates against N. F. Hugo, but Dr. Budd has a fairly sure thing of it.

• • •

J. P. Johnson gets a couple of nice little notices from range newspapers, as follows:

The Virginian: "J. P. Johnson, clerk of the district court, will, so the Virginian is informed, be a candidate for re-election and it is doubtful if he will have any opposition. As he has been in office only two years "Perky's" friends in Duluth and on the ranges feel that another term is due him."

Ely Times: "J. P. Johnson, the genial and capable clerk of court, was in Ely Saturday. "Perk" will be a candidate for re-election and will in all probabilities have no opposition."

• • •

The Grand Rapids Herald-Review (Dem.) has something on the Jellison candidacy that is not bad at all. It follows:

"The Duluth Herald and some other papers and people of this congressional neighborhood have volunteered their sympathy to Jesse L. Jellison in his candidacy for congress. They are wasting their tears' tributes. The Herald-Review happens to know Mr. Jellison personally and knows that no person or party of persons are responsible for his present campaign—save Jellison alone. He thought the matter over all by his lonely and concluded he wanted the job and went after it. All the advice of all the people of the Eighth Congressional district would not be sufficient to stop him, and those who know him best are not sufficiently interested or foolish enough to undertake it. Anyone who may feel that it is his duty to advise Mr. Jellison to retire is hereby invited to tender his counsel and learn for himself how much good it would do. The gentleman from Cohasset may be entitled to something, but it is certainly not pity. He has a little money—perhaps $3,000 or $4,000—but there is little danger of his giving it away to grafters. The Herald-Review is unable to understand why Jellison's ambition to represent his district in congress should be looked upon with either pity or contempt. There are no boosters behind him, that's a certainty. As to ability, there is no more difference between Jellison and Morris than there is between Morris and Charles A. Towne, and since the majority of the people of this district have a preference for mediocrity over real statesmanship, give them plenty of it. From Towne to Morris, from Morris to Jellison—the very essence of consistency carried to its logical conclusion. By all means let the Republican party be consistent and stand by Jesse L. Jellison, of Cohasset, Itasca county, Minnesota. He would be a most fitting successor to the seat of Morris."

• • •

The Eveleth Star wants to know why Congressman Morris does not come out for Bede. The Star considers that Morris is under great obligations to Bede, and that if he wants to do the right thing he will show his friendliness for him.

• • •

The Star has heard rumors that Will James, of Ely, and George Vivian, of Tower, are prospective candidates for county auditor.

• • •

The West Duluth Republican club covered itself with glory with its banquet Wednesday evening. A number of distinguished guests were present, and they had a little object lesson of how serious the Duluth Republican voters are in their support of Odin Halden's candidacy for state auditor. When his name was mentioned by J. Adam Bede the crowd went wild.

• • •

The Grand Rapids Magnet comes to the rescue of the Itasca county jokers in this manner:

"The Duluth Herald seems to think the practical jokers of Itasca county responsible for the candidacy of Jesse L. Jellison. Such is not the case. As much as a year ago Mr. Jellison, at a public meeting at Cass Lake, announced his candidacy, and he did it without consulting anybody, and he could not be stopped at this time by any human power. The peculiarities of Mr. Jellison have left him without a friend in the county. We pity him, but we do not approve of his actions."

• • •

The Grand Rapids Magnet discusses the Edson candidacy in this wise:

"Judge Edson, of Duluth, has brought himself to believe that a very few people in his city are the whole thing when it comes to an election, and has decided to come out for congressional honors against J. Adam Bede. We do not know, neither do the Duluth papers say, whether or not Mr. Edson would make a good congressman, and as far as his party work, it is claimed that he is a pretty good vote-getter for himself, but we have not heard of him doing much work for the party. However, Bede is away in the lead, and when the ballots are counted after the primary election, Mr. Edson will wonder what possessed him to take the word of those few Duluth fellows, resign a good position and go up against the real thing."

A WONDERFUL MEDICINE.

BEECHAM'S PILLS

For Bilious and Nervous Disorders, such as Wind and Pain in the Stomach, Sick Headache, Giddiness, Fulness and Swelling after meals, Dizziness and Drowsiness, Cold Chills Flushings of Heat, Loss of Appetite, Shortness of Breath, Costiveness, Blotches on the Skin, Disturbed Sleep, Frightful Dreams, and all Nervous and Trembling Sensations, &c. **THE FIRST DOSE WILL GIVE RELIEF IN TWENTY MINUTES.** This is no fiction. IN SOCIAL CIRCLES

A very pretty home wedding of the past week was that at the home of Mr. and Mrs. Bagley, of 405 East Third street, at 8 o'clock Wednesday evening. The bride was their daughter, Miss Mayme Bagley, and the groom was John Horace Ball. The ceremony was performed by Rev. T. H. Cleland. Miss Margaret Conklin, of Minneapolis, was bridesmaid and Arthur G. Ball, a brother of the groom, was best man. During the ceremony Mendelsshon's wedding march was played by Mrs. Hoelscher. The out of town guests were:

Mr. and Mrs. E. W. Lonsdale, of Minneapolis. Minneapolis.
Mesdames— S. G. Ball, of Minneapolis. E. M. Hicks, of Minneapolis. B. W. Multord, Reginald Healy, W. C. Falk, of Minneapolis, Emmett J. Cromwell.

Mr. and Mrs. Ball left Wednesday for a two weeks' trip down the lakes.

• • •

A very pretty wedding took place Monday evening at the residence of Bishop McGolrick. The bride was Miss Philomen Shannon and the groom J. P. Hadley, president of the Hi-Metallic bank of Cripple Creek, Col. The ceremony was an impressive and beautiful one and occurred at 6 o'clock in the evening, being performed by Rev. Father Corbett. Miss Lucy Shannon, sister of the bride, was the bridesmaid, and John Shannon, the groom's brother, performed the office of best man. The bride was becomingly attired in a gray traveling suit and carried white roses.

The wedding was followed by a handsome reception at the home of Mr. and Mrs. M. H. McMahon, of 225 East Fourth street, the latter being a sister of the bride. Mr. and Mrs. D. G. Black assisted in receiving. The rooms were prettily decorated with potted plants and festoons of green about the walls. Mr. and Mrs. Hadley left the same evening on the steamer India for a trip in the East.

• • •

A quiet and pretty wedding ceremony was performed at St. Luke's church in the West End, Thursday afternoon at 2 o'clock, by the pastor, Rev. Mr. Belden. The bride was Miss Maud Ayers, daughter of Mr. and Mrs. Frank Ayers, of Fifteenth avenue east, and the groom William Lawson, city salesman for the Cudahy Packing company. The church was very prettily decorated for the event. Those witnessing the marriage were the relatives and a few of the intimate friends of the young couple. The bride was becomingly gowned in white and carried white roses. Miss Gunda Olson, of Cloquet, was bridesmaid, and was gowned in pink, and carried pink roses. William Heasley, of Cloquet, acted as best man. The ushers were Harry Kelly and Edward Miller, both of this city. Miss Lizzie Morton played the wedding march. The ceremony was followed by a large reception at the home of the bride's parents, following which the bridal couple left for a trip to the Twin Cities. They will beat home on Fifteenth avenue west after July 1. The out of town guests were Mr. and Mrs. Hornby, the Misses Alice and Dorothy Hornby, Mr. and Mrs. Heasley, Messrs Harold and Roy Heasley, and Miss Florence Cameron, of Cloquet, Minn., and Mrs. Schultz, of St. Paul.

• • •

The marriage of Miss Myrtle Swingle, eldest daughter of Mr. and Mrs. Adelbert Swingle, of 5103 Ramsey street, and Adrian Dennis, train dispatcher for the Missabe road at Proctorknott, will take place at the home of the bride's parents Wednesray, July 9. It will be a family affair, only the relatives being present.

• • •

P. H. Martin, of West Duluth, has returned from Fond du Lac, Wis., where he attended the wedding of a niece.

• • •

Miss Rose Murphy has returned to Grand Marais.

• • •

Mr. and Mrs. K. A. McDonald, of Munger row, are entertaining Mrs. Melville and Mrs. Hopkinson, of Alpena, Mich.

• • •

The marriage of Miss Louis Patricia Peterson, of this city, and J. L. Dickey, of Glidden, Iowa, took place Wednesday evening at 8 o'clock at the home of the bride's parents, Mr. and Mrs. Nolander, of 1018 London road. The wedding was a quiet one and was witnessed by only the relatives and friends of the couple. The bride has many friends in this city and in Eveleth. Mr. and Mrs. Dickey left the same evening for a wedding trip to the Twin Cities, after which they will be at home in Iowa.

• • •

Miss Franc Lindsay and A. E. Frost, both of this city, were married in Hudson, Wis., June 7, by Rev. L. M. Lunley. Those pesent from Duluth were Mrs. L. Lindsay, Mr. and Mrs. H. Maseau.

• • •

Miss Helen Mackay left Thursday for Mason City, Iowa, to attend the wedding of her sister, Miss Cora Mackay, to William R. Brisbane, of Waseca, Minn., next Wednesday. Miss Mackay has many friends in this city.

• • •

Mrs. J. A. Ryan, of 1330 West Superior street, is entertaining Miss Agnes Bonnier, of Cloquet, and Mrs. F. Dallas, of Port Arthur.

• • •

Miss Ann Ryan has returned from school to spend the vacation with her parents, Mr. and Mrs. James A. Ryan.

• • •

Mrs. F. H. Greene, of East Fourth street, is entertaining Miss Clara Norton, of Fergus Falls, Minn.

• • •

Mr. and Mrs. H. S. Clarke have gone to Beuna Vista, Wis., for a week's outing.

• • •

Theodore Krumsieg and sister, Miss Adelene Krumsieg, are visiting friends in St. Paul.

• • •

Judge and Mrs. J. H. Boyle and daughter have gone to Minneapolis and Wisconsin points for a visit.

• • •

Mr. and Mrs. H. S. Gates, Mr. and Mrs. James Smith and Mrs. Elizabeth Murray and daughter, of Lisbon, N. D., are visiting the families of M. C. and A. R. Murray.

• • •

Mrs. L. D. Kitchell is visiting in the East.

• • •

A farewell party was tendered Mrs. J. W. Murphy, of 1115 West Michigan street, Thursday evening before her departure for Escanaba, Mich., to spend the summer with her mother. Progressive cinch was played. Those present were:

Messrs. and Mesdames— F. J. Wilton, J. N. Stilts, C. Murphy, M. J. Dormedy, F. Timlin, A. W. Campbell.

• • •

Mrs. B. Anderson, of 1022 East Third street, entertained the ladies of the R. N. A. at a 5 o'clock tea Thursday afternoon. Those present were:

Mesdames— Seymour, Rankin, Murphy, Misses— H. Krojanker, Seymour. Loar, Krojanker, Goodmanson. Rankin.

• • •

Mr. and Mrs. F. H. White and daughter have returned from the Twin Cities, where they have been attending the W. C. T. U. convention at Lake Minnetonka.

• • •

Mrs. E. T. Meagher, Miss Julia Meagher and Edward Meagher left Friday evening on the steamer Japan for a visit with relatives at Houghton, Mich.

• • •

Half the work. No worry. No wear.—Grocers.

COFFEE SENSE.

To Drink, or Not to Drink, the Question.

A prominent St. Paul woman comments on coffee as follows:

"While I was driving coffee I was troubled with sleeplessness and palpitation of the heart. I began to feel suspicious of coffee poison and having no desire to drug myself, realized how inconsistent it was for me to continue the use of anything that helped to break me down, so I quit coffe and began using Postum Coffee.

"Now I sleep well and consequently feel refreshed, and am much strengthened. Palpitation of the heart has ceased and altogether life seems worth living.

"Some of our family like a little coffee mixed in with the Postum; that, of course, is much healthier than the old fashioned coffee alone."

It is true that very strong coffee of the best flavor has a little more fascinating taste to some palates than pure Postum. On the other hand, there are thousands of people that prefer the flavor of Postum, pure and simple. If coffee agrees perfectly, and people are not ill in any way, there seems no good reason why coffee should be discontinued unless there is a fear of disease finally setting up from the continued use of a drug. On the other hand, if any member of a family is ailing in stomach, bowels, kidneys, eyes, or the nervous system, such a one should immediately quit ordinary coffee and take Postum Food Coffee. A sure result can be depended upon and a gradual feeling of health and strength will come from the change. Health, of course, is worth everything on earth.

Some people are so constituted that it is hard for them to give up a habit eve nif good health is the reward, but it is perfectly easy to leave of coffee when one can have a well boiled cup of Postum in its place.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

The uniform success of this remedy has made it the most popular preparation in use for bowel complaints. It is everywhere recognized as the one remedy that can always be depended upon and that is pleasant to take. It is especially valuable for summer diarrhoea in children and is undoubtedly the means of saving the lives of a great many children each year. For sale at Boyce's drug store.

Squabble Over Payment of a Claim By Floodwood Village.

Judge Dibell has under advisement an application for an injunction restraining the officers of the village of Floodwood from putting out any money until the personal injury judgment of Margaret E. Stevens is paid, the matter having been heard by him in chambers.

The plaintiff claimed that the village was not paying her judgment, but was preparing to use its money for fire apparatus and other luxuries. In an affidavit by the officers of the village, in answer to the application some interesting facts about the village are set up. It is claimed that the village has two squre miles of land, of which about 220 acres are platted, and 350 inhabitants, though a large section of country with 4000 people is tributary to it, and it is one of the most important centers in the Northwest for the cedar and spruce business and the manufacture of ties, poles and posts.

This village, according to the affidavit, levies no taxes whatever for villages purposes, but makes its living off liquor licenses, and fines in justice court. It is claimed that the valuation of property is so low that not more than $300 could be levied anyway. It is claimed that the village will not receive enough revenue during the current year to pay all its current and necessary expenses. It gives a list of appropriations made by the council, which it is claimed will wipe out the receipts. It is also claimed that no applications for liquor licenses are pending. C. M. Stevens, husband of the plaintiff, has attacked the figures in the affidavits, claiming that there were two applications for liquor licenses pending when the affidavit was made; that the township made improvements that the village officers claim the village made; that the appropriations mentioned in the affidavit are about $300 higher than they really were; that there are four saloons giving a revenue of $2000 instead of $1500, as claimed.

EIGHT DONE.

A. Guthrie & Co. Pushing Construction of Great Northern Spurs.

A. Guthrie & Co., the contractors, who have been building eleven spur tracks for the Great Northern road this season, leading into as many new mining properties on the Mesaba range, have completed all but three of them. They have just finished up the spur into the Sharon, and have the track leading into the North Day forty practically done. If the weather continues as favorable for railroad building as it has been of late they hope to have the spur into the big Hawkins property by Aug. 1, but this depends on the weather entirely, for that date would naturally be a little too early to expect. They are also working on the Latonia spur.

CIRCUS DAY.

Everything In Readiness For the Engagement of Ringling Bros.' Show.

The coming Monday, June 23, is circus day. After much preliminary heralding and a world of pleasurable anticipation Ringling Brothers' famous big show will be seen here in all its magnificent completeness. In the organization of such a colossal national entertainment, and in bringing to the homes of the people the rare and curious things of the wide world, the five famous proprietors of this greatest of all great shows have constituted themselves public benefactors. Ringling Brothers' circus is so admirably organized that there is something to interest and hold the attention of every spectator. The student of natural history is furnished the grandest object lesson that the human mind could possibly conceive of, for the wonders of the animal world are brought together in living, breathing reality. The lover of fine stock has here 500 magnificent, thoroughbred horses upon which to feast his eyes. The admirer of physical beauty and perfection in athletic achievement is regaled with the performances of hundreds of the world's most famous acrobats, gymnasts and riders. The artistic instinct finds gratification in the splendor of pageantry that out-Neros Nero. Even the devotee of the turf is not forgotten, for the finest racing thoroughbreds of Europe, Arabia and our own Kentucky are matched in the most thrilling and hotly-contested trials of speed and equine endurance. From the initial parade that precedes the opening of the engagement until the close of the final performance, everything is upon a scale of grandeur and magnitude hitherto unknown in the amusement world. The inaugural street parade takes place at 10 o'clock in the morning, and is a fitting introduction to the wonders of the big show. This great parade is Ringling Brothers' free offering to the people. No one who sees Ringling Brothers' parade will miss the performance. It is a splendid promise of what is to follow in the big show. Its hundreds of proudly-stepping horses, with waving plumes and trappings of gold and silver glittering in the sunlight; its gorgeously costumed knights and ladies, heralds and courtiers; its brilliantly uniformed soldiery and mounted military bands; its great herd of cannon-drawing war elephants; its resplendent gold-illumined chariots and cars of state; its superb tableaux floats and its scores of magnificently carved and ornamented dens and cakes of openly-exhibited rare wild beasts, form a spectacle that in wealth of display and beauty of coloring rivals the rainbow in prismatic brilliancy. The opening performance begins at 2 o'clock, but the doors will be open an hour earlier to afford visitors an opportunity to see the zoological display, including the only living giraffe, and to enjoy the grand concert by Genweller's famous military band. The performance introduces hundreds of new and novel acts, enlisting the services of 300 high-class performers, 40 clowns and hundreds of auxiliaries, and is declared by all who have seen it to be the grandest and most complete arenic exhibition ever presented before the American public. Reserved numbered seats and admissions show day at S. F. Boyce's drug store, at exactly the same price as charged at the regular ticket wagons on theshow grounds.

THE GRAIN MARKETS

Wheat Started Out Lower and Was Easy All Day.

Weak Cables and Clearing Weather In Wheat Belt.

Trading In Flax Light and Fall Futures Declining.

Duluth Board of Trade, June 21.—The wheat market was weak and lower, but quite active this morning. The bearish factors were the clearing weather in the American wheat belt and in England and the lower Liverpool cables, despite the sharp advance in the American markets yesterday. There was a small advance at Paris, but it had little effect.

The Liverpool market was weaker, closing ¾d lower. Paris continued its upward course advancing 1¼c.

Primary receipts of wheat were 123,000 bus, last year 147,000 bus; shipments 317,000 bus, last year 340,000 bus, clearances of wheat and flour were 647,000.

Corn in the Chicago market was up 8c and oats continued unchanged. Primary receipts of corn were 366,000 bus; last year 208,000 bus. Shipments 234,000 bus, last year 358,000 bus. Clearances were 49,000 bus.

Receipts of wheat at Duluth and Minneapolis, 274 cars, and at Chicago, 24, a total of 298 cars, against 259 last week and 389 last year.

The Duluth market was fairly active and weak. It opened at full cent off at 75½c and sold at 76¾c at 9:38 and fell to 75½c at 11:30, closing at that price. This was a decline of 2c. Chicago and Minneapolis both declined 2c-3c.

Cash sales were somewhat livelier, aggregating 20,000 bus at 1c over July for No. 1 northern, 1c under for No. 2 and 3c under for No. 3.

Flax trading was light and fall futures easier on better weather. September declined 1½c and October the same. Cash Rye advanced 1c and September 1½c.

Following were the closing prices on the Duluth board:

Wheat—Cash, 1 hard, 78c; 1 northern, 75½c; 2 northern, 74¾c; 3 spring, 72½c. To arrive—1 hard, 78c; 1 northern, 76c; July, 75½c; September, 75¼c. Manitoba, cash 1 northern, 74¾c; 2 northern, 73¾c. Oats, on track, 35c; September, 30½c. Rye, 56c; September, 52½c. Flax, cash, $1.70; to arrive, $1.65; on track, $1.70; June, 1.65; September, $1.43; October, $1.38¾. Cars inspected—Wheat, 1; last year, 118; corn, 3; flax, 4. Receipts—Wheat, 14,867 bus; corn, 3221 bus; flax, 1400 bus. Shipments—Wheat, 29,850 bus; flax, 311 bus.

THE CHICAGO MARKET.

The Clearing Weather Broke Wheat Prices Badly.

Chicago, June 21.—Clearing weather over the greater part of the American wheat belt and in England broke wheat prices badly at the opening today. The only locality where it was reported raining early was Oklahoma. Thus put the bears in fine feather. The Liverpool cables showed lower prices, in spite of the sharp advance here yesterday. The only bullish influence was a continued but small advance at Paris. Bulls who had paper profits hurried to get what they could of them by unloading, and as a result July opening raggedly 2c to 1½c lower at 73½c to 73¾c. Receipts were rather small and the cash demand was fair, so that, although small and the cash demand was fair, so that, although outside influences still argued a decline, there was a small recovery from bottom prices and July steadied around 73¾c. St. Louis was an influence, breaking on the fine weather prospects. Receipts, 24 cars, 4 contract; Minneapolis and Duluth reported 274, a total for the three points of 298, against 239 last week and 389 a year ago.

Profit-taking brought July to 73c, but there was at once a fair demand and a brisk recovery. July closed weak, however, 2¼@2¾c lower at 73¾@73¾c.

Corn did not respond early to the break in wheat. Frosts were reported in Nebraska and although trading was not heavy, enough commission house buying orders came into the pit to hold prices up. July opened unchanged to ¼c higher at 65½ to 65¾c, touched 65¾c and steadied near 65¾c. Receipts, 221 cars, 11 contract.

Corn maintained its somewhat independent position among the grains. July closed firm ¾c higher at 65¾c.

Oats were a little lower with wheat on the improved weather. Receipts were good and there was some local selling. The cash demand, however, was sharp and offerings of spot were light. July opened ½c lower at 32¾@c sold up a shade and dipped to 33½c. Receipts, 200 cars.

Provisions were strong again on small hog receipts. Offerings were light and packers bought freely. There was some realizing, but not enough early to break prices. July pork opened unchanged to 2½c up at $17.87½@17.90, September pork sold at $18.12½. July lard started unchanged at $10.45, dipped 2½c and advanced to $10.47½, and July ribs 5c up at $10.80 and sold at $10.77½.

Close: Wheat, June, 73¼c; July, 73¾@¾c; September, 71¾@72c; December, 72⅝c. Corn, June, 64⅞c; July, 65¾c; September, 65⅝c; December, 43⅝c; May, 43⅝c. Oats, June, 42c; July, 33⅝c; new, 30½c; September, 28c; new, 31⅜c; December, 28¾c; new, 31¼. Pork, June and July, $17.92½; September, $18.15@18.17½; October, $17.80; January, $16.67½. Lard, June and July, $10.15; September, $10.55; October, $10.47½; November, $10.05; December, $9.85@9.87½; January, $9.40; May, $9.30. Ribs, June and July, $10.77½; September, $10.65; January, $8.05. GRAIN GOSSIP.

Logan & Bryan, Chicago—Wheat: The visible supply on Monday is expected to show a moderate decrease and the market here was weak on the generally favorable weather. This brought about the natural liquidation after the buying of the past few days on rise. Very little news from the wheat fields. The tendency of advices so far is to show a disappointing result in the threshing. With a slow and probably moderate movement and a good demand from mills. On the anticipation of these conditions we think wheat should be bought on the soft spots.

• • •

W. H. Laidley & Co., Chicago—A little better weather throughout the winter wheat belt and lower cables were responsible for opening le under last night. The market then remained dull and rather firm. This reaction is quite natural. We think it a purchase on such breaks. Export demand fair.

Corn opened slightly higher and was strong all day. Trading on somewhat larger scale than last few days and bulls are taking hold again. Reports for growing crop good but as no new corn will reach this market until November and December think much higher prices are to follow and that September should be bought in all breaks.

Oats opened lower on the weather and in sympathy with wheat, but although rather inactive turned strong and closed some as best. Market keeps fairly cash demand good and until new crop commences to come in, lower prices can hardly be expected.

MARKET REPORT.

Received over private wire of B. E. Baker, grain and stock broker, 507 Board of Trade, Duluth, Minn.

Chicago, June 17.—Wheat lost ⅜c to 1c per bus as compared with closing prices yesterday. The fine weather all over the Southwest and predictions of more over Sunday along with hot forcing weather in England, was the chief factors for lower prices. The trade in general was fixed for an advance, but instead was frightened into selling out. The Southwest was particularly weak. St. Louis led the selling out of September. Liverpool cables were lower. Paris was up equal to 1¼@c per bus and bought a little more cash wheat on the side. Early French cables, however, were to sell futures, but these selling orders were cancelled on a resumption of unfavorable weather there later. Southern Illinois sent in seven cars of new winter wheat, most of which graded No. 2. Holders asked from 2c to 5c over the July price for it. Southwestern cash wheat offerings showed some increase. Exports for the day 647,000 bus. The world's shipments for the week are expected to aggregate about 9,000,000 bus. There were cash sales here today of 150,000 bus and at Duluth of 100,000 bus. Minneapolis and Duluth carlots this week aggregated 1629 as compared with 1242 last week and 1872 for the corresponding week last year.

Corn was higher, but not very active. July gained more than the deferred months, although the latter should have been more affected by the heavy frosts in Nebraska and South Dakota. Country offerings are light and cash men are looking for a decrease before an increase, on account of the big discount for No. 3. There was a fair demand for May by brokers, who are also selling September.

Oats were slow with the range narrow and prices not materially changed from yesterday. Cash oats, however, advanced ½@¾c. Elevator interests sold futures, while the buying was scattered. Offerings of cash to arrive were light. Wet weather was responsible for the cause.

Provisions made new high price records for the year and the same was true of hogs at the yards. Realizing sales caused some reaction from top figures, but there was nevertheless a fair gain in all products. In addition to fairly good buying by shorts there was also some demand from packers. Receipts of hogs were light. The market closed with a good strong tone.

PUTS AND CALLS.

Minneapolis market—
Puts, July wheat, 73¾c asked.
Calls, July wheat, 76¾-½c asked.

FINE SITES FOR MANUFACTORIES

A. C. Volk & Co. Acquire Vast Area on St. Louis River and Will Seek Industries---Quiet Week In Realty.

The firm of A. C. Volk & Co., composed of A. C. Volk and Capt. J. H. Triggs, has acquired a vast area of property up the river, with a frontage of over two miles on the navigable waters of the St. Louis river, and has gone into the business of locating manufactures, to which the firm will devote itself as a specialty.

The deal is one of the most important made in property in the western part of the city in a long time, and it has taken over a year to complete it.

The holdings of the firm in the locality in which it has located comprise about 2000 acres, including 2000 lots, and it runs from New Duluth to and including a portion of Spirit lake. All of the property is within the limits of the harbor improvements covered by the continuous contract, which is near completion, and a great point urged by the firm is that lake and rail transportation from there will be as cheap as it is from any part of the city. Another point claimed is that this is the only place where a manufacturing plant can be located at once, as in other parts of the city, where property is owned by different people, considerable time would necessarily be taken up in securing title.

A couple of quotations from the booklet issued by the firm will explain something of conditions:

"The lands bordering upon the waters of our great land-locked harbor, which has a length of fourteen miles from the entrance of the canal to the dalles of the St. Louis, must always comprise the territory where will be carried on the trade, commerce and manufacture of Duluth."

"There never was a more opportune time to invest in Duluth. The conditions confronting the investor are: A rapidly growing population, a rising market, a great scarcity of flats and houses, and a large expansion in trade, commerce and manufacture. The conditions confronting the manufacturer are: Cheap power, cheap fuel, cheap transportation by rail and water, cheap raw materials, cheap sites, and a large and growing market for his products."

As the banks of the St. Louis river and the level ground along its borders are generally conceded to be the future home of a great manufacturing center and a great manufacturing population, the deal is considered to be quite a real estate "scoop." The firm will go out at once after manufacturing enterprises, and it is negotiating already along that line.

• • •

The real estate trade of the past week has been more quiet than for some time past, but the dealers in realty are not complaining of dull times. As one member of a prominent firm remarked today, "people are buying building sites and farm lands. They are not speculating to any great extent for a rush profit, but are displaying the conservative spirit that marks the shrewd and cautious investor. I for one who went through the boom days, both here and elsewhere, would much sooner do a legitimate business such as we are doing today than to deal with the quick profit-seeking and bargain-hunting crowds of boom times, however profitable it may have been."

• • •

It is safe to predict that before the end of the current month a remarkable aggregate of real estate business will appear upon the records. There is scarcely a dealer or agent who is not carrying to a close deals of more or less magnitude, but no one seems to be in any undue hurry to force things to a close.

• • •

Taken upon the whole, the demand for real estate upon this market seems to come principally from that portion of the public who desire to own their own homes. While high-priced pieces of choice property readily find purchasers at good prices, yet the majority of sales made are of single lots. This is an encouraging feature in the situation, as it promises a steady and permanent increase to the population of this city.

• • •

Another feature of the case is the steady and ever increasing demand for farm property. The concerns that are handling this class of business are doing a rushing trade, and as in most cases the prices are very low and the terms of sale are easy, people are flocking in from the older states to seize the opportunity of securing a farm at a low price. This is another most favorable feature, inasmuch as nothing was more wanted to insure the ultimate prosperity of Duluth than a well-settled country around this city, and this want is what is now being rapidly supplied.

• • •

Building operations in the city and suburbs are increasing every day. There is a great demand for moderate-sized dwellings for rent, and from the plans that are being formulated in many quarters there seems to be a certainty that before long Duluth will be considerably better supplied with dwellings suitable to the people of moderate means than is the case at present.

• • •

To sum up the situation it would seem from the report of the dealers that the real estate market, although rather quiet at present, is by no manner of means weak or stagnant; that the prevailing sentiment is one of healthy conservatism, and that property is being purchased with a view of immediate use and occupation, instead of for the purpose of being held unimproved for the chance of a big profit.

• • •

E. P. Alexander Jr., is highly elated by the success of his auction sale of lots in the Harrison division. The amount realized was $8000, and the lots averaged $350 apiece. The prices ranged from $150 to $1500. The latter price was paid for a piece of property adjoining the residence of F. A. Patrick, and was an object of considerable competition.

Mr. Alexander, before the sale, reported to the owners that he expected to realize from $7500 to $7600 for the property, and he naturally feels pleased that his estimate proved so nearly correct. The prices paid for this property are from 40 to 50 per cent higher than those realized at a similar sale two years ago.

• • •

George H. Crosby & Co. find every sign of encouragement in the present aspect of the real estate business. Although there was a general quietness observable during the past week, yet numerous sales were made of moderate priced lots to people who intend to build homes. Mr. Crosby finds much cause for congratulation on the conservative feeling that prevails, as this state of things renders it easier for the agent to bring buyer and seller together.

• • •

Little & Nolte report the sale of dwelling house on West Fifth street for $2100, and the southeast corner of Seventeenth avenue east and First street, for $4000, which latter price is exceedingly moderate. This firm finds the loan business very good, having closed up several very comfortable transactions during the past week. The building of so many new houses has much to do with this condition of affairs.

• • •

Austin Terryberry is preparing plans for the erection of a brick block of four flats at the East End. Each of the flats is to have six flats. The owner and exact location is not announced yet.

• • •

John J. Wangenstein is making plans for a two-story brick terrace at the southeast corner of Third street and Fifteenth avenue east, to be built by B. Heimann. The row will consist of five houses.

He also has a commission for plans for a brick residence for W. B. Holman, of Grand Rapids, to be built at that village. Mr. Holman was the original owner of the Holman mine.

• • •

George Lounsberry and J. W. Hunt are preparing to build a row of nine brick houses at the corner of Ninth avenue east and Second street. Five houses will face on Second street and four on the avenue. They will be two stories high, the lower floor will be finished in hardwood and the row will be completed in Oct. 1, in time for occupation in the early fall.

• • •

Work has been begun on the two-story brick grocery building for Malcolm Matheson, plans for which were prepared by Palmer, Hall & Hunt. It is building at Nineteenth avenue east and Superior street.

• • •

James Drone, who owns the property fronting on West Superior street, near Garfield avenue, where the old Dibbell livery barn now stands, has begun tearing down the barn and will erect in its place a modern two-story brick building, with a fifty-foot frontage. It is understood that the first floor will be used for store purposes and the second floor will be arranged for flats.

With the Interstate, West Duluth and West Third street cars switching off at this point, the corner of Garfield avenue and Michigan street is fast acquiring a metropolitan air and it is said that other improvements will in the way of new buildings, be made in that vicinity.

• • •

John F. McLaren, who last week sold his home at Third street and Second avenue east to Roswell H. Palmer, this week bought the Lemieux house on East Superior street near Seventeenth avenue. The price paid was $6,000. Mr. McLaren will occupy the place as his home.

• • •

W. M. Prindle says that there is absolutely nothing determined upon in regard to the proposed new building at the corner of First avenue west and Superior street. No plans have been settled upon and nothing is being done in the matter at present, except the preparation of some preliminary sketches.

• • •

Julius D. Howard & Co. report some inquiry for inside property, but find sales rather slow just at present. The loan department of their business, however, has been doing a good business.

• • •

Whitney Wall reports several deals pending, with plenty of inquiry for good business and residence property. Buyers and sellers hold slightly divergent opinions, he says, as to the value of Duluth real estate and this necessarily makes the closing of transactions slow.

• • •

H. H. Hanford reports several small sales to people who intend to build homes on the lots. He finds inquiry very fair and considers the prospects encouraging.

• • •

Capt. Ray T. Lewis reports a more quiet week. There are a good many sales being made where property can be picked up for low prices. Farm lands seem to engage the attention of the general public and there has been considerable business done in this class of property. As these lands are being settled up as fast as they are purchased great benefit must accrue to Duluth, and in fact the whole of St. Louis county.

• • •

Palmer, Hall & Hunt have about completed the plans for an eight-room house for Professor Bartlett, of the Central high school faculty. The new residence will be located at Woodland and will cost about $2,500.

• • •

Stryker, Manley & Buck report a quiet week in realty with some inquiry for extra desirable pices of inside property.

• • •

The Boston & Duluth Farm Land company is still keeping up the sales of cut-over lands in brisk style. Among those who have recently purchased sites for future homes are many settlers from Iowa who are looking for a location free from drought, tornado and blizzards.

• • •

Transfers for the week were as follows:

Richard J. Ryan et ux to Roswell H. Palmer, undivided 1-32 of lots 3 and 4, section 19-58-19	312

IN MICHIGAN.

Close Contest For Congressional Nomination In Houghton County.

Hougton, June 21.—(Special to The Herald.)—County Chairman Charles A. Wright of Hancock will not call the congressional Republican convention of Houghton county on July 2. The exact date is undecided, but will be during July. Young and Wright forces have made some sort of an alliance, and will contest Congressman Sheldon's home county. The outcome really rests with Calumet township, which is claimed by both parties. The fight for nomination is really between Sheldon and Young, with every indication that he successful aspirant will be nominated by a majority of only one to three votes.

Escanaba—The dead body of Bess Mathieson was found in a sleeping car berth. She came from Sault Ste. Marie on her way to Chicago, Ill., and was suffering with consumption. A traveling man who knew her was taking her from the Soo to the North-Western depot on a street car, when she grew worse. She died in his arms while he was carrying her. Not having time to attend to the arrangements, it is claimed the man simply carried her into the train and put her in a berth and left her.

Hancock—Edward Sullivan, of Hancock, brother of Nightwatchman Thos. Sullivan of the local police force, will leave for the gold fields in West Africa, to engage in diamond drill running this week. He is sent out by a Milwaukee manufacturer, who is shipping machinery for a London firm to the gold fields on the west coast. Sullivan is experienced in diamond drill running. He was with Capt. Weldon in the exploratory work for the Torch Lake mine, when all of the territory from the Tecumseh to Lake Linden was thoroughly explored.

Tamarack—The new plan of transporting mineral from the Tamarack and Osceola mines to the smelter has proven such a success at the Tamarack mill that at the Tamarack mill only two men are now employed instead of twelve. Small iron tram cars, holding two tons each, are now used to run directly into tracks laid on standard gauge. This does away with the great expense attending the use of barrels. In one year before the plan was introduced the Tamarack alone used 36,000 oak barrels. The new Osceola mill is saving 42 per cent mineral before the stampings reach the jigs, 20 per cent through Parnell-Krause mortar discharge and 26 per cent through hydraulic discharge.

FOR SALE AT A BARGAIN

Block 121, Second Division, West Duluth.
(OLD ELECTRIC STATION)
DULUTH GENERAL ELECTRIC COMPANY,
216 West Superior Street.

A FEW SAMPLE BARGAINS

$1250 for lot 7, block 19, Harrison's division.

$1050 for lot 6, block 5, New Endion.

5% Money on Hand to Loan.

Stryker, Manley & Buck.

SILVER COIN.

About Three Tons Sent to the Porto Ricans.

New York, June 21.—About three tons of silver coin of the United States will be shipped from this city today for Porto Rico, in payment of bonds just purchased by a banking house with branches in that island.

Heretofore, when bills and bank notes were shipped to the island, they disappeared very rapidly. For some time the disappearance of paper money was a mystery. Finally it was discovered that the people of Porto Rico were just beginning to find it handy to send paper currency through the mails, especially when it was desired to send small amounts out of the island. In this way the currency supply was being depleted constantly and the bankers determined to try silver coin, in the belief that it will take a good deal of postage to send it all out of the country in letters and may discourage the practice.

Dance at Oatka this evening—Lisbon Orchestra.

AT WEST DULUTH

The following notices have been given for the Sunday church services:

At the Westminster Presbyterian church Rev. W. J. Lowrie, the newly-appointed pastor, will preach at 10:30 o'clock in the morning, and Thomas Thorburn, of Duluth, will conduct the evening services at 8 o'clock.

Rev. Arthur J. Hoag will preach at both the morning and evening services at the West Duluth Baptist church. The morning topic will be "Life's Best Environment," and the evening topic, "Temptation." Sunday school at 12 o'clock and B. Y. P. U. at 7 o'clock p. m.

"The Wonders of God's Law" is the morning subject at the Plymouth Congregational church, corner of Fifty-fourth avenue west and Bristol street. In the evening, at 8 o'clock, Rev. Mr. Earl will speak about "A Wrong Without a Remedy."

Rev. W. E. Loomis of the Asbury M. E. church will preach Sunday morning at 10:30 o'clock on the topic, "The Healing of a Withered Hand." Sunday school at noon. Epworth league at 7 o'clock and preaching in the evening at 8 o'clock.

GRAND LODGE MEETING.

H. E. Cutterham returned this morning from St. Paul, where he attended the grand lodge convention of the Good Templars of Minnesota in the interest of the local lodge No. 315. He reports a lively and enthusiastic session. Although the reports for the last year show a slight falling off in membership, the feeling was prevalent that the ensuing year will witness a decided gain. With one or two exceptions the grand officers were re-elected, including R. C. Sloan, of Duluth, as marshal, and Mrs. M. E. Gardner, deputy marshal. Duluth lodge, No. 37, was represented by Miss Charity Jones. The time and place of the next convention was left with the executive committee to decide. It is understood that it will be held either at Ada or Brainerd. The grand lodge meeting was held in the capitol building.

COME IN A BUNCH.

The notification received by John Galway, superintendent at the Lesure mill that he has been granted three patents on appliances on the same day is a matter of unusual interest, from the fact that the applications were made through three different departments of the patent office at different times. One of the patents is a chain-releasing device for logging cars, another for a steam offset, and the third for an ore car dumper. This is said to be the first instance in the history of the patent office when an inventor had patents issued on all his inventions the same day.

INQUIRIES POURING IN.

Inquiries continue to pour in to the Duluth Safety Car Stake company, and the West Duluth men, of whom the company is comprised, have filed articles of incorporation with the secretary of state. As fast as practicable arrangements are being made for the manufacture of the car stakes on a large scale. The company already has orders from local logging roads for equipment, with the promise of other large orders when it is demonstrated that the device works satisfactorily. If suitable arrangements can be made for the handling of the business, the stakes may be manufactured in West Duluth.

WEST DULUTH BRIEFS.

A delightful surprise party was given at the home of Mr. and Mrs. Kenneth McDonald, of the Munger row, last evening, in honor of Mrs. McDonald's sisters, of Alpena, Mich., Mrs. Melville and Mrs. Hopkins, who are visiting here. About fifty guests were present and the evening was spent with various forms of social amusements.

It is rumored that the Dynamite club held a meeting last evening and decided to donate a greased pole for the Fourth of July celebration in this part of the city, the pole to be furnished by P. H. Martin. There will be no more meetings of the committees in charge of arrangements for the celebration until next Tuesday evening.

The funeral of the infant child of Mr. and Mrs. John Walston was held today at the family residence, 6403 Wadena street. Interment was made at Oneota cemetery.

Louis Stiger, while going on a fishing trip the other night, pedalled his wheel off the drawbridge into the bay. He was able to get out unassisted, together with the bicycle.

A young couple appeared before Justice Stone yesterday to be married that forgot the formality of first getting a license. Their mistake was pointed out and they left, promising to come back.

P. H. Martin, who returned a few days ago from the southern part of Wisconsin, says that a heavy frost has worked havoc to the growing crops in that part of the state, and will greatly curtail the wheat and oat crop.

The Republican primary of the Fifth precinct of the Seventh ward will be held this evening from 7 to 8 o'clock in Dr. Confer's barn, corner of Ramsey street and Fifty-fourth avenue west. The building in which the election was held last fall is now occupied as a dwelling.

Miss Maggie Barnett, of Huntington, W. Va., has arrived to visit her sister, Mrs. Isaac Deatherage, of Fifty-seventh avenue west and Raleigh street.

Miss Gertrude Bowen has returned from the southern part of the state, where she has been teaching for the past year, to spend the summer vacation with her parents here at 525 Fifty-sixth avenue west.

The Leading Stars Ball club, of West Duluth, will leave on the Sunday morning train for Cloquet for a game tomorrow afternoon. Quite a crowd of rooters will accompany them.

William Murnyon and family have removed from Fifty-second avenue west to their new home on Fifty-fourth avenue and Broadway.

The funeral of Mrs. Bridget Lyon was held this morning from the St. James church and was largely attended. Interment was made at Calvary cemetery.

Theodore L. Brockhoff, of Wadena, Minn., who has property interests in West Duluth, arrived on the excursion yesterday to visit his brother.

Fillatrault, undertaker. West Duluth.

O-AT-KA Sunday Afternoon 3 to 5.
The justly celebrated—
THIRD REGIMENT BAND in
Grand Free Concert.
Pleasing program of popular melodies.

Detroit and Return $13.50.

The annual spring excursions to Detroit via Duluth, South Shore & Atlantic Ry. and Detroit & Cleveland Navigation Company, will leave Duluth 6:45 p. m., June 27th, fare for the round trip $13.50. Return limit, July 18th.

Special sleepers between Duluth and St. Ignace, where direct connection will be made with the steamer City of Alpena, due to arrive Detroit 3:00 p. m., June 29th.

Tickets will be on sale and good only on excursion train leaving Duluth June 27th.

Reserve your sleeping car and stateroom accommodation early.

City Ticket Office, 426 Spalding Hotel Block.

THE MAYOR WINS OUT

Civil Service Commission Changes Rules to Suit Him.

Will Certify Three Highest Candidates After Examination.

Decision Not Retroactive and the Mayor Still Balks.

The fight between the mayor and a minority of the civil service commission is now ended.

A majority of the commission decided it in favor of the mayor at a meeting held last night.

In the future when it comes to a question of promotions in the fire and police departments the civil service commissioners will give the mayor choice of appointment between three of the highest eligibles instead of making it obligatory on him to appoint the man standing highest in competitive examination.

The difference between the mayor and a minority of the commission grew out of the recent examination for promotion to the vacancy in the detective department, caused by the appointment of C. H. Troyer as acting chief of police.

Frank Schulte won the highest ratings in this examination with Norman Terry a very close second. The mayor desired to appoint Terry, but the rule of the civil service commission was that only the highest eligible should be certified for appointment.

At this stage of the proceedings politics began to cause trouble. Officer Schulte is a Democrat and Officer Terry a Republican. Without any solicitation whatever on the part of Schulte, Democrats notified the commission that the mayor requested a change in the rules simply to give him the power to appoint a Republican without respect to qualifications.

The tight still might have been avoided if a certain clique of Republican politicians had not become aggressive.

The change in the rules allowing three names to be certified for promotions certainly does give the mayor more power of political choice, yet in every department of the United States classified service, this rule prevails.

President Roosevelt, one of the civil service, was strongly opposed to the change in the rules. He is of the opinion that in making the change the usefulness of the municipal civil service would be greatly impaired, as it gives political pull a chance over the most essential qualifications.

When the question of change came to a final vote Commissioners Cooney, Wallinder and Flder voted to sustain the request of the mayor, while President Greenwood voted against it.

The change in the rules, however, does not become operative until the next competitive examination, which leaves the situation in regard to Officer Terry's promotion unchanged.

At present it is very urgent that there should be two promotions in the police department. One to the detective department, as stated, and another to the position of sergeant for the West End department.

The mayor says that neither promotion will be made till the commission is ready to certify three names for each promotion, and that at present looks as if another examination would have to be held to settle the dispute.

MODERN WOODMEN, ATTENTION!

Tuesday evening, June 24, 8 o'clock. Neighbor Oliver from North Dakota will lecture on the Readjustment Plan, at Scen hall, 1812 West Superior street. Members of all Woodmen camps in the city are urged to be present.

ELEPHANTS.

John Ringling Punctures Some Time Worn Fakes About Them.

"Yes, the elephant has a good memory," said John Ringling, in the course of a general talk the other night, "but some of the startling stories told about him to prove the fact are pure gammon. Take, for instance, the story of a man who stuck a pin in the elephant's trunk, and years afterward was deluged with dirty water by the remembering elephant. I am surprised that anyone should take that yarn seriously. Why the average thickness of an elephant's hide runs from half an inch to two inches deep. Now, imagine a pin going through that on an errand of pain. It would swallow a pin and break a needle.

Another familiar story makes the elephant resent an offering of tobacco. One of the busiest things in the world is an elephant's trunk. It is forever reaching out searching for something that will mingle comfortably with its internal economy. We have an elephant with our show that really craves tobacco, and will take anything from a pound plug to Turkish cigarettes. This animal is a female too, and she swallows cigarettes, paper and all, with a smacking relish that shows her keen fondness for the papered poison that dwarfs the average youth.

"The only old fashioned elephant story that has any real basis of truth is the one which makes the big brute afraid of a mouse. Fantastic as it may seem, this great, big mountain of flesh positively shrinks from a tid-bit of a mouse. The winter quarters of the show, where mice and rats thrive, vouch for one of this fact. A mouse will make an entire herd noisy with fright, and a rat will put them in a condition of desperate fear. While this may seem odd on the face of it, there is after all good and sufficient reason for this seeming paradox. An elephant may defend itself against a lion, tiger or any other natural enemy, but the insignificant size of a mouse baffles his conception of offensive or defensive warfare. The mouse is too quick to be crushed under foot or to be caught by his trunk, and can tantalizingly scamper over his rough hide with impunity. The elephant realizes his helplessness against such a diminutive foe and learns to fear it as he fears no other animal.

"Elephants are capable of strong affection; quite as much as dogs and horses. They become very fond of each other and their keepers. Last season a baby elephant was added to our immense herd. She was only a few months old when taken from her mother and brought direct from Ceylon to the Ringling Bros' menagerie. When placed among the big family of her kind with our show she fretted a good deal, and some of the big fellows in the collection seemed to find pleasure in adding to her discomfort. She was chained next to Old Babe, the biggest one of the thirty we carry, and the latter began to take an obvious interest in the new arrival. This was shown by her turning on the funmakers of the crowd, who had picked out the baby for a mark, and ending by her taking the little one completely under her maternal care. Old Babe is the boss of the herd in every way, none of the others dared go against her wishes, and now the little one is a cherished pet of the whole number. Babe and she are inseparable. Her diminutive elephantine ladyship may be seen at the circus Monday."

AT THE HOTELS

"I passed the half century mark today," said Harry P. Thomas, the livery man, at the St. Louis this morning, "and I want to state that I am the youngest old man in the city today and will back this statement with money, marbles or chalk to make a ring. I was born at Newport, Ky., in 1852 and eleven years afterwards I was in the Union army as a drummer boy. My father was in the Confederate service but my mother was a Union woman and she stood by me. We were just on the border line and our case was similar to many others. Father and son differed, husband with wife and brother with brother, but they got over it sooner almost than other people who did not have to stand the stress of conflict in those strenuous times."

• • •

Mr. and Mrs. Frank Webber left this afternoon over the Omaha for their home in Boston, where they will spend the summer.

• • •

W. D. Gordon, formerly a Duluth auctioneer, but now a resident of Minneapolis, is at the McKay. Mr. Gordon is here to close out a stock of merchandise.

• • •

Thomas H. Larke, of Minneapolis, Northwestern agent for the Dominion Steamship line, is at the Spalding.

• • •

Among the guests at the St. Louis are: Mr. and Mrs. L. Sohner, Fergus Falls; W. S. Gingoft, McTuchy; L. L. Osten, Mrs. L. A. Hartmann, Wolverton, Minn.; George Ruby, Big Fork; W. D. Campbell, Cass Lake; John W. Hunsberger, Hancock, and W. J. Mitchell, St. Paul.

• • •

On the McKay register are found: J. H. McNair, Minneapolis; William Ross and daughter, Litchfield, Minn.; A. B. Moon, St. Paul; Mrs. Duncan, Litchfield, Minn.; Henry Purcher and family, Wolverton; Miss Brooks, Litchfield; Mrs. M. McKenzie, Thedford, Ont.

At the Spalding: J. C. Haefner, Chicago; E. E. Dreene, New York; George F. Dean, Jaxon, Mo.; E. J. Longyear and family, Marquette; De Rea, Minneapolis; Frank C. Smith, St. Louis; R. J. Munhale, Pittsburg; W. E. Greene, Cleveland; J. Spencer Hosford, Miss Hosford, Kinderhook, N. Y.

SAENGERFEST

City of Peoria Is Packed With Singing Population.

Peoria, Ill., June 21.—The third day of the saengerfest is attended by a greater crowd than on any other day. The streets are packed with people and additional singing societies are arriving on every train. Tomorrow is the great feast picnic and the railroads estimate that they will bring 50,000 strangers. The concert last night was attended by 6000 people and this afternoon the Coliseum will not accommodate the people who have asked for tickets. There will be a parade tomorrow of the singing societies and 6000 persons will be in line.

Milwaukee will send another special train arriving here early Sunday morning. It is estimated that Chicago will send 8000 people for the picnic. Tomorrow morning will occur the election of officers. Theo. Behrens, of Chicago, was agreed upon this morning for the next president. Milwaukee will get the saengerfest two years hence.

A pathetic incident occurred last night. Mme. Ragna-Linne, the famous soprano soloist received a telegram from Chicago just before she was to appear upon the stage, saying that her 10-year-old daughter was dying of pneumonia. She completed her numbers and then left for Chicago. Before she reached there the child was dead.

DIES OF INJURIES.

Harry Zimmer Passes Away at Brainerd Hospital.

St. Paul, June 21.—A Brainerd, Minn., special to the Dispatch says: Harvey Zimmer, a passenger who was injured internally in the Northern Pacific collision near Staples, died last night at the hospital here. He resided at Hammond, Ind.

H. Montgomery, fireman, with a compound fracture of the thigh, is in the hospital and death is expected hourly. All the other injured are doing well. Nothing definite has been learned as to the cause of the accident.

RIDES ALONE.

King Orders Exclusive Carriage For White-law Reid.

New York, June 21.—Whitelaw Reid, special ambassador of the United States to the coronation, will have a carriage to himself in the royal procession through London streets next Friday, says a World dispatch from London.

The official list originally placed Mr. Reid in a carriage with Turkhan Pasha, special representative of the sultan of Turkey, and Admiral Gervais, representing the French republic and, according to court usages, they would occupy the rear seat, while Mr. Reid sat with his back to the horses. King Edward is said to have heard of the arrangement and to have immediately directed that the representative of the United States be provided with an exclusive carriage.

Coronation seats are at last booming, cables the London correspondent of the Tribune. Quotations range from £1 to £30 and a slump is not now feared in view of the demands of American and continental visitors. Fancy prices are wanted for hired carriages on the two procession days, and bus fares will be doubled every day of the next week. Street decorations are being pressed with activity and from day to day th principal West End thoroughfares on the royal procession are changing their aspect chameleon-like versatility. The Canadian arch in Whitehall, which is rapidly approaching completion, promises to be one of the most successful features of the whole scheme of coronation decorations.

Signs of the Times.

Railroad travel is always a splendid index to the condition of the times. No one will doubt the presence of general prosperity in the Northwest after an inspection of the passenger trains of the Milwaukee road any day at the Union depot. This ever popular line runs five passenger trains every business day to Chicago, and their large patronage indicates the preference of the traveling public. "The Milwaukee" carries more people than any other Western system. Its Pioneer Limited is the famous train of the world and hauls private compartment sleeping cars and sixteen-section sleepers with berths longer, higher and wider than those in any other sleepers in America. The Milwaukee's dining car service is perfection.

SISTER ON THE STAND

Adelaide Webber Attempts to Identify Pictures of Mueller.

Undisputed Photograph of Mueller Who Owned Lands Presented.

Hesitates Considerably, Finally Identifying It As Her Brother.

Adelaide Webber, a married sister of Johann Mueller, the husband of the alleged widow in the Mueller case, took the stand yesterday afternoon, and she was still on at noon.

Mrs. Mueller's cross-examination was concluded yesterday afternoon. Mr. Knowles and Mr. Whipple were the only ones that took her in hand besides Mr. Severance.

Mrs. Webber testified that she was 63 years old, and that Johann, who married Kathrina Mueller, was her brother. The couple lived with Mueller's parents for three years after the marriage, and after that there was a misunderstanding, so they saparated and the young couple took up their home elsewhere. She testified that they could not get along, as she and Mrs. Mueller could not understand each other," and neither would submit to be "bossed."

"After the young couple had lived alone awhile, Johann moved to America, settling in Detroit. Apparently relations even then were not particularly warm, for she only saw Mr. and Mrs. Mueller two or three times all the while they lived in Detroit together. They resided in opposite parts of the city. She did not know her brother had left his wife until long afterwards. Six or eight years ago she heard that Johann had been seen in Detroit, but she did not see him herself.

She was shown the two pictures of Mrs. Mueller's husband, taken before they were married, and she burst into tears as she identified the pictures as those of her brother. She said she had never seen the pictures before. Mrs. Mueller was a young woman as shown in one of the pictures, and the witness identified this picture also.

When the witness was shown an undisputed picture of the Johann Mueller that owned the lands in dispute, taken several years ago, the greatest interest was shown in her actions and testimony. When she had been shown the pictures of her brother as a young man she had cried hard for several minutes, and proceedings had to be suspended for a short time. When she took the large picture of Mueller she studied it carefully for fully a minute, showing no emotion. She then said that it looked like her brother in the upper part of the face, but when she saw him in Detroit he had a full beard that covered the lower part. She thought the lower part of the face was thinner.

She did not distinctly remember the color of the eyes. The hair was dark brown, but she could not remember whether the whiskers were lighter or darker than the hair.

"Do you or do you not recognize that picture as your brother?" asked Mr. Hislop, Mrs. Mueller's Detroit attorney, who was conducting the examination.

The witness hesitated again for a brief time.

"Yes, I think so; he is my brother," she then replied.

Mr. Severance and the other opposing claimants wanted the court to get into the record the fact that she had hesitated, and that she had shown emotion at the sight of the older pictures and none at sight of the later one. Judge Cant said he could not recollect that such things were ever put in the records, but said there was something happening constantly that threw light on the case, aside from the testimony, and these things could not be singled out.

Cross-examined by Mr. Severance the witness said that she had seen a small picture of Mueller, from which the large picture in evidence had been copied in Detroit a year ago last winter. A man brought it to her and showed it to her. Asked if she told the man that it was not her brother, she said she told him she could not be sure; she would not say yes or no.

Mr. Severance had a statement in his hand that she admitted having signed when the man showed her the picture. She understood that she was doing it to help her brother's children in this case. She was not testifying now to help them, she said in answer to a question.

She explained that she cried when she saw the old pictures because they showed him as he was in the old country.

The witnesses are quite emotional. During the forenoon another member of Mrs. Mueller's family arrived, a son, and she brought him into the court room and wept over him loudly. He joined in the tears, and they had to be cautioned to make less noise.

The case was adjourned at noon until Monday.

STRIKE AT TORONTO.

Nine Hundred Street Car Men Go Out.

Toronto, Ont., June 21.—The street car men of this city went on a strike this morning. More than 900 men stopped work. The employes at first demanded recognition of the union; 25 cents an hour and a 9-hour day. A conference of the three representatives of the men and officials of the company was held daily this week. The last offer of the company was to pay from 18 to 21 cents an hour. The men, it is said, are willing to accept 18 to 21 cents. The question of recognition of the union, the reinstatement of Business Agent McDonald and a demand for a flat rate of 25 cents an hour are left over for the present. The employes took a final vote on the strike question early this morning and decided to go out.

MORE MONEY FOR SEALS.

Victoria, B. C., June 21.—The Victoria Sealers' association has decided to accede the request of the Indian seal hunters for an advance from $4 to $5 for each skin taken by canoes sealing from the companies' schooners. Even at this price the Indians are holding off, apparently having been frightened by the storms of last season and the loss of the schooner Hatzic with an Indian crew.

MORTGAGE FORECLOSURE SALE.—Default having been made in the payment of the sum of eighteen hundred and twenty-two and 26-100 ($1822.26) dollars, which is claimed to be due and is due at the date of this notice upon a certain purchase money mortgage, duly executed and delivered by Annie Wills (who signed the same Annie L. Wills) and Albert Wills her husband, mortgagors, to Matthew B. Harrison, John A. Coke and Peyton Wise, mortgagees, bearing date the 28th day of July, 1899, and with a power of sale therein contained, duly recorded in the office of the register of deeds in and for the county of St. Louis and state of Minnesota, on the 12th day of September, 1899, at eight o'clock a. m., in Book 7 of mortgages, on page 12.

Which said mortgage, together with the debt secured thereby, was duly assigned by said John A. Coke and by Lucy Gray Harrison as executrix of the estate of Matthew B. Harrison, deceased, and as guardian of Louise H. Harrison, a minor, and by said Lucy Gray Harrison in her own right, and by Laura C. Wise as executrix of the estate of Peyton Wise, deceased, and also in her own right, (the said Lucy Gray Harrison and Louise H. Harrison being the sole heirs and devisees of Matthew B. Harrison, deceased, and the said Laura C. Wise being the sole devisee of said Peyton Wise, deceased) to St. George R. Fitzhugh by written assignment dated the first day of March, 1902, and recorded in the office of the register of deeds of said St. Louis County on the 31st day of May, 1902, at 2 o'clock p. m., in Book 158 of mortgages, on page 20, of which said mortgage, together with the debt secured thereby, was assigned by said St. George R. Fitzhugh and James T. Gray, the assignees and holders thereof, to The Duluth Banking Company, a corporation organized under the laws of the state of Minnesota, by written assignment, dated the 31st day of May, 1902, and recorded in the office of the register of deeds of said St. Louis County, on the 31st day of May, 1902, at 2:15 o'clock p. m., in Book 158 of mortgages, on page 40.

Which said mortgage, together with the debt secured thereby, was duly assigned by said The Duluth Banking Company, the assignee and holder thereof, to Athol Morton Miller, by written assignment dated the 14th day of June, 1902, and recorded in the office of the register of deeds of said St. Louis County, on the 18th day of June, 1902, at 10 o'clock a. m., in Book 132 of mortgages, on page 319; and no action or proceeding having been instituted, at law or otherwise, to recover the debt secured by said mortgage, or any part thereof.

Now, therefore, notice is hereby given, that by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, viz: Lot nine (9), in block thirty (30), Harrison's Division of Duluth, according to the plat thereof of record in the office of the register of deeds of said St. Louis County, in St. Louis County and state of Minnesota, with the hereditaments and appurtenances; which sale will be made by the sheriff of said St. Louis County at the front door of the court house, in the city of Duluth, in said county and state, on the Fourth day of August, 1902, at ten o'clock a. m., of that day, at public vendue, to the highest bidder for cash, to pay said mortgage debt and interest, and the taxes, if any, on said premises, and fifty ($50.00) dollars, attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sales, as provided by law.

Dated June 18th, A. D. 1902.

ATHOL MORTON MILLER,
Assignee of Mortgagee.
CRASSWELLER & CRASSWELLER,
Attorneys for Assignee.
Duluth Evening Herald, June-21-28-July-5-12-19-26-1902.

STATE OF MINNESOTA, COUNTY OF St. Louis.—ss.
District CSlurt, Eleventh Judicial District.
District Court, Eleventh Judicial District.
Robb,
Plaintiffs,
vs.
Wilho Tikander, Anna Tikander, United States Savings & Loan Company, C. S. Wilson, trustee, and Hansen E. Smith,
Defendants.

Notice is hereby given, that, under and by virtue of a judgment and decree entered in the above entitled action on the 18th day of June, 1902, a certified transcript of which has been delivered to me, I, the undersigned, sheriff of said St. Louis County, will sell at public auction, to the highest bidder, for cash, on Monday, the fourth day of August, 1902, at 10 o'clock in the forenoon at the front door of the court house, in the city of Duluth, in said county, in one parcel, the premises and real estate described in said judgment and decree, to-wit: All that tract or parcel of land lying and being in the county of St. Louis and state of Minnesota, described as follows, to-wit:

Lot six (6), in block thirty-five (35), town of Biwabik, according to the plat thereof of record in the office of the register of deeds of said St. Louis County, and all the right, title and interest of the defendants Wilho Tikander and Anna Tikander, his wife, as such right, title and interest existed on the 2nd day of September, 1901, or has been enlarged or completed thereafter. Such sale will be made subject to the mortgage executed by said Wilho Tikander and wife to the defendant United States Savings & Loan Company, which mortgage is recorded in the office of said register of deeds in Book 183 of mortgages, on page 44.

Dated June 21st, 1902.

WILLIAM C. SARGENT,
Sheriff of St. Louis County,
By VICTOR A. DASH,
Deputy.

ORDER FOR HEARING ON CLAIMS.—State of Minnesota, County of St. Louis, —ss.

In Probate Court, Special Term, June 20th, 1902.

In the matter of the estate of Eli Van Valkenburgh, deceased:

Letters of administration on the estate of Eli Van Valkenburgh, deceased, late of the county of Hillsdale, state of Michigan, being granted to Horton Blackmarr:

It is ordered, That three months be and the same is hereby allowed from and after the date of this order, in which all persons having claims or demands against the said deceased, are required to file the same in the probate court of said county, for examination and allowance, or be forever barred.

It is further ordered, That the 22nd day of September, 1902, at 10 o'clock a. m., at a term of said probate court to be held at the probate office in the court house in the city of Duluth, in said county, be and the same is hereby appointed as the time and place when and where the said probate court will examine and adjust said claims and demands.

And it is further ordered, That notice of such hearing be given to all creditors and persons interested in said estate, by publishing this order once in each week for three successive weeks in The Duluth Evening Herald, a newspaper printed and published at Duluth, in said county.

Dated at Duluth, Minn., this 20th day of June, 1902.

By the Court,
W. G. BONHAM,
Judge of Probate.
(Seal Probate Court, St. Louis Co., Minn.)

SATURDAY, JUNE 21, 1902.

HIST SOCIETY

The Early Explorers

Of the Eastern Mesaba and the Vermilion Iron Ranges—Valuable Paper By Prof. Albert H. Chester.

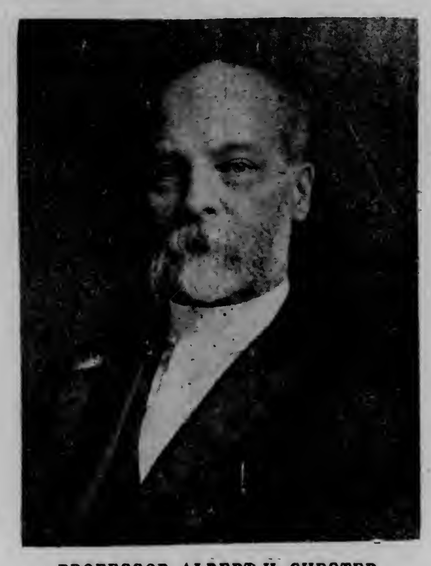
Below is the paper prepared by Prof. Albert H. Chester, professor of chemistry and mineralogy in Rutgers' college, New Brunswick, N. J., for the Duluth Historical and Scientific association, describing the expeditions for the exploration of the Minnesota iron deposits in 1875 and 1880. The paper is very valuable from a historical viewpoint, and it is written very charmingly and interestingly. It follows:

THE MESABA IRON RANGE.

Early in the year 1875 the late George C. Stone, then of Duluth, but later residing at St. Paul, took to the East samples of the iron ores of Northern Minnesota, hoping to interest capitalists there, and so to bring about the development of those great iron regions and thus also to benefit the city of Duluth, which was then rapidly losing in prosperity. At that time the population of the city, which had previously been in the neighborhood of 6,000, had dwindled to about 3,000. Grass was growing in the streets, there were many unoccupied houses, and a general air of gloom pervaded the community.

Mr. Stone's specimens were so attractive that he had little trouble in interesting Messrs. Samuel A. Munson, of Utica, N. Y., and Charlemagne Tower, of Pottsville, Pa., who authorized him to arrange for an exploring party at once, at the same time engaging my services for the expedition. I had already examined the hard ore from Vermillion lake, and was well assured of its quality. It was sent to New York city among specimens representing the mineral wealth of Minnesota for exhibition at the Paris exposition of 1867, and it had been my task to arrange these specimens before they were sent abroad. This ore was brought out, as I have been informed, by Mr. Stuntz, who first found these deposits and made them known in 1874. A specimen of the Mesaba magnetite taken from Mitchell's workings was submitted to me for analysis at the time of Mr. Stone's visit and found to be most desirable in quality, so that I advised the exploration.

I reached Duluth for the first time on July 10, 1875, having with me as my assistant Mr. Richard H. Lee, of Pottsville, who had just married a daughter of Mr. Tower. Mr. Tower hoped that his son-in-law, who was an engineer, would take a prominent part in the mining operations then about to be initiated, in the development of this iron region, and particularly in



PROFESSOR ALBERT H. CHESTER.

the construction of the contemplated railroad, and therefore desired that he should take part in this preliminary exploration.

On our arrival we found that a portion of the exploring party had already left Duluth, going to Mesaba by way of the old government road to Vermillion lake as far as the Embarrass bridge, and from there cutting a new road in a northeasterly direction to their destination in town 59, range 14 west. Mr. Anson Northrup was in charge of this party, having been engaged to take the party in and out, and to furnish provisions and other necessary supplies during the while time.

Mr. Lee and I started, on July 13, with two explorers and four Indians, going by rail to the Junction and from there across the portage to Posey's, on the St. Louis river. Our explorers were the veteran George R. Stuntz, who also acted as our guide, and B. F. Bishop. The Indians were John and Frank Houlle, Billy Church and Antoine Counneyer. At the river we found two large canoes in readiness and started at once up the stream. When we left Joe Posey's house we left behind us the last sign of civilization on the St. Louis river, and we hailed it again with satisfaction on our return. Bearskin's house, at the mouth of the Chocquet river, would hardly be considered as part of civilization, and we did not

(Continued on Page 2.)

MR. DOOLEY COMPARES

The Soldier's Life and the Policeman's.

By F. P. DUNNE.

"Th' life iv a sojer though glorious is hard," said Mr. Dooley. "Here's me frind, Gin'ral Fred Fustian, wan iv th' gallantest men that has come out iv Kansas since Stormy Jordan's day, has been called down f'r on'y suggistin' that Sinitor Hoar an th' rest iv thim be hanged be th' heels. I'm with th' gallant gin'ral mesilf. I'm not sure but he'd like to hang me, Ph'ilippeens is varyous an' i don't give a dam eyether way. If he runs me to earth I on'y ast iv him as a fellow pathrite that he won't give me th' wather cure. Th' very thought of it makes me flesh creep.

"But th' prisidint called him down. Afther th' publication iv th' fifteenth speech whin every college profissor in this broad an' fair land was undher sintince iv death fr'm th' gin'ral th' prisidint wrote to him, sayin': 'Dear Fred:—Me attintion has been called to ye er pathriotic utthrances in favor iv fryin' Edward Atkinson on his own cook sthove. I am informed be me advisers that it can't be done. It won't fry beans. So I am compilled be th' reg'lations iv war to give ye a good slap. How ar-re ye ol' commerade-in-arms? Ye ought to've see me on th' top iv San Joon hill. Oh, that was th' day! Iver, me dear Fred, reprovingly but lovingly, T. Rosenfelt, late colonel First United States Volunteer cavalry, bether known as th' Rough Riders an' ex-officio prisidint of th' United States.' That was wan f'r Fred. I wisht th' same cud be handed to Gin'ral Miles. Ivry time he opins his mouth, if 'tis on'y to say 'tis a fine day—which I must say is seldom—al they do to him is to break his back.

"'Tis a hard life, a sojer's, but a glorious wan. I wisht me father had entherred me f'r a martial career instead of tachin' me be precipt an' example, as Hogan says, to be quick on me feet. In ral because he's been a long time a doctor these days whin a man gets to be a gin'or because he's supprissed a naygur rite, 'tis me that wud go boundin' up to th' top iv th' laddher.

"'Janooary wan: Private Dooley distinguished himsilf at th' battle iv Ogoowan in th' island iv Samar be rushin' out in a perfect hell iv putty-balls, rice, arrers, an' harsh cries, an' seizin' th' gin'ral iv th' Tamalese an' batin him over th' head with his own bean-blower.

"'Janooary twinty: Colonel Dooley, iv th' hunderth an' eighth Maccabee scouts, yisterdah administhered th' best an' muddyest part iv th' Gingong river to Gin'ral Alfico Bim in th' prisince iv a large an' smilin' audjeence. Th' ribil had rayfused to com-municate his plans to th' gallant Gilligan cavturin' Aggynaldoo,, an' he'd do with bare hands an' without th' colonel, but afther he had had sufficient irigation his conversation was more extinded. So was th' gin'ral.

"'Feb'ry eighth: Gin'ral Dooley, th' hayro iv th' Ph'ilippeens, who is at home with a large spleen, which he got into him in our beautiful island possissions, made a speech before the Locoed club las' night. He said we shud niver give up th' Ph'ilippeens which had been wathered be some iv th' best blood in our land, he might say all. He didn't know much about th' constichoochion, but fr'm what he heerd about it fr'm a man in his rig'mint who cud spell, it was't intinded f'r use out iv coort. He thought no wan shud be ilected to congress undher th' rank iv major. There was some talk of pro-gress in lith'rachoor an' science, which he was in favor of hangin'. All th' army needed was rope enough an' all wud be well. Th' supreme court was all right, but if ye wanted justice hot out iv th' oven, ye shud see it administhered be three or four loughin' subalturns on th' stumps iv threes, jus' afther lunch.

"'March eighth: Prisidint Dooley, chaflin' at th' delay in th' sinit requirin' all civilyans to submit their opinyons on th' tariff to th' neighborin' raycruitin' sergeant wanst a week, wint over to th' capitol this mornin' with a file of sojers an' arristed th' anti-administhration foorce, who are now locked in th' barn back iv th' White House. Th' prisidint was severely lacerated be Sinitor Tillman durin' th' encounther.'

"Yes, sir, I'd like to be a sojer. I want to be a military man. An' yet I niver wanted to be a polisman. 'Tis sthrange, too, f'r if ye think it over they ain't th' lot iv diff'rence between th' mos' ordhinary flat-footed elbow that iver pulled wan leg afther another to mornin' rollcall an' th' gr-reatest gin'ral that iver wint through a war behind a band on a horse. They both belong to th' rave iv round-headed men. Whin ye lenthen th' head iv man or dog, ye rayjooce his courage. That's thrue iv all but th' bullrrrryer an' th' Turk. Both iv thim fight like th' divvle. Th' jooties is much th' same but th' polisman's is harder. Th' polisman has to fight night an' day but th' sojer on'y wanst a month. A man's got to be five foot nine to get on th' foorce. He can be five foot eight an' get into th' army through West Point or three foot two an' get in through th' war department. Didn't Make Gilligan take more chances whin he wint up to th' patch where Red Starkey was holdin' th' fort with a Krupp gun an' took him be th' hand an' pivoted with him out iv a window, thin me frind Fearless Freddy whin he assumed false whiskers, pretinded to be a naygur an' stole little Aggynaldoo out iv his flat? Ye wudden't explct a pathrolman to be promoted to be sergeant f'r kidnappin' an organ-grinder, wud ye? An' Gilligan didn't ask f'r leave iv absence an' go down town to th' Union League club an' tell th' assimbled mannyfacthrers iv axle-greasc what ought to be done with th' wather taxes. No, s What happened to Gilligan was at roll-call th' nex' mornin' th' loot says: 'Officer Gilligan, in capturin' Starkey, ye rellicted gr-reat credit on this precinct an' ye'er own bringin' up. But I want ye to know, officer, that this important arrist is no excuse f'r ye goin' out an' loadin' ye'ersilf. to th' joo-pint with Hannigan's paint. Th' nex' time ye miss pullin' ye'er box, I'll have ye up befure th' thrile boord. Put that in ye'er pipe an' smoke it, Mike Gilligan.' An' Gilligan blushed.

"No, sir, between th' two, th' polisman's life's th' hard wan. He can't rethreat f'r reinforcemints or surrinder with all th' honors iv war. If he surrinders, he's kilt an' if he rethreats, his buttons come off. He gets no soord fr'm congress whin he brings in Starkey by th' burnin' hair iv his head. If he's promoted to sergeant, he's sure to be bounced be th' first rayform administhration. He takes his ordhers, carries his sthick iv timber up hill an' down dale undher th' gleamin' stars, has nawthin' to say but 'Move on there, now,' an' if his foot slips another round-headed man pushes him into a cell an' a impartyal jury iv men that's had throuble with th' polls befure convicts him with three cheers.

"Now, suppose Gilligan's father whin he was young had looked him over an' said: 'Agathy, Michael's head is verfictly round. It is like a baseball. 'Tis so peccolyar. An' he has a fightin' face. 'Tis no good thryin' to tache him a thrade. Let's make a sojer iv him.' An' he wint in th' army. If he'd done there what he's done n th' patch, 'tis Ginral Gilligan he be be this time—Gin'ral Gilligan stormin' th' heights iv San Joon Hill; Gin'ral Mike Gilligan suspindin' th' haveas corpus in th' Ph'ilippeens an' th' anti-impeeryalists at home; Gin'ral Mike aid iv a mistache; Gin'ril Mike Gilligan abolishin' th' third reader; Gin'ral Mike Gilligan discoorsin' to th' public on 'Books I have niver read: Series wan, th' His' th'ry iv th' United States.' If—his foot slips an' he grows a little cross with a pris'ner iv war on th' way to th' station an' dhrops his soord or his club on th' top iv him, is he up befure th' judge an' thried be a jury iv his peers? Officer Mike, yes; Gin'ral Mike, no. Gin'ral Mike has no peers. He rayceives a letther notifyin' him that he has broken a human skull divine an' th' reg'lations iv th' army an' must be thried. 'Who will me brave frind have to go through with this here austers but hail-fellow inquiry?' 'Oh, annywan will do. Anny iv th' gallant lift'nants iv me brigade will do,' says Gin'ral Mike. So th' gin'ral is put on thrile an' a frind iv his addhresses th' coort. 'Gintlemen,' says he, 'th' question befure th' coort is not so much did our gallant leader hammer th' coon as whether our flag wanst stuck up where we have wathered so many precious citizens shall iver come down. (Th' coort: 'No, no!') That's th' pint. What do th' people at home who know nawthin' about this here war, excipt what we tell thim, what do they mane be subjictin' this here hayro, gray an' bent with infirmities but pretty spry at that, to this ignominy? He has fought f'r thim an' what have they done f'r him? In more than wan year he has on'y risen fr'm th' rank iv captain to brigadier gin'ral an' his pay is less thin twinty times what it was. (Here the coort weeps.) I ast ye, ye fine little boys, is it mete and proper, nay, is it meat an' dhrink f'r us to punish him?'

"An' the coort puts th' vas et iv acquittal in th' shape iv th' pop'lar song, 'F'r .e's a Jolly Good Fellow,' an' adds a ricommindation that Harvard colledge is gettin' too gay anyhow.

"...at's th' diff'rence between sojer an' polisman. Why it is that the' fair sex, as Hogan says, wudden't be seen talkin' to a polisman, but if ye say 'Sojer' to thim, they're all out iv th' window but th' feet? I want to know.

"I can't tell," said Mr. Hennessy. "I heerd a frind iv William J. Bryan say we was in danger iv havin' thim run th' counthry like they do in in Germany, d'ye mind."

"Niver fear," said Mr. Dooley. "There's too manny Gilligans not in th' ar-rmy f'r that."

Fish and Are Happy

Four Men In a Houseboat On the Mississippi —Catch Lots of Fish and Have a Good Time.

This party, composed of a gun dealer, an offifficeholder and a Dakota landboomer, whose names are not important, is having a good time. It left a point on the Mississippi river fifty miles below St. Paul, on May 26, which was the opening day of the bass season; it is now 200 miles down stream and still fishing.

The mode of conveyance is a sort of houseboat, and going with the houseboat is a black man-of-all-work, called the Doctor, from his number of mysterious prescriptions for the cooking of fish. The houseboat, named the Oregon, is governed by two long sweeps, which work in rowlocks near the bow, and a stern sweep, which works in a rowlock on the edge of the roof.

Mostly she drifts when progressing at all. For days at a time she is moored to the edge of some island or in the mouth of a small creek making down from the hills.

These people bought a flatboat, watertight. It is twenty feet wide and forty feet long. On it they built the house, which is roomy enough for five bunks, some chairs, shelving, gun and rod racks and a cooking stove.

Thoreau's house on Walden Pond cost a little more than $20; this house cost about $50, exclusive of the furnishings. It will be used off and on through the summer and fall and then will be sold for nearly as much as it cost.

Meanwhile those who live in it go where they please along the great stream, sleep ten hours a night, live like princes and pay no taxes. When it rains they are sheltered; in the heat of the day they lie in the shade while the river wind keeps them cool; at night they have the rushing of the water for a lullaby.

The upper Mississippi is in a land of beautiful scenery, with bluffs, craggy and green, 100 feet high on each side of the stream, and the waters teem with fish.

The houseboat men have come to be connoisseurs of bass. When they began their lazy life they took all sizes and fed upon them, but of late they are reserving only enough for food and casting back the others as fast as they are taken.

In this way the are getting all of the sport they can stand and not unnecessarily depopulating the river. They are always within reaching distance of a small town and are so supplied with fresh meats and canned goods.

They have a medicine chest for which there has been as yet no sort of use; they have reading material; they have a jug of Robinson county Bourbon from which they take three nips a day; they have cards, a chessboard and a cribbage board; they wash their clothes by tying them to a rope and dumping them into the current; they have no more clothes than decency demands.

Topics of conversation are not wanting. For instance, one man has a split bamboo rod, another a lancewood and the two others use steel. Discussion of the merits of these rods would furnish conversation for a month, allowing no time for sleep, not to mention the various lures, artificial and natural.

Just now the men are casting for game fish, but later in June the black bass will begin rising to the fly, and they have fly rods as well. There are many [illegible] of the East and West who rein the [illegible] do not rise to the fly at any season, but it is not true of the Mississippi, or any other bold and rapid stream.

In argument about casting rods, the steel men have a little the best of it; in argument about fly rods the lancewood and lancewood men have all the best of it.

There is a light skiff attached to the houseboat and in this two of the party may explore the channels between the hundreds of islands. In this way some rare rapids are found, just below which the bass lie dark and savage; the wood duck flies from its nest in oak or willow and at dusk woodcock flit above the water or perch on the island edges in search of worms Beautiful sunrises and sunsets greet these men, and, safely sheltered, they watch rare storms along the bluffs.

Much of the casting for bass is done from the wing dams thrown out by the government here and there to correct or maintain the main channel. These dams, built of rubble and rock, stand ten feet above the stream and are twenty feet broad, run out 200 feet from the shore, and casting from them is much like casting from a floor.

There are no branches to interfere and an expert is able to get 200 feet out, if the wind be right. In each dam is a shallow sluiceway through which the water rushes and to one side and below it the fish gather for the minnows, frogs and crayfish which are brought down.

The angler needs a dipnet with a long handle with which to lift the fish, but there is nothing to interfere with his play of them, and from his point of vantage, high up on the dam, he may watch the whole fight while he is making his side of it.

Living in swift cold water the fish are very game and are of a fine flavor. They vary much in size, the ordinary weight being two pounds.

There are, however, in this big river some bass of enormous girth, and it falls to the lot of every fisherman in a season of sport to take one or two of them. Small-mouthed, red-eyed bass have been captured weighing more than six pounds and some of the Oswego variety run even larger.

The Mississippi bass takes the spoon as readily as the bass of any water, because it has been used to pursuing shiners through the swift current, and at this season the minnow, or an imitation of one, is a favorite bait. Later will come the season of frogs, crayfish and more solid meats.

The houseboat party leans to the spoon, as it is no trouble, though bushels of minnows may be scooped in a small seine dragged through any shallow bay. In some of these bays, into and out of which the water eddies, its action has worn the bottom so that great depth has been obtained, and in the deep holes the big fish lie through all the night and most of the day, ranging for food only early in the morning and toward dusk.

The biggest bass are always taken by still-fishing, as they lie deep, and either casting or trolling keeps the bait near the surface. Twenty feet under these fellows are hooked.

They have the weight of the water above them to aid to their own weight and muscle and on the end of a limber five-foot rod they feel like a ton. They can be landed only by keeping enough strain on them to prevent them from staying upon the bottom rocks, whereupon they would speedily rub out or break out the hook, or else snarl and fracture the line.

The bass, while yielding the main sport, is only one of the fishes taken by the party. Muskallonge of eight or ten pounds are often hooked, and a muskallonge fought by a man standing still instead of by one in a boat jerked by a muscular guide makes plenty of fight for its liberty.

Its method of giving battle differs from that of the red-eyed bass. The muskallonge's fight is more violent while it lasts, but it does not last so long.

Soon the fish, discovering that it is firmly fastened, will dart in for a yard or two, then roll over and over on the slack line, wrapping it about its body in a [illegible] circles, its weight then gives it a great advantage.

If it is unable to win in this way it sags and goes toward the bottom, and when worried to the surface surrenders. The bass, however, fights from the moment it feels the point of the hook until exhaustion comes. It takes sometimes a good twenty minutes to land one of the most vicious and ...e angler's wrist will feel the strain for days.

The channel cats caught upon trot-lines, or set lines, afford the party a change of food, and the Doctor knows a way of stewing them with red pepper and sauce which makes them delicious.

The pickerel is sometimes taken, though the season is early. Later on it will be found in numbers just under the scum which gathers above the dams.

A spoon or frog drawn along six inches under this scum will attract the pickerel for twenty feet around. The fish is good only as a change. It is not so game as the bass or muskallonge, not so good on the table, being less well flavored and possessing hundreds of bones.

When the party tires of the line, two of its members take the boat at night and go upon the flats with a light flaring in the bow. Thereon they spear fish to their hearts' content, bass or pickerel sometimes, but mostly cats and buffaloes, or the great gars with round heads and four or five sets of teeth.

They break the game laws regularly. The female wood ducks are nesting now, but if a drake comes along within shot he is added to the pot. There is no trouble in distinguishing him by his brilliant plumage.

It is different with the woodcock, though the Dakota boomer pretends to be able to tell the males from the females in the dusk.

Sometimes just after sunset a buck comes down from the bluffs to drink. One has been killed and the horns thrown away for fear of a possible game warden.

In the wildest part of the country now and then a little creek makes its way to the Mississippi over a tumbling waterfall. By following up this stream for a mile or so pools are found, lonely in the woods or beyond the confines of some farm.

The pools are apt to contain speckled trout of half a pound's weight. They are genuine brook trout all right enough, but will not rise to the fly, be it cast ever so deftly.

They can be taken only with hairline silk attached to a very long pole. With a bunch of angleworms on the hook the pole is thrust forward over the pool and the bait dropped in gently, the man at the other end meanwhile keeping sedulously out of sight. In this way, if he remains hidden, it is occasionally possible to take a half dozen of the beauties from one small bit of water.

These trout, locked in their pools, are survivals of a once numerous tribe. Those which are gone were not caught and broiled, but were washed into the Mississippi by great freshets of the past. There is now scarcely a small stream emptying into the river in all Wisconsin or Minnesota which has half a complement of trout.

The gundealer, the officeholder, the officeseeker and the boomer, are happy and the chances are that they will be happy until the frost drives them home. Whether or not they will be utterly unfitted for cramping civilization remains to be seen. The sentiment of the party is expressed by the boomer, who says:

"If I were a rich man I wouldn't wear a boiled shirt more than one month in tne year."

They are getting browner and fatter and lazier with the passing days. One pipe after supper, and at 9 o'clock the dreamless sleep of infancy.

All night long cool airs blow up or down the river and the rustling leaves of the cottonwood above their mooring place sound like the patter of rain. From the willowed islands comes the undisturbing cry of the great brown owl, or from on high the bullbat swoops a hundred yards down with a roaring of wing.

When they look out in the first light of morning the dimpled surface is marred by the splashing of the bass, or a huge gar rises and demi-volts, making a whirlpool. From a sedgy nook the mudhen clutters or calls hoarsely to her mate, the red-winged blackbirds in the trees break into cackles, or they hear far down the river the puff puff of some little steamer making its way tortuously.

The gundealer does not know his daily receipts, the officeholder does not know that his job still waits for him, the officeseeker does not know he will ever munch oats in the public crib, and the boomer does not know the price of land, but they do not care. They can get all of the news they want out of a volume of the New York Ledger, vintage of 1879, found and purchased in a Norwegian farmhouse; they are living more healthfully than they have ever lived; that contents them.

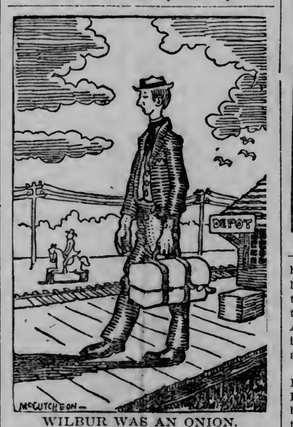
FABLES BY GEORGE ADE

The Modern Fable of What the College Incubator Did For One Modest Lambkin.

(Copyright, 1902, by R. H. Russell.)

One Autumn Afternoon a gray-haired Agriculturalist took his youngest Olive Branch by the Hand and led him away to a Varsity. Wilbur was 18 and an Onion. He had outgrown his last year's Tunic and his Smalls were hardly on speaking terms with his Uppers. He had large warty Hands which floated idly at his sides and his Wrists resembled extra Sets of Knuckles. When he walked, his Legs gave way at the Hinge and he interfered. On his Head was a little Wide-awake with a Buckle at the Side. Mother had bobbed his Hair and rubbed in a little Goose-Grease to make it shine. The Collar that he wore was size 13 and called the Rollo Shape. It rose to a Height of a half inch above his Neck-Band. For a Cravat he had a piece of watered Silk Ribbon with Butterflies on it.

Wilbur had his Money tied up in a



WILBUR WAS AN ONION.

Handkerchief and he carried a Paper Telescope loaded down with one Complete Change and a Catalogue of the Institution showing that the Necessary Expenses were not more than $3.40 per Week.

As the Train pulled away from Pewee Junction, Wilbur began to Leak. The Salt Tears trickled down through the Archipelago of Freckles. He wanted to Crawfish, but Paw bought him a Box of Crackerjack and told him that if he got an Education and improved his Opportunities, some day he might be County Superintendent of Schools and get his $900 a Year just like finding it. So Wilbur spunked up and said he would try to stick it out. He got out the Catalogue and read all of the copper-rivited Rules for the Moral Guidance of Students.

The Curriculum had him scared. He saw that in the next four Years he would

SMOKING A DIZZY LITTLE PIPE.

have to soak up practically all the Knowledge on the Market. But he was cheered to think that if he persevered and got through, he would be entitled to wear an Alpaca Coat and a Lawn Tie and teach in the High School. So he took Courage and began to notice the Scenery.

Wilbur was planted in a Boarding House guaranteed to provide Wholesome Food and a Home Influence. Father went back after making a final Discourse on the importance of learning most everything in all of the Books.

Nine Months later they were down at the Depot to meet Wilbur. He had written several letters saying that he could not find time to come Home as he was in pursuit of Knowledge every Minute of the Day and if he left the Track, Knowledge might gain several Laps on him. It looked reasonable, too, for the future Superintendent of Schools had spent $400 for Books, $200 for Scientific Apparatus and something like $69 for Chemicals to be used in the Laboratory.

When the Train suddenly checked itself to avoid running past the Town, there came out of the Parlor Car something that looked like Fitz, on account of the Padding in the Shoulders. Just above the Ear he wore a dinky Cap about the size of a Postage Stamp. The Coat reached almost to the Hips and was buttoned below. The Trousers had enough Material for a Suit. They were reefed to show feverish Socks of a zig-zag Pattern. The Shoes were very Bull-Doggy and each had a wide Terrace running around it. Father held on to a Truck for Support. Never before had he seen a genuine Case of the inflammatory Rah-Rahs.

Wilbur was smoking a dizzy little Pipe from which the Smoke curled upward, losing itself in a copious Forelock that moved gently in the Breeze. Instead of a Collar, Wilbur was wearing a Turkish Towel. He had the Harvard Walk down pat. With both Hands in his Pockets, the one who had been pursuing Knowledge, teetered toward the Author of his Being and said, "How are you, Governor?"

Father was always a Lightning Calculator and as he stood there trying to grasp, and comprehend and mentally close in, as it were, on the Burlap Suit and the Coon Shirt and the sassy Pipe, something told him that Wilbur would have to Switch if he expected to be County Superintendent of Schools.

"Here are my Checks," said Wilbur, handing over the Brasses. "Have my Trunks, my Golf Clubs, my portable Punching Bag, the Suit Case and Hat-Boxes sent up to the House right away. Then drive me Home by the Outside Road because I don't want to meet all these Yaps. They annoy me."

"You'd better git out of that Rig mighty quick if you dont want to be Joshed," said his Parent. "Folks around here won't stand for any such fool Regalia and if you walk like a frozen-toed Hen you'll get some Hot Shots, or I miss my Calkilations."

"Say, Popsy, I've been eating Raw Meat and drinking Blood at the Training Table and I'm on Edge," said Wilbur, expanding his Chest until it bulged out like a Thornton Squash. "If any of these local Georgie Glues try to shoot their Fink Conversation at me, I'll toss them up into the Trees and let them hang there. I'm the Gazabe that Puts the Shot. Any one who can trim a policeman up and chuck a Hackman up right back into his own Hack and drive off with him, doesn't ask for any sweeter Tapioca than one of these Gaffer Greens. The Ploy-Boy who is muscle-bound and full of Pastry will have a Proud Chance any time that he struts across my Pathway. In my Trunks I have eight suits a little warmer than this one and 47 pairs of passionate Hose. I'm out here to give the Corn-Fields a Touch of High Life. It's about time that your Chaws had a Glimpse of the Great Outside World. Any one who gets Fussy about the Color-Combinations that I spring from Day to Day, will be chopped up and served for Lunch. To begin with I'm going to teach you and Mother to play Golf. If these Mutts come and lean over the Fence and start to get off their Colored Weekly Jokes, we'll fan the Hillside with them."

"What do they teach up at your School—besides Murder?" inquired Father. "I thought you wanted to be County Superintendent of Schools?"

MUTTS LEAN OVER THE FENCE.

"I've outgrown all those two-by-four Ambitions,' was the Reply. "I'm going to be on the Eleven next Fall. What more could you ask?"

That very week Wilbur organized a Ball Team that walloped Hickory Creek, Sand Ridge and Sozzinsville. He had the whole Township with him. Every Cub at Pewee Junction began to wear a Turkish Towel for a Collar and practice the Harvard Walk.

MORAL: A Boy never blossoms into his full Possibilities until he strikes an Atmosphere of Culture.

FOREST FIRES

Doing Great Damage In West and Southwest.

Tacoma, Wash., June 21.—The fire department of this city has sent men, engines and hose on a special train to Buckley in this county, which is threatened with complete destruction by forest fires raging between that town and Enumclaw, Kink county. A great cloud of smoke hangs over Tacoma, thirty-three miles from Buckley. The mountain mill, two miles east of Buckley, burned yesterday. Undoubtedly many lives of mountain campers and loggers have been lost.

Enumclaw is also threatened with destruction. The whole population is fighting the flames, but the water works has been burned and the work of protecting the town is difficult. The wind is blowing a gale and much farm property has been already destroyed. The damage to timber and buildings in the town is over $100,000.

Salida, Col., June 21.—Forest fires in the vicinity of Mount Ouray, southwest of this city, have swept up one gulch and down another, burning miles and miles of valuable timber.

A new fire started at Mills Switch, seven miles from the Summit of Marchall Pass, on the western slope and in very thick timber. It is less than fifteen feet from the Rio Grande tracks, and the smoke blinds the trainmen as they pass through.

CROWDING PRESIDENT.

Washington, June 21.—The work of demolishing the interior of the White House has progressed so rapidly that the president finds himself cramped for space, rendering it difficult to transact the business of his office. Owing to this condition of affairs, he has determined that hereafter he would be unable to receive any callers except senators and members of congress, government officials and those having only the most urgent business.

BUFFALO BILL'S GREAT WILD WEST

Duluth, July 23.

During a long era of peace over the world a desultory war on our border kept Uncle Sam's military busy in a practical school that has been invaluable. A page from that book is reproduced by Buffalo Bill's Wild West, with added interest in the auxiliary detachments of the World's Rough Riders. That continuous arena or martial practique (the late American frontier) is preserved in the men, horses and methods of Col. Cody's exhibition. At a time when the horse was being relegated as a has-been in military value by the tacticians, Buffalo Bill was exploiting his qualities to the busy commercial world, and making the masses familiar with his worth when handled with ability. Sudden wars caused his necessity to be again recognized; in fact, now the horse is deemed the most important adjunct in the successful equipment of an army.

Following the example of the Wild West, President Theodore Roosevelt and Gen. Leonard Wood organized a similar body of horsemen. These Roosevelt Rough Riders were daily drilled in cavalry maneuvers, but the individuality of each man was recognized and preserved, so they were able to assist materially in snatching victory from the Spanish at Santiago. The Boers and the British troops in South Africa have alike employed the horse in a Wild West way, new to foreign military science. Every European country has adopted new methods by combining the infantrymen with the cavalrymen. Col. Cody learned how to do this while acting as a government army scout under Sheridan on the Western plains and while leading United States troopers during the great Indian wars. He carried the fruition of his hard-earned experience to the nations of Europe, and by his object lessons no doubt contributed to revolutionize the existing systems of military horsemanship to meet the new style of weapons and the invisible power. Dense masses of mounted men will never again appear on the battlefield, in close order, but they will act just as the United States cavalry did while fighting the red savages and in open order and with all the self-reliance of individual manliness. It is these facts that render the Wild West exhibition of interest and value. While faithfully depicting history and national characteristics, it has been a factor in changing the art and practice of modern warfare. In this achievement alone the Wild West will itself become historical. It will exhibit here July 23.

"The Wild West," says Col. Cody, "introduces more horses and men in the saddle at one time than any two shows combined. At one time you would actually think it a large-sized army."

THE EARLY EXPLORERS

(Continued From Page 1.)

find it occupied on either occasion that we passed by it. Posey's house burned down one night a number of years ago, and poor Joe and his family perished in the flames.

His wife was a squaw, but she was a good cook and a good housekeeper, and we could always get a square meal and a good bed there.

We started from Posey's late in the afternoon, and our first camp was made in section 14, town 59, range 17 west. Voyaging steadily every day we reached the Indian agency at Vermilion lake on the tenth day, where we spent the night. The Wheelers were most hospitable and did their best to treat us well and feed us well while we stayed with them. As a special treat the night we arrived we were served with cove oysters. Think of it! An oyster stew in the middle of July and in the wilds of Northern Minnesota. It was interesting to note the complete way in which the government positions at that post were filled by the Wheeler family. The father, George E. Wheeler, was Indian agent and also blacksmith. Whether he was paid a salary for each I do not know. His wife was school mistress for the Indians of the reservation, but as far as I could learn she was never troubled with any scholars. The older son was farmer, and it was his duty to instruct the Indians in his peaceful art. The younger son was helper to his father, the blacksmith. Only the little daughter, perhaps 8 or 9 years old, failed of a government appointment. Yet when one considers the life they led, with its isolation and hardships, any pay they could manage to get was all too small a remuneration.

The next day, June 23, we crossed the lake, and before night had begun looking over the hematite exposures of Vermilion lake, and camped that night near the site of the present city of Tower. This location was carefully gone over and a definite plan made as to some later explorations of the iron deposits there, though the main object of this expedition of 15 was to fully explore the Mesaba iron range, on which Peter Mitchell had worked several years earlier. The next day we turned back, and retracing our steps to a suitable place on the Upper Embarrass river, struck eastward from thence, and found those of our party that had preceded us in camp at section 28, town 59, range 14 west. Some work had been done here, for the indications of iron were abundant, so that our compasses were of no use in determining directions, being as likely to point in any other direction as north; but the ore here seemed to consist of loose blocks, float ore, so-called, and there was none found in place.

This party was in charge of William Bassett, and was made up as follows: William Bassett, explorer; Anson Northrup, manager; Charles Northrup, John Lightbody, Stewart Celey, wood choppers; James Northrup, teamster; Edward Sterling, cook; Burton Northrup, cooker; James Drohan, blacksmith; Dennis Higgins, Martin Casey, John Lynch, Daniel Carr, Michael Sharkey, Charles Hofenbecker, Peter Armstrong, Nils Nilson, George Hull, Jacob Zimmerman, John Mallman, miners.

The united party, moving by degrees to the northwest, finally examined all of towns 59-14 and 60-13, covering much ore ground than had been assigned, for the explorers were out every day and in all directions, bringing in samples of all the rocks noticed, and every favorable indication was thoroughly examined. Mr. Lee and myself were fully occupied in directing the daily work, and had little time for such explorations.

On July 31 Mr. Stuntz, with John Mallman as his assistant, and two of the Indians were sent back to Vermilion lake, about twenty miles as the crow flies, but much further as they were forced to go, with directions to carry out the work which I had laid out with Mr. Stuntz when we were on the ground a little earlier. This party returned after several weeks spent at the Vermilion location and accomplishing the work laid out, having, however, put in but one shot, at what is now the Lee mine, the first blast in that district.

Some of these facts are stated in a very misleading way by Maliman in a letter to Professor Winchell, which was published in Bulletin No. 6, for 1891, of the Minnesota Geological Survey. From this letter one would think that Mallmann was the leader of the party, while in fact the party was in charge of Mr. Stuntz, the work being done at my direction and for my inspection later. My notes made at the time read as follows: "July 31—Stuntz, one miner and two Indians, sent to Vermilion." Later: "On the 25th (August) Stuntz and party returned."

My examination of this belt of iron ore on the Mesaba range having been completed, specimens having been selected from various points for examination at home, camp was broken Aug. 29, 1875, and the most of the party went overland to Duluth in charge of Mr. Lee, while Mr. Stuntz and myself, with two Indians returned to Vermilion to complete my examinations there and to inspect the work accomplished by the party that had been sent there. We took a canoe route by way of Birch, Burntside and Mud lakes, examining the fake gold locations of 1866 on the way. Specimens of the gold ore, so-called, were taken, and I assayed them with great care, but not the slightest trace of gold was detected in them.

We reached Vermilion lake Sept. 2, and spent the day examining the iron exposures, carefully looking over the work done by Stuntz and his party. While the ore seemed to be much mixed with jasper in places, there were many good exposures of hard, rich hematite, samples of which were taken for subsequent examination. One exposure of the ore, found for the first time on this visit to Vermilion, was particularly interesting, as there was a natural break in the vertical bed of ore, which was at that point about twenty-five feet wide, so that it showed a solid cliff of pure hematite of that width, standing at least thirty feet out of the ground, and with large blocks of the same rich ore scattered in profusion over the ground at the foot of the cliff. It was a magnificent sight. Nature had there done the mining and it was only necessary to break up these large blocks to have many tons of the very finest iron ore, ready for shipments when the railroad should come.

This allusion to a then prospective railroad reminds me of an incident at the Wheeler home next day. Mr. Wheeler's little daughter had a pet kitten, which, however, did not like strangers, and scratched my hand when I undertook to caress it. In a moment the little girl had the kitten in a corner and was boxing its ears, saying:

"Oh, kitty! how could you be so naughty as to scratch Mr. Professor! Don't you know he is going to bring us a railroad?"

Poor child! No other white child within a hundred miles. Between her and civilization a canoe trip of a week or more.

After spending a night at the Indian agency we took the river route homeward, arriving in Duluth at noon Sept. 8, 1875. The specimens secured were shipped to Hamilton college laboratory as soon as possible, and there examined and analyzed with as much celerity as was consistent with suitable care and attention, and a report was made to Messrs. Munson and Tower late in the ensuing fall. As the substance of his report is given in a paper by myself submitted to State Geologist N. H. Winchell and published in his eleventh annual report of the geology of Minnesota, I do not need to give further details here. Suffice it to say that the part of the Mesaba district which I examined was condemned, while of the Vermilion district it was said that it well deserved further most careful and exhaustive examination. The total cost of the exploration was about $10,000.

It should be noted here that it was only the lean magnetite belt of the Mesaba range, in towns 59-14 and 60-13, that were examined and condemned at this time. Of the hematites, later found to the west of these deposits, nothing at all was then known, nor did we make any explorations in their neighborhood. I notice with some satisfaction that Prof. Winchell says in a paper read in 1901 before the International Mining congress, and published in a recent number of the American Geologist, "Professor Chester's report on that part of the Mesaba range (made in 1875) was unfavorable, and nothing has transpired since to invalidate his conclusions. This confirmation of the soundness of my report, after a lapse of more than twenty-five years, is the more gratifying to me because I learned that soon after the nature of my report was known, I was set down by some of the parties interested in the sale of these lands as a "d——d fool," and one who did not know a good thing when he saw it.

Of several that were connected with this expedition I have a further word to say. It is somewhat appalling to notice how many of them are dead. Mr. George C. Stone was too well known in Duluth to need any eulogy from me, but I must testify to his untiring energy in arranging for this exploration, and to the very efficient way in which he managed the Duluth end of it during our period in the woods. We were made as comfortable as possible. The news of his recent tragic death came to me as a great blow. Mr. Lee, my ever ready and efficient assistant, should also have a word. His pleasant companionship was most grateful to me, and he strove in every way to lighten my many difficulties and burdens. Many friends mourn his untimely death. Mr. Stuntz was one of the best men for guide and advisor on such a trip that I have ever met. Without his aid and counsel I am sure the expedition would not have been the success which it was. His practiced eye never failed to notice every detail of interest or value, and his experience enable him to interpret correctly many things of importance, which the inexperienced would never have noticed at all.

Of Bishop and Bassett I have only to say that they performed their duties as explorers entirely to my satisfaction and gave me most efficient aid. Anson Northrup was so well known in Duluth that I need give him no eulogy. With us him I no not think this land jury would ever have rejected the Mesaba. He fairly pushed it through by main force, but, as I believe got very little out of it for his long summer's work. The other men were all satisfactory each in his way, and worked faithfully for the success of the enterprise. It would perhaps be invidious to mention any one in particular where all did so well.

One feature of this expedition which added much to the comfort of all was an arrangement of Mr. Stone's whereby one of the Indians acted as mail carrier between our camp and Duluth. A runner started early every Monday morning, taking our letters, and returned some time during the next Saturday, bringing not only our mail with him but also any other small things which had been sent for and that were within the limits of his carrying power. It was astonishing to see what a large load could be brought. While in general our courier took three days for the trip in each direction, on one occasion at least the distance of nearly 100 miles was made in a much shorter time. Billy Church started from camp one Monday morning at daylight and reported to Mr. Stone in Duluth at 2 o'clock p. m. the next day.

THE VERMILION EXPLORATION.

I have never known just why this matter was dropped for nearly five years, but it was not until 1879 that I was requested by Messrs. Munson and Tower to lead another expedition, which was to start from Duluth some time during the following summer. During the winter intervening provisions and supplies were sent by sleighs over the snow and ice and stored at the Vermilion agency, then in charge of Z. J. Brown. A small log house was erected on section 22, town 62, range 15 west, on the shore of the lake, and as near as possible to the outcrops of ore, to be used as a storehouse and office while the work was going on. I arrived at Duluth on July 3, 1880, and got away from there on the morning of July 5, the party by road starting a few days later. I had brought with me H. M. Hill, of Watertown, N. Y., then my laboratory assistant at Hamilton college—and now professor of chemistry at the medical college of the Univegsity of Buffalo. The men engaged were all on hand, but the most of them had been celebrating too much on the "Glorious Fourth," and were not worth much for work. We made a start, however, and camped quite late the first night at the lower end of the grand rapids in section 34, town 50-17. Our party consisted of the following men:

Albert H. Chester, professor in charge; Herbert M. Hill, assistant; Tom Manoque, cook; Henry Eyre, James Wheeler and E. Dykeman, miners; John Houle and Ben Cadotte, Indians. Mr. Stuntz was with us partly as our guide and explorer, as on the previous trip, but he also had charge of a surveying party, which was to survey for the government those towns which we expected to explore. Part of these men were with us, but I never made any memorandum of their names. It was of great service to me to have Mr. Stuntz with us, and his party and mine were never far apart during the entire summer, though we did not camp together after we reached the scene of our work.

Our land party was as follows: William Bassett, explorer in charge; Bob Whitford, Peter Armstrong, A. Sandill, Pitt Erickson, John Drohan, James Drohan, Angus McKennon, James Cutter, F. Fristburg, A. Nelson, John Hogan and Pat. Cuddy, miners.

George E. Wheeler, who was on the ground at Vermilion lake, had been engaged as our blacksmith. Bassett's work was that of explorer, and he sometimes acted as boss of the men. Eyre was a man of considerable education, and he was engaged nearly all of the time in the office, calculating results from figures obtained and making maps.

Our trip up the river was rather uneventful. The water was very high and there were frequent rains, so that we did not make very good progress. Some member of the party had brought a dog, which was forgotten and left behind at one of the portages, and part of a day was lost in sending back for him. He was found, and as far as I remember he went with us to the end of the trip. We reached the Embarrass bridge on July 14, and found there the rest of our party, who had arrived ahead of us.

From that point we all kept together as much as possible, and the whole party arrived in good shape at Zack Brown's on Vermilion lake on July 15, in the afternoon. Our weekly mail service was at once inaugurated, Jos Houlle taking the trail back to Duluth the next morning.

One incident of this long canoe trip is perhaps worth recording. At one of the long portages Mr. Stuntz and I were obliged to wait for some of the men who had not come up, and by an oversight the rest of the party, including the cook, with all the provisions, had gone over the carry. It was long past time for the noon meal, we had made an early start that morning, and therefore a still earlier breakfast, and were nearly famished.

Suddenly Stuntz got up from the ground, where he had been lying pretending to smoke, but really growling audibly all the time, and taking a stick, began poking in the muck at the foot of a stump by the side of the trail. I asked him what he was doing, but he did not answer until he had unearthed several cans of corned beef, and found them to be perfectly good and unspoiled. He then reminded me that we had buried these cans five years before to lighten our loads, expecting to reclaim them on our return, but we went back by another route. Many Indians had been over the trail in the meantime, and they had even built their fires against the stump, but they had not found the cans of beef, neither had it been injured in the slightest degree by its five years' exposure to summer and winter changes of temperature, much to our satisfaction.

On July 17 we crossed the lake from Brown's and made our permanent camp in the green timber near our log house in section 32-62-15. The next day, Sunday, was spent in arranging the camp and house, in preparation for actual work, which began on Monday, July 18, when the mining crews were set at work at several places on the ledges where the ore bodies were exposed. At 9:10 a. m. that day the first shot was fired in a block-hole in pit No. 5.

A detailed account of the daily business of trenching, drilling and blasting, measuring and sampling, would be out of place here and presents little of interest. As the various places where the several gangs of men were at work were far apart, it was in general sufficient for a day's business to inspect them all, so that I had little leisure for exploring the surrounding country.

Once Mr. Stuntz and I made a chance trip of two or three days, guided by our cooker named Pashiguun, who said he knew where there were large cliffs of ore similar to those on which we were working. But this expedition came to naught, though we explored the country nearly to Ely in a northeasterly direction. Our guide either did not know as much as he pretended, or, what is more probable, was not willing, when it came to the point, to show us the outcrops of ore. Why he should not reveal the secret we could not guess, for he was promised a substantial reward; but the Indian is always secretive, and this particular one possessed the characteristics of his race in a marked degree.

Work was completed at the various locations on Saturday, Aug. 21, and the homeward start was made on the following Monday, when the old Vermilion road in Brown's large canoe and set ashore there to walk to Duluth, a distance of bout 100 miles. Hill and myself, with two Indians, went all the way by canoe, Zack Brown going with us, so two canoes and another Indian were required. Hill went in one canoe with John Houlle and Pashiguun, who wished a sight of civilization, and Ben Cadotte and Bemoshkawaub, with Zack Brown, traveled with me. The latter Indian was a youth of perhaps 20, who had been our mail carrier for the whole season, and had proved to be a very good Indian. He stuck to his job in a most plucky way, though he often came limping into camp, after the long run, with feet so sore and swollen that it did not seem as if he would be able to start again for the next week's tramp. But he never failed us. I asked Ben Cadotte the meaning of his name, and he found trouble in putting it into English. After considerable thought he said: "It means, 'he sit solid.'" He proved to be as good on the river as on the road, and safely steered us past all dangerous rocks and down the rapids.

Zack Brown was a dead shot with a revolver, and twice we tried unsuccessfully for the deer which we saw frequently at the water's edge. He, however, succeeded in bringing down a great horned owl, firing at it from the canoe as it sat perched in a tree. The skin of this bird was prepared for transportation by Mr. Hill, and after our return was stuffed, and it is still an ornament of my study.

We reached Duluth on Sunday, Aug. 25, after a quick and very pleasant trip. There were no flies, and though there was some rainy weather we were not hindered by it. We started each morning as soon as it was light enough to see and traveled until dark, or we could not have made the trips so quickly with our heavily loaded canoes. We had with us all the specimens that had been collected not only with reference to my own examination and report, but also a full series of rocks of the district for the United States geological survey. These went to Prof. Rolland, of the University of Wisconsin, who was then in charge of the work for the United States in the Northwest.

We spent two or three days at Duluth, busy in sorting and packing specimens and making up the figures of the accounts of the expedition, which, as nearly as I remember, cost about $6,000. Mr. Hill and I started East on the evening of Sept. 1, reaching home at noon, Sept. 4, 1880. The analysis and other examinations were made as speedily as possible and a report w as rendered to Messrs. Munson and Tower in a short time. This report has never been made public in full, but the substance of it is given in my paper, to which reference has been made, published in the eleventh annual report for 1882, of the Geological Survey of Minnesota. It was at once well known that my report was most favorable. Indeed, I could hardly say too much as to the value of these ore deposits and the vast amount of ore which has been brought down since the railroad was built and the mines opened has more than justified my good opinion of the district. The flourishing city of Tower has grown up where in 1880 there was not a house or even an Indian's hut, not to speak of Ely and several other towns farther east, located near exposures of ore not then discovered. The existence of the now famous Mesaba mines of soft hematite was not even suspected at that time.

I will close this too long but I trust not tedious paper, by quoting the concluding sentences of the report to which I have just referred as a final word with reference to some of my helpers. It reads as follows: "In concluding this report I wish to express my entire satisfaction at the way in which the expedition was planned and carried out. Everything was made as comfortable and as easy as possible under the circumstances. The men were selected with judgment and were all able and willing. To my assistants, Mr. Stuntz, Mr. Hill and Mr. Bassett, I am indebted for the careful and prompt manner in which their work was done. In short, everything favored us to bring out such satisfactory results."

ALBERT H. CHESTER,
Professor of Chemistry and Mineralogy.
Rutgers College, May 3, 1902.

PERSONAL MEMORANDUM.

Judge Ensign and Judge Carey have been at some pains to look up information regarding the members of the parties led by Professor Chester on the expeditions described in this paper. Many of them are dead and others are forgotten and cannot be located. George R. Stuntz is now lying on his bed in West Duluth suffering from a stroke of paralysis received, at the advanced age of more than 80 years, while he was still in the pursuit of the duties of the occupation in which he was a pioneer of this section. William Bassett is an inmate of the Soldiers' home at Minneapolis. Anson Northrup died at Minneapolis six years ago. Charles Northrup has left the country. Stewart Celey is at Seattle, Wash. James and Burton Northrup have left the country. John J. Lightbody, Michael Sharkey, Charles Hoffenbecker, Henry Hoffenbecker, Nils Nilson, Bob Whitford and Pitt Erickson are enrolled among the dead. James Drohan lives in Duluth, at 109 Sixteenth avenue south. Daniel Carr boards at 228 Lake avenue south. Jacob Zimmerman and John Mallman live in the city still, and George Hull lives in Minneapolis. John Houlle lives on the Fond du Lac Indian reservation. Ben Cadotte lives in Superior. John Drohan lives in the West End, and Angus McKinnon lives at 112 East Superior street.

GREAT MIDSUMMER ELKS' CARNIVAL.

A great midsummer carnival will be opened on July 7, at Superior and continue until July 12, and the Elks, under whose auspices it will be given promise that it will be the greatest event of the kind ever seen in the Northwest.

The main attraction of the Bostwick-Ferari company, a world-famous carnival company. At the Pan-American exposition at Buffalo it was the chief feature of the Midway. The show presented by this famous organization is said to unsurpassed.

The exterior of the wild animal show is a mass of rare painting, carving and gilding and electric lighting, and represents the very highest degree of the decorator's art. Around the sides of the interior are the great steel-barred cages wherein are shown the brute creation fully and complete. The entire animal kingdom is there represented, and from the ice-bound regions of the Arctic Circle to the sun-scorched latitudes at the equator, mountain, forest, jungle, desert plain, ice- floe and frozen sea has been ransacked to get together this vast collection, in which there is not a single interesting species missing nor one rare variety absent. There, commanded and directed by the world's greatest living animal trainers, are shown man-eating lions, blood-thirsty tigers, leopards, treacherous panthers, huge, shaggy bears, grave-robbing hyenas, deadly jaguars and wild, fighting wolves in as complete subjection as household cats and dogs. In the great steel cages can be seen fearless men and women, taking their lives in their hands, posing in the midst of the very beasts whose mission on earth seems but death and destruction. Education, to a degree, which borders on the line of human understanding, is amply demonstrated, and performances are given which fairly bewilder the senses of the spector al this will be seen in the great arena.

At a meeting of the passenger agents at the head of the lakes held yesterday, it was unanimously decided to request of the various lines running into Superior, a rate of one fare and a third for the week of July 7 to 12, during which the Midsummer Carnival will be held. The rate will be more attractive by reason of the extended time limit which will be a part of the reduction if the recommendations of the local men are followed. They ask that the tickets sold be good for the entire week and good returning up to and including Sunday, July 13.

While no announcement can yet be made, it is anticipated that on one day during the week the railroads will give seven better rates, running excursions from all surrounding country as far away as the Twin Cities.

DOING THEIR DUTY

Kidneys' duty is to filter the blood—
to take out the poisons—make it pure and health-giving.
When they fail to do their duty the kidneys are sick.
Bachache and kidney ills follow.
Urinary troubles, diabetes—and then
Bright's Disease — There's no cure for that in its advanced stages—Its end is—death.
But there is no need to give Bright's Disease a hold on the system.

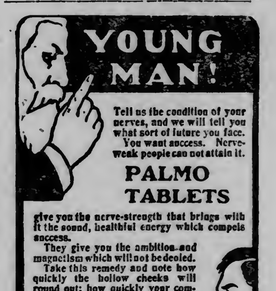
DOAN'S KIDNEY PILLS

Cure kidney ills—Backache, lame back, urinary troubles, everything down to the very verge of Bright's disease.
Duluth people say so. They have tried them.
They have been cured—You can't possibly doubt their testimony.

Mr. Charles Hendee, of 1811 Superior street west, night foreman at the Northern Pacific roundhouse, says: "I was troubled on and off for years with pains through my loins and kidneys. If I caught cold or strained myself the pains became very severe. I attribute the trouble to the heavy jarring I received while a locomotive engineer in years past. If I sat or laid long in one position my back became so lame and sore that I could hardly straighten up and in the morning on rising I felt tired and unrested. I saw Doan's Kidney Pills highly recommended and determined to try them. Procuring a box from the Duluth Drug company, I used it and was promptly relieved of the trouble."

Doan's Kidney Pills are for sale at all drug stores — 50c a box—Foster-Milburn Co., Buffalo, N. Y.

The best costs no more than the inferior kinds. Drink
ANHEUSER-BUSCH AND FITGER'S BEER.
Sold in Duluth at the
IDEAL BEER HALL.



Tell us the condition of your nerves, and we will tell you what sort of future you face. You want success. Nerve-weak people can not attain it.

PALMO TABLETS

give you the nerve-strength that brings with it the sound, healthful energy which compels success.

They give you the ambition and magnetism which will not be denied.

Take this remedy and note how quickly the hollow cheeks will round out; how quickly your complexion will assume the glow of health and strength.

50 cents per box, 12 for $5.00. Book free.

MAX WIRTH, Druggist, Duluth

Is a non-poisonous remedy for Gonorrhoea, Gleet, Spermatorrhoea, Whites, unnatural discharges, or any inflammation, irritation or ulceration of mucous membranes. Non-astringent. **Sold by Druggists,** or sent in plain wrapper, by express, prepaid, for $1.00, or 3 bottles, $2.75.

WHY? IS ELECTRIC LIGHT BEST
Because it is healthy, clean, pure and brilliant.
HEALTHY—
It has no odor. Professor Thompson states that one cubic foot of gas consumes as much oxygen as four adults.
CLEAN—
It causes no discoloration of furnishings and decorations in homes.
SAFE—
As electric bell work, no danger of suffocation.
CHEAP—
By using a little care in turning off lights when not in use it is cheaper than any other illuminant.

DULUTH SUNDAY CHURCH SERVICES

Dr. Cleland Will Give Statement of the Reformed Faith---Rev. R. A. Lundin to Preach Farewell Sermon.

At the First Presbyterian church, the pastor will preach morning and evening. Morning theme, "Opportunity and Responsibility." Evening theme, "A Living Faith;" when the brief statement of the reformed faith will be taken up. The music will be as follows:

MORNING.

Organ—"Adigo Cantabile," from sonata in A.....Edward Hopkins
Quartet—"Christian the Morn Breaks Sweetly O'er Thee" ..... Shelly
Response—"From the Recesses of a Lowly Spirit" .....E. W. Hunscom
Baritone solo—"He Wipes the Tear from Every Eye" ..... Lee Phillp Gordon Brown.
Postlude—"Allegro" .....Edwin Flavel

EVENING.

Organ prelude .....Theodore Dubois
Anthem—"Savior When Night Involves the Skies" .....Harry Rowe Shelly
Offertory—"Melodie" ....Joseph Gallaerts
Solo .....
Paul Gilbert.

The choir will consist of: Soprano, Mrs. Mark Baldwin; alto, Miss Antoinette West; tenor, Paul Gilbert; bass, Philip Gordon Brown; organist, Mrs. Margaret McLean.

• • •

The sacrament of the Lord's supper will be commemorated at the Lakeside Presbyterian church at the usual hour for morning service. The pastor, Rev. H. B. Sutherland, administering. Installation of elder, and reception of members in connection with this service. The evening service at 7:30 p. m., will close the communion season; the subject being, "The Friend That Sticketh Closer Than a Brother." Sunday school at 12. Y. P. S. C. E., 6:45 p. m.

• • •

At the First Methodist Episcopal church, the pastor, Rev. Samuel P. Long, will preach. Morning subject, "Little Things;" evening subject, "The King." Sunday school at 12 m. Epworth league devotional meeting at 6:30 p. m. The musical programs will be as follows:

MORNING.

Organ prelude—"Communion" ....Batiste
Quartet—"Again the Day Returns"..
.....Hosmer
Mrs. Knebel, Mrs. Black, Messrs. Black and Brown.
Requested solo—"There's a Beautiful Land on High"....Mrs. A. H. Taylor
Justine Shannon-Black.
Mixed quartet—"O Jesus, Thou Art Standing" .....Sheppard
Postlude—"March of the Priests" .....Attilie

EVENING.

Organ prelude—Selected .....
Response—Lord's Prayer .....
Quartet—"Hear, O Lord" .....Watson
Offertory—"Communion in C" ....Batiste
Solo—"The Vesper Hour" .....Shelley
Horace Brown.
Quartet—"My Soul Longeth"..Marston
Postlude .....Wely
Organist, Mrs. J. N. McKindley; director, C. W. Weeks.

• • •

Services at the Glen Avon Presbyterian church tomorrow morning at 10:45 o'clock, "God's Servants of the Sheepcotes," is the subject of the sermon. Mrs. Winton will sing at this service. Sunday school at 12 m. The second service is at 7:45 p. m. "All Things to All Men" is the subject of the sermon. Rev. R. Ames Montgomery, pastor.

• • •

The First Unitarian church, Eighth avenue east and First street, Rev. Harry White, minister. Subject of sermon, "The Blessings of Humanity."

• • •

At St. Paul church tomorrow, services will be as follows: At 8 a. m., holy communion; 10 a. m., morning prayer and sermon; 7:30 p. m., choral evensong and sermon. The music will be as follows:

MORNING.

Processional—"The Son of God Goes Forth to War".....Anon
Chanted—"Venite" .....
"Te Deum" .....Clemmens
Chanted—"Benedictus" .....
Soprano solo—"Dear Lord, Remember Me" .....Boott
Mrs. A. F. M. Custance.
Hymn—"Glorious Things of Thee Are Spoken," .....Austria"
Anthem—"O Clap Your Hands Ye All the People" .....J. L. Hopkins
Recessional—"O Heavenly Jerusalem" .....Anon

EVENING.

Processional—"The Son of God Goes Forth to War".....Anon
Chanted—"Psalter" .....
Chanted—"Canticles" .....
Hymn—"Jesus, the Very Thought of Thee" ..... A. H. Brown
Anthem—"Give Peace in Our Time"..
.....Hatton
Solo, Miss Rena Smith.
Orison—"The Day is Past and Gone"..
.....Schiman
Recessional—"O Heavenly Jerusalem"
.....Anon

A. F. M. Custance, organist and choirmaster.

• • •

Service at the First Christian church tomorrow morning will be at 10:45. The pastor, C. R. Sine, will give a report of the state convention held June 18-20, at Mankato. Sunday school at 12 m. Christian Endeavor, 7 p. m. Evening services at 8 p. m., subject, "The Prince of Peace."

• • •

At the Lake avenue Bethel T. S. Thompson will speak at 10 a. m. and 7:45 p. m. Mrs. Asher and Miss Frances McGiffert will sing. Sunday school at 3 p. m. Y. P. S. C. E. meets at 6:45 p. m. Orchestra under the direction of C. A. Gregory, at 7:30 p. m. Rev. Alex Milne, pastor of the First Congregational church, will speak Monday evening.

• • •

At the Branch Bethel, 508 West Superior street, there will be Sunday school at 3 p. m., L. A. Marvin, superintendent. Evening service at 7:45, conducted by Mr. Asher. Mrs. Asher will sing. Gospel meeting every night.

• • •

At Pilgrim Congregational church, Rev. Alexander Milne will preach. Morning subject: "The Virtue of Moderation." Evening: "Character the Supreme Possession."

• • •

Tomorrow in Grace M. E. church, Rev. H. W. Knowles will preach on "God's Will, Our Greatness and the Little Ones." Prelude, an illustrated review of Children's day. In the evening he will preach on "The Skeptic's Censor and Coal Miners' Hope, or a Modern Instance of the Foolishness of Wisdom and the Wisdom of Foolishness."

• • •

During the absence of Rev. L. J. Belen, the rector, Bishop Morison will conduct services at St. Luke's Episcopal church, on Nineteenth avenue west.

• • •

At the Endion M. E. church there will be no services tomorrow morning. In the evening Children's day exercises will be conducted by the Sunday school.

• • •

At the Second Presbyterian church, 1515 West Superior street, there will be morning service at 10:30 a. m. Subject: "Christian Zeal." Foresters' service at 3 p. m. Subject: "Lending a Helping Hand." Evening service at 8 p. m. Subject "Why Say Die." Rev. A. C. Mauson, pastor. The choir will sing "As the Heart Pointeth," "Nearer My God to Thee," "Savior Who Died for Men." Sunday school at 12 m. Y. P. S. C. E. at 7 p. m.

• • •

At St. Peter's chapel, 1932 Michigan street and Twentieth avenue west, Swedish service will be held by the Rev. Th. S. Tottermann at 8 o'clock p. m. Rev. L. Rietz will give an address about the last Swedish conference in St. Paul.

• • •

At the First Swedish Baptist church, Nineteenth avenue west and First street, the services will be at 10:30 a. m. and 7:30 p. m. Rev. K. A. Lundin, the pastor, who is shortly to leave for his new field in Iron Mountain, Mich., will preach his farewell sermon in the evening. Sunday school at 12. Baptism at close of evening service. Prayer meeting Thursday evening.

• • •

The regular services will be held at Zion Norwegian Lutheran church at 10:30 a. m. and 7:30 p. m. Sunday school at 9 o'clock a. m. Hans Holman will officiate at both services.

• • •

At the First Swedish M. E. church the services will be held morning and evening as usual at 10:30 and 7:30. Sunday school at 12. Rev. John A. Anderson, the pastor, will preach at both services.

• • •

At Bethesda Norwegian Lutheran church, Ninth avenue east and Sixth street, services tomorrow morning will be at 10:30 and in the evening at 7:45. The services will be conducted by Candidate Oscar Johnson from Sacred Heart, Minn. Norwegian Sunday school at 12:10. Rev. I. G. Aschim, pastor.

• • •

Sunday services at Hope church of the Evangelical association, corner Fifth street and Sixth avenue east, will be as follows: Sunday school at 10 a. m., C. L. Rakowsky, superintendent. Preaching by the pastor at 11 a. m., junior meeting at 2:30 p. m., young people's meeting at 7:15 p. m. At this meeting C. L. Rakowsky will give his convention report. Preaching at 8 p. m. Rev. L. S. Stapf, pastor.

• • •

At the First Norwegian Lutheran church there will be the regular service at 10:30 a. m. by C. Hvaal. English and Norwegian Sunday school at 9 o'clock. In the evening Student Hartman will conduct the services in English at the regular hour.

BLASTS FROM RAM'S HORN.

To impart happiness is to increase it.

Opposition often furnishes inspiration.

No evil can harm us as long as we hate it.

Long praying cannot piece out short living.

Self denial is the thermometer of true charity.

Conscience has a greater commercial value than cash.

Chaff and stray always stack up higher than grain.

To recede from a wrong position is really to advance.

It takes a great heart to be grateful for little things.

We may find our greatest profit in our lost prayers.

Godliness cannot be measured by a lack of manliness.

Pessimism comes from looking out without looking up.

Heaven blushes for the man who blushes for his religion.

The loss of money has often meant the finding of manhood.

We get no blessing from public worship unless we have sought it in private prayer.

SECULAR SHOTS AT PULPIT

Brooklyn Eagle: Every baby born in a Presbyterian home, since the revision of the creed, has developed a special chuckle.

Baltimore American: Elijah Dowie may yet make his religion unpopular. He decrees that husbands must arise first and make the fires. Unless this is merely a summer rule, there will be a failing off in the ranks of the Dowieites before Christmas.

Philadelphia Press: Bishop Burgess of Long Island advised the Columbia collegians to whom he preached on Sunday to do away with the mercenary side of athletics. "Away with the gate money!" he cried. This is all very well, but without gate money how are the necessary and legitimate expenses of even amateur athletics to be met?

Minneapolis Times: One of the leading ministers has found a text in the fact—or allegation—that more poodle dogs than babies are taken out in carriages for an evening airing. The statement is important if true, but not altogether alarming. The offspring of people who prefer poodles to babies might not be particularly desirable additions to the population if there is anything in heredity.

Saturday Evening Post: A New York clergyman is fighting a suit for $5000 brought by the parents of a boy who, while acting as caddie, was hit in the eye by a golf ball and blinded for life. The defense is that it was an accident and that the clergyman had paid the medical expenses. The golf casualties last year were many and included one or two fatal cases. Unless better care is exercised the game will soon be ranked with that of football as a contributor to the hospitals. Yet, despite accidents and ping-pong, golf holds its own.

IN COPPER DISTRICT

Estimates as to Production and Consumption Are Contradictory.

Situation In the Metal Market Is Now Nearly Normal.

The Future Price of Copper Depends on Many Factors.

Houghton, Mich., June 21.—(Special to The Herald.)—The news and estimates coming from various sources regarding copper production, consumption and prospects, is of the most contradictory nature. One set of economists maintains that production is far ahead of demand, and that large reserves are accumulating, though it is not pointed out just where these reserves are accumulating, though it is not pointed out just where these reserves are stored. The other party maintains that the visible supply of metal is rapidly decreasing, and that a copper famine is liable to set in at any time. It is to be noted that these extremists are, as a rule, interested in copper or copper shares, speculatively, the bulls believing copper is scarce, while the bears are confident that copper is soon to become a drug in the market.

While the copper situation is not altogether clear, and there are some features of a peculiar, not to say suspicious nature, it may be said in a general way that the present situation in the metal market is more nearly normal than at any time for the past two years. The immense reserves accumulated by the United Metals Selling company have been greatly reduced. The copper that was accumulated at Perth Amboy, Baltimore and at various lake and Western points by the Trust company, six to nine months ago, has been scattered through many American factories and abroad. It is questioned whether the large stocks of copper sent abroad have actually entered into consumption, or were shipped for speculative purposes, and hang over the market as a menace. There are very positive assertions, from sources usually well-informed, that the foreign shipments of copper have entered into consumption, while on the other hand it is pointed out that the increase in consumption indicated by foreign shipments is abnormal and altogether improbable. To a certain extent both assertions are true, and the apparent discrepancy in the statements is correlated by another factor that has not been made as prominent as its importance deserves. Beginning in 1898, when copper first reached a high price, consumers, both abroad and in the United States, curtailed stocks and followed a policy of hand-to-mouth buying, in the hope of a drop in prices in the near future. When the evidences of accumulating stocks of the sales agencies became numerous, in the summer and fall of last year, wise consumers still further restricted purchases, and literally bought for a few days only, at a time. This policy threw stocks into the hands of manufacturers to the lowest proportions ever known, and further added to the unwieldy surplus carried by producing interests. When the price of copper was cut, by successive and rapid gradations, to 11 cents, manufacturers began accumulating considerable stocks. Some bought earlier than others, but practically all have bought in sufficient quantities to permit the carrying of a good working surplus of the metal. In certain lines of copper, notably in wire-bars of lake copper, stocks on hand are comparatively small, and the demand brisk.

Summed up, the metal situation may be said to be as follows: The stock carried by producers is much smaller than one year ago, and are now sufficiently large to protect the manufacturers from any sudden twist in the market. This condition of affairs, by which the unused supply of copper is carried jointly by consumers and producers, is a guarantee of stability. It is not to be inferred from this statement that the price of the metal cannot or will not fluctuate, for such fluctuations are always occurring in a normal market for any commodity, but violent and sudden changes are prevented, so long as manipulative influences are not taking part in the making of prices. By reason of each party having considerable copper on hand, neither can take any unfair advantage of the other, and the surplus now carried by producers is not so large that they must sell at any figure obtainable in order to realize cash for imperative expenses.

There have been many estimates prepared, by various authorities, on copper costs, profits and probable prices for the future. These tables, as might be anticipated, vary greatly, according to personal bias and the extent, or lack, of exact information possessed by the estimator. It should be borne in mind, however, that the cost of making copper has largely increased within the past few years, in the United States, Canada and Mexico, while there have been increases, not so great, but quite marked, in the case of the copper mines of other countries. The actual cost of production averages probably 2 cents per pound greater than six years ago, and this factor must be kept in mind in the preparation of tables of costs. In the case of the mines of the United States, 11 cents per pound early this year was really lower, measured by costs of making, than 9 cents per pound in 1894.

The future price of copper depends upon such a great number of factors that predictions are ultra-hazardous. Should all the mines tha hope to make cheap copper carry out their promises the metal would fail to lower market quotations than ever before known, but the majority of the new mines will not be able to do what is claimed for them. There are many misleading articles on copper costs appearing in the daily and financial press, and these erros are frequently found in technical publications that should be better supplied with information. The United Verde mine in Arizona is "written up" nearly every day in the year, and perhaps once a month the truth is told about the property. This mine is not the personal property of Senator Clark, of Montana, as usually stated, though it is controlled by him. It does not pay him, or anyone, a million dollars monthly in profits, as so frequently claimed. The gold and silver values do not leave the copper as a by-product, made without cost, and nobody has ever refused five hundred millions of dollars for the mine, as is set forth in a hoary-headed fiction still going the rounds of the press.

There are mines in Utah, producing copper, silver and gold, that can make copper for four to six cents per pound, counting gold and silver as by-products and deducting their values from cost of making copper. These mines, while of importance, are relatively small, and their costs cannot greatly affect the general average. The Boston & Montana and Anaconda mines, of Butte, derive large silver values from their ores, and sundry other American mines benefit greatly by gold and silver secured as by-products. It may be safely said, however, that there are no American mines that secure copper as a by-product, without cost, in cases where the copper production is of sufficient size to entitle the mine to rank among properties of the first, second or thrid class, measured by annual production.

A price 13 to 14 cents per pound will enable all of the leading copper producers of the United States to run at a profit. Some of the mines now producing cannot make copper at such figures, and many of the developing mines will find themselves unable to earn profits unless higher prices can be secured. There are probably enough mines, however, capable of paying their way with copper at 13 to 14 cents, to supply the normal requirements of the market.

The stmulus of high prices is reflected very plainly in the figures of production of 1901. Norway, Japan and South Africa are the only countries producing copper to the extent of 1,000 tons or more in 1900 that did not increase their outputs in 1901. Canada led the world, in actual and relative increase, and was followed by Australasia. Chile coming third with an increase of 5,000 tons. Among the new producers for 1902 and 1903 will be Argentina and Venezuela.

HORACE J. STEVENS.

Cuts, Bruises and Burns Quickly Healed.

Chamberlain's Pain Balm is an antiseptic liniment, and when applied to cuts, bruises and burns, causes them to heal without maturation and much more quickly than by the usual treatment. For sale at Boyce's drug store.

There is a pretty irl in an Alpine hat.
A sweeter girl in a sailor brim,
But the handsomest girl you'll ever see,
Is the sensible girl who uses Rocky Mountain Tea.
Ask your druggist.

Murder In Cold Blood

Story of the Bringing of First Shot Gun Among Indians Near Lake Superior.

"I will tell you the story of how the first shotgun was brought to Lake Superior, as it was told in my presence by old Chief Muskwa (Bear) one night years ago in a tepee near Grand Portage on the north shore," said an old timer to The Herald.

"We were out on an exploring trip when we ran across Muskwa's band. Among the Indians was a big half-breed called Joe Piskwe. He was a native born grafter and when he found that he could not beg, borrow or steel our tobacco and whisky, he proceeded to bargain for a little. We were all tenderfeet and had the usual curiosity of this species of human beings as to the legends and doings of the Indians, so we arranged with Big Joe to have a seance that night in Muskwa's wigwam.

"The scene was really impressive and not untinged with romance. On one side of the fire sat the aged chief on a pile of bear skins and blankets. Around him were seated the sub-chiefs and warriors and facing him the young men and boys of the tribe. The squaws, girls and dogs rustled for themselves outside the tepee, they not being considered worthy of being instructed in the traditions of the tribe. Piskwe acted as interpreter and the seance lasted until the early dawn.

"The old chief himself, over 100 years of age, began to speak in short slow sentences. 'Many years ago,' he said, 'when my grandfather was a young brave the Blackrobes came to visit the Chippewas of he big lake. With them were many voyageurs and they had guns and much tackle to take fish. The Blackrobes would not allow a gun to be taken from its case, telling us that their mission was peace, not war. We were curious about the guns, but we held our tongues. Some of the voyageurs could speak our tongue and they told us of the great trading post far beyond the rapids at the end of the great sea water (probably Mackinac island), where the Indians could buy guns, cloth, beads and other wonderful things, if they had furs of the mink, beaver and other animals found in great plenty. After some days the Blackrobes left us, and went off down the lake.

"'It was the end of the summer. A great council was called near this spot and long consultations were held and it was finally decided to send two great canoes to visit the trading post described by the white men. All that winter the Chippewas hunted and trapped for fur as they never had before and in the spring great packs of pelts lay in the head chief's wigwam. Two grent war canoes were built by the squaws and a band of picked men was sent away to find the traders.

"'My grandfather was a great hunter and he went along with heavy packs of beaver skins that he had got during the winter. Late in the fall the canoes returned and they brought with them many wonderful things from the traders, but only one gun. No more could be obtained, and only about twenty charges of powder and ball could be bought. To procure this gun beaver skins had to be piled up alongside it on one side until the pile was of equal height with the muzzle of the gun when rested with its butt end on the floor, and mink, fisher, marten and other skins had to be similarly piled upon the other side. My grandfather had enough peltry to do this, and he it was who obtained the much-coveted gun.

"'The Indians then held a great dance and feast, and the proud owner of the gun demonstrated how it was loaded and fired off. As the powder flashed amid the smoke and roar of the discharge, the Indians fell on their faces trembling with fear, but, seeing that no harm followed the alarming explosion, they were clamorous for a further demonstration as to the use of the piece for destroying their relentless foes, the Sioux.

"'The gun was loaded this time with a bullet and then a target was sought for.

"'Away near the shore of the lake sat an old squaw upon a rock. She was so old that she had no relations or friends left. She was nearly blind, and had lost all her teeth, and during the coming winter she must have been left upon the trail to die. So it was decided by the chiefs that the gun should be tried upon her. Silently my grandfather crept up behind the old woman and, when about twelve paces, he fired the charge into her back. She fell off the rock, kicked once or twice and then lay dead. Thus were the people shown the power of the bostingnagen, or thunder stick of the white man, and greatly did they marvel and fear it.

"'During the relation of the story of the butchery of the old squaw not a sign of disapproval was visible upon the stolid faces of old Muskwa's aboriginal hearers. The old chief himself seemed rather to enjoy the recital, as he was silent for a few moments, displaying his toothless gums in a ghastly grin. Big Joe was visibly delighted with the story, and evidently enjoyed the distinction of being the one to convey the tale of the heartless deed to the white visitors. Piskwe himself was afterwards killed by a white man, named Jim Ruttle, after a desperate fight on Mayhew's dock, at Grand Marais. Ruttle stood his trial for murder before Judge Stearns, in this county, and was sent to Stillwater, but was subsequently pardoned. He also is now dead.

"When Mnskwa had finished his tale, he remarked that he was weary and, rolling over on his blanket, dropped into slumber. The seance then closed, and whites and Indians filed out of the tepee. It was a wierd experience and one not easily to be described."

{ Free Ride on de Newsboy Lemonade, Oranges Water Melons }

Here's De Orders Fer De 5th Annual

Evening Herald Newsboys' Picnic!

To be held at Chamber's Grove, Fond du Lac, Wednesday, June 25th, 1902.

Each boy must bring his own lunch, with his name plainly written on same. Meet at Herald Circulating Room on Michigan Street, at 7:30 a. m. Here you will receive your tickets, receive your instructions for the day, and form in line for the march to the boat. No boy will be allowed to go who don't have his name down and form in line.

Steamer Newsboy

All will march to the Newsboy dock at foot of 5th ave. West, and take the boat. Boat leaves at 8 sharp, and will return at 3:30 p. m. **Der will be FREE lemonade, peanuts, oranges, watermelons, and a free ride on de Steamer Newsboy.** Come prepared for a good time, and, above all **OBEY ORDERS,** and when de whistle blows, **HIKE FER DE BOAT.**

{ SWIMMING BASE BALL GAMES RACES }

IN LABOR CIRCLES

Team Drivers' Union Starts With Most Flattering Prospects.

Nearly Three Hundred Members and Hundred More Expected.

Trades' Assembly to Elect Officers Next Friday Evening.

Scheduled labor meetings:

Building Trades' council, Monday, 21 West Superior street.

Plasterers' union meets Monday, 18 West Superior street.

Carpenters' union meets Tuesday, 18 West Superior street.

Meat Cutters' union meets Tuesday, 18 West Superior street.

Cooks and Waiters meeting Tuesday, 18 West Superior street.

Sheet Metal workers on Tuesday, 18 West Superior street.

Team Drivers' union, on Wednesday, 31 West Superior street.

Electrical workers meets Thursday at 31 West Superior street.

Plumbers' union meets Thursday at 18 West Superior street.

Building Laborers' union, Thursday, 18 West Superior street.

Painters and Decorators, Friday, 18 West Superior street.

Federated Trades assembly, Friday, 18 West Superior street.

Leather Workers' union, on Friday, 18 West Superior street.

• • •

The recently organized Team Drivers' union promises to be one of the most prosperous labor organizations in Duluth.

Two hundred and ninety-five members have been initiated and more than a hundred additional applications are in sight.

The members seem thoroughly enthusiastic in the work that is before them and within a year great things are predicted for this union.

The meetings are held every Wednesday evening in the lodge rooms of the marine engineers, at 31 West Superior street. Applications from all team drivers are given the most careful consideration.

Archie Cameron has the honor to occupy the president's chair in this promising union. A. Young is vice president; D. A. McRay, treasurer; John Murphy, recording secretary, and Joseph Harrie, corresponding secretary.

The trustees are: P. J. Rock, I. Vesterfelt and M. Dolan. O. E. Cole is conductor of the union and McCairtany, warden.

• • •

At the meeting of the Trades assembly next Friday night the semi-annual election of officers will occur. Considerable interest is being manifested. It promises to be a lively meeting and will undoubtedly be well attended.

• • •

The wagon owners of Duluth with a union membership of 125, are out with their first scale of wages since organizing. This scale calls for an advance of $1 a day for teams. The demand goes in effect next Monday and the request will probably be granted.

• • •

The striking linemen of the Zenith City Telephone company are back at work. They went out on account of the new foreman who was hired while not in good standing with the New Orleans union. The foreman has settled the New Orleans affair and that was all that was asked by the local men.

• • •

George A. Harvey, chairman of the Minnesota State Federation council during the past year, is under arrest in Minneapolis in connection with the Ames' administration bribery cases. Duluth men that know Harvey are watching the case with keen interest.

• • •

President Gordon O'Neil and Secretary Gauthier, of the local Longshoremen's union, will attend the international convention of longshoremen in Chicago next month.

LABOR NOTES.

Toledo butchers will organize.

Toledo street cleaners will organize.

Western Union operators are organizing.

Toronto street railway employes are talking strike.

Lynn, Mass., wood working machinists are on strike.

Pittsburg iron moulders who asked for 10 per cent increase accepted 6 2-3 per cent.

The National Brotherhood of Potters asks 20 per cent advance among other demands.

San Francisco beer drivers want an advance of $2 per week, beginning July 12.

The Santa Fe railroad refused to raise the boilermakers' wages and a strike is on.

Toledo moulders strike may be arjusted shortly. Recognition of the unions is the stumbling block.

The five hundred union linement at Pittsburg are about to call off the strike that has crippled the telephone service since March 1.

Harry Carlton May, of Covington, aged 24 years, has been appointed master mechanic for the Big Four Railroad company at Louisville.

Efforts will be made by the State Federation of Labor of Wisconsin to adjust the differences in the ranks of organized labor in Milwaukee.

One of the strongest organized national bodies of labor in the United States is the Brotherhood of Carpenters and Joiners. Its annual convention will be held in Atlanta next September.

Street car men in Oakland, San Jose, Los Angeles, Sacramento and other cities of California have secured an increase in wages on the San Francisco scale of wages as a result of the successful

The Civic Federation is attempting in a new way to settle the great coal strike. It has failed to get any concessions from the operators, and now is trying to reach the principal stockholders in the mines affected.

Beginning July 1, the employes of the Pittsburg Plate Glass company works at Creighton and the Allegheny Plate Glass Works at Hite Station will get a vacation of one month. All the combine plate glass works of the country have agreed on this shut-down on account of having too large stocks.

The fires in the plants of the Independent Window Glass company will be extended to June 30. The action of the men also approved the starting of the fires in all factories Sept. 1. This is a decided victory for the Independent company in its fight against the American Window Glass company for a greater output and lower prices.

The International Association of Machinists has issued a circular which shows that during 1901 60,000 men gained a 9-hour day, 75,000 machinists secured an increase in wages averaging 10 per cent, amounting to $18,700 a day; the introduction of piece work was prevented in 214 shops; the introduction of the two-machine system was prevented in 245 shops, and $170,000 was paid out in strike benefits.

Trouble growing out of disputes between labor unions over the question of jurisdiction has become so frequent and serious that the Chicago Federation of Labor took steps to prevent it in the future. A resolution offered by Organizer John J. Fitzpatrick was adopted, calling on each of the 201 affiliated unions to select one representative to act as a committee to settle questions of trade jurisdiction.

The Central Labor Union of Boston has marked for political oblivion certain members of the Massachusetts legislature who voted against the picketing bill. The organization threatens concerted political action throughout the state under the motto "Trades Unionism First and Partisanship Afterwards." Unless the temper of the labor leaders is greatly modified before autumn, there will be a scalping bee of Massachusetts politicians in November.

allth a eU efrom cmfwy vbqkqj xzfiitta

Men from all sections of the Union who believe in the ideals of co-operation will gather in Lewiston, Me., to attend the National Co-Operative conference to be held there on June 20-24 inclusive. This conference is to be held under the auspices of the Co-Workers' Fraternity of Boston, and the Co-operative Association of America, Lewiston. Its object is to devise some method by which all may unite in paving the way for the co-operative commonwealth.

Superintendent George C. Jones of the middle division of the Grand Trunk railway, issued instructions today to the different yard bosses to raise the wages of their men 10 cents, a day. This order was issued by Mr. Jones unsolicited by the men and means that foremen receiving $2.10 will receive $2.20 and yardmen receiving $1.60 and $1.70 will receive $1.70. This will bring the wages of the yardmen up to the highest standard paid in the United States. The raise will also mean a uniform scale at all the principal points east of the St. Clair river.

Walter Vrooman of the Western co-operative movement has closed contracts for the purchase of six of the largest wheat elevators in the wheat belt in Kansas and two of the largest flouring mills. he purchase is but the beginning of a movement to center the farmers of Kansas in a co-operative branch of the Vrooman Co-operative company, to be known as the Wheat and Flour Western Co-operative company, the object of which will be to control the entire wheat output of Kansas. Walter Vrooman said that $750,000 is to be paid for the elevators and mills already contracted for and that these contracts are but the first of several.

The great strike of the Amalgamated Painters and Decorators in Manhattan, including 6000 mechanics, is expected to extend to Brooklyn. The allied building trades of Manhattan and Brooklyn are pledged to support the painters' organization and as a result nearly 60,000 union building trades mechanics in Manhattan and Bronx and about half that number in Brooklyn are liable to be called out on sympathy strikes. he commencement of the trouble was a demand made by the Amalgamated Painters' and Decorators' on March 10 for these wage scales to commence on Aug. 1 next: For plain painting, not less than $4 a day; decorating, including guilding, not less than $4.50 per day ,eight hours to constitute a day's work on all week days except Saturday, when four hours shall be worked.

Because of the refusal of the brewers of Cincinnati, to give employment to all of the 375 old men who are still out from the February strike, the United Brewery Workers have decided to renew the fight efforts at boycott.

The striking machinists of the Allis Chalmers company at Chicago returned to work last week. They gained about 4 per cent increase in wages over the amount offered by the company before the strike was inaugurated. Under the terms of the settlement the men will work ten hours except Saturday, when they work five hours, making a 55-hour week. The union has paid out $55,000 in strike benefits, suffering has been endured, and human life sacrificed. The company has returned to a 10-hour day, but this condition is likely to be temporary, as there is no doubt the men will again demand nine hours in the near future, and are likely to secure it without resorting to another strike.

NEW KING.

Ministry Proclaims Prince George Ruler of Saxony.

Dresden, Saxony, June 21.—The bells were tolled today in memory of King Albert, who died Thursday at the castle of Sibillenort, and Dresden was hung in black. The body of the late king will be brought here this evening at 9 o'clock. It will be placed in the court church and remain there until the interment, which will take place next Monday evening at 9 o'clock in the crypt of the church. In the meantime the body of his majesty will lie in state for public view.

Emperor William and a large number of the German princes will attend the funeral. It is possible that the emperor of Austria, Francis Joseph, who was a great friend of King Albert, will also attend this ceremony.

The Saxony ministry has proclaimed Prince George, brother of the late king, king of Saxony. Prince George has taken the oath of allegiance.

BRIEF TELEGRAMS.

D. M. Strong, a prominent attorney of North Bend, Neb., died Friday of injuries received by being struck by a train. Mr. Strong was returning from the Lincoln Republican state convention and fell from the car platform of a moving train.

Charles D. Warner, son of Maj. William Warner, United States district attorney, and past grand commander, G. A. R., was found dead in a rooming house at Kansas City Friday afternoon. On the dresser were three empty bottles that had contained morphine. Warner was 24 years old. He leaves a widow and one child. He had been studying medicine.

The Houghton county Republican convention by unanimous vote instructed the twenty-two delegates to the state convention to vote for the renomination of Governor Bliss.

A miniature tornado Friday afternoon tore the roof from the La Crosse Knitting company's building. The walls were also shattered.

A telegram received at Wanatah, Ind., tells of the drowning of Nelson N. Reynolds, of La Porte, his wife and three children. A bridge on which they were crossing was swept into a raging stream.

Nels Anderson, Jr., the youth who was kidnaped Sunday night, returned to his home at Brigham, Utah, Friday, in an almost fainting condition, having eaten nothing during that time. Young Anderson says he was held up by three masked men and imprisoned in the mountains east of Brigham from which he escaped.

Thomas Haggerty, Bernard Rice and eight or ten other organizers and discharged miners were arrested at a miners' mass meeting at Clarksburg, W. Va., yesterday afternoon for violating Judge Jackson's injunction. "Mother" Jones, the labor organizer, spoke for some time, but was not molested. A hearing will be given those arrested later.

CREATIONS FROM PARIS

Bright Schemes of Coloring For the Autumn Millinery Models.

Advance Information On Fall and Winter Headwear—The "Tartan Combination"—Poppy Tints Favored—Burnt Straw Shades.

New York, June 21.—The Paris letter of the Millinery Trade Review says: Many of the new creations prepared for the midsummer and holiday seasons contain valuable hints for the future, more especially as regards colors and trimmings. From what is being done now it is patent that color will be the chief preoccupation of Paris milliners and constitute the principal novelty of their autumn models. Undoubtedly they are prepared to advocate bright schemes of coloring, and even daring flights in the way of contrasts. These will not only be managed by the combination of materials, but also in the combination of the trimmings themselves: Textiles woven of two or more colors and plumage exhibiting a contrast of tones.

A certain proportion of the hats brought out within the last few weeks would certainly, so far as color is concerned, be better suited to the fall than to the present season. It is early in the year for wings and birds to be placed in the first rank for decoration, and for the choice in ostrich to be chiefly in black and dark colors rather than white, and it is quite unusual to find dark blue and metallic shades of green to the fore before midsummer. The use of these two colors in combination strikes the keynote of the situation.

The recent productions in which green and blue are mingled show a decided improvement on those of an earlier date. Moreover, our eyes are getting accustomed to the combination, so that what promised at first to be but a passing fancy has every chance of being maintained in fashion next season. Moreover, milliners are not confining themselves absolutely to the green and blue, but are introducing a small amount of some other color, such as a slight amount of black or white, or little touches of red and yellow. Thus modified, it will be known as the "tartan combination." Such an effect, with nothing of the plaid about it, other than the color, is carried out by one of the first milliners in the Rue de la Paix as follows: The shape is built up of very dark blue straw braids, the under side of the brim faced with Empire green rice straw. Round the base of the brim is a band of blue velvet of the same shade as the straw. For the rest the trimming consists of one long amazon plume, fastened in front and sweeping round the right side to the back. This feather is very slightly curled, and it is chiefly dark blue, but strands of Empire green and scarlet appear here and there at its edges and points.

Another model, on the contrary, is made of plaid straw; that is to say, the foundation is a plaiting of equal parts of blue and green, interwoven with narrow bands of yellow. A fold of Empire green velvet encircles the crown, and is tied in a cravat bow in front and fastened by two handsome jet pins. Against the brim, which is tied up high on the left side, is fastened amazon shades of from dark blue to green.

A third hat, of the amazon shape, is built up of green chip braids, the brim, turned up at both sides, being faced with blue rice. At the back, where it shelves down in the neck, is a large bow of white taffeta ribbon glace green and blue, with a large cabochon of white pearls in the center. In front of the crown are fastened two wings, some of the feathers of which are bright green, others blue, a second pearl cabochon being fastened between.

Very bright poppy tints are also favored, most particularly for sailors and tartan hats, when the trimming and straw are of uniform tone. A few very smart hats, however, are built up in a combination of poppy and white. Here is a very fetching example: It is of plateau shape, with a low wide crown added on, an arrangement that has lately been put into practice by the straw manufacturers, and it meets with the approval of the trade as it allows of much variety in the relative shapes of foundation and crown. The crown, in this case, is in pure white chip, as also is the plateau to within two inches of its edge, where two rows of broad popy colored braids finish it off. There is no trimming outside, but underneath the brim, which is only slightly raised on the left side, is placed a long poppy colored amazon plume, the tip of which curls down into the nape of the neck behind. When worn, this hat would be enveloped in a red tulle veil with small red spots.

Veils are now often chosen en suite with the hat. For combinations of blue and green, either blue or green veils are chosen, and for white hats, or quite light hats, including a little black in their composition, white tulle veils with black spots, and so on. They are also put on rather differently than they were. The veil curls well over the brim and is not brought down further than the tip of the nose.

The combination of green and white maintains its vogue, greater prominence being generally given to the former. Thus, a plateau of foliage green fancy straw is trimmed sufficiently by a pair of wings, in which a little white is mingled with the green. These wings are laid almost flat on the hat. This way of arranging wings is much in vogue. A pair of shaded blue wings looks well on a plateau of any sort of fancy ecru straw. One made up of wide fancy yellow Tuscan braids, having a tiny little pointed crown sewn in the center, is trimmed in this way; a knot of blue velvet placed under the brim behind the left ear.

Even in the regular Summerish-looking hats one notes a more decided inclination toward color than usual. This is frequently provided by the straw, but combinations of color are also advocated in the trimmings, which may exhibit pompadour harmonies rather of a deeper dye, not excepting some of a rather crude character.

The straws most in demand at present are deep ecru and yellow, burnt straw color, bright dark blue, Empire green and poppy red tints. Pure white is also in request, especially in fancy chip, and also black rice. The great novelty of the season, the tinted leghorn and fine plait Tuscan straws, mostly assume burnt straw shades and rather deep pastel shades of rose, blue, Nile and green. As these straws are without glaze the color is always of a dark cast. In many of the burnt straw shades the effect obtained is that of a straw shape that would have been exposed to the sun and shower for a succession of seasons. This sounds odd, but the result is by no means unsatisfactory when suitably trimmed. They are aptly described as "old straws."

From among the noteworthy models of this description I pick out the following: A deep, dull, yellow Leghorn, bent down front and back and curved up at the sides. Outside, the trimming consists merely of rather wide, dark blue velvet ribbon, bunched round the low crown and tied at the back in a bow with long loops and still longer ends. Underneath the brim on both sides are clusters of blue cornflowers spread out rather flat.

A new Tuscan hat of the same color with the brim turned up at the side has a fan of dark violet-blue velvet round the crown, while the brim is bound with a broad band of reddish-violet velvet. Under the brim is a bunch of purple grapes set amidst pale-green rose foliage, from whence starts a garland of the leaves fastened further back, to the brim, by a second smaller bunch of the fruit.

Another is trimmed outside with broad ribbon flowered with roses on a white taffeta ground, fastened in front, carried back over the crown and the back, where it is knotted in a big butterfly bow. Under the brim, on the left, is a large cluster of blush and pink roses. A fourth hat of pinkish-brown color has a brilliant plumaged bird-of-paradise poised on the right side of the brim, its tail sweeping down the back. The whole of the brim, including the bird, are enveloped in a cloud of tulle.

All these hats have very wide brims and low crowns. Such capeline and bergere shapes obtain most for quite dressy occasions. Still some very smart hats are of medium size. One of these, turned up on one side, is in burnt straw bordered with a pure white braid. The trimming outside consists of a band of black velvet and a bow at the back, but against the under side of the brim a black amazon of medium size is laid in a half moon, the interval over the ear being filled up with a bunch of pink apple blossoms.

Another hat in coarse pale blue straw has the low crown covered with pink roses and the brim with fresh green ivy. The back of the brim is turned up and attached to the edge of the crown by a bow made of several pieces of black velvet ribbon, the ends falling one over the other down the back. One oval chaste gold buckle secures the loops together. A hat of the amazon shape made of fancy Tuscan has a band of black velvet round the crown, arranged in a bow at the back. In front are two large balls of fancy straw, mounted on pins and against the brim above, and behind the ear is a huge cluster of blush roses.

The great use made of black and colored velvet in the trimming of summer hats is a decided feature of the season. Strange to say, gossamers, so fashionable throughout the spring, appear but incidentally in the newest creations. The reader will also have noticed, from all the models described above, that the floral cachepeigne is conspicuously absent. The fact is, it is rapidly going out of fashion, and the drooping knot of velvet, the bow butterfly bow of ribbon and other arrangements are taking its place. One of the latest ideas is to group the principal part of the trimming, when not the whole of it, at the back. A hat of moderate size, made of black crinoline braids, with a blocked crown of medium height, has a row of small white roses encircling the base and top of the crown, while the rest of the trimming is at the back, where the brim shelves down into the nape of the neck. This trimming consists of a pouf and coquille of black chantilly lace and an aigrette of white osprey.

Among the current shapes much worn at present is one, the front and sides of which resemble the amazon, only the turned-up brim continues to widen toward the back, where it boxes in the crown and back of the head. Some of the trimming is placed against the brim at the back, only it must lie quite flat. Different schemes of trimming for this portion are adopted. One consists of two tiny bunches of flowers, with foliage or knotted stalks forming a festoon between, another merely of close rosettes of satin ribbon, another again of straw cabochons joined by a festoon of fancy straw. I have also seen little bunches of cherries or berries tied short, and small wings sewn against the brim. However, not a few have the back quite plain, whereas the whole of the outside of the hat is covered with flowers and leaves, the former being generally placed on the top of the low crown and the latter on the brim.

For the holiday season many hats are made entirely of straw, with merely a bunch of flowers underneath. These sometimes have the brim on the right side, forming a double box pleat, while on the left it turns up plain. When this is the case, the hat may be made of white straw bordered with a burnt straw braid of fancy Tuscan and bordered with black velvet or colored ribbon. Besides roses, bunches of yellow and black daisies and bunches of fruit compose the trimming under the brim. Later in the summer a great deal will be done with fruits and berries. These are provided made up into bunches with leaves and in various degrees of ripeness, plumes running from pale green to purple, apples shaded from green to red, mingled together; small oranges, some pale yellow, others fully ripe,; nuts shaded from green to brown. To be reckoned among the more eccentric of the trimmings, floral and others, are bunches of field flowers, knotted up into a garland with reeds or long green grasses; big leaves made of grasses or the leaves of the iris; white and black arum lilies made of velvet and tied together by their leaves; posies of sweet pea flowers combined with green edible peas, some of the pods half open, aigrettes of osprey dyed in bands of different colors, such as bright blue and green, or yellow, orange and brown; foliage and fine grasses glittering with dewdrops, some pure white, others showing iridescent colorings, and cabochons made of clusters of pearls tinged with green, blue and other colors.

EMBROIDERED MADRAS SUIT.

This dainty summer gown is made in the newest shade of pink, with embroidery. The embroidery is used to finish the cuffs and elbow sleeves. The skirt continues the embroidered effect to the hips and also on the flounce. The stock is also of embroidery with wide velvet ribbon for the top and the belt is of ribbon velvet.

GOLF COSTUME.

This is the latest and most becoming suit for the athletic woman. The white hand-knit sweater is outlined in black embroidery. Small, crocheted black buttons are used for the front effect. The black collar, cuffs and belt are attached.

ULTRA EVENING GLOVE.

The new sleeves, being both short and voluminous, compel a return to the long laced or buttoned glove, either of which is popular. This twenty-button Trefounsse glove of white kid is the correct thing for evening wear.

COST OF DIVORCE

By Harriet Prescott Spofford

"It costs so much more to get a divorce than it does to get married," a man once complained. "But it is worth so much more," said his detestable friends.

When a thing is worth a great deal the implication is that it is costly, and there are few things more costly than divorce, when one reckons the price paid for it, and a part of the price paid for divorce is not a universal payment, for, in the lowering of the personal standard it is an absolute contribution toward the ruin of civilization.

One admits, in the beginning, that there are certain cases where divorce is not only righteous and inevitable, but where the opposite course would be something not to be forgiven, as where it is necessary for the salvation of children to separate them from the authority or example of an injurious parent. But these instances are so few that they hardly count in the multitude of suits brought for wrong and frivolous reasons, and for those which, with sufficient self-control and a moderate degree of virtue, would never exist.

In certain districts of Europe, when trouble between husband and wife grows to such dimension that it is no longer endurable, and although divorce is to be had only through special dispensation, and therefore usually not to be thought of, resource is had to the village priest for permission to live apart. The cure comes then and takes up his abode in the house; it may be for six months, it may be for a year, it may be for a shorter period than either. Of course, it is the desire of both parties to appear in the right before the reverend father, and immediately courtesy and graciousness and little acts of kindliness on both sides so abound that neither husband nor wife can find fresh complaint to prefer, while there appears to be no truth in the old complaints. Presently these good people begin to doubt their memories, the past evidence of their senses; they wonder if they have not been mistaken; they begin to condemn themselves and would do still more if each did not seem to have forgotten and forgiven. Soon it occurs to each of them that, after all, the other is a delightful person; and if they do not end by falling in love over again, they at any rate find life a pleasant thing thenceforth to live together, and the cure is dismissed as if he were, what he is, a messenger of the good God.

Is it not a pity that we have no such helpful custom; that there is no third party held in legitimate respect to come in and umpire the business for the malcontents of our place and time? Yet, if so much rancor and disgust, so much disposition to roam, so much childing, so much angry resentment, so much blameworthy self-indulgence, so much selfishness, can be kept in restraint by the presence of a third party, who is the counselor on both sides, why can it not be equally well restrained by the invisible third party of the consciousness of right?

If the husband remembered his vows, if the wife remembered that sharp words never won back love, if each remembered the need that children have of the good offices of both father and mother, and that God made it so, if both remembered all changes of the family relation, and the public misfortune and degradation as well; if each endeavored to take the other's point of view, to enter the other's individuality; if each remembered the dear and sweet things of the past; if each forgot for a little while self-love and wounded pride; if each understood something of the beauty of sacrifice and recognized that marriage is as truly a sacrament as it is a civil contract, God and the great mysteries of creation entering into it; if each acknowledged that to legalize it does not change the character of what is sin, even though it cease to be crime, then it would presently be found that the best to stand by one's guns and fight it out in the union.

DIVIDENDS

Declared By Gold Mining Companies In Cripple Creek District.

Colorado Springs, Colo., June 21.—The directors of the United Gold Mines company, the new $5,000,000 merger of the Woods Investment company, decided to make the dividend day of that company the fifth of each month. The directors met on the 16th and declared a dividend of 1 cent a share, amounting to approximately $40,000. It will be paid on July 5.

The directors of the Gold Coin Mining and Leasing company met on the 16th and and declared the usual monthly dividend of 3 cents per share upon the issued capital stock of 1,000,000 shares, making a disbursement of $30,000. The dividend will be paid the 25th of June, making the total dividends to date $1,120,000.

Almost the entire equipment for the El Paso mine on Beacon Hill has arrived at that property and is being rapidly installed. It is expected that the mine will be able to start up under a full head of steam by Sept. 1. When the various rich ore bodies which have been opened in the course of development work during the past six months will be exploited and a heavy tonnage made.

One of the richest finds recorded for months in the Cripple Creek district is announced this week in connection with the 1000-foot level of the Vindicator mine. These workings have just reached the Vindicator-Lillie vein at a point 1000 feet north of the shaft and 100 feet below the ninth level. The vein has proved to be continuous all the way down, and carries a higher grade of ore than has yet been opened in the mine.

The Telluride Reduction company started its new 200-ton bromination mill at Colorado City this week. President H. B. Haigh and Vice President Russell Parker of New York city were present at the opening. This mill uses bromine as the solvent, and claims to make a higher percentage of extraction than chlorination. Bromination has been used successfully for two years in Australia, but this is a pioneer venture with this process in the West.

Ermin D. Marr and J. L. Middagh, prominent mining men of this city, returned this week from Thunder Mountain, and say that the Idaho gold fields are greatly over-boomed. They saw less than 300 miners in the district through which they passed.

Grand Army Encampment St. Cloud, Minn.

June 23rd, 24th, 25th and 26th, the Northern Pacific railway will sell tickets to St. Cloud and return for above occasion for $5.20, good returning June 27th. Take the 8:40 a. m. train arriving St. Cloud 3:00 p. m. For tickets and full information, call at City office, 332 West Superior street, or Union Depot.

TO YOUNG WOMEN.

Letter from Miss Georgie Bryan, Secretary of the Social Economic Woman's Club of Memphis, Tenn.

How many beautiful young girls develop into worn, listless and hopeless women simply because sufficient attention has not been paid to their physical development. No woman is exempt from physical weakness and periodic pain, and young girls just budding into womanhood should be carefully guided physically as well as morally.

If you know of any young lady who is sick and needs motherly advice ask her to write to Mrs. Pinkham at Lynn, Mass., who will give her advice free from a source of knowledge which is unequalled in the country. Do not hesitate about stating details which one may not like to talk about, and which are essential for a full understanding of the case.

MISS GEORGIE BRYAN, 193 Vance St., Memphis, Tenn.

"I can heartily recommend **Lydia E. Pinkham's Vegetable Compound** to all young girls, for I have used it myself with the best of results.

"Last spring I was very much run down and was advised to try it, which I did; and I was most pleased with its results. The monthly aches and pains so common to women, especially distressing in my case, were all cured by **Lydia E. Pinkham's Vegetable Compound,** and I now always keep it on hand to help me over sick days."

How Mrs. Pinkham Helped Fannie Kumpe.

First Letter.

"DEAR MRS. PINKHAM:—I write for advice in regard to my case. Menstruation has been coming twice in each month and I have such pains in my back and limbs and womb, and such hot flushes that it seems as though I would burn up. I have had doctors treat me but they have done me no good. Can you help me?"—MISS FANNIE KUMPE, 1922 Chester St., Little Rock, Ark. (Sept. 10, 1900.)

Second Letter.

"DEAR MRS. PINKHAM:—I feel it is my duty to write and tell you of the benefit I have derived from your advice and the use of **Lydia E. Pinkham's Vegetable Compound.** The pains in my back and womb have all left me and my menstrual trouble is corrected. I am very thankful for the good advice you gave me, and I shall recommend your medicine to all who suffer from female weakness."—MISS FANNIE KUMPE, 1922 Chester St., Little Rock, Ark. (Dec. 16, 1900.)

O, my sisters, I do pray you to profit by the experience of these women; just as surely as they were cured of troubles, just so surely will Lydia E. Pinkham's Vegetable Compound cure every woman in the land who suffers from womb troubles, inflammation of the ovaries, kidney troubles, nervous excitability, nervous prostration, and all forms of woman's special ills.

$5000 REWARD.—We have deposited with the National City Bank of Lynn, $5000, which will be paid to any person who can find that the above testimonial letter is not genuine, or was published before obtaining the writer's special permission.
Lydia E. Pinkham Medicine Co., Lynn, Mass.

Another Improvement.

CHICAGO, BOSTON AND NEW YORK TRAVEL.

On and after June 15th, the Erie railroad will still further improve their Boston and New York service by offering to the public a handsome limited train to leave Chicago from Dearborn station every day at 10:30 a. m., arriving New York next afternoon at 3:30, and Boston at 9 o'clock.

There is no doubt that this service will be highly patronized, as this new train will land the traveler in New York city in ample time to permit him to proceed leisurely to his hotel or home, rest, dress, dine and spend the evening in whatever manner may appeal to him most.

This every-day morning train will consist of standard Pullman drawing-room and sleeping cars. All meals en route served by the famous Erie dining cars. No extra fare charged on this train.

Ticket office, 242 South Clark street, Chicago.

$4.30 St. Paul and Minneapolis.

VIA NORTH-WESTERN LINE.

June 24th and 25th THE NORTH-WESTERN LINE (C., St. P., M. & O.) will sell tickets to St. Paul, Minneapolis and return at the low rate of $4.30 good returning until June 27. Tickets good on the famous "Twilight Limited," leaving Duluth daily at 4 p. m. from the Omaha depot; day express, 8:50 a. m. Secure tickets at 405 West Superior street, or Omaha depot.

Woman's Nightmare

No woman's happiness can be complete without children; it is her nature to love and want them as much so as it is to love the beautiful and pure. The critical ordeal through which the expectant mother must pass, however, is so fraught with dread, pain, suffering and danger, that the very thought of it fills her with apprehension and horror. There is no necessity for the reproduction of life to be either painful or dangerous. The use of **Mother's Friend** so prepares the system for the coming event that it is safely passed without any danger. This great and wonderful remedy is always applied externally, and has carried thousands of women through the trying crisis without suffering.

Mother's Friend

Send for free book containing information of priceless value to all expectant mothers.

PLAYS AND PLAYERS

Richard Mansfield to Appear At the Lyceum on Monday Evening.

Will Present "Beaucaire"—Katheryn Kidder and Company Will Be On the Following Monday, Playing "The Country Girl."

The dramatic event of the year for which theater-goers have been waiting so impatiently and epectantly, the opportunity to see Richard Mansfield, is only a few days removed. What is technically known as the "scene plot" arrived yesterday. Instead of a long list of things wanted, the plot said briefly and comprehensively: "We carry everything. Clear stage of everything except drop curtain. Everything must be off stage and out of theater in order to make room for the "Beaucaire" scenery, furniture, properties and baggage." Much work will be done on the star dressing room between now and Mansfield's arrival. It will be made as attractive as possible, but his dresser will put on the finishing touches when the celebrated artist and his company arrives. He carries many furnishings. There are yards and yards of hangings which line the walls and protect the many delicate costumes which Mansfield wears as the barber-prince, Beaucaire; rugs for the floors, a special folding mirror of intricate make and an arrangement of electric lights of remarkable ingenuity. Mansfield does all he can to relieve himself of the monotony of a role. He cannot change the words of the part, for that would put the lines of all the other players out of joint, but he does play with varying temperaments from night to night, so that often his creation is as much a surprise and a diversion to those about him as to the crowd beyond the footlights. Moreover, though the role calls for five complete changes of costume, Mansfield has three times that many changes with him. The dresser takes them out of the trunks in every city and hangs them in the dressing room. Then Mansfield indulges his own caprice in choosing which he will wear. There is, however, one choice which he determines a day ahead. It is the coat he will wear in the third act. This because the buttons on the front, the sleeves and the pockets are hand-painted miniatures set in a frame of diamonds. These the dresser takes off from their fastenings and puts with the other jewels in the strong box. The shoe buckles which Mansfield wears in this same third act

RICHARD MANSFIELD.

were presented to him by Mrs. Lester Wallack, to whose husband they were handed down from the great Charles Kean. Mansfield has another priceless pair of shoe buckles which he sometimes wears. They were once the property of David Garrick.

KATHRYN KIDDER.

"The Country Girl," in which Kathryn Kidder will appear at the Lyceum on June 30, is claimed by some dramatic authorities to be the funniest comedy ever written. Whether this is so or not, it is a fact that the play has been amusing audiences since 1675, when it was originally produced at the Theater Royal in London. The comedy, which was the work of William Wycherley, was first known by the title of "The Country Wife." In 1766 another version of the play appeared, this time called "The Country Girl." The author was David Garrick, the most celebrated actor of his time, and in many respects the most distinguished disciple of Thespis who ever trod the boards in England. There have been many productions of the play in this country and on the other side of the Atlantic, and the revival has always met with much popular favor. Various reasons have been given for the long life of the amusing old comedy. It would be difficult to decide which was correct, inasmuch as the play abounds in interesting features which always gain the approval of theater-goers. Some of the most noted actresses in England and in this country have essayed the role of Peggy, the comical heroine of "The Country Girl," who outwits her jealous old guardian and finally through a clever ruse weds the young man of her choice. Perhaps the best remembered scene in the piece is in the park, where Peggy, disguised as a boy, is taken for a stroll by her guardian. The efforts of her lover to talk with her and the desire of her guardian to keep her away from all men but himself, are a basis of a series of complications which never fail to convulse the audience. The last prominent American actress to play Peggy was Miss Ada Rehan, who appeared in the role at Daly's theater some years ago, when it enjoyed such a successful run that it was put on the next season for another long period. Miss Kidder has often been advised by her friends and admirers to give an impersonation of the peculiar characteristics of the awkward Peggy. Their advice was not followed until this season, when the actress decided on a spring revival of the immortal play. The hit she has made in the part is said to have surpassed all her previous efforts. She is supported by an exceptionally strong company. As "The Country Girl" is one of the classics of English dramatic literature, and as Miss Kidder is one of the most popular stars to visit this city, it is safe to predict that her engagement at the Lyceum on June 30 will draw one of the largest and most fashionable audiences of the season.

GOSSIP OF THE RIALTO.

How Manager Savage Astounded Sam Bernard.

New York, June 21.—Broadway is learning more and more that Henry W. Savage is a man of infinite resource and Napoleonic daring. The time was, and not so very long ago, that Savage was not reckoned with seriously. Managers believed that his sole mission in life was to produce cheap opera over on Eighth avenue, and his first appearance on Broadway was a dire failure. Other managers with more experience winked and smiled, and, smiling, pitied the newcomer. Savage, who is a long-legged, level-headed, persistent Yankee, just sawed wood and went into the comic opera business at a time when all the other managers had made up their minds that there was no more money in it. "King Dodo" was out, and so did "The Sultan of Sulu," and now "The Prince of Pilsen" is to be added to the list. Savage wanted Sam Bernard for the latter production and Samuel was willing. But Savage said Bernard must be in Boston and make his first appearance the next Monday night. Bernard blushed (or tried to) and coyly confessed that he had an engagement to get married that day, and added solemnly, "There's millions in it." Savage, whose mind was all on his opera, gleefully exclaimed, "That's great. Bring the whole party over to Boston at my expense and have the wedding there. Just think of the hit if you go right on after the ceremony." Bernard has not been completely restored to consciousness.

Now that the dog days are on managers have time to figure it all out and especially to look over the few winners of the past season. Outside the record run of "The Beauty and the Beast," Mrs. Leslie Carter is placed at the head of the list, with over $30,000 receipts for "Du Barry." The others make only a respectable showing, none of them piling up any such sums, however. As a matter of fact, the season's successes were most unexpected and no provision had been made for a long run of any of them. Robert Edeson, for example, did not come to town until late, and no one, not even his manager, looked for him to score as he did. He got only the fag end of the season, but he crowded the Savoy to the doors.

It is rumored that among the next season's attractions will be the importation of the new ballet at the Empire in London. As a feature of the coronation it is expected to be quite the most remarkable thing the Englishmen will see in the show line. Its subject is "The Edwards, Kings of England, From the First to the Seventh." The ballet will be in three scenes, the first two of which will be composed of historical tableaux dealing with prominent incidents in the reigns of the first six of England's monarchs. The final scene will deal with the coming coronation, which is, of course, to be treated in a jaciful spirit. The tableaux will include Edward I. presenting the first Prince of Wales, Edward II., to the Welshmen, in Carnarvon Castle; Queen Philippa begging for the release of the French prisoners from Edward III., the prisoners in the tower and Edward VI. at the time of the Reformation.

A. Baldwin Sloane, composer, goes to London next month to watch the rehearsals of his new musical comedy. This is to be produced by Vernon Dowsett at the Tivoli. The book was written by E. T. Sweet, a newspaper man of Scranton, Pa. Sloane expects to return with commissions from George Edwards and others for several tons of comic opera, all to be ready by next spring.

Miss Maud Adams will, according to all the signs, confine herself to "As You Like It" next season. That is, of course, if the tour with Bernhardt in Romeo and Juliet" does not get in the way. She had "The Country Mouse" at her disposal, but this is so no longer. Daniel Frohman hopes to bring over Miss Annie Hughes in this play and to repeat here her London hit.

"The Chaperones" is doing very well, indeed, but as a further temptation to the public, the management has decided to give Wednesday matinees hereafter at the summer price of 50 cents for the best seat in the house.

Elizabeth Kennedy is to star next season in "Captain Jinks," and she has already fallen into the hands of A. Toxin Worm, who is, the physicians declare, entirely recovered from the mental shock occasioned by the demands of a tour with Mrs. Pat Campbell. One does not know for certain, but it is reasonable to suppose that Miss Kennedy will at once adopt a Nanky-Poo and learn to play bridge whist.

Miss Minnie Dupree, who will appear next season in "A Rose of Plymouth Town," will be supported by Augustus Cook, Guy Bates Post, Bennett Sturgis, Douglas Fairbanks, Miss Carolina Bedford, Mrs. Sol Smith and Miss Edith Wright.

Miss Isabel Evesson is to return to Broadway in the fall. She is now the leading woman in the Albee Stock company at Keith's theater in Providence, and her excellent work has brought her several offers of roles in important productions here.

Brooklyn is after the unique, especially in theatrical matters. This time it has distinguished itself by forming the Otis Skinner club, an organization intended to do honor to the town's stage favorite. The constitution is not long, but decidedly to the point, and contains these objects of the club: 1—To lose no opportunity to spread abroad the idea that Otis Skinner is the greatest living actor. 2—To occupy orchestra or box seats on one night of his annual engagement in Brooklyn. 3—To applaud long and loud that actor's every appearance on the stage. 4—To attend every supper of the Otis Skinner club. The scheme was started somewhat in jest, but people took it seriously, and the club already has a formidable membership list.

New hope has sprung up in the breasts of never this week, and Burr McIntosh is seriously thinking of throwing over the camera for the post of minister to Ecuador or elsewhere. This is due to the sudden jolt given to the profession by President Roosevelt. In selecting Mason Mitchell to be counsel at Zanzibar, the president no doubt was somewhat influenced by Mitchell's tempestuous career upon what is now known as San Juan Hill. But there is no doubt that the real heroism that weighed heaviest in his favor was that only recently he played twenty-nine one-night stands with Blanche Walsh. Any man who could stand that number of such hotels is eminently fitted for Zanzibar.

In the death of Odell Williams, the stage loses one of its best character actors, and the Rialto one of its best loved members. Williams, who has seldom wandered far from the Rossmore hotel, when in town, was invariably the center of an admiring group. His stories of stage life were gems in their way, and his devotion to the table made him a favorite with the chef and men about town. He accompanied Mrs. Leslie Carter on her first trip to England in "The Heart of Maryland," and played in "Way Down East" and "A Kentucky Colonel" with marked success. As the politician, with David Warfield in "The Auctioneer," he made one of the strongest hits in that play, but was obliged, because of illness, to leave the company on the road and return home. Warfield, up to the time of his own illness, was a constant visitor at Williams' bedside in the Presbyterian hospital. When the doctors gave up hope Williams begged to be taken back to Broadway, and it was there that the end came.

Some bold, bad man, or a collection of unprincipled bandits have threatened to kidnap Miss Trixie Friganza. She didn't really need the press notices, but the summer season is on, and one can never tell how handy they can be. She is the real hit of "The Chaperones," and success after some years of weary waiting has some drawbacks. Miss Friganza, however, is brave, and, being just now much in the public eye, she is intrepid even as to kidnaping. Cincinnati first knew her by the name of Delia Callahan, but at 16 all that was changed, and the stage soon held her as an attraction in the comic opera, "Jupiter." In fact, in many eyes she outshone Digby Bell and his wife, who were supposed to be the stars. Since then she has played minor parts with one solitary exception. That was when she bloomed out as a star in Taunton, Mass., in something called "The Right Bower." It is impossible to get Miss Friganza to talk of this experience, so much interesting data is naturally missing. The few shreds of the dred secret that have been pulled into the light show that the production opened and closed right in Taunton. Before the police had a chance to interfere the authoress, a Miss Roberts, who backed the venture, lost some real money. Now she wants the prosperous young woman to pay it back, and threatens to steal her away if she does not make good.

No one ever suspected it, but really a stage manager can be quite as jealous of his prerogatives as a grand opera prima donna. Because of this fact "Dolly Varden" is due to have a man to look after her stage needs while Max Freeman nurses his wrist in some secluded spot. Miss Lulu Glaser was sufficiently indisposed the other evening to cut a performance, and Freeman, after carefully preparing for his stage appearance, started for the footlights to break the news gently to the waiting throng. Just as he reached the curtain's side he was rudely and emphatically thrust to one side while Stanislas Strange, who wrote the libretto, went on and did the trick. The scene that followed his retirement was painful, although filled with enjoyment for the company.

Miss Lavinia Shannon, who was seen last season in "Her Lord and Master," has been engaged by Fred G. Ross for "Beyond Pardon." She will star in this play by Theodore Kremer, and Miss Louise Muddener has been engaged for her support.

Grace Livingston Furniss will have two plays on Broadway in the fall. The first will open Wallack's on Sept. 1, and Alice Fisher will have the leading role. "A Cabinet Girl" will be produced by Bertha Creighton, who will head her own company.

Lea Van Dyke will be with us in the fall right on Broadway and in a real good role. This news is more impressive when we consider that in society she is Mrs. Howard J. White, of the City of Brotherly Love, scrapple and J. Wanamaker. The husband in the case is nephew of the present ambassador to Germany, and is to have new honors thrust upon him as soon as her better half makes her hit.

Perhaps it was due to the sudden shock that Edward E. Rice received from his chorus that he has decided to take "The Show Girl" on the road without further delay. His press agent recently announced, confidentially, of course, that several of the chorus had petitioned Rice to ask Wallack's theater management to permit them to hold prayer meetings on the stage on Sunday evenings. This so dazed all hands that no definite answer was given, and now the show is going to quit town.

In addition to a stock company that dares anything and a vaudeville bill that defies the hottest kind of weather patrons of Proctor's Fifth Avenue theater can now indulge in ping-pong without extra charge. Three tables have been set up in the lobby, and are free to all comers between the acts and before and after the show.

Mabelle Gilman goes to England for the summer, and will take a short run over to Paris. She will come back in the fall to be a star in a musical comedy to be written for her own little self.

"Billy's First Love" is to be given to the Pacific coast this summer, and Miss Valerie Bergerle will be the star. On her trip West she will be accompanied by Miss Rose Stuart and William Greene, and the rest of the company will be recruited out there.

Robert Drouet has completed a play which will be produced by two co-stars next season. He has been conspicuous as a leading man for two seasons, yet, withal, he has found time during the past eight years to write a dozen or more plays. Among them are "Doris" and "A Woman's Power," played by Miss Effie Elsler; "Captain Bob," produced by Willton Lackaye; "Fra Diona," played by Joseph Haworth; "The Sculptress," "The Great White Czar," "Montana," "To-morrow," and "A Stroke of Luck." Besides there was "Mr. Dick," in which the author himself played.

It rarely happens that an actor has a chance to play two characters in the same family in a single season, but Frederick Perry is one of those thus singularly blessed. All winter he has played Richelieu in Mrs. Carter's "Du Barry," and a line in the play made him say, in explanation, "As my granduncle, the Cardinal, used to say." Just as soon as his New York engagement was ended he started for Denver, where he is now appearing with the Bellons Stock company as the original Cardinal Richelieu in "Under the Red Robe."

Arthur Byron will spend next season supporting Miss Mary Mannering in a drama of New York life by Clyde Fitch. The following season he will lead his own company in another Fitch play, "Major Andre," based on the revolution.

Miss May Irwin is on her way to Europe, to be gone all summer. She will make an automobile trip on the continent, accompanied by her sons, Walter and Harry. There is a rumor that before going aboard the stout ship Minneapolis she made the young men swear never to refer to her as "Mother," simply as "Sister Mary."

Miss Charlotte Walker, now leading woman in James K. Hackett's company, is a young Southern woman whose introduction to the stage is of very recent date. Her home is in Galveston and the third there brought ruin to her family. She had made considerable of a success in amateur theatricals, so she came North hoping to win a livelihood on the stage. Her first chance was a very minor part in a musical comedy. Then Weber & Co. gave her a chance in one of their Western companies, and she did so well that Hackett's attention was attracted to her. She scored again as "Martiana" in "Don Caesar's Return," and now she has the role of Virginia in "The Crisis."

"Charlie" Miller appeared on Broadway last week as round and smiling as ever. He conducted the Weber & Fields aggregation on their recent tour, and before that was with the Western Florodora company. His plans for next season are not settled, although he has several flattering offers to select from.

FOOTLIGHT FLASHES.

Hackett is to star Isabel Irving.
Holland has six variety theaters.
William Dillette is still in Scotland.
Tom Lowande is touring Cuba with his circus.
Nat Goodwin will use next season "The Altar of Friendship."
Jefferson de Angelis in "The Emerald Isle" will open the next season at the Herald Square.
Bronson Howard has been abroad for two years, so ill with neuritis that at times his life has been despaired of.
Puccini's "Mme. Butterfly," if completed in time, will be added to the repertory of the Castle Square Opera company next season.
Edna May has brought suit against a London newspaper for circulating the report that she was a co-respondent in a divorce case.
Mr. Mansfield has expressed the belief that theaters would continue, "but the art of acting is diminishing every day," said he, "and bids fair to disappear entirely."
Smith O'Brien in "The Gamekeeper" will open at Racine, Wis., on August 31. Thomas J. Smith in "The Gamekeeper" (Western) will open on September 7 at Kenosha, Wis.
A play without a name, by Auguste Van Blene and J. Post, was presented at the Grand theater, Birmingham, England, May 23. The authors offered $25 for a suitable title for the play.
Gertrude Atherton's novel, "The Daughter of the Vine," is being turned into a play by her, with the assistance of Olga Nethersole, who is said to be anxious to appear in this clever but disagreeable study of heredity.
Madame Janauschek, who is very ill at Saratoga Springs, writes to friends in New York that she is anxious to sell some of her valuable jewels in order to obtain funds. Many of her jewels are antique and of great value.
Nearly a thousand performers, belonging to thecompanies of variety and music halls, besides two hundred pianists, have, up to the present, volunteered to take part in the performance for the entertainment of his majesty's guests.
"The Wrong Mr. Wright" at the Melbourne (Australia) Bijou, has been succeeded by "Why Smith Left Home," that is drawing good houses. At the close of the season the theater will be occupied by the World's Entertainers, now at the Sydney palace.
Under the title of "The Never, Never Land," a new play by William Barrett, dealing with life in Australia, has just been produced by him as Brisbane, and was performed for copyright purposes at Salford the other day. It would seem to be a melo-drama of domestic interest, depending largely upon a case of mistaken or falsely assumed identity.
Mrs. Fiske will direct the production at the Manhattan theater of George C. Hazleton's new colonial comedy, "Captain Molly," which will be produced and managed by Harrison Grey Fiske, and in which Elizabeth Tyree will play the title part. Later, Mrs. Fiske will appear in an elaborate production of Paul Heyse's historical drama, "Mary of Magdala," which long has been in preparation.
The conclusion of peace with the Boers was the occasion for enthusiasm even in the London theaters on the night of June 2. At the fashionable theaters of the West End the national anthem was played by the orchestras and sung by the audiences. In the musical comedy theaters peace "gaggs" and special topical verses were the rule. At the variety theaters there were special patriotic recitations, songs and tableaux.
Olga Nethersole, who has been telling the story of her past life in T. P. O'Connor's paper, "M. A. P.," gives an account of how she became an actress, which conveys a vivid impression of the sufferings of managers at the hands of ambitious aspirants. It appears that the late Nutcombe Gould, having seen her in some amateur theatricals, was prevailed on to give her an introduction to Charles Hawtrey. "I went" (continues the narrative) "to Mr. Hawtrey every day for six weeks, and at last the drops of water made an impression on the stone, and I made my debut in Lettice Vane, a comedy character." Poor Mr. Hawtrey! Nutcome Gould may or may not have suffered from a protracted series of "daily visits" before he yielded to the request for that introduction. But the young lady had proved to have mistaken her vocation (and the odds, it should be remembered, are greatly against any young aspirant for histrionic renown) we should have heard cynical remarks about "getting rid of worries by passing them on to our friends." Fortunately the end justified the means, and the public are the gainers by Mr. Gould's complaisance.

The Pleasant Part...

We want you to feel that everything in our store is of such a character that there will be no cause for dissatisfaction with it after the money is paid for it. That is the fact. It is the pleasant part of our business that so many of our customers come in say: "Well I always feel satisfied in buying anything here."

It has been our constant aim for years to establish such a reputation—and you can appreciate our gratification at the accomplishing of our long cherished aim.

DUN'S REVIEW

Trade Quiet In the East But Excellent In West.

New York, June 21.—R. G. Dun & Co.'s weekly review of trade says: Trade at the East is more quiet owing to the advancing season and the bad effects of prolonged labor controversies is being felt in certain lines. Reports from the interior and the far West are more encouraging; bountiful harvests being expected while the light stocks carried over from the previous season assure profitable prices. The best indication of continued prosperity is the fact that quotations do not recede, even in the lines where at present there is only a moderate degree of activity. Railway earnings thus far reported for June increased 3.9 per cent over 1901.

Uncertainty regarding their ability to secure pig iron at reasonable prices is making producers of steel cautious in accepting contracts that call for delivery at even remote dates. Raw material is undoubtedly in light supply and the anthracite coal strike has suspended work at a number of furnaces. Coke production is attaining new records each week in the endeavor to supply all requirements, and better railway facilities are making unprecedented shipments from the Connellsville region. Soft coal is beginning to show the effect of an abnormal demand. In certain lines of finished steel products the addition of new plants to the productive capacity has been a perceptible influence of prices, introducing more competition. This factor is felt in only a few divisions, however, and in all heavy lines, notably rails and structural material, orders run far into next year and there is no question of concessions in quotations. Jobbers having a surplus of bar iron sold moderate quantities at a lower figure than the market rate, but steel bars are firmer.

Quiet conditions prevail in Eastern dry goods and footwear markets. A strong silver market has revived purchases for export to China, although, like the home trade this is still on a moderate scale. Supplemental buying of woolens is also limited. It is noteworthy that prices in all textile lines are firmly held, despite the slow movement, indicating confidence on the part of sellers. Some shops in New England have more orders, yet most factories only operate part time, and some are entirely idle. Leather is dull and foreign hides are weaker.

Lack of rain in the Southwest is the only seriously unfavorable crop condition of the week, while exceptionally encouraging reports are received from most points. Domestic grain makes good progress, but bad news has been received from abroad and the outlook is favorable for large exports. Failures for the week numbered 194 in the United States against 193 last year and 19 in Canada against 11 a year ago.

Spend All Morning In Chicago —Take Breakfast In New York.

The Pennsylvania Special gives business men all morning in Chicago to clean up the day's work. They may leave on that train at 12 noon and be in New York before business begins next day, going through in twenty hours. First stop for passengers at 10:20 p. m., Philadelphia 6:56 a. m., Twenty-third Street station, New York, 9 a. m. Full information about fares, etc., may be obtained upon application by letter, telegram or in person to H. R. Dering, A. G. P. Agt., 248 South Clark street, Chicago.

OLD FIRST

Minnesota Regiment Celebrates Its Forty-First Anniversary.

St. Paul, Minn., June 21.—The old First Minnesota regiment, which was one of the first to respond to President Lincoln's call for volunteers, and which made the famous charge on the second day at Gettysburg, celebrated its forty-first anniversary yesterday. One hundred and thirteen survivors participated. The reunion was made possible by a gift of $1000 from James J. Hill, president of the Great Northern railway, and the entertainment of the veterans include a luncheon at the Hill residence, which was presided over by Mrs. Hill. A pretty ceremony was the trooping colors at the state capitol. All of the old battle flags, both those carried by the regiment and those nt had captured were displayed to the veterans and their friends by young ladies, descendants of the veterans themselves. The luncheon at the hill house was attended by ex-Governor Alex Ramsey, the only surviving war governor, and by Archbishop John Ireland, a former chaplain of the regiment.

One may dwell beneath poverty's lowly roof, or live in mansions of brick. They'll find a friend in Rocky Mountain Tea. It rids life of its burdens. Ask your druggist.

DULUTH'S NEIGHBORS

TWO HARBORS.

Two Harbors, July 21.—(Special to The Herald.)—An infant child of Conductor Harry Morrison died on Sunday.

Gulon Thompson, formerly lineman for the Iron Range Telephone company, secured a divorce from his wife through the district court last week. He came here from New York city.

The membership contest at the Y. M. C. A. keeps about even, about $50 having been secured since the contest opened. It will close after July pay day.

The steamer Warren took on a part cargo of lumber here this week from the Tower mills. The lumber business seems about off, while pulp wood shipments are also dropping off. About 4000 cords of pulpwood have been shipped so far this season and there are 8000 cords still to go forward.

F. Hickman was down from Cloquet river Sunday.

The Schubert Symphony club and Ladies' quartet, of Chicago, assisted by L. McPike, the reader, and Master Thomas Purcell, violinist, will appear at the Norden hall Monday evening, June 30, under the auspices of the local Y. M. C. A.

L. V. Beckman departed today for a two weeks' stay on his farm about 16 miles from Cloquet River station.

Mrs. O'Hearn is visiting with relatives at Lancaster, Wis., for a couple of weeks.

The Iron Range pay car was up settling the monthly account with their employes Monday and Tuesday.

Mrs. James Crimmins and children visited with relatives here this week. They are en route from Eveleth to Montana to join Mr. Crimmins, who is employed by the Great Northern railway there.

The ladies of the Catholic church gave a very pleasant supper at the Nordea hall Thursday evening.

Thomas, the young son of Mr. and Mrs. T. Peake, had the misfortune to fall and break his arm last Thursday.

A. B. Chandler, of Bunisson, transacted business here on Wednesday.

Frank Spurbeck, of Duluth, is acting as deputy collector of customs here during the absence of Collector James Coggswell on a trip down the lakes.

H. S. Bryan departed Saturday to attend the annual meeting of the master mechanics' association at Saratoga, N. Y.

The steamer E. C. Pope discharged a cargo of coal at the docks here Friday and Saturday.

Commodore W. H. Clark transacted business at Duluth over Sunday.

W. Woodfill departed Friday on a business trip to Butte, Mont.

The steamers Iroquois and America brought up the largest excursions from Duluth Sunday of any so far this season. The day was fine and most of them spent the day looking over the docks or driving. When coming in the Iroquois had too much headway, having passed the Superior as they came into the harbor and struck the lumber dock with considerable force, though a glancing blow, and no damage was done, more than breaking one of the fenders on the vessel.

Gust Linze and Miss Hilma Hillman both well-known young people here, are to be married at the Swedish M. E. church Tuesday evening, June 24.

The monthly social of the Presbyterian church was held at the home of M. K. Knauft last evening.

A. W. Cutter, of Tower Junction, transacted business here on Monday.

James Symons, who has been on the sick list the past few weeks, is now able to be about again.

A gospel train in charge of Conductor Clark was run from here to Eveleth and return Sunday, services being held at that place in the evening. The train stopped, picking up those from the stations along the line who wished to attend.

The dedication of the new remodeled Swedish M. E. church, was held Sunday, the service being held by Presiding Elder Rev. Farrell, Rev. C. F. Edwards, of West Superior, and Rev. J. Anderson, of Duluth also assisted.

The city fathers at their regular meeting Monday discussed pressing matters of improvements, and extensions to the water and sewer system. The recommendations being that the Sixth avenue pipe be extended 200 feet east from Maple street. That the water and light plant be moved from its present location to a point on Light House Point, at the east end of South avenue, and that a main sewer be laid on Spruce street from Erd avenue south to the lake. The recorder was instructed to advertise for bids for extending the water mains in the East addition on First, Second, Third and Fourth avenues, the bids are to be opened Monday evening, June 30. Contracts between the Village and P. G. Pastore for the laying of the water mains on Maple street, and on Ninth was signed. Also contract with D. O'Connell, of Duluth, for macadamizing Poplar street from First avenue south. Bills amounting to $624.91 were allowed.

Dean Lawrence returned from his law studies at Ann Arbor, Mich., this week, and will spend the summer with his parents. He expects to graduate in one more year.

Mr. and Mrs. J. G. Miller entertained the kindergarten class of Miss Hogan with a picnic to the Stewart river on Monday afternoon. A very pleasant time was had.

F. W. Larkins and family departed Saturday for a couple weeks' visit with relatives at Glenwood, Minn.

J. Dryden and family departed Thursday for Nebraska, where they will spend the summer.

Invitations are out for the wedding of D. W. Owens, of this place, to Miss Nellie Davie, of Byron, Wis., at the latter place June 25. Mr. Owens is well known here and on the range. They will be at home here after July 15.

Thomas Burke and family have moved to Eveleth this week. Mr. Burke will work there during the summer.

Commodore R. B. Elliott transacted business at Eveleth on Tuesday.

What was one of the most severe wrecks for some time happened on the Duluth & Iron Range above Waldo at an early hour yesterday morning. Nineteen loaded cars of logs got away on the hill of the o... line near Drummond and, running a distance of seven miles jumped the track at the switch above Waldo completely wrecking the cars and tearing up the track considerably, though injuring no one. An ore train coming along shortly afterwards unaware of the wreck struck some of the wreckage and was damaged some but luckily was running slow, and it was not badly damaged. Only one track was blocked and traffic not delayed any. The logs were from the Scott-Graff operations near Drummond.

Stephen Dwan, of Burlington, Iowa, arrived here this week and will spend the summer with his brother, City Attorney Dwan.

J. H. Nordby and daughter Althild departed Thursday for a three months' visit at Mr. Nordby's old home in Sweden, it being Mr. Nordby's first visit there in twenty years.

The schooner Seth Thompston discharged a cargo of coal at the docks here this week.

B. E. Andrews transacted business at Virginia on Wednesday.

J. H. Killian has moved his cigar factory into the Sundberg building on First avenue.

The Ladies' Aid society of the First M. E. church is making preparations for a bazar and supper to be given at the Norden hall July 16.

Mrs. Paul Houle spent a few days this week visiting with Mrs. L. St. Jacques at Waldo.

Henry Carey is having a new residence built on Tenth avenue. His father, of West Duluth, is doing the work.

Mrs. Thomas Benham and family departed this week to spend the summer with relatives near Madison, Wis.

Mrs. Dr. Thomas has returned from a visit with her parents at St. Paul.

Skerbeck's circus is billed to show here Monday, June 23.

The first announcement in county politics for the fall election is I. A. Felter, who comes out this week as a candidate for sheriff. The following delegates from here were selected Friday for the county convention on June 24: First precinct, James Coggswell, A. N. Ogle, J. D. Budd, H. L. Holden, Charles Cotten and H. W. Cable; Second precinct, F. E. Evans, J. E. Chandler, H. E. Hanson and A. Dauberg; Third precinct, J. Paulson, J. H. Lunz, W. F. Lawrence and G. S. Roper; Fourth precinct, H. O. Olson, r. M. Woodfill, F. Swanson and Martin Miller.

The farmers in the vicinity have been putting in their potatoes the past ten days. The wet weather delaying the planting before.

Joseph Coursale, a 12-year-old boy, was severely burned Wednesday by the explosion of some powder which failed to go off the first attempt at lighting, but exploded in his face when he went to look at it. Though his face was badly burned the eyesight will be saved.

The town board of equalization meets at the court house on Monday.

Mr. and Mrs. George Patterson visited with friends at Sparta Sunday.

O. S. Emery and Miss Ida Morrison both well known and popular young people here, were married at the home of the bride's parents, Mr. and Mrs. D. C. Morrison, Wednesday evening, Rev. H. F. Gift officiated.

Dr. J. D. Budd transacted business at Duluth on Tuesday.

Towner Bros., of Peterson, Iowa, have purchased a large amount of land in the Knife river valley and expect to bring some settlers from Iowa and locate them soon. The land there is the best in the vicinity.

PARK RAPIDS.

Park Rapids, June 21.—(Special to The Herald.)—Mrs. Clara Page, of Ellsville, Iowa, is visiting at the home of her son, A. W. Page.

Mrs. C. C. Doty returned to her home in Bemidji Saturday, after a few days' visit with friends here.

Dr. Courtney, of Brainerd, was called here the first of the week to consult with Dr. Stone in the case of Mrs. E. E. Bonham, who is very ill at the Park Rapids hospital.

Mr. and Mrs. Guyer, of Dayton, Minn., are visiting with relatives here.

Mrs. W. F. Gleason, of Farnhamville, Iowa, is visiting with her sister, Mrs. William Rice.

Mrs. W. T. Stone and son departed Monday for a month's visit with relatives in Southern Wisconsin.

Mrs. Maud Sibley, of Solway, visited with relatives here last week.

Charles Weegley returned to Maltby Saturday, after a week's visit with relatives here.

W. E. Graham, of Long Prairie, is visiting at the home of W. M. Faber.

Miss Nellie King returned Saturday from Detroit, where she has been teaching for the past nine months.

Mrs. Grant Hardman returned Monday from St. Paul, where she attended the state assembly of the Rebekah lodge.

Mrs. George Coombs and daughter, of Frazee, visited with Mr. and Mrs. William Rice, last week.

Dr. P. D. Winship is ill at her home in this city.

Mr. and Mrs. L. D. Frazee, of Verndale, are visiting with relatives here.

Harry Crowford, of Sebeka, visited with his parents here a few days this week.

Mrs. E. E. Whitney, of Princeton, is visiting with Mr. and Mrs. Caleb Crooks.

Carl Fuller returned Monday from Wisconsin, and will spend his vacation with his parents here.

Mrs. Robert Smith will depart Monday for a month's visit with relatives at Grand Forks, N. D.

Mr. and Mrs. T. M. Sharp, of Osage, visited with their daughter, Mrs. P. D. Winship, a few days this week.

Mrs. Hall came up from Little Falls Saturday, called here by the serious illness of her sister, Mrs. E. E. Bonham.

A valuable lot at the corner of Park avenue and North street was recently sold to Mrs. Luella Bender, of Sparta, Minn., who will erect a fine residence there in the near future.

Mr. Morris, residing in the northern part of this county, near Maltby, reports the finding of gold on his claim there, a sample being sent to Minneapolis assayed 60 per cent pure gold.

NEW DULUTH DOINGS.

New Duluth, June 21.—(Special to The Herald.)—Charles F. Wills called at the Duluth high school Tuesday.

Mrs. Frank Widell and Mrs. Charles Gustavson left for a week's visit in St. Paul, Mondoly.

George Reindl returned Sunday from a month's stay in Muscatine, Iowa.

Miss Mary Tischer and Miss Alice Patterson, of Superior, are visiting Miss Tischer's mother, Mrs. Frances Tischer.

Sunday night thieves broke into the office at the cedar yard and stole all the paper and ink and a rain coat belonging to the foreman, Henry Page.

Charles Wills commenced repairing the Fond du Lac school building Monday.

Six head of horses from the north shore arrived Sunday to be used in the cedar yard.

Among Monday's Duluth callers were Mrs. Andrew Johnson and children, Mrs. W. H. Miller, Miss Miller and George E. Tupper.

Elmer E. Davis, of Cloquet, made a business call in New Duluth Tuesday.

Byron Karn, Arthur Mahoney, Will Boylan, Jo Wood, Paul Sheff and Andrew Berg attended the excursion to Fond du Lac Sunday.

Mr. Triggs and A. C. Volk, of Duluth, were in New Duluth Sunday looking over the factories and houses here. The land company's property here has been bought by an Eastern firm, which will endeavor to get some new manufactories in New Duluth. Mr. Triggs says every house in New Duluth will be occupied by next spring and by a year from now there will be 25,000 people here. The Atlas building is to be occupied soon by a firm which will manufacture agricultural implements. Two other firms are to locate here in the spring.

Miss Belle Crawford and Miss Hattie Whitcher left Monday for a visit with reatives in Jamestown, N. D. Miss Crawford will go from there to Minneapolis, where she will make her home in the future.

Among Sunday's Duluth visitors were Charles Bartz, Herbert Thayer, Arthur Mahoney and Byron Karn.

A train of cedar poles and ties was shipped to Crookston this week. Fifteen other cars were shipped to various points.

Mr. and Mrs. Ed Simpson and Miss Jennie Simpson, of Barnum, visited Mr. and Mrs. Biebel Friday and Saturday.

Roy Huggins returned to West Superior Monday, after a brief visit with friends here.

A number of cars of refrigerators were shipped to Pittsburg, San Francisco, Chicago and Kansas City tuis week.

Harney Vizger returned to his home in Detroit Thursday.

Among those who went to Duluth Wednesday were Mrs. I. J. Mahoney, Mrs. Hudson, Misses Smith, May Thayer and Frank Brand and son, Roy Brand.

A number of carloads of boxes were shipped from the box factory to Duluth and Chicago this week.

The boat Julia M. Ray brought up a load of cedar Sunday and the Belle Cross came up Tuesday with poles and ties.

McKINLEY.

McKinley, June 21.—(Special to The Herald.)—Mrs. M. Eggleston, of Minneapolis, is visiting with her daughter, Mrs. Dr. Farmer, for a couple of weeks.

W. Bernard attended business at Two Harbors on Wednesday.

Roadmaster John Shea, of the Duluth & Iron Range, was in town Wednesday.

The Elba and Corsica mines paid off their employes this week.

Sam Kitto visited relatives at Tower over Sunday.

It is reported that the village is likely to be moved in the near future, owing to the location of a good body of ore under it by Superintendent Parmalee, of the Franklin mine, Virginia—the Republic Iron and Steel company having an option on the townsite mineral interests. It has been long known for years that there was ore underlying the town, but a thorough exploration has not been made before.

The Hale mine has started a steam shovel to work loading their stock pile.

R. Murray, of Biwabik, was in town a couple of days this week.

The Iron Range and Duluth, Missabe & Northern railways have connected their lines with a regular transfer track at Bender, making three points at which they now have car lots transferred—Virginia and Biwabik being the other two.

William Kiesling is the night yeeye operator for the Duluth & Iron Range at Virginia and Biwabik, has resigned.

Frank Klink looked after his business interests at Biwabik, Tuesday.

The Iron Range will soon start work fencing their line between here and Eveleth; about eighteen miles of fence will be built. They also have a gang of men at work repairing and building tracks at the mines in this vicinity.

Some parties broke into a freight car at Biwabik and stole a case of whisky. They were located and arrested and made to pay for it.

The Genon Iron company have started their shovel to work loading their stock pile and expect to work it steady from now on.

Superintendent McDougall, of the Roberts mine, transacted business at Virginia Tuesday.

Frank Wilson has resigned as night operator for the Duluth & Iron Range at Biwabik.

BEMIDJI.

Bemidji, Minn., June 22.—On Thursday the first meeting of the Epworth League for the Crookston district, comprising 13 services from Breckenridge to St. Vincent, and as far east as Cass Lake, opened in the M. E. church, in this city.

D. M. McHenry, special agent of the United States land department, accompanied by Dr. J. A. Roach, of Alliance, Ohio, came in from Crookston Monday and went out to Guenta on a bass fishing trip to be absent several days.

Mrs. C. H. Miles returned from Kansas City last Saturday, whither she was called to be present at the death and burial of a sister. Her sister, Mrs. J. Vogler, and sister-in-law, Mrs. B. McCulloch, accompanied her here, where they will remain during a portion of the summer.

Mrs. Bartell left for Minneapolis Wednesday, where she will remain for two weeks before returning to her duties with the Telephone company of this city.

Mrs. Andy Clavin left for Little Falls Thursday, on a visit of two weeks' duration. She may visit the Twin Cities before her return.

Mrs. C. C. Shepherd and son departed for Brainerd Tuesday, where they will visit with Mrs. F. D. Stillings and other friends.

Miss Mella Skogen has gone to Mayville, N. D., her home, where she will remain for an extended visit.

W. M. Sherwood, Matt Kline and Miss Cora Chapman have left for Dallas, Oregon, where they will settle upon claims.

The Beltrami county summer training school for teachers will be held at Bemidji in the high school building, opening July 14, to continue for four weeks until state teachers' examinations.

Snevlin, Carpenter & Co. have offered to locate a first-class sawmill here providing a site to contain about 100 acres be furnished free of charge and also that a guarantee be furnished that said company shall not be compelled to pay more than $1000 taxes each year for the period of ten years. The townsite company has agreed to pay one-half the amount to purchase the site, and the citizens are to pay the balance, the whole cost estimated to be $6000.

The Park Region G. A. R. association, which includes nearly the north half of the state, from Duluth to the Red River of the North, has decided to meet at Bemidji in 1903.

BIWABIK.

Biwabik, June 21.—(Special to The Herald.)—One of the Duluth, Missabe & Northern company's Mogul engines, hauling a long train of cars from the Biwabik mine, was wrecked by a switch which was turned, throwing the engine, tender and four loaded ore cars off the track. The accident occurred Tuesday morning at the switch leading to the mining yards and the "Y," and delayed traffic for half a day, as no trains could be moved until the wrecking crew arrived from Proctorknott, and removed the obstructions. Fortunately, no one was hurt by the accident.

Joseph Smoke, formerly a business man of Biwabik, but now in business at Ely, called on friends here Monday.

Frank Berlin, left Monday for Hibbing, where he has found employment.

Mr. and Mrs. H. Wheeler visited with friends at Sparta Sunday.

Mrs. Cohen returned Monday from a short visit with Virginia friends.

Miss Mayme McGraw visited with friends at Two Harbors Saturday.

The local school held its examinations Monday and Tuesday of this week and the graduation exercises of the Eighth grade was held Wednesday at the village hall, before a large audience composed of the parents of the children and citizens. The hall being filled to its full capacity. The first part of the program was composed of drills and songs by the lower grades, followed by the presentation of diplomas to the graduates by Moderator Riley. The final part of the program was a two-act comedy, entitled "Hans von Smash," which was nicely rendered by the pupils of the upper grades, and Hulda Fritzberg, Lillie Eyer, and Kate Thomas.

Mrs. Prior and son left Thursday for their home at Tower, after a week's visit here, as the guest of her parents, Mr. and Mrs. William Smith.

Owing to the discovery of iron ore under the townsite of our nearby neighbor McKinley, the owners of the mineral rights to the townsite, McKinley Bros. are making preparations to move the village upon one of the hills adjacent to its present location, in order to develop the property. It is expected that this will give a new lease of life to the village, which, although one of the first built on the range, received a severe setback during the panic, from which it never really recovered. There is at present but one mine working at McKinley, the Roberts, but there are two being worked at Elba, three-fourths of a mile distant, and as there are no stores at Elba, the town is necessarily tributary to McKinley.

Pat Fitzpatrick visited with Ely friends the first of the week.

J. M. Burwick, of Two Harbors, has taken Floyd Forgy's run as conductor on the Biwabik-Virginia Short line, Mr. Forgy having returned to his home at Duluth.

Miss Annie Mack left Wednesday for Sparta, where she will reside.

Mrs. J. D. Schilling returned Wednesday from a short trip to Duluth.

William Cox arrived here Monday from Ely, and is now employed at the Biwabik.

Mr. and Mrs. Bowser, of the Hale, who have been visiting with friends at West Duluth for the past week, returned home the first of the week.

Miss Jeanette Glaesner spent Sunday at Eveleth with friends.

Mrs. Nelson, of McKinley, visited with friends here Saturday.

Little Frank Faber, who was seriously injured by a fall from a horse a few days ago, was out again Monday, having entirely recovered from the effects of his fall.

George Thomas left Tuesday for Cottage Grove, Oregon, where he will make his home in the future.

Beatrice Crotou, the young daughter of Mr. and Mrs. Frank Crotou, met with a serious and painful accident Wednesday evening. While playing with her companions, one of them ran against her, throwing her to the ground, breaking her collar bone.

Charlie Bray, of Minneapolis, is visiting in Biwabik this week with his uncle, Dr. C. W. Bray.

Miss Ober, of the local schools, left here Thursday morning for her former home at Austin, Minn., where she has been called by the illness of her mother.

An important change was made in the management of the Biwabik mine this week, the former superintendent, J. D. Schilling, who has served in that capacity for the past seven years, having resigned, to accept a more remunerative position with the Cornwall Mining company, of Pennsylvania. Mr. Schilling left Monday morning to enter upon his new position, and the owners of the mine appointed John S. Lutes, the assistant superintendent to take Mr. Schilling's place. Frank S. Dane, the president of the village, who has been superintendent of the Franklin mine, has been advanced stripping at the mine, has been appointed to the position formerly occupied by Mr. Lutes. Mr. Lutes, the new superintendent, has made great strides in the mining world, having come here only seven years ago from the East, while yet a boy, to take the position of time-keeper at the mine, from which position he has rapidly advanced to his present position. In addition to this, Mr. Lutes has for the past five years held the position of village recorder.

Mrs. E. A. Gill visited with friends at Eveleth Thursday.

The local school closed for the summer vacation Friday, and the teachers are preparing to leave for their homes. A dancing party was given Friday evening in their honor by a number of the young set, which was largely attended, a number of people being present from the range towns and Two Harbors.

Miss Eva McGraw was a Duluth visitor Wednesday.

Miss Carrie Truman, of Two Harbors, arrived in Biwabik Friday for an extended visit with friends.

L. H. Brown, of Hibbing, transacted business in Biwabik Thursday.

Jed Schilling left Tuesday for Tower, where he will be employed throughout the summer.

HIBBING.

Hibbing, June 21.—(Special to The Herald.)—Robert Godfrey and Mrs. Maud Garrity will be united in marriage Sunday by Rev. C. V. Gammon. Both parties are well and favorably known here. Mr. Godfrey is a trusted employee of Winston Bros. & Dear. Mrs. Garrity has taught in our public schools the past three years.

Frank H. Dear is in Minneapolis undergoing an operation for appendicitis.

A number of children will receive first communion Sunday at the Catholic church. High mass will be sung by Rev. Gamache at 9:30 a. m. A special musical program has been arranged. Miss Caldwell will preside at the organ.

Mr. and Mrs. Martin Hughes returned Monday evening from Duluth, where Mr. Hughes was laid up at St. Mary's hospital the past month from the effects of pneumonia.

Mrs. John M. Martin, of Bemidji, formerly of this place, visited friends here Tuesday.

Messrs. Hughes, Brady, Clark and Woods were Virginia callers Tuesday.

The five-months-old child of Mr. and Mrs. John Gruelling died Wednesday.

George L. Spangler, of Duluth, was here Friday.

At the Demomratic primaries here Tuesday, B. O'Rourke, David Burke, M. J. McGovern and S. Lekve were elected delegates to the convention in Duluth.

John A. Redfern has purchased the property opposite the Superior hotel from John Bergman for $3000, and will immediately commence the erection of a brick block.

SPARTA.

Sparta, June 22.—(Special to The Herald.)—Al Jones departed for Minneapolis Friday morning.

Mrs. Louis Shurman visited with her parents in Eveleth Wednesday.

D. E. Holston, of Duluth, transacted business here Thursday.

Miss West departs for Galesburg, Ill., today.

Gus Anderson has accepted a position with Andrew Saatala.

Rev. Father Billbin looked over the new Catholic church here the fore part of the week.

Miss Margrette O'Brien departed for St. Paul Friday for a two months' visit with her sister, Mrs. T. H. Driscoll.

Capt. Claude M. McKenzie and wife drove over from Pettit Tuesday.

Mrs. McClure departed for Duluth Friday afternoon, after a visit with her son, Charles, of this place.

Miss Della McNevins and sister, Miss Adaline Jedawan, Miss Flora Kyle and Mrs. Ira Severance left for St. Paul Friday.

A very pretty farewell party was given the school teachers at the pleasant home of Mrs. Kate Jury, on Dor avenue, Thursday evening. Music and dancing was indulged in. Ice cream, strawberries and cake were served at midnight. Those present were: Misses Kyle, O'Brien, Jedawan, McNevins, Shea, Luke, McNevins and Mrs. July; Messrs. Pratt, Colvin, Jones and Fulton. The teachers left for their respective homes Friday afternoon. They all have been secured for the next term of school.

Mrs. John Papic and Mrs. Fred Wirth were shopping in Eveleth Friday.

Miss Shapiro, of Eveleth, was the guest of her sister, Mrs. Louis Shurman the fore part of the week.

Mrs. Helma Rohonen arrived from Hango, Finland, Wednesday.

Mrs. Julius Bordeau and Mrs. Charles Hooker visited with friends in Eveleth Friday.

Mrs. E. Trenholm will leave for Dakota next week.

GRAND RAPIDS.

Grand Rapids, June 21.—Richard Boehn, a brakeman on the Itasca logging road was killed last Monday night at the switch yards in Deer River. In trying to make a coupling Boehn was caught between two cars and almost instantly killed, living but about ten minutes. The deceased was well known in Grand Rapids, having resided here for several years.

An entertainment will be given by Miss Mitchell under the auspices of the Ladies' guild at the village hall, Tuesday evening, June 24.

The June term of the district court adjourned Friday noon, a great many cases on the calendar being dismissed and others carried over until next term. Two of the cases against W. A. Everton, of Deer River, were carried over until next term, although the county attorney wanted the cases dismissed. The cases against a number of Deer River ex-officials were nolled.

The Cook hotel, one of the oldest buildings in Cohasset, owned by the Nelson Bros., was completely destroyed by fire last Saturday night as were also the barns and other outbuildings. The fire is supposed to have started from a defective chimney in the kitchen. The owners carried $2000 insurance on building and contents, which will not cover the loss.

The entire loss by the fire at Deer River last Tuesday morning was about $12,000, with $7000 insurance. The buildings destroyed were: A. J. Overton & Son, groceries; C. W. Robinson, saloon; James Bros., saloon; G. T. Robinson, saloon and Eli Lazelle, barber shop; Wills & Hapgood, saloon. By very hard work on the part of the citizens the store of A. D. & P. R. Brooks was saved, as was also the News building and postoffice.

Charles Voight who, about two months ago, left Grand Rapids for the Pacific coast with the intention of making his future home in that part of the country, returned Sunday. He says that he had a very pleasant trip, but that Itasca county is good enough for him.

Senator C. C. McCarthy departed Monday for an extended trip to the Pacific coast. Mr. McCarthy's health has not been very good for several months and it was decided best that he should take a vacation from his law work and devote himself entirely to pleasure for a couple of months.

The ball game Sunday between the paper mill boys and the Grand Rapids mine was not played as well as the game a week previous, but it resulted differently. The Grand Rapids nine won the game by a score of 12 to 6.

Henry R. King returned the first of the week from a trip to Arkansas and the Indian Territory. Mr. King is much pleased with that country.

Miss Mae Shook, who has been attending the Duluth high school, has returned to her home in this city.

Mr. and Mrs. D. G. Southerland, of Clarinda, Iowa, sister and brother-in-law of Miss Chink Cleveland, are here for a three weeks' visit.

Miss Alice Tyndall is visiting friends and relatives at Carlton this week.

L. H. Brown, of Hibbing, was here Friday on a several weeks' cruising trip into the Big Fork country.

Mrs. W. E. Neal returned Tuesday from a two weeks' visit in Minneapolis.

Born—To R. H. Patterson and wife, Wednesday last, a girl.

W. J. Kelly returned Monday from a trip to the Twin Cities.

John Arbo has returned from a business trip to the Twin Cities.

Mayor D. D. Cameron returned Sunday from a business trip to St. Paul.

Mr. and Mrs. William Dibbert are the proud parents of a 10-pound boy.

E. J. Frost is taking in the sights in the Twin Cities this week.

Mrs. O. L. Mather went to Minneapolis Monday. She will make her home in that city during the summer.

The family of Emil Litchke is quarantined with smallpox. Two members of the family having contracted that disease.

Mrs. R. S. Rudolph is visiting her son, R. H. Patterson of this village. Mrs. Rudolph is from Canada.

VIRGINIA.

Virginia, June 21.—(Special to The Herald.)—School graduating exercises were held in this city Wednesday and Friday nights, the former being the promotion of the Eighth grade to the high school and the latter the high school graduates proper. Wednesday evening's exercises were seven promotions made, the personnel being Emma J. Duffin, Adolph F. Holmer, Olga A. Hannah, Herbert King, Mary L. Rooney, Leon Reid and Millie Rose Shane. The program was very interesting, the readings and essays being interesperser with songs by the high school chorus. Friday evening the graduates were Frank L. Donnelly, Anna C. Griggs, Alexander King and Susan M. Pratt. The exercises were held in the opera house also, being largely attended. Frank L. Donnelly, one of the graduates, met wi... a serious accident two weeks ago and was unable to be present. The following was the program of the evening:

Music—"The Heavens and the Earth Declare" ..... Veazie
High School chorus.
Invocation ..... Rev. A. E. Rowson.
Essay—"John Ruskin" ..... Anna C. Griggs.
Solo—"The Throstle" ..... Maud Valerie White
Gus Anderson.
Music—"Blow, Soft Winds" ..... Vincent
Girls' chorus.
Essay—"Some of Shakespeare's Heroines" ..... Susan M. Pratt.
Music—
(a) "The Year's at the Spring" ..... Beach
(b) "The Daisies" ..... Hawley
Anna C. Griggs.
Essay—"American Means Opportunity" ..... Alexander Kinz.
Chorus—"Night" ..... Ergmann
Address ..... High School chorus.
Address ..... State Superintendent J. W. Olson.
Address to Class ..... Superintendent S. W. Gilpin.
Conferring of diplomas ..... Director J. H. Hearding.
Music—"The Lost Chord" ..... Sullivan
High School chorus.

The regular morning passenger of the Missabe has been taken to Hibbing on the regular run, the change going into effect Wednesday morning. This train has been making Virginia its destination for nearly ten years, but owing to slack business here and competition by the Great Northern the old 10:20 was transferred. The Hibbing scoot which left here at 9:40 in the morning goes to Wolf Junction only and returns at 10:30 with the trans..... and leaves at the regular time at 12:50 for Wolf Junction to convey to the regular the Duluth passengers and get ... transfers there. Conductor W. L. Barber has this train.

The ball game, which was to have been pulled off Tuesday afternoon between the fats and leans was indefinitely postponed on account of rain. The first bright day the game will be played.

The boys of the local school held a field meet on national flag day, Saturday, and many niteresting events were pulled off. The winners of the high school contests were: One hundred yard dash, Stewart Smith; bicycle race, Alex King; standing long jump, George Michan; running long jump, George Michan; running high jump, tie between Alex King and George Michan. Sixth, Seventh and Eighth grades: 100 yard dash, bicycle race and 440 yard race were won by Leslie Reid. Fourth and Fifth grades: 100 yard dash, Anton Ahlstrand; bicycle race, Ernest Krause; sack race, Albert Eddy. Third and Fourth grades: 100 yard dash, Elmer Vilmur; sack race, Elmer Vilmur.

The reception and social hop given at the opera house Monday evening by the high school "jollifieds" was a success in every way. The jollifiers is a club organized by the high school girls and many pleasant evenings were passed by them during the past winter. H. Lien's orchestra furnished music, ice cream and cake were served at 11 o'clock.

Amos Shepard, lately appointed general manager for the Corrigan-McKinney interests, was in the city over Sunday.

H. S. Clark, W. E. Hannaford, James Sullivan, Ned K. Farrand, Nels P. Fordham and A. E. Bickford, who composed a fishing party to Rice lake Saturday and Sunday, have got home, but that is all they got.

Thomas F. Brady and Martin Hughes, two Hibbing attorneys, were in the city Tuesday on legal business.

A. A. Hobbs, a Duluth lumberman, was a business visitor here Tuesday.

A party of twenty Hibbing Knights of Pythias passed through the city Thursday evening on their way to Eveleth where they conferred second and third degrees on candidates. They left this city again at 7 o'clock yesterday for home.

The St. Paul guild of the Episcopal church was organized last Thursday afternoon at a meeting held at the home of Mrs. W. H. Eaton. Officers elected were: President, Mrs. C. W. Miller; secretary, Mrs. R. W. R. Freeman; treasurer, Mrs. H. Turnbull.

Nearly all the money needed for the celebration of the Fourth of July has been collected by the finance committee appointed by arrangement a week ago.

Charles LeClair, of Hurley, was in the city Wednesday.

Capt. William White, of the Grant mine, was over from Buhl Sunday.

The Misses Mollie and Irene Sweeney were up from Duluth this week to attend the school exercises.

James Klintworth, of Eveleth, has accepted a position as bookkeeper for the Cole & McDonald Exploration company of this city.

Recorder and Mrs Shane, of Chisholm, attended the promotion exercises at the opera house Wednesday evening, at which time their daughter, Millie, took a prominent part and was one of the graduates.

Jacob Stein has been at Duluth most of the week. He has purchased and shipped to this city a very neat turnout.

Mr. and Mrs. Fred Lerch, of Hibbing, visited in Virginia this week.

Earl Richards has returned from the university at Minneapolis and will remain until the fall term commences.

Nine years ago Wednesday last the city suffered its first disastrous fire and it was the general topic all day.

W. H. Shea and son, Will, were over from Eveleth Tuesday.

Dr. W. I. Bailey, a graduate from a Pennsylvania school of medicine, visited with his brother, Richard, here a few days this week. He has not as yet decided on a location for actual practice.

Rev. J. M. Todd left yesterday for Topekt, Kan., where he will spend a month. No services will be held in the Presbyterian church during his absence.

Mayor W. H. Eaton is having a cottage built on the lot west of his dwelling and when completed it will be occupied by Mrs. H. Turnbull.

Miss Louise Verville has accepted a position as clerk at Rupbloff's ice cream parlor.

Mr. and Mrs. Frank Orr are visiting in the city this week.

Dr. Bates and party are doing some fishing at Half Moon lake this week.

Frank Schoenberg has returned from St. Mary's hospital at Duluth, where he had been confined with an abscess on the leg and an operation on the same.

The Royal Neighbors tendered an ice cream social at their hall Wednesday evening. They cleared about $14.

Mrs. E. W. Coons was over from the Stevenson mine near Hibbing Tuesday.

Peter Shipley spent Sunday with his son, Frank, at the Stephens mine, near Biwabik.

Mrs. Louis Larson was over from Eveleth Monday, visiting her parents.

Recorder and Mrs. Bickford visited at Eveleth Wednesday.

Mrs. Clarence Moore has returned from a visit at Dakota.

Byron Andrews, of Two Harbors, spent Wednesday with friends here.

Assessor John Saarl, of the Missabe Mountain township, was in the city Thursday.

The automobile has arrived and it is the seventh day wonder. The people of Eveleth are especially much interested as they have never had a touch of real metropolitan affairs before.

Mrs. John Stein has gone to Marinette, Wis., for an extended visit.

CLOQUET.

Cloquet, June 21.—(Special to The Herald.)—Rev. F. C. Coolbaugh attended the diocean convention in Duluth Thursday.

Ole Wickman, carriage rider in the Cloquet Lumber company's mill, was badly hurt Thursday night by the carriage running away. His left thigh was broken and it is thought that perhaps he has also sustained severe internal injuries.

C. L. Dixon will go to Crookston on Monday. He will be absent some days.

The body of James Lane, brother of Mrs. Amos Fox, who was drowned on the drive last Spring has been recovered and was brought here for burial Thursday. Rev. J. W. Heard officiated.

The Sunday school of St. Andrews' church went on their annual picnic Thursday. Thomson was the point selected and with an ideal day and by the efforts of a host of friends the little ones had a glorious time.

Guy L. Rogers has leased the store in the Longth building, corner of Broadway and Cloquet avenue and will embark in the hardware business.

Freimuth, of Duluth, has leased the Elm block, and will open a branch department store, when the same is ready for occupancy.

Mr. and Mrs. Deming has returned from Eau Claire, Wis.

W. L. Case visited Duluth Wednesday on business.

John Brock has opened a boarding house in Eastern division.

The stereopticon entertainment representing the "Passion Play," at Opera house Thursday evening drew a large crowd.

ELY EVENTS.

Ely, June 21.—(Special to The Herald.)—The baseball game Sunday between the "Miners" and the "Bums" resulted in a score of 14 to 16, the Miners winning the game.

The Ely fire boys are practicing running every week so as to be in good condition at the firemen's tournament which takes place at Virginia in August.

Mr. and Mrs. W. R. Opie are spending the week at Burnside lake.

Mr. and Mrs. Peter Wagner will leave Monday morning for Portland, Ore., where they will reside in the future. Mr. Wagner has disposed of all his property in this vicinity.

Miss Florence Carey left Saturday for Wakefield, Mich., where she will visit for a week or more with friends and relatives.

Will Cox returned from Biwabik Monday, to take charge of the Chandler steam shovel.

Louis Sletten is remodeling his place of business on Sheridan street, which his increasing business makes necessary.

R. E. Patterson, state boiler inspector, was in the city several days this week, inspecting boilers in this vicinity.

Mr. Taylor, of Jersey City, N. J., arrived in the city Monday evening to take the leadership of the Ely City band.

The many teachers of the Ely public schools left Monday for their respective homes, to spend the summer vacation.

A farewell dancing party will be given this evening at the Turf hall for the Kent girls, who leave Monday morning for their home in Minot, N. D.

Dr. and Mrs. Ayers are the proud parents of a baby boy.

Fred McQuade was in the city this week representing the Hammond Packing company.

Wagner's orchestra arrived home from Tower Wednesday noon, where they furnished the music Tuesday evening for a farewell party given in honor of the teachers.

The 8-months-old boy of Mr. and Mrs. M. G. Whitford, died Sunday evening after an illness of a few days. The funeral took place Monday afternoon from the Catholic church.

John Lee, who was employed in the yards of the Duluth & Iron Range in this city, was seriously injured while at work at the Zenith mine Saturday of last week. Mr. Lee was in some manner thrown from one of the cars and sustained severe internal injuries.

F. R. Vail and daughter, Norah, spent a few days in Eveleth this week.

The Woodmen's lodge of this city attended the meeting of the Winton lodge Tuesday evening and all reported a good time. Lunch and refreshments were served.

The city council met Tuesday evening at the council chambers in the city hall and routine business was transacted.

Ely, as usual, will celebrate the glorious Fourth. At a meeting held Friday evening the following committees were appointed to carry out the plans for an elaborate celebration; Printing committee, Thomas Jury, P. Schaefer; music committee, M. E. Gleason, O. G. Korb, P. T. Brownell; decoration committee, Ed Crossman, Grant McMahan, A. D. Ellefsen, Thomas Jury, T. W. Bartlett, O. G. Korb, John Bedford, Anton Kottevar, John Lindbeck, Martin Kupech, Joseph Skala; invitation committee M. E. Gleason, P. Schaefer, John Gouze, J. Palmgard; sports, Grant McMahan, Van Blarcom, W. B. Goldsworthy, P. R. Vail.

Street Commissioner N. G. Erickson has a crew of men busy this week putting in sidewalks wherever they are needed.

The school board district No. 12 has selected the teachers for the ensuing term of school beginning the first Monday in September. They are as follows: C. L. Newberry, superintendent; Adelaide E. Wilke, Emma K. Newman, assistants; Bertha J. Bradley, grammar grade, Eva O. Johnson; fourth grade, Laura Wilkelow, Elizabeth Maloney, Winton, Eva Davis, Emma Leyde, Lulu C. Wright, Lillian Ada Scott, Amy C. Westcott, Ida Schiefe, Olive Cowen, Clementa Bartlett.

At the home of the bride's parents this evening will occur the marriage of Alida F. Lockett and William Thomas Davey. The young couple are well and favorably known and their many friends wish them unlimited happiness in their new undertaking.

Mrs. A. Anderson is seriously ill with tuberculosis at her home on Camp street.

Nikolai Maki and Minnie Niemi secured a license to wed yesterday.

Professor and Mrs. C. L. Newberry departed Tuesday morning for Kenosha, Wis., for a visit with friends and relatives, from there they will leave for Stockport, Ohio where they will spend the balance of the summer vacation.

Miss Violet Smith, of Duluth, is visiting with Mr. and Mrs. J. L. Shannon.

Mrs. J. L. Shannon entertained a party of young people at her home on Third avenue, Wednesday evening in honor of her guest, Miss Smith, of Duluth.

Mrs. F. L. Cowen and daughter returned Saturday evening from their Tower visit.

William Besson and A. C. LeDuc, Duluth, were in town over Sunday.

John Whiteside was up from Duluth Sunday on a visit with friends.

Mrs. Joseph Williams and son, of Soudan, are in the city, having been called to the bedside of Mrs. Williams' son, John Lee, who was injured Saturday.

Mrs. Louis Eisnach and son, Walter, left Monday for a week's visit with friends in Duluth.

Miss Lena Mosserschmidt left Saturday for her home at Winona.

Miss Adelaide Wilke left Monday for her home in Madison, Wis.

Misses Cowan, Wiklow, Wooley, Scheefe and Bradley left Monday for their respective homes.

EVELETH.

Eveleth, June 22.—Preparations are being made for a grand celebration here on the Fourth. The firemen have engaged the Schubert Symphony club, of Chicago, to give a grand ball the night previous.

The Finnish Temperance societies of the Mesaba range are going to give an excursion to Tower Sunday, where all the societies on the Mesaba range will join with their brethren and assist in the dedication of the new Finnish hall.

The ladies of the Methodist church held a handkerchief sale and New England supper in the Adams block Saturday night, and netted quite a snug sum for the church.

Miss Loretta Dowling, who has been here for the past five months with the family of her uncle, returned to her home at Grafton Pioneer, Ont., on Wednesday. She was accompanied to Duluth by her uncle, P. E. Dowling.

Mrs. G. A. Whitman, of Tower, spent a couple of days here this week the guest of Mrs. W. J. Smith.

Capt. Harry Tregillis, formerly of the Fayal, left on Monday for points in Mexico, where he has secured a position as manager of one of the mining properties in that country.

Miss Mollie Sweeney, of Duluth, visited friends here on Monday. Miss Sweeney was formerly a teacher in our schools.

Mrs. Frank Campbell, returned Saturday from Cass lake, Wis., where she has been visiting her parents for a few weeks.

Mrs. James Lanlson left Wednesday for the home of her parents at Marinette, Wis., where she expects to visit for the summer.

The commencement exercises of the Eveleth schools were held in the Vail opera house, and a splendid program was rendered. Miss Mae E. Trezona, a daughter of the superintendent of the Fayal, was the only graduate from the high school, while from the grammar class those who graduated were Miss Anna Van Buskirk, Miss Marie F. Page, Miss Florence J. Knight, Frank J. Feldmind, Allister D. Murray and Thomas F. Trezona. A large number of parents and friends of the pupils were in attendance. A very pleasing talk was made by State Superintendent John W. Olson and J. H. Heading, chairman of the school board.

Flag day was observed here on Monday by the students of the two schools, and it was a very imposing sight. The children formed in line at the Fayal high school and marched through the streets in double file, some 600 strong, headed by the Eveleth Star band and Superintendent Stevens as master of ceremonies. Each of the children carried flags and were formed into sections, each section representing a room and under the charge of the teacher. They marched through the principal streets of the city, thence back to the school house, where appropriate exercises were held.

IRON RIVER.

Iron River, June 21.—(Special to The Herald.)—J. Barrette, of Chicago, visited our city last Saturday with a view of opening up a business here.

George Howard, of Port Wing, was in the city last Monday on business.

Hans Myers returned home to Clinton, Wis., last Tuesday with a view of moving his family here. He thinks that Iron River is one of the liveliest little towns in the state.

Mr. and Mrs. Olson, of Eau Claire, are visiting with their daughter and son-in-law, Mr. and Mrs. Chris Olson, of this place.

Mrs. Samuel Babb received a message last Saturday evening from M. S. Welch, of Whitcomb, Wash., stating that her husband, Samuel Babb, was dangerously sick. Mrs. Babb left last Sunday morning to see her husband. Tuesday evening at 5 o'clock George Babb, their son, received a telegram that his father was dying, and Wednesday morning received a telegram that he was dead. Mrs. Babb had not reached Whitcomb in time to se her husband alive. The news of Mr. Babb's death was received here with deep sorrow by his many friends and neighbors in this city. Mrs. Babb expects to bring him to Iron River to be interred here, and is expected to arrive on Monday evening next. He leaves a wife and five children to mourn his loss. Mr. Babb was a veteran of the civil war. He enlisted in Company E, Eleventh Maine Infantry, on Nov. 12, 1861, and was in many engagements until he was wounded in the battle of Bermuda Hundred, and after he recovered with careful nursing, he again re-enlisted. He found himself unfit for service in the fighting line, and was detailed wagon master and served in that capacity with Grant's army until Lee's surrender. Since then he lumbered quite extensively at Chippewa Falls, then came to Iron River at the start of the town and settled down. He was twice elected assessor inth is town and afterwards he went into the livery business and proved very successful. He sold out his livery stable business to Isaac Hubbard last spring and went West thinking that the climate would be more healthier for him out there than here.

Lyman T. Powell, of West Superior, was in the city last Sunday and Monday. He and W. R. Hoover spent a day's trout fishing while here.

Peter Beckstrom was seriously injured last Thursday by the breaking of a belt in the planing mill of Alexander & Edgar Lumber company's mill.

Max Helmer spent last Sunday at the head of the lakes.

Louis Kopf, of West Superior, was in Iron River last Monday transacting business.

Chairman Nels Nelson, of the town of Washburn, was in the city last Monday while on his way to West Superior.

George McKerrow, assisted by W. C. Bradley, conducted the Bayfield county farmers' institute in this city yesterday. The farmers turned out in goodly numbers.

Charles Winters left last Thursday for Chilton, Wis., to visit with relatives and friends there for a week or two.

Dan McKenzie, of Detroit, was in the city last Wednesday looking after business.

J. W. Shaw, of Marquette, was in the city last Thursday on business.

John Enery, of Ashland, was in the city yesterday on business.

James Riley left here yesterday for Herbster, Wis., to be gone for about a week on business.

Eric Sundstrom was up to West Superior last Tuesday on legal business.

The Republican politics are now at a fever heat between the stalwarts and the LaFollette factions. The caucus is to be Saturday evening between the hours of 7 and 9 o'clock, both sides are in battle array and determined to contest every inch of ground. The fight appears to be between the Alexander & Edgar Lumber company influence and two citizens of the town for La Folette. The fight promises to be warm.

CASS LAKE.

Cass Lake, June 22.—(Special to The Herald.)—On Thursday, Friday and Saturday of next week, the firemen, who are members of the Northern Minnesota Firemen's Tournament association, will assemble in Cass Lake to participate in the eighth annual convention and races of the association. The people of Cass Lake will extend the "glad hand" to the fire laddies, and the visitors are assured of receiving cordial treatment. The running events from five departments (composed of not less ...an fifteen men each) have sent their entries to Secretary Rutledge as follows: Bemidji, Park Rapids, Grand Rapids, Brainerd and Cass Lake, with a possibility that Hallock may enter. That there will be a large crowd present at the tournament and on the Sunday following there is no reason to doubt. With the firemen's convention and the Gun club shoot first three days, and three special trains and a championship game of baseball for a purse of $100 on the fourth day, there will be "something doing" continually from June 26 to the 30th.

John Sheehy is the proud father of a second son, which was born to himself and his good wife on Wednesday.

During the past week the committee in charge of the firemen's tournament received an elegant solid silver service trumpet, donated by the Thomson-Glaskin company, of Duluth, as a prize in one of the races next week. The trumpet is engraved on the side as follows: "Presented by the Thomson-Glaskin company, Duluth, to the Northwestern Firemen's Tournament of the Northern Minnesota Firemen's Tournament association, Cass Lake, June 26-27-28, 1902." The trumpet, together with a cash purse, will be given as first prize in the service wet test.

George Hankey, Charles Hutton and F. H. Henry, of Grand Forks; F. L. Thompson and C. J. Lord, of Cando, and Leo W. Marshall, of Crystal, a jolly party of good fellows from North Dakota, returned to their respective homes last Sunday, after spending ten days in this vicinity fishing.

The village board of equalization will meet at the council rooms next Monday.

T. E. Jondahl, of Guthrie, and Miss Eunice Goden will me married at Park Rapids tomorrow. The groom-to-be is one of the prosperous farmers southwest of Cass Lake, and is a very popular young man.

The ladies of the Catholic church will serve ice cream and lunches during the firemen's tournament and the day following, Sunday, at the firemen's bowery.

Mr. and Mrs. B. S. Bennett and family, of Fosston, came over from Fosston the first of the week. Mr. Bennett and a son have been enjoying the fishing here-abouts, while Mrs. Bennett remained at the Endion hotel, a guest of Mrs. Babcock.

Mrs. Brimhall, wife of Dr. Brimhall, of Minneapolis, and Mrs. N. F. Brennan, also of the Mill City, have been visiting in the village during the past week, the guests of Mrs. B. Whetstone.

Frederic Hartley and wife, of New York city, arrived in Cass Lake the first of the week and will remain here for some time, enjoying a vacation and outing among the pines.

TO MAKE IT STRONGER.

Beef Trust Will Form Gigantic Combination.

Chicago, June 21.—Another New Jersey combination of capital and interests, rivaling the United States Steel corporation in importance, is projected. It plans to be a billion-dollar concern. It may be called the American Meat company.

It is announced that the gigantic consolidation has been decided upon. The packing houses that have agreed to form the big combine are what is known as the "Big Four," and are Armour & Co., Swift & Co., Nelson Morris & Co. and the G. H. Hammond company.

Other concerns may be admitted. Even without additions the combination of the capital of the four firms will make a stupendous centralization of wealth.

Acre Tracts

Near Woodland to lease, with privilege of purchase. In quire of J. C. and R. M. Hunter, Exchange building.

Removal!

On or before July 1st, I will move from 201 W. Superior St. into my new quarters at

12 West Superior Street,

Near Lake Avenue.

R. Krojanker

Leading Furrier.

HISTORY OF VOLCANOES

Some Facts of Interest In View of the Eruptions In the West Indies.

By F. W. Fitzpatrick.

The accompanying paper was written soon after we absorbed the Philippines, but deeming it of little popular interest, it was laid away and forgotten until a few days ago the writer resuscitated it while cleaning up the lower regions, the limbo of his desk. Today, with the events surrounding the terrible devastation wrought in Martinique fresh in mind, this brief description of volcanoes, their numbers and generally accepted causation, may not be without interest.

It is noteworthy that the authorities upon the matters seismic were looking forward to some great demonstration somewhere near the two poles of the earth's flattening, that is somewhere in the Antilles or in the Sunda group of islands. It was about time for such periodic occurrence. No one, however, expected that the insignificant and extinct Mount Pelee would break forth and wreak such awful destruction. The details are all too fresh in our minds to require recapitulation here, but, one thing we may add, and that is the fear some of us feel that that eruption is not the end of that story. When such things occur in a group of extinct or semi-extinct volcanoes it frequently happens that others in the immediate vicinity—as, for example, boils upon the human body have a faculty of doing—follow suit in startling succession and sometimes greater violence than even the first one exhibited. Were I living anywhere near Martinique in that group of islands all undoubted volcanic, Caribs and Indefencites, the slightest rumble of the earth or the tiniest curl of smoke from a neighboring mountain would be the signal for me to promptly move my family and portable belongings elsewhere, however much I might desire to remain for purposes of scientific investigation, that by the way, is generally the reason I leave to the "other fellow" to attend to.

THE AUTHOR.

It is doubtful if many of my readers are aware of the fact that with the Tagals and other turbulent things we have gathered into our ample embrace in the Philippines, we have also acquired twenty odd more or less active volcanoes, not to mention some thirty extinct ones, that, however, are far more liable to bubble-up into extreme activity again than are the aforementioned newly elected cousins to stay "pacified," although they, too, have been so pronounced by the powers that be.

But then we have been trotting along at such a speed of late and have gotten into many things we wotted not of five years ago, that a few volcanoes, more or less, on our hands is a trifling matter, indeed. You see, we are getting quite a corner on volcanoes. We bought a whole range of them in Alaska a few years back, then a choice assortment came into our possession with the Hawaiian Islands awhile ago, and directly afterward we, seemingly liking the volcanic flavor, went over and forcibly detached a whole bunch of them in the Philippines from their old-time owners, the Spaniards. And so far at least, Allah be praised! we have not had to hold a court of inquiry to determine whether Dewey or Otis was to blame for some of them being extinct. No wonder Germany and other of our European friends are growing jealous of us. They are afraid of our activities in and solicitous protectorate over South America. And they may be justified in their suspicions of our intentions, for South America is just brimfull of volcanoes.

Strange affairs are those volcanoes. They and their first cousins, earthquakes, are about the last links that bind us to the Biblican beliefs in the sulphur, brimstone and Hades of our fathers. Only anyone to look at a volcano without feeling scold creeps running up his back and thinking of the "bad place" of his nursery days. Of course, if he be geologically inclined he will wonder if that particular eruption be from trachyte, andesite or basaltic rock and then proceed to find out all about the scoriae and its formation, but the first glimpse, I maintain, suggests the good old-fashioned plain Hell, without any geological or other trimmings.

There are volcanoes scattered all over the globe, the necessary chimneys or vents "for the free below," some in Iceland, a few thrown about in the Atlantic on the Azores islands, the Little Antilles here and there, many on the Mediterranean coast, three on the continent of Africa and a few select ones in the very middle of Asia. But the great volcanic ranges, the really important subterranean manufacturing districts, the "works" with the greater number of chimneys, you will find all around the edge of the Pacific. It is as if there had been a great upheaval there that scooped up the entire rim of a basin, hollowed out from about the middle to form a reservoir for that mighty body of water, the Pacific. Or you might compare that formation to one of your mother's old-fashioned cake-pans. You know what I mean, one of those fluted affairs with a funnel or chimney-like arrangement sticking up in the middle? Call that chimney part of the Sandwich islands; they crop out in about the middle of the Pacific basin and are all volcanic in their origin; then run the rocky coasts of that ocean (continuous mountain ranges—unlike the flat shores of the Atlantic-peopled out with volcanoes here and there, really a great "circle of fire," the known development of which is somethink like 22,000 miles in length; the side of the cake-pan and you have the simile complete. I might have given you more scientific comparisons, more high-falutin terms, but I think the cake-pan covers the point.

To the south, and forming one link of that circle, are the unexplored coasts of the Antarctic regions, great mountains and many volcanoes. Swinging northward you will find the next links, the volcanoes of Tongariro and Whagari on the New Zealand coast, the active and dormant ones of the Australian coast and of New Guinea, of Fiji and of the Solomon Isles. (And by the way, that region particularly portions of Fiji and of Sunda, is the most frequently disturbed of any explored territory. You are liable to see a new volcano any day and can depend upon an earthquake to rock you to sleep any night). Here there is a dent in the circle and the volcanoes swing off to the westward, forming a sort of isthmus, between Australia and the Indo-China peninsula, upon which there are 100 volcanoes constantly vomiting out wava, ashes and destruction all about. One part of that isthmus, Java, has forty-five volcanoes, twenty-eight of these very active, too, to her credit, and the beautiful island of Samatra can boast of almost as many.

North of Guinea the circle is again taken up and we have Ceram, Amboyna, Gilolo, Ternata, Celebes, Mindanao, Mindoro and Fuzon, all pretty active chimneys. North again of our Philippine volcanoes are those of Formosa, of Liu-kiu and of the minor groups, continuing that circle or up to the magnificent Fusiyama, the sacred volcanic mountain of Japan. Then there are the dozen or so volcanoes in the archipelago of the Kurlies and the fourteen fully active ones in the archipelago of Kamchatka, before the circle is again dented, bending inward in a sort of "loop the loop" form at the Aleutian islands that form another dike or isthmus effect of volcanoes across the tops of the Pacific, from Behring island to the Point of Alaska. There are thirty-four smoking chimneys upon this hyphen joining two continents.

Unimak has the honor of being the "farthest west" volcano of our continent. Its peak, 8000 feet high, is at the tip of the Alaskan peninsula.

Southward the "line of fire" continues with the comparative regularity of the in-and-out curves of the aforementioned cake-pan, down our Western coast, that of Mexico, the isthmus and along on down the Andes mountains to the properly named Sierra del Fuego, the end of a somewhat broken chain of fifteen.

Mount St. Elias, in the northwest territory, is Canada's principal volcano; its crater opens at a height of 17,700 feet. South of it are Mount Fair Weather, 14,-270 feet, Mount Edgecumb and the lesser volcanoes tops of British Columbia. Along our own coast in the Cascades of Oregon, the Sierra Nevada range and the Rocky mountains there are but few active volcanoes now. Baker, Renier and St. Helens are the only ones worthy of mention.

There are craters galore and other evidences of former "pernicious activity," but we do not come across any really important volcanic demonstrations until we reach the high plateau of Central Mexico. There we find the Colima, the Jorullo, the Nevada de Toluca, Istaschuatl, the Popocatepetl, the Orizaba and the Tuxtia, all grand pyrotechnic affairs.

In Guatemala and the Central American countries there are thirty volcanoes, some exceedingly active, Del Fuego, del Agua and the Phare d'Isalco are conspicuous examples. The latter lighting up the plains of Salvador for miles around. There are also the Coseguina, one 'of whose comparatively recent eruptions was probably the most formidable of modern times, the Viejo, the Nuevo and the Momotombo.

The peak of Tolima, some 17,800 feet high, is the most northern of South American volcanoes. Their formation is such as to lead geologists to believe that many are but dormant, however, not extinct. Mt. Wrangell, in Alaska, still emits steam and Illimna, on the west coast of Cook's Inlet, remains in a state of comparative calm only. In 1775 it was violent. So was Mt. St. Augustine in 1883, the latter was still smoking in 1895. There have been forty volcanoes, that we know of, in violent eruption in Alaska in the memory of man.

Mt. Hood, near Portland, Ore., emits steaming jets and sulphurous fumes from its top. So does Mt. Rainier. Mt. St. Helens, in Washington, was in active eruption in 1842, and Mt. Baker in 1843. Mts. Adams, Pitt, Jefferson, the "Cinder Cone" and Mt. Shasta have all given signs of life within the memory of the "oldest inhabitant." Mt. Mazama, in Oregon, shows us a crater six miles in diameter in it there is a lake that has been sounded to 1975 feet and is 6239 feet above the sea and has walls 2200 feet above the water!

In 1890 San Jacinto, Cal., was terribly shaken up by an earthquake, houses were tumbled about and the earth cracked and seamed. Traces of lava have been found near the broken off top of the adjacent mountain. Some think that top "slid off," a mammoth landslide, but other geologists are confident it was thrown off by a comparatively quick volcanic action.

South of it there is a crater upon the great plateau of Pasto and a speeddil group of sixteen volcanoes above all of which towers the mighty peak of Chimborazo. In an elliptical space, with not over 12 miles for its long axis there are Tunguragua, Carahuirazo, Cotopaxi, Autisana, Pinchincha, Imbabura and Sangay. So close are they indeed that some think them but separate craters to the one volcano. The last named one is perhaps the most destructive volcano on earth. There follows a gap of over 900 miles with no signs of volcanic titulations. But in Southern Peru the chain is again taken up and volcanoes extinct and active in frequent enough. Chili offers us three fine peaks, Antuco, Villiarica and Osorno. Southward the line of fire extends, but in less elnvated craters, to the tip of the continent.

The South Shetland islands are volcanic, there are two splendid volcanoes, Erebus and Mount Terror upon the coast of Victoria and there you have the great circle of the Pacific completed.

Inside this circle are many islands of undoubted volcanic origin and many with volcanoes in full blast. Upon the Marianne and Gallinapogos islands there are over 2000 volcanic cones with several in active service. So in the Sandwich group are many splendid volcanoes. We own the two upon the Island of Hawaii, Mauna-Loa and Mauna-Kea. They are over 3000 feet high and the eruptions of the first named are most magnificent spectacles. The boiling crater of Kilauea, on the side of Mauna-Loa, is the most remarkable lava-source on the planet.

There is a more or less well defined line of "former fires" around the Indian ocean and some still active volcanoes, Kenia, one of the two great mountains of Eastern Africa, is, I think, the only volcano on that continent. The northern end of the Atlantic is vaguely mounded by volcanoes, the Jan Mayen, Hecla, Skapta-Jockul, Kotlugaja and seventeen other smoky peaks separate the Atlantic from the Polar ocean. Southward the peaks of the Azores frequently act as lighthouses. Teyda, in the Canaries, continues the line along to the fire tips of the Cape Verde islands, and the line terminates with the one active volcano of the Cameroons.

The western line of the Atlantic unmarked by fire save at the gap between North and South America. There you have a little line of fire enclosing another basin, the Caribbean sea; there are Trinidad, Grenada, St. Vincent, St. Lucia, Dominica, Guadeloupe, Montserrat, Nevis, St. Kitts and St. Eustatius, all more or less active volcanoes, St. Pierre, St. George, Tobago and the other extinct ones, not to mention the mud-volcanoes, geysers, the solfattras and the thermal springs—all of the same volcanic origin—there are scattered all about in that region of great subterranean activity. Reclus calls our attention to the fact that this fiery spot of the Antilles is exactly at the Antipodes of the Sunda group, and both are near the awo poles of the earth's flattening, and also mark the Eastern and Western outcurves of the Pacific circle before noted. It certainly is a peculiar coincidence that these two groups of volcanoes are the most active on the whole earth.

Of the volcanoes not in these major lines of fire, Vesuvius and Etna are the best known. So near the center of civilization they, of course, have been thoroughly studied and have contributed more than any others to the advancement of that branch of geological information. The possibilities of a good active volcano may be judged by the observations made during a comparatively recent eruption of Etna. All through the first six days it poured out a stream of lava at the rate of 3000 cubic feet a second, a bulk equal to that of a good sized river, one twice the size of the Seine for instance. At first it ejected its liquid fire some say 5000 feet in the air (Vesuvius has sent up a column of smoke and steam over 20,000 feet in the air), then subsided to a fountain spouting between 300 and 400 feet up. The steam ran down the mountain side in one mass 1000 feet wide and fifty deep in places, wiping out forests and everything in its path. Poor Sicily, always scantily supplied with timber, lost over 130,000 trees by that one outbreak.

One strange thing about all these volcanoes, they are near the oceans or other considerable bodies of water, and that very condition explains their being, according to the highest authorities of the day.

Note that the origin of volcanoes and all the subterranean forces are still wrapt in more or less mystery, theories about them and their causes are purely scientific speculations and even our greatest geologians are disputing about the very first principles of these forces. It used to be supposed that the center of the earth was one vast ocean of fiery liquid. The most accepted theory today is that the center of the earth is a solid mass of metal, probably and exceeding high temperature, the kernel of the nut, as it were. This kernel is surrounded by a fatty layer of incandescent semi-molten matter from which, by means of those fiery, accountable for volcanoes of the same region not being in eruption at coincident times and by vomiting forth scoriae of the same component parts and materials.

Now then, the outer shell being so thin, geologically speaking, we are dying around at such a rate of speed that this softer layer, or almost liquid mass, below that thin yielding crust, has permitted the blasting out of the sphere at the poles, pan cake like. A rapid revolving motion of any spherical body not absolutely a solid will produce such an effect, you know. These masses of subterranean semi-liquids are subject to certain changes and influences; there probably are tides, currents and other disturbances as there are upon the surface bodies of water, and these disturbances produce changes, upheavals and depressions in the outer crust, fissures, some say earthquakes, too, and displacements of entire bodies of water, and, in turn are also effected by outside disturbances, atmospheric storms, etc.

Our fathers thought that these inner disturbances produced great swellings or blisters upon the crust, mountains that finally exploded and allowed this fiery matter to find vents in their crests, volcanoes. Scientists of our time have proven that few, if any, new volcanic eruptions have occurred through pre-existent mountains, that, on the contrary, they have originated where, supposedly, the earth's crust was thinnest, in the water, and in plains and valleys on the edge of bodies of water, and that the great volcanic mountains we see now are but the lava that has bubbled out of those craters and built hills about them, virtually constructing great flues, their own chimneys, thousands of feet high. The building capacity of a volcanic eruption may be imagined when we are told that Kilauea's crater (at Honolulu) was brimful of lava in 1840. There was no eruption, simply a "leak" in the side of the mountain and a mass of lava, perhaps 7,000,000 cubic yards, flowed down the mountain side and spread out into a sheet building up formations long and sixteen miles wide! That one leak changed the entire surface of the adjacent country, filling up water ways, forming promontories and islands where there existed not before. Another example: Coseguina, a bliock of not over 500 feet high (on a promontory in the Bay of Fousecca, Central America) had a volcanic eruption, threw up a mass of lava, ashes and debris that, settling down, covered an area twenty-five miles in diameter with a layer sixteen feet thick. A mass equal to at least 65,000,000 cubic yards! Ashes from it were carried as far as St. Ann's in Jamaica, 500 miles away.

We noted above that volcanoes were nearly always near bodies of water. Our scientific friends tell us that that is so because the water readily sinks through fissures in the bottom of the sea, or in the sides of the banks, down on into the bowels of the earth, finally reaching these incandescent masses, then there is a rumpus and, pish! lo and behold, we have a volcano as a result.

As this water descends it assumes the temperature of the rocks and strata it passes through, ever hotter and hotter (this heat is estimated at one degree more for every fifty-four feet in depth). It will boil at 500 feet, but no steam can ascend on account of the pressure of water above, so that it is only when that water reaches a point some nine miles down that it attains an expansive energy sufficient to balance that weight above and it suddenly turned into steam at a temperature of between 500 and 900 degrees Fahrenheit. If the reserve be clear those ensuing gaseous masses will shoot straight up in the air to a prodigious height, but if there is any obstruction and the escape is at all impeded then they will rend and tear and find and open every little crevice until they reach the fused rocks that exist at certain depths. It is these rocks that are then molten and carried on up by that enormous pressure and shot out of the crater of an existent volcano as lava, or are forced out of the side of the mountain or break through and form new craters. If, as we have remarked, this peculiar phenomenon occurs in the region of an already formed volcano we may have a peaceful eruption but of vast proportions: if the flues are not clear then we have terrible subterranean conflicts, we feel succeeding shocks of earthquake, we see ruptures of the earth's crust here and there and finally the eruption of the imprisoned fluid in perhaps insignificant quantity considering all the fuss it has made.

...s water theory is further substantiated by the fact that chemists' analyses of the lava and condensed vapors of volcanoes show salt and other constituents of near-by waters.

We are told that the outer crust of the earth does not exceed an average of thirty miles in thickness. I know of no excavations where any observations as to heat, etc., have been made that go down more than one-thirtieth of even that crust's depth, hence when we are informed that the temperature in the center of our sphere must be 200,000 degrees Fahrenheit we know that the statement is based upon a rather speculative hypothesis. It would be most interesting to me to follow out this and the other hypothesis as to subterranean forces, earthquakes, submarine eruptions, geysers, fissures and the other strange phenomenon of old mother earth, but the limitations of my space—not to mention those of my information—forbid anything more at present, than this hasty glance at the supposed cause of volcanoes, their numbers and their general distribution.

May it be of some little interest to the reader is my most earnest wish.

FIGHT DECLARED OFF.

Denver, Col., June 21.—The proposed fight between Young Corbett and Dave Sullivan was officially declared off last night on account of the recent action of the fire and police board in forbidding boxing exhibitions. Manager Gallagher, of the Coliseum Athletic club paying $500 forfeit. Later it was announced that Corbett and Sullivan had agreed to fight before the West End club at St. Louis July 3. They are to weigh 127 pounds at 3 o'clock, and will fight for 50 per cent of the receipts, $5000 guaranteed.

A kiss of Satin-Skin Powder removes that "shiny look," replaces unsightliness with beauty. 25c.

DISEASES OF MEN

VARICOCELE, STRICTURE, Piles, Fistula, Hydrocele, Cancer, Rupture and Tumors cured without the knife or ligature.

Sure cure guaranted in from 10 to 30 days. Syphilis, Gonorrhoea, Gleet, Pimples, Blotches, Ulcers, Sores in the Mouth or Throat, Unhealthy Discharges, Skin Affections, Falling of the Hair, and Constitutional BLOOD POISONING speedily cured by the new remedies with never failing success.

YOUNG MEN Suffering from the effects of indiscretion or excess, causing Nervous Debility, Mental Weakness, Vital Losses, Catarrh, Indigestion, Consumption, Blotches, Pimples, Ringing in Ears, Palpitation of Heart, Despondency, Lost Manhood, Unfitness to Marry, Weak Back, Rheumatic Pains, Kidney and Bladder Troubles, are guaranteed a safe and speedy cure by remedies prepared and dispensed by himself. Charges always moderate. No exposure. Call or write.

MIDDLE-AGED AND OLD MEN who are the victims of Prostatic, Urinary, Kidney or Bladder Troubles, Syphilitic or Mercurial Blood Poisoning, Lost Vitality, Impotency, Sexual Debility, Impaired Vigor, Premature Decline from recent exposure, Mental worry or overwork, Rheumatism, Eczema or Salt Rheum, Piles, Ulcers, Old Sores, Cough, Impending Paralysis or Consumption, Stomach and Liver Troubles, Loss of Ambition, unfit to enjoy either pleasure or business, are cured for life by Dr. Pierce when all others have failed.

LADIES All forms of Female Weakness, Debility, Pain in the Back and Loins, Ovarian and Womb Troubles, speedily and permanently cured. Office private; no exposure; consultation free. If in trouble, write or call. Delays are dangerous. Medicine sent anywhere by mail or express. Charges moderate. Office hours, 9 a. m. to 8 p. m. Sundays, 10 a. m. to 12 m.

BOOKS AND THEIR MAKERS

Sheppard Stevens has written a romance of the Louisiana Purchase, in which the court life in France and wild primitive life in the new world are vividly contrasted. The hero, Louis Lefreniere, is betrothed to a lively, coquettish young girl, Felicite. His rival for her hand persuades a young Indian maiden to claim Louis for her lover, and Felicite accepts her word rather than that of her betrothed. Louis' uncle sends him to France to rescue his cousin, a beautiful young girl upon whom the First Consul has designs. The scenes between Napoleon and this brave young girl are among the most dramatic in the book, which abounds in incident and adventure.

Sheppard Stevens had previously written "The Sword of Justice and "I Am the King," both published by Little, Brown & Co. "The early history of Florida has been often exploited; but here is something distinguished," says the Independent, in a notice of her historical romance. "The Sword of Justice. We refrain with difficulty from what might be taken as overpraise," continues the writer; "but we confidently expect our readers to recognize the beauty and the power of this well-written romance of Florida in the sixteenth century." "I Am the King" is an account of some happenings in the life of Godfrey de Bersac, Crusader knight, it gives a careful, imaginative picture of life in the middle ages, showing great knowledge of the manners, home customs, dress and superstitions of the period. The publishers are Little, Brown & Co., Boston, Mass.

• • •

A reader of Hamlin Garland's "The Captain of the Gray Horse Troop" has written to inquire if the Indian sign language is indeed so ready a means of communication as it seems to Capt. Curtis, the hero, of Mr. Garland's new story. The author replies that he himself has been amazed at the facility of this language, which is interchanged with perfect spontaneity and without a hitch or halt. Only last April Mr. Garland sat in the tepee of a red man and watched a long conversation between him and a white man expert, during which they "signed" stories, history, tradition with perfect ease. This sign language is superior in some respects to the system used by white deaf-mutes, the Indian language "sign-talk" being more symbolic, pictorial and comprehensive. For instance, to express "morning" the Indian raises his hand in an upward and backward sweep, signifying the uplifting of the throne head of Seger's school at Oklahoma, whose people are both Cheyennes and Arapahoe, conducts all his business in the sign language which is common to all the tribes, and which is absolutely satisfactory for practical use. From this it will be seen that Mr. Garland has kept well within the probabilities in the use of this picturesque feature of Western life in "The Captain of the Gray Horse Troop."

• • •

Mary Hallock Foote has written several capital stories, but never one so strong and and full of human interest as "The Desert and the Sown" (Houghton, Mifflin & Co.). The scene of this new novel shifts between a military post in the far West and the Dutch farming country near Newburg on the Hudson. This plot turns on the accidental separation of a man and his wife while traveling, and their belief in each other's death. They meet long after, but separated by widely differing circumstances, tastes, and habits, and have to decide whether or not they shall resume their old life together. The story

Interior of the genuine Indian tepee of Hamlin Garland, author of "The Captain of the Gray-Horse Troop," at Eagle's Nest camp, Oregon, Ill. It was made for the author by Cheyenne women, and is eighteen feet in diameter. The willow couch is of Cheyenne manufacture; the blankets are Navajo, the basket Apache. The beaded buffalo skin dew-cloth at the back of the couch is a rare one, its dangles being formed of antelope toes and of feathers. The shirt worn by Mr. Garland is a ghost-dance shirt—that is, it contains no metal nor anything belonging to the white man. The pipe and pouch are of Sioux manufacture.

is a powerful one in delineation and development of character and in narrative interest.

• • •

Henry Edward Rood, who wrote "Hardwicke," the new story that tells so effectively about the problems and the romance of a young minister, was visited in his office the other day by a young woman who said she "wanted to see him about his new book." This book is Mr. Rood's first novel, and he is not without a certain acute interest in it. So the young woman was shown in.

"Oh, Mr. Rood," she said, "are you really the author of that splendid book? I think it is awfully good. It's just like our minister at home—he has a hard time, poor man. So many people want to rule him, you know. But your minister, Ernest Robertson, is such a splendid fellow. I simply love him. Wasn't it dear of him, the way he came out ahead of all those old fogies and married such a nice girl! How did you write it, Mr. Rood? I don't see how anybody ever writes a whole book, do you? But how silly of me; of course you do, because you did it! Well, good-bye, Mr. Rood. It was so nice of you to see me." Then she stopped in her passage to the door and said: "Oh, Mr. Rood, you're so interested in church affairs, won't you buy some tickets for our strawberry festival?" He bought them.

• • •

The New York Tribune prints the following interesting note in its issue of June 9: "A few weeks ago the Macmillan company published a novel by Charles Major, entitled 'Dorothy Vernon of Haddon Hall,' that has already had a large sale and has been extensively advertised. We have now before us a novel by Henry Hastings, with the title of 'Mistress Dorothy of Haddon Hall; Being the True Love Story of Dorothy Vernon of Haddon Hall.' The resemblance is striking; the Macmillan company have been quick to perceive it, and it is said that they intend to take legal steps to put a stop to what they regard as an infringement of their rights as well as a violation of the ethics of publishing." Charles Major's novel has been classed by reviewers as one of the best romances of recent years, "a winsome charming picture," "as animated and full of picturesque incident as ever pen created."

• • •

The Harpers have issued for enthusiastic book-lovers, a special edition of three hundred copies of Mr. Joline's "Meditations of An Autograph Collector. The edition is bound in extra cloth with paper labels and all uncut edges, and is intended for extra-illustrating by readers who prize a book of that unique nature.

• • •

A. C. McClurg & Co.'s announcements of new fiction for the fall of 1902 include a new book of short stories of Chicago business life by Will Payne, with very clever illustrations by Thomas Fogarty, to be called "On Fortune's Road;" a capital historical novel, "The Holland Wolves," by J. Breckenridge Ellis, illustrated by the Kinneys, whose remarkable illustrations for "The Thrall of Leif the Lucky" have established their reputation; and an illustrated edition of the popular romance of Indian Oregon, "The Bridge of the Gods." The firm is also preparing a number of exceptionally attractive books for children, in which the illustrative feature is receiving particular attention.

• • •

Lafcadio Hearn recalls in his "Two Years in the French West Indies" that Fort-de-France, lately in peril from Mont Pelee, was once almost totally destroyed by an earthquake; that it was formerly called Fort-Royal and had "picturesque streets of stone," but was rebuilt in wood. He writes that the town has little of outward interest by comparison with St. Pierre. It lies in a low, moist plane, and has few remarkable buildings; you can walk all over the little town in about half an hour." Hearn's remarkable book is dedicated, in French, "To my dear Friend, Leopold Arnoux, Notary at St. Pierre, Martinique."

• • •

The great central figure of Miss Rives' new romance, "Hearts Courageous," is Patrick Henry; and she has this to say of him: "He was the greatest Virginian that ever lived. He married the daughter of a tavernkeeper, wore buckskins, failed in business, and could not make a living as a lawyer. But he knew. His brain looked even farther ahead than Washington's. Ever since I began to write I have dreamed of putting himhomely face, leather breeches and all—into a novel. And now I have done it."

• • •

A further evidence of the Americanization of England is recorded in the dainty volume "A Pinch of Snuff" about to be issued by Lewis, Scribner & Co., of New York, in which it is noted that the costly snuff-boxes which are to be a feature of the coronation of King Edward will be filled with American snuff if the limited supply available is equal to the demand. It seems that the king, who is already a past master in the gentle art of snufftaking and whose example is reviving its use in fashionable circles, has discovered that the finest snuff in the world is produced in America. This snuff is made from a particular kind of perique tobacco which is grown only in two parishes of the state of Louisiana. This perique snuff is practically unknown in America, all of it being taken by the fashionable European trade. It is supplied regularly to Pope Leo, King Edward, Emperor William, the sultan of Turkey and other crowned heads. As the members of the court circles of Europe are faithful imitators of the throne the increase in the fashionable use of snuff will contribute directly to the prosperity of at least one section of the United States.

• • •

In "Reminiscences of a Dramatic Critic" (Houghton, Mifflin & Co.), Henry Austin Clapp, who has been recognized for many years as the leading exponent in New England of honest and discriminating criticism of the drama, reviews the chief features of the stage of the past quarter of a century, commenting succinctly and vividly upon the art of the greatest actors of the period, the quality of modern theatrical literature, and the promise of the American theater of the future. Incidentally, the fairy plays and melodramas of the old regime, the reign of T. W. Robertson, the Boston Museum of the elder day, the peculiarities and possibilities of the histrionic profession, and the value of a possible privately endowed theater are discussed. Of all the players considered, William Warren, Charlotte Cushman, the elder Sothern, Charles Matthews, Charles Fechter, Edwin Booth, Tommaso Salvini, Signora Piumonti and Adelaide Neilson are the salient figures upon Mr. Clapp's glowing canvas.

• • •

The Rochambeau visitors departed from New York, leaving Hallie Erminie Rives, the novelist, to enjoy the distinction of being the only American whom Countesse de Rochambeau, the affable and kindly feminine head of the delegation of honor, has entertained "en famille." She sent a special invitation to Miss Rives and received her in her own private suite at the Waldorf-Astoria. The story of Rochambeau's coming with his fleet to the aid of Washington and the part which French diplomacy and money played in the successful outcome of the American revolution, forms the core and motive of Miss Rives' novel, "Hearts Courageous," and it was a reading of this that impelled Mme. Rochambeau to send one of her husband's suite to ask a call from the young Southern authoress. The countesse will carry with her a copy of the novel, autographed, which she will convey to President Loubet of France. Miss Rives has accepted an invitation from the countesse to visit her in her home in Paris.

• • •

Among the interesting features of the Argonaut for June 16, are "A Flower of the Slums," by Mobel Clare Craft, a story of Chinatown; a letter from the Paris correspondent of the famous Humbert swindle; a description by Geraldine Bonner of a vacation trip from Santa Barbara to the Oat valley; an extended review, with extracts, of one of the most amusing books of the year, "The Misdemeanors of Nancy;" a letter by W. R. Townsend called "From Cairo to Calcutta;" one from "Van Fletch" called "Mr. Dooley at Sea," and a criticism of Henry Miller and Margaret Anglin in Pinero's "Trelawny of the Wells."

• • •

Readers of Will Carlton's magazine, Every Where, for June, have an unusually inviting treat in verse, stories and sketches; but a striking feature of this number is the comment on and chronicles about the men, women and events of the hour. Besides two Cuban poems by Mr. Carleton, a story by Mr. Colegrove, a sketch of the canal-boat village in New York, Mrs. Sangster's usual contribution of verse, and sketches pertaining to the home, there is a masterly summary of current doings and happenings—made up of brief biographies of noted men and women whose names have recently been before the public, cyclopedic accounts of important events, obituaries of noted persons who have died during the month, etc. It is one of the most comprehensive, entertaining and instructive magazine printed. Price, 50 cents a year. Every Where Publishing company, Brooklyn, N. Y.

• • •

The June magazine number of the Great Round World contains four diversified special articles, all readable and instructive. The ceremony of the coronation of King Edward VII as an historic and picturesque event is told in such a manner that the reader may know every step of the celebration in advance of its happening, and may thus be aided in following the more lengthy and florid accounts of that. Jerome J. Brown has recently returned to this country from a trip around the world where he has been contrasting the governments and industrial conditions of different countries. During his travels he has been special correspondent of the Great Round World. His valuable article on the Political Complication in Siam is a clear cut statement of the present status of affairs in that country. The theory of the cure of malignant diseases by the ultra-violet ray, which is one of the most recent experiments of medical science, is clearly explained and the clinic where the experiments were made is described. "What is a Volcano?" is a simple explanation of the few facts which science really knows about the earth's eruptions.

• • •

Remsen Whitehouse, attache of the American Legation at Italy, contributes to the June number of Atlantic Monthly an able and interesting paper on Austria and Pan-Germanism. The present widespread movement toward the consolidation of all German-speaking people has seemed to many to threaten the actual disruption of the Austrian empire, and to menace the peace of the world. Mr. Whitehouse has had exceptional opportunities for knowing the true inwardness of this crisis. His paper should be read by all persons interested in the larger movements of the world powers, amongst whom the United States has assumed so important a place with corresponding responsibilities," from which it can never draw back.

America's Summer Resorts.

When it begins to get hot and dry, one's thoughts naturally turn toward the lakes and rivers and the seashore of New York and New England, and we begin to wonder how much it would require of time and money to make the trip. A lot of these questions are answered and a lot of information given free in "Four-Track Series," No. 3, "America's Summer Resorts." Send on receipt of a 2-cent stamp, by George H. Daniels, general passenger agent, New York Central & Hudson River railroad, Grand Central station, New York.

Detroit and Return $13.50.

The Annual spring excursion to Detroit via Duluth, South Shore & Atlantic Ry. and eDtroit & Cleveland Navigation Company, will leave Duluth 6:45 p. m., June 27th, fare for the round trip $13.50. Return limit, July 18th.

Special sleepers Duluth to Detroit and St. Ignace, where direct connection will be made with the steamer City of Alpena, due to arrive Detroit 3:00 p. m., June 29th.

Tickets will be on sale and good only on excursion train leaving Duluth June 26th.

Reserve your sleeping car and state room accommodation early.

City Ticket Office, 426 Spalding Hotel Block.

Sunday Outing.

Sunday train, Duluth to Solon Springs, leaving Duluth at 9:15 a. m., returning leave Solon Springs at 6:30 p. m., arrive Duluth at 7:55 p. m. Tickets 90 cents on sale at ticket and depot ticket offices North-Western Line.

NEW PUBLICATIONS.

Your Fortune Told Free

BY THE ZODIAC. Astrology reveals your life. We will send you a Horoscope Reading of your life and a most interesting Book on Astrology, if you send the date of your birth and stamp for return postage. Our readings have made people happy and full of hope and success. Address MAGAZINE OF MYSTERIES, 32 N. William St., N.Y. City.

PRIMUS

Brand Butter

is churned every day. The most scrupulous care is exercised to make it perfectly clean. Wholesome and delicious. Only the best of sweet cream is used in its manufacture.

A Home Product

You can have it delivered to your home the same day it is made. Any of the thousands of consumers in Duluth who use only PRIMUS will tell you it excels all other makes.

All leading Grocers handle it.

—Manufactured by—

Bridgeman & Russell,

16 West First Street,
Both 'Phones 352.

When You Think

Of the periodic pain which many women experience with every month it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. While in general no woman rebels against what she regards as a natural necessity there is no woman who would not gladly be free from this recurring period of pain.

Doctor Pierce's Favorite Prescription makes weak women strong and sick women well, and gives them freedom from disease. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

Sick women are invited to consult Dr. Pierce by letter, *free*. All correspondence strictly private and sacredly confidential. Write without fear and without fee to Dr. R. V. Pierce, Buffalo, N. Y.

Mrs. T. Dolan, of Madrid, Perkins Co., Nebr., writes: "I was cured of painful periods by the use of Dr. Pierce's Favorite Prescription, and his Compound Extract of Smart-Weed. I think Dr. Pierce's medicines the best in the world."

"Favorite Prescription" has the testimony of thousands of women to its complete cure of womanly diseases. Do not accept an unknown and unproved substitute in its place.

The sluggish liver made active by the use of Dr. Pierce's Pleasant Pellets.

THE ARENA OF SPORTS

West Superior Capital May Start Ball Club to Represent Duluth.

Players Arrested In Newark, N. J., For Sunday Ball Playing Discharged—Names and Weights of Crews at Poughkeepsie.

The latest report is that West Superior capital is to be invested in an independent professional ball team to represent Duluth.

The plan is a bold one and scarcely feasible, for it is the announced intention of those interested to play Sunday ball on grounds located in the West End.

Unless the West Superiorites have an over-abundance of money the venture would certainly be a losing proposition.

• • •

Down in Newark, N. J., there is agitation over Sunday ball playing. Several players were arrested last Sunday and promptly dismissed by Police Justice Murphy, who held that:

"Where ball games are played in open or isolated lots on Sunday and the comfort and peace of the community are not broken," said the justice, "my opinion is that arrests should not be made. The young men are benefited by the exercise, especially those who have been confined in the factories and shops all the week. It is better for them to enjoy such healthful recreation than to congregate on street corners or gather in places where they might be subjected to temptation."

• • •

Si Bennett, the Duluth ball player recently signed by St. Cloud, has left that team owing to a dispute over the salary question.

• • •

The Board of Trade team will cross bats with the Duluth Business university at Oneota park next Saturday afternoon. A fast game well patronized is promised.

• • •

The Business university team will make a Wisconsin trip during the first week in July. On the Fourth of July the team will play Lake Nebagamon, and at Spooner and Shell Lake the following two days.

• • •

The following are the positions, names and weights of the men who compose the various crews that are to compete in the intercollegiate boat races at Poughkeepsie today:

FOUR-OARED VARSITY.

Course, 2 miles; time of start, 3:30 p. m. Entries—Cornell, Columbia, Pennsylvania.

Cornell—Bow, E. D. Toohill, '02, 150 pounds; 2, P. F. Mallinger, '03, 170; 3, C. L. Edmonston, '02, 165; stroke, C. A. Lyford, '04; 163. Average weight, 162.

Columbia—Bow, A. B. Hull, '03, 147 pounds; 2, E. H. Uudike, '04, 146; 3, V. De La M. Earle, '03, 144; stroke, A. P. A. Bradley, '02, 144. Average weight, 145¼.

Pennsylvania—Bow, A. C. Jackson, '03, 153 pounds; 2, J. R. Shoch, '03, 167; 3, H. E. Pepper, '04, 170; stroke, H. F. Shisler, '03, 158. Average weight, 162.

EIGHT-OARED FRESHMAN RACE.

Course, two miles; time of start, 4:15. Entries—Cornell, Columbia, Pennsylvania, Wisconsin, Syracuse.

Cornell—Bow, J. L. White, 153 pounds; 2, J. Snyder (captain), 165; 3, J. W. Fisher, 153; 4, F. Miller, 163; 5, G. W. Foote, 179; 6, H. S. Monroe, 155; 7, L. G. Gates, 169; stroke, W. C. Shepard, 172. Average weight, 164¼. Coxswain, I. V. Buchanan, 86.

Columbia—Bow, T. Atkins, 136 pounds; 2, L. Ellsworth, 134; 3, A. Mackenzie, 155; 4, A. L. Willis, 154; 5, I. H. Cornell, 157; 6, A. C. Scott, 168; 7, B. N. Wheeler (captain), 148; stroke, R. S. Pierrepont, 147. Average weight, 150. Coxswain, E. S. Peck, 92.

Pennsylvania—Bow, S. W. Marshall, 160 pounds; 2, S. B. Whetstone, 164; 3, J. S. Bogardus, 166; 4, R. C. Crowell (captain), 157; 5, R. A. Cabeen, 166; 6, R. S. Rogers, 150; 7, H. G. Hall, 165; stroke, E. C. Leedon. 160. Average weight, 160¼. Coxswain, L. Howard Smith. 102.

Syracuse—Bow, H. M. Galpin, 147 pounds; 2, J. A. Duelle, 138; 3, C. H. Hecker, 150; 4, R. Park, 145; 5, C. B. Dempster, 160; 6, B. M. Bailey, 155; 7, J. A. Brown, 156; stroke, L. H. Bagg (captain), 149. Average weight, 150. Coxswain, H. Smith, 105.

Wisconsin—Bow, A. H. Schumacher, 150 pounds; 2, J. R. Stack, 144; 3, E. G. Orbert, 161; 4, H. F. Lindsay, 153; 5, J. A. Sinclair (captain), 169; 6, A. H. Bartlett, 172; 7, A. H. Miller, 164; stroke, C. H. Reed, 140. Average weight, 157½. Coxswain, H. I. Morrison, 110.

EIGHT OARED VARSITY.

Course, four miles. Time of start, 5:30 p. m. Entries—Cornell, Columbia, Pennsylvania, Wisconsin, Georgetown, Syracuse.

Cornell—Bow, E. D. Sebring, '03, 178 pounds; 2, W. Merrill, '03, 170; 3, A. S. Petty, '03 (captain), 164; 4, T. J. Van Alstyne, '03, 177; 5, C. A. Lueder, '03, 163; 7, S. Hazlewood, '03, 169; stroke, A. R. Coffin, '04, 171. Average weight, 170 3-8. Coxswain, J. G. Smith, '03, 107.

Pennsylvania—Bow, R. R. Xane, 163 pounds; 2, O. J. Cathcart, '04, 170; 3, F. W. Eckfeldt, '03, 170; 4, S. Crowther, Jr., '04, 175; 5, W. G. Gardner, '03, 175; 6, G. S. Allyn, '03 (captain), 180; 7, R. H. Eisenbrey, '03, 160; stroke, J. H. Hildebrand, '03, 153. Average weight, 168¾. Coxswain, R. L. Payne, Jr., '05, 115.

Columbia—Bow, R. P. Jackson, '02, (captain), 145 pounds; 2, J. S. Malder, '04, 155; 3, A. D. Weekes, '02, 145; 4, W. Ffl. Rollins, '04, 159; 5, G. S. O'Loughlin, '03, 166; 6, A. Nicoli, '03, 177; 7, Bartholomew, '03, 160; stroke, H. C. Townsend, '03, 165. 9verage weight, 159. Coxswain, C. W. Cuthel, '05, 106.

Wisconsin—Bow, W. F. Moffatt, '02, 166 pounds; 2, G. S. Steere, '02, 166; 3, I. Mather, '02, 174; 4, R. G. Stevenson, '03, 171; 5, W. J. Gibson, '02, 188; 6, L. Jordan, '03, 173; 7, C. H. Graff, '03 (captain), 173; stroke, E. V. McComb, '04, 170. Average weight, 172⅝. Coxswain, J. F. Sawyer, '04, 101.

Georgetown—Bow, J. Sinclair, '02, 150 pounds; 2, J. Reiley, '04, 158; 3, R. Hayden, '04, 155; 4, J. Lynch, '02, 178; 5, A. Rourke, '04, 178; 6, M. Russell, '04 (captain), 168; 7, S. Edmonston, '04, 166; stroke, F. Kerns, '03, 175. Average weight, 166. Coxswain, W. Manion, '04, 106.

Syracuse—Bow, W. F. Dangman, '03, 152 pounds; 2, D. E. Gramlich, '04, 155; 3, R. E. Stone, '04; 160; 4, D. F. Phelps, '03, 150; 5, H. E. Elden (captain), 160; 6, L. B. Wyckoff, '03, 153; 7, C. B. Ellis, '04, 148; stroke, G. H. Wildman, '04. 154. Average weight, 152¾. Coxswain, M. Nelson, '04, 101.

• • •

The coronation bouts which will take place in London within the next ten days will show the difference between the English and American ways of controlling the ring sport. Here we have all the best boxers, but they are not permitted to meet except in certain cities and then under close restrictions. In England they have few good boxers, but the sport is permitted to flourish in the principal city and bouts of twenty rounds are the rule.

Probably the reason that the sport is still recognized in England lies in the fact that it has been carefully conducted, while in this country the reason that it is barred from so many places is that it has been so badly handled.

Boxing as now conducted in this country is simply a development of the sport as introduced from England. It might be as open here as it is there if the men behind it had cared less for the dollars and more for the scientific game.

Regardless of the class of matches the patrons of boxing are compelled to witness in London when their own men are engaged, it must be said that the English National Sporting club has succeeded wonderfully well in keeping its hold and maintaining a high-class establishment.

Boxing has been compelled to take the raw end of it in America for a good many years simply because something has always happened to give the game a new black eye as soon as the color had gone out of the old one. As an example of the difference in the way of regarding the sport in the two countries, take the colleges. There amateur boxing is promoted in the colleges, which keep skilled instructors. Boxing contests among the amateurs are frequent and interesting, in this country there is practically no boxing among the college men. It is also true that amateur boxing in general has almost died out.

• • •

Bob Armstrong was the last of the American fighters to go to England to fight during the coming coronation festivities. Bob was wanted by both Jeffries and Fitzsimmons to assist them in their coming championship battle. The popular trainer of heavyweights announced some time ago he was tired of getting battered around by the topnotch pig fellows for a small amount of money and concluded he would fare no worse with "Denver Ed" Martin, whom he is to fight for a good chunk of English money, hence his trip across the Atlantic. The first of the series of contests between America and England was that between "Kid" McFadden of California and "Jim" Williams, heavy bantams, which the American won easily. Other fights scheduled are:

"Spike" Sullivan of America vs. Jabez White, England, 134 pounds; "Denver Ed" Martin vs. Bob Armstrong, American colored heavyweights; Joe Wolcott, welterweight, vs. Tommy West, middleweight, America; Frank Erne vs. Pat Daly, lightweight championship of England, both of America; Tommy Ryan vs. Johnny Gorman, American middleweights, and Tom Sharkey vs. Gus Ruhlin, American heavyweights.

The latter pair wanted their fight held in the Royal Albert Hall, but the musical directors of the building objected, declaring that to allow the heavyweights to fight in the great hall would be to "desecrate a temple of art." Bill Maddan, Ruhlin's manager, was much wroth over the stand the musical directors took against the big bruisers and said they were there in honor of the king and that it seemed absolutely disloyal that anyone should object to the principal event of the coronation taking place in the principal entertainment place of the English metropolis. King Edward has not been heard of as yet as to whether or not he had honored Tom, Gus and Billy.

• • •

Joe Gans, it appears, does not intend to permit his title of lightweight champion to become rusty through lack of engraving in contests as did his predecessor, Frank Erne. Hardly had the sensation of being dubbed champion died away before his manager, Al Herford, announced Joe would defend his newly won title against all comers at 135 pounds ringside, provided a forfeit was posted to guarantee sincerity.

This challenge, if such it can be termed, met with no response, and prospects of a speedy match being arranged were far from bright. While awaiting a hearing from numerous championship aspirants, George McFadden was matched to fight Jimmy Britt, the San Francisco lightweight, who recently defeated Joe Lavigne. Arangements for the contest had been perfected, and while McFadden was in this city, enroute for the coast, his manager, Billy Roche, received word that Britt had injured his hands in his battle with Lavigne and would therefore be unable to meet McFadden. He was instructed to bring on his fighter to meet Gans, who in the meantime had been substituted for Britt.

McFadden was kept in the dark anent this transaction, and when he reached the coast last Tuesday was surprised to learn he was to meet Gans instead of Britt. George gave vent to his feelings and accused the Hayes Valley Athletic club of bringing him to the coast on a wild goose chase and not living up to its agreement. It took quite a bit of sandpapering to smooth McFadden's ruffled feelings before he would consent to fight Gans, and then only on condition the champion agrees to enter the ring at the lightweight limits 133 pounds. Claims Gans has hard work making the weight, and will insist upon his coming down to it. Otto Sieloff and Steve Crosby, a pair of lightweights, and both old opponents of the champion, appear to be anxious to get at Gans, but they, as yet, have failed to post a forfeit as required by the champion's manager. Crosby has given Gans several severe tussels without ever being topped, while Sieloff went down and out in the early stages of his contest with Joe. The respective managers of Otto and Steve have been talking forfeit for a week, but as yet have not shown the color of their money.

• • •

George Lavigne, the "Saginaw Kid," is, according to the reports, down and out The lightweight, who was a great boxer at one time, is reported to have lost his mind, and is now detained at San Francisco. Lavigne has traveled a rough road, but he probably reached some time ago that it might have been easier had he made it so.

There were few better boxers than Lavigne. He has had the skill and the ability to fit, it is now about thirteen years since he broke into the game, and in that time he was sufficiently successful to have left himself in good shape had he been ordinarily careful. His fault was his tendency to dissipate.

He was engaged in some memorable encounters. In 1889 he fought two long bouts against George Siddons, the St. Paul pugilist. Both of them took place in Michigan, the first going seventy-seven rounds and the second fifty-five rounds to a draw. From that time on Lavigne was counted a good pugilist. For several years things went along well for him. He met Griffo for the first time in 1894 in Chicago and he fought the Australian an eight-round draw. Then he won from Johnny Griffin in fifteen rounds and the same year knocked out Andy Bowen at New Orleans. This fight was a blow to Lavigne. Bowen struck his head on the floor and died of concussion of the brain. Lavigne was arrested, but regained his liberty.

The next year he defeated Jack Everhardt at Coney Island, and a few months later won a better name for himself by agreeing to stay fifteen rounds with Joe Walcott, and not only doing so, but defeating the colored man, who made a low weight for the battle.

In 1896 Lavigne went to England and fought Dick Burge for the 133-pound championship of the world. The event took place before the National Sporting club, and Burge was knocked out in the seventeenth round.

After he returned he defeated such men as "Kid" McFarland and Eddie Connolly and again put it over Walcott in a fight in San Francisco at 138 pounds, but the pace he lived began to tell on him. In 1898 he fought a twenty-round draw with Frank Erne and the next year he lost his title. He began the year by losing to "Mysterious Billy" Smith and then fought Erne for the lightweight championship. Erne won in twenty rounds and a short time later George McFadden knocked out Lavigne in nineteen rounds.

That defeat sent Lavigne to pieces. He went out to San Francisco several months ago, and although he trained faithfully and met with temporary success he was not the fighter of his better days. He recently lost to Jimmy Britt, the former amateur, and then quickly followed his last misfortune.

Philadelphia is the St. Pierre of Fandom. The Quaker fans are sulking in their tents. They refuse to enthuse over the great work of Conny Mack's Athletics, and have abandoned the Phillies.

Philadelphia, once hailed as the hotbed of baseball enthusiasm, is now the weak spot in both Eastern circuits—National and American. Baseball by injunction and the war of the leagues are the dual factors in driving tens of thousands from the professional to amateur diamonds. Love of Yankee Doodle's game was never more strongly portrayed on the fields of amateur play, while the game in the professional courts languishes. Col. John L. Rogers proved a poor sportsman. He was like a disciple of Izaak Walton who had caught a black bass and then held it up in the sunlight to admire its glistening stripes. Instead of landing his big fish the colonel hoisted Napoleon Lajoie by the gills and gloated over his capture until "Larry" wriggled off the hook and got away. The Lajoie decision was a triumph for the National league, but the National league has lost many another trick in this battle with the American league for supremacy. Lajoie would have given the National league the card it lacks this year. Christy Mathewson was worth more to the National league in 1901 than all the deserters from the National brought to American coffers. Col. Rogers may win his attachment suits against Lajoie and "Sara" Bernhardt, who have defied the supreme court of Pennsylvania, but that isn't putting sperm oil on his own or any other National league turnstiles. The colonel is rich in legal honors but the other fellows have got the players and are drawing the money.

The following truth in rhyme under the caption "At the Races," is accredited to the clever writer, Will J. Lampton, but nothing is said about the fact that it is an adaptation from the song which that jolly reincarn, Chevy Beachy, has sung at every stopping place on the Grand Circuit from Detroit to Memphis under the title "The Man From Bucyrus:"

Same old race track,
Same old ground,
Same old horses,
Running 'round;
Same old grand stand
Same old crowd,
Same old "Betting
Not Allowed."
Same old judges
Same old wire,
Same old starters
Under fire;
Same old paddocks,
Same old jocks,
Same old kicking,
Same old knocks;
Same old "easies,"
Same old touts,
Same old talent,
Same old touts;
Same old wise ones,
Same old tips,
Same old "sure things,"
Same old slips;
Same old homestretch,
Same old luck,
Same old favorite
In the ruck;
Same old lathers,
Same old foam,
Same old way of
Walking home.

Wrestling is to be part of the program of the listic carnival of the National Sporting club, London. Already several matches have been arranged. Jack Carkeek, the American exponent of the catch-as-catch-can style, has been matched against an "unknown" discovered by Parson Davies. There will be several minor events decided. Jiu Jitsu, the Japanese accomplishment, will be conspicuous at the tournament.

• • •

Charles Pell of Drake university, conceded to be the best all-around athlete in Iowa, winner of the hammer throw at the Western intercollegiate athletic meet at Chicago last month, has been declared a professional by the games committee of the Iowa Collegiate Athletic association, and the fourteen points won by him at the recent state meet thrown out. He once participated in an "open" meet, though there was no stake, and only amateurs started.

• • •

An effort was made last week to postpone the date of the Jeffries-Fitzsimmons championship battle from July 25 to an early date in August, but as the management could not show wherein the fighters would be financially benefited thereby the date was not changed. The men are working hard and faithful for the encounter and will, it is hoped, enter the ring in the pink of condition. Manager Alec Greggians will erect a new building, large enough to accommodate 15,000 persons, for the battle.

• • •

Before the Pirates went East Barney Dreyfuss bought them all Panama hats. The team stopped at a $7 a day hotel in Philadelphia, while Comiskey's champions were putting up at another hostelry in the same town at the rate of $2 per.

NOTICE OF MORTGAGE SALE.—Whereas, default has been made in the conditions of a certain mortgage which was duly executed and delivered by Charles J. Frederickson and Clara M. Frederickson his wife, J. F. (or John F.) Fredin and Anna Fredin, his wife, and C. W. Wilson and Augusta Wilson, his wife, mortgagors, to Frank L. Murray, mortgagee, bearing date April fifth (5th), 1894, and which was duly recorded in the register of deeds' office for St. Louis County, Minnesota, on April tenth (10th), 1894, at 11:30 o'clock p. m., in Book eighty (80) of mortgages, on page four hundred eighty-four (484); such default consisting in the non-payment of the principal sum thereby secured, with interest thereon from April 5th, 1894, and also in the non-payment of taxes upon the premises described in said mortgage for the year 1901 and subsequent years, which said mortgagors had covenanted to pay in said mortgage, but which became delinquent, and which said mortgagee was compelled to pay, and did pay, as follows: On April 28th, 1899, the sum of $21.96; on May 31st, 1899, the sum of $8.79; on May 31st 1900, the sum of $7.78, and on May 31st, 1901, the sum of $8.25; no part of which principal, taxes, or interest thereon has ever been paid.

And whereas, there is therefore claimed to be due, and there is actually due, at the date of this notice, upon said mortgage debt, the sum of two thousand seventy-nine and 10-100 ($2079.10) dollars, principal, taxes paid and interest.

And, whereas, said mortgage contains a power of sale in due form which has become operative by reason of the defaults above mentioned; and no action or proceeding, at law or otherwise, has been instituted to recover the debt secured by said mortgage, or any part thereof.

Now, therefore, notice is hereby given, that by virtue of the power of sale contained in said mortgage, and pursuant to the

TWENTIETH YEAR. LAST EDITION. MONDAY, JUNE 23, 1902. TWO CENTS.

CORONATION IS AT HAND

The King and Queen Have Arrived In London.

Warm Greeting Extended to Their Majesties.

London, June 23.—King Edward and Queen Alexandra arrived in London from Windsor at 12:30 p. m. today. His majesty appeared to be in his usual health.

Their majesties reached Buckingham palace shortly before 1 o'clock. They received the same hearty welcome from the thousands of people who congregated in the avenues leading to the royal residence as greeted them throughout the entire route from the station.

With the return of the court to London from Windsor today the festivities of the coronation may be said to have commenced, and each day until midnight Saturday, when the last gun of the royal salute will be fired by the fleet at Spithead, will furnish its quota of the attractions which promise to make the week memorable. From today the special ambassadors, envoys and princes invited to join in the festivities become the guests of the king. Throughout the day numbers of royal personages have been arriving from the continent. They were met at the railroad stations by royal carriages and guards of honor and were escorted to the official residences assigned to them. Consequently, plenty of entertainment was provided for the crowds of sightseers filling the streets. A big throng took the opportunity of greeting the king and queen on their entry into the capital and semi-state progress to Buckingham palace. Accompanied by Prince and Princess Charles of Denmark, their majesties reached Paddington at 12:30 p. m. and proceeded in semi-state landaus drawn by four horses with postillions, preceded by outriders and attended by an escort of the royal dragoon guards, along the route usually followed by the late Queen Victoria.

The enthusiasm of the spectators evidenced theid delight in the ocular proof of the recovery of the king from his recent indisposition.

The king lost no time in alighting, and after chatting with the railroad officials entered a carriage. He appeared to be in his usual health. He walked perhaps somewhat heavily, but showed few symptoms of his recent illness.

New York, June 23.—Extraordinary preparations are being made for provisioning London and its multitudes of visitors on Thursday and Friday, says a Herald dispatch from London. Smithfield is sanguine there will be no shortage of meat, notwithstanding the fact that a week's supply will have to be distributed in the first three days. Billingsgate is not so sure of its power to meet all demands, as there will be a tremendous rush on fish, though immense orders have been given at the fishing centers. It is not unlikely within the next few days that salmon, lobster and soles may be at famine prices. Extraordinary prices have already been received by the various Billingsgate firms from the big hotels, principally for salmon.

Last week was a fairly busy time, as 220,000 pounds of this fish reached the market. Today, tomorrow and Wednesday half a million pounds of salmon are expected. Besides this, more than double the week's supply of other fish will be disposed of in three days.

The big bakeries will also be overwhelmed with work during the next few days. The staffs of many firms have been largely increased to deal with the rush.

In many cases all Thursday's and Friday's bread will be delivered on Wednesday, but some of the bakers have found this impossible and will deliver on Thursday.

New York, June 23.—Arrangements for the great naval review on next Saturday are nearly concluded, says a London dispatch to the Tribune. British ships have been dropping into the line one by one in the last few days. When Admiral Noel reaches Spithead today with the home squadron, King Edward's mighty fleet will be complete and the senior officers in the roadstead will be ready to return the salutes of the foreign men-of-war, all of which should be in position by tomorrow night.

KING EDWARD VII. AND QUEEN ALEXANDRA, WHOSE CORONATION IS THE NOTABLE EVENT OF THE WEEK.

NO BREAK OF STRIKERS

Beginning of Seventh Week of the Great Coal Strike Shows No Apparent Change In the Situation.

Wilkesbarre, Pa., June 23.—The seventh week of the anthracite coal miners' strike began today very quietly. The big towns of the coal region show no outward evidence that a strike is on, but in the small mining settlements men can be seen on all corners idling away the days, waiting for something to turn up. Interest was centered today in President Mitchell's address to the public, which was read to groups of men gathered in the mining towns by one of their number.

The rumors that the coal companies expected a break in the ranks of the men are not borne out by the actions of the men. Some of the officials of the companies say they get applications daily from strikers, who want to go to work. These men, they say, are given work about the mines whenever they have work for them.

As far as is known, none of the companies are attempting to resume mining. The mine workers' committees are still endeavoring to persuade men who remained at the engines and pumps from continuing work. Very few, however, are joining the ranks of the strikers. The union is unable to make any headway with the new men brought here to take the strikers' places.

TWO BLOWN INTO FRAGMENTS

La Follette, Tenn., June 23.—A terrific explosion occurred at the railroad camp of William Park, four miles from here this morning at about 2 o'clock. Herb Jones and aMrtha Chapman were literally blown to pieces and the house in which they were sleeping was demolished. A baby also in the house was thrown quite a distance but was unhurt. Four cases of dynamite are reported missing from the contractor's magazine and it is thought these were placed under the house by enemies of the pair. Officers are making an investigation.

ITALIAN CARVES HIS RIVAL

New York, June 23.—In that crowded part of Harlem known as "Little Italy" an encounter has occurred between rivals for the hand of a young Italian girl, which resulted in the wounding of three men and one woman. Of the former, one probably will die. He is Florezno Paras, and he received half a dozen stabs from a stilleto. His rival beat him down and was escaping when Paras drew a revolver and emptied it. An immense crowd had sprung up around the combatants and three of the bullets found marks in the bodies of the onlookers. The successful rival escaped unscathed, however. A large force of police had much difficulty in quelling the disturbance and dispersing the crowd.

TO BE GUESTS OF WINNIPEG

Winnipeg, Man., June 23.—A party of wealthy Americans will be the guests of the corporation at Winnipeg on coronation day, and after participating in the public functions here in celebration of the event, will go several hundred miles in the interior of the country, with Prince Albert province as their objective point. It is said that their purpose is to purchase a large tract of land in the province and to colonize it with American settlers. The party includes: Governor Van Sant of Minnesota, Governor Cummins of Iowa, G. Thorne, of the Park National bank, New York; James McDonald, of the Hanover National bank, New York; James B. Forgan, of the First National bank of Chicago; E. D. Hulburt, vice president of the Merchants' Loan and Trust company, of Chicago; Robert Stuart, president of the American Exchange National bank of Chicago; James H. Eckels, ex-controller of the currency, now president of the Commercial National bank of Chicago, and a number of others.

NINE DAYS WITHOUT FOOD

Henning, Minn., June 23.—(Special to The Herald.)—John Owens, the missing young man, was found two miles from Hewitt, lying unconscious at the foot of a large tree. He had evidently been there for nine days without food or drink, and was reduced to a mere skeleton. He had gnawed the bark from the foot of the tree. He died two hours after being taken home.

HID AWAY IN BOILER

Young Austrian Traveled Fifteen Thousand Miles Before He Reached America.

New York, June 23.—Rivaling the tales of mythical fortune hunters is the experience of a little Austrian stowaway in one of the boilers of the Umbria, which has just come into port. After the lad, who is 16 years old, had traveled 15,000 miles in quest of America, he at last was put in the hands of a friend, who promised to care for him. His name is Booz Gacino, and he comes from Dalmatia, a province of Austria. His wanderings began more than a year ago, when his father, a small farmer, gave him 100 florins and told him seek America.

With great glee the little Austrian left the village of Sebenico, for he and his elder brothers quarreled continually, and he had a friend in America whom he longed to join. After spending thirty of his florins he reached Trieste, the seaport, where he fell in with an obliging fellow, who, for the 70 florins agreed to embark Booz for America. Booz gave up his florins, and the stranger disappeared, leaving a discouraged little lad to return to Dalmatia.

Gacino's father then apprenticed him to a druggist, but the boy soon wearied of long hours and small wages and ran away to Trieste, where he hid in a steamship bound for Egypt.

In Alexandria he stowed away in the boiler and then disappear again. McKechan crawled over to the manhole and peered into the darkness inside the boiler. He could dimly discern the outlines of a person, and he shouted to him to come out.

Receiving no answer, the engineer attempted to reach inside and grab the boy's clothing, but was severely bitten for his pains. The engineer satisfied that something was wrong went to Chief Engineer Hardy, displayed his bleeding fingers and reported the occurrence. Hardy, thinking he had a madman to deal with, called for volunteers to descend into the boiler, and two of the stokers responded. The ship's surgeon was also called, and stood by to render his services, if needed. When the stokers got inside the boiler they found that the boy had crawled underneath the tubes on top of the furnace. After a struggle and some tight squeezing past the tubes, they managed to get their prisoner up to the manhole entrance, where he was quickly pulled out.

All laughed when they saw the supposed lunatic. He was locked up in the steamship's hospital, and when the vessel reached port a vigorous search for the bold lad's friend was made. He was soon located in Harlem, and signed papers which permitted the young Dalmatian to remain in the United States.

BONOLOD MOROS

Attack Advance Guard of Soldiers, Injuring Two.

Manila, June 23.—Five soldiers of the Twenty-seventh infantry, forming an advance guard which was escorting a wagon train half a mile from camp Vicars, Island of Mindanao, were attacked today by ten bolomen. One soldier had an arm badly cut and another was seriously wounded in the head. The Moros captured a rifle and escaped uninjured. The Badigiam Moros say the attackers were Moros from Bonolod, who went on the warpath in the morning for the avowed purpose of killing negligent Americans.

MEN DID NOT STRIKE.

Cumberland, Md., June 23.—There was a rumor last night that the West Virginia central miners would strike today, but the men turned out to work this morning as usual. About 4000 miners are employed along the line of the West Virginia Central.

ROBEL WON CHAMPIONSHIP.

Berlin, June 23.—In the race for the cycling championship of the world, 100 kilometers, today, Robel, of Munich, won; time, 1 hour 28 min. 18 sec. Bonhours, of Paris, was second and Taylor, of Paris, third. "Tom" Linton, the English bicyclist, lost touch with his pacemaker several times and withdrew.

BROUGHT UP AS A GIRL

Immigration Officials Discover Man With Long Blonde Hair Who Came to This Country to Work as Servant Girl.

New York, June 23.—"Otillie" Castnaugle, who came to this country a few days ago in the hope of getting employment as a woman servant, is a man and now awaits deportation at Ellis Island. "Otillie" will be sent home as a man, not because he was found to be one, but because he was likely to become a public charge. He says he did not knowingly deceive. His parents had always dressed him as a girl and treated him as a daughter. He was taught to do housekeeping and later found work as a woman servant in Saxony. While washing dishes and scrubbing floors in his native place, a woman employed in the same household left Saxony for Philadelphia. She secured a good place and "Otillie" decided to follow her.

"Otillie" almost passed the rigid scrutiny of the government officials without arousing suspicion. "Otillie" wore a small shawl over his head as he walked by the officials. But when he was taken before the board of special inquiry, the palms of his hands and his fingers aroused the suspicion that he was a man, and the medical staff was asked to set all suspicion at rest. The officials cut away the supposed woman's fine blonde hair, which was worn long and carefully dressed, and, to further prevent deception, dressed the intending emigrant in his proper attire.

STREET CAR CONSUMED

Passengers Burned On New York Trolley Line.

Several Are Injured In a Collision In Chicago.

New York, June 23.—While running at a high rate of speed a Myrtle avenue trolley car in Brooklyn took fire, burning the motorman and five passengers, one probably fatal. Other passengers were badly injured trying to escape the flames. Those injured were:

Grace Von Birkland, 17 years old, burned about the face, arms and legs; will die.

Oscar Von Birkland, burned about face and arms.

Mrs. Grace Von Birkland, burned about face and arms.

Thomas Huff, motorman, burned about legs, arms and face.

Philip Rose, Jr., burned about face and hands.

Frank Loretti, burned about face and hands.

The car was making a return trip to the Brooklyn bridge from the ridgeway picnic park. It was loaded to the utmost limit, the conductor's register showing 110 passengers, when there there was a report, which was heard three blocks in all directions, and which almost lifted the car from the track.

A fuse had burned out and flames immediately caught the woodwork, and also burst through the motor box. This flame was carried up over the front dashboard, and, being caught by the draught, caused by the car's speed, swept back, burning all who were unable to throw themselves into the street. The motorman, although much injured, stuck bravely to his post and applied the brakes, bringing the car to a stop.

Miss Von Birkland received the full force of the flames and was unconscious when the car was brought to a standstill. Her father and mother were also so badly burned that for a time it was feared that they might not recover. The car was almost entirely destroyed.

Chicago, June 23.—Ten persons were hurt in a trolley car collision last night. The accident occurred at Clark and Twelfth streets, a southbound Wentworth avenue and westbound Twelfth street car met at the crossing. Each motorman thought he had the right-of-way and both cars were going at full speed.

The injured: Louis Aronhouse, head severely cut; Harry Cohn, severely bruised; James Cotter, motorman, left arm broken; Mrs. Anne McLaughlin, back wrenched; M. L. McLaughlin, side cut by spliners; Luke McLaughlin, head bruised; Bernie Osterzetzer, severely bruised; Lee Ridner, severely bruised; Miss Lena Schmidt, seriously bruised; Mrs. Jane Sucher, seriously wrenched and bruised.

No arrests were made.

FELL WITHOUT WARNING

Section of St. James Hotel, at Dallas, Tex., Collapsed and Thirteen Men Fell With It--- Not One Was Killed.

Dallas, Tex., June 23.—At 2:05 o'clock this morning the center section of the St. James hotel, a three-story building, located at Main and Murphy streets, collapsed without warning and thirteen men were carried down with the debris without a single fatality.

For a few minutes after the crash it was thought several lives had been lost, but by quick work firemen and policemen rescued all those who had not escaped through their own efforts. The escape of those who were taken from the debris was marvelous, as there were tons of brick, mortar and wood work piled in above where they were found. Three men who were on the third floor are thought to be the most seriously injured. They are: F. Fife, fell from third floor to ground, badly lacerated and suffering from shock; J. F. Hoffman, serious cut in leg and suffering from shock; J. Rose, thought to be injured internally.

Others injured, but not seriously, are: James Nolan, official scorer of the Texas league, in Dallas, and well knewn in Galveston and New Orleans; Bert Windfrey, hurt about shoulders and head; F. M. Sache, bruised slightly about legs; H. F. Jenkins, hurt about head; N. H. Dillon, one leg slightly injured; W. H. Fletcher, manager of the St. James hotel, his wife and two daughters, escaped unharmed.

The Sherman lodging house, which is next door to the St. James, also fell, but the guests escaped. The proprietor, named McDonald, escaped with a severe scalp wound.

GIVE JAPS PHILIPPINES

Gen. Burt Would Solve the Eastern Problem By Selling the Islands to the Japanese For $150,000,000.

San Francisco, June 23.—Gen. A. S. Burt, retired, who has recently arrived from the Philippines, has a plan for the solution of the Philippine problem. He believes he has arrived at a conclusion that will ultimately be accepted by the administration and the country at large as the only solution.

"Turn them over to the Japanese," said the general. "Let the Japanese have them on the installment plan for the consideration, say, of $150,000,000. Our government does not need the money in a lump sum, and by making a proposition of that kind, we can dictate as to coaling stations and make such reserves as are thought to be best for trade interests. An arrangement of that kind can be effected that will give the United States as broad a road into the markets of the Orient as if we retained the islands; besides, we will be making strong allies of two nations that will represent our interests on that side of the globe without the necessity of the presence of a large army at an enormous cost.

EDUCATION CAUSED SUICIDE

El Paso, Tex., June 23.—Juan Micaba, a full blood Acoma Pueblo Indian residing near Las Cruces, N. M., committed suicide because he was whipped by his mother-in-law. Micaba had a quarrel with his wife and whipped her. He was in turn whipped by his mother-in-law. Unable to bear up under the indignity, he secured a 6-shooter and blew out his brains.

This is the first suicide ever reported among the Acoma Pueblos, and the old tribesmen attribute it to the education received by Micaba at the government schools.

CRUISER FINDS COAL SCARCE

New York, June 23.—The cruiser Brooklyn, which has been selected by the navy department to take the remains of the late Lord Pauncefote to England, is coaling at the Brooklyn navy yard.

There is no coal stored at the yard, owing to lack of room, and the strike has considerably inconvenienced the warships. he Brooklyn will have only enough coal to take her to England and it will be necessary to obtain enough at Southampton to bring her back.

The remains of the dead ambassador will be placed in the after cabin, with a detail of marines as a guard of honor. The Brooklyn probably will sail on Thursday next.

BIGGEST GUN IN THE WORLD

New York June 23.—A 16-inch gun—the largest in the world—will be completed at Watervliet arsenal by Wednesday, and sent to the United States proving grounds at Sandy Hook. It's operations are expected to astonish the world. It is the most powerful weapon yet devised by man and is expected to revolutionize the art of gun making. The work upon this gun has been going on for years. Monster cranes have been constructed in order that the various parts of the record-breaking gun may be conveniently shifted.

New York, June 23.—Arrangements for the great naval review on next Saturday are nearly concluded, says a London dispatch to the Tribune. British ships have been dropping into the line one by one in the last few days. When Admiral Noel reaches Spithead today with the home squadron, King Edward's mighty fleet will be complete and the senior officers in the roadstead will be ready to return the salutes of the foreign men-of-war, all of which should be in position by tomorrow night.

KING EDWARD VII. AND QUEEN ALEXANDRA, WHOSE CORONATION IS THE NOTABLE EVENT OF THE WEEK.

NO BREAK OF STRIKERS

Beginning of Seventh Week of the Great Coal Strike Shows No Apparent Change In the Situation.

Wilkesbarre, Pa., June 23.—The seventh week of the anthracite coal miners' strike began today very quietly. The big towns of the coal region show no outward evidence that a strike is on, but in the small mining settlements men can be seen on all corners idling away the days, waiting for something to turn up. Interest was centered today in President Mitchell's address to the public, which was read to groups of men gathered in the mining towns by one of their number.

The rumors that the coal companies expected a break in the ranks of the men are not borne out by the actions of the men. Some of the officials of the companies say they get applications daily from strikers, who want to go to work. These men, they say, are given work about the mines whenever they have work for them.

As far as is known, none of the companies are attempting to resume mining. The mine workers' committees are still endeavoring to persuade men who remained at the engines and pumps from continuing work. Very few, however, are joining the ranks of the strikers. The union is unable to make any headway with the new men brought here to take the strikers' places.

TWO BLOWN INTO FRAGMENTS

La Follette, Tenn., June 23.—A terrific explosion occurred at the railroad camp of William Park, four miles from here this morning at about 2 o'clock. Herb Jones and aMrtha Chapman were literally blown to pieces and the house in which they were sleeping was demolished. A baby also in the house was thrown quite a distance but was unhurt. Four cases of dynamite are reported missing from the contractor's magazine and it is thought these were placed under the house by enemies of the pair. Officers are making an investigation.

ITALIAN CARVES HIS RIVAL

New York, June 23.—In that crowded part of Harlem known as "Little Italy" an encounter has occurred between rivals for the hand of a young Italian girl, which resulted in the wounding of three men and one woman. Of the former, one probably will die. He is Florezno Paras, and he received half a dozen stabs from a stiletto. His rival beat him down and was escaping when Paras drew a revolver and emptied it. An immense crowd had sprung up around the combatants and three of the bullets found marks in the bodies of the onlookers. The successful rival escaped unscathed, however. A large force of police had much difficulty in quelling the disturbance and dispersing the crowd.

TO BE GUESTS OF WINNIPEG

Winnipeg, Man., June 23.—A party of wealthy Americans will be the guests of the corporation at Winnipeg on coronation day, and after participating in the public functions here in celebration of the event, will go several hundred miles in the interior of the country, with Prince Albert province as their objective point. It is said that their purpose is to purchase a large tract of land in the province and to colonize it with American settlers. The party includes: Governor Van Sant of Minnesota, Governor Cummins of Iowa, G. Thorne, of the Park National bank, New York; James McDonald, of the Hanover National bank, New York; James B. Forgan, of the First National bank of Chicago; E. D. Hulburt, vice president of the Merchants' Loan and Trust company, of Chicago; Robert Stuart, president of the American Exchange National bank of Chicago; James H. Eckels, ex-controller of the currency, now president of the Commercial National bank of Chicago, and a number of others.

NINE DAYS WITHOUT FOOD

Henning, Minn., June 23.—(Special to The Herald.)—John Owens, the missing young man, was found two miles from Hewitt, lying unconscious at the foot of a large tree. He had evidently been there for nine days without food or drink, and was reduced to a mere skeleton. He had gnawed the bark from the foot of the tree. He died two hours after being taken home.

HID AWAY IN BOILER

Young Austrian Traveled Fifteen Thousand Miles Before He Reached America.

New York, June 23.—Rivaling the tales of mythical fortune hunters is the experience of a little Austrian stowaway in one of the boilers of the Umbria, which has just come into port. After the lad, who is 16 years old, had traveled 15,000 miles in quest of America, he at last was put in the hands of a friend, who promised to care for him. His name is Booz Gacino, and he comes from Dalmatia, a province of Austria. His wanderings began more than a year ago, when his father, a small farmer, gave him 100 florins and told him seek America.

With great glee the little Austrian left the village of Sebenico, for he and his elder brothers quarreled continually, and he had a friend in America whom he longed to join. After spending thirty of his florins he reached Trieste, the seaport, where he fell in with an obliging fellow, who, for the 70 florins agreed to smuggle Booz for America. Booz gave up his florins, and the stranger disappeared, leaving a discouraged little lad to return to Dalmatia.

Gacino's father then apprenticed him to a druggist, but the boy soon wearied of long hours and small wages and ran away to Trieste, where he hid in a steamship bound for Egypt.

In Alexandria he stowed away in the boiler and then disappear again. McKechan crawled over to the manhole and peered into the darkness inside the boiler. He could dimly discern the outlines of a person, and he shouted to him to come out.

Receiving no answer, the engineer attempted to reach inside and grab the boy's clothing, but was severely bitten for his pains. The engineer satisfied that something was wrong went to Chief Engineer Hardy, displayed his bleeding fingers and reported the occurrence. Hardy, thinking he had a madman to deal with, called for volunteers to descend into the boiler, and two of the stokers responded. The ship's surgeon was also called, and stood by to render his services, if needed. When the stokers got inside the boiler they found that the boy had crawled underneath the tubes on top of the furnace. After a struggle and some tight squeezing past the tubes, they managed to get their prisoner up to the manhole entrance, where he was quickly pulled out.

All laughed when they saw the supposed lunatic. He was locked up in the steamship's hospital, and when the vessel reached port a vigorous search for the bold lad's friend was made. He was soon located in Harlem, and signed papers which permitted the young Dalmatian to remain in the United States.

BONOLOD MOROS

Attack Advance Guard of Soldiers, Injuring Two.

Manila, June 23.—Five soldiers of the Twenty-seventh infantry, forming an advance guard which was escorting a wagon train half a mile from camp Vears, Island of Mindanao, were attacked today by ten bolomen. One soldier had an arm badly cut and another was seriously wounded in the head. The Moros captured a rifle and escaped uninjured. The Badiglam Moros say the attackers were Moros from Bonolod, who went on the warpath in the morning for the avowed purpose of killing negligent Americans.

MEN DID NOT STRIKE.

Cumberland, Md., June 23.—There was a rumor last night that the West Virginia central miners would strike today, but the men turned out to work this morning as usual. About 4000 miners are employed along the line of the West Virginia Central.

ROBEL WON CHAMPIONSHIP.

Berlin, June 23.—In the race for the cycling championship of the world, 100 kilometers, today, Robel, of Munich, won; time, 1 hour 28 min. 18 sec. Bonhours, of Paris, was second and Taylor, of Paris, third. "Tom" Linton, the English bicyclist, lost touch with his pacemaker several times and withdrew.

BROUGHT UP AS A GIRL

Immigration Officials Discover Man With Long Blonde Hair Who Came to This Country to Work as Servant Girl.

New York, June 23.—"Otillie" Castnaugle, who came to this country a few days ago in the hope of getting employment as a woman servant, is a man and now awaits deportation at Ellis island. "Otillie" will be sent home as a man, not because he was found to be one, but because he was likely to become a public charge. He says he did not knowingly deceive. His parents had always dressed him as a girl and treated him as a daughter. He was taught to do housekeeping and later found work as a woman servant in Saxony. While washing dishes and scrubbing floors in his native place, a woman employed in the same household left Saxony for Philadelphia. She secured a good place and "Otillie" decided to follow her.

"Otillie" almost passed the rigid scrutiny of the government officials without arousing suspicion. "Otillie" wore a small shawl over his head as he walked by the officials. But when he was taken before the board of special inquiry, the palms of his hands and his fingers aroused the suspicion that he was a man, and the medical staff was asked to set all suspicion at rest. The officials cut away the supposed woman's fine blonde hair, which was worn long and carefully dressed, and, to further prevent deception, dressed the intending emigrant in his proper attire.

STREET CAR CONSUMED

Passengers Burned On New York Trolley Line.

Several Are Injured In a Collision In Chicago.

New York, June 23.—While running at a high rate of speed a Myrtle avenue trolley car in Brooklyn took fire, burning the motorman and five passengers, one probably fatal. Other passengers were badly injured trying to escape the flames. Those injured were:

Grace Von Birkland, 17 years old, burned about the face, arms and legs; will die.

Oscar Von Birkland, burned about face and arms.

Mrs. Grace Von Birkland, burned about face and arms.

Thomas Huff, motorman, burned about legs, arms and face.

Philip Rose, Jr., burned about face and hands.

Frank Loretti, burned about face and hands.

The car was making a return trip to the Brooklyn bridge from the ridgeway picnic park. It was loaded to the utmost limit, the conductor's register showing 110 passengers, when there there was a report, which was heard three blocks in all directions, and which almost lifted the car from the track.

A fuse had burned out and flames immediately caught the woodwork, and also burst through the motor box. This flame was carried up over the front dashboard, and, being caught by the draught, caused by the car's speed, swept back, burning all who were unable to throw themselves into the street. The motorman, although much injured, stuck bravely to his post and applied the brakes, bringing the car to a stop.

Miss Von Birkland received the full force of the flames and was unconscious when the car was brought to a standstill. Her father and mother were also so badly burned that for a time it was feared that they might not recover. The car was almost entirely destroyed.

Chicago, June 23.—Ten persons were hurt in a trolley car collision last night. The accident occurred at Clark and Twelfth streets, a southbound Wentworth avenue and westbound Twelfth street car met at the crossing. Each motorman thought he had the right-of-way and both cars were going at full speed.

The injured: Louis Aronhouse, head severely cut; Harry Cohn, severely bruised; James Cotter, motorman, left arm broken; Mrs. Anne McLaughlin, back wrenched; M. L. McLaughlin, side cut by spliners; Luke McLaughlin, head bruised; Bernie Osterzetzer, severely bruised; Lee Ridner, severely bruised; Miss Lena Schmidt, seriously bruised; Mrs. Jane Sucher, seriously wrenched and bruised.

No arrests were made.

FELL WITHOUT WARNING

Section of St. James Hotel, at Dallas, Tex., Collapsed and Thirteen Men Fell With It--- Not One Was Killed.

Dallas, Tex., June 23.—At 2:05 o'clock this morning the center section of the St. James hotel, a three-story building, located at Main and Murphy streets, collapsed without warning and thirteen men were carried down with the debris without a single fatality. For a few minutes after the crash it was thought several lives had been lost, but by quick work firemen and policemen rescued all those who had not escaped through their own efforts. The escape of those who were taken from the debris was marvelous, as there were tons of brick, mortar and wood work piled in above where they were found. Three men who were on the third floor are thought to be the most seriously injured. They are: F. Fife, fell from third floor to ground, badly lacerated and suffering from shock; J. F. Hoffman, serious cut in leg and suffering from shock; J. Rose, thought to be injured internally.

Others injured, but not seriously, are: James Nolan, official scorer of the Texas league, in Dallas, and well known in Galveston and New Orleans; Bert Windfrey, hurt about shoulders and head; F. M. Sache, bruised slightly about legs; H. F. Jenkins, hurt about head; N. H. Dillon, one leg slightly injured; W. H. Fletcher, manager of the St. James hotel, his wife and two daughters, escaped unharmed.

The Sherman lodging house, which is next door to the St. James, also fell, but the guests escaped. The proprietor, named McDonald, escaped with a severe scalp wound.

GIVE JAPS PHILIPPINES

Gen. Burt Would Solve the Eastern Problem By Selling the Islands to the Japanese For $150,000,000.

San Francisco, June 23.—Gen. A. S. Burt, retired, who has recently arrived from the Philippines, has a plan for the solution of the Philippine problem. He believes he has arrived at a conclusion that will ultimately be accepted by the administration and the country at large as the only solution.

"Turn them over to the Japanese," said the general. "Let the Japanese have them on the installment plan for the consideration, say, of $150,000,000. Our government does not need the money in a lump sum, and by making a proposition of that kind, we can dictate as to coaling stations and make such reserves as are thought to be best for trade interests. An arrangement of that kind can be effected that will give the United States as broad a road into the markets of the Orient as if we retained the islands; besides, we will be making strong allies of two nations that will represent our interests on that side of the globe without the necessity of the presence of a large army at an enormous cost.

EDUCATION CAUSED SUICIDE

El Paso, Tex., June 23.—Juan Micaba, a full blood Acoma Pueblo Indian residing near Las Cruces, N. M., committed suicide because he was whipped by his mother-in-law. Micaba had a quarrel with his wife and whipped her. He was in turn whipped by his mother-in-law. Unable to bear up under the indignity, he secured a 6-shooter and blew out his brains.

This is the first suicide ever reported among the Acoma Pueblos, and the old tribesmen attribute it to the education received by Micaba at the government schools.

CRUISER FINDS COAL SCARCE

New York, June 23.—The cruiser Brooklyn, which has been selected by the navy department to take the remains of the late Lord Pauncefote to England, is coaling at the Brooklyn navy yard.

There is no coal stored at the yard, owing to lack of room, and the strike has considerably inconvenienced the warships. he Brooklyn will have only enough coal to take her to England and it will be necessary to obtain enough at Southampton to bring her back.

The remains of the dead ambassador will be placed in the after cabin, with a detail of marines as a guard of honor. The Brooklyn probably will sail on Thursday next.

BIGGEST GUN IN THE WORLD

New York June 23.—A 16-inch gun—the largest in the world—will be completed at Watervliet arsenal by Wednesday, and sent to the United States proving grounds at Sandy Hook. It's operations are expected to astonish the world. It is the most powerful weapon yet devised by man and is expected to revolutionize the art of gun making. The work upon this gun has been going on for years. Monster cranes have been constructed in order that the various parts of the record-breaking gun may be conveniently shifted.

INTENTIONAL DUPLICATE EXPOSURE

DEFECTIVE PAGE

Manhattan Shirts for Men $1.50 to $3.50.

Correct dressers wear the "Manhattan," knowing it to be the height of style and absolutely safe to buy. There is not another line of shirts in the city to equal the Manhattan in material, fit and style. Made open back or front, plain or plaited bosoms with cuffs attached or detached.

Here's a Splendid Shirt at $1.00

Particular attention is given here to the dollar shirt. It's a popular price and lots of men depend upon this store for their supply at that price. The one now selling is a negligee in a variety of patterns and favored materials. Some fancy percales with pleated bosoms, others plain negligee style in madras and cheviots at $1.00.

Special showing summer neckwear

In the narrow French Four-in-Hands, Batwings, Tecks and Bows—all the popular colors—**50c**

Our line of Full Dress Neckwear was never so complete as this season—**50c to $7.50**

M. S. BURROWS.

Knox Hats. Hanan Shoes.

Comfort-loving Men!

Will be delighted with the variety of Underwear found here. Comfortable Underwear is our "long-suit." If nature has built you on an athletic plan—and by way of generosity has thrown in a goodly portion of adipose tissue—in other words, if you are a "big man," we want to see you.

Balbriggan—Nainsook—Lisle—Linen and Silk. If it's white you want ecru, pink, blue, green—or any of the fancy stripes—shirts with long or short sleeves—drawers made stout—medium or slim—whether you're a dwarf, giant or a happy medium—you can be fitted here and fitted well—**50c up.**

M. S. Burrows

Straw Hats 25c to $5.00

MUST ACT.

Duluth Must Take Steps to Care For Excursionists.

Duluth must take care of its excursions in better style or it will be in danger of losing them.

Saturday night there were upwards of 4,000 strangers in the city, coming on the Great Northern and Northern Pacific railroads. That number of people cannot be suddenly thrust into a city of the size of Duluth and find accommodation in a haphazard way. Some systematic provision must be made, and as there was none on this occasion hundreds of them could find no places in which to sleep.

Those who are familiar with the excursions that have been conducted by the railroads say that if Duluth does not take care of the people when they come here the railroads will not bring them. They will simply stop giving any excursions to Duluth.

Last year there was no such complaint and there is no doubt that the work of Thomas E. Hill, who was then secretary of the Duluth Improvement association, was responsible for this. Mr. Mill himself tells how it was done.

"The city was canvassed from Lester Park to West Duluth and every available room was placed on the list. Copies of this were printed and it was kept up-to-date throughout the season.

"Whenever an excursion train arrived in the city a force of twelve ushers whom I had secured met the excursionists and brought them directly to an office which had been opened on the ground floor of the Manhattan building. There within forty minutes' time every one of them was assigned to rooms and, in many cases, messengers sent with them to see that they reached the place to which they were directed.

"The importance of providing for these excursionists should be realized. I know well the difficulty we have had in getting these excursions arranged and we will certainly lose them if we do not care for the people after they have come here. There is no way to care for them except by a systematic canvassing of the city in the manner that we did last year and meeting them and arranging individaully for their accommodation.

A number of expression along the same line have been heard today. One idea advanced is that the mayor should again appoint a reception committee, as used to be done a couple of years ago, this committee to arrange a bureau to look after this work.

Dance at Oatka this evening—Lisbon Orchestra.

BUYS A FINE STOCK.

J. K. Stack Secures Excellent Bargain In the East.

J. K. Stack, of Stack & Co.'s department store, returned yesterday from a successful purchasing trip of a week in the East. Mr. Stack secured some extraordinary values in summer goods, which will be on sale in a few days. The manufacturers in the East are offering merchandise at very low prices at the present, for the purpose of cleaning up the spring and summer surplus. This, Mr. Stack says, is the best time to purchase summer goods, as the season in the East is ahead of here, and it is hard for the manufacturers to dispose of their summer stock at the present time to their Eastern trade, and he has taken advantage of the exceptional opportunity to purchase a fine line of goods at prices which will enable Stack & Co. to offer the greatest bargains ever heard of in Duluth when his late purchases arrive.

DATTOS OBSTINATE.

Say They Would Die Rather Than Submit.

Manila, June 23.—Lieut. Col. Frank D. Baldwin, from the island of Mindanao, reports that the Moros have held a big conference at Baclod. The sultan urged a policy of friendship with the Americans, but two of the dattos said they would die first. Others declared that if the two dattos caused war they would not assist them.

Three towns in the western part of the island are inclined to be unfriendly. Col. Baldwin hopes to win them over to peace.

DUKE IS REINSTATED.

London, June 23.—The Duke of Manchester today took the customary oath and his seat in the house of lords, his financial liabilities having been removed.

MESSERSMITH GUILTY.

Baltimore, June 23.—John K. Messersmith, the cotton broker, who has been on trial before Judge Ritchey in the criminal court for the last five days, charged with obtaining $25,000 by means of false pretences from the Merchants National bank, was convicted of the charge by Judge Ritchey this morning.

SKULL FRACTURED.

Warsaw, Ind., June 23.—Edna and Elsie Beigh, daughters of Nelson J. Beigh, of Claypool, this county, were thrown from a carriage in a runaway last night and the former died from a fractured skull today. The latter is probably fatally injured.

Acre Tracts

Near Woodland to lease, with privilege of purchase. In quire of J. C. and R. M. Hunter, Exchange building.

LETTER A SURPRISE

Chairman Rosing Comments on Declination of Mr. Lind.

Says Strong, Well Balanced Ticket Will Be Nominated.

Declines to Express Opinion as to Gubernatorial Candidate.

Minneapolis, June 23.—(Special to The Herald.)—L. A. Rosing, chairman of the Democratic state central committee, declined to state who in his judgment would be selected to head the Democratic state ticket, in view of former Governor Lind's declination to take the honor, but he did state emphatically that a strong, well-balanced state ticket will be nominated, and the fight in the state made along the same lines and prosecuted with as great vigor as if John Lind were again the parties nominee for governor.

"I hardly know what to say," replied Mr. Rosing, when asked for an expression regarding the situation. "Mr. Lind's letter, while strictly in line with what he has said all along, was nevertheless a surprise, and has caused some confusion, especially as the state convention is so near. There is no doubt at all that Lind will adhere to the terms of the letter.

"However, the party is in good condition in the state, and there is no doubt it will have recovered fully from effects of the letter before the convention comes around. I have called a meeting of the state central committee for Tuesday, which is as soon as the members can be got together, and some decision will be discussed then.

"As far as I am concerned, it is impossible to say who will be the nominee for governor until after the boys come in from the state. They have not yet been heard from. I doubt not that when they get together they will have thought the situation out carefully and have made up their minds as to their choice. Further than that I don't know of anything to say."

Mr. Rosing was asked regarding the current reports that the state convention would probably turn to him and have him head the ticket.

"I have nothing to say as to that," he replied. "The honor is an attractive one and under certain circumstances I would not hesitate to accept it if offered me. But there are many things to consider, and, frankly, I have not had time to determine as regards them."

Mr. Rosing today opened headquarters for the state committee and state convention at the West hotel.

FIRE AT ST. CLOUD.

Thirty Thousand Dollar Loss to Department Store.

St. Cloud, Minn., June 23.—(Special to The Herald.)—Fire early Sunday morning in the Leisum department store caused a loss of about $30,000, fully covered by insurance. The fire started in the millinery department on the second floor and is supposed to have been caused by inflammable material catching fire from a gas stove used for heating irons, and which had not been extinguished.

The policeman on that beat smelled some smoke for some time before the fire was located by an explosion which blew out the windows on the second floor of the establishment.

VIRULENT CANCER CURED.

Startling proof of a wonderful advance in medicine is given by druggist G. W. Roberts, of Elizabeth, W. Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklin's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and microbe poisons at the same time this salve exerts its matchless healing power, blood diseases, skin eruptions, ulcers and sores vanish. Bitters, 50c; Salve, 25c, at W. A. Abbett's Drug Store.

Dance at Oatka this evening—Lisbon Orchestra.

GREATEST OF SHOWS

Ringling Brother's Immense Circus Entertaining People of Duluth.

Thousands Welcome Its Arrival and See Erection of Show.

Parade a Great Display---Tent Packed This Afternoon.

The first section of Ringling's great circus arrived in the city yesterday morning at 11 o'clock, four hours late. The delay was due to an attempt to blow up the track on the Northern Pacific road between Maple and Poplar about twenty miles out of Duluth. Whether the object of the fiends who tried this work was to wreck the Ringling trains or a Northern Pacific freight, is not known.

Seven explosions took place in four miles between the two stations. A woodsman who was sleeping near the track heard one of the explosions and investigated. Finding what the miscreants were about he hurried to the first station and notified the agent who in turn notified headquarters, the train was caught before any damage was done. A section crew was ordered out at once and the track was repaired as quickly as possible.

When the train arrived here an immense crowd was awaiting it at Fifth avenue west, and the work of unloading was watched with great interest. Throughout the afternoon, too, the grounds at Thirtieth avenue west were thronged with people watching the work of erecting the great canvas.

The scene about the grounds where a circus is in course of erection is a very fascinating one to people of all classes. Even the staid business man takes a keen delight in watching the work, the side that appeals to him being the marvelously perfect organization. Everything moves like clock-work, and the immense paraphernalia goes into position with a celerity that suggests the magical.

Everybody was out this morning to see the parade, which was one of the best ever seen in the city and fully up to that which the Ringling Brothers have been advertising. The early morning trains, as well as excursion trains from nearly every direction into Duluth brought in big crowds of people who were anxious to be here in time for the parade.

On the way uptown the parade turned off West Superior stret up to First street, at Fourth avenue west, a move not anticipated by the thousands of people lining Superior street, and for a few minutes there was a great rush up the avenue to First street. The procession went out on First street to Seventh avenue east, then down to Superior street, and west to the circus grounds in the West End. The West End was as crowded as the streets uptown.

The animal section of the parade was especially large and complete. The open cages containing the snakes, with their charmer; the hyenas, the lions, panthers, bears and keeper, the leopards, the tigers and the hippopotamus attracted great attention.

One interesting and exciting incident that was not down on the program was a hot fight between the leopards while the wagon containing their cage was passing through the West End. For some reason one of the leopards became enraged and leaped on the other and lying on their sides in the middle of the cage the two savage animals began chewing and tearing each other while crowds gathered around the cage. The keeper quickly interfered by pounding the animals with a piece of board, and got them separated, but hardly had he done so when the large animal made a quick spring on the back of the other and they began fighting again. A loaded whip was used with telling effect on the larger leopard, and as soon as they were again separated, the partition in the cage was closed.

A number of selections were played on the chimes and the steam calliope, two big musical instruments that never fail to attract attention. Following the chimes came the riders and the charioteers, then the camels and elephants with their riders. There were twenty elephants in the herd.

In the children's section were the Japanese family and the scores of cages of animals drawn by Shetland ponies. This section is certainly one of the features of the show. Another pleasing feature of the parade was the band on horseback.

The afternoon performance of the circus was witnessed by a crowd that not only filled every available seat in the immense tent but overflowed into the hippodrome track. It is estimated that fully 14,000 men, women and children were in the tent by the time the circus commenced.

That each and everyone of the thousands of spectators was a show enthusiast was ably demonstrated by the generous applause that greeted the various acts. The aerialists, the bar performers, the forty funny clowns, Pearl Souders' three herds of educated elephants, Capt. Webb's performing seals and sea lions, the famous Nelson family of acrobats, the Holloway trio, Europe's renowned tight wire artists and the Flying Dunbars were cheered to the echo.

The circus this season is better, bigger and cleaner than ever and is the result of hard work on the part of the Ringlings who have scoured every civilized portion of the globe for attractions that serve to entertain the public. No pains or expense has been spared to make the amusement enterprise second to none and it can truthfully be said that the show is the real big one of the world.

The night performance will be commenced promptly at 8 o'clock. The doors will be thrown open at 7 to give the audience ample time to view the numerous species of rare animals shown in the menagerie. The crowning feature of the collection is Nellie, the only giraffe in existence. She is just thirty-three months old and is growing at the rate of an inch a month.

Through the kindness of Ringling brothers, seventy-five boys that are under the care of Probation Officer H. C. Withrow, were enabled to see the circus this afternoon.

Hundreds of lives saved every year by having Dr. Thomas' Eclectric Oil in the house just when it is needed. Cures croup, heals burns, cuts, wounds of every sort.

The Committees Named.

President Patrick of the Commercial club has appointed the following committees authorized at the last meeting of the club:

Petitioning congress asking for reciprocity with Canada—A. Fitger, Ward Ames, L. R. Hurd, L. W. Leithhead and C. A. Luster.

United States government making reservation of Minnesota and Wisconsin Points—T. W. Hugo, Alex McDougall, W. R. Peyton, B. Silberstein and E. C. Little.

Inviting President Roosevelt to visit Duluth—A. H. Comstock, C. d'Autremont, Jr., A. H. Davidson, A. L. Ordean and L. C. Harris.

Cost of living and wages in Duluth as compared with other cities—L. N. Case, A. Hirsch, Roger S. Powell.

It's the well-spring of joy. The center around which happy home life centers. Rocky Mountain Tea. That great family remedy that makes home happy. Ask your druggist.

EPPLING & OSMAN.

AT WEST DULUTH

No steps have yet been taken toward starting a petition among the Central avenue property owners for either a tar macadam or a cedar block pavement, although it has been intimated several times that such a step would be taken. Business interests along the avenue fear that the matter will be allowed to go by default, as it has in previous years, and nothing will be done to better the condition of the street. They are urging strongly that the people owning the business blocks fronting the avenue get a petition started early this summer in order that it may be sent into the council ahead of any other contemplated street permanent improvement in other parts of the city. There is a growing belief that the West Enders will soon be petitioning for a new pavement on West Superior street between Eighteenth and Twenty-fourth avenues west.

While the permanent improvement revolving fund is pretty certain not to be available for any other extensive street improvement this year, still the West Duluth people interested in the new pavement believe that steps should be taken immediately to get the petition before the council, so that it will receive the first consideration when the permanent improvement fund is available.

In the meantime the bad condition of Central avenue continues to grow worse, and it will be but a short time until the wagons backing down to the curbs next the new sidewalks will have cut deep holes just off the pavement. It is clearly a bad case growing worse.

MRS. O. McDONALD DEAD.

Mrs. Owen McDonald, of Martin avenue and Fifty-sixth avenue west, died at the family residence yesterday morning. The funeral will be held from the St. James church tomorrow morning at 9 o'clock. Interment will be made in Old Superior. The decedent was 34 years of age and has been a resident of West Duluth for the past twelve years. She was an active member of the Degree of Honor, the A. O. H. and the Lady Foresters, all of which orders will be represented at the funeral. She leaves a husband and three children.

COMMITTEES TO MEET.

An important meeting of the Fourth of July committees will be held tomorrow evening, and it is desirable that full reports be ready of the progress made regarding the celebration planned for this end of the city. Everything is said to be working along nicely for the celebration, and the prospects are that it will be the biggest thing of the kind ever attempted in West Duluth. Crowds are expected from New Duluth, Fond du Lac, Carlton and surrounding towns, and it is possible that an excursion may be run up from Carlton in the morning and back in the evening after the fireworks.

PRACTICALLY FINISHED.

The temporary track that has been laid on Thirty-ninth avenue west, to be used this summer while the Jenswold street subway is building, is practically finished from West Third street to Oneota street. The rails have been laid on ties on top of the ground and at one side of the street. As soon as a trolley wire is put up and the required switches are put in the cut-off will be ready for use. There is as yet no announcement when the cars will begin running over the new route, but it is believed to be scheduled to occur within the next week.

MANY FISHERMEN.

There were big crowds of fishermen yesterday over the St. Louis river and on Spirit Lake. Some went up the river as far as Fond du Lac. It is said to have been a good fishing day, and hundreds of wall-eyed pike were caught. Nearly all the fishing was done by trolling. No catches of any other than pike are reported. One West Duluth angler, who was about as successful as any other, had a string of forty-two fine pike to his credit.

WEST DULUTH BRIEFS.

Hundreds of people drove to West Duluth this morning from Carlton, New Duluth, Fond du Lac and the surrounding country, and took the street cars to the circus grounds. Every available foot of space about the livery barns was utilized to care for the rigs. One man claimed that the entire population of New Duluth was down to see the circus.

A special meeting of the W. C. T. U. has been called for Tuesday afternoon at 2:30 o'clock, in the Congregational church. Business of importance is to come up for consideration and a large attendance is desired.

W. B. Hartley, of 827 North Fifty-sixth street west, has been entertaining a large delegation of friends and relatives who came in on the excursion Saturday. There were eighteen in the party.

A letter received from William Spence, who has been in Arkansas for the past few weeks, says that he will probably return this week. Mr. Spence says the weather is extremely warm there for a Northerner, and he will be glad to get back to Lake Superior's cooling breezes. He attended a convention at Tuskahoma, I. T., held to nominate a governor and his staff.

A 13-pound boy has been born to Mr. and Mrs. H. C. Hendrickson, of 401 Sixtieth avenue west.

Miss Phoebe Gilbert, who has been visiting Mrs. J. P. Buckley, left yesterday for a visit at Stillwater, Minn.

George Showers and family, of New Duluth, are in West Duluth today to call on friends and take in the circus.

Archibald Boyd, who formerly lived here, has returned from St. Louis, Minn., and will settle in West Superior. The rest of the family will join him a little later.

PRINTERS

Pay Tribute to the Memory of Amos Cummings.

New York, June 23.—Tribute has been paid to the memory of Congressman Amos J. Cummings by a large gathering at Carnegie hall. The meeting was held under the auspices of Typographical union No. 6, of which Mr. Cummings was a member. The great hall was nearly filled. On the platform were seated the speakers and representatives of the Typographical union and other labor organizations. Music was furnished by an orchestra selected from three New York theaters.

Senator William E. Mason of Illinois, who was to have delivered the oration, wired that he was unable to be present because of illness in his family. There were addresses by Marsden G. Scott, the Rev. Philip Markham Kerritt, Congressman John S. Williams of Mississippi, John W. Keller, James M. Robinson, Congressman David H. Mercer of Nebraska, the Rev. L. J. Evers, Owen J. Kindelon and Gen. James O'Beirne. Mr. Kindelon spoke of Mr. Cummings as a union printer. He said that although for thirty years of his life it was not necessary for him to earn a livelihood as a printer, Mr. Cummings never forgot his fellow-craftsmen at the case, and that when he died there was found in his pocket a card of membership in Typographical union No. 6, paid up until August, 1905. Mr. Cummings, he said, recognized the trade union as the greatest civilizer invented by man, because, as he had said, with it the expression "the equality of man" ceased to be a figure of speech and became a statement of fact.

Gen. O'Beirne's address was on the subject, "Amos J. Cummings as a Union soldier." He spoke in his praise of his bravery at the front.

STATE OF OHIO, CITY OF TOLEDO, LUCAS COUNTY.—ss.

FRANK J. CHENEY makes oath that he is the senior partner of the firm of F. J. ENVELOPED IN MYSTERY

Is the Shooting of Matron Lowe of the Topeka Reform School Who Was Found Fatally Shot.

Topeka, Kan., June 23.—Matron Lowe of the reform school lies unconscious at the hospital with two bullet wounds through her abdomen. There is no hope of her recovery. Her husband, J. C. Lowe, who has a slight bullet wound in his head, is in prison, charged with the shooting.

When the shots were heard by a watchman he rushed to the scene, found Mrs. Lowe writhing on the floor, exclaiming: "It was an accident; it was an accident."

In a few moments she became unconscious. Lowe also declared that the shooting was accidental. Near by lay a revolver with four empty chambers. In the medical ward later Lowe drank from a can labelled "carbolic acid," but the contents proved a weak solution and had no injurious effects. The entire affair is enveloped in mystery.

MOBBED AT BASEBALL GAME

Tomah, Wis., June 23.—Mark Syverson, president of the Eastern Monroe County Fair association, stopped a baseball game on the fair grounds yesterday, and was mobbed by the players and spectators. If he had not been surrounded by a dozen or more of his friends, who kept back the crowd, he would have been roughly handled, for the crowd was in an ugly temper. The game was between employes of the Tomah Cash Mercantile company and the C. A. Goodyear sawmill. The action is the indirect result of the closing of the saloons on Sunday by Mayor Nucumb.

Our Mail Order Department is prompt.

PINION WHITE COMPANY
THE BIG GLASS BLOCK STORE
DULUTH, MINNESOTA.

We send mail orders anywhere. Quick service.

Remember the Half Price

One case of finest Madras reversible Wash Scarfs, newest shapes— 19 cts, worth 25 cts

1000 dozen fancy Cambric Wash Ties, new patterns— 10c dozen.

COULD NOT IDENTIFY

Mrs. Webber Fails to Identify a Picture of Mueller.

She Said She Could Not Say Yes or No.

H. W. Coffin Says Mueller Said He Was Unmarried.

Testimony that was expected to prove a link in the chain of evidence connecting the husband of Kathrina Mueller with the Johann Mueller who owned the land in dispute in the Mueller case turned out to be somewhat disappointing to the attorneys of the alleged widow this morning.

Mrs. Adelaide Webber, a sister of Mrs. Mueller's husband, was on the stand again this morning, and she stated that she could not say whether the picture of the man that is known as the owner of the land was that of her brother or not.

When she was on the stand Saturday morning she said that the upper portion of the face looked like that of her brother, but the lower part she did not recognize, because when she last saw her brother he wore a beard, and the man in the picture wore a mustache.

She recognized the pictures of her brother as a young man immediately and burst into tears, but she hesitated some time over the large picture. This morning when she was shown the picture again she said she "could not say yes and she could not say no." The picture she was shown was an enlarged copy of a smaller picture that is also in evidence. She said she was shown a picture like the small one in Detroit a year or so ago, and she said she told the man that showed it to her the same thing that she testifies to now, that she could not be sure. She admitted having signed a paper that Mr. Severance showed her, in which she stated that the picture was not that of her brother.

Asked this morning for a more detailed description of her brother, she said that he stepped a little harder with one foot than with the other, and that he had a mark on the inside of his left forearm, just above the wrist, which she described as a tattoo mark that he brought back with him after his service in the German army. This mark, she said, was his name in blue ink.

H. W. Coffin was called by the widow's attorneys to testify to a deed made by Mueller about 1895 conveying the timber on the lands in question for $1050. This was introduced for the purpose of identifying Mueller's signature further. Mr. Coffin said, however, that he did not see Mueller sign the deed. He made it out for Mueller, and he took it out to an attorney to have it looked over, and brought it back signed and acknowledged. He identified the man in the large picture as that of the man he bought the timber from.

He said Mueller was about 5 feet 5 inches in height, about 60 years of age, and he weighed about 145 pounds. He believed that he had a small beard and that it was gray.

Cross-examined by Mr. Severance, the witness said that he got the data for making out the deed from Mueller, and that Mueller described himself as an unmarried man.

Mrs. Webber was still on the stand at noon.

STRIPPING.

Porter Bros. Get Contract For Albany Mine Near Hibbing.

Pickands, Mather & Co. have let a contract to Porter Bros. for the stripping of the Albany mine near Hibbing. This work involves the removal of nearly one-half million yards of drift that overlies one of the biggest propositions at that end of the Mesaba range. The company will also sink a shaft on this property and mill the ore concurrently with the stripping. They do not expect to ship any ore from the Albany this year, but next year this mine will undoubtedly be in the first ranks of the big shippers.

The beginning of mining on the Albany marks the increase of the operations of Pickands, Mather & Co., and brings them to the front rank on the Mesaba, this being the eighth proposition that the firm is now conducting. Among the most prominent of these is the Elba mine, situated between Sparta and McKinley, which bids fair to rival the biggest producers on the Mesaba.

IN THE WRECK

A. Snyder on the Omaha Train Wrecked Sunday In Iowa.

A. Snyder, who has been on a business trip to the Pacific coast, was on the Omaha passenger train which was wrecked yesterday morning, near Ashton, killing two and injuring five. Mr. Snyder says that the wreck was caused by a broken switch instead of an open one. He was in the sleeping car when the accident occurred and helped bring the dead fireman o[illegible] of the cab. The front cars were pile[illegible] up on the track, and Mr. Snyder says that it was one of the most horrible sights he ever witnessed.

STEALING CHICKENS.

Thieves Robbing Alois Ebner of His Fowls.

Alois Ebner, of 331 East Fifth street, desires to serve notice upon the chicken thieves of Duluth and vicinity that bagging his blooded fowls has got to stop right away. He says that he is willing to aid any one in fighting the beef trust, but he wants enough of his poultry so that he can get eggs enough for one custard pie a week.

For the second time in one week Mr. Ebner's hennery was entered last night and no less than seven birds were stolen. The first time the thieves were satisfied with only five, but as they seem to have increased the ratio, Mr. Ebner is studying up the rule of progression so as to discover if possible the date when he will be a chickenless man. In the meantime he is laying in a stock of beartraps and spring guns, and is negotiating with Tom Michaud for the purchase of a couple of the wickedest English bull terriers in his Lester Park kennels.

The prevalence of chicken stealing seems to be a popular form of protest against the exactions of the beef trust.

A MATCH ARRANGED.

W. T. Bailey's Pilot to Meet an Unknown.

One of the greatest sporting events of the season will be a match race between W. T. Bailey's Pilot and a "dark" horse from the Mesaba range. It is said that the stakes are $500 a side, play or pay, and that the race is to be pulled off some time next month. There is some question as to whether the event will be pulled off here or at Superior, but in all probability it will take place on the Oneota track.

CITY BRIEFS.

Tibbetts, undertaker, 31 East Sup. St
Smoke X-Ray and Duluth Herald cigar.
Foresters' dance, Court Eastern Star, Lester Park, Wednesday, June 25.
The Stone-Ordean baseball team is so far champion of the wholesale district. It has not met a defeat this year and won a hard game Saturday afternoon by a great finish. The Marshall-Wells team tied the champions in the eighth. In the ninth the grocery men hammered out four runs and won by a score of 16 to 12.
Parlor theater—A show for the people.
Second citizenship papers have been granted by the district court to George V. Heathcote, a former subject of the King of Great Britain.
The Duluth Safety Car Stake company has filed articles of incorporation with the register of deeds. It is empowered to make and sell a railroad car attachment known as the "safety car stake." It is capitalized at $20,000, and its limit of indebtedness is the same amount. The incorporators are W. C. Gray, Alexander Henrikson, John Cashin, Adam McAdams, H. W. Cheadle, V. R. Method, John Fehedy, A. W. Stewart and C. J. Petruschke.
Parlor theater. Enjoy life. See our show.
Dr. Samuel P. Long was taken with a chill last evening just after the evening service was opened at the First Methodist church, and was compelled to dismiss the service. The illness was only temporary and he is feeling very well again today.

PERSONALS.

Joseph Caldwell, traveling passenger agent of the Milwauke road, with headquarters at St. Paul, is at the McKay.
Peter Burry, of Winona, is spending a few days in the city. He is registered at the St. Louis.
Mrs. A. E. Burnett, daughter Nellie and Master Burnett are in the city visiting Mrs. W. S. Burnett, on their way down the lakes.
C. J. McNaff, manager of the Cloquet pulp and paper mills, left this morning on the Mabel Bradshaw for Port Arthur.
B. F. Nelson, the Stillwater lumberman, is at the Spalding.
Mrs. Jane Praher and Miss Irene Praher, of New York, are at the Spalding.
Peter Bentley, of Hancock, is at the Spalding.
N. E. Hind and D. V. Buck, of Minneapolis, fire insurance adjusters, are at the McKay. They are looking over the risks held by their company in this city.
Col. A. Lorinus, president of the St. Croix Lumber company and G. S. Wilshins, of Stillwater, are at the Hotel McKay.
Dr. Harrington, of Cloquet, is a guest at the McKay.
B. A. Marten, of R. R. Forward & Co., left Saturday for Sterling, Ill., to attend the marriage of his brother.
The friends of G. A. Klein and I. Freimuth are regaling themselves on some fine fish today, presented to them by these two gentlemen. They have just returned from a very successful outing at Deerwood.
Miss Lora Baldwin, of Minneapolis, is a Spalding guest.
E. T. Smith, a Minneapolis lumbesrman is at the Spalding.
Albert Gasser has rallied somewhat and took a little nourishment this morning. It is now hoped that he will live for some time to come.
Louis W. Hill, president of the Eastern Minnesota railway; F. E. Ward, general superintendent, and J. M. Gruber, assistant superintendent, came up from St. Paul yesterday and left for the Mesaba range. They returned this afternoon.
Victor Larson, of Wellman, Minn., chairman of the Populist staate central committee, met a number of local Populists informally at the Spalding Saturday evening, where the matter of resuscitating the party in Duluth was discussed.
John Broadhead Van Schaick, of New York city, is the guest of Mr. and Mrs. B. E. Baker, of Lester Park. Mr. Van Schaick is a member of the New York stock exchange. His father was one of the charter members of that greatest of all the world's exchanges.
Mr. and Mrs. Woodward, Mrs. Bryan and C. F. Bonham, of Two Harbors, are at the McKay.
Paul Wilmot, of Mankato, is at the McKay.
A. W. Marks and wife, of Cedar Island Lodge, are at the McKay.
George J. Lonstorf, of Milwaukee, is at the Spalding.
Capt. Thomas Cowling, John J. [illegible]erahine, F. A. Slattery, Oscar Carlson and Mac Agnew, of Ely, are at the Spalding.
M. M. Derr, of Tonawanda, is registered at the Spalding.
M. S. Hawkins and wife are down from Mountain Iron.
J. Schelder, of Milwaukee, is at the St. Louis.
Alfred Staf, Miss Agnes Staf, Charles J. Main, Miss Alice Foley and Con Sullivan are down from Virginia to see the circus.
Mrs. W. E. Wessenger and Miss O'Brien, of Virginia, have been called to Aurora, Ill., by the sickness of a relative.
A. C. Fearson, of Colorado Springs, is spending a few days in the city while on his way to France.

ACTIVELY AT WORK

West End Civic Federation Said to Have Evidence Ready.

Saloons Closely Watched By Its Representatives Yesterday.

Report That Warrants for Several Will Be Issued Soon.

There is an air of expectancy in the West End. Some time ago it was intimated very quietly that the Civic Federation has begun an active crusade against the West End saloon keepers and would henseforth force them into observing, strictly, legal hours and keeping the saloons closed tight on Sundays, in fact a delegation of the West End ministers waited on every saloon man in that part of the city with a verbal notice.

Since then it is claimed on good authority that persons have been appointed from every church congregation in the West End, who have specific duties outlined for them in the way of getting evidence against the violators of the Sunday closing law or those who keep open after hours.

One of the West End citizens, who is interested in the movement says that the Sunday following the notification found the saloons in that part of the city pretty well closed, but that since that time there has been a relaxation of vigilance on the part of the saloon keepers but not on the part of the federation. This citizen claims that yesterday the liquor dispensaries in the West End were run practically on the wide open plan, that the coming of the circus brought large crowds into the West End and there was no lack of places where persons could quench their thirst.

It is claimed that the next move will now be made by the Civic Federation and that warrants will be issued within the next few days for certain saloon keepers.

INTERESTING POINT.

Lake Avenue Property Owners Kick on Assesments.

N. N. Betts and Edward Overton have appealed to the district court from assessments for sidewalks along the Lake avenue viaduct. They own property there and they were assessed for sidewalks put down by the city. They claim that as the viaduct was an improvement that the railroads had to put in they ought to keep up the sidewalks upon it. They also assert that the sidewalks are not on Lake avenue, but on the viaduct, which is considerably above Lake avenue. The point is rather an interesting one, and several other owners of property on the viaduct have already raised it. W. H. Joerns is the attorney.

RATHBONE ARRIVES.

New York, June 23.—The Ward liner Niagara, bringing Estes G. Rathbone, the convicted director general of posts of Cuba, who was pardoned from a ten years' sentence by a general act of amnesty by the Cuban congress, liberating all American prisoners, has arrived here from Havana.

MEDAL FOR FREEMAN.

London, June 23.—The Lloyd's medal for meritorious service was presented today to Capt. Freeman of the British steamer Roddam, in the committee room of Lloyds, as a recognition of his action in gallantly taking his vessel from St. Pierre, Martinique, on May 8, during the destruction of that town by the outbreak of Mount Pelee.

ROOT FOR O. HALDEN

Large Crowd Will Go to Republican State Convention.

County Convention Will Endorse Halden and Van Sant.

Frank E. Searle Says He Was Not Frozen Out.

The Republican primaries were held Saturday night throughout the county. As in the case of the Democrats, there was no fight on anything, so the attendance was small in all the various precincts.

The county convention will be held tomorrow at the city hall, when forty delegates to the Republican state convention to be held July 1 at St. Paul will be elected.

The convention will be a Halden affair throughout, and it is not likely that there will be any friction or contest whatever. Gov. Van Sant will be endorsed and recommended for nomination, and the convention will instruct its delegates to vote as a unit for Odin Halden for state auditor.

Arrangements are being made to have a large crowd of alternate delegates go down with the regular delegates. They may not be able to vote in the convention, but they will be able to make considerable noise and do a lot of hustling for the Duluth candidate. Flaaten's band of twenty pieces has been hired by friends of Mr. Halden to go along with the delegation, and with a crowd of 150 or 200 rooters in line behind the band it is expected that the delegates from the rest of the state will know this end of the commonwealth is on the ground.

Besides the St. Louis county delegates, it is expected that a number of counties immediately adjoining this one will be solid for the Duluth candidate, and they will join in the crowd that marches behind the band.

The county convention is called for the selection of delegates and "for such other business as shall come before the convention." Aside from empowering the chairman of the convention to appoint a county committee, it is not expected that any other business will come up.

Frank E. Searle denies that he was "frozen out" of the congressional race, and says that the friends of Judge Edson found out his wishes in the matter before they announced his candidacy.

It was stated on apparently good authority that Judge Edson was hurried into the race to head off Mr. Searle, the inference being that the faction of the party that Mr. Searle is identified with did not wish him to become a candidate.

This Mr. Searle denies.

"On my return yesterday from an absence from the city since last Tuesday," said Mr. Searle this morning, 'my attention was called to a news item appearing in your issue of June 18, in which it was stated that I had been 'frozen out' of the congressional race.

"The statement of the case in that article was erroneous, and they did injustice to Senator Daugherty and his friends as well as to my own friends. The fact that Senator Daugherty had decided not to become a candidate was not withheld from me. On the contrary, I was promptly advised of his decision, not only by those having his interests in charge, but by himself as well. I received a personal letter from the senator when he announced his decision not to make the run, and I therefore knew of his decision as soon as any one else and I was given ample opportunity to become a candidate, backed by the substantially united support of all factions of the Republican party in this county, had I wished to do so.

"I was confronted by the friends of Judge Edson before he was brought into the field and I promised to support him."

• • •

Two incumbents of county offices have signified their satisfaction with their positions by filing certificates that they would like their party to renominate them for the same places over again. W. H. Whipple filed this morning for the office of county treasurer and Dr. Samuel H. Boyer filed for the office of coroner. Dr. Boyer has the distinction of having been elected two years ago by the largest majority anybody got in the county, not excluding President McKinley.

IS STRONG.

Capt. Weeks Says Lumber Vessel Situation Is Very Firm.

"Lumber cargoes are more plentiful now than they were a week ago," said Capt. Charles Weeks, the vesselman, today.

"From our standpoint the situation is very much better for the maintenance of the lumber rate. The rate is $250, just as it has been since the opening of navigation, despite other rumors, and there is every prospect to believe that there will be no change for a lower rate this season. There is a large amount of lumber on the docks here and some of the docks are particularly congested. We have had excellent drying weather lately and the stocks that were sold last winter and early this spring of the 1902 cut are now getting in condition to be shipped. It will stand the shippers well in hand to have the lumber moved rather than wait to the last of the season.

"The withdrawal of so many vessels from the lumber trade to maintain the rate has had a very satisfactory effect. The boats are not being rushed here for lumber, but, as a rule, every charter is made before the boats reach this port. Indeed, were there a sudden flurry in the shipping business, it would take some time to get the boats in motion to take care of it.

"The month of June will show a fair amount of business, but next month the vesselmen are looking for a large increase in business for the reason that much larger stocks of lumber will be dry and ready for shipment and crowded docks will practically force the shippers to act."

PENSIONS INCREASED.

Washington, June 23.—(Special to The Herald.)—The following increase of pensions have been granted today:

SILBERSTEIN & BONDY CO.

We are offering very important values in Cotton Wash Fabrics, White Goods, Linens, Towels and Bed Spreads.

Shirt Waist Suits of Lawns and Dimities at $3.75, $5.00 and $6.75.

Cloth and Silk Jackets for women and misses at HALF.

And some very attractive styles in Summer Parasols at $3.50.

Silberstein & Bondy Company.

Dennis Delahunt, of Morris, $12; Jasper D. Loomer, of Buffalo, $6.

BUSY WEEK

Has Been Planned For Whitelaw Reid, Special Ambassador.

London, June 23.—Whitelaw Reid, the special envoy of the United States to the coronation, began a busy week today. During the afternoon he made a round of official calls at the embassies in a royal carriage, accompanied by Lieut. Col. Sir Fleetwood Edwards, the extra equerry in special attendance on Mr. Reid. Tomorrow all the members of the special American embassy will probably be present at a big reception of the special ambassadors at Buckingham palace, though it is possible, in view of the fact that Mr. Reid and all his suite have previously been presented to the king, that they may be excused from attendance at the crowded function tomorrow. Tomorrow night will occur the state dinner in the ballroom of Buckingham palace, to which all the coronation guests have been invited.

On Wednesday Mr. Reid and Mrs. Reid will dine with the prince and princess of Wales at St. James palace. On procession day, Friday, Mrs. Reid and Mr. Reid will be the guests of the duchess of Buccleuch, the mistress of the robes. Mr. Reid will drive in the procession with Admiral Gervais. Thus the representatives of the great republics will be given equal prominence in the procession. After the procession, Mr. Reid will lunch at Buckingham palace. That night the members of the American embassy will attend a dinner to be given by Lord Lansdowne, the foreign secretary.

Mr. Reid will witness the naval review, off Spithead, Saturday, from the royal yacht. The other members of the embassy will be on board of the boat set apart for the diplomatic corps. On Saturday night Mr. Reid will dine with Rear Admiral Crowninshield, on board the battleship Illinois.

Mr. Reid on Sunday will attend the informal reception of the special envoys at Hertford house, where the Wallace collection will be open for inspection. On Monday, June 30, Mr. and Mrs. Reid will be present at the gala opera performance, and Tuesday, July 1, they will attend the garden party at Windsor, and afterwards the evening reception of Lady Lansdowne, which will close the strictly official entertainments.

OVATION TO KITCHENER.

He Received a Flattering Welcome at Cape Town.

Cape Town, June 23.—Lord Kitchener received a great public ovation on his arrival here this morning. The town was decorated, the streets were lined with troops and the mayor and corporation council welcomed the British commander at the town hall and presented him with an address. During his reply, Lord Kitchener, referring to the country of his nativity, paid a special tribute to the services of the Irish troops during the war in South Africa.

HARDLY TIME

To Arrange Reciprocity Treaty With Cuba This Session.

Washington, June 23.—It has been determined that no reciprocity treaty with Cuba can be submitted at the present session of congress. It was at first planned that, in the event of the failure of the administration managers in the senate to secure favorable action on the Cuban sugar bill, a treaty would be drafted at once. This was on the understanding that Senor Quesada, the Cuban minister here, had full powers, and that a treaty could be drawn in Washington entirely. It is state now, however, that this cannot be done, and that any draft of a treaty must go to Havana and be returned before it can be submitted to the senate. This, of course, cannot be accomplished in the short space of time intervening before adjournment, if the estimates of the leaders that congress will adjourn by July 4 are correct. No confidence is felt in administration circles as to the ability of the senate managers to secure the ratification of a treaty, even if one is drawn, and while the president may feel called upon to put the matter to a test, it will be rather with the idea of demonstrating his own purpose to do everything possible for Cuba, than in any expectation that a two-thirds vote for ratification could be received.

COLD IN IOWA.

Des Moines, June 23.—Unseasonably cold weather continues, overcoats and furs being rendered necessary. The seriousness of the crop condition has been further augmented by an inch and a half of rainfall within two hours.

AMES PLEADS NOT GUILTY.

Minneapolis, June 23.—(Special to The Herald.)—Dr. Albert A. Ames, mayor of Minneapolis, pleaded not guilty in court this morning to the indictment charging him with attempted bribery. The case was then set for next Monday.

THE SPHINX SOCIETY.

Conjurers Will Organize to Protect Their Secrets.

"Yes, it is quite true that the conjurers of America have formed an organization for the purpose of preventing the public from learning the secrets of their art," said Dr. Saram R. Ellison to the New York Herald, as he paused for a moment in his task of showing me the curious old books in his library, "and if they carry out their proposed plans they are sure to succeed."

It was clear from Dr. Elison's manner that he considered the step taken by conjurers both important and necessary, and as there is no one in this country who has made a more thorough study of conjuring or who is more intimate with the professors of the art than he is, I asked for further information.

"I can explain the situation in a few words," he said. "In the first place, bear in mind that conjuring is not a progressive art. If it were, new tricks would constantly be invented for several years. Moreover, it is by no means certain that a man who invents a new trick in our day will be able to derive any profit from it.

"For example, I know a man who spent considerable time and the sum of $1100 in inventing and perfecting a new trick, and yet the highest offer which he received from any conjurer for it was $800. His trick consisted in making a flower grow miraculously, or rather appear to do so, and it was a first-class work of art in its way. However, the conjurer who offered him $800 for it said to him plainly, 'It's a good trick, but I have a flower-growing trick of my own, and as the public is satisfied with it I need not discard it unless I please.'

"Owing to this dearth of new tricks conjurers throughout the world are obliged to keep on their programs the same old tricks which delighted our fathers and grandfathers. True, they may perform some of them in a slightly different manner and their performance as a whole may be more up-to-date, but the fact remains that they do very little if anything, which is actually new, and that practically all of their tricks may be found in the old books on the art.

"Now these tricks, as long as the conjurers kept the secrets to themselves, naturally proved very attractive, but the case is now different. At present, as soon as a trick becomes popular, even though it is probably only a modification of an old trick, the newspapers start to find out the secret of it, and as a rule they succeed.

"Conjurers took little notice of the extraordinary interest which the press was manifesting in them and their works until recently, when they awoke to the fact that the newspapers were slowly but surely killing the goose that had so long laid golden eggs for them. In other words, the newspapers were showing the people how to perform the very tricks by which they made their living. This would not matter very much if the conjurers' stock-in-trade was unlimited, but I have shown you that it is limited and increases very slowly.

"There are just so many tricks and no more, and whenever the secret of any one of these tricks is divulged, the earning capacity of those who perform that trick in public is bound to decrease.

"The professional magicians, or conjurers, of this country realized this fact a short time ago, and formed an organization which is known as the 'Sphinx society,' the main object of which is to prevent the secrets of their art from becoming known to the public. The society has not made much headway as yet, but an important meeting is to be held soon at which it will be placed on a firm basis.

"One reason why such a society or trust is necessary is because only in this way will it be possible to prevent newspapers or private persons from learning the secrets of tricks. It is evident that such secrets can only be divulged by persons who perform the tricks, but no magician who becomes a member of the Sphinx society will think of doing so in future, for before he is admitted to membership he will be required to give a pledge not to reveal the secrets of his art to anyone who is not a reputable conjurer. He may, indeed, be prohibited from divulging them to anyone who is not a member of the society."

In regard to the future of his favorite art, Dr. Ellison does not seem to be very sanguine.

"This is the age of specialists," he said, "and as in medicine the old school practitioners are being replaced by specialists, so, too, the old-fashioned magicians are being replaced by men each of whom devotes his entire attention to one branch of the art. Some years ago any competent magician was able to perform various kinds of tricks; today we find one man doing tricks with handkerchiefs and nothing else, another with coins and nothing else, and so on.

"There are not many really first-class magicians today, and this may be one reason. In this country a few magicians make money, while most of the others make a bare living.

"New tricks are what is wanted, and until they are invented, all that the magicians can do it to take such steps as they can to prevent the secrets of their art from becoming known to the press and public."

POPULISTS.

The Leaders Gather at Topeka For State Convention.

Topeka, Kan., June 23.—Many leaders of the Populist party of Kansas, including Congressman A. M. Jackson and Senator W. A. Harris, are in Topeka today in conference, twenty-four hours in advance of the state convention which will assemble in this city Tuesday with 791 delegates. It is expected that the convention will endorse the nominations made by the Democrats at Wichita recently and fill in the remainder of the ticket themselves.

Hugh Farrelly, chairman of the Democratic state central committee has invited all the delegates who sat in the Democratic convention at Wichita to be in Topeka to advise with the Democratic state central committee, which meets here and which bears power delegated by the Wichita convention.

Mayor Craddock, of Kansas City, Kas., the Democratic nominee for governor has opened headquarters and says a train load of "Craddock rooters" will be here from Wyandotte county to aid him.

The principal interest of the Populist convention will center in the nomination of a candidate for state treasurer, as many members of the party declare that with a strong candidate the Republican nominee can be defeated.

At Wichita the Democrats named two justices of the supreme court, governor, secretary of state and auditor, leaving the Populists to name three justices, lieutenant governor, treasurer, attorney general, superintendent of insurance, superintendent of instruction and congressman at large.

FIRE AT ASYLUM.

Laundry Buildings Burned at Lincoln, Ill.

Lincoln, Ill., June 23.—A large laundry building valued at $15,000, and located in the group of main buildings of the Illinois asylum for feeble-minded, was burned at an early hour today. There was no loss of life, but great excitement among the inmates. Only one employe was injured.

TWO WOMEN KILLED.

Run Down By Passenger Train Near Seattle.

Seattle, June 23.—Miss Helena Stratton and Miss Emma Rastead were instantly killed by a Northern Pacific passenger at O'Brien, thirteen miles south of Seattle, last evening and James Miller was so seriously injured that he died three hours later. The three with Benjamin Winkles, were in a buggy crossing the rails when the train came upon them.

"One Minute Cough Cure beats all other medicines for coughs, colds, croup and throat and lung troubles,' says D. Scott Currin, of Loganton, Pa. Perfectly safe. Acts immediately. Croup yields to it. Cure grip, bronchitis, coughs. Max Wirth.

Dance at Oatka this evening—Lisbon Orchestra.

WIRELESS

Telegraphy to Be Used By Spreckels to Hawaii.

Chicago, June 23.—John D. Spreckles, multi-millionaire, who controls a great share of the industries of the Hawaiian islands, is contemplating connecting the islands by wireless telegraph with San Francisco, according to the Chronicle's Los Angeles correspondent. Experts in his employ are installing a system between Los Angeles and Catalina Island, forty miles out in the Pacific ocean. If the work here is entirely satisfactory, Mr. Spreckles will at once begin figuring on the Hawaiian system.

Mr. Spreckles is owner of the Oceanic Steamship company, whose four vessels, the Austria, Alameda, Centura and Hades the Australia, Alameda, Ventura and Hades, ply between the islands and San Francisco. These also will be outfitted up with wireless apparatus, requated to the just raments placed at San Francisco and Honolulu.

Midsummer Ball

LESTER PARK—Under auspices of the **Anna Stang Hive No. 61, L. O. T. M.** Tuesday, June 24th. Tickets 50c. Good Music. Last car leaving Lakeside at 11:45 makes connection with West Duluth car at Lake Avenue.

AT TORONTO.

Prospects of Early Settlement of Street Car Strike.

Toronto, Ont., June 23.—Business Agent Macdonald, for the striking employes, stated this morning that after a conference of twelve hours with the officers of the street railway company, the question of wages and recognition of the union had been practically settled. President Ames of the board of trade is authority for the statement that the strike is about settled, and the cars may run this afternoon.

The street railroad company made no attempt to run its cars this morning. About 1600 militiamen arrived here during the early morning from the annual encampment at Niagara-on-the-Lake, and are quartered at the armories. A conference between officials of the company and the board of trade committee was held during the night. This morning Manager Keating of the street railway company said: "There is a possibility of a settlement. That is all I can say. The strike is not yet over."

He added that as soon as his company was given protection they would begin running cars.

Dance at Oatka this evening—Lisbon Orchestra.

To close out and make room for other goods I offer the following bargains:

1 Sterling Chainless Gents' Bicycle, regular price $60, now only $28.50
1 Gents' Crawford, fitted with Morrow Coaster Hub, G. and J. Clincher Tires, extension handle bars, regular price $35, now $26.50

LUMBER MARKET

Buyers In the Market But Have Made No Purchases.

Little Change In Conditions In the Local Market.

Interest Feature of Week Attempt to Break Vessel Rate.

There have been several lumber buyers from the East in the local market during the past week, but they have made no purchases. The tendency seems to be to hold back until there is a small decline in prices, but this is hardly likely to take place this summer. So far as the conditions of supply are concerned in the local market, there is practically no change and there is little lumber for sale at the present time.

Interest in lumber circles has been directed during the past week in the attempt to break the shipping rate to Lake Erie, but the vessel owners have been determined in their efforts to maintain their rate at $2.50. Just what the outcome will be can not yet be foretold. The main argument of the shippers for a lower rate is that all other kinds of freight have declined and the lumber rate should go with the rest. On the other hand it is argued that the cost of handling shipments are higher than in the past.

Regardless of the fight between the shippers and the vesselmen, the lumber movement down the lake continues very lively. The business of last week amounted to about 15,000,000 feet, of which over 12,000,000 feet were shipped from Duluth and the rest from Superior. This movement has been made, too, in spite of the hindrance caused by the blockade at the Soo.

It is understood that the log and timber limits of the Alger-Smith company, north of the international boundary, west of Yake Superior, will probably go to the Pigeon River Lumber company, which is composed of the Wisconsin firm of Arpin, Scott & Finger. This firm recently built a large new mill at Port Arthur. The Alger-Smith company has about four years' more operations there and have been towing the logs to this city for sawing. If the sale is made the logs will hereafter be sawed at Port Arthur.

The Tower Lumber company has installed its new mill at Tower and has in connection with it a fire-fighting plant. A four-inch pipe goes through the lumber yards and a constant fire pressure is maintained. The company also has about 4,000 feet of hose.

The conference that was held several days ago over the Minneapolis-Chicago lumber and shingle rate developed nothing new and the conditions remained unchanged with the rate at 8 cents from Minneapolis common points and 10 cents from Duluth. The problem is a difficult one for solution and railroad men seemed disposed to give it up for the time being. A definite decision cannot long be withheld, however, for there is a great deal of intermediate territory that is paying higher rates than Minneapolis, about which something will soon have to be done.

The uniform rate of 7 cents between Duluth and the Twin Cities went into effect last Friday. The rate will make but little difference, for little lumber is being shipped. It will benefit the cedar shippers into the Southwest, however.

The announcement that the St. Louis Lumber company will do but a very little sawing between now and Sept. 1, due to a lack of logs, emphasizes the growing importance of railroad logging and the getting of log supplies during the winter months.

The St. Louis Lumber company has plenty of logs on the north shore that will have to be brought here by railroad, but the ore business in the summer season precludes the idea of any log shipments. The St. Louis fill has no logs this year that are available to the logging streams.

It is definitely known that the Duluth Box company will not resume operations in Duluth, although there have been some hopes up to within the last week that the company would rebuild its plant, or leas another building and begin anew. George C. Lamphier, who left here a week ago for the East, has associated himself with Guy White, of the well known Eastern firm of White, Rider & Frost, and others, and has organized the Island Box company to do a wholesale lumber and box shook business. A building on Tonawanda island, New York, formerly used for an electric light plant, has been utilized for a factory and the machinery is now being installed.

There is already a little talk among the lumbermen of the state over an anticipated car shortage. As a general rule, whenever September comes around there is a shortage of transportation facilities in various parts of the country which increases in severity until the end of the season. In spite of this annual shortage prosepct, the lumber shippers and buyers act as if there were no such thing and fail to move early in the season stocks that might as well be moved then as later. The shipping question is, of course, complicated with the proposition of buying ahead. Some years it is unsafe to do much speculative buying and other years the lumbermen feel secure in buying heavily ahead. This year is one of the latter sort, for the buyers believe there is no prospect of a decline.

SERIOUS QUESTION

Which Is Now Being Discussed By Republican Leaders.

Will Beet Rooters Cause Undoing of the Party?

President Is Greatly Disturbed and Sees Breakers Ahead.

From The Herald Washington Bureau.

Washington, June 23.—(Special to The Herald.)—The "Winning of the West" has not been attained and President Roosevelt grows more determined every day to accomplish reciprocity for Cuba. Temporarily the advocates of beet sugar has won a victory, which is the wonderment of "old timers" about the capital, but at what cost? Will they fructify and bring about the undoing of the party of Lincoln, Grant and McKinley, is a question already being discussed among Republican leaders. It is no secret that the president is greatly disturbed over the formidable opposition which has sprung up in this party over the question of whether this republic owes any further obligation to the Cuban government. He sees breakers ahead already by reason of the fight made to take off the differential on refined sugar and it needs no supernatural power to forecast the result if the present disruption is to continue. President Roosevelt has the courage of his convictions. He does not believe in fighting with soft gloves and to his friends he has indicated a steadfastness of purpose to win his fight for Cuba even if it should cost him the nomination in 1904. With the Republican party divided into two hostile camps a condition is presented not unlike the Jackson campaign and already parallels are being instituted between Roosevelt and Jackson, the former having many of the characteristics which made the latter one of the famous men of his time. "The old ship is leaking," seems, in the light of what is transpiring in Washington these days of June, a pat diagnosis of the situation. What to do to stop the leak none of the captains have as yet been able to tell.

* * *

As the end of the session draws near, friends of the letter carriers all over the country are using every influence in an effort to secure from the house committee on postoffices and post roads a favorable report on the bill re-classifying these most faithful of all government employes. The letter carrier is at present practically without future in the vocation he has chosen. When he reaches a salary of $1,000 a year there is no further promotion possible nor can he be rewarded, no matter what his superior intelligence may be, as other government employes, by an increase of pay. The letter carrier, of all Uncle Sam's employes, stands alone in this respect. The copyist who starts in at a meagre salary of $600 a year can dream of days when he will reign as chief of a division and the dream is possible if sufficient brains and energy are possessed, but the man in gray, who can never under any circumstances enjoy the ease and luxurious surroundings of the average government clerk, must be content with a passive condition in life that cannot but stifle ambition. Some rather singular reasons are given by those opposing the bill. Chairman Loud, for instance, declares that to increase the pay of letter carriers would mean a few more drops of sweat wrung from hard-working mechanics and he refers to the letter carriers as non-producers. The logical infefence from Mr. Loud's argument is that mechanics pay all the taxes. He, in common with many other congressmen, in overlooking the just requirements of these humble but meritorious public servants, the letter carriers, forgets the two thousand of their proteges they fastened on the rolls of the treasury department by means of the permanent census act. There is no class of public servants that works harder than the letter carriers and none that is so poorly paid. Their duties are such as can be performed only by intelligent, painstaking men and men of unimpeachable honesty, since many letters containing money and things of value pass through their hands. In cases of sickness or disability the letter carriers receive absolutely nothing, their pay going to the substitute who is hired to perform their task temporarily. The press all over the country have hammered at congress for not doing something long before this for these men and petitions are pouring in by the hundred every day to the postoffice committee from prominent business men in different parts of the country. The letter carriers have no powerful lobby behind them and the president of their association, J. C. Kellar, has determined that no influence containing the slightest tincture of corruption shall be used to secure the passage of a bill which should become a law by the force of its own virtues. It must be remembered that a few years ago the employes of the government printing office raised a fund of $50,000 in order to rush a bill through congress to increase their pay. The money was subscribed at the solicitation of two or three lobbyists, who knew that the bill would pass on its merits, but nevertheless frightened the printing office people into believing that without the lavish use of money the bill would fail. As a matter of fact, the money never traveled any further than the pockets of these same lobbyists. The letter carriers have this incident well in mind and their association has resolved that if this just measure increasing their pay, which is endorsed by the press and the people of the whole country, cannot receive the sanction of congress as it stands today they will not employ one cent in furthering its passage. This attitude of the association has commanded the attention and the admiration of every one who knows the devious and sinuous paths of legislation.

BUT FEW AT WORK.

Silk Mills Had Only Third of Employes.

Paterson, N. J., June 23.—Although many of the silk mills were open at the usual hour this morning, it was estimated that less than one-third of the regular number of employes reported for work. A meeting of the strikers is to be held today, but it is not expected that any definite action will be taken until the decision of the bosses as to the holding of a conference with representatives of the strikers has been announced. Details of infantry and cavalry were on duty at the mills today.

ENGLAND DENOUNCED

By Irish Societies In Session In Chicago.

Chicago, June 23.—Irishmen who met heer last night passed resolutions denouncing England's "Unholy war" against the Boers, and pledging support to John Redmond and his associates in the house of commons. It was decided to hold the national demonstration of the United Irish societies at one of the parks Aug. 15.

One hundred and forty-eight organizations were represented, and Col. John F. Finnerty presided.

NEW RECORD FROM SAN JUAN.

New York, June 23.—A new record has been established by the liner Caracas which has arrived here from San Juan. The voyage of 1290 miles was covered in 97½ hours, 2½ hours under the previous record.

$4.30 St. Paul & Minneapolis and Return—Democratic State Convention.

FIENDISH JEALOUSY

Charles Henderson's Terrible Vengeance on Ida McCormack.

Slashes Her With a Knife Till Death Ends Struggle.

Her Love For Another Man, Inspires Awful Deed.

Duluth's third recent murder occurred Saturday evening.

At 119 West First street Charles Henderson stabbed Ida McCormack to death. Both are negroes.

Henderson claims to have killed the woman because she was unfaithful. Some hours before her death the McCormack woman denied that she was ever married to him, and the tendency of evidence is to show that the murder was the result of an insane jealousy.

Officer Robert Gillon captured Henderson on Second avenue west a few minutes after the murder. The negro was endeavoring to escape, but Gillon was too quick for him and the negro made no attempt at resistance.

Prior to coming to Duluth two months ago, Henderson and the McCormack woman lived together in Chicago. He came here as a waiter at the Spalding hotel, and afterwards sent for the woman. They lived together in this city but a short time, when the woman met William Dawson, another waiter, and fell in love with him.

She left Henderson then and took a room at 119 West First street with a Mrs. Rivers. It was in this apartment Saturday evening that the murder was committed.

She and Mrs. Rivers were away from the rooms a short time. During their absence Henderson got in the apartments and hid in a closet.

The two women returned shortly afterward and Ida McCormack was talking enthusiastically about William Dawson when Henderson sprang from the closet and stabbed her in the back of the head with a large-sized pocket knife.

The woman dashed through a side door, but before she could open it she was again stabbed in a most frightful manner. She ran into the apartments occupied by W. D. Jones and family, closely followed by Henderson, who was slashing right and left with his knife. Mrs. Jones partially opened the door of her room to see what was happening and the McCormack woman ran in. Mrs. Jones tried to close the door on Henderson, but lacked the strength. The victim was finally brought to bay in a front room of the Jones flat. There was a mad race around tables and chairs, more cutting and the woman staggered into the hallway, where she fell exhausted.

Henderson then made a few vicious attempts to cut several persons that tried to interfere, and hurriedly left the building. While all this was going on Office Gillon on Superior street learned that there was a man beating his wife up on First street and made a quick run up Second avenue west.

He and Henderson met just in the rear of Suffel's shoe store. Henderson, seeing the officer, threw the knife away with a quiet little jerk, calculated not to attract the attention of the policeman.

Officer Gillon was quick to detect the movement and immediately grabbed the negro. He had little or no difficulty in handing the prisoner in the police station.

The McCormack woman died before medical assistance could reach her. She had about fourteen different stab wounds. One began at the top of the head and laid the bare skull open down the side of the head and through the ear into the neck, where arteries were severed. The arms and shoulders were cut all in pieces.

When informed that his victim was dead Henderson expressed himself as satisfied with the result and said that he too was ready to die at any time, even suggesting to the police that he be lynched.

Henderson claims that his home is Annapolis, Maryland, and says he served with distinction in the Santiago campaign and in the Philippines, which is probably untrue, for the organization he claims to have belonged to did not leave the United States, and according to the negro's own statements he was living with the McCormack woman in Chicago at the time he claims to have been fighting in the Philippnes.

He says that he married his victim some years ago. Two months ago he came to Duluth with another colored man named Rivers. It was this man's wife that was with the McCormack woman at the time of the murderous assault.

Mrs. Rivers was terrified and jumped out of a rear window of the flat on a shed below. It was a high jump, but she made it without injury. She was so terrified that she tried to escape, but was captured by Chief Troyer and Detective Irvine within ten minutes after the murder. At first she declined to admit that she was the right woman, but when identified by acquaintances she told the police all she knew.

Today Henderson says that he did not go to the Henderson woman's apartments for the purpose of killing the woman, but was after William Dawson. When he heard the McCormack woman say how she loved Dawson and that she was going to have Henderson arrested for annoying her, he changed his mind as to his victim.

The following note was found on the bed of the dead woman:

"Darling—I must see you this evening. I did not know whether you could come tonight as things were so awful, but it is all right my own. I love you best of all. Things will come out all right. You understand everything will be O. K. sweetheart.

"P. S. Personal for my own."

This note was near an envelope addressed to William Dawson.

There was another note addressed to Henderson notifying him that she would have nothing further to do with him, and warning him to stay away from her unless he was seeking trouble.

The body of the murdered woman was taken to the undertaking rooms of Durkan & Crawford on Second avenue west.

NEW MESABA TOWN.

Nashwauk Lots to Go on Sale Monday.

Lots in the new town of Nashwauk will be put on sale at the office of E. J. Longyear, at Hibbing, Minn., Monday, June 23. Nashwauk is located in the southwest corner of town 57-22, between Hibbing and Grand Marais, in the immediate vicinity of the Hawkins mine. This town is far enough distant from both Grand Rapids and Hibbing to have a large field to itself. It will become one of the most important towns on the Mesaba range. Much iron ore is being shown up in that vicinity; a railroad is now in the course of construction into this location, and will be completed this fall. Nashwauk now centers the most active field of iron exploration in the Lake Superior district. Nashwauk is located in one of the best pine timber forests in Minnesota, and, like Hibbing, will be both a mining and lumber town. There is immediate demand for stores in all lines at this new location.

Humors

They take possession of the body, and are Lords of Misrule.

They are attended by pimples, boils, the itching tetter, salt rheum, and other cutaneous eruptions; by feelings of weakness, languor, general debility and what not.

They cause more suffering than anything else.

Health, Strength, Peace and Pleasure require their expulsion, and this is positively effected, according to thousands of grateful testimonials, by

Hood's Sarsaparilla

Which radically and permanently drives them out and builds up the whole system.

"Spring fever is another name for torpid liver and inactive bowels. DeWitt's Little Early Risers remove all danger by stimulating the liver, opening the bowels and cleansing the system of impurities. Safe pills. Max Wirth.

Dance at Oatka this evening—Lisbon Orchestra.

HADLEY IN PORT

Wrecked Steamer Finally Raised and Brought In Harbor.

Capt. Kidd Tells of the Trials of the Wreckers.

Great Flotilla That Came Through Canal Sunday Morning.

The steamer Hadley was towed into the harbor about 2 o'clock Sunday morning, after she had been on the beach more than two weeks. The wrecking operations had been expected to consume much less time, but the frequent recurrence of northeast winds at inopportune times set it back on several occasions.

The trouble was not over when the inside of the harbor was reached. The vessel was still so deep that she was drawing too much water, and she grounded several times in the channel. Finally she had to be put on the bank in the harbor basin and part of her coal cargo lightered to give the pumps deeper suction, after which she was moved to the Pioneer coal dock to unload her cargo. When that is done she will go to dry dock.

Capt. Joseph Kidd smiled with much contentment last night when he said: "I feel that I should be remiss if I did not publicly express my thanks to Capt. McLennan, of the life saving station, and his worthy crew for the assistance they rendered since the wreck of the Hadley. For the past thirteen days I have been directing the wrecking operations on the Hadley. Four times all our efforts were defeated and our work destroyed by the sea. Once we had the boat raised sufficiently to float her when the main steam pipe of our largest pump burst and she again went to the bottom of the lake, but through all our trials Capt. McLennan was in almost hourly attendance upon the wreck, ready and willing to help us in any direction that he could. His presence with his crew was encouraging to our men and I feel that I personally owe him a deep debt of gratitude, as do the owners and underwriters of the boat, and the only way in which the rules of the service will permit me to repay this is to express my thanks to Capt. McLennan and his men through the columns of the press.

"Raising the Hadley has been the most discouraging job that I ever undertook. It almost seemed as if some malign influence was at work to thwart our plans. On the evening that the big pump gave out I had already sent ashore for tugs to convey her into the harbor. I calculated that it would be half an hour before they arrived, and being dead with fatigue, having worked day and night, I dropped into a chair on the deck for a few minutes' sleep. I was scarcely asleep before the steam pipe burst; our big pump fluttered and stopped and all our work remained to be done over again.

"We came through the piers at 2 o'clock in the morning. To the Hadley's hoodoo got in its work. As she was being pulled out stern first and was just clear of the south pier-head the tow line parted and again, when tow was repaired, the line parted again, and there we were helplessly adrift on a sinking boat with eight to ten fathoms under her keel.

"When we got straightened out again we formed a flotilla such as never before passed between the piers of Duluth harbor. On one side of the Hadley was the steamer J. C. Suit; on the other was the Duluth Dock and Dredge company's big sand sucker dredge; ahead of the Hadley was the tug B. B. Inman; astern of her the tug Annie L. Smith, and pulling on the big dredge was the tug Richardson. Astern were three big scows laden with material and around about were twelve or thirteen yawl boats that had been used for various purposes. We filled the width of the canal and just as we were between the heads what should we see headed for the canal, outward bound, but one of the Steel corporation's big boats. It looked ugly for a moment, but her captain is a sailor and in response to our chorus of whistles he sheered off and gave us a clear course, although at some risk and inconvenience to himself.

"Besides all the craft I have mentioned, Whitney's clam shell derrick dredge worked on the coal in the Hadley. She cleared the forward hold so that the pumps could get down to the vessel's skin and hold the water in check. The big 15-inch suction of the dredge also pumped up a good deal of coal and together these two machines made the releasing of the vessel possible.

"The Hadley will be unloaded with all expedition and then drydocked, and I hope that her hoodoo has been satiated and that when she comes out again, a comparatively new craft, she will have better luck."

DELEGATES.

Those Elected at Convention Saturday---Divided On Second Choice.

The list of delegates to the Democratic state convention selected by the county convention Saturday afternoon is as follows:

T. J. McKeon, H. Van Blarcom, B. Magoffin, Henry Truelsen, T. T. Hudson, Morris Thomas, John Jenswold, David Sang, A. C. Weiss, Alfred Merritt, Charles d'Autremont, C. O. Baldwin, S. Lekve, H. J. Millbrook, John Beutner, Charles Jessmore, M. H. McMahon, Thomas Berklund, Frank Crassweller, Martin Hughes, R. C. Mitchell, Bert Fesler, M. L. Fay, M. B. Culium, P. McDonell, W. E. Kern, Theodore Krumsieg, Theodore Hollister, D. D. Murray, Harris Bennett, Joseph A. Mannheim, Joseph B. Plutnistky, F. L. Ryan, J. W. Reynolds, W. E. McEwen, James Brady, James Hart, W. W. Kugler, P. J. Neff, J. L. Traverse, S. C. Murphy, H. H. Hawkins, C. F. Leland, F. J. Voss, J. D. Ellis, Fred Knowlton, M. M. Clark, Joseph Nylander, David Nelson, J. E. Davis, Anton Wickland, William Bernard, S. E. Kiley, John Hogan, John Mears, Scott Cash, C. O. Mills, Fred H. Bergman, Charles Gasper, John E. Bartz, H. W. Mosier, A. A. Holt, James F. Walsh, Harry White, James M. Murray, Bert Kribsbach, Fred Hencke, John H. Conway, T. J. Walsh, C. Dunphy, E. E. Barnidge, Ed Koors, John C. Eickman, C. J. Marshall, C. J. Hagberg, Gordon O'Neil, Adolph Anderson, Jacob Clark, Ray M. Cook, Charles Johnson, Frank Wade, Martin Clemenson, G. W. Mulligan, Philip Connelly, William Brown, D. A. Petrie, James McDonald.

The delegates are under instructions to vote as a unit for John Lind for governor and on all other matters. The faut that Mr. Lind has issued a statement positively refusing to accept the nomination did not interfere with the plan to instruct the delegation for him, and it is an interesting question what the convention will do with practically all of its delegates instructed to vote for him. The Duluth delegation has not yet come to any agreement as to what it will do in the event that it turns out that the nomination of Lind will be a useless waste of time. Some of the delegates will favor Rosing, some will vote for H. P. Hall, while others believe that Capt. Harries is a strong man and will incline to support him for the nomination.

TRADERS LOSE.

Big Duluth Players Too Much For Board of Trade.

By batting in five runs in the eighth inning the Big Duluth team defeated the Board of Trade at Oneota park Saturdty afternoon.

At the end of the seventh the score was tie—seven to seven. Then the Big Duluth began to pry up singles and doubles at all angles. The clothing store representatives whizzed around the bases so fast that the Board of Trade infielders had to hold their caps on.

The final score was 12 to 7. The Big Duluth team was practically the same that made the name of the Duluth central high school prominent at the head of Minnesota interscholastic athletics during the past season. It had the benefit of the season's practice, while the board of trade men went against the game in a green condition.

Duncan and Cummings pitched for the Big Duluth and McDermott and Glenney for the Board of Trade.

AMUSEMENTS.

RICHARD MANSFIELD.

The dramatic event of the year will be the appearance here tonight of the greatest living actor, Richard Mansfield. The audience will, in numbers and social quality, be the most flattering tribute this city can pay his genius.

Mansfield will be seen in his famous new creation, the barber-prince, Beaucaire. Those who have seen the great artist in this charming role declare it is the most delightful expression of his varied accomplishments that Mansfield has given the stage. He arrives by special train, which includes the baggage cars containing the scenery, furniture, properties, horses, coach, paraphernalia and baggage for "Beaucaire;" the sleeping cars for the artists of the company, the stage corps, the servants and others; and Mr. Mansfield's own private car. Besides the players seen in Beaucaire there is a large corps who contribute to the perfection of the production. Among them are the stage manager and his assistant, the light operators, the property men, two carpenters, the call-boy, the master of transportation, the groom for Mr. Mansfield's horses, his dresser, his valet, his chef and car-porter, and the wardrobe mistress and two maids for the ladies of the company.

DROPPED DEAD IN NEW YORK.

New York, June 23.—Charles Cass Minster, believed to be a wealthy mine owner, has dropped dead at Seventeenth street and Fourth avenue from heart disease induced by a narrow escape from death beneath the wheels of a trolley car. Mr. Minster had lived at a fashionable family hotel in Gramercy park for some time but nothing was known as to his relatives.

BARON OPPENHEIM.

San Francisco, June 23.—Baron Max Oppenheim counsellor of the German embassy at Cairo, Egypt, arrived last night from New York. He is traveling in the United States for the purpose of studying the methods by which vast tracts of land have been settled and opened along the lines of railways.

The 20th Century Limited.

THE LAKE SHORE'S NEW TWENTY-HOUR NEW YORK TRAIN

Will be placed in service June 15, leaving Chicago daily 12:30 p. m., reaching New York the next morning at 9:30. Leave New Lork 2:45 p. m., arrive Chicago 9:45 next morning. This new train is in addition to the present magnificent passenger service afforded by the Lake Shore.

The new train will save one full business day between Chicago and New York.

W. B. Hutter, N. W. P. A., 122 Endicott arcade, St. Paul, Minn. C. F. Daly, C. A. G. P. A., Chicago.

Pennsylvania Limited For Atlantic City Trip.

The Pennsylvania Limited leaving Chicago Union Station 5:30 p. m. daily has connection in Broad Street Station, Philadelphia, with train reaching Atlantic City 4:35 p. m., Chicago time, next day. The run east of Pittsburgh is by daylight, through the wonderful panorama of mountain, river and valley scenery presented by the Alleghenies, the Juniata and Susquehanna rivers, and fertile farming section of Pennsylvania. For further information address H. R. Dering, A. G. P. Agt., 248 South Clark St., Chicago.

A GALA DAY.

Thousands of Strangers Make the City a Busy Scene.

Yesterday looked more like a gala day than a Sabbath in Duluth. The thousands of strangers from the West mingled with the citizens on the streets and made the scene a busier one than most week days, though an air of leisure pervaded the city and made it look unlike a workday.

Besides the visitors, thousands of Duth people were out yesterday. Some walked the streets, some visited the parks, thousands watched the circus unload at Fifth avenue and set up tents in the West End, thousands took advantage of the many excursions on the lake, hundreds took out livery rigs or their own equipages, others rode bicycles. In short, every sort of conveyance that would provide a taste of the fresh, clean air out of doors was used, and had there been many automobiles in the city they would have been out too. However, the automobile fad has not yet taken as firm hold of Duluth as the Panama hat craze.

There was no lack of accommodations for those who wished to take lake excursions. The Iroquois, the America, the Newsboy, the Bloomer Girl, all took out crowds and circled them around the lake and bay, some of the boats taking out several different excursions. The Duluth-Superior ferries were crowded all day.

The nickel crowd, who could not afford carriages or more expensive vehicles, took the street cars, and these popular carriages were crowded all day long. Lester Park, Park Point and the up-town parks, all were packed with people during the day, and especially during the afternoon.

The livery stables did a tremendous business. It was impossible to get rigs of any sort during the afternoon, for all were engaged, and some of them were out four or five times during the day with different parties. Carriages, runabouts, surreys, golf wagons and all of the myriad varieties of rigs that used to be called plain "buggies" but that now have as many titles as a Chinese nobleman, were in commission during the day, and it was a tired lot of livery horses that discussed the matter at the close of the day in the various livery stables of the city.

The weather was nearly perfect, neither too warm nor too cold, warm enough for the exhibition of attractive summer wearing apparel and cool enough for comfort. The people took advantage of these conditions to get out in the open air in every conceivable manner, and the result was that all those who got revenue from such an outpouring rolled in wealth last night.

DRAGGED HIM.

Terrible Experience of Joseph Nlodik In a Runaway.

One of the most terrible runaways that ever occurred in Duluth happened Saturday evening between Sixth and Eighth avenue east on Superior street.

Joseph Nlodik, a driver for the Duluth Ice company, was dragged nearly 800 feet with his head bobbing up and down on the cedar block paving like a rubber ball.

The unfortunate driver noticed something wrong with the harness at Sixth avenue. He stepped out on the wagon tongue to adjust the harness, and in doing so slipped and fell.

His shoe caught in a trace hook, throwing Nlodik head first to the ground. Then the horses started off on a run, dragging the unfortunate man with them.

Had it not been for Conductor John Lindahl of the street railway company, the driver would certainly have been killed instantly. Mr. Lindahl looked back from the platform of his car, gave the motorman the signal to stop, and then jumped out in front of the horses.

It was a brave act, and Lindahl came very near going under the horses' feet.

The driver was taken from his dangerous position by Frank Leslie and C. H. Bradley, who were passengers on Mr. Lindahl's car.

The injured man was taken to St. Mary's hospital, and up to noon today he had not recovered consciousness. The attending physicians say he cannot live more than a day or so.

He has a wife and five children living at 822 East Seventh street. His wife is at his bedside constantly and is the only person that has not given up hope of the injured man's recovery.

Los Angeles	86	Winnipeg	66

Local forecast for twenty-four hours from 7 p. m. (central time) today: Duluth, West Superior and vicinity: Partly cloudy tonight and Tuesday with possibly local showers; slightly cooler tonight; variable winds; mostly easterly.

Chicago, June 23.—Forecast until 7 p. m. Tuesday: Wisconsin and the Dakotas—Partly cloudy tonight and Tuesday with possibly showers; slightly warmer. Minnesota—Partly cloudy tonight and Tuesday with possibly showers; warmer in south and west and cooler in northeast portions tonight. Upper lakes—Winds generally light and variable; fair tonight and Tuesday except possibly unsettled weather on Michigan and Superior.

Passing of the Fire Engine.

The remark was recently made by a fire chief in Chicago that the day of the fire engine as a necessary adjunct to a fire department in a large city is nearing its end. This is a surprising statement, and yet it is based upon good reasons. In the business section of Chicago, the municipal authorities are having pipes laid through which water will be forced at a pressure of from 40 to 200 pounds. The high pressure will render the use of engines unnecessary, it is claimed, as the water will be forced through the lines of hose in as great volume as at present by the engines. It is the intention to extend the pipes into the larger buildings in such a way as to have each floor protected. When a fire occurs the water may be turned on from every floor, if necessary, without waiting for the arrival of the fire department. The fire department will be reorganized into hose companies, and the men will make couplings to the pipes instead of to engines. Otherwise their duties will be in no way changed. The experiment will be watched with interest by other large cities.

Coal Supply For the Warships.

Among the most anxious observers of the progress of the strike of the anthracite coal miners are the naval officials who have charge of the coal supply for the big warships and cruisers of the navy. They are commencing to feel the shortage of coal and no one would welcome peace with the miners any more than they would. The embarrassment of these officials may be better realized when it is known that there is not enough coal in sight to fill the bunkers of the cruiser Brooklyn for her cruise to England with the remains of the late Lord Pauncefote. The departments expects to get a full supply of fuel for the cruiser before long, but only by skirmishing about actively and gleaning from two or three different naval stations. The Brooklyn is now at Newport and will soon sail from that port for England. Admiral Bradford, chief of the bureau of equipment, recently got a requisition for about half a ship supply of coal for the Brooklyn and has been telegraphing from point to point in an effort to fill the demand. So far he has not made arrangements to this end, but he expected to hear that there was enough coal at Annapolis to fill the Brooklyn's bunkers. This will probably be shipped to New York, where the Brooklyn will proceed to receive it, and shortly thereafter the cruiser will return to Newport and then depart for Europe. Admiral Bradford says that unless there is a truct in the coal fight at an early date the operations of the various fleets will have to be suspended. The small reserve supplies that he had at different stations prior to the inauguration of the strike is getting lower and lower and has been entirely exhausted at some points. The sympathetic strike in the West Virginia mines has hurt the navy more than the big lockout in Pennsylvinia, for navy ships use the product of West Virginia and Virginia mines almost exclusively. This condition of affairs should be of sufficient importance to bring about a settlement of this great labor war. The miners want to arbitrate; the operators refuse to do so. That is the present position. It might be well for congress to re-enact the law which gave the president power to act in these cases. At any rate it is time for somebody to act.

WHY NOT IN DULUTH?

Under this heading Editor P. Ellard Dowling of the Eveleth Star draws attention to a subject that should receive consideration by the Commercial club. A mining man expressed surprise because the United States Steel corporation did not find some way of securing more rapidly the many mining supplies that the mining business of the iron ranges were in constant call for. "What surprises me most," said the captain, "is that the steel company do not build at Duluth a plant of their own for the manufacture of all these supplies. As it is, we have to wait sometimes for months before we can procure the different supplies required from time to time."

This suggestion impressed the Eveleth editor as a good one, and it seemed to him that the citizens of Duluth might in some way interest themselves in some such plant. Says the Star: "It would require considerable capital if the enterprise should be an independent one, but by some form of agitation on the part of the recently organized Commercial club the Steel company might be induced to build a plant adequate to the demand of the mining business of the ranges. Such a plant would require a foundry, machine shop, milling plant, etc., where every form of mining supplies could be turned out quickly and of the best material. As it is, all orders of this character must be made in the East, and much time is spent in delivery. Such a plant would employ at least a few hundred men, and would contribute its proportion of industrial operations to the county of St. Louis."

The idea seems feasible, and the Commercial club might succeed in inducing the Steel company to look favorably on the project of establishing such a plant here. Of course, some of the supplies referred to are now made in Duluth, but they form but a very small proportion of the extensive orders of this character required at the mines. The establishment of such an industry in Duluth by the Steel corporation would be an important addition to the city's manufacturing plants and it would have considerable influence in attracting kindred industries.

THE CUBAN QUESTION.

A compromise plan is what the senate leaders are trying to devise out of the present Cuban difficulty. Thus far they have reached no conclusion, all conferences having been unproductive of results. The rebate plan which the beet men have urged is practically dead, as the administration senators will not consent to it. The proposal to put the house bill through the senate is certainly dead so far as the present form of that bill is concerned, since it removes the countervailing duties as well as the differential in the opinion of most lawyers. Whether a bill so as to carry out the intentions of the house insurgents and their Democratic allies would be more successful is a matter of dispute. The beet sugar interests would be injured by this as well as the American Sugar Refining company. The president would doubtless sign such a bill, but that the two houses would take it up when prospects of its enactment were real may well be doubted.

The treaty plan is now the one most considered. At first the beet sugar men favored it, but it looks now as though they were undecided on the point. The trouble in grapling with this question comes from the mixture of motives which actuate the insurgents. A few of them are real beet sugar men and sincerely actuated by a desire to protect that industry. Oxnard himself cannot control the combination. Nebraska, whose two senators have been extreme opponents of reciprocity, adopts resolutions in state convention strongly supporting the president and specifically indorsing hisCuban reciprocity policy. It was the same in Kansas and in Ohio. The course of Millard and Dietrich of Nebraska is said to be attributable to difficulties with the administration over cattle fences rather than to the subject directly under consideration. All the senators who desire to hit the administration for any grievance, real or fancied, or who wish to dispute the leadership of Aldrich and Platt and Spooner in the senate, or who have any taste for personal notoriety, are all for beet sugar. It is very hard to devise a bill which will compromise such interests as these. Platt of Connecticut, if he had his way, would bring in the Spooner amendment and let the senate go squarely on record over its simple terms; but he finds most of the associates on Cuban committee singularly averse to so vigorous a course.

It is a pretty fight, anyway, and the outcome is likely to cause trouble, whichever way it is settled.

CANADIAN RECIPROCITY.

It is reported in the Washington dispatches that the Minnesota delegation in congress purposes to secure reciprocity with Canada at the next session, or at least will make a strong effort in that direction. Such a move would demonstrate that the Northwestern senators are full of courage, and do not hesitate to tackle what to many would seem to be an impossible task, for if there is one lesson above another which the present session of congress has taught it is the difficulty, not to say danger, in attempting any modification of the tariff. Anyone who has lived through the Cuban reciprocity fight of the last six months cannot fail to put a large estimate upon the vitality of tariff schedules and the vigor with which their beneficiaries resist any change.

The members of either house who do not want protection for their own industries and a recognition of the interests of their respective districts are very few. It is almost an axiom that the government is singularly incapable of reducing the number of its employes at any time; a position once created will last forever unless a particularly vigorous fight is made against it. The story is the same with tariff schedules and special favors of all sorts; these can be overthrown only when some large interest enters into the affair. Thus, the Northwestern members in taking up Canadian reciprocity are exhibiting tremendous courage. Without doubt there is in the Northwestern section a very strong sentiment in favor of tariff revision, either by way of reducing the Dingley schedules, or of ratifying new reciprocity treaties. Canada, it is believed, would be willing to give this country a free market for many manufactured articles in return for a market here for Canadian lumber, beef, wood pulp, and other raw materials.

In spite of all this strength that is shown for the tariff, there will be a revision of the present laws, and the time thereof is far distant. If the Republicans do not make it, the Democrats will.

A Wilmington, Del., belle is "the most talked-about woman of that city," because she rode astride at the horse show. Woman indeed remains in barbaric bondage so long as she cannot do a sensible thing without being rendered conspicuous. As the Des Moines News says, health, safety and good form all demand the abolishment of the awkward and antiquated side saddle. If riding is to increase with the release of the horse from carriage service, women everywhere ought to revolt against the barbaric prejudice which deprives them of the best enjoyment and best benefits of this noblest of exercises.

The fight between the "stalwarts" and the "half-breeds" for control of the next Republican state convention in Wisconsin is becoming very bitter and several districts have elected two sets of delegates. The result will be another strenuous time in the state convention. The "half breeds" are the followers of Governor La Follette, while the "stalwarts" are the old gang that had control of the state machine until overturned by La Follette. This bitter quarrel in the Republican ranks may give the Wisconsin Democrats a chance to elect the next governor.

One of the amusing things printed in connection with the passage of the Morris bill to open the Chippewa reservation is the assertion of the Little Falls Transcript that a large part of the credit for the outcome of the fight is due to A. F. Ferris, of Brainerd. This is the first time that any person in this part of the state has heard of any special work by Ferris in this connection. But the fact that he is favored by the Transcript for the Republican nomination for senator in the Morrison-Crow Wing district explains everything.

Few better deserved degrees have been conferred, this year, than of doctor of letters by the New York university upon Miss Helen Gould. The rich woman who is not content merely to be rich deserves almost any distinction that can be put upon her. Miss Gould has earned such a degree by her splendid philanthropy.

The Washington newspapers are poking fun at Representative Lacey, of Iowa, because, in his speech on the forestry bill, he made this bull: "There is a spot where the hand of man has never set foot." And yet Mr. Lacey's biography gives no trace of Irish ancestry.

St. Louis people are very much disgusted because the New York Tribune recently located the World's fair city on the Missouri river. They claim there is the very best authority for saying that it is on the Mississippi.

The London corporation that is said to be trying to corner the gold supply by taking in all the mines will be surprised to find how many new gold discoveries will follow such a corner.

It is said that Secretary Root is never seen to smile, and the St. Louis Post-Dispatch suggests that the poor man may be developing the Philippine problem face.

The money that has been wasted in the Philippines would have constructed an isthmian canal or cut a deep waterway from the great lakes to the ocean.

There will surely be "something doing" if President Roosevelt accepts the invitation to visit Duluth in September. A strenuous welcome awaits him.

The president ought to have strong backing in his effort to carry out Mr. McKinley's policy of reciprocity with Cuba.

An Eastern writer says: "The real force on earth is man, not nature." He certainly has never been in front of a tornado.

The advance of the fishing season prompts the Des Moines News to discuss "The Self Injury in Lying."

Pierpont Morgan has been visiting Vienna. Now there may be a gondola trust.

"I isn't possible, grandma. I defy any woman to love and honor a man who always insists on being obeyed."

The Last Will of John Mitchell

By W. R Rose.

(Copyright, 1902, by W. R. Hearst.)

John Mitchell called his stenographer. Without looking up from the paper he was reading he said: "You may go, Miss Morris."

The young woman turned to the clock with a murmur of surprise, as it was not quite 4:30. But she quietly put on her hat and with a murmured good-night, left the room. John Mitchell fell into deep thought. There was a girl who was not only sensible, but showed every sign of discretion. Now, if my boy Jim, had set his heart upon a girl like that, it might be different.

"Jim never was confidential with me," he grumbled. "Perhaps I never invited his confidence. But now he has disobeyed my direct command, and that can't be overlooked. Jim Mitchell has disobeyed me to his bitter cost. He has given up his father for a pretty face. Let him stand by the consequences. Who is this girl, I wonder, who has so captivated him?"

Taking an envelope from his desk he took from it a much folded paper. Over this he ran his eyes carefully, then folded it again and put it away.

"No doubt they trapped him into the marriage," he continued. "I suppose they figured upon getting a rich man's son. But they will find out that they have been fooled. 'Father,' he said, 'I am to be married tomorrow night. Will you come to the wedding?' I turned on my heel. Then I looked back. 'You know the price you may pay,' I said. 'Yes, father,' he replied, with his head high up, 'I know.' And then he asked me for my blessing. I'll cut him off without a dollar. That will take the veneer off love's young dream. I'll draw up a new will tonight and have it signed before I go to sleep. And just to let him know how foolish he has been I'll write him a letter—a letter he can show to his new relatives. That's the thing, the letter."

He bent down with his head upon his hand and his eyes upon the paper. A rustle of skirts at the doorway drew his attention. He did not look up. It was a way he had.

"Ah, Miss Morris," he said. "Back again?" He had quite forgotten that he had sent her home. The young girl in the doorway did not answer. Her bright eyes were fixed upon the old man. She expected him to look up. If he had done so he would have seen a charming vision, for she was a pretty girl, graceful and dainty from the crown of her hat to the tip of her shoes.

"Just in time," he added, "I want you to take a letter before you go." He paused, and the young girl, as if seized with a sudden fancy, quietly stepped into the room and seated herself at the typewriter.

"You have been with us so long, Miss Morris, that we view you almost as a confidential secretary," the old man continued. "Besides, this will be public property very soon. I am going to write to my son. He married last night without my consent, and I am going to tell him that I wash my hands of him and his; that tonight I change my will and leave him $1. Are you ready?"

The girl at the typewriter gave the instrument a preliminary click or two.

"James Mitchell," began the old man, "as you have seen fit to disobey me, to cast my fatherly wishes in my teeth, I desire you to know that I have no wish to hold further communication with you. While I cherish the impression that you were lured into this unhappy marriage—"

The typewriter stopped.

"Unhappy marriage," the old man repeated, and the clicking recommenced, "yet I cannot accept this as any excuse for your undutiful conduct. Tonight I change my will, and you may rest assured that your name will be passed over with the smallest possible financial consideration. I prefer to have you understand this here and now. It will prevent you and your new friends from cherishing any false hopes. This is all I have to say, and no reply will be expected.

"JOHN MITCHELL."

The young girl drew the sheet from the machine and, bringing it forward, laid it on the old man's desk. John glanced it through.

"A beautiful copy," he said, and carefully folded it. Then he placed it in an envelope and dipped a pen in ink.

"I do not know the address," he said, and knit his brows.

The girl at the end of the desk extended her hand.

"If you has no objection," she quietly said, "I will deliver it in person."

The old man looked up at the fair face bending over him.

"Who, who are you?" he cried.

"I am Alice Mitchell," said the young girl.

"Mitchell!" repeated the old man as if thought and word were disserved. "M—my son's wife! And what—" but the ugly words would not come. Somehow those gentle eyes and dignified bearing of the young girl before him forbade any evil speech. "Will you be seated?" he lamely added.

"Thank you, no," said the girl. "I have but a few words to say and they will not detain you long." His gaze fell to the letter and the will and a sarcastic smile showed on his lips. "No, No," the girl quickly added. "It is not that. I have not come to plead. You are quite wrong to imagine such a thing. And you are quite wrong, too, to insult me as you did in that letter."

He looked up again quickly. There were tears in the gentle eyes. And there was a glint of fire in them, too. "You insulted me, and you insulted my dear father. I have no mother." She paused a moment. "When you insinuated that my father was necessary in this matter you did him a cruel wrong. He was bitterly opposed to our marrying without your consent. I disobeyed my father, too. But it was not for your money. This letter will bring us no surprise."

The old man dropped his eyes beneath her reproachful gaze.

"Perhaps I was hasty," he slowly said, "but the provocation was great." Then he quickly added—"But knowing as you did, that I opposed the wedding, and your father opposed it, too, why did you permit yourself to marry my boy?"

"I could make it clear to you, I think," said the girl gently, "if you loved your boy."

The old man trembled. That doubt should be cast upon his love for Jim Mitchell, his own boy, whom, as a babe, a dying wife had solemnly placed in his paternal arms, raked his old, but by no means feeble frame. "Love my boy? Why"

Then he turned to the girl and with a quick, spasmodic gesture of the hand he asked: "Where is Jim now?"

Then he smiled grimly. "And why are you not enjoying your wedding tour?"

"There was a vacancy in the bank where my father is employed," said the girl, "and father secured it for Jim. His duties began today. Perhaps we will take our wedding journey later. We have to look out carefully for the main chance now, you know."

And you didn't expect to fall back upon my money?" said the old man, his good humor returning. "Not a cent of it," quickly responded the girl.

"And why not?"

There was no need to answer that question. "I think you understand," said the girl, as her gaze fell upon the letter.

"Does Jim knew you are here?"

"No. At least, he didn't know I was coming. Father will tell him to meet me at the corner at 5 o'clock. I must go."

"Wait," said the old man quickly. He looked at her searchingly. She met his gaze with a smile. Her mind was on Jim.

John Mitchell put the will back in its envelope and the envelope in its pigeon hole. Then he picked up the letter in its unaddressed envelope and tore it into minute particles, tossing them in the waste basket.

"I've changed my mind," he softly muttered.

He pulled down his desk cover with a bang and reached for his hat. "There," he said "I'm ready."

John Mitchell's friends saw a strange sight that afternoon as he left the office. On his arm was his pretty stenographer. Some shook their heads and sighed. "Well, well, John is a gay blade."

Tickling Native Fancy.

Washington Post: In his inaugural address President Palma gave a fine top-of-column notice to the fighting qualities of the Cubans. It reads well but there are people who are not able to forget how Gen. Gomez made a practice of leading his troops in a hammock.

WATTERSON IN MICHIGAN.

Attacks Cleveland on Effort to Regain Party Control.

Louisville, Ky., June 23.—Henry Watterson, in an editorial in the Courier-Journal goes after Grover Cleveland with a sharp stick. The article is entitled "A Death's Head at the Feast," and is called out by Mr. Cleveland's speech at the Tilden club in New York, in which Mr. Watterson sees signs of Cleveland's aspirations for another Democratic nomination, an honor which, it is said, Mr. Watterson also looks forward to.

Mr. Watterson goes after Mr. Cleveland with all his old time vigor. He has no forgiven the stings of the old feud. He recounts his various campaigns on his covert effort for a fourth successive nomination, failing which he stood, as Mr. Watterson says, "in the middle of the road and blocking all others."

Mr. Watterson in his editorial says in part:

"It seems a kind of irony that it should be a Tilden club to welcome Mr. Cleveland's baleful re-entry into political activities. Mr. Tilden died with words of scorn and contempt on his lips for Grover Cleveland. He understood perfectly the coarse texture of Mr. Cleveland's physical and mental make-up, his obtuse selfishness, his ignorant obstinacy, his vulgar self-assertion, his indefatigable duplicity.

"That Mr. Cleveland should put himself forward as a conjectural party leader is proof of a self-confidence which would be sublime if it were not sinister, because leadership with him means office and nothing but office. Such well turned disclaimers as that which irradiated his elsewise, aptly phrased speech of Thursday night mean nothing to those who are familiar with his peculiar methods. They know for a certainty that Mr. Cleveland never puts himself to the trouble of a public appearance without a definite objective point, and that this objective point always relates to his own appetite and interest.

"We rather think the party will agree without much division that it has had its fill of Mr. Cleveland. The idea of his nomination in 1904 is little short of ridiculous. He would be hailed by the Republicans as the Duke of Democracy; that is, as its only, oniest captain general. It is safe to say that as a candidate for a third term in the White House—and for the fourth time a presidential nominee—he could not carry a contested district in the United States.

"The Tilden club has decidedly not put its best foot foremost. Rather, as the saying is, it has 'put its foot in it.' The name of Cleveland may still be a name to conjure with for the Republicans. With the Democrats of the West and South it is simply hateful. Addressing it the party might paraphrase the familiar words of Rip Van Winkle, 'I got enough, and I know when I got enough,' though it would hardly be able to complete the sentence and to add 'I am glad when I got enough.'"

Reflections of a Bachelor.

New York Press: There never was a house yet big enough to hold a good live boy.

Two inches on a 16-year-old girl's skirt add two yards to her self-esteem.

It is when little girls begin to sniff at little boys that it is time for their mammas to begin to keep an eye on them.

Summer girls don't have to be good at ping-pong or anything else in that line as long as they are up to the old standard in flirting.

When a woman finds fault with all the clothes she has it is a sign she is pretending she has so much money that all she's go to do is to buy more.

Is It Jilted?

Anoka Press: The Duluth Herald wonders whether the letter J. in J. Adam Bede's name stands for Joker. Either that or Jilted—first by the Democrats, then by the Republicans.

Whipped Spain All Alone.

Buffalo Express: The old question of whether Great Britain helped the United States in the Spanish war was brought up again in parliament and Lord Cranborne on behalf of the foreign office replied that he could find no trace of any assurances, either verbal or written, regarding the conduct or policy of Great Britain toward that war. We shall have to conclude that we whipped Spain all alone.

An Injunction Wanted.

Boston Globe: Free rural delivery, which is passing from the experimental to the practical stage, is threatened with a new danger. Birds, with no fear of the government before their eyes, persist in building their nests in the letter boxes.

Seventeen Burglaries In Iron Mountain In Six Weeks.

Iron Mountain—During the past six weeks seventeen burglaries have been committed in Iron Mountain. Two small boys, Hugh Palney and Aldridge Jacob, were arrested for stealing a slot machine. In court they confessed to having committed all the recent robberies. One of the boys had most of the stolen property hidden at his home and turned it over to the police. It consisted of watches, revolvers, rifles, knives, cartridges, etc. They will be sent to the reform school.

Republic—William Voeghtline, of Republic, met with a tragic death. He was overseeing the work in his father's portable sawmill. His foot slipped, his coat catching in a belt connecting the engine with the saw, which cut off both his legs close to the body and his right arm above the elbow. He lived two hours after the accident, and was conscious.

Menominee—The old settlers of Menominee county will hold a reunion at Menominee on the 24th inst., which it is expected will be attended by 1000 or more people. Invitations have been sent out to the Scandinavian settlers, who went to the Menominee river thirty or more years ago, and they will be present with their sons and grandsons for a gala time with friends of other years. Among the speakers who are expected to make addresses are Fred Grandall, Attorney John Miller and John Opsahl, of Menominee.

The sudden breaking of the side rod, connecting the driving wheels, of the locomotive on southbound freight train No. 22, at Kew, a small station five miles north of Menominee, on the Chicago & Northwestern railway, resulted in the injury of two of the crew, while the engineer had an almost miraculous escape.

THE DAKOTAS.

E. J. Jennings Fatally Injured In Wreck Near Granville.

NORTH DAKOTA.

Fargo—E. J. Jennings, manager of the North Dakota newspaper union, of this city, was fatally injured in a wreck near Granville, Sunday. Mr. Jennings was riding in the caboose of a Great Northern freight train, when another freight train following, ran into and wrecked it. Mr. Jennings had both of his legs broken and received severe internal injuries.

Bishop and Mrs. Edsall of the Episcopal church of Minnesota will spend the summer at Detroit, where so many North Dakotans have cottages, and during the outing season they will take advantage of the occasion to visit Fargo friends.

SOUTH DAKOTA.

Huron—Mrs. George E. McEathron, who disappeared on Monday, is in St. Paul, or was on Wednesday night. A letter supposed to have been written by her to Roy Underhill, now in jail here, was received in the mail, and after being read by Underhill, was given up to the sheriff. There is no particular news in the letter. She said she was tired after her journey, and asked Underhill to keep her posted. She intimated that she would not long remain in her present location. The sheriff will await the return of Mr. McEathron, who is now in St. Paul, before making any further move for her apprehension.

Faulkton—The attention of the court in the famous Coleman murder trial was occupied Saturday by the testimony of Dr. Miller, on the behalf of the state. His testimony relates to the examination of the body, on the fact that the dead man could have lived but a minute or two after receiving the wound. The defendant's sister arrived from Winona last evening, and stoutly affirms her brother's innocence. Dr. Miller is being subjected to a scathing cross-examination by Judge Campbell, of Aberdeen, for the defendant, but his attorneys assert that they have sufficient evidence to acquit.

Big Stone City—The Interstate Chautauqua opened at Simpson Park Saturday evening with a musical program by the Aberdeen Harp orchestra and Mendelssohn male quartet, and a lecture by W. H. Sanders, subject, "The Mind Life." Special features will be presented Monday in the person of Mrs. Carrie Nation, and Tuesday will present Richard P. Hobson. The program throughout is unusually good and the prospects for a successful meeting could not be better.

LATEST FASHION NOTES.

Girls' Graduation Dress.

Fagotting, a general term for open work stitching of whatever kind, fairly runs riot on the gowns for summer wear, and a very dainty finish it is, when properly executed with Corticelli EE twisted embroidery silk. A charming frock worn at a recent girl graduation showed this pretty stitching wherever an inserting was to be

let into the crepe de chene of which the frock was composed. This design is not very ornate, but of an alleged simplicity. The skirt has the prevalent panel effect, the latter being entirely untrimmed. The fullness is lightly gathered at the belt, and the edge bordered by three rows of Valenciennes inserting, mounted with briar stitching in pale blue Corticelli embroidery silk. The blouse shows a vest effect, the continuation of the skirt panel, sailor collar was composed of Valenciennes inserting, and bias folds of pale blue taffeta, joined by fagotting in blue silk. The hat which completed this costume was of pale blue chiffon with ostrich tips of the same shade.

Whence comes this mighty far-reaching power that enables Rocky Mountain Tea to make such wonderful cures. Try it and see. Ask your druggist.

1

WYETH

Easily Captured the Fifteenth American Derby at Chicago.

Chicago, June 23.—Wyeth, John A. Drake's Chicago colt, won the fifteenth American derby Saturday afternoon by three lengths in a field of twelve starters, before a crowd of between 55,000 and 60,000 people. Time was 2:40 1-5. Lucile Appleby was second and Aladdin third. As soon as the race ended a great crowd surrounded Mr. Drake, ofeur of Wyeth, congratulating him. The horses went to post at 4:04 and at 4:12 they were sent away on first real break. Arsenal broke in ahead, and these two horses raced around the turn two lengths in front of Aladdin and Belle Commoner. The third division of three colts, consisting of Corrigan, Arsenal and Wyeth, heads apart, laid two lengths behin Belle Commoner and Aladdin. Then followed close up Pentecost, Lucia, Appleby, Lord Quex, Hermis and Prowl. At the mile post Otis was half a length in front of Heno, with Aladdin two lengths back and half a length in front of Arsenal lapped at saddle girths of the latter was Wyeth. Then came half a length behind, Lucien, Appleby, and lapped close on him was Belle Commoner, Pentecost came next, Wyeth constantly improving his position, taking advantage of the big opening between Otis and Heno, the latter swinging wide and leading by the time the colts were fairly straightened out for home. After that he was never in any trouble, and did not have to be touched with the whip. Lyne kept him in front and he won handily by a length and a half.

Facial skin wrinkles and ages, lacking proper nourishment. Satin-Skin Cream is tissue-building skin food. 25c.

CORNELL

Was the Winner of Three Boat Races at Poughkeepsie.

Poughkeepsie, N. Y., June 23.—Cornell earned a niche in the hall of fame at the intercollegiate regatta Saturday. It was simply a field day for the brawny oarsmen of Ithaca. All three races, the 'varsity eight, freshmen eight and 'varsity four, went to the superb handlers of the blades coached by the famous Charles Courtney.

Every race was won with consummate ease, and this is particularly true in the big race. Each member of the Cornell crew had the Courtney stroke down to perfection, and in every case wore out the opponents of Cornell. It was the greatest victory in the long string of victories that the famous stroke of the red and white has ever earned.

Cornell won the big race by fully three lengths, with Wisconsin second, one and a quarter lengths before Columbia. Then came Georgetown, two and one-half lengths behind Columbia; Pennsys' half length back of the men from Washington and Syracuse was last, being a length back of the Quakers.

Cornell won the four-oared 'varsity race by two open lengths, with Pennsylvania second, being only a length ahead of Columbia.

The Ithaca men's only real fight of the day was in the freshmen contest. In this race Wisconsin finished less than a length behind. The Badgers fought so gamely in the last quarter-mile that the hearts of the Cornell rooters almost stopped beating. Columbia was third, being a half length behind the Badgers. Three lengths in the rear of Columbia was Syracuse and Pennsylvania was a wretched tail-ender, being three lengths to the rear of the "Salt Lake" students.

Official time for the three races: Four-oared 'varsity, 10:42 3-5; freshmen eight, 9:43 4-5; 'varsity eight, 19:05 3-5.

CRUTCH-BOUND

The crutch is a poor substitute for legs, and affords a very inconvenient and tiresome mode of locomotion—there is no more pathetic sight than a person slowly and painfully moving along the street supported by these artificial limbs.

When Rheumatism settles in the bones and muscles of the legs, it is safe to predict that the victim will eventually become helpless and crutch-bound. The corrosive, irritating matter that is deposited in the joints and muscles causes the most intense pain, the knees and ankles swell, and when the natural oils and fluids that lubricate these parts are completely destroyed the joints become locked and the muscles drawn and stiff, and crutches a necessity.

The acid poisons that produce rheumatic pains form in the blood, and are distributed through the system, and lodged in the arms, shoulders, hands, back and feet, or other parts of the body—resulting often in total disability. A permanent cure of Rheumatism can be effected only by a complete cleansing of the blood, and no other remedy so surely accomplishes this as S. S. S. It neutralizes the acid effects, purifies and invigorates the stagnant blood, and the gritty particles are washed out or dislodged by the new rich blood, and relief comes to the pain-racked sufferer. S. S. S. leaves no morbid, irritating matter in the blood to reunite and produce another attack, but expels every atom of it from the system. S. S. S. is a purely vegetable remedy, and does not impair the digestion or general health like alkali or potash remedies.

Write for our special free book on Rheumatism, and if any medical advice or other information is wanted, our physicians will gladly furnish it without charge. THE SWIFT SPECIFIC CO., ATLANTA, GA.

THREE LOST.

Fatal Accident to Fishing Party In Lake Michigan.

Milwaukee, Wis., June 23.—Three men drowned yesterday in Lake Michigan while fishing from a boat, which was capsized. A 12-year-old boy who was also in the party was saved by clinging to the boat. The names of the drowned are:

W. F. C. FALBE, 387 Fifth street, Milwaukee, aged 40 years.

JAMES BEYER, aged 58 years, a resident of Chicago.

JOSEPH GREELEY, aged 50, of New York city.

Charles Tuschel, a 12-year-old boy, was saved.

The men were fishing near the government pier and according to the boy's story, Beyer in trying to move to another part of the boat fell overboard. He was hauled back, but during the performance of rescuing the boat filled with water and capsized. Beyer went down and was drowned immediately.

Falbe went down twice and failed to rise, while Greeley swam about 150 feet and then sank. The bodies of Falbe and Beyer have been recovered.

"I suffered from dyspepsia and indigestion for fifteen years," says W. T. Sturdevant, of Merry Oaks, N. C. "After I had tried many doctors and medicines a friend persuaded me to try Kodol. It gave immediate relief. I can eat anything I want now and my digestion is good." Max Wirth.

BRIEF TELEGRAMS.

Charles S. Dillon, one of the best known sporting men of the Northwest, was killed at Helena Sunday night in a runaway accident, while driving a fast trotter in from the race track. Dillon was 46 years old, and came from Deadwood many years ago. The accident occurred just off the main street and was witnessed by many pedestrians.

While the steamer Racine, of the Goodrich line, was off Waukegan Sunday morning, on her trip from Chicago, an unidentified man jumped overboard and was drowned.

Eight members of the sheriff's posse, chassing Tracey and Merrill, the Oregon convicts, returned to Vancouver, Sunday and reported that the bloodhounds dropped the trail of the convicts Saturday afternoon, and that since then all trace of the men has been lost.

A fire that started shortly before midnight, Sunday morning, in the Phoenix Iron works, formerly the Wolff & Zwicker plant, of Portland, Ore., burned for four hours and destroyed six blocks of buildings, valued at $060,000.

The round house of the Southern Pacific railroad at Fresno, Cal., and twelve locomotives, were destroyed by fire. Estimated loss, $200,000.

Energy all gone? Headache? Stomach out of order? Simply a case of torpid liver. Burdock Blood Bitters will make a new man or woman of you.

RECEIPTS OF A YEAR

Grain Received In Crop Year Will Reach Sixty-Six Millions.

But Three Years In Market's History Have Surpassed That.

Enormous Receipts of Flax Have Brought Total Up.

While Duluth will not have received as much wheat from the old crop as was expected at the beginning of the crop year, its heavy flax receipts will bring the total volume of grain that will have come here since Aug. 1 last up to about 6,000,000 bushels. This grand aggregate is greater than that for any year in the history of the market with the exception of 1895-6, 1898-9 and 1899-90.

The crop year of 1901-2 began with the expectation that the crop would prove one of the biggest of bumper yields in the history of the Northwest. There was a large acreage, and the yields in many instances were exceptionally large.

The crop year of three years ago was the biggest in the history of the market, for almost 100,000,000 bushels of all kinds of grains, 77,000,000 bushels of it wheat, were received here.

While it is impossible to forecast accurately just what the receipts of all kinds of grains for the remaining five weeks of the crop year will bring the total up to, the movement in all lines now has reached such a low stage that the aggregate may be approximated in a round way with some degree of certainty.

Indications now are that the total receipts of wheat, including about 8,000,000 bushels of Manitoba wheat that were received here, will approximate about 46,500,000 bushels. The consumption of wheat here in the manufacture of flour has been much larger than it has been for a number of years, as a result of the resumption of operations by the mills that went into the United States Milling company trust, and it is doubtful is shipments will go much above 37,000,000 or 38,000,000 bushels. This movement was exceeded by the crops of 1891-2, 1895-6, 1898-9 and 1899190, and almost equalled by that or 1896-7.

The corn movement will fall to about 75,000 bushels. Barley will approximate a little over 3,000,000 bushels. Rye will probably reach about 775,000 bushels.

Flax will foot up pretty closely to 15,000,000 bushels, for receipts have already exceeded 14,225,000 bushels. Flax is what has saved the day for Duluth in the general summary of the grain movement as compared with previous years.

It has been customary for a rush of wheat to set in toward Duluth after Sept. 1 and prior to the close of navigation, in order to get the new wheat East before the season on the lakes closed. The largest half of the crop frequently moves forward to terminal markets during that period of the year.

When this did not happen last fall, some little speculation was caused among grain men, but so well night complete was the general opinion that the wheat had been raised that it was felt that Northwestern farmers believed they could afford to wait for better prices, and so were holding their product back for later sale.

The heavy crop in Manitoba pressed on this market heavily from the outset. The year before this market had been strong relatively, because, while there had been a bumper crop in the Southwest, the yield in the Northwest was light. This time the tables were somewhat reversed. Duluth was one of the weakest markets in the country. Manitoba wheat overflowed the terminal elevators at Canadian lake ports and mingled with the receipts of American wheat in the elevators here. Something like 8,000,000 bushels of this Canadian wheat found its way here. The receipts were not kept separately in the published statements, as they will be next year if any Canadian wheat is received, and so Duluth got credit for more Duluth wheat than actually was raised in the district which finds its market here.

Farmers found that owing to the partial failure of the corn crop, feed was high. It was cheaper to feed wheat than to buy the ordinary cheap feed. Oats sold for such good money that farmers let them go. That cut off another good part of the crop from the terminal markets.

Still, faith in the largeness of the Northwestern yield, though somewhat shaken at the edges, remained firm in the fabric, and when it came time for the rush to market in time for the opening of navigation, to apply on May sales and to avoid the annual visit of the assessor, came around, the grain man was still looking for a much larger volume of receipts than ever eventuated. The wheat began moving earlier than usual. By this time it was known that partial crop failures had been more effective in reducing the yield than had at first been looked for. The spring movement coming so early, however, attained such proportions that first hopes seemed due to be realized. Then all at once, almost before the usual time for the beginning of the spring rush, the movement sagged, and in a couple of weeks fell to next to nothing. Millers began bidding up the market, and still the wheat would not come forth. Grain men talked for a time of a concerted movement among farmers to hold wheat. Then it began dawning upon them that the stuff was not in sight or out of sight, but still in existence. It had been fed, and all that had been estimated had not been raised.

The flax market here not only has had heavy receipts, but it has been relatively the strongest market in the country, because of the excellence of the seed received here and the poor seed raised in the Southwest last year. Flax has even been attracted here from Chicago.

Delightful Eastern Trip.

The Lake Shore & Michigan Southern railway has just issued a new summer book, "Lake Shore Tours," showing a selected list of Eastern resorts with routes and fares. Copy will be sent on application to W. B. Hutter, N. W. P. A., 122 Endicott arcade, St. Paul, Minn., or C. F. Daly, C. A. G. P. A., Chicago.

AN ADDRESS

By President Mitchell on the Causes of the Strike.

Wilkesbarre, Pa., June 23.—President John Mitchell of the United Mine Workers of America yesterday issued an address to the press for publication. It is partly a reply to the letters of the operators declining to accede to the demands of the union, which were published about ten days ago.

Briefly summarized, the address says that every possible means was resorted to in the effort to prevent the strike; claims that the cost of living has increased to the point where the miner was compelled to ask for higher wages; denies the allegations of the operators that the productive capacity of the mine workers has fallen off, but, on the other hand, has increased; quotes official figures to substantiate the contention that the employers can pay higher wages without increasing the cost of coal to the consumer; asserts that the coal-carrying railroads which control about 85 per cent of the mines absorb the profits of their coal companies by charging exorbitant freight rates; claims that a ton at the mines means anywhere from 2740 to 3190 pounds instead of 2240, and says that more men are killed and injured in the anthracite mines of Pennsylvania annually than were killed or wounded during the Spanish-American war. The address also says that in the event the union is crushed, which it adds is not likely, a new organization would rise from its ruins. It concludes with another appeal for arbitration of all questions in dispute.

LEFT RAILS.

Misplaced Switch Causes Fatal Wreck Near Ashton, Ia.

St. Paul, June 23.—A passenger train on the Sioux City branch of the Chicago, St. Paul, Minneapolis & Omaha railroad, due to arrive in St. Paul at 7:25 a. m., jumped the track near Ashton, Iowa, about 1:45 a. m. Sunday. Two trainmen were killed, five others seriously hurt and a number of passengers received minor injuries.

The dead:

C. J. ROBINSON, Sioux City, Iowa, mail clerk.

— BARRETT, fireman, terribly scalded by escaping steam; died shortly after being taken from under the engine.

The injured: James Erskine, St. Paul, mail clerk, hurt about back and head, serious; F. E. Weston, St. Paul, mail clerk, badly scalded by escaping steam, serious; C. H. Hall, St. Paul, mail clerk, hurt about back and head, serious; U. S. Thompson, St. Paul, mail clerk, hurt about back and head, serious. The engineer of the train, name not ascertained, was badly hurt, but will recover.

The passengers injured were attended by surgeons who were brought to the scene of the wreck on a wrecking train, and all were able to continue their journey.

The cause of the wreck is said to have been a misplaced switch. The train was running at a high rate of speed, and when it left the track the mail cars and smoker piled up on top of the engine.

The sleeping cars also left the track, but did not overturn. The injured mail clerks were brought to a St. Paul hospital, while some of the other hurt were taken to Minneapolis for treatment.

ONE DEAD.

Attack on Army Causes Bloody Fight at Knoxville.

Knoxville, Tenn., June 23.—An attack upon the American army in the Philippines, made at a garden party here Saturday night, caused a desperate fight which may cause four deaths. One man is dead and three others, including the traducer of the soldiers and a discharged regular recently returned from Manila, who defended the name of the military, are probably fatally wounded.

The dead:

JOHN KENNEDY, aged 45.

The injured: Alonoz Barger, stabbed twenty times, cannot recover; Charles Hobbs, badly cut about the face, neck and breast; Lincoln Monday, stabbed, jugular vein almost severed.

Monday, who served three years in the archipelago as a member of the Ninth infantry, and who is a survivor of the massacre of Company C, at Batangiga, Samar, gave Barger the lie when the latter declared that two-thirds of the American soldiers who went to the Phillippines were hoodlums and the other third were cowards and bullies.

All the fight which followed Hobbs and Kennedy took the part of Barger. All fought with pocket knives, until Monday, from loss of blood, sank to the ground. Then one of his friends on the ground handed him a revolver and he shot Kennedy. Monday then shot at Barger and Hobbs, but failed to hit either.

DANGER IS PASSED.

Fires In Washington Move Away From Tacoma.

Tacoma, June 23.—A Hot Springs special to the Ledger says: All danger from fires in this region seems to have passed, and the loss to the forests, it is believed, will not be increased to any great extent.

Railroad men say no further precautions are thought necessary and the fire is not viewed with apprehension at any point along the line. It has receded from the track and the extent of its ravages in the forests is not being greatly enlarged.

Low Rates to the East.

Via the Lake Shore & Michigan Southern railway to Chautauqua and return, July 4th and 25th. $14.00 for the round trip. Portland, Maine, and return, July 5th to 9th; one fare for the round trip; return limit may be extended to Aug. 15th. Providence, R. I., and return, July 7-8-9, one fare for the round trip; return limit may be extended to Aug. 15th. Full information on application to W. B. Hutter, N. W. P. A., 122 Endicott Arcade, St. Paul, or C. F. Daly, Chief A. G. P. A., Chicago.

DISEASES OF MEN

VARICOCELE, STRICTURE, Piles, Fistula, Hydrocele, Cancer, Rupture and Tumors cured without the knife or ligature.

Sure cure guaranted in from 10 to 30 days. Syphilis, Gonorrhoea, Gleet, Pimples, Blotches, Ulcers, Sores in the Mouth or Throat, Unhealthy Discharges, Skin Affections, Falling of the Hair, and Constitutional BLOOD POISONING speedily cured by the new remedies with never failing success.

YOUNG MEN Suffering from the effects of indiscretion or excess, causing Nervous Debility, Mental Weakness, Vital Losses, Catarrh, Indigestion, Consumption, Blotches, Pimples, Ringing in Ears, Palpitation of Heart, Despondency, Lost Manhood, Unfitness to Marry, Weak Back, Rheumatic Pains, Kidney and Bladder Troubles, are guaranteed a safe and speedy cure by remedies prepared and dispensed by himself. Charges always moderate. No exposure. Call or write.

MIDDLE-AGED AND OLD MEN who are the victims of Prostatic, Urinary, Kidney or Bladder Troubles, Syphilitic or Mercurial Blood Poisoning, Lost Vitality, Impotency, Sexual Debility, Impaired Vigor, Premature Decline from recent exposure, Mental worry or overwork, Rheumatism, Eczema or Salt Rheum, Piles, Ulcers, Old Sores, Cough, Impending Paralysis or Consumption, Stomach and Liver Troubles, Loss of Ambition, unfit to enjoy either pleasure or business, are cured for life by Dr. Pierce when all others have failed.

LADIES All forms of Female Weakness, Debility, Pain in the Back and Loins, Ovarian and Womb Troubles, speedily and permanently cured. Office private; no exposure; consultation free. If in trouble, write or call. Delays are dangerous. Medicine sent anywhere by mail or express. Charges moderate. Office hours, 9 a. m. to 8 p. m. Sundays, 10 a. m. to 12 m.

Office and works corner Oneota and Ramsey streets, West Duluth.

MEN NERVE BEANS quickly cure Nervousness, all results of abuse, falling manhood, drains, losses. Married men and men intending to marry should take a box; astonishing results; small weak parts and lost power restored. $1.00 at S. F. Boyce, druggist, 325 West Superior st., Duluth.

CONTEST NOTICE.—Department of the Interior, United States Land Office, Duluth, Minn., May 26, 1902.

A sufficient contest affidavit having been filed in this office by Hans A. Michelson, contestant, against, homestead entry No. 10370, made November 24, 1896, for s½ of sw¼ and lots 5 and 9, section 29, township 54 N. range 18 west, by Sam Monson, contestee, in which it is alleged that said Sam Monson never established his residence upon said land or any part thereof, and never cultivated any part of said land, nor made any improvements thereon, although more than five years have elapsed since he made said entry, and that said alleged abandonment was not due to his employment in the army, navy or marine corps of the United States during any war, said parties are hereby notified to appear, respond and offer evidence touching said allegation at 10 o'clock a. m., on July 23, 1902, before the register and receiver at the United States land office in Duluth, Minnesota.

The said contestant having, in a proper affidavit, filed June 11, 1902, set forth facts which show that after due diligence personal service of this notice can not be made, it is hereby ordered and directed that such notice be given by due and proper publication.

WM. E. CULKIN, Register.

Duluth Evening Herald—June-16-23-30—July-7-1902.

ORDER FOR HEARING ON CLAIMS.—State of Minnesota, County of St. Louis—ss.

In Probate Court, Special Term, June 9th, 1902.

In the matter of the estate of Terkild Jensen, deceased:

Letters testamentary on the estate of Terkild Jensen, deceased, late of the county of Saint Louis, state of Minnesota, being granted to Annie Jensen Hetebrugge;

It is ordered, That six months be and the same is hereby allowed from and after the date of this order, in which all persons having claims or demands against the said deceased are required to file the same in the probate court of said county for examination and allowance, or be forever barred.

It is further ordered, That the eleventh day of December, 1902, at 10 o'clock a. m. at a special term of said probate court, to be held at the probate office in the court house, in the city of Duluth, in said county, be and the same hereby is appointed as the time and place when and where the said probate court will examine and adjust said claims and demands.

And it is further ordered, That notice of such hearing be given to all creditors and persons interested in said estate by publishing this order once in each week for three successive weeks in The Duluth Evening Herald, a newspaper printed and published at the city of Duluth, in said county.

Dated Duluth, Minnesota, this 9th day of June, A. D. 1902.

By the Court,

W. G. BONHAM, Judge of Probate.

(Seal of Probate court St. Louis County, Minnesota.)

Duluth Evening Herald—June-9-16-23-1902.

WHEAT IS HIGHER

Market Opens Weaker But Has a Substantial Advance.

Cables Are Lower But the Statistics Generally Bullish.

Flax Trading Is Quiet and the Market Steady.

Duluth Board of Trade, June 23.—The whole market started out weak and lower this morning owing to fine harvesting weather being reported and the cables showing a decline. The statistics were rather bullish, except the Northwest receipts, which were liberal, breadstuffs on passage showing a decrease of 2,632,000 bus, and the world's shipments being 7,476,000 bus, against 8,122,000 bus last week and 9,481,000 bus last year. The market turned stronger soon after the opening and continued upward throughout the session almost without a reaction. The cables were lower. Liverpool was down ¾@1d, Paris 3½@2½c down, Antwerp ½c lower and Berlin unchanged.

The visible supply of wheat decreased 2,350,000 bus last week, against a decrease of 2,227,000 bus last year and is now 27,080,000 bus against 32,900,000 bus last year at this time. Primary receipts of wheat were 35,000 bus, last year 631,000 bus. Shipments 375,000 bus, last year 605,000 bus. Clearances of wheat and flour were 457,000 bus.

Corn and oats in the Chicago market were stronger, the July option in the former advancing 1½c and the latter ¾c. Primary receipts of corn were 454,000 bus, last year 317,000 bus. Shipments 217,000 bus, last year 498,000 bus. Clearances of corn were 22,000 bus. The visible supply of corn decreased 436,000 bus last week against 85,000 bus a year ago and is now 5,104,000 bus, against 10,106,00 bus a year ago. The world's shipments of corn were 7,227,000 bus, as last week against 5,125,000 bus the week previous and 5,923,000 bus a year ago.

Receipts of wheat at Duluth and Minneapolis, 428 cars, and at Chicago, 24, a total of 452 cars, against 462 last week and 484 last year.

The Duluth wheat market was fairly active and weaker early, afterwards advancing. July opened 1½c off at 75½c, selling at 75¾c at 9:37, at 75¼c at 10:42 and 75¾c at 11:30. After that there was no trading in July until just at the close when sales at 76c made that the closing price, an advance of ¾c. Chicago was stronger, advancing ¾c. Minneapolis advanced 1½@¾c.

There was an advance of ¼c in the price of cash No. 2 northern and it now sells at ¼c under July. No. 1 northern continues at ¼c over July and No. 3 at 3c under. Sales were 10,000 bus.

Flax trading was light and the market very steady, the only change being an advance of ¼c in October. September oats advanced ¾c.

Following are the closing prices:

The close: Wheat, cash, 1 hard, 78¼c; 1 northern, 75c; 2 northern, 73c; 3 spring, 73c. To arrive—1 hard, 79½c; 1 northern, 76½c; July, 76c; September, 73¾c. Manitoba, 1 northern, cash, 75c; 2 northern, 74½c. Oats, cash, 45c; September, 31c. Rye, to arrive, 56c; September, 54½c. Flax, cash, $1.70; to arrive, $1.60; on track, $1.70; July, $1.65; September, $1.43½; October, $1.38¾; cash Northwestern, $1.75.

Cars inspected—Wheat, 25; last year, 67; corn, 1; rye, 2; flax, 4. Receipts—Wheat, 8914 bus; corn, 2500 bus; barley, 1208 bus; flax, 341 bus. Shipments—Wheat, 84,717 bus; oats, 2187 bus; flax, 28,700 bus.

THE CHICAGO MARKET.

Favorable Weather Causes Drop In Wheat Market.

Chicago, June 23.—A very favorable weather map for wheat harvesting and lower cables brought an early dip in the wheat market today. Sunday was fair throughout the Southwest and the only rain reported today was in Iowa and near Omaha. This caused general selling again and July started ¾@¾c to 1¼@1c lower, at 72¾c to 73c. Some stop loss orders came out, but covering sent the price of July to a steadier position near 73¼c. With the exception of liberal Northwest receipts, statistics were somewhat bullish. Breadstuffs on passage decreased 2,632,000 bus. The world's shipments were 7,476,000 bus, compared to 8,122,000 bus last week and 9,481,000 bus last year. Local receipts were 21 cars, 7 of contract grade. Minneapolis and Duluth reported 428 cars, making a total for the three points of 452 cars, against 462 last week and 484 a year ago.

Bulls turned the tables on the early bears shortly after the first hour in wheat. Statistics showed marked decreases in stocks, the visible supply being decreased by 2,335,000 bus. A buying movement set in pushing July wheat up to 74½@74¾c and many of the bears were caught. The close was strong, July ¾c higher at 74½@74¾c.

Manipulation was apparent in the corn pit again at the opening. Brokers for the leading bulls openly bid up the price of July corn without taking any considerable stuff. It seemed the desire of the bulls to create interest in this pit, which has slumbered since the great excitement early last week. Prices spurted at the start, but after a little buying by commission houses trade lagged again. The weather was fairly improved save in Iowa. Cables were a little higher and the bulge in provisions had a bullish effect. The world's shipments were 5,223,000 bus with only 111,000 bus from America. July opened 1@1½c up, at 66c to 66¼c, jumped to 67¼c, fell to 66¼c, and steadied near 66¾c. September was firm at a small advance. Receipts were liberal at 221 cars.

Corn continued in fair demand, especially December. The manipulation in July strengthened prices. July closed 1¼c up at 62c and September 1c higher at 50¾c, having sold at 60c.

Oats opened a trifle easy with wheat and the improved weather. Receipts were larger, but there was a fair trade, and in spite of some commission house selling, prices advanced a little. July opened ⅜c down, at 40c and sold at 40¼c. Receipts were 12 cears.

Provisions again made record-breaking prices for the year. Hogs were in fair supply, but prices at the yards reached the top price for the year, $7.85. This started fair buying and some short covering. A little liquidation at high prices brought a small reaction, but the tone held strong. July pork opened 7½c to 17½c higher, at $18.00 to $18.10, and held near $18.05. September pork sold at $18.35. July lard opened 5c up at $10.55, and sold at $10.57½, and July ribs 2½c to 7½c higher at $10.80 to $10.85.

Close: wheat, June, 73c; July, 74¼@74c; September, 72¾@74c. December, 73¼@. Corn, June, 66¾c; July, 66c; September, 59¾c; December, 46c; May, 44¾c. Oats, June, 42c; July, 37c; new, 40¾c; September, 29¾c; new, 31¾@32c; December, 29½c; new, 31¾c. Pork, June, $18.25; July, $18.25; September, $18.50; October, $18.10; January, $16.87½. Lard, June, $10.65; July, $10.95; September $10.70; October, $10.62½; November, $10.20. December, $8.70. January, $8.42½. May, $9.35. Ribs, June, $10.90; July, $10.90; September, $10.80; July, $8.70. Flax, cash, Northwestern, $1.74; Southwestern, $1.54; September, $1.41; October, $1.36½. Rye, July, 57c; September, 54½c. Barley, cash, 66@70c. Timothy, September, $4.45. Clover, cash, $8.35. Cash wheat, No. 2 red, 81c; No. 3 red, 79½@80¾c; No. 2 hard winter, 76@77c; No. 3 hard winter, 75½@76c; No. 1 northern spring, 75½@76c; No. 2 northern spring, 73@73½c; No. 3 spring, 70@74c. Corn, No. 2, 66½@66¾c; No. 3, 62@63¼c. Oats, No. 2, 43½@44c; No. 3, 42c.

GRAIN GOSSIP.

Logan & Bryan, Chicago: Wheat—There was a weak opening here on the lower cables and better weather, but later the market turned strong on lack of selling pressure. The decrease in the visible was larger than was expected, and there was quite a little bull help from local scalping operators. The stock of wheat is not large; movement so far is slow, and the selling pressure, except from the bears, is not great. The Southwest reports increasing offerings of wheat and diminishing premium for spot stuff. Weather in Europe is reported more favorable. The news on the whole is bearish, but the action of the market is strong. Shorts in doubt covered freely.

Corn—The market here was strong. The buying was mainly in thre way of covering shorts. July corn is not easy to buy, although there is no doubt still a considerable scattered long interest. There is no change in crop news or threshing news. The crop news dry, warm weather, but there are no complaints so far. The cash situation is fairly strong.

• • •

W. H. Laidley & Co.: With weather like this for ten days longer, July wheat will look high at 70c. The opening threatens to be a soft one, but I do not feel like selling on breaks of this sort. Watch the weather map and you will be able to form a fair idea of what course the market will be.

MARKET REPORT.

Received over private wire of **B. E. Baker**, grain and stock broker, 607 Board of Trade, Duluth, Minn.

Chicago, June 23.—The wheat market after opening weak owing to favorable weather in this country and abroad also lower cables from Europe, later became strong on good cash demand and larges increase in the visible supply of 2,335,000 bus bring the total down to only about 21,000,000 bus against 33,000,000 bus a year ago. Shorts covered freely and the market closed within a fraction of the highest point of the day. Liverpool reported our market ¾d to 1d lower for the day. Continental markets were also lower, unaffected by the improved weather. Cash demand was good and 2c over July F. O. B. was bid for a round lot of cash No. 1 northern. Stocks of all grades in public houses here are only about 2,750,000 bus. This is extremely small. The cash situation is so strong that we are inclined to think it will carry prices higher, anyway we think it safer for the present to buy on weak spots. The weather turn unfavorable again we would in all probability get a smart advance. Estimated for tomorrow, 35 cars.

Corn—There was a large and active trade in corn today. The principal feature to the market was covering by September and December shorts. The former closed 1c over yesterday night, while the latter closed 5¾c over Saturday night. There was only a moderate trade in the July, which sold from 66 to 67⅛ and closed at 67 bid. Foreign markets were firm. Liverpool closed 1d higher for the day. There was a much better cash demand here. The weather was generally favorable for the crop. Shorts have covered freely today, and while the situation looks strong, still we would not be surprised to see a little setback from present prices. Estimated for tomorrow, 445 cars.

Oats ruled strong all day with a large trade. Shorts were good buyers. There was also good buying for long account. Cash oats were in good demand. No. 3 white on track sold as high as 50c. Country offerings were very light. Weather was generally good for the growing crop. Thes market closed firm with the general tendency to still higher prices. Estimated for tomorrow, 250 cars.

Provisions opened very strong on advance of hogs and trade was very large from start to finish. There was selling today by brokers supposed to represent one of the leaders and just as heavy buying attributed to an outsider. We had a lively market selling about highest prices for the day. Trade has broadened a good deal in the last week. Estimated for tomorrow 23,000 hogs.

CORN AND WHEAT BULLETIN

The total sales were 493,100 shares.

STOCK GOSSIP.

Ridgley to W. H. Laidley & Co.—There is nothing new to say today. Bank reserves are normal for this season of the year. The repeal of the war revenue taxes goes into effect July 1, and this will put more money into circulation and also greatly strengthen the banks' position. The coal strike may be regarded as simply an incident and but of minor importance. Only one thing is to be feared and that is unexpected crop damage. But if crop conditions are maintained then a higher level for railroads is certain. With the $2 per hundred stamp tax removed after June 30, the market manipulators will find it much cheaper to "wash" their thousand share lots and this should prove a strong influence towards an active speculation during the summer and fall. Possible gold exports in the near future need not disturb us. Conditions actual and technical are distinctly bullish. In the past five years the Southern Pacific has expended $50,000,000 out of its earnings for improvements and betterments, the same as pursued by Atchison four years ago. Of course Atchison preferred could then have been bought at 35, whereas Southern Pacific sells at 65, but the Atchison's opportunities are past and the Southern Pacific opportunity is still here.

• • •

Waldorf to W. H. Laidley & Co.: Speculative opinions tonight (Saturday) are again unusually conflicting. Bullet down, they suggest a waiting market, narrow fluctuations and professional dealings. Some operators who have been bullish for weeks and are still bullish for the pull are inclined to be cautious for the time being. They confess disappointment over the prolonged strike, the liquidation in the steel shares, and the positive refusal of the public to follow the lead of pool manipulators. All this has modified bull sentiment for the moment, though very good bones take the position that as there is no likelihood of a break in prices while crop conditions continue favorable, railroad stock will be a purchase on any moderate recession. It is easy to see that the average observer blames the United States Steel corporation stocks for checking the good feeling which recently developed in the general market. This argument is made on these lines; the shares have been steadily sagging for months, reaching, this week, the lowest prices touched since the panic of May 9. Coincidently, a vast amount of literature describing the large earning of the company was circulated among the big cities. Then came the decision the vice chancellor of New Jersey that the plan proposed for the conversion of preferred stock tin bonds is not legal, a decision which will, it is believed, be affirmed by the court of errors and appeals. While supporting orders and covering purchases brought about a recovery in the steel shares the better prices are not expected to hold, the above facts having raised in minds of thousands of holders the fear that further adverse developments bearing on their securities are to come and will hardly be offset by the June quarterly statement said to be partly estimated showing net profits of $38,000,000.

• • •

Warrington to W. H. Laidley & Co.: During the past two weeks prices of railways have advanced from 3 to 8 points. I confidently expect the market for railways to work higher for another week or two, yet dullness may prevail for a few days before another advance comes.

THE COPPER STOCKS.

Following are the closing quotations of copper stocks at Boston today, reported by Paine, Webber & Co., 308 West Superior street.

Calumet & Arizona	43	...

COPPER GOSSIP.

Boston to Paine, Webber & Co.: Morrison, Kakewich & Co., metal brokers, London: Copper has not changed but little, and the important point is whether the Amalgamated company has still large stocks to dispose of or not. In such advices they are much reduced. Consumers here have bought fairly freely again and ruling prices have been paid. Consumption is quite certain to be large, but it is not so certain that Amalgamated company is ready for higher prices. The latest signs, however, are a little more hopeful and statistics are very good.

• • •

Boston to William H. Laidley & Co.: Coppers are all soft and dull. They won't go any until Amalgamated does. The demand for metal has improved. Traders are raiding Copper Range. The whole market is very inactive. See nothing to induce operations in coppers for time being.

• • •

Boston to Paine, Webber & Co.: The decline in Amalgamated led the traders to raid Copper Range and the latter declined nearly 3 points, under heavy selling originated from bullish Liverpool cables, though later the dominating influence was dry weather news from Texas. Fear of an unfavorable weekly report from Washington tomorrow and bullish private telegrams from Texas were factors of no mean importance. During the late forenoon the local market ruled steady firm with prices holding close to $.50 for August and 7.88 for October. The Liverpool market lost a portion of the early advance and the close but Europe continued to buy here in a small way. Port receipts proved to be considerably larger than expected.

TREASURY BALANCES.

Washington, June 23.—Today's statement of the treasury balances in the general fund, exclusive of the $150,000,000 gold reserve in the division of redemption, shows: Available cash balance, $260,400,356; gold, $89,461,387; silver, $24,290,206; United States notes, $10,069,896; treasury notes of 1890, $149,032; national bank notes, $9,721,421; total receipts this day, $2,694,644; total receipts this month, $35,285,195; total receipts this year, $549,012,944; total expenditures this day, $745,000; total expenditures this month, $29,775,000; total expenditures this year, $467,166,797; deposits in national banks, $126,860,970.

CHICAGO LIVE STOCK.

Chicago, June 23.—Cattle—Receipts, 15,500, including 1500 Texans; 10c higher; good to prime steers, $7.50@8.20; poor to medium, $4.85@7.50; stockers and feeders, $2.50@5.25; cows, $1.40@5.75; heifers, $2.50@6.25; canners, $1.40@2.40; bulls, $2.25@5.50; calves, $2.50@6.50; Texas steers, $4.00@6.60. Hogs—Receipts, today, 36,000; tomorrow, 25,000; left over, 4161; 5c higher; mixed and butchers, $7.30@7.75; good to choice heavy, $7.75@7.85; rough and heavy, $7.20@7.50; bulk of sales, $7.55@7.70. Sheep—Receipts, 20,000; sheep, 10c lower; lambs, steady; good to choice wethers, $4.00@5.00; fair to choice mixed, $3.75@4.50; Western sheep, $2.50@4.75; native lambs, $5.00@6.75. Western lambs, $5.00@6.75; spring lambs, $4.00@7.25. Saturday: Receipts—Cattle, 375; hogs, 10,295; sheep, 2335. Shipments—Cattle, 563; hogs, 1725; sheep, 180.

MIDWAY HORSE MARKET.

Minnesota Transfer, St. Paul.—Barrett & Zimmerman report the aggregate outlet the past week very light; the market having been supported by retail trade only. Stock was plentiful of all classes of horses, which comprised the most superior quality sprinkled with inferior grades. Values:

Drafters, extra	$170@225
Drafters, choice	140@165
Drafters, common to good	125@140
Farm mares, extra	130@145
Farm mares, choice	100@130
Farm mares, common to good	50@100

NEW YORK MONEY.

New York, June 23.—Close: Money on call, steady, at 2¼@3 per cent, closing bid and asked, 2½@3 per cent; prime mercantile paper, 4½@5 per cent; sterling exchange, firm, with actual business in bankers' bills, at $4.87⅞ for demand, and at $4.83½@⅝ for 60 days. Posted rates, $4.88 and $4.88½. Commercial bills, $4.81½@$4.83½. Bar silver, 52¾c. Mexican dollars, 42¼c. Government bonds, easier; state bonds, inactive; railroad bonds, irregular.

MILLS ARE OPENED.

New York, June 23.—In accordance with the decision of the mill owners reached on Friday last, all the silk plants in Hudson county, N. J., opened for business today. At only one mill, that of R. & H. Simon, in Unitum, Hill, did the full number of men report for work. The employes were not interfered with by outsiders when they entered the mill today. There was a crowd of idlers in the vicinity, but no demonstration was made.

No need to fear sudden attacks of cholera infantum, dysentery, diarrhoea, or summer complaint, if you have Dr. Fowler's Extract of Wild Strawberry in the medicine chest.

TRADING WAS EASY

Railroad Stocks Opened Higher While Industrials Sagged.

Heavy Buying In Wabash Carried Prices Well Up.

Market Turned Heavy and the Prices Yielded.

New York, June 23.—Most of the railroad stocks opened slightly higher this morning, but the industrials and specialties were inclined to sag. General Electric fell a point and Copper ⅝. Dealings were rather small.

Railroad stocks reacted in sympathy with the heaviness of the specialties. Amalgamated, United States Rubber and North American yielded a point, General Electric 2 and Colorado Fuel 2½ the last named on free selling. Losses in the railroad division were recovered later when Manhattan Metropolitan and Reading advanced 1@1¼. Wabash was notably firm.

Tennessee Coal and Colorado Fuel rallied 1 and 1⅜ respectively from the lowest. General Electric got back to last week's close and Chicago & Eastern Illinois advanced 6½ points in all. Detroit Southern declined 1. American Ice preferred 2½ and Canada Southern 3. Heavy buying was resumed in Wabash's blocks of from 1000 to 4000 shares lifting the common to 30¾ and preferred to 47⅝. Chicago Great Western rose a point. The movement in the general list was very narrow. Bonds were irregular at noon.

The strength of the Waoash spread to other Gould stocks, except St. Louis Southwestern preferred, which was rather heavy. Missouri Pacific, Kansas & Texas, Texas & Pacific and the Wheeling & Erie stocks gained 1 to 2. General Chemical rose 2. There was some wide declines among less active stocks. St. Joe & Grand Island fell 4¼ with a rally of 3, the first sales of the Pittsburg, Cincinnati, Chicago & St. Louis, Biscuit preferred, International Silver and Terre Haute 1 to 2. The general market continued dull and sluggish.

Supporting orders caused a recovery of 1½ in Silver, 2 in rice preferred and 1¾ in Nashville, Cattanooga & St. Louis. Colorado Fuel rallied to 92 and declined again to the lowest of the day at 89¾. There was little of interest in the rafroad list aside from the buying of the Wabash which carried the common to 31¾ and the preferred to 47¾. The latter reacted over a point, as did Reading and Amalgamated. Copper was sold down to 75. The whole market turned heavy.

Prices of prominent railroad stocks yielded to below last night and Amalgamated and Distilling did lost 2¼. North-western fell 4½; St. Louis Southwestern pfd, 1¾; Evansville & Terre Haute, 2, and Canadian Pacific. New York, Chicago & St. Louis, Distilling, Manhattan and Metropolitan a point or over. Chicago & Eastern Illinois rose 7 in all, the pfd, 2; American District, 2 and Evansville & Terre Haute pfd and Minneapolis & St. Louis pfd, 1 point each. The closing was dull and easy.

NEWS OF THE LAKES

Details of Cleveland Court's Decision In Strike Case.

Tug Trust Officers Say Strikers Must Settle Individually.

Hadley Reaches Dock After a Hard Voyage Across Bay.

Cleveland papers containing the detailed reports of the decision of the United States court in refusing to enjoin the Cleveland inspectors from proceedings with the hearing of the case against the tugmen for forming a conspiracy in restraint of trade are at hand, and the reports will be of considerable interest here. According to the Cleveland Leader the court "said that the petition was improper. The inspectors are a created judicial body, and it is contrary to precedent for one court to enjoin another from proceeding with a case, because one side fears that the court will not act as it believes it ought to act. He practically declared for the constitutionality of the law by holding that the inspectors under the right given them, when their office was created, may grant a license, and in case of misdeeds, or a proven lack of capacity to fill the post for which the license has been granted, may revoke the same.

"Judge Wing went even further and said that if the officers refused to perform their official duties to the hindrance of commerce, the latter does not only might but ought to be revoked. He said, however, that in this decision the action of the

VENEZUELA.

The Situation Is Very Unfavorable For President Castro.

Willemstad, Island of Curacao, Sunday, June 15.—(Correspondence of the Associated Press.)—The revolution in Venezuela is gaining and the government of President Castro is losing ground daily and is obliged to confess in its organs, in spite of the terror which reigns in the capital, that its army is not always victorious.

A revolutionary movement broke out during May 23 in Ciudad, Bolivar, capital of the state of Bolivar. A colonel named Farrera headed the revolt in the barracks, and after five days of fighting in the streets compelled the president of the state of Bolivar, Gen. D. Sarria, to evacuate the town and fall back on Puerto Tablas.

The revolutionary general, Riera, one of Gen. Matos' best lieutenants, whom President Castro represented as fleeing with four men, appeared last week before Coro, on the Gulf of Coro, with 100 men. In the eastern part of the republic, where the government has 5000 of its best troops, the situation is unchanged. The revolutionists dominate, without, however, having occupied the towns of Barcelona, Carupano and Cumana.

In a word, the situation is less favorable for President Castro than it was a month ago and every day becomes more unfavorable to him. Caracas is believed to be on the eve of grave troubles. It is positively affirmed that President Castro intends to offer resistance in the capital if he is beaten in the decisive battle which will probably be fought in the environs of Valencia.

President Castro has signed a decree providing for the temporary opening of the port of Ureana, on the frontier of Colombia, for the outlet of Colombian merchandise which has been stored for upwards of nine months in Cucuta. These goods belong to German and American firms and consist for the greater part of skins, estimated to number 50,000 and of coffee, said to aggregate 35,000 sacks.

Venezuela charges a heavy toll on the transit and it is therefore a clear profit for the government.

"CENTRAL" ANSWERS NOT.

Telephone Service at Des Moines Still Demoralized.

Des Moines, June 22.—The strike of the telephone operators shows no sign of settlement. A committee from the trades' assembly will confer with the managers of the two local systems this afternoon, but both sides insist there can be no compromise.

The electrical workers and linemen will go out in sympathy with when authorized by the trades' assembly. Several wires of the Bell and Independent systems have been cut by strikers' sympathizers. Despite the importation of a number of operators, the service on both lines continues to be demoralized. There are 71 girls out.

OFFICERS ENTERTAINED.

Lisbon, June 23.—The officers of the United States cruiser Albany, which has been here since June 19, have been entertained by the American officials and residents. United States Minister Loomis will present Capt. Craig of the Albany to King Charles on Wednesday.

WILL RETURN TO AFRICA.

The Hague, June 23.—C. H. Wessels and P. G. W. Groebler, who have been in the continent of Europe for some time past, in the interest of the Boers, have started for England, with the view, it is said, of taking the steps necessary to permit of their return to South Africa.

FIRE IN BROOKLYN.

New York, June 23.—A four story building in Brooklyn occupied by the American Tartar company, was burned to the ground today. The loss on building and contents was $150,000.

DIVIDEND DECLARED.

Boston, June 23.—The directors of the American Telegraph & Telephone company today declared a regular quarterly dividend of 2½ per cent and ¾ per cent extra, payable July 15.

FIREMAN MONTGOMERY DIES.

St. Paul, June 23.—A Brainerd, Minn., special to the Dispatch says: Fireman Montgomery, injured in the Northern Pacific wreck near Staples, Minn., last Friday morning, died in the railroad hospital here early today, making the seventh death from the accident.

DECISION AFFIRMED.

Chicago, June 23.—The appellate court has affirmed the decision given by Judge Stein in June, 1901, in which he dissolved the injunction restraining John Condon and others from conducting a gambling enterprise at the Harlem race track.

NOMINATIONS.

Washington, June 23.—The president today sent the following nominations to the senate: Marshals—Edward Knott, northern district of Iowa; George M. Christian, southern district of Iowa. United States attorney—Lewis Miles, southern district of Iowa. Surveyor of customs—George H. Ludde, Burlington, Iowa. Postmasters: Iowa—Lew I. Sturgis, Oelwein; Frank M. Hoeye, Perry. South Dakota—Dalton A. Brosius, Vermillion.

Dance at Oatka this evening—Lisbon Orchestra.

ARE WARNED.

North Shore Boats Are Directed to Keep Shy of Split Rock.

The health office has advised the White Line Transportation company and the Booth company not to take on passengers or freight at Split Rock, a little port about forty miles up the north shore.

Smallpox has broken out to an alarming extent in this place, and while the health authorities have not positively declared that the north shore passenger and freight boats shall not do business with this port, the warning given the owners gives them to understand that their vessels are likely to be quarantined before coming into this port.

One case of smallpox was brought in from Split Rock last week by boat, and the authorities fed that with the cooperation of the vessel owners for a week or so they can remove the danger to Duluth.

Electricians Meet.

The Minnesota branch of the Electrical Contracting Engineers' association met today at the club rooms in the Manhattan building. The business was conducted behind closed doors, and at the conclusion the delegates were taken for a tally-ho drive around the boulevard, and will visit the circus in a body tonight.

Freimuths Win.

The Freimuth baseball team opened the season yesterday with a clean cut victory over the Hub team. Only three scratch hits were made of Butler. The game was replete with fast plays. The score by innings:

Freimuths .....4 4 0 2 0 3 1 0 0—14
Hubs .....0 0 0 0 1 2 0 0—4

Pitchers—Butler and Mauler and Coffin.

CANAL BILL.

The First Conference On the Measure Is Held.

Washington, June 23.—The opening conference on the isthmian canal bill, at 2:30 today, led to active commen on the outcome of this important measure. Representative Hepburn, the ranking house conferee, notified his associates to be ready for the meeting, but no exact plans were discussed. There is no doubt that the house conferees will at the outset make strong insistance on the Nicaragua route, as provided by the house bill. Messrs. Hepburn and Davey are earnestly in favor of the Nicaragua route, and they undoubtedly will stand by the house bill as long as their is any possibility of its selection.

On the other hand, Mr. Fletcher, of Minnesota, considers the Panama route better than the Nicaragua, although he thinks fuller investigation might have shown the Darien route better than either of the others. However, as the present legislative issue appears to be confined to a choice between Nicaragua and Panama, Mr. Fletcher probably will use his influence for the latter.

The length of the contest will depend, therefore, on the duration of the insistence of Messrs. Hepburn and Davey for the Nicaragua route and the attitude of the house in supporting such an insistence.

FIREMAN SUICIDES.

Omaha, June 23.—John H. Hartman, a city fireman at No. 1 engine house, sent in his resignation to the fire chief and said good-bye to his mates, then stepping to the rear of the building, he put a bullet through his head, dying an hour later. Disappointment in love is given as the reason for the act.

BANKRUPTCY BILL GOES OVER.

Washington, June 23.—The bill for the amendment of the bankruptcy law which has passed the house of representatives and is now before the senate committee on the judiciary will not receive further consideration during the present session. A decision to this effect was reached today.

CICELY WINS CUP.

Island of Heligoland, Germany, June 23.—The English schooner yacht Cicely, owned by Cecil Quentin, which left Dover at noon June 21, in the race to this port, arrived here at 6:40 this evening and won the emperor's cup. Vol Au Vent, the second yacht to reach here, arrived at 7:09.

Homeseekers' Rates.

To Pacific coast and points on Southern Pacific in Oregon, Tuesday, July 1 and 15, and every first and third Tuesday thereafter during August, September and October, the Northern Pacific railway will sell home-seekers' tickets to all points on Pacific coast and Southern Pacific railway in Oregon at one fare plus $2. For tickets and full information call at city office, 332 West Superior street, or Union depot.

ACTIVITY IN HOUSE

Meets Early and Passes Number of Minor Bills.

Then Resume Everlasting Discussion on Philippines Bill.

Senate Insists on Further Conference on Naval Bill.

Washington, June 23.—The house met at 11 o'clock today. Some routine business preceded the resumption of the debate upon the Philippine civil government bill. Bills were passed to outhorize the construction of a dam across Rainy river, Minn., by the Koochiching company; to make Great Falls, Mont., the port of entry for the collection district comprising Montana and Idaho; to authorize the secretary of war to issue duplicates of certificates of discharge instead of certified copies, as provided under the present law; to extend the privileges of the transportation of the transportation of dutiable merchandise without appraisement to the sub-ports of Tacoma and Seattle, Wash.; to authorize the secretary of the tresury to bestow medals upon First Lieut. David S. Garvis, Second Lieut. E. B. Berthoff and Surgeon S. C. Call of the revenue cutter service.

A resolution was adopted calling on the secretary of war for information as to any payments made by Governor General Wood to F. B. Thurber and any other persons or corporations, together with the dates and amounts of such payments for advocating reciprocity with Cuba.

The consideration of the Philippine civil government bill then was resumed and Mr. Dearmond (Mo.) made a general speech in opposition to the policy of retaining the islands.

He repudiated utterly the charge that the opposition to the present Philippine policy in criticising some of the acts of army officers in the Philippines was slundering and assailing the army.

Recalling Mr. Kahn's statement last week, that in giving up a slice of Northwestern territory upon the occasion of the Oregon boundary line dispute we had made a mistake which should not be repeated now, Mr. Dearmond agreed that the surrender of the territory north of Washington on the Pacific had been a mistake, but he pointed out that that territory was contiguous to our border and was capable of furnishing homes for our own citizens and eventually coming into the Union as a state, while the Philippine islands, already densely populated by an alien people, could never be incorporated into the Union.

Mr. Grosvenor (Ohio) then took the floor, and under the latitude allowed in general debate, discussed at some length the criticism of the rules of the house recently indulged in by Mr. Cushman (Wash.) and others.

IN THE SENATE.

Washington, June 23.—When the senate convened today a partial report on the naval appropriation bill was presented and agreed to. The senate insisted upon the amendments still in disagreement, and asked for a further conference. The conferees appointed were Messrs. Hale (Me.), Perkins (Cal.) and Tillman (S. C.).

Bills were passed as follows: To change the terms of the United States district court for the Eastern district of Pennsylvania; amending an act creating the middle district of Pennsylvania so as to provide that the records of the court shall be kept at Scranton.

A joint resolution was adopted authorizing the secretary of war to receive Arturo R. Calvo, of Costa Rica, at the West Point military academy for instruction.

The army appropriation bill was laid before the senate, and Mr. Proctor (Vt.) moved to recede from amendment No. 14, relating to the construction of barracks at permanent military posts.

After some discussion, the motion was agreed to. Mr. Allison called attention to the fact that the house had not agreed to the full and free conference asked for by the senate, the effect of the action of the house being merely to amend only about two amendments of the senate. He said by the motion of carnive, made by Mr. Proctor, the senate would not be committed. He thought the senate ought to recede from amendment No. 14 increasing the appropriation for barracks and quarters by $1,000,000. Mr. Proctor moved that the senate insit on the other amendments. After some discussion the motion was agreed to, amended so as to insist upon the senate amendments, including No. 14, the senate conferees being Messrs. Proctor (Vt.), Foraker (O.) and Cockrell (Mo.)

A bill was passed for the classification of salaries of clerks employed in post-offices for the first and second class.

Mr. Quay (Penn.) then formally entered his motion to discharge the committee on territories from further consideration of the bill to admit as states the territories of Oklahoma, New Mexico and Arizona. He made an argument in support of the motion, urging that in arguing it he had no motive to embarrass the committee on territories. He cited several instances in which the senate had acted upon similar motions.

At 2 o'clock the unfinished business—a house bill to ratify an agreement with the Choctaw tribes of Indians—was laid before the senate.

MANY WORKING.

Large Number of Men In Pocahontas Fields.

Roanoke, Va., June 23.—The Norfolk & Western railroad officials say that the number of men at work in the Pocahontas coal fields today exceeds their expectations and that today's output will equal that of Saturday which was 400 cars.

The Tug River field is still closed down, only about one car of coal per day being mined there. The notice signed "United Mine Workers of America" has been freely and conspicuously posted at all of the operations throughout the fields:

"Take notice, you are hereby notified to cease work on and after Saturday, June 21, or abide by the penalty."

DEATH LIST.

Chicago, June 23.—Judge Mark Bangs, who in the 60's was one of the best known Republican politicians in the state and had a national reputation, died here today, aged 80 years.

New York, June 23.—Charles T. Child, technical editor of the Electrical Review of New York, died today at Gleasondale, Mass., of typhoid fever.

Scald head is an eczema of the scalp—very severe sometimes, but it can be cured. Doan's Ointment, quick and permanent in its results. At any drug store, 50 cents.

ON FRIDAY.

Murderer Charles Henderson Will Have His Hearing Then.

Charles Henderson, murderer of Ida McCormack, will have his preliminary examination in police court Friday morning.

He was arraigned this morning and was greatly disappointed when the court failed to ask him whether or not he was guilty.

"Say, judge, didn't you forget something," said the negro as the day for the examination was being set.

"No, I have not forgotten anything," replied Judge Edson.

"Why, judge, you didn't ask me if I was guilty or not?" replied the prisoner with an injured expression.

"Your crime is of such a serious nature that you are not entitled to enter a plea in this court."

"Well, I got lots to say when the proper time comes, then," and the prisoner was taken from the room.

The coroner's jury this afternoon decided that Ida McCormack was deliberately murdered by Henderson. The inquest was held at Durkan & Crawford's undertaking rooms shortly after 2 o'clock.

This morning Coroner Boyer and Assistant County Attorney Crosby visited the scene of the tragedy, 119 West First street.

It was discovered that the dead woman had her life insured for $175. It was also discovered that she was somewhat sentimental. On a small piece of notepaper in the room she had written: "Love is humble, resigned and ready for sacrifice," while near it was a note to her lover telling him how safe it was for him to visit her, as he could get out one door if her husband came in another.

A colored woman living in the same building said that the dead woman was not married to Henderson, but was the wife of Ben McCormack, of 718 East Eighth street, Kansas City, Mo.

The insurance policy has a marginal stamp on it, saying that while the policy was taken out in the name, Ida McCormack, the name had been changed to Henderson by a subsequent marriage.

In an envelope, marked "very personal," was found the marriage certificate of Ida Perry and Ben McCormack, but there was nothing in record form to show the marriage to Henderson.

The murdered woman is 3 4years of age. She has evidently worked in every large hotel in Chicago, and has very taking manners, judging from the collection of silver found in her trunk.

At the inquest this afternoon there was only one change in the accounts of the original story of the murder. It seems that Henderson did not stab the woman the last time when she was down, in the hallway, but in the front room of Jones' apartments, while they were circling around chairs and tables. Mrs. Jones testified that the murderer left the room ahead of the McCormack woman, and that she followed him out into the hallway, falling to the floor after he ran down the stairway.

A WILD ONE.

Police Have to Chain Colored Prisoner to a Cell.

Chained to a cell in the city jail today is a large negro who acts more like a caged tiger than a human being.

This morning he got a well dressed young man down in the railroad yards between Fourth and Fifth avenues west, evidently for the purpose of robbery.

Officer Herman Fritz saw them acting strangely and took the negro in custody after something of a fight.

At the jail the colored man became raving. He threatened to kill Officer Fritz, but not finding him among the headquarters' force he tried to carry out his intention with any person that ventured near him.

He was a powerful man and for fear that he would do injury to some of the other prisoners he was overpowered and locked in a cell. In there he acted like some angry caged animal and the police decided that the best remedy for his trouble was something more strenuous.

The big fellow was then hand-cuffed and the cuffs chained to the cell grating. With this treatment he calmed down somewhat and talked more rationally.

He said that he was a musician and made a living by following up the Ringling circus, though he had no connection whatever with that attraction. He said he simply took the young man down in the railroad yards in order to get him away from evil companions and apologized for trying to kill every person that came within reach after his arrest.

The police, however, have an entirely different story. There was a well dressed Scandinavian stranger on the Bowery early this morning. He could not speak a word of English. Later he was seen heading toward the railroad yard with the big negro and a Frenchman. In the yard the negro pulled off his coat and motioned to the Scandinavian to lay down on it, telling the Frenchman to get out of the way or he would murder him. This man lost no time in heeding the negro's request.

Officer Fritz probably saved the stranger's money, if not his life, but during the struggle between the officer and the negro, the Scandinavian walked away and has not since been found. The colored man says his name is Percy Kersand.

* * *

Sidewalk scorching again received a discouraging poke last night when William Wilson and P. Markell were taken in custody. Both were released on promise to refrain from riding on the sidewalks in the future.

* * *

Samuel Walcovisk, a small Garfield avenue boy, was arrested today by Detective Baker, of the Northern Pacific road, for jumping trains. He was put in the care of Probation Officer Withrow just in time to go to the circus free.

* * *

Edward J. Van was arrested this afternoon on complaint of his wife, Nettie Van, who charges him with assault.

Because youthful George Capels visited a Bowery saloon and because he failed to keep the requirements of his parole, he will return to the Red Wing industrial school, from which he was released about a year ago.

Jens Knudsen, of Grantsburg, Minn., went out to the circus grounds yesterday to see the circus tents and outfit. During the afternoon he became acquainted with a crowd of strangers and purchased a keg of beer. Later two of them strangers induced him to go behind a pile of cordwood where they knocked him down with the intention of robbery, but failed to secure anything.

SENATORS' ELECTION

By the People Is Opposed By Senator Lodge.

Such a Condition Would Hopelessly Weaken the States.

An Abstract of Lodge's Address at Yale Graduation.

New Haven, June 23.—The commencement exercises of Yale university were begun today with the class day ceremonies of the academic and Sheffield scientific departments and the anniversary exercises of the law school. Beautiful weather prevailed and all the exercises were attended by large crowds.

Senator Henry Cabot Lodge, of Massachusetts, delivered an address to the graduating class of the law school.

After sketching briefly the early career and training of Oliver Ellsworth and his selection as a delegate from Connecticut to the Philadelphia convention of 17—, Senator Lodge referred to the problems which faced the convention and continued:

Now exactly what was it that Ellsworth did? He won his victory for equality of state representation in one branch of congress but did far more even than this for he saved the constitution itself and made it possible. Just now there is a movement on foot to bring about the election of senators by direct popular vote. If successful it will inevitably be followed by proportional representation in the senate and the most radical revolution conceivable will take place in our form of government. We alone among the nations possessing representative governments, have solved the problem of an upper house resting upon an independent basis and effective in legislation. If the senate is placed upon the same basis as the house and is chosen in the same way by the same constituents its character and meaning depart, the states will be hopelessly weakened, the balance of the constitution will be destroyed, centralization will advance with giant strides, and we shall enter upon a period of constitutional revolution of which the end cannot be foretold. When we contemplate what the equality of the state senate meant at the time of the Philadelphia convention, what it has meant throughout our national life and what its overthrow would mean today, we realize the great service of Ellsworth and how large and enduring a place he holds in our history.

In speaking of a charge made by one of Ellsworth's contemporaries in the senate, William Maclay, of Pennsylvania, that Ellsworth was a tool of Alexander Hamilton whom Maclay regarded as totally corrupt, Senator Lodge exclaimed: "How false it all is; what a lesson, too, is here if we will but take the trouble to learn. I never remember the time when I have not heard the senate of the moment described as at its lowest point, as having fallen far from the high level of the earlier and better days. Then I read Maclay and take heart for if he is right and the senate and government were as he described and if the bitter criticism of the moment are also right and we are worse even than in earlier and better days, then indeed has the impossible come to pass for the republic still survives greater and more powerful, more honored at home and abroad than ever before. Then I feel sure that the critics of this kind, past and present, must be wrong, for if they were not, the republic would have died. The Maclays like the poor, are always with us, sole proprietors of righteousness, undisturbed by any outcry against their self imposed monopoly."

THROWN OUT.

Mayor of Zanesville, O., Ejected From Court Room.

Zanesville, Ohio, June 23.—Mayor James L. Holden was forcibly ejected from the court of Police Judge Reed here today. The mayor asked that an affidavit against a woman charged with intoxication be withdrawn and when the judge refused he insisted that he had the right to withdraw it. The judge ordered Chief of Police Tracey to eject Mayor Holden from the court room. The mayor desisted and Tracy's brothers and others went to the chief's assistance. During the melee the mayor struck the chief on the jaw and the latter landed on the mayor's head with a club. After the mayor had been put out he invited the chief to step out, too, but that official declined.

EXECUTIVE BOARD

Of Illinois Mine Workers Meets at Springfield.

Springfield, Ill., June 23.—The executive board of United Mine Workers of America, Illinois district, convened today in the office of the state secretary, W. D. Ryan. While Mr. Ryan refused to give out any information regarding the proceedings or matters under discussion and declined to state whether they were considering the question of a strike in sympathy with the striking anthracite miners of Pennsylvania and the bituminous miners of West Virginia, it is believed that they are considering the question of organizing the Illinois delegates to the national conference with a view of opposing a sympathetic strike.

FUNERAL OF MRS RIDGLEY.

Springfield, Ill., June 23.—The remains of Mrs. Ella Cullom Ridgley, wife of the controller of the treasury, William Barret Ridgley, arrived in this city this morning from Washington and were taken to the family residence, 705 South Second street. The remains were accompanied by Mr. Ridgley and children, Senator and Mrs. Shelby M. Cullom, Mrs. Ridgley's rather and stepmother, and a few friends of the family. The funeral took place from the First Presbyterian church this afternoon and the church was filled to overflowing. The interment was in Oak Ridge cemetery.

Piles always yield to DeWitt's Witch Hazel Salve. Cures skin diseases, all kinds of wounds. Accept no counterfeits. Max Wirth.

ONE MAY DIE.

Dallas, Tex., June 23.—No deaths have resulted from the collapse of the hotel building. All the injured are doing well, with the exception of John Rose, a tailor, who may die.

Wisconsin Central Trains

Reach Chicago, Milwaukee and all principal points in Wisconsin and make connections at Chicago with all trains for Eastern and Southern points. Travelers from the head of the lakes will find comfort and satisfaction in this popular route. Detailed information may be had by consulting with M. J. Bryan, general agent, 430 West Superior street, Duluth.

Detroit and Return $13.50.

The annual spring excursions to Detroit via Duluth, South Shore & Atlantic Ry. and Detroit & Cleveland Navigation Company, will leave Duluth 6:45 p. m., June 27th, fare for the round trip $13.50. Return limit, July 18th.

Special sleepers between Duluth and St. Ignace, where direct connection will be made with the steamer City of Alpena, due to arrive Detroit 3:00 p. m., June 29th.

Tickets will be on sale and good only on excursion train leaving Duluth June 27th.

Reserve your sleeping car and stateroom accommodation early.

City Ticket Office, 426 Spalding Hotel Block.

TOO LATE TO CLASSIFY.

A ROUGH, RED, DRY, TENDER chafed skin made fair and lovely by Satin-Skin Cream, and Powder. 25c.

KNOW ALL MEN BY THESE PRESENTS, that we the undersigned for the purpose of forming a corporation and becoming incorporated under the provisions of title two (2) of Chapter thirty-four (34) of the General Statutes of Minnesota, 1894, and acts amendatory thereof and supplementary thereto providing for the incorporation of manufacturing corporations, do hereby associate ourselves together, and organize by adopting, signing and sealing the following articles of incorporation:

ARTICLE I.

The name of this corporation shall be "Duluth Cigar Box Company," and the principal place of transacting its business shall be at the city of Duluth, in the state of Minnesota, and the general nature of its business shall be "The manufacture of wood and paper boxes and labels for boxes and packages, for the boxing of cigars, drugs, and other merchandise, and the sale of the same together with such other business as may be necessary and incidental to such manufacture and sale.

ARTICLE II.

The time of the commencement of this corporation shall be the 1st day of July, in the year of our Lord, 1902, and the period of its continuance shall be thirty (30) years.

ARTICLE III.

The amount of the capital stock of said corporation shall be ten thousand dollars ($10,000.00) and it shall be paid in from time to time as the board of directors shall determine.

ARTICLE IV.

The highest amount of indebtedness or liability to which said corporation shall at any time be subject shall not exceed two thousand ($2000.00) dollars.

ARTICLE V.

The names and places of residence of the persons forming this corporation are as follows: C. E. Judd, Duluth, Minn.; F. G. Stevens, Duluth, Minn.; C. H. Thornton, Duluth, Minn.

ARTICLE VI.

The government of said corporation and the management of its affairs shall be vested in the following officers, to-wit: A board of three directors, who shall be stockholders of the corporation, and a president, vice president, secretary and treasurer. The board of directors shall be chosen annually by the stockholders at such time and place as shall be provided by the by-laws and if no such time or place is specified therein then at the annual meeting of stockholders herein provided for and the said board of directors shall at their first meeting after their election annually and within ten days after such election elect a president, vice president, secretary and treasurer. The directors and officers shall hold their respective offices for the term of one year and until others shall be chosen in their stead. The board of directors until the first meeting of the stockholders shall be C. E. Judd, C. H. Thornton and F. G. Stevens. The officers of said corporation until their successors are chosen shall be C. E. Judd, president; C. H. Thornton, vice president, and F. G. Stevens, secretary and treasurer. The annual meeting of the stockholders of said corporation shall be held at the office of the company at Duluth, Minnesota, on the first Monday of July annually in each year unless otherwise provided by the by-laws, and other meetings of the stockholders and directors may be held at such times and place as may be provided for in the by-laws.

ARTICLE VII.

The capital stock of this corporation shall be divided into one hundred shares of ... par value of one hundred dollars ($100.00) each.

In testimony whereof, we have hereunto set our respective hands and seals this 4th day of June, A. D. 1902.

Notice to Contractors.

Sealed proposals addressed to the Village Council of Grand Rapids, Minnesota, and endorsed, "Proposals for an Electric Light Plant," will be received by the Village Recorder of the said Village of Grand Rapids until 8 o'clock p. m. of Monday, the 7th day of July, 1902, for the construction of an electric light plant for the Village of Grand Rapids, according to the specifications and plans now on file.

Bonds of the village for the sum of $25,000 have been issued and sold by it, at par, for the purpose of raising funds sufficient to purchase, build, establish and control all necessary buildings, machinery, apparatus and material for making, generating and supplying light for public and private use in said village.

Proposals will be received on the following work:

First—The building.
Second—The machinery.
Third—The electric lines.

Bidders may make in addition a proposal for the entire work.

Proposals will be publicly opened and read at a meeting of the Village Council on the evening of July 7th, 1902. The proposal or proposals which are deemed for the best interest of the village will be accepted.

The right is reserved to reject any or all proposals, and to change any item or items in the specifications.

Blank forms of proposals, instructions to bidders and specifications may be obtained and plans may be seen and examined at the office of the Village Recorder of Grand Rapids, Minnesota, and at the office of Edward P. Burch, Consulting Engineer, 1210-1212 Guaranty building, Minneapolis, Minn. All information will be given on application.

D. M. GUNN,
President.
FRED A. KING,
Recorder.

MORTGAGE FORECLOSURE SALE.—Default having been made in the payment of the sum of ten hundred eighty-eight and 96-100 dollars ($1088.96), which sum is claimed to be due and is due at the date of this notice upon a certain real estate mortgage, duly made and executed and delivered by Augusta Berg and Peter Berg, her husband, of Floodwood, St. Louis County, Minnesota, mortgagors, and John P. Olson, mortgagee, bearing date the fifth day of April, 1901, and with power of sale therein contained, duly recorded in the office of the register of deeds in and for St. Louis County and state of Minnesota, on the 25th day of May, A. D. 1901, at eleven o'clock a. m., in Book ... of mortgages, on page 263. Such default consisting in the non-payment of the principal sum thereby secured, with interest thereon from the 5th day of April, A. D. 1901.

And whereas, said mortgage contains a power of sale in due form which has become operative by reason of the default above mentioned; and no action or proceeding at law or otherwise, has been instituted to recover the debt secured by said mortgage or any part thereof.

Now, therefore, notice is hereby given, that by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of said premises described in and conveyed by said mortgage, viz:

All that part of lots six and seven (6 and 7), block twenty-one (21), Floodwood, described as follows: Commencing at the northeast corner of lot six (6), thence east seventy-one feet seven inches (71 ft. 7in.), thence southwest forty-two feet seven inches (42 ft. 7 in.), thence northwest fifty-three feet seven inches (53 ft. 7 in.), to the place of beginning, containing ten hundred sixty square feet (1060).

Also lot eight (8), block twenty-one (21), village of Floodwood, according to the recorded plat of said village of Floodwood, on file with the register of deeds in and for St. Louis County, state of Minnesota.

All of said property being located in the county of St. Louis, state of Minnesota, with the hereditaments and appurtenances; which said sale will be made by the sheriff of said St. Louis County, at the front door of the court house, in the city of Duluth, in said county and state, on the 29th day of July, A. D. 1902, at 10 o'clock a. m. of that day, at public vendue to the highest bidder for cash, to pay said debt of ten hundred eighty-eight and 96-100 dollars and interest and taxes, if any, on said premises and fifty dollars attorney's fees as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from date of sale, as provided by law.

Dated June 14th, 1902.

J. P. OLSON,
Mortgagee.

WALTER L. CASE,
Attorney for Mortgagee.
Duluth Evening Herald, June-16-23-30-July-7-14-21-1902.

STATE OF MINNESOTA, COUNTY OF St. Louis.—ss.
District Court, Eleventh Judicial District.
Frank S. Colvin and James A. Robb, Plaintiffs,
vs.
Wilho Tikander, Anna Tikander, United States Savings & Loan Company, C. S. Wilson, trustee, and Hansen E. Smith, Defendants.

Notice is hereby given, that, under and by virtue of a judgment and decree entered in the above entitled action on the 18th day of June, 1902, a certified transcript of which has been delivered to me, I, the undersigned, sheriff of said St. Louis County, will sell at public auction, to the highest bidder, for cash, on Tuesday,—the fifth day of August, 1902, at 10 o'clock in the forenoon at the front door of the court house, in the city of Duluth, in said county, in one parcel, the premises and real estate described in said judgment and decree, to-wit: All that tract or parcel of land lying and being in the county of St. Louis and state of Minnesota, described as follows, to-wit:

Lot six (6), in block thirty-five (35), town of Biwabik, according to the plat thereof of record in the office of the register of deeds of said St. Louis County, and all the right, title and interest of the defendants Wilho Tikander and Anna Tikander, his wife, as such right, title and interest existed on the 2nd day of September, 1901, or has been enlarged or completed thereafter. Such sale will be made subject to the mortgage executed by said Wilho Tikander and wife to the defendant United States Savings & Loan Company, which mortgage is recorded in the office of said register of deeds in Book 153 of mortgages, on page 44.

Dated June 21st, 1902.

MORTGAGE FORECLOSURE SALE.—Default having been made in the payment of the sum of eighteen hundred and twenty-two and 26-100 ($1822.26) dollars, which is claimed to be due and is due at the date of this notice upon a certain purchase money mortgage, duly executed and delivered by Annie Wills (who signed the same Annie L. Wills) and Albert Wills her husband, mortgagors, to Matthew B. Harrison, John A. Coke and Peyton Wise, mortgagees, bearing date the 28th day of July, 1890, and with a power of sale therein contained, duly recorded in the office of the register of deeds in and for the county of St. Louis and state of Minnesota, on the 12th day of September, 1890, at eight o'clock a. m., in Book 70 of mortgages, on page 12.

Which said mortgage, together with the debt secured thereby, was duly assigned by said John A. Coke and by Lucy Gray Harrison as executrix of the estate of Matthew B. Harrison, deceased, and as guardian of Louise H. Harrison, a minor, and by said Lucy Gray Harrison in her own right, and by Laura C. Wise as executrix of the estate of Peyton Wise, deceased, and also in her own right, (the said Lucy Gray Harrison and Louise H. Harrison being the sole heirs and devisees of Matthew B. Harrison, deceased, and the said Laura C. Wise being the sole devisee of said Peyton Wise, deceased) to St. George R. Fitzhugh and James T. Gray, by written assignment dated the first day of March, 1902, and recorded in the office of the register of deeds of said St. Louis County on the 31st day of May, 1902, at 2 o'clock p. m., in Book 188 of mortgages, on page 39.

Which said mortgage, together with the debt secured thereby, was assigned by said St. George R. Fitzhugh and James T. Gray, the assignees and holders thereof, to The Duluth Banking Company, a corporation organized under the laws of the state of Minnesota, by written assignment, dated the 19th day of May, 1902, and recorded in the office of the register of deeds of said St. Louis County, on the 31st day of May, 1902, at 2:15 o'clock p. m., in Book 188 of mortgages, on page 40.

Which said mortgage, together with the debt secured thereby, was duly assigned by said The Duluth Banking Company, the assignee and holder thereof, to Athol Morton Miller, by written assignment dated the 14th day of June, 1902, and recorded in the office of the register of deeds of said St. Louis County, on the 16th day of June, 1902, at 10 o'clock a. m., in Book 132 of mortgages, on page 319; and no action or proceeding having been instituted, at law or otherwise, to recover the debt secured by said mortgage, or any part thereof.

Now, therefore, notice is hereby given, that by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, viz: Lot nine (9), in block thirty (30), Harrison's Division of Duluth, according to the plat thereof of record in the office of the register of deeds of said St. Louis County, in St. Louis County and state of Minnesota, with the hereditaments and appurtenances; which sale will be made by the sheriff of said St. Louis County at the front door of the court house, in the city of Duluth, in said county and state, on the fifth day of August, 1902, at ten o'clock a. m., of that day, at public vendue, to the highest bidder for cash, to pay said mortgage debt and interest, and the taxes, if any, on said premises, and fifty ($50.00) dollars, attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated June 19th, A. D. 1902.

CORONATION OF THE KING POSTPONED

A SHOCK TO THE PEOPLE

Illness of the King Causes Consternation.

Ceremonies Are Indefinitely Postponed.

London, June 24.—The sudden announcement of the postponement of the coronation, just on the eve of the ceremony, caused the utmost consternation everywhere. The news spread like wildfire. The tens of thousands of occupants of the streets suddenly stood still under the sudden shock and gazed at one another in silent dread of what might come next.

On Saturday and Sunday society was discussing the reports of the king's illness, and though the circumstantiality of detail and sources from which they came precluded entire disbelief, there was a disposition to doubt the stories, and when the positive categorical denial was officially issued, they were dismissed as being unfounded. Hemorrholdes, apoplexy and lumbago were a few of the king's maladies discussed in the clubs and drawing rooms, and those discussing them recalled the stories how the king, even quite recently, reiterated his belief that he would never live to be crowned.

On the stock exchange the effect of the startling news was immediate. Prices weakened, led by consuls with a fall of half a point.

His majesty, under ordinary conditions, was not looked upon as a good subject for operations, and though the king passed successfully through the ordeal, it is believed that four or five weeks must elapse before he will be able to undergo the arduous labors of the coronation ceremonial. Therefore, no date can yet be indicated for carrying out the coronation.

Official announcements of the king's serious illness were made to public bodies as speedily as possible. Word was sent to the house of commons, and the acting lord chamberlain, Lord Churchill, personally delivered to the mansion house the official residence of the lord mayor, a message regarding his majesty's illness, and at this morning's rehearsal of the coronation ceremony in Westminster abbey the bishop of London, the Rt. Rev. Arthur F. Ingram, at the request of Lord Esher, the deputy governor of Windsor castle, made a statement as follows:

"I have to make a very sad announcement. The king is suffering from an illness which makes an operation necessary today. The coronation, therefore, is postponed."

The bishop requested the congregation to join in the litany out of the coronation service and pray for the recovery of the king.

During the afternoon the earl marshal, the duke of Norfolk, issued the following notice:

"The earl marshal has received the king's commands to express his majesty's deep sorrow that owing to his serious illness the coronation ceremony must be postponed. The celebrations in London will in consequence be likewise postponed, but it is the king's earnest hope that the celebrations in the country shall be held as already arranged."

The king also expressed to the lord mayor his desire that his majesty's dinner to the poor of London be not postponed.

Nothing has yet been decided regarding the movements of the foreign guests. The first intimation which Whitelaw Reid, the special ambassador of the United States to the coronation, had that anything was wrong was contained in a communication cancelling the state banquet, which was to be held at Buckingham palace tonight, but no mention was then made of the postponement of the ceremonies of the week. It is understood, however, that the special ambassadors and royal guests will return to their respective countries as soon as more definite news is received of the result of the operation.

Outside of Buckingham palace enormous throngs of people congregated since early morning for the purpose of witnessing the arrival of the special ambassadors who were to be received by the king and queen today.

Large numbers of foreign representatives actually arrived, but the shortness of their stay was noticed, inquiries were made and soon the news of his majesty's serious state of health was circulated among the waiting thousands.

At the various palaces and at the Grosvenor, Buckingham, Carlton, Cecil and other hotels, where the foreign representatives are staying, the news created the greatest dismay.

Royal carriages were already drawn up in readiness to take the guests to the reception at the palace, but the moment the "tickers" announced his majesty's illness all the preparations for the day ceased.

In the streets the change which came over the crowds was most pronounced. Traffic seemed momentarily paralyzed, and it was long before the full effect of the startling intelligence was felt.

Large crowds quickly gathered around the mansion house where the official notice was put up by a police inspector, who first mounted the steps and read out the bulletin, which was received with respectful silence.

The streets, as the day wore on, became more and more congested, and the holiday crowd concentrated into groups reading and rereading the "extras." Most of the people seemingly felt dazed and scarcely appreciated the full import of what they had read.

Work on the stands erected on all sides to enable people to view the coronation procession was gradually discontinued.

The lord mayor has instructed the workmen to demolish the stands in front of the mansion house.

In Piccadilly, along nearly the whole length of which workmen were completing the decorations, the roadway was blocked with sightseers, newsboys were yelling the announcement of the postponement of the coronation, but the workmen in that part of London stolidly continued to finish the work which they will only have to take down tomorrow.

At about 1 o'clock in the afternoon three copies of the signed medical bulletin were posted on different parts of the railings surrounding the front of Buckingham palace. The crowd, which had been so numerous during the earlier part of the day, had by that time dwindled to a few hundred, but the constantly increasing number of fashionable occupants of passing carriages descended to read the bulletins.

In the course of the early afternoon the bulletin from Buckingham palace announcing that the operation had been successful, that a large abcess had been evacuated, and that the king's condition was satisfactory, was issued and posted at the various points where people congregated. Shortly afterwards a court official informed a representative of the Associated Press that his majesty was recovering satisfactorily from the effects of an aesthetic. The king treated the idea of the operation very lightly, his great concern being for the disappointment of the people.

"This, however," added the official, "was entirely unavoidable, as up to the last moment the medical attendants confidently hoped the patient would be able to go through at all events the more important of the coronation ceremonies."

It is understood that the operation was performed by Sir Frederick Treves, who correctly diagnosed the complaint and is a specialist in abdominal operations.

Many of the foreign representatives called at Buckingham palace this afternoon to make inquiries about the king's condition.

Mr. Reid, accompanied by Lieut. Col. Sir Fleetwood Edwards, the extra equerry of his majesty, who is in special attendance on Mr. Reid, left their cards at the palace.

The prince of Wales had been at the palace all day long, and the duke of Connaught has been there most of the time today..

OPERATE ON EDWARD

Surgeons Act Promptly on the King Who Is Suffering From Perityphilitis.

Operation Was Successful and His Majesty's Condition Is Satisfactory.

LONDON, JUNE 24., 12:30 p. m.—The Coronation has been indefinitely postponed because of the illness of King Edward. It is officially announced that the king is suffering from perityphlitis and will undergo an operation at 2 p. m. today.

London, June 24.—12:46 p. m.—Sir Francis Knolly, the king's private secretary, has issued the official medical announcement, as follows:

"The king is suffering from perityphlitis. His condition on Saturday was so satisfactory that it was hoped that with care his majesty would be able to go through the coronation ceremony. On Monday evening, a recrudeseence became manifest, rendering a surgical operation necessary today."

The bulletin is signed by Doctors Lister, Thomas Smith, Laking, Thomas Barlow and T. Reeves. Lister is Sir Joseph Lister, sergeant surgeon in ordinary to King Edward, famous for the discovery of antiseptic treatment in surgery. Thomas Smith is Sir Thomas Smith, sergeant surgeon to the king and late vice president of the royal college of surgeons. Laking is Sir Francis Henry Laking, physician in ordinary and surgeon apothecary to the king. Thomas Barlow is Sir Thomas Barlow, physican to his majesty's household and professor of clinical medicine and physician to the University college hospital. T. Reeves is Sir Frederick Reeves, sergeant surgeon to the king, and was surgeon extraordinary to the late Queen Victoria.

London, June 24.—2:05 p. m.—The operation on the king was successfully performed at 2 o'clock. The king is now asleep.

London, June 24.—2:46 p. m.—The following bulletin has been posted at Buckingham palace:

"The operation has been successfully performed. A large abscess has been evacuated. The king has borne the operation well and is in a satisfactory condition."

London, June 24.—3:40 p. m.—At 3:40 p. m. the king was progressing very satisfactorily.

New York, June 24.—Dr. Cyrus Edson explained the king's illness and the operation as follows:

"Perityphilitis is inflammation, including the formation of an abscess of the tissues around the veriform appendix and hence perityphlitis is hard to distinguish at once from appendicitis. Usually an operation is necessary to ascertain whether the appendix or the surrounding tissue is diseased In the king's case there is probably an abscess at the head of the large intestine where the appendix begins and the operation today was an immediate necessity because the abscess had to be got at and emptied of its contents, or pus. Of course I cannot say what further than the abscess was found by the surgeons—that is, to what extent the inflammation had affected that part of the king's body. Under ordinary circumstances he ought to recover in three or four weeks, but after recovery it would perhaps be four weeks more before he would be able to perform his part in the coronation ceremony. The king's trouble is in his right side, low down."

CONDITION CRITICAL

Grave Anxiety Felt For Life of King Edward.

His Age and Mode of Living Against Him.

London, June 24, 5:10 p. m.—Sir F. Knollys informed a representative of the Associated Press at 4:30 p. m. that there had been practically no change since the operation. "His majesty," he said, "continues to sleep well and is progressing satisfactorily." There is no question, however, that the king's condition is extremely critical.

London, June 24.—The following bulletin, signed by the physicians, was posted at Buckingham palace at 6 o'clock this evening:

"His majesty continues to make satisfactory progress, and has been much relieved by the operation."

London, June 24, 5:02 p. m.—In conversation with a representative of the Associated Press this afternoon a high government official said there was undoubtedly very grave cause for anxiety. His latest information from the palace was that the king has successfully passed the chloroforming stage, but nobody could say definitely for the next twenty-four hours how matters would turn.

Stripped of medical phrases, the king was suffering from appendicitis, and the operation was entirely successful. The king's condition up to the present is satisfactory, but all depends upon the next fifteen hours. Of course, his age and mode of life are against him. Since morning the old stories that he is suffering from cancer of the throat have been revived, but they are authoritatively denied.

As the day wore on the rumors increased in gravity until a report was circulated on the exchange that the king was actually dead.

The postponement of the coronation festivities applies to the naval review as well as to all other functions. Notice to this effect will be sent to the special ambassadors by the foreign office tonight. The ambassadors will probably all depart within a day or two.

The members of the American special embassy, while officially the guests of the king, have established a house of their own and do not place much burden or responsibility on anyone. They will probably make no haste to leave.

Lady Lansdowne's reception and the other semi-official entertainments of the sort have been cancelled.

Another probability already discussed in official circles is a "service of intercession" at Westminster abbey to pray for the king's recovery, unless the worst should occur within twenty-four to forty-eight hours.

The work of demolishing the stands and all the paraphernalia prepared for the coronation pageant was in full swing during the latter part of the afternoon. Hundreds of workmen who this morning were engaged in putting finishing touches upon the various jobs were at work tearing down all that has taken weeks to accomplish. The barriers in the streets were being removed, the barricades merchants had constructed to safeguard their shop windows were rapidly disappearing, vans filled with garlands and multi-colored bunting stripped from masts and house fronts lined the streets, and London promised soon to resume its usual color.

The loss to insurance companies will be heavy, as great numbers of commercial companies and private individuals had taken out policies to cover them from the loss of the receipts from stands and the cost of decorations in the event of the coronation ceremonies not occurring.

Where speculators and householders did not take such precautions, the loss will, in many cases, mean an approach to bankruptcy. Late in the afternoon the news from the provinces and abroad commenced to arrive. They all evidenced the profound concern occasioned by the news of the king's condition.

In hastily-summoned meetings of public bodies of London and throughout the United Kingdom resolutions have been passed expressing the most profound grief coupled with expressions of hope that it may please the Almighty to speedily restore the king to health.

The acute anxiety which has naturally seized the United Kingdom has quite overshadowed all traces of disappointment at the postponement of the coronation.

London, June 24.—The house of commons was crowded today by members and others who were anxious to hear the expected statement of the government leader, A. J. Balfour, on the king's illness. After reading the early bulletins, referring to his majesty's illness, Mr. Balfour said he had intense gratification in saying that a successful operation had been performed on the king and that his majesty was progressing as well as possible.

"That announcement," proceeded Mr. Balfour, "removes a great load from our minds. My first inclination on hearing the melancholy news this morning, was to suggest that the house mark its sense of the disaster which has befallen the whole community by adjourning. But on more careful reflection, I have come to the conclusion that such a course is ill advised. The anxiety we all feel must be great and that anxiety is necessarily augmented by the circumstances under which the disaster has befallen the royal family and the whole country. I have come to the conclusion that if the house was to take the exceptional course to which I have adverted, that which is now anxiety in the public mind might become a panic and a wholly exaggerated idea of the present state of things might go abroad.

"The status of things is undoubtedly grace, but we ought not to use stronger epithets in regard to it than those I have used and I am convinced that if we were to consider the king's condition to be such that it would be improper to carry on the business of the country, we should produce an wholly false impression. In these circumstances we do not propose to suggest any exceptional course, and I am only thankful to have been able to inform the house that so far as we know at present everything is going on as well as possibly can be expected."

The Liberal leader, Sir Henry Campbell-Bannerman, expressed his entire approval of the course taken by Mr. Balfour, and the house resumed its ordinary business.

KILLED THIRTY-ONE

Nurse Jane Toppan Confesses That She Has Murdered Thirty-One Patients.

Boston, June 24.—Suspected of the death of eleven persons, but indicted for murdering only three, Miss Jane Toppan, who was yesterday declared insane, has confessed that she has killed during her career as a professional nurse no less than thirty-one human beings. This statement was made to Judge Fred M. Bixby, of Brockton, senior counsel at the trial at Barnstable yesterday when Miss Toppan was found not guilty by reason of insanity on the charge of murdering Mrs. Mary D. Gibbs. Judge Bixby said also that Miss Toppan had admitted that she had set fires and committed other serious crimes. She argued, moreover, that she was not insane. She said she knew she was doing wrong when she administered poison to her victims and she asked Judge Bixby how, under such circumstances, she could be of unsound mind.

Morphine was Miss Toppan's agency for producing death. Many of her victims were unsuspecting and most intimate friends; others were the patients of reputable physicians who employed her on account of her ability as a nurse. Miss Toppan was so expert in her knowledge of how to employ drugs that she was able to escape detection for years. In the detailed story as told to Judge Bixby, Miss Toppan did not enumerate her numerous victims, although she did admit the killing of Mrs. Gibbs, Mrs. Harry Gordon, of Chicago, and Alden P. Davis, all of whom died at Sataumet last summer. Miss Toppan was indicted last December for these three murders, the state electing to try her on the Gibbs count yesterday. Miss Toppan was taken to the Teuton insane hospital today, to begin her life sentence.

ONE OF THE MURDERERS

Of Pretty Nora Fuller Arrested---Says He Is John Bennett and That Prominent People of San Francisco Are Involved.

San Francisco, June 24.—A special to the Examiner from Sedro, Wash., says that a man confessing to being one of Nora Fuller's murderers has surrendered to the city marshal at that place. He says he is John Bennett, for whom the police have been searching for several months. In an interview at the jail Bennett asserted that he would make a full confession, which would implicate some of the most prominent men in San Francisco. He particularly mentioned a prominent physician of San Francisco. He acknowledged that he was mixed up in the affair at first, but asserts that he was not the real murderer. He says that he has been supplied with money to assist him in evading the officers, until the last month, when the financial supplies ceased. Bennett says that Nora Fuller went with him to the Sutter street house of her own free will.

"I have her letters in my pocket," says Bennett, "showing where the real culprits have sent me money to keep out of the way, but now when they have neglected me, it gives me the excuse to end the awful fear and suspense to which I have been subjected."

The alleged Bennett answers perfectly the description of the supposed murderer.

SKIN IS VOLUNTEERED

Two Hundred Employes of Felt Company Will Give Pieces of Their Epidermis to Save Life of Fellow Employe.

New York, June 24.—Two hundred employes of the American Felt company, at Glenville, Conn., have volunteered pieces of their skin to save the life of one of their fellow employes.

The victim is Mary Affeldt, 19 years of age, a weaver. She had just arrived at her loom and stooped down over the "threads" to oil some part of the machinery, when the loom started. She raised her head and, in an instant, the hair at the temples caught in the gear. Before anyone could reach her she was lying on the floor covered with blood. The hair on her head had been pulled off, taking the scalp with it and part of her ear. Her condition is serious, but the doctors believe she can be saved by skin grafting and the weavers have all volunteered to furnish what is needed..

ONCE MORE.

National League Will Try to Secure Its Players.

Cleveland, June 24.—The Philadelphia National league baseball club through its attorneys today filed suit in the United States district court here praying for a perpetual injunction against Messrs. La Jole and Bernhardt, to prevent them from playing baseball with the Cleveland American league team. It is averred that La Jole and Bernhardt entered into a contract with the Philadelphia club under the laws of Pennsylvania, covering the present season and notwithstanding the existence of such a contract the defendants are playing with the Cleveland club. The case will probably be heard by Judge Wing this afternoon.

AGAIN REMANDED.

London, June 24.—At the Bow street police court today, after the taking of brief and unimportant evidence of Col. Arthur Lynch, member of parliament-elect for Galway and formerly of the Boer army, who is charged with high treason, was again remanded, this time until July 1.

HENRY TAYLOR HANGED.

Pittsburg, June 24.—Henry Taylor, a negro who killed Edward Sewall, also colored, on Aug. 14, 1901, was hanged in the county jail yard at 10:05 today. Death resulted from strangulation in twelve minutes.

MINE OFFICIALS ARE BLAMED

Coal Creek, Tenn., June 24.—The coroner's jury which has investigated the cause of the Fraterville mine explosion of May 19, reached a verdict at a late hour last night. The jury finds that the men and boys in the mine "came to their death from an explosion in said mine, induced by gas or coal dust or both combined, and further agree that the said explosion was caused by neglect of the mine officers and state mine inspector."

MINE OPERATORS GAIN MEN

Wilkesbarre, Pa., June 24.—The Susquehanna Coal company, which is controlled by the Pennsylvania railroad, scored a partial victory today when it succeeded in getting several engineers and firemen and pump runners to return to its collieries at Nanticoke. The men held a secret meeting yesterday, and most of them decided to return. The exact number who went to work is not known at this time, as the company officials will not discuss the matter.

MERGER CASE

Will Be Heard After the Jury Trials.

St. Paul, June 24.—(Special to The Herald.)—In the United States circuit court today, Judge Amidon presiding, the action of the state of Minnesota against the Northern Securities company and James J. Hill, its president, was called, and then set aside until after all the jury cases are disposed of, when Attorney General W. B. Douglas will move that it be remanded to the district court of Ramsey county, where it originated, and attorneys for the defendants will offer a motion to vacate service. It will probably be several days before the case comes up again.

SHOULD PASS ONE IN DULUTH

Chicago, June 24.—The city council last night passed an ordinance providing that in cases of street railway breakdowns, causing a delay of ten minutes or more, the companies must issue to the passengers coupons good for a trip at any time in any direction or return the fares. The ordinance holds good in any accident which may be attributed to the company's fault, or which it may be their bad fortune to meet. If the stop is due to no fault of the companies, but is caused by something over which they have no control, they will not be held for the return of the fares or for the issuance of the coupon. Mayor Harrison probably will sign the ordinance and it will then become effective.

CALLS IT FORGERY

R. R. Briggs Declares Schweitzer Deed to Mueller Not Genuine.

Attorneys For the Plaintiff Laugh at His Statement.

Some Interesting Evidence Introduced In the Case.

"The Schweitzer deed is forged!" exclaimed R. R. Briggs, excitedly, during the progress of the Mueller case this morning, "and we will prove it."

Mr. Severance and the other attorneys for the plaintiffs laughed heartily.

"We'll show you something you cannot laugh out of court," continued Mr. Briggs, at which the other attorneys laughed again.

A. R. MacDonald was on the stand testifying to Mueller's signature on a mortgage deed, which Mr. Briggs stated was introduced as a standard of comparison in order to get at the question of whether the writing on the widow's letters was the same as that of the Duluth Johann Mueller.

"The Schweitzer deed is a standard of comparison," said Mr. Severance, whereupon Mr. Briggs remarked as stated above.

The deed purports to have been made by Mueller, conveying the property to Schweitzer, and the deed was purchased from Schweitzer by the plaintiffs for $4,500. A Superior attorney swore in the beginning of the case that he drew up the deed and saw it signed by Mueller.

Yesterday afternoon there was some testimony that proved interesting. Louis Bretz testified that he knew the Detroit Mueller, and he said that the man in the large picture of the Duluth Mueller was not the Detroit man. He said the Detroit Mueller wore long whiskers.

Charles Edmondson, of Cloquet, testified that he and Mueller were holding down adjoining claims on the Mesaba range during the summers of 1893 and 1894, and that Mueller told him a good deal about himself. He said Mueller told him that he belonged to the army in Germany, that he was a stone mason and that he lived in Detroit. On cross-examination he admitted that Mueller told him he was an Austrian and that he followed the trade of miller in the old country. He said Mueller told him about having been at the places in Switzerland that Mrs. Mueller told about.

On cross-examination the attorneys got Edmondson rather tangled up. He admitted that H. W. Merchant saw him a couple of years ago and got what he knew about the case, but that he did not tell him about Mueller's having been in the army, about his having been in Switzerland, about his having lived in Detroit and about several other circumstances that he now testifies to. He admitted that he had read all of these things in Mrs. Mueller's testimony as published in The Herald. He said he had told other people about these circumstances before he read them in the paper, but he could not recall the names of any of those he told about it.

He admitted that in the winter of 1894, in January, he was in St. Paul getting a divorce from his wife, and that he was not with Mueller that summer. Asked if he had told the truth when he said he had been with Mueller that summer, he said he guessed he did stretch it a little.

He was still on the stand under cross-examination at noon.

A Glorious Fourth.

On the Fourth of July every true patriot will celebrate the signing of the Declaration of Independence by the Colonists, and although the struggle which followed was both costly and disastrous, yet it resulted in their ultimate freedom from the yoke of English bondage. Another very important day in the life of any one, especially those suffering from a weak or disordered stomach, will be the one on which they decide to give up old methods of trying to obtain relief and commence the use of that famous twentieth century family medicine, Hostetter's Stomach Bitters. It will cure any one suffering from dyspepsia, indigestion, belching, constipation, biliousness or insomnia. Try it today and be convinced. Our Private Stamp is over the neck of the bottle.

FINE MILLINERY.

Greatest Purchase Ever Brought to the City.

The Panton & White company has just made the most gigantic millinery purchase ever consummated in Minnesota. It purchased from Frederick Michaels, one of the largest millinery importers and manufacturers in New York, 106 dozen beautiful trimmed summer hats at about 25 cents on the dollar. It is not only the largest single millinery purchase, but the values are the most extraordinary ever known west of Chicago. In order that the public may have ample time for inspecting the hats, the entire lot will be opened for inspection tomorrow, and not a hat is to be offered for sale until Thursday morning

For 95c they will sell hats worth from $2.50 to $3.25; at $1.50 will be offered hats worth from $3.50 to $6.50; and at $2.69 can be bought hats worth from $6.50 to $9.50.

LIND STAYS

Over a Day to Attend the Democratic Convention.

St. Paul, June 24.—(Special to The Herald.)—John Lind had intended to start for Alaska, but this morning it is announced that he will wait until tomorrow and go west with a party of tourists, who will look over grazing lands in Alberta, Canada.

Chairman L. A. Rosing of the Democratic state central committee had a long conference with Mr. Lind yesterday afternoon, which may have had something to do with the change in Mr. Lind's plans.

The deferring of his departure until after the convention is called to order gives Mr. Lind a chance to address the convention in person and state his case to the representatives of the people face to face.

CUT RATES.

Rail and Steamship Lines Lower Freights to Europe.

New York, June 24.—From present indications the growing grain crops will not stay on this side of the Atlantic on account of excessive transportation charges, says the Journal of Commerce. Rates are being cut by the various routes, and the steamship combination's minimum figures are so far ineffective. The latest plan of the steamship lines—at any rate the London-Liverpool lines—was so to arrange rates that the through rate from Chicago to Liverpool, for instance, should be the same regardless of the port through which the merchandise should begin its ocean voyage. This change contemplates a system of ocean rates so calculated as to neutralize the railway differentials. In other words, steamship sailings from Baltimore, Philadelphia and the Virginia ports were to charge a higher rate than the New York steamship lines to the extent of the differential. It has been found that this new plan is not working smoothly, and, as a matter of fact, some of the outport lines have refused to try it. Furthermore, the plan has been upset to a considerable extent by the sudden reduction in the differential Baltimore has enjoyed, and a reduction of lake and rail rates between Buffalo and New York, which went into effect Friday. These latter are to remain in effect until July 15. Whether or not they will continue thereafter remains for future action.

Frank Harrol, of the trunk lines grain committee, established Jan. 1, will only say that there is "differences" between lines to various ports on grain rates, which will continue until July 15 at least. This is the date to which the New York-Buffalo lines have made their reduction effective.

PILES CURED WITHOUT THE KNIFE

Itching, Blind, Bleeding or Protruding Piles. No Cure, No Pay. All druggists are authorized by the manufacturers of Paso Ointment to refund money where it fails to cure any case of piles, no matter of how long standing. Cures ordinary cases in six days; the worst cases in fourteen days. One application gives ease and rest. Relieves itching instantly. This is a new discovery and is the only pile remedy sold on a positive guarantee, no cure no pay. Price 50c. If your druggist don't keep it in stock send us 50c in stamps and we will forward same by mail. Manufactured by Paris Medicine Co., St. Louis, Mo., who also manufacture the celebrated cold cure, Laxative Bromo-Quinine Tablets.

REPUBLICAN LEAGUE.

Executive Committee Meets to Arrange For Convention.

Chicago, June 24.—The executive committee of the Republican National league held a meeting here today to determine the time and place for the next national convention, which will probably be held during the coming July or August. St. Louis, Cincinnati, Indianapolis, Grand Rapids, Mich., Philadelphia and Dallas, Tex., are all competing to secure the convention, and there is every prospect that President Roosevelt will attend it. President Isaac Miller Hamilton submitted a report showing that the league is in a prosperous condition and most of the states fully organized.

A GENUINE CLEARANCE SALE!

Of Men's and Boys' Clothing, Hats, Furnishing Goods and Shoes. This sale differs somewhat from others, in that it is the regular stock—not a few odds and ends purchased simply as a guise to start a sale on, or all the old suits in a store bunched into two or three lots at a job-lot price. Nothing reserved here. You have the pick of the entire stock. Remember, not only a few suits, but everything from a Hat to a pair of Shoes, at cut prices, as we must dispose of our stock to replace same with UNION LABEL MERCHANDISE.

FUSION IN NEBRASKA

Democrats and Populists Hold Convention at Grand Island.

Opening Speech Made By Temporary Chairman Travis.

Considerable Doubt as to Nominee For Head of Ticket.

Grand Island, Neb., June 24.—The Democratic and Populist state conventions were called to order at 2 o'clock this afternoon, the former by Chairman Hall of the state Democratic committee and the latter by Chairman De France of the Populist committee. Chairman Hall rapped for order, and, after having the convention call read by the secretary, addressed the convention briefly, and introduced H. D. Thavis, of Plattmouth as temporary chairman.

The Hon. H. D. Travis, the temporary chairman, said in part:

Republicanism in this state and the nation has come to mean that property and government is allied on the side of property—not on the side of the rights of men.

Government, as understood by the latter day Republicans, is commercialism, pure and simple. The Republican party teaches that government must either directly or indirectly protect, and therefore advance one business enterprise at the expense of another. Trusts are the result of the policy of Republican principles—the outgrowth of the applied science of paternalism and commercialism.

By the use of a funded debt, money is made a substantive power and is arrayed on the side of government. The organized property interests of the country are arrayed against the unorganized property interests of the country. Commercialism degresses patriotism—denies not only the rights of men, but the rights of small property owners. Commercialism has not time to celebrate the Fourth of July. Washington's birthday is not on its calendar. The Republican party of 1902 is not the Republican party of 1861.

The Democratic party believes the property and government should be divorced, that government is for all the people all the time, and not part of the people all of the time.

The Republican party claims to be a business party—to have brought business to the people of the country, but every student of our history knows that when speculation has overloaded the people with debts, a period of liquidation arrives when debts must be paid. The Republican party was in power in 1873, when Black Friday came. Since 1896 the necessaries of life have advanced 100 per cent, while wages have advanced only 10 per cent.

The Republican party long since failed to recognize the saving through this declaration of independence. It has repudiated the doctrine taught by Lincoln. Consistence is not in it and cannot be. While millions upon millions of acres of land are awaiting for the settler at home, we find the Warrior Roosevelt, the Statesman Lodge, and the Politician Beveridge, eager for the conquest of Asiatic islands, and when two republics in South Africa asked sympathy, if not recognition, they denied it.

Commercialism controls the Republican party and it dare not speak for liberty. At the very time the Boers were laying down their arms and their liberty, one of the commercial co-partners was hobnobbing with King Edward the VII. Weakly the Republican press consigns the political corpse of Bryan to the tomb, but straightway he is to be seen walking amongst men.

Bryan is not an issue here, neither is silver.

If Bryan, or any other Democrat, should be the choice of this convention, Republicans can rest assured that they will not control the government of Nebraska for the next two years.

Up to 9 o'clock this morning but two candidates, Victor Vifquain, of Lancaster county, and Charles E. Coffin, of Valley county, had established headquarters, and everybody seemed to be as much in doubt as ever as to who would be nominated to head the ticket. More confidence was expressed today by fusion leaders that a stisfactory combination ticket can be agreed on, and the range of possibilities for the head of the ticket, in case of Mr. Bryan's refusal to accept a nomination, has narrowed down to about five or six men, as against fifteen yesterday. Constantine J. Smyth, Victor Vifquain and W. H. Thompson, Democrats, and Charles E. Coffin, Matthew F. Harrington and John C. Sprecher, Populitss, appear to have the rank and file of those who have been mentioned for the nomination.

William J. Bryan today refused to commit himself on the question of whether he would except the nomination for governor, but it is confidently believed by the fusion leaders that if he is tendered a unanimous nomination by both conventions he will not decline.

Senator Allen early today reiterated the stand that he has all along taken, to the effect that in case of his nomination Bryan could not and would not decline.

FIRE AT ST. PAUL.

The Main Plant of Horejs Bros. Destroyed.

St. Paul, June 24.—(Special to The Herald.)—Fire that was discovered at 1 o'clock this morning partially destroyed the main plant of the Horejs Bros. Baking company at 558-572 View street, causing a loss estimated at $20,000.

The entire rear portion of the 2-story brick building, 100 by 80, was destroyed and a portion of the roof fell in before the blaze was under control. The fire was caused by sparks from one of the big chimneys.

BATTLESHIP MEN WON.

New York, June 24.—Eight oar barge crews from the battleship Massachusetts and the cruiser Brooklyn, now lying at the Brooklyn navy yard, have met on the Harlem river course and the battleship aggregation won by more than ten lengths.

DIVIDEND OF ONE PER CENT.

New York, June 24.—The directors of the Canadian Southern railroad have declared a semi-annual dividend of 1 per cent. The last previous dividend was 1½ per cent.

ROBBED THE SAFE.

Fremont, Ohio, June 24.—Five masked robbers last night bound and gagged the night watchman at the Fremont Brewing company plant and robbed the safe of its weekly collections. The officials will not state the loss, but it will exceed $1000. Two men are under arrest for th job.

MOONSHINERS.

Story of a Typical Meeting With Officers.

Standing out in the firelight, plain marks for the antagonists, Internal Revenue Agent R. A. Hancock and Special Deputy Jeff Cundiff fought three hidden moonshiners and killed one, says the Louisville Courier-Journal. The exciting midnight battle took place on Big Meeting creek, in Hordin county. Asa Humble, a young fellow just 24, fell because he wouldn't run. After the fight they found him with two empty chambers in his pistol and the weapon half-cocked. Maj. Hancock bears an ugly red welt on his face, where a bullet scraped the cheek.

Asa Humble was one of the gang that has been making "moonshine" in that vicinity for some time. A few weeks ago Maj. Hancock and Jeff Cundiff thought they had located the still. It was in a cave that opened out from the bottom of a sink-hole within a few yards of the county road. To enter the cave meant almost certain death, but Maj. Hancock and Cundiff determined to try.

They crept out one dark night and dropped down into the hole. Just the length of a man's leg down in the hole was a ladder that dropped away into darkness. Without a light and silently as possible the two men climbed down the ladder into the unexplored cave, not knowing what might be awaiting them. Once in the cave, they used dark lanterns. It so happened that the moonshiners were not there, so the officers after exploring the cave, muting the moonshiners' plans for defense and securing evidence to show who were members of the gang, crept away without disturbing anything. The moonshiners had hidden the worm and still too securely for the searchers to find them.

Nothing more was heard of the gang until Jeff Cundiff got information that the outfit was located on Big Meeting creek, four miles north of Big Clifty. Maj. Hancock left town Monday afternoon at 4:30 o'clock for Big Clifty. Jeff Cundiff met him with five possemen. The party left Big Clifty at 10:30 o'clock Monday night, going north. It was about midnight when they came into the neighborhood of the still.

The outfit was located under a shelving ledge that jutted out from a big cliff, around which Big Meeting creek makes a sharp elbow. Thus there were two paths, one upstream and another downstream, for the escape of the moonshiners. Leaving three men at the downstream or lower path Maj. Hancock and Jeff Cundiff and the other two possemen crept back of the ledge around to the upper path. The two possemen were placed on guard here, and then Hancock and Cundiff crept on to surprise the 'shiners. The still was just around the elbow.

Creeping as close as they could by taking advantage of the ground the officers from a distance of twenty-five feet watched the 'shiners at work. There were three of them, and they were just preparing to stop for the night. Hancock and Cundiff crept up to fifteen feet, and then suddenly stepping out into the light with their pistols drawn:

"Surrender in the name of the government!"

Two moonshiners jumped back into the shadow of the cliff; the third leaped sidewise and crouched behind the worm. And then three shots rang out together. A bullet seared Maj. Hancock's face, spinning him around.

Jeff Cundiff's pistol had already begun to work. As the old soldier straightened his hand went up and his big 44-caliber Colt spoke out with the deputy's gun. The two were standing straight up in the firelight, plain marks themselves, and with only the flashes of their antagonists' pistols to shoot at. For a minute it was like the sound of a corporal's squad firing at will. Then the two moonshiners who had jumped back against the cliff broke away and ran down stream.

The boy, crouching behind the worm, only took more careful aim at the officers. In another instant the firing was over. The boy was dead.

The men who had run brushed past the guards on the lower path, taking a pot shot as they past and escaped.

Maj. Hancock and Jeff Cundiff examined the young man who had fallen. He was dead, with a bullet hole through the lower part of his head. Both recognized him as Asa Humble, one of the men for whom they were searching. Next, while some of the posse laid him out as decently as they could, others destroyed the still.

Maj. Hancock spread his handkerchief over Humble's face. Then they scattered the fire and came away, leaving the dead moonshiner lying there beside the chopped-up remains of his still.

DEADLY CONSUMPTION.

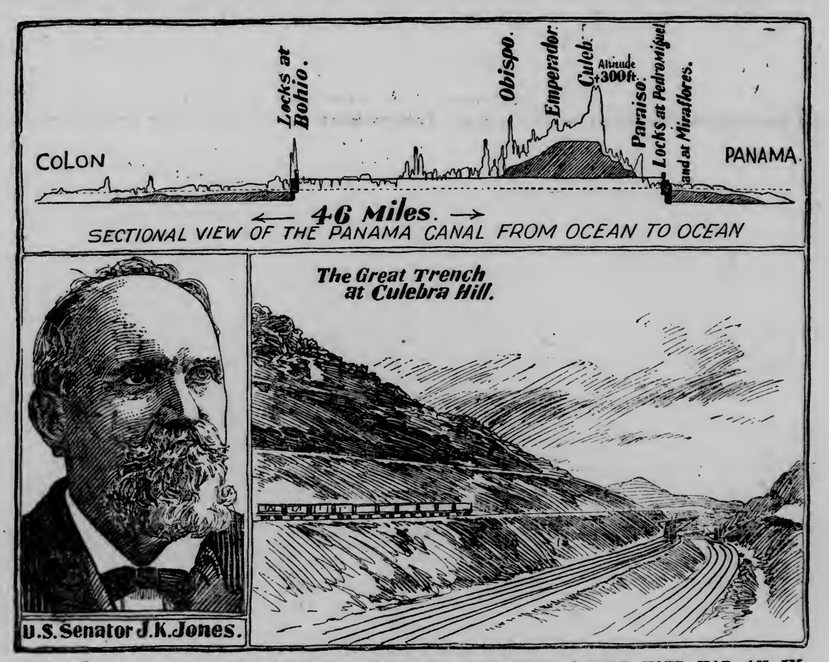
"One-fifth of all the people who die in New York city die because of consumption, and it is the duty of the city and state to prevent it," said Dr. E. J. Barrick, of Toronto, in opening a debate at the Hotel Majestic, according to the New York World.

The American Congress of Tuberculosis, in joint session with the Medico-Legal society of New York, said some startling things. They had come from all the Americas to discuss tuberculosis, and upstairs in the small banquet room they had 50,000,000 live germs in glass cages.

"To begin with," said Dr. Barrick, "our great cities are breeding places for consumption because the children do not have proper playgrounds and recreation places. They have nowhere to play but in the streets. They catch the germs of disease there. They inhale the dust. They have not healthful recreation, and so their bodies are only partly developed. Give the children playgrounds.

"Furthermore, it is the duty of all good citizens to demand of the government that proper steps be taken to blot out disease. When we hear of smallpox at our gates we are horrified, but in our midst is a disease that is far greater enemy of the state.

"A sum of government money should be set aside every year to be used under the direction of this society to scatter broadcast information about tuberculosis. Only when the people thoroughly understand the proper precautions to be taken will tuberculosis be blotted out. We must have organized methods. The thing must be stamped out systematically. The best way is to bring the sanitarium within the reach of every one, rich and poor, and insist that every one, rich and poor, be isloated and properly cared for. This is humanitarian and kind, and it is scientific."



THE PANAMA CANAL AND SENATOR JONES OF ARKANSAS, WHOSE VOTE HAD AN IMPORTANT BEARING ON ITS FATE.

E. W. Grove This signature is on every box of the genuine Laxative Bromo-Quinine Tablets the remedy that cures a cold in one day.

BOARD OF REVIEW

Hundred and Twenty-Five Kicks on Personal Property Assessments.

Are Mostly Cases Where Taxes Will Be Under a Dollar.

Some Applicants Wearying and Others Highly Entertaining.

The city assessor's office has made a remarkable record in the personal property assessment just closed.

Out of 6000 individual personal property assessments only 125 complaints were made against the valuations fixed by the assessors.

Strange to say the most vigorous complaints made before the board of review were where the property owners were called on to pay less than $1 in taxes.

The board of review will be in session again tomorrow, but the work was practically finished at noon today, as the 125th kicker walked out of the office, saying that if the board did not lower his assessment figures the district court would be asked to.

Not all of the 125 that appeared before the board were kickers. A majority of them were simply seeking information.

One woman owning a piano and a great deal of furniture that is not usually seen in the homes of the poor, had her figures raised from $20 to $135 by the assessor. Of this amount $100 is exempt from taxation, leaving the woman only about 60 cents in taxes. She objected strenuously to this, and indignantly informed the board that all her household goods, with the piano and herself thrown in were not worth $135.

One man, whose house occupies an unused city street, thereby relieving him of paying a real estate assessment, made a strong kick because his personal property tax amounted to $1.

He finally wearied the board, and the chairman announced that inasmuch as the city allowed him to occupy a public street with his dwelling, he should be willing to pay a little for the special privilege.

One very pretty and stylishly dressed woman appeared before the board, and the members outdid Alphonse and Gaston in their efforts to answer her questions. She was seeking information only, and had she registered a complaint the board would probably have been willing to order a court-martial for the deputy that dared to assess her property.

It was noticed that the persons that walked into the room with the intention of bluffing the board of review into lowering the assessments had the hardest time of it, while the persons that went in and simply laid the facts of the case before the board were treated with the utmost courtesy. All complaints were thoroughly investigated.

ODD CASE.

Fifteen-Year-Old Excursionist Suffering From Aberration.

The police have a singular case to deal with.

A farmer boy that came to Duluth with Saturday's excursion crowd is in the care of the department, violently insane.

The boy is Jens Knudesen. He does not appear to be over 15 years of age, and was never in a large city before, so far as can be learned.

On Sunday while out near the circus grounds he joined a party that was drinking a keg of beer. Later he claims two of the party took him behind a wood pile and tried to rob him.

To bear out his story he showed a wound in the back of his head that looked as if some person had struck him from behind with a rock or heavy instrument. His money, however, was not taken.

Last night Officer Gillon found the boy wandering along Superior street acting queerly. At the police station he became violent, but seemed some better this morning.

Chief Troyer made an examination of the boy very early this morning and thought probably he was suffering from a fracture of the skull.

A physician was called in and after examining the skull said that while the boy had received a severe blow on the head, no fracture was apparent, and thought the insanity was but temporary and due to some of Duluth's bad liquor.

The officers have taken special interest in the boy's case and are endeavoring to locate relatives supposed to be living near Grantsburg.

Buying Fall Stocks.

M. S. Burrows returned yesterday from the East, where he had been for some days, accompanied by Arthur K. Sutler, manager of the children's department of The Great Eastern, completing the purchase of the fall and winter stocks for the boys' and children's department. Mr. Burrows in speaking of his trip this morning said that it was a very sucessful one and that this autumn he would show the most complete stock of boys' and girls' wear in the West.

Passed Gravel Stone as Large as a Pea

Roversford, Pa., April 19th, 1902.
Dr. Kilmer & Co., Binghampton, N. Y.

Gentlemen:—I had been a sufferer from kidney trouble for about 8 years with pain in side, back and head, about 6 or 8 months ago I concluded to try a bottle of Dr. Kilmer's Swamp-Root. To my surprise I experienced a decided relief before I had taken half of the bottle, and one morning passed a gravel stone as large as a pea, which I still have in my possession and will be pleased to show to any one who doubts the efficacy of this wonderful remedy. One month ago, finding some of the old symptoms returning I purchased a 50c. bottle of Swamp-Root at Dr. Morey's Drug Store, and before I had taken one-fourth of it I found in the vessel which I had voided during the night, a teaspoonful of small gravel stones and sand, the passing of which was immediately followed by relief.

JESSE S. BUTTERFIELD.

I am well acquainted with Mr. Butterfield and know that the above statement is true in ever particular.

DR. MOREY, Druggist.

For a sample bottle of Swamp-Root by mail free, write Dr. Kilmer & Co., Binghmapton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address Binghampton, N. Y., on every bottle.

STORY TRUE.

New York Children Are Farmed Out Among Indian Squaws.

Indian Agent Campbell confirms the story published by The Herald of the farming out of white orphan babies to the squaws on the Redcliffe reservation in Wisconsin. He said:

"Some orphanage in New York sent thirty babies to Redcliffe and some of them were adopted by the civilized Indians. Many more Indians offered to take the children, but they were not considered to be proper guardians for them and so were refused. I could not see what I could do, but I made the Indian farmer on the reservation make a report of the circumstances of the case to me, which I embodied in a report of my own to Commissioner Jones, and am awaiting a reply.

"The people of Bayfield were very indignant about this disposal of the helpless little ones, and only two were allowed to be taken by the Indians at that place. As I said before, I could not see my way clear to interfere, but the commissioner's orders will be carried out, whatever they may be."

ALBERT GASSER DEAD.

Succumbs to the Dread Disease, Tuberculosis.

Albert Gasser, of the firm of M. M. Gasser & Co., died last night at 10 o'clock, at the home of his sister, Mrs. C. D. Campbell, 430 East Third street, of tuberculosis.

For fourteen years Mr. Gasser has been a prominent citizen of Duluth. His death was not unexpected and still his numerous friends were profoundly shocked to learn of it this morning.

With him when he died were his sisters and his brothers, M. M. Gasser and Dr. H. Gasser, of Platteville, Wis.

Mr. Gasser was unmarried. He was born in Dubuque, Iowa, in January, 1855. For several years he was in the grocery business in St. Paul, and then came to this city fourteen years ago to embark in the same trade.

At 2 o'clock on Thursday afternoon the funeral service will be held in the Masonic Temple. The deceased was prominent as a Scottish Rite Mason and a Knight Templar. He was also a member of the local lodge of Elks. These lodges will do his memory every honor.

IS HERE TO STAY.

John McKinley Returns to Make Home Here.

John McKinley is home again from the East, and this time he says he will reside permanently in the Zenith City, if he can find some suitable business opening. Mr. McKinley looks very well and is much more robust in appearance than when last here. He has divided his time between Boston and New York and he says that the people in the East are enjoying most unprecedented prosperity.

"I was much struck," said he, "with the improved and prosperous aspect that Duluth has assumed, and amazed at the immense amount of legitimate business that I find is being transacted here. Everything seems to be now on a solid basis and in sharp contrast to the feverish times that prevailed here ten years ago."

NOT A TRUE LIKENESS.

A Philadelphia lawyer had his portrait painted in his favorite attitude—standing with his hands in his pockets, says the Pittsburg Times. It occupied quite a prominent place on the wall of a certain political club, not far from Eleventh and Chestnut streets. One day, shortly after it had been installed, a number of men were criticising it, and all but one, a client of the lawyer, agreed that it was a striking likeness. The client declared it was not like the original.

"Just show us where it is not like him?" one of them asked.

"'Taint, no 'taint," responded the client. "Don't you see he has got his hands in his own pockets?"

Watch Your Eyes!

When our advice is asked and examination given, we give it honestly. Therefore, when there are symptoms of slight breaking down, you had better consult us at once. We'll examine your eyes in a thoroughly scientific manner and fit you with glasses from as low a price as 50c and upwards. Eyeglasses, Spectacles, etc., carried in stock, made to order, and repaired at lowest prices.

Don't fail to come in and see our new "Shur-On" Eyeglasses, on for sure, and made out of solid gold.

COAL MEN ARE HERE

Lake Erie Bituminous Coal Shippers Sojourning In Duluth.

Hold Short Meeting and Go For Ride Around Harbor.

Banquet at the Spalding to Follow---List of Guests.

About 100 members of the Lake Erie Bituminous Coal Shippers' association are in Duluth today for the purpose of enjoying an outing and holding the midsummer meeting of that body. They are making their headquarters at the Spalding.

The meeting, which occupied only about ten minutes, was held in the sun parlor of the hotel. At 1 o'clock the party took chartered cars from in front of their hotel and left for Singer's dock where they went aboard the steamer Iroquois for a three-hour excursion on the lake and bay. The trip down the bay was of special interest to the Lake Erie coal shippers, for they are constantly engaged during the season of navigation in forwarding coal to this point.

The arrangements for the entertainment of the visitors were in the hands of J. A. Ferguson, D. B. Smith, C. S. Carpenter and other local representatives of the coal companies doing business at the head of the lakes. The weather was very pleasant and the visitors enjoyed the day to the utmost. This evening there will be a banquet at the Spalding.

The coal shippers' party was not confined exclusively to men actively engaged in the coal business at the present time. It embraced men who have been prominently identified with the coal business in past years, with special reference to the head of the lakes. Prominen among these is B. S. Russell, of Jamestown, N. D., who enjoys the distinction of having shipped the first cargo of commercial coal to Duluth. Mr. Russell may be described as the dean of the party. He was the object of much interest and attention from the other coal men.

Among the coal men from the Lake Erie district is Maj. A. W. Horton, formerly of Duluth. He says that the soft coal consumers up here and in the Northwest have no cause for apprehension at present as to shortage of the commodity. Continuing, he said:

"There is, of course, an element of uncertainty about everything when there is a possibility of strikes. Unless the miners in the bituminous district go out on a strike I see no reason why there should not be normal receipts of soft coal here this season. In the event theer should be something of a shortage it could be made up by all rail shipments, which has been done several seasons before. There will be a meeting of the Coal Miners' association July 17, and after that it will probably be known about what we may expect for the balance of the season. The soft coal miners have no grievance of their own; if they should strike it would be in sympathy with the anthracite miners. There is no immediate prospect of a settlement of the hard coal miners' trouble, and I shall not be surprised if everything will be held in abeyance to await the action of the Miners' association at its meeting in July."

B. S. Russell, of Jamestown, was immensely interested in all that he saw in Duluth. He gave to The Evening Herald an interesting interview:

"I came to Duluth in March, 1871, from Philadelphia. I came in the interest of the Lake Superior & Mississippi road, subsequently known as the St. Paul & Duluth, and now a part of the Northern Pacific system. The road was built for the purpose of diverting the wheat traffic of the Northwest via the lakes to Buffalo. Col. C. H. Graves and myself were directors of the road, and I was a director of the elevator company which built the first grain elevator here, which was situated in what was known as the outer harbor, near the site of the curling rink. The first coal cargo ever brought here was delivered in the breakwater and conveyed in wheelbarrows to bins in the rear of the elevator. The average cargo in those days was about 300 tons, and many were not mare than 250. The coal was hoisted from the boats by horse power. It was a very primitive method, but was the beginning of the present enormous coal trade now enjoyed by the head of the lakes. The amount of coal brought up the first year was about 5000 tons, about one cargo for a modern cargo carrier today. Much of the 5000 tons was carried over because the introduction of it in the Northwest required the adaptation of coal stoves. It was a slow process, for weed was cheap. St. Paul was our principal market. The freight charges for transporting coal from ake Erie to Duluth was about $2 a ton. Subsequently a syndicate was formed, composed of Hill, Griggs & Co., Garrett & Johnson, of St. Paul, and myself, to handle coal to and through Duluth. My connection with the syndicate ended in the fall of 1873 because of the panic which began Sept. 18, 1873. It produced a business funeral procession, but I was away back from the hearse and it did not reach me till Oct. 9, 1875. During that time Duluth shrank from 6000 in 1871 to 2000 in 1875. Every enterprise in which I was interested melted away like snow under a genial sun."

Among the coal men here was J. R. Van Evera, of Marquette. He says that his city is to have the biggest charcoal iron furnace in the world. It will have a capacity of 150 tons a day, and arrangements have been mde to save the bi-products, for which there is a market.

Following is a list of the names of the gentlemen attending the meeting and the outing of the Lake Erie Bituminous Coal Shippers' association:

C. W. Adams, St. Paul, Jones & Adams Co.
H. C. Adams, Chicago, Jones & Adams Co.
A. J. Atwater, Chicago, Sunday Creek Coal Co.
G. F. Backus, Minneapolis, Jones & Adams Co.
C. M. Benham, St. Paul, N. W. Fuel Co.
E. L. Booth, Chicago, N. W. Fuel Co.
F. A. Chapman, St. Paul, Lehigh Valley Coal Co.
N. S. Coffin, Minneapolis, The Pioneer Fuel Co.
C. Cohenour, Columbus, O., The Northern Fuel Co.
T. Y. Collins, Duluth, P. & R. Coal & Iron Co.
W. Collins, St. Paul, The Ohio Coal Co.
G. H. Conn, Chicago, Coxe Bros. & Co.
J. T. Connery, Chicago, Y. & L. Coal co.
L. Demmer, Milwuakee, Milwaukee-Western Fuel Co.
L. R. Doty, Northern Fuel Co., Chicago.
E. Elmore, Milwaukee, Milwaukee-Western Fuel Co.
J. A. Ferguson, Duluth, The Pioneer Fuel Co.
L. Ferris, St. Paul, Coxe Bros. & Co.
H. H. Grace, West Superior.
L. D. Greene, Chicago.
C. G. Hartin, St. Paul, The Pioneer Fuel Co.
A. W. Horton, Cleveland, O., Northwestern Coal R'y.
G. Huette, Sheboygan, Wis., The C. Reiss Coal Co.
J. D. Hurd, Chicago.
F. L. Jackson, Minneapolis, The Ohio Coal Co.
A. C. Jones, Duluth, N. W. Fuel Co.
A. Kuesel, Milwaukee, Coxe Bros. & Co.
W. K. Link, West Superior, Jones & Adams Co.
E. T. McDonald, Milwaukee, P. & R. Coal & Iron Co.
E. M. Mancourt, Chicago, Fairmont Coal Co.
George Merryweather, Chicago, Coxe Bros. & Co.
C. W. Moody, Milwaukee, Milwaukee-Western Fuel Co.
Thomas Mordue, Chicago, Castner, Curran & Bullitt.
J. S. Morton, Columbus, O., Boomer Coal & Coke Co.
D. C. Owen, Milwaukee, The Whitnall Coal Co.
F. L. Robbins, Pittsburgh, Pittsburgh Coal Co.
W. H. Rendell, Minneapolis, N. W. Fuel Co.
J. A. Renahan, Chicago, Smokeless Fuel Co.
P. Reiss, Sheboygan, The C. Reiss Coal Co.
S. G. Russell, St. Paul, Y. & L. Coal Co.
J. H. Sessions, Minneapolis, P. & R. Coal & Iron Co.
E. L. Shepley, St. Paul, N. W. Fuel Co.
Henry Shadle, St. Paul, Jones & Adams Co.
H. E. Smith, St. Paul, N. W. Fuel Co.
D. B. Smith, Jr., Duluth, The Ohio Coal Co.
F. B. Spear, St. Paul, Y. & L. Coal Co.
Edward A. Uhrig, Milwaukee, Milwaukee-Western Fuel Co.
C. E. Wales, Chicago, Y. & L. Coal Co.
J. P. Walsh, Minneapolis, The Pioneer Fuel Co.
R. C. Wharton, Columbus, O., The Sunday Creek Coal Co.
C. P. White, West Superior, Y. & L. Coal Co.
J. B. Whitnall, Milwaukee, The Whitnall Coal Co.
F. D. Williams, St. Paul, St. Paul & Western Coal Co.
W. M Wilshire, Chicago, Fairmont Coal Co.
John J. Rhodes, St. Paul, Lehigh Valley Coal Co.
P. E. Blanche, Duluth, N. P. Ry.
M. Bunnell.
Henry Doerr, Minneapolis.
Col. C. H. Graves, Duluth.
L. W. Hill, G. N. Ry.
F. E. House, Duluth, D. & I. R. R.
Hartley, Duluth.
T. M. Hugo, Duluth.
F. C. Jackson, West Superior, N. P. Ry.
M. B. Koon, Minneapolis.
W. B. McGibbon, West Superior, McGibbon Coal Co.
H. W. Nichols, Duluth, North Land Coal Co.
F. G. Prest, St. Paul, N. P. Ry.
H. C. Pearce, Minneapolis, Soo Line.
H. E. Pierpont, Chicago, C. M. & St. P. Ry.
B. S. Russell, Jamestown, N. D.
Gen. C. McC. Reeves, Minneapolis.
W. A. Scott, St. Paul, C., St. P., M. & O. Ry.
H. E. Still, St. Paul, N. P.
J. L. Washburn, Duluth.
I. Seddon, St. Paul, C., St. P. & O. Ry.
J. E. Conley, Minneapolis, C., M. & St. P. Ry.
John Miller, Duluth.
C. S. Carpenter, Duluth.
M. Kelley, Duluth.
L. C. Barnett, West Superior.
A. H. Burr, West Superior.
F. G. Scribner, West Superior.
F. J. Kennedy, Pittsburg.
B. F. Shack, Pittsburg.
S. C. Galley, Minneapolis.
B. A. Graves, St. Paul, Pioneer Fuel company.
C. Richardson, Minneapolis, Pioneer Fuel company.
F. J. Cropsey, Midway, Pioneer Fuel company.
W. K. Field, Minneapolis.
J. L. Gironard.
O. W. Dunham, Chicago.
Walter Buchanan, Chicago.

IN CONGRESS.

Washington, June 24.—Some routine business was transacted in the house today prior to the resumption of the debate upon the Philippine civil government bill. Bills were passed to establish a sub-port of entry at Naco, Ariz., to appropriate $3,000 annually for the support and maintenance of the permanent international commission of the congress of navigation; to authorize the director of census to compile statistics regarding irrigation.

Mr. Ball (Texas), the first speaker on the Philippine government bill today, made a general onslaught upon the Republican policy. Taking Pecksniff as his text, he charged the president and administration with hypocrisy. If the president would dissolve the firm of "Havemeyer, Root, Wood, Thurber & Co.," and strike a blow at the sugar trust by agreeing to accept the house Cuban reciprocity bill, he said, the bill would pass the senate by the aid of a solid Democratic vote in twenty-four hours. The responsibility for the failure to do our duty by Cuba, he insisted, rested on the president. Turning to the question of trusts, he charged the administration with hypocrisy upon that subject, and in answer to Mr. Littlefield's question, "What is your remedy for trusts?" he said:

"To place all trust-made products on the free list, to deny trusts the power of interstate transportation and the use of the mails and to inaugurate an administration which will resort to penal statutes and not injunctions in the prosecutions of trusts." (Democratic applause.)

In charging the Democrats with assailing the army in the Philippines, Mr. Ball charged that the Republicans were hypocritical. "Like hyenas," said he, "you go down into the grave to slander the armies of the South and of the North to try to make the American believe that the soldiers of both armies were guilty of the sort of atrocities that occurred in the Philippines. I denounce your statements as calumies and slanders upon both armies." (Democratic applause.)

NOW SINCE THE CIRCUS has COME and GONE

And left you nothing but a much lighter purse; many of you wishing you had done this, that or the other; some of you wishing you had gone to Bayha's Special Discount Sale and secured something serviceable, something that you might enjoy for years to come, something that you might rest those weary bones upon. But, however it may be, don't worry. Let the past be gone and think of us, Bayha & Co., the lowest price House Furnishers in the city of Duluth. We will help you out of your trouble. We will let you have whatever you want—will give you credit and make terms to suit your convenience. Remember, we are the lowest price Furniture, Carpets, Rugs, Lace Curtains, Portiers, Stoves, Ranges, Baby Cabs, Lamps, Crockery and General House Furnishing store in this city, barring not even the auction house. Your credit is good. Our terms made to suit you.

BAYHA & CO.

Lowest Price House Furnishers, City of Duluth.

THE LAST BUFFALO HUNT

Thrilling Scene In the Souris District In Manitoba Nearly Half a Century Ago.

In the Manitoba Free Press of June 14 there appeared an interesting sketch of the Souris district, written by one of the old settlers, containing an account of the last great buffalo hunt as follows:

The Hudson Bay company, under the charge of Donald McKay, made their first appearance in this district in 1732 and built a fort at the mouth of the Souris river. It is on record, however, that a trading post, called Fort la Souris, existed previous to this—in fact as far back as 1754—for we find that a French priest residing there, who imparted to the Indians religious instruction in the French language, the remembrance of which was retained in 1806. The Souris country, in those early days, was noted for its large herds of buffalo, and this fort will go down to history as having been seized and pillaged according to the order of Governor Miles McDonald, in the spring of 1814. Five hundred bags of pemmican, ninety-six kegs of grease and one hundred bales of dried meat, weighing about eighty-five pounds each, were taken across the river, and deposited in Brandon House. Fort la Souris was then in charge of John Pritchard, who afterwards became agent for Lord Selkirk.

Alexander Henry, writing in his journal in 1880, states: "This winter 1799-1800, was one of the most extraordinary known for many years. Early in November we had an extremely heavy fall of snow, but the rest of the season was open and mild. Early in March the snow was entirely gone, we were obliged to abandon our log sleighs at Riviere lo Souris (Mouse river.)

PLAINS COVERED WITH BUFFALO.

"Jan. 14, 1801," writes the same author, "at daybreak I was awakened by the bellowing of buffaloes. I got up and was astonished when I climbed into the bastion on my right, the plains were black and appeared as in motion, south to north, opposite the fort (Fort a la Souris). The ice was covered and on my left to the utmost extent of the reach below us, the river was covered with buffalo moving northward. Our dogs were confined within the fort, which allowed the buffalo to pass within a few paces. I dressed and climbed an oak for a better view. I had seen almost incredible numbers of buffaloes in the fall, but nothing in comparison to what I now beheld. The ground was covered at every point of the compass, so far as the eye could reach, and every animal was in motion. The first roads beaten in the snow were followed by those in the rear. They passed at full speed until about 5 o'clock, when their number decreased.

"Jan. 15, 1801.—The plains were still covered with buffalo, moving slowly northward."

LAST GREAT BUFFALO HUNT.

The last great buffalo hunt enjoyed in this district took place about thirty-seven years ago, nearly all the half-breed population of Manitoba were engaged in the cause. A considerable number of those who took part in that wild raid on the buffalo are now settled along the Pembina and near the lakes, and delight to recall the remembrance of the great hunt, with the various scenes, incidents and adventures connected with the occasion, the like of which can never again take place in the ordinary course of nature. That fall the buffaloes had congregated in immense numbers south and west of the Turtle mountains. The hunting party consisted of 823 cars, 725 horses, 760 draught oxen, and a large quantity of the usual hunting paraphernalia and supplies. Inasmuch as the hostile and dreaded Sioux Indian was much in evidence, the party had to keep well together, while outriders were stationed at different points on the plain, for the double purpose of watching the movements of the buffalo herds, and to give notice if danger should appear, for, although the Sioux would not attack a very strong party, yet, if a few hunters should chance to become separated in the chase, they were liable to be cut off and destroyed.

The buffalo hunter of the plains possessed peculiar and distinct character; he was a bold and skillful rider, a good shot, hardy, strong, watchful and, like all beef-eating men, he was courageous; he usually rode a horse possessed of speed, strength and wind; like his master, the horse fully enjoyed the excitement of the chase, and in the attack needed no urging and no guidance, but would strain every nerve to bring his master alongside of the buffalo, and as the shot was delivered would instantly shy sheer off to escape the expected charge of the infuriated monster of the plains. In those days the buffalo hunter was usually armed with a smooth bore flintlock gun; his supply of powder was contained in a horn that hung from his shoulder by a strap; the hunter kept several bullets in his mouth for the sake of expedition in loading. When a drove of buffalo were to be approached the advance was made by the hunters in the greatest silence, the leader of the party a little in advance; his chief duty was that of restraining the impetuosity of the more impatient of the hunters and get his band as near the buffaloes as possible, before the herd would become alarmed. The near approach was absolutely necessary in order that the horses should not be out of wind before the game was reached. The horses were always as eager as the men, and frantic for the race, each having to be held in by main strength. At length, when the buffaloes commenced to move, the uneasiness would increase, and as the herd started the leader would shout not till then, "Away!" and in a moment every horse would spring forward with the wildest impetuosity. All had to start for no horse could be restrained, bridles were let go, guns were brought into position and the wild cavalry bore down on the flying herd. After the first shots had been delivered the buffalo hunter loaded his gun while his horse was at full speed. The gun was first primed and the pan drawn back to its place, then a quantity of powder was transferred from the hand to the gun barrel, and the bullet permitted to roll down. In firing care was taken not to raise the breech higher than the muzzle lest the ball should roll out, but as the rider was generally only a few feet from the animal that he wished to shoot, there was no necessity to raise the gun to the shoulder, and the buffalo was usually as high as the horse.

Sometimes a single hunter would shoot four or five buffaloes during a single chase made on a good herd. The larger the drove the better chance there was for the hunter, as the animals in advance in some degree retard the progress of those in the rear, where the attack was taking place. Cows and young bulls were the animals mostly sought for in the fall of the year. Calves and old bulls were not killed, unless by accident, or when game was scarce. The fat on the back of a good buffalo was two or three inches thick, and of delicious flavor. On the occasion of the great hunt 800 carts were loaded with pemmican, tongues and choice pieces of meat and the skins of buffalo. When a hunter had dropped buffalo at some distance from his companions or from the camp, the horse was tied to the head of the animal, and generally continued to move in a circle, watching lest an enemy should approach while its master was engaged in skinning the beast that had been slain. Twenty or twenty-five years ago many of these old buffalo hunting horses had been purchased by the white settlers, who were then commencing to occupy the country, and it was amusing to notice with what horror and excitement one of these experienced animals would get the scent of an Indian. During the continuance of the great hunt, which lasted many weeks, the food of the hunters was meat and nothing else; the only change was in the manner of cooking. The next season the buffalo herds had moved far to the west, and never again returned in such numbers so near the Red river, and even yet the wandering people of the plains look upon the loss of their buffaloes as the greatest calamity that ever befell their race.

EPLAINED HIS MEANING.

In a case of assault and battery before Judge B——, in the Quarter Sessions court, a well-known doctor, who was a witness, said he had treated the prosecutor for a black eye, says the Philadelphia Times.

"What do you mean by a 'black eye?'" asked the attorney for the defense.

"I mean," said the doctor, "that the prosecutor had received a severe contusion over the lower portion of the frontal bone, producing extensive ecchymols around the eye, together with considerable infiltration of the subjacent areolar tissue."

"Serves you right," said the judge to the prosecuting attorney; "everybody knows what a black eye is."

MARRIAGE LICENSES.

Roderick G. Henderson and Mai Bella Stevenson.
Charles Edelson and Sadie Edelson.
Fred Wiedermann and Annie Keitz.
William J. McRobert and Alice Mitchell, of Chippewa county, Wis.
Ben Hanson and Mary Christofferson.
Andrew Hokka, of Pine county, and Maria Martila.
J. S. Henderson and Anna A. Lagerstedt.
J. F. Karmiainen and Johanna Suomala.

BIRTHS.

ST. GEORGE—A daughter has been born to Mr. and Mrs. Lal St. George, of 522 Twenty-fifth avenue west.
KEARNS—A daughter has been born to Mr. and Mrs. William S. Kearns, of 1823 West First street.
WILLIAMS—A son has been born to Mr. and Mrs. David Williams, of 16 Twenty-second avenue west.
GRANDMAISON—A son has been born to Mr. and Mrs. Grandmaison, of Park Point.
STEPHENSON—A son has been born to Mr. and Mrs. Henry Stephenson, of 518 Fourth avenue west.

DEATHS.

GASSER—Albert Gasser died at the home of his sister, Mrs. C. D. Campbell, 403 East Third street, at 10 p. m., June 23. The funeral service will be held in Masonic Temple on Thursday afternoon, June 26, at 2 o'clock. Interment Forest Hill cemetery.
HALVERSON—Ole Halverson, of Eveleth, died at St. Luke's hospital last night of tuberculosis. He was 36 years of age. The remains will be taken to Virginia for interment.
GILLESPIE—Samuel Gillespie died at his home, 708 West Second street, on the evening of June 23. He was in the 89th year of his age. The funeral service will be held from the late residence at 2 o'clock Wednesday afternoon. Interment at Forest Hill cemetery.
MLODZIK—Joseph Mlodzik died June 23 at St. Mary's hospital as the result of injuries sustained in a runaway on East Superior street Saturday evening. Arrangements for the funeral have not yet been announced.

POPULISTS OF KANSAS

Are Holding Their Annual State Convention at Topeka.

Large Number of Delegates Favor Fusion With Democrats.

Opposing Element Says Act Would Be Political Suicide.

Topeka, Kas., June 24.—Kansas Populists met here in state convention today. The majority of the delegates seem to favor fusion, but differ on basis on which it shall be accomplished. United States Senator William A. Harris, who, last night was selected as temporary chairman of the convention and Chief Justice Doster favor filling the vacancies on the ticket selected by the Democrats at their recent convention at Wichita. Another element says this move would be suicide and that two tickets must be placed, to force the secretary of state to choose which ticket shall be placed in nomination to test the anti-fusion law, and if it is upheld, to force the secretary of state to choose which ticket shall be placed on the ballots. The Democrats have already nominated men for all offices save supreme judges, lieutenant governor, treasurer, superintendent of insurance, attorney general and congressman at large. Before the convention met it was generally conceded that the Democratic ticket would be filled out. The sentiment seemed to be crystalizing on D. H. Hefelblower for treasurer; S. M. Culver, of Mitchell county, for attorney general, and J. D. Botkin for congressman-at-large. James Allen, of Neosho and D. C. Sercher, of Olathe were most prominently mentioned for superintendent of insurance. H. W. Young appeared to lead for lieutenant governor, but Dan Hart and M. A. Householder were making a hard fight for this place. It was said that a resolution would be introduced demanding an investigation of the office of state treasurer.

Most of the prominent Democrats are here and conferred with the Populist leaders throughout the day.

The convention met in the Auditorium and was called to order at 10 o'clock. William A. Harris, the temporary chairman, in assuming the chair, was presented with a gavel made from a portion of the tree that grows over the grave of Thomas Paine, New Rochelle, N. Y.

Senator Harris brought forth cheers from the Democrats, when, in his address, he announced that the national policy of the Democratic party would continue as now. He scored those who proposed to return to the Democracy of the past and said that the Democrats had come to the plan adopted by the Populists and that they should "Get together."

After the appointment of temporary officers, a recess was taken.

STREET CARS IN LONDON.

Americans who have taken a trip on one of the electric trams in the suburbs of London have often expressed their wonder how the companies put up with the obstructions and delay caused by the drivers of huge carts and wagons along the line, says the Brooklyn Eagle. The electric cars are seldom permitted to have a straight run of over fifty yards without being pulled up short, owing to the presence ahead of a great truck, the driver of which chuckles mischieviously at his cuteness in having held up "the beastly modern innovation." A man from Albany, N. Y., who had a run on the Hammersmith line yesterday, has the following to say of his experiences:

"I took a trip yesterday by the electric street car that runs westward from Hammersmith. What is wanted on that line for about a week is an armored train. The outside agricultural population census would show a slump, but London in general would gain. Of all the sour, surly, stolid, stolcal, 'slouches' I have clapped my eyes on those captains who navigate the heavy argicultural carts through suburban streets stand supreme. Their vehicles are loaded roof-high and the skippers lies at indolent length on a shelf, one-half asleep and the other half not caring. He gets his lumbering cart in the fair-way of the car and allows his animals to plod on at a pace that would make a tortoise blush for shame. The first few alarms rung by the electric car do not even tickle his ear; at the fourth or fifth he slowly turns his head and runs a disdainful glance over the uniformed driver of the car. All this takes time and half a hundred passengers are obliged to put up with the delay. When he thinks he may let the car pass he strikes off at so fine an angle that it carries him 100 yards ahead before his wheels are clear of the line. The street car people should order an armored train and run it for one week. Allow those carts one bell ring. If there is no response, then shoot.

WILL CALL FOR BIDS

Council Decides Upon That Course For Superior Street.

Petitions For Asphalt and Bituminous Macadam Are In.

No More Licenses to Be Issued to Brewing Companies.

The street paving fight failed to cause expected trouble in the council meeting.

Petitioners for asphalt as well as petitioners for bituminous macadam for East Superior street, were satisfied with one stroke of diplomacy—the aldermen decided to advertise for bids for both kinds of paving.

The macadam paving is the cheaper, and that will probably give the council an opportunity to go on record against the highly expensive and unsatisfactory sheet asphalt, which, if put down, will delay all necessary improvements that are paid for out of the permanent improvement revolving fund.

* * *

The aldermen have decided to make a radical change in the methods of conducting the saloon business. For years agents for brewerles have been taking out a great many licenses. The aldermen, or at least a majority, are of the opinion that not more than one license should be in the name of any man. This is especially necessary in enforcing regulations.

* * *

The aldermen inaugurated the policy for better regulations last night by declining to renew a number of licenses that were taken out in the names of agents for breweries. It is desired that all licenses be taken out in the names of the men that are really conducting them.

* * *

Alderman Moore's ordinance prohibiting the building of billboards on any residence thoroughfare without the consent of three-fourths of the owners of property in any block where a billboard is to be erected, was passed.

* * *

A petition was received by the council for the paving of First avenue west. This thoroughfare, according to the property owner's desires, is to be paved with sandstone, from the railroad tracks to First street, and with bituminous macadam, from First street to Cascade park.

* * *

West Duluth and Superior extended invitations to the city officers of Duluth to be guests at the Independence day celebrations. It is likely that both invitations will be accepted.

* * *

The city attorney and city engineer were authorized to arrange with the Northern Pacific Railway company for the building of the Jenswold street subway under the tracks of that crossing, changing from the present overhead viaduct crossing.

AMUSEMENTS.

RICHARD MANSFIELD.

A fined audience never graced the Lyceum theater than that which was present last evening to see Richard Mansfield play "Beaucaire," and it was but right that it should be so, for Mr. Mansfield is undoubtedly the greatest star of the American stage, it was a fashionable audiences, too, but it cannot be said to have been very enthusiastic. Duluth audiences are said to be cold but they often rise to a much higher appreciation than that of last evening. Why was it? It could not have been the fault of Mr. Mansfield for a more perfect characterization was never seen on any stage. The man was lost in the part, the very highest evidence of art. There moved before the eye none but Beaucaire. It was a perfect picture of a prince of the time of Louis XV, a polished, gallant courtier, with all of the affectation of the French court of that time, skillful in sword play, brilliant in repartee, almost effeminate in fastidiousness, but unlike most of the French courtiers in that he possessed some democratic notions as to the selection of a companion for life. Mr. Mansfield assumes the French dialect, in fact, mixes a considerable amount of French in his lines, but he does it with perfection, the broken dialect interfering at no time with the power, rare grace and feeling with which he invests the lines. To pick flaws in this admirable characterization would be impossible, it is perfect.

The failure of "Beaucaire" to arouse the enthusiasm that a production of its magnitude should, is not the fault of the star, it lies with the play. It is a play dependent for its success upon one man, upon a single characterization. The story is artificial, almost mamby pamby. Booth Tarkington's novelette, a delightful work, has been perverted to bring about a happy denouement, a sacrifice of art to suit popular taste. Lady Mary is compelled by Beaucaire to acknowledge her love for him even though she believes him a lackey and finally when his true character is proclaimed he accept her and all is happy. The acknowledgement of her love for the lackey appeals to the sentimental, but it is a most unnatural thing for the proudest and coldest beauty in Bath as Lady Mary is known, would hardly be confessing her love for a lackey, strong as it might be. With a less perfect artist than Mr. Mansfield the play would hardly hold the attention of the audience for an evening. Even the love story is not a particularly sympathetic one.

The company is a competent one but there is not much opportunity for the members to display their abilities. Miss Ethel McKnight-Mollinson played the part of Lady Mary Carlisle in a pleasing manner, but attracting no particular attention to the part. Miss Sydney Cowell as the countess of Greensbury invested her role with more individuality than any of the others. Ernest Wardle as Rinkell was particularly good in the final act. Cral Krusada played two fine violin solos in the third act and received as much applause as was given at any time through the evening.

The staging and dressing of the production is little less than stupendous in its richness. Every little detail is perfect. A team of horses and an English coach is carried simply to drive Lady Mary on and off the scene for a moment and this is but an instance of the lavishness which is used in the entire production.

MUNYON'S RHEUMATISM CURE

Cures sharp shooting pains in the arms, legs, sides, back or breast, or soreness of any part of the body in from one to three hours. Cures lameness, stiff and swollen joints, stiff back and all pains in the hips and loins, sciatic lumbago. It does not put the disease to sleep but drives from the system. 25c., all druggists.

AT WEST DULUTH

The family of A. Gauthier had a narrow escape from burning to death at 2 o'clock this morning, at the corner of Fortieth avenue west and Oneota street. The fire started with a lamp explosion, and the alarm was given by a small son whose bed was partially in flames and who awake up and began to cry. Mr. Gauthier made haste to get the family out of the building, not having time to secure clothes other than they had on as they got out of bed.

The house was one of the old landmarks of Oneota and was built about thirty years ago. It was owned by H. W. Wheeler. Mr. Gauthier had $125 in money in a trunk, which he attempted to secure after getting the family out, but was driven back by the flames.

The West Duluth fire department responded promptly to the alarm, but the building was dry and burned down before the department could get there. Efforts were then successfully directed toward saving the adjoining houses. One of the electric light poles at the front of the property was also burned down, destroying the circuit, but repairs were made this afternoon, so that the lights will go on at the usual hour this evening. The Gauthier family had moved into the house but a few days ago, and Mr. Gauthier had just had his insurance policy on his household effects transferred. His loss will be about $600, covered by $400 insurance. It is not known whether any insurance was carried on the building.

The family was cared for by the neighbors until this morning.

WANT REVENGE.

Although defeated in the first game with Cloquet, the West Duluth Stars are planning another game in the near future, which will also be played at Cloquet. The management says the team will be strengthened and a better game will be put up next time. There will be no return game in West Duluth, for obvious reasons.

FAUBISTER-REMFREY.

Miss Anne Faubister., of Grand avenue, and Charles Remfrey will be united in marriage this evening at the home of the bride's parents. Miss Ella Faubister will be bridesmaid and Thomas Remfrey will be best man. Mr. and Mrs. Remfrey will leave this evening for a trip to Niagara Falls. They will make their home in West Duluth. The groom is an air brake inspector for the Missabe road.

WEST DULUTH BRIEFS.

The steamer Mary Mann will take a large picnic party to Zeuth park this afternoon, returning this evening. In the party will be Mr. and Mrs. L. A. Barnes, Mr. and Mrs. C. C. Salter and a number of Oneota people. The boat left West Duluth at 3 o'clock this afternoon.

The funeral of Mrs. Owen McDonald, which was held at the St. James church this morning, was largely attended, the decedent being widely known in this part of the city. Interment was made in the Catholic cemetery at Old Superior, and the procession that left West Duluth consisted of about four teams.

A quiet wedding took place at the St. James church this morning by Rev. Father Feeheley. The contracting parties were Miss Mickesh and Joseph Thomas, both well-known young people of this part of the city.

Mrs. Charles Silger, of 5715 Cody street, was pleasantly surprised yesterday afternoon by some thirty-five or forty ladies of the Royal neighbors. The afternoon was passed in social amusements, followed by refreshments.

Mrs. John Martin, of Brainerd, Miss., is visiting with Mr. and Mrs. Joseph Nelson, of Redruth street.

Miss Nygren has returned to her home in Fergus Falls, Minn., after a visit with her brother, S. J. Nygren.

Mr. and Mrs. William Rowe, of McKinley, who have been visiting at the home of Mrs. Axford, will leave tomorrow for their home.

Dr. and Mrs. I. T. Burnside have gone to Cameron, Wis., to visit friends until July 1.

Rev. W. J. Lowrie, the new pastor of the Westminster Presbyterian church, will soon be at home to his parishioners at 520 Fifty-eighth avenue west.

William Massingham, a writer of songs, who has been confined at the Red Cross hospital for some weeks past, sang some of his selections at the Congregational church Sunday morning and evening.

The members of West Duluth lodge No. 315, I. O. G. T., will visit Duluth lodge No. 37 this evening. A special program has been prepared by the uptown lodge. The local members will take the 7:30 car from the corner of Ramsey street and Central avenue.

The B. Y. P. U. is planning for an ice cream social at the home of Miss Georgiana Ross, 626 Fifty-ninth avenue west.

Mrs. John Missul, of Fifty-eighth avenue west, is entertaining Mr. and Mrs. Barney Crackenburg, of Brule, Wis.

The Lesure Lumber company will give its employes a holiday July 4.

Mrs. H. S. Wallen and family have joined Mr. Wallen at Sandstone.

Mrs. I. M. Merriam and Mrs. A. H. Merriam have returned from a visit in Iowa.

Miss Helen Lundberg will leave this week for Barnum to visit her parents.

The Epworth league of the Asbury M. E. church, will give a lawn social at the home of Miss Mallory Wednesday evening.

The ladies of the Oneota Methodist church will give an ice cream social on Wednesday evening in the parlors. All of the friends are invited to be present.

MAY MEAN HANGING

Evidence Against Charles Henderson Will Be Strong.

Some Speculation as to What His Defense Will Be.

Insanity May Be Pleaded, Also Unfaithfulness of Wife.

Charles Henderson, murderer of Ida McCormack, may not get off as easily as the two other murderers that have been tried in Duluth within the past few months.

The evidence and the case generally is stronger against Henderson than it was against Rivers or Karvo, whose terrible crimes are still fresh on the criminal records.

Henderson seems undecided as to the insanity dodge, or to put up a bold front, claim that he shot the McCormack woman because she was not faithful to him.

Those that have been watching him closely are of the opinion that he will

IDA McCORMACK.

try to spring the insanity dodge, but there is an abundance of evidence to offset this.

The body of the murdered woman is still at Durkan & Crawford's undertaking rooms. Friends are to bury her within a day or so and it is said that extensive arrangements are being made for the funeral. The date has not yet been announced.

The local police have made something of a record in apprehending murderers. In the last four killings the police have captured three of the murderers within ten minutes and the other was only at large about two hours.

A singular co-incidence in the McCormack murder is that Officer Robert Gillon arrested the murderer within twenty feet of the spot where he arrested Nelson Porter, the colored man that killed John Brown last winter. Porter's case was in self-defense, however, and in this particular the co-incidence is lost.

AT THE HOTELS

Hon. M. C. Palmer, of Virginia, and Editor Hannaford of the Virginia Enterprise, are two prominent range politicians at the St. Louis today. They both declare that the people up country are determined to have at least two places on the county ticket this fall or there will be a row and a rumpus. It is calculated that the Republican vote on the ranges is greater than that in Duluth and they desire a fair share of the offices. There is a strong sentiment of demanding the nomination of Mr. Palmer for clerk of the court, but that any other good office would suit as well as that, sheriff preferred.

"But," he added, significantly, "look out for a fight to a finish if the Duluth politicians disregard the just demands of the range folks."

* * *

A. E. Jefferson, president of the First National bank of Hudson, Wis., registered at the St. Louis this morning. He is a cousin of Ernest A. Jefferson of this city and the two relatives met today for the first time in five years. Mr. Jefferson has been making a tour of the different Indian camps along the north shore in company with Indian Agent Campbell, of Ashland, and he is as enthusiastic over the beauties of the north shore as ever he was. Every summer for years past Mr. Jefferson has spent part of the summer on Lake Superior and he declares that he enjoys himself more and more every time.

* * *

Indian Agent Campbell, of Ashland, and Chief Clerk Rodman were at the St. Louis today upon their return from a trip to Grand Portage and Grand Marais. The object of their visit to the Indians was to distribute among them some pork and flour, hoes, axes, a few plows and other agricultural implements. These are purchased with the timber money due the Indians and are not treaty distributions nor charitable donations.

Mr. Campbell found his wards in pretty fair shape except as regards the ever present evil of too much firewater. Affairs around Grand Marais, Agent Campbell says, are very bad in this respect, the Indians apparently being able to obtain as much bad booze as they can pay for and that in consequence they are not as well off as they might be, it they shunned the flowing bowl.

Later on Agent Campbell will again visit the Indians and pay them a portion of their timber money. This is done to help them through the winter.

* * *

Among the range people who came down to see the circus the following registered at the McKay: Julia Mahady, Mary Filewood, May Congdon, Bertha Congdon, Clara Culbert, Tower; Mrs. J. S. Likes, Biwabik; D. C. Cuppernull and wife, Virginia; Mrs. J. Seraphine, Mrs. J. Cosgrove, Mrs. Hill, Vi Lamb and Aggie Lamb of Ely.

* * *

J. C. Nolan, of the firm of Nolan Bros. & Laird, at Skibo, on the Iron Range road, is at the McKay.

At the St. Louis: F. C. Burgess, Tower; A. J. Greenleaf, Cleveland; E. G. Nevins, Winona; D. E. Elliott, Stillwater; S. W. Campbell, R. G. Rodman, R. A. Johnson, Ashland; J. R. Van Everd, Marquette.

DESERTED.

Olga Pries' Dream of Love Was Quickly Ended.

Kansas City, Mo., June 24.—Pretty Mrs. Olga Pries Churchill, who eloped with her husband, Harry Churchill, from her home in Omaha, and was married in Chicago, has been found in this city, hiding in a boarding house. She has been deserted and is ill. Their honeymoon was on the lake excursion boats.

Before she was found here she had supported herself for several months by clerking and canvassing, and was making her hard way in the world until she became sick a couple of weeks ago. She is improving and will soon be able to resume her work or return to her home in Omaha, as she may decide.

Two years ago Olga Pries was a student in the Omaha high school. Her social position was established, and she mingled in a set which, while not of the elite, was eminently select and influential in Omaha social circles.

In the same set and in the same high school was Harry Churchill, a good-looking and bright lad of 17 years, one year older than Olga Pries. The two were merely acquaintances until the day of a big football game between Omaha and another high school team. Harry was a star player, and he bore a prominent part in the day's struggle, until an accident stretched him stunned and almost lifeless on the field. When he fell there was a cry from a jauntily dressed girl in the grand stand, who had been shouting for Omaha with all her might.

When Harry Churchill came to his senses his head was in Olga Pries' lap, and Olga was holding a cup of water to his lips.

It was then that love was born. That chance accident made a mere friendly school acquaintance a deep and sincere affection. The bond was mutual and from the day of the game the two were sweethearts. Marriage was, of course, the next thing that suggested itself to the enamored couple.

But there were two mothers to be reckoned with. Mrs. Churchill was obdurate and Mrs. Pries was furious at the very thought of the marriage. There was but one ending to the matter. Harry and Olga crossed over to Council Bluffs, where they were married. The girl was locked up by her mother, but, after a few days, the vigilance was relaxed, and the couple got together enough money to go to Chicago.

Some months ago Harry Churchill returned to his home in Omaha, minus his wife. He gave as an explanation that a German oculist was paying too much attention to her, and that he was forced to leave her. Mrs. Pries became frantic with grief when she learned her daughter's whereabouts were unknown.

A READER OF MINDS

Is Joseph Reis Who Owns a Hotel In Baltimore.

Can Translate Language That He Does Not Understand.

Cannot Tell How He Reads the Minds of Others.

Baltimore, Md., June 24.—If you write a sentence on a slip of paper, roll it up, and place it against the forehead of Joseph Reis, a hotel proprietor of this city, he will repeat the sentence without a moment of hesitation.

The writing may be in a language that Mr. Reis does not understand, or may be in symbols of which he is ignorant; nevertheless, he will translate it.

He tells persons of what they are thinking, and altogether proves himself to be a mental wonder, whose powers have not yet been explained by men of science.

Mr. Reis, so far from being a professional mindreader, or from seeking to make money by his unusual powers, shrinks from even private demonstrations of his gifts.

He suffers physically from the strain of a "seance," and grows pale and nervous with the first test. He is 35 years old, of medium height, dark of complexion, and slender. He is unable to tell how he does the marvelous things.

Mr. Reis owns the Gilsey house, in Fayette street. He gave an exhibition before a few of his inmates the other afternoon, in the parlor of his hotel. There were present Dr. John T. McCarthy and Dr. Bishop, members of the board of police surgeons.

On this occasion he asked one of the witnesses to write three questions on as many slips of paper while he retired to another room. The witness did so, and then rolled the slips of paper and thrust them into his pocket. Mr. Reis then came into the room, and in quick, sharp tones told the writer to remove the papers from his pocket and place them against his (Reis') head. This was done, and immediately Mr. Reis repeated the questions and returned answers which were absolutely correct, even to the smallest detail.

In a second experiment Dr. Bishop wrote three questions on slips of paper. One one slip was a prescription in Latin, on the second the name of a member of the doctor's family, and on the third, the question, "Where am I thinking of going tonight?"

Mr. Reis answered the second question by spelling out the full name of the doctor's relative. To the question, "Where am I thinking of going tonight?" Mr. Reis replied, "To a dance." This the physician admitted to be correct. Mr. Reis then expressed in pharmaceutical symbols the quantities of each ingredient of the prescription written by the doctor.

In doing this, Mr. Reis asked in a very sharp tone, "Can anyone write Latin? I want to dictate, but not to Dr. Bishop."

Dr. McCarthy offered to do the writing in Latin. The mind-reader very slowly dictated the following, spelling out each ingredient:

"Salicylate of soda, 1 dram; pyrophosphite of iron, 1 dram; phosphate of soda, 1 ounce; aqua, 6 ounces; tablespoonful every four hours."

Mr. Reis will soon give an exhibition before leading New York physicians. In speaking of his remarkable powers to a correspondent, he said:

"I have possessed this gift for many years, but of late it has become more pronounced. I cannot give public performances owing to the very bad effect it has on my health. For this and other reasons I do not care about too much publicity."

"Do you see the questions?" was asked.

"Yes and no," he said. "I see them and I don't see them. I could not for the life of me tell how I do the readings. I am perfectly willing to go before members of the Johns Hopkins university, as it has been suggested to me to do, and have them make an effort to solve the mystery."

"The man is a phenomenon," said Dr. Bishop, "and for the benefit of the whole medical profession, which is interested in matters of this kind, I hope we can take him over to Johns Hopkins university for a mental test before the learned physicians there.

"Whatever his power is, it is no doubt genuine."

PALMER-WHITE COMPANY
THE BIG GLASS BLOCK STORE
DULUTH, MINNESOTA.

WEDNESDAY MORNING

WE SHALL OFFER FOR INSPECTION

—None to Be Sold Until Thursday.

Ladies' Hats worth from $2.50 to $3.25

At 95c.

Ladies' Hats worth from $3.50 to $6.50

At $1.59.

Ladies' Hats worth from $6.50 to $9.50

At $2.69.

1272 Beautiful, Stylish and Genteel Trimmed Hats

Purchased from Frederick Michaels, one of the largest high-class Millinery Importers in America. They will be ready for public inspection tomorrow morning at 8 o'clock—not a hat to be reserved or sold until Thursday morning. The collection includes some of the most beautiful and fascinating genteel summer creations brought out this season, most of them being copies from patterns designed by the most famous French designers. The most discriminating will be able to get something to her liking from this gigantic Millinery assemblage.

You can form an idea of the values of these Hats when we tell you that the original wholesale prices were from $18.00 to $72.00 per dozen, and would retail, if bought from us, at our regular profits, at 25 per cent more.

THIS IS BY FAR THE LARGEST AND MOST IMPORTANT MILLINERY PURCHASE EVER MADE BY ANY STORE IN MINNESOTA, AND WE ARE GOING TO MAKE IT THE MOST SENSATIONAL MILLINERY SALE EVER HELD WEST OF CHICAGO.

For the convenience of our patrons we have arranged to exhibit these hats all day tomorrow, as follows:

ON BARGAIN COUNTER 1 will be shown the Hats that are to be sold Thursday at **95c**

ON BARGAIN COUNTER 2 will be shown the Hats that are to be sold Thursday at **$1.59**

IN OUR LADIES' WAITING ROOM, Second Floor, will be shown the Hats that are to be sold Thursday for **$2.69**

We heartily invite everyone to come out tomorrow and view the most elaborate Millinery exhibition ever seen in this city.

To see the most remarkable Millinery values ever known in Minnesota—

To see many new French styles in Summer Millinery that have not yet been introduced in the West.

It is not a question of HOW MUCH we can get out of these Hats from our patrons—BUT HOW QUICK WE CAN SELL THEM. At the prices we have placed on them the entire lot of 106 dozen should be entirely exhausted by Saturday night—and we believe they will.

BARGAIN COUNTER 3.—TOMORROW ONLY.

Stoves and Ranges FOR SALE

VARICOCELE

Cured without Cutting, thus avoiding the horrors of surgery.

Whatever may be the cause of varicocele, its injurious effect is well known. It depresses the mind, weakens the body, racks the nervous system and ultimately leads to a complete loss of sexual power. If you are a victim of this dire disease, come to our office and let us explain to you our process of treating it. You will then not wonder why we have positively cured hundreds of cases of varicocele during the past twelve months. Under our treatment the patient improves from the beginning. All pain instantly ceases. Soreness and swelling quickly subside. The pools or stagnant blood are forced from the dilated veins, which rapidly resume their normal size, strength and soundness. All indications of disease and weakness vanish completely and in their stead comes the pride, the power, and the pleasures of perfect health and restored manhood.

The longest established, most successful and reliable specialist in diseases of men, as medical diplomas, licenses and newspaper records will show.

We also Cure to Stay Cured

CONTAGIOUS BLOOD POISON, STRICTURE, NERVO-SEXUAL DEBILITY, RUPTURE, KIDNEY AND URINARY DISEASES.

And all associate diseases and weaknesses of men. We charge nothing for private counsel and give to each patient a LEGAL CONTRACT to hold for our promise. It is worth your while to investigate a cure that has made life anew to multitudes of men.

If you cannot call at our office write your symptoms fully.

CITY GUN STORE, 402 W. Superior St. R. C. Kruschke.

CROWDED.

Street Railway Company Pushed to the Utmost Yesterday.

The street railway company was probably taxed more last evening to handle crowds than at any other time since the tracks were laid in this city. Not only were there the immense crowd of people to handle at the circus grounds in the West End, but by the time the people were coming back from the circus the crowds were just going home from the Lyceum, where Richard Mansfield played last evening. The fact that neither of these two attractions will appear in West Superior drew about 2500 people from that city yesterday, and these were mostly accommodated by street car, although a few came by train.

At the close of the circus last evening there were about twenty-five cars standing between Twenty-eighth avenue west and the ore dock, six or seven bound westward and the rest headed uptown. Every car was packed within a very short time, and hundreds of people were forced to wait until the cars returned from West Duluth or switched back from some uptown point.

At Garfield avenue there was another congestion, caused by West Superior people transferring, but this was cleared up by a string of extra cars by 11 o'clock. So far as can be learned, there was not an accident last evening on the street car line. The cars were handled cautiously and, considering the big crowds, quite expeditiously. Yesterday was probably the best day that the street railway company has ever experienced. Every bit of available rolling stock was in use, as well as all the men on the extra list.

Wisconsin Central Trains

Reach Chicago, Milwaukee and all principal points in Wisconsin and make connections at Chicago with all trains for Eastern and Southern points. Travelers from the head of the lakes will find comfort and satisfaction in this popular route. Detailed information may be had by consulting with M. J. Bryan, general agent, 430 West Superior street, Duluth.

No Gripe, Pain

Or discomfort, no irritation of the intestines—but gentle, prompt, thorough healthful cleansing, when you take

Hood's Pills

Sold by all druggists. 25 cents.

NEEDS IMPROVEMENT.

Twenty-First Avenue West Dock Too Small.

There is a marked agitation among the business interests of the West End for an improvement of the Twenty-first avenue west dock, on the bay front. Ever since the dock was built it has been used a great deal, and more so since the closing of the Twentieth avenue freight station. Complaint has been frequent that the approach to the dock is too small, and that the dock itself should be extended and repaired. It is claimed that the attention of the board of public works has been called to the dock through the street commissioners, but that nothing has yet been done to remedy the situation. It is being urged that the business men's club take up the matter.

BOLIVIA INSISTS

On Her Rights to Lease the Acre Territory.

New York, June 24.—A dispatch from LaPaz says the Bolivian government has verbally notified the Brazilian minister that Bolivia insists on her right, cables the Buenos Ayres, Argentina, correspondent of the Herald to lease the Acre Territory over which the two nations have been in dispute, but nevertheless will rescind the contract with the Anglo-American syndicate, if the government of Brazil insists.

The Jornal Do Brazil of Rio Janeiro says reparations are afoot to bring about a revolution in Brazil before the establishment of the new administration of Rodriguez Alves, the president-elect.

All say Satin-Skin Powder is best because adhesive, invisible, harmless. Flesh, white, brunette tints, 25c.

MARY OTIS TO MARRY.

New York, June 24.—Miss Mary Otis, eldest daughter of Gen. and Mrs. Elwell S. Otis, and Ralph Isham, of Chicago, will be married here this afternoon, says a dispatch to the American from Rochester. The ceremony will take place in Trinity church and will be followed by a reception at the Otis homestead, on Lyell avenue road, just outside the city.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

The uniform success of this remedy has made it the most popular preparation in use for bowel complaints. It is everywhere recognized as the one remedy that can always be depended upon and that is pleasant to take. It is especially valuable for summer diarrhoea in children and is undoubtedly the means of saving the lives of a great many children each year. For sale at Boyce's drug store.

THE ART OF ANGLING

Is Discussed By Professor Grover Cleveland of Princeton.

When He Talks About Fishing His Eyes Kindle.

Biggest Fish Story He Ever Heard Related to Jonah.

New York, June 24.—This interview was given to the World by Professor Grover Cleveland at his home in Princeton. Professor Cleveland—he is always given his academic title in the university town—is one of the foremost anglers in the United States. He has also gained distinction as a hunter of ducks, but his triumphs with a shotgun cannot equal those with the rod, and he prefers fishing. In Princeton they call him the dean of American fishermen, the only angler this country ever produced who is worthy to be ranked with Izaak Walton.

When Mr. Cleveland talks about fishing his eyes kindle, and the somewhat ponderous utterances which characterize his political statements give way to a lightness and grace and suppleness that show a side of his character known only to his intimate friends.

It may me remarked incidentally that the University Press is to father a book on angling by its professor of practical politics, in which will be set forth the ethics of the sport. Mr. Cleveland makes a hobby of that, and it was natural enough that he should forthwith speak of them.

"The whole matter shimmers down to this," he said. "There are fishermen, and there are hog fishermen. The hog fisherman is closely allied to the squaw fisherman, and both should be ruled out of the fishing fraternity for all time.

"These persons lack the finer perceptions and instincts which are inseparable from an honest love and enjoyment of the art. They lack the essential requisites which make the real fisherman, who is a credit to himself and to his country.

"There is a difference between the hog fisherman and the squaw fisherman. The former may be skilled with rod and line, but he has neither forbearance nor moderation. He is never satisfied with filling his creel with a fair catch. He wants everything in sight and under the waters. He is nothing more than a hog. There is no other name that fits him so well, and it does not carry with it half the opprobrium the creature deserves.

"The squaw fisherman has no love for the sport. He does not derive any real pleasure from it. He takes it up as a fad or to acquire a reputation. He only wants to catch fish to boast about it. He does not catch many, as a rule, and he is given to whining about his ill luck. He scoffs at a rousing good fish story, and is prone to give advice about things of which he is really deeply ignorant. His sole capital is his tackle and a little fish language. You may accept it as a sound proposition of angling that when a fellow boasts of the enormous number of fish he has caught, or whines about his hard luck, that he either is a hog fisherman or a squaw fisherman, and that he should not be accepted as a true angler."

It was not so long ago that Mr. Cleveland went South while suffering from a severe attack of rheumatism. In fact, his health gave his friends serious concern. He returned in excellent spirits. He was asked about it.

"You may quote me as saying that fishing is one of the finest means I know of preserving one's health. It is bound to keep one in the finest physical condition. During my last trip South I spent a month along the Florida coast angling for deep sea fish, and I cannot tell you how much good it did me. It completely thawed out my rheumatism, and I had the exhilarating satisfaction of knowing that old age has not yet affected my ability to land a gamy sea bass or a bouncing big drum.

"I am profoundly convinced that if a fisherman is of the true strain his good health and his angling propensities will go hand in hand. It is not all lazy work. It is true that a man may sit in a boat all day long, but that same man may be up with the lark and tramp the whole day long, wading up rocky streams after trout or fighting it out to a finish with a warlike salmon. The guild knows a fisherman for what he is, and its members do not jump at the conclusion that the fisherman who sits in a boat or on the bank of a stream for several days in succession is lazy. They understand and make allowances for any seeming manifestation of bodily and mental weariness.

"As for myself, I don't wade and tramp as much as I used to in the old days when I made my big catches of black bass in the Niagara river. Even now it stirs my blood to recall the exciting battles I had with those gamy bass in the years when I was nearing manhood. I have caught bigger fish since then, but I have never been able to tell bigger fish stories than in those days.

"It is well to remember that it is not wise to put much faith in the fishing abilities of a man who tells you that it has taken an hour or more to land his fish. Of course, that does not apply to tarpon and monsters like that. But as a rule, when a man tells you that it was only after a desperate battle and a tremendous expenditure of energy that he landed his leviathan, you will be justified in recalling the old story about the fish at one end of the line and the fool at the other.

"Not that I decry a good fish story, but among the true anglers it must be a first-class yarn to be admissible. I am convinced that the telling of a good angling story is second only to the ability to show a creel that is evidence of one's skill with rod and line.

"'My biggest catch?'" repeated Mr. Cleveland. "It is rather a difficult question to answer. Last year I landed a 25-pound drum when I was down in Virginia, but bigger ones have been caught there. I remember losing one that must have weighed forty or fifty pounds, from the stress and strain on the rod. I will never cease to regret losing that fish, because I wanted Admiral Evans to suffer at the sight of it. But the confounded line got caught and the fish escaped. Yes, I swore. Under those circumstances it is permissible, and, in fact, incumbent upon the true fisherman. But it must be mild and measured. The phrase is a part of the rubric of the disciples of Walton. I uttered them slowly and impressively—'Damn that fish!'"

Mr. Cleveland pondered for a moment when he was asked about the biggest fish story he had ever heard, and it did not appear that he was thinking of the fact that he is now a member of the faculty of a Presbyterian university, for he said:

"The Biblical story concerning Jonah and the whale has always been regarded as the epitome of the fisherman's art in story telling, and I am not at present prepared to refute it, yet at the same time I do not doubt that there is ability in every true fisherman to relate a narrative of personal experience which, if not commensurate in the size of the fish and certain other matters relating to Jonah and his unique experience, at least would bear their personal repetition.

"The most exciting experience that I have ever had upon a fishing trip occurred a year or two ago in the Cape Cod country. I had been trouting in a preserve stream and became so intensely interested in the fascinating sport of landing the speckled beauties—that I unintentionally and inadvertently wandered beyond the preserve and into the territory of a crabbed old tiller of the soil, who had his property by primogeniture and had no more perceptions of the charms of trouting than some resident of the great Sahara.

"And so it happened that just as I had succeeded in hooking a beauty that could have weighed no less than two pounds, I was approached by the agriculturist, who, armed with a murderous looking scythe, gave me three minutes to leave his lands. I was forced to beat a hurried retreat with the trout and five yards of my best line still remaining in the old curmudgeon's stream.

"I am willing to make the statement that while I thoroughly enjoy trouting and drum fishing, my favorite fishing has always been for black bass. I have found them to be the gamest fish I have ever come in contact with, and when I hear the name mentioned it brings in train whole troops and legions of the days of my boyhood.

"What could be greater sport than to camp along the bank of some mountain creek or river, to rise with the dawn, and then garbed in heavy wading shoes, a pair of linen trousers, a shirt and a straw hat, shoulder one's rod and start for the haunts of the big fellows that love to lurk under the shadows of great rocks, and from the depths of dark pools dash at the minnow or little catfish and finally come flashing from the waters and find a place upon your string or in your creel?

"I have always found that in fishing for black bass a certain amount of wading is imperative. Often the biggest fish are found lying at the bottom of swift moving water, and can only be reached by wading out to one's armpits, and there patiently waiting until the sudden tug on the line gives evidence that a big fellow has been safely hooked. This summer I propose to have some royal sport up on Buzzard's bay, and live over again the days when I was a boy."

The Pleasant Part...

We want you to feel that everything in our store is of such a character that there will be no cause for dissatisfaction with it after the money is paid for it. That is the fact. It is the pleasant part of our business that so many of our customers come in say: "Well I always feel satisfied in buying anything here."

It has been our constant aim for years to estanlish such a reputation—and you can appreciate our gratification at the accomplishing of our long cherished aim.

Paine's Celery Compound

DR. PHELPS' Wonder-Working Medical Prescription.

Mrs. Jennie H. Steele, says: "I Feel That It Has Saved My Life."

Paine's Celery Compound is the world's great leading medicine and life saver. It has no equal for feeding exhausted nerves; it stands first as a builder of the weak and shattered nervous system.

Paine's Celery Compound has long ago proved its power as a banisher of dyspepsia, rheumatism, neuralgia, kidney disease, liver complaint, and as a purifier of the blood. Thousands of men and women, tired out, sleepless, nervous, morose and despondent, have been given perfect health, strength and buoyancy of spirits through the well advised use of Paine's Celery Compound. It has given a new and happy life to a vast number of people who were tired of life and suffering.

If your health is impaired; if you are burdened with any weakening or painful malady, use Paine's Celery Compound today; it is specially adapted for your case; it will make you well and strong. Mrs. Jennie H. Steele, Vaughns, Ga., writes thus:—

"I have suffered for ten years with what the doctors call neuralgia of the liver, and never had any relief from their medicines or anythings else until I began using Paine's Celery Compound. I have taken about three bottles and have not suffered any since I first began to take it. I feel that it has saved my life, and hope all who suffer as I have will give Paine's Celery Compound a trial."

SUPPLY OF PINE

J. C. Bradley Discusses State of White Pine In Northwest.

When Lumbermen Talk of Waste, Timber Is Getting Scarce.

Coast Timber Coming More Rapidly to the Front.

"I notice that there is beginning to be more or less talk among the lumbermen of the Northwest relative to the waste of white pine," remarked J. C. Bradley, a Northern Michigan lumberman who was in the city yesterday, and who was for many years interested in the white pine industry in that state.

"The fact is that you never begin to hear lumbermen talk of waste until the end of the supply begins to come in sight. As long as timber is plentiful, the lumbermen will cut right and left, often cutting down trees that were never cut up into logs or sawed. That practice is growing decidedly less nowadays and, as a rule, you will find the manufacturers everywhere cutting up into lumber pine logs that years ago they would have rejected as being too small.

"There are two sides to the argument that the close cutting of timber is a waste, for there are many cases where an attempt to cut the logs more closely or to take into market a greater proportion of logs would increase expenses materially without bringing the lumberman a corresponding return.

"As a matter of fact I believe there have been many cases where the methods regarded by some as wasteful were actually economical, not taking into consideration the question of conserving and maintaining timber supplies.

"It is claimed, I believe, that wasteful methods are found more among the manufacturers of the yellow pine in the South, where they have so much timber in sight that the spirit of wastefulness is encouraged, but it seems to me that the manufacturers there should take advantage of the experience of the northern lumbermen who have stripped so great an area of the country of its pine and who can now see where with more economical business methods they could have utilized much more lumber that was left in the log to rot.

"Aside from a few remaining white pine tracts in the upper peninsula of Michigan that are fast being cleared away, Michigan is losing the prestige she once had in lumber circles. The eyes of the trade in the East are turned more now to northern Wisconsin and Minnesota, but a few years more at the present tremendous rate of production will make a big difference in the white pine supply of the Northwest. I believe it only a question of a few years more before the west coast of the country will become the center of the white pine industry. The west coast manufacturers are already cutting into our business in spite of almost prohibitory freight rates, but the time is coming when the far West will be looked to for the supply.

"It should be remembered, however, that there is the yellow pine trade of the South to take into consideration, also. Wherever yellow pine can be used as a substitute for white pine in these days you will notice that it is being done. The Western white pine or the Southern yellow pine will never compare in quality with the white pine of northern Michigan, Wisconsin or Minnesota, but with the decreased supply and production of the latter is bound to come the increasing trade of the other pines, and the supply is an immense one.

"There are many northern lumber manufacturers that have bought up immense tracts of yellow pine in the South to which they will turn their attention as soon as they have finished their cut in the North."

UNDECIDED.

Democrats Not Agreed on Selection of a Candidate.

L. A. Rosing, H. P. Hall, Capt. Harries, C. O. Baldwin P. M. Ringdal.

That is the long roll of possibilities that will confront the Democratic state convention when it meets in Minneapolis tomorrow afternoon. What the choice will be no man can tell today. There may be other names yet presented, and the final choice of the convention might be a dark horse. It may be anyone of those named, for they all have friends and admirers who think their favorites are the strongest men that could be picked out.

The Duluth delegation is divided on second choice, though pledged to vote for John Lind. Probably if Senator Baldwin would give his consent there would be no trouble about giving him the united vote of the delegation, and it is very likely that he will get a complimentary vote, anyway.

There will be caucuses in Minneapolis tonight, where the party leaders will get together and talk the matter over, and some definite plan, or at least some idea of what seems to be the best thing for the convention to do will doubtless result from them.

Most of the delegates got away this afternoon on the Eastern and Northern Pacific noon trains, and they will be back Thursday morning.

* * *

The St. Louis county delegation to the Republican convention will go down to get Odin Halden nominated for state auditor, if it is possible, and it will work entirely toward that end. Its vote on the rest of the ticket will be used to the best advantage to Halden, and while there are no great possibilities as to trading, there is some, and what there may be will not be lost.

* * *

W. E. McEwen, of Duluth, is now being discussed for railroad and warehouse commissioner instead of state auditor. It is very likely that he will be given a place on the state ticket.

YOUR CREDIT IS GOOD

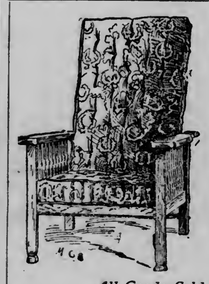
Low Rent Makes Low Prices.

The ability to sell goods at low prices is a matter of the relation of expense to the amount of business done. Our rent here on First Street—for the largest retail store of any sort—is less than half what it would cost on Superior street.

The space and conveniences are such that a large business is done at a small precentage of expense—consequently a great saving to you when buying furniture and household goods.

It's a rule that works both ways. Low prices mean large business. Large business means low prices.

The Largest Retail Store of Any Kind in Duluth.



Morris Chairs.

An elegant Morris chair, finished in Golden Oak—cushion upholstered in velour (assorted colors) and moss filled—adjustable back—well and substantially made. A chair that would sell in the ordinary store at $8.50 to $10. This week we offer this chair at the exceptionally low price of

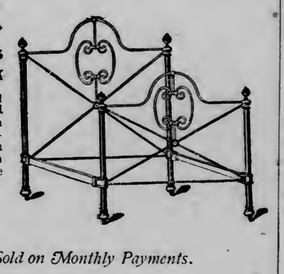
$5.85

There are others up to $35.00.

All Goods Sold on Monthly Payments.

Iron Beds.

All sorts in this well selected stock



Full size white enamel Iron Bed—strong and well finished—neat in appearance. Bed similar to cut. Priced in the usual store from $2.75 to $3.00. Our price this week only—

$1.95

All Goods Sold on Monthly Payments.

BUCK'S STOVES & RANGES

Blue Flame Oil Stoves

The stove for warm weather. The most perfect oil stove made. Perfectly safe—economical and quick bakers. We will be pleased to show you this stove in operation. We have them in the one, two, three and four burner size.

All Goods Sold on Monthly Payments.

French & Bassett
DULUTH, MINN.

ARRESTED HIMSELF.

A policeman swearing out a warrant for his own arrest on a charge of violating a village ordinance, serving it on himself and then going into police court and pleading guilty, was a proceeding that created a sensation in Norwood, says the Cincinnati Enquirer. Officer Joseph Bellamy, who is on night duty in that village, had a number of improvements made about his home on Crown avenue that necessitated the use of a large quantity of sand. This was allowed to accumulate in the street in front of the house, and to comply with a village ordinance a red light should have been placed on it at night. Officer Bellamy, however, forgot to place the lantern on the sand pile, an oversight that had never been accepted as an excuse from the many contractors he had arrested for violating the same ordinance. He manfully accepted the disagreeable situation in which he found himself, without attempting to avoid the penalty, and Police Judge Kemper, in whose court he was given a hearing, fined him $5 and costs.

BROKE LONG SILENCE.

After four years of silence, Jerry Chauteau, a picturesque character in the criminal circles of Illinois, Missouri and Kansas, spoke here to thank the officers who convicted him, says a dispatch from Fort Scott, Kan., to the New York Journal. He had resolved, upon his conviction four years ago, to not utter a sound until he had killed the officers. In his four years of absolute silence he reformed and continued his silence until he could thank them.

He formally expressed his thanks today to the prosecuting attorney, and at the same time confessed thefts, in his twenty-four years of crime, aggregating $70,000. He has spent fifteen years in Illinois, Missouri and Kansas penitentiaries, and seven years in the asylums of the state, having feigned insanity to escape prison. His home was in Macon county, Ill. In Missouri, years ago, he stole an entire herd of cattle. In his confession he mentions Nevada and other Missouri towns where he worked. Seven wardens of penitentiaries are named as having kept him at different times.

THE WEATHER.

United States Agricultural Department, Weather Bureau, Duluth, Synopsis of Weather conditions for the twenty-four hours ending at 7 a. m. (Central time), June 24.—Light and scattered showers fell over the lake region, central valleys, Florida, Manitoba, Alberta and Oregon. The depression central Monday morning over Oregon has increased in depth and has moved to Eastern Montana, causing a general decrease in pressure in districts inland. The barometer is high off the Atlantic and Pacific coasts. The temperature changes during the past twenty-four hours were generally slight. In the lake region the winds are becoming variable, but continue mostly westerly and generally fresh.

Maximum temperatures for the past twenty-four hours:

Abilene	96	Marquette	62
Battleford	74	Memphis	90
Bismarck	79	Miles City	86
Boston	70	Milwaukee	68
Buffalo	58	Minnedosa	72
Calgary	70	Modena	86
Charleston	80	Montgomery	88
Chicago	66	Moorhead	74
Cincinnati	72	New Orleans	88
Davenport	64	New York	74
Denver	94	North Platte	82
Detroit	66	Oklahoma	86
Dodge City	86	Omaha	76
Duluth	74	Pittsburg	74
Edmonton	74	Port Arthur	68
El Paso	100	Portland	72
Escanaba	66	Qu' Appelle	72
Galveston	84	Rapid City	74
Green Bay	72	San Francisco	70
Havre	78	Santa Fe	98
Helena	82	Shreveport	88
Houghton	68	Spokane	84
Huron	68	St. Louis	76
Jacksonville	86	St. Paul	72
Kamloops	94	Sault Ste. Marie	66
Kansas City	92	Washington	72
Knoxville	78	Williston	74
La Crosse	74	Winnemucca	92
Los Angeles	94	Winnipeg	70

Local forecast for twenty-four hours from 7 p. m. (central time) today: Duluth, West Superior and vicinity: Partly cloudy and cooler this afternoon, tonight and Wednesday with possibly showers. Fresh to brisk northeasterly winds.

H. W. RICHARDSON,
Local Forecast Official.

Chicago, June 24.—Forecast till 7 p. m., Wednesday: Minnesota—Partly cloudy tonight and Wednesday, with probably showers. Warmer in south and west portions tonight.

Wisconsin—Party cloudy tonight and Wednesday with showers. Rising temperature.

The Dakotas—Showers tonight and possibly Wednesday. Warmer tonight.

Upper lakes—Winds generally becoming southerly except easterly on western Superior. Partly cloudy tonight and Wednesday with probably scattered showers.

A Severe Drouth in Australia.

Australia has suffered seven "lean" or dry years, but this has been the worst, the long dry period culminating in a veritable drouth. The losses from this cause are reported as having been enormous already, and will be far greater unless abundant rain falls soon. The Sydney correspondent of the London Mail estimates that in the seven years the loss in livestock alone amounts to $5,000,000. Men thrown out of employment on the parched ranges flock into the cities, where there is nothing for them to do, and state governments have been obliged to provide means for their relief. The drouth has been general, portions of New South Wales and Riverina only escaping serious consequences. The rivers are dried up, and sheep, rabbits and other animals have died in countless numbers. One man started with flocks amounting to 1,000,000 sheep to reach a watered district, leaving a large portion of them scattered dead along the way. When such stories are read of losses, famine, suffering and wholesale death in other lands, inhabitants of such a country as most of the United States, and especially Northern Minnesota, may readily recognize the fact that they have very much to be thankful for.

Increase of the Gold Output.

It is predicted as a possibility, not as an assured fact, that within the next twenty years the annual output of the world in gold may reach $500,000,000. This on its face might seem to be a ridiculous prediction but a study of the present and past conditions in the production of the precious metal will show that it is not at all impossible. Director Roberts, of the United States mint, estimates that peace in South Africa will add $100,000,000 a year to the world's output of gold. The Rand mines had about reached that murk when hostilities practically closed them. Mr. Roberts still believes that South Africa can easily increase its gold production beyond any former figures. The world's highest yield of gold was in 1899, when the total reached $307,000,000. War sent it down in 1900 to $225,000,000 and about the same aggregate was reached last year. But for the Boer conflict the world's gold yield would now be $350,000,000 annually and that total may be expected before many years. The United tSates can feel easy as to its share of fresh gold. Its output in 1890 was $33,000,000, and Mr. Roberts places it this year at $85,000,000. Australia's gold production is about equal to that of this country. It is an important fact that the great bound upward in the world's gold production is a development of the last ten years. Mr. Roberts gives the average from 1851 to 1860 at $132,000,000 a year; from 1861 to 1870 at $126,000,000; from 1871 to 1880 at $115,000,000, and from 1881 to 1885 less than $100,000,000. In 1890 the total was $118,000,000. Since then the total has mounted rapidly to from $250,000,000 to $300,000,000, of which nearly a third is used in the arts and industries. Last year the total amount of gold coin in the world was $5,000,000,000, an increase of $1,000,000,000 in the last ten years. This increase has stimulated business and industries and the more gold that is produced the better off is the world. The people can stand even a phenomenal increase. There is benefit in it for all.

THE VAST LAKE TRADE.

Most people who watch the ships coming in and going out of Duluth harbor, loaded down with merchandise and with the products of the farm, the forest and the mine, have but a very slight conception of the magnitude of the commerce whose movement they are witnessing. Taken singly, the cargo of a large freighter, great though it may be in tonnage as compared with the cargoes carried only a few years ago, does not prepare the casual observer for the enormous figures which the aggregate trade of Duluth harbor and of Lake Superior present.

The season of navigation is now so far advanced that it is possible to make fairly close estimates as to the total commerce of this year. The Marine Review, which is good authority on the subject, claims that if there are no radical changes in business conditions before the close of the present season of navigation on the great lakes, the 30,000,000-ton mark in the freight movement to and from Lake Superior will be exceeded. In fact, the present rate of traffic through the two canals rather indicates a total movement of 31,000,000 to 32,000,000 tons, compared with 28,403,065 tons in 1901, 25,643,073 tons in 1900, 11,214,333 tons in 1892, ten years ago, and only 2,029,521 in 1882, twenty years ago. The traffic in May aggregated 4,425,659 tons, and for the season to June 1 the total is 6,764,893 tons, as against 2,248,045 tons to June 1 a year ago, and 4,565,879 tons to June 1, 1900. The combined traffic of United States and Canadian canals at the Sault to June 1 for three years past is shown in detail on leading items as follows:

	To June 1, 1902.	To June 1, 1901.	To June 1, 1900.
Coal, anthracite, net tons	96,521	107,168	135,082
Coal, bituminous, net tons	940,645	360,086	721,958
Iron ore, net tons	1,458,312	1,172,582	2,733,525
Wheat, bus	18,761,176	5,359,542	14,596,221
Flour, barrels	1,570,438	921,573	1,191,183

Every item of freight shows an increase over last year. There was more copper, wheat and other grain, flour, iron ore and lumber carried eastward this year to June 1 than a year ago, and more coal, salt and unclassified freight came westward. The total number of vessel passages to June 1, 1902, was 4604, and the registered tonnage 6,276,044. These are large figures and tell the interesting story of the mighty commerce of the lakes.

THE FRIARS' LANDS.

The practical settlement of the question of the purchase of the friars' lands in the Philippines, by Governor Taft, is a matter for general congratulation. Now that the matter is settled the officials at Washington make no effort to conceal the fact that there were formidable obstacles to the task. There is no concealment of the fact that secret influenes have been at work in this country and at Rome in an effort to defeat the deal for the transfer of the friar lands to the United States. Two of these influences were sufficiently potent to seriously interfere with the negotiations and at one time threatened to end them entirely.

One source of opposition came from Catholics in America who have been opposed to Archbishop Ireland's prominence in the preliminary negotiations. The other and stronger influence was the opposition of a very large number of people and church organizations to any action that would be a recognition of the pope as a sovereign power. These influences were quite effective for a time, but were finally overcome by the exercise of an admixture of business and diplomacy that has accomplished the result which is so satisfactory to Washington authorities. The opposition to recognition of the vatican by this government was first manifested when Archbishop Chappelle, of New Orleans, was sent to the Philippines as the representative of the pope, had been encouraged to believe that if the archbishop's mission was successful the vatican might be rewarded even by the reception of its representative in diplomatic circles at Washington.

The utter impossibility of such a condition, while very clear to Americans, seems to have not been clearly understood at Rome, or in the Philippines. President McKinley openly encouraged the mission of Archbishop Chappelle, because he hoped it would have a good effect in bringing about the pacification of the islands. He did not, and could not, accept the service from any Protestant religious organization which promises to produce the same result—as a private act, invoked to bring about the result. After the failure of Archbishop Chappelle's mission, Archbishop Ireland undertook to secure recognition of the church at Rome as the power with which the United States would have to deal in the settlement of the friar land question. Recognition of the church officially was not considered. The question came up as a pure business proposition and President Roosevelt, Governor Taft and Secretary Root realized that it would be necessary to find somewhere the vested authority to transfer the titles to the lands. But the spirit of criticism and the secret influences were still so strong that at one time the war department practically announced that it could never deal with Rome through a commission or otherwise. Archbishop Ireland persisted, however, and brought the government to a realization of the concrete fact that the title to the church lands in the Philippines is vested in the pope as the sovereign head of the church, and that the title to the lands could be secured only through him.

After the disturbing influence was removed the rest was easy, and the settlement of the whole affair is a matter of congratulation to all concerned.

THE IRRIGATION LAW.

Since the irrigation law was passed by congress, considerable interest has been taken in the manner in which it will be executed. Those who thought that an irrigation bureau would be appointed to handle the matter will be very much disappointed, for it has been decide that the new law will be carried out by the secretary of the interior through the geological survey. Charles D. Walcott is its director, while to Frederick H. Newell, the chief of the hydrographic bureau, will fall the immediate direction of the irrigation work. This removes any danger of the work's falling into the hands of untried men. Mr. Newell, who has been in charge of the hydrographic work for fourteen years, entered the geological survey under Maj. Powell, who may really be said to be the father of the national irrigation policy, and whose great conception of the marvelous possibilities of the arid region under a national plan for its development seems now about to be realized.

A reasonable set of safeguards seems to have been about the measure to satisfy even the opponents to the law. The act sets apart the proceeds of the sale of lands in the arid and semi-arid states as a revolving construction fund in the treasury, and authorizes the secretary of the interior to use it for the construction of irrigation works for the reclamation of the arid public lands. The lands reclaimed are to be reserved exclusively for actual settlers only, under the homestead law, who must live on the land for five years before they can get a title. The total cost of each system of works is to be a charge against the lands reclaimed under it, and each settler must pay back to the government, in ten equal annual installments, his proportion of the cost of the works. The entire investment of the government in each system would therefore come back to it in ten years' time, and as it came back, from year to year, it would be available for the construction of new works.

A fund will accumulate rapidly in this way. With the average receipts from sales of new lands of $2,500,000 a year, the amount available from this source for the first ten years would be $25,000,000. In the second ten years practically this same amount would come in, and the $25,000,000 invested during the first ten years would come back, and all would be reinvested in new works, making a total investment in the second ten years of $50,000,000. In the third ten years another $25,000,000 would come in from fresh sales, and the whole $50,000,000 invested in the second ten years would come back for reinvestment. This whole sum could be reinvested again and again, until the vast area of irrigable arid public lands has been reclaimed and settled. This, at least, is the way the irrigationists explain the operation of the new plans.

It seems that much good can come of the plan. Those benefited must pay, although of course some will be benefited who settled earlier on the lands, but even they will have to pay a certain amount for water privileges. On the whole the measure seems a good one, and much good should result.

James Boyle, United States consul at Liverpool, has made a report to the state department on "Municipal Socialism in Great Britain" which contains valuable information on an acute issue. "There are now in Great Britain," says Mr. Boyle, "921 municipalities owning waterworks, ninety-nine owning the street railroads, 240 owning the gasworks and 181 supplying electricity. Most of these are in England. Municipalities were not allowed to work the tramways until 1896. It is estimated that half of the gas users in England use municipal gas."

The first session of the national house of representatives to be held on Sunday, will be on the 29th inst., the session to be devoted to the delivery of eulogies upon the life, character and services of the late Representative Amos J. Cummings, of New York. The holding of Sunday sessions for the delivery of eulogies upon deceased members had been advocated for some years, but did not, until last Tuesday, meet with the approval of a majority of the members.

In considering the honors of the campaign, a controversy now in progress down in Morris county, Kansas, must not be overlooked. A local paper declared that one of the four candidates for representative is subject to fits. A leading politician gets into the White City Register with the comment that even if the story is true it would make no difference; that "the best representative Morris county ever had in the legislature was subject to fits."

A Washington dispatch says the officials there seem to have gone title mad and congress is flooded with bills permitting the acceptance of decorations from foreign governments. Congress should refuse to pass these bills. Foreign titles do not go well with American citizenship. But the craze for these gewgaws is the natural result of imperialism.

An average speed of forty-nine miles an hour sustained for twenty hours or over a distance of 980 miles is the latest achievement in railroading. By the time flying machines are made practicable there will be no necessity for them from any consideration of speed.

President Roosevelt has apparently lost his fight with the legislative branch over the Cuban reciprocity bill. And the ruction that has been caused may defeat him for the presidential nomination in 1904. It is better, however, to be right than president.

It is likely that all the insurance companies will eventually permit the use of fuel oil without extra charge for insurance. Nothing seems to hinder the new fuel, but lack of means of transportation.

It is claimed that the ship subsidy bill will not be passed because of the nearness of the congressional elections. This shows that frequent elections may have their good points.

The government appraisers have decided that swans are not poultry and that they can come in free of duty. The decision, however, will not seriously affect any meat trust.

A reduction of Cuban trade will certainly affect American industries, yet the plea is made that tariff concessions will injure them.

We need a deep waterway from the great lakes to the Atlantic more than an isthmian canal.

The disappointment of the fly that chases an automobile must be intense, says the St. Louis Post-Dispatch.

It is announced that $1,536,614,289 of paper money is circulating in the United States. How much have you got?

An increase of $100 in salary is to be given to 113 postoffice clerks. This may stimulate the Panama hat trade.

Charleston lost $450,000 on her exposition, but she had a good time and received much valuable advertising.

Several dattos of Mindanao have asked for American flags. Do they also want an appropriation?

Who is writing the Minnesota state Republican platform this year?

What a harmonious trio are Cleveland, Bryan and Watterson.

No one objects to the water cure for the arid West.

LIGHT AND BRIGHT.

New York Sun: Mag—Say, Mame, yer hat's crooked.
Mame—Is dat straight?
Mag—On de level.

Washington Post: "When you thinks about marryin' a man to reform 'im, Miss Lady," remarked Uncle Eben; "remember dis: It's mo'n he'd ebber do foh you."

Detroit Free Press: Visitor—How did you like that cigar I gave you? It was an "Admiral," you know.
Sharpe—What an appropriate name for it. There's something about that cigar suggestive of an admiral.
Stinjay—What's that?
Sharpe—It's rank.

Somerville Journal: Chicago Girl—How high is the thermometer anyway?
Boston Girl—The thermometer is about five feet from the floor. But perhaps what you wish to know is the altitude of the mercury. It stands at 87 degrees.

Chicago Post: "You expect to be a success in the law business, do you?"
"I don't see how I can fail if my plans go right. If I can fix it so as to serve a year or so on the bench first I'll have no trouble in becoming general counsel for a corporation."

Baltimore American: "Yes," said Miss Gaddle, "when I told Mr. Frank that I was 25 he seemed surprised."
"I believe he did intimate that he couldn't reconcile that age with the way you talked."
"Gracious! I hope he didn't consider my conversation too frivolous."
"Oh, no; he merely remarked that you talked like sixty."

LAST DAYS OF SCHOOL.

O! what is so long as a day in June,
When the last term of school is closing,
Then the boy's big heart is all atune
With the summer sounds of the afternoon,
And the swirl of his thoughts nigh makes him swoon
As he dreams at his desk, half dozing.

The woodpeckers dance their rigadoon
Up the side of the new-leaved oak,
And the bluejay—gaudily dressed buffoon—
With his harsh laugh screams his joke.

O! the school term's closing days are slow
And the lessons a boy is saying
Mean naught to him. He can only know,
While imprisoned there and depressed so,
That waiting for him in the brooklet's flow,
The slim speckled trout are a-playing.

You'll never keep a boy's wild thoughts, I trow,
Within the bounds of a book
While under the bank where the alders grow
There's a place for his line and hook.

O! what is so long as a day in June,
When the school's last term is ending,
When the great summer choir is all in tune,
From the birds' high notes to the insects' croon,
While the boy yearns all through the afternoon
To follow his thoughts far wending?

MR. CLEVELAND'S TRIUMPH.

Chicago Tribune: Six years ago Grover Cleveland saw his party desert him and the Democratic principles he upheld. For a time no Republican was so disliked or reviled by Democrats as was Grover Cleveland. It is a personal triumph for him to see the party abandoning the "search of new and gaudy issues and the interpretation of strange visions," and silently admitting that it was wrong and he was right in 1896 and 1900.

All Americans who admire a man who will defy party clamor, sacrifice has popularity, and condemn himself to political exile, sooner than be false to his convictions, will be pleased to see Mr. Cleveland a trusted counselor of a regenerated Democracy. Its return to sanity and its acceptance of advice from the man read out of the party in 1896 will be a useful lesson for timid "statesmen" who are too apt to shape their course with the bad political maxim, "My party, right or wrong."

It must have given Mr. Cleveland much pleasure to address again a sympathetic Democratic audience and to receive applause in a quarter where it has long been denied him. Perhaps only one thing was lacking to make his pleasure complete—the presence of William J. Bryan. That gentleman should have been there to hear Mr. Cleveland ask if the party could not be "delivered from a body of death and relieved from the burden of issues which have been killed by the decrees of the American people," and to hear the audience applaud the speaker.

Mr. Cleveland clothes his advice to the party, which is beginning again to listen to him, in ponderous sentences and long words, but it is good advice. It is in substance that the Democrats shall be for revenue reform and against trusts, for equal taxation, and against governmental extravagance. On these issues the Democrats may or may not win, but they are the only issues on which they can harmonize.

Crying "Hold, Enough."

Chicago Chronicle: No matter what the motive of the sentimental opposition is to be encouraged. Not a sane man who is not financially interested will contend that we want any more islands. The recent job lot is enough for all needs during the next half century.

Reflections of a Bachelor.

New York Press: Sporting life is not what it is druther to be.

By listening to women talk man learns not to.

Some heads are not so red as they are bleached.

Men search for wealth and find experience; women for happiness and find domesticity.

There are bad boys and less bad boys, but there never yet was a good boy that was well and hearty.

Good Head For Business.

St. Louis Globe-Democrat: Italy's young king must have a long head for business. His investment in American coal mines shows that he is an intelligent student of the world's industrial commercial development.

Where Some Pension Money Goes.

Boston Globe: Not all of Uncle Sam's pension money is spent at home, for 427 pensioners live in Ireland, 328 in England, 102 in Scotland, 13 in Wales, 610 in Germany, 72 in France, 9 in Russia, 15 in Norway, 27 in Denmark, 7 in Spain, 6 in Portugal, 33 in Italy, 7 in Turkey and 13 in Africa. They all deserve well of the country wherever they are.

DEFEATED REVOLUTIONIST URIBE-URIBE AND HIS SPONSOR, PRESIDENT CASTRO OF VENEZUELA.

General Uribe-Uribe, who began a few months ago an attempt to overturn the government of Colombia, has been a flat failure as a revolutionist. It has been generally accepted that President Castro of Venezuela furnished Uribe-Uribe with money and men in the hope that the Colombian government might be upset, thus paving the way for Castro to realize the crowning ambition of his life—the presidency of the "Greater Colombian republic." But things did not go well with Castro. He found himself with a strong revolutionary party in his own country, and the chances are that he will be compelled to resign the presidency or flee. Uribe-Uribe learned of this condition of affairs when, after his forces in Colombia had suffered defeat after defeat, he appealed to Castro for further aid. Manifestly Castro, who delights to be known as "the George Washington of South America," is scarcely entitled to the designation.

The Years That Stood Still

By Margery Williams.

(Copyright, 1902, by W. R. Hearst.)

The villagers displayed at times a tendency to claim distinction on the score of Anthony's residence in their midst. During the forty years he had lived among them they had grown, in a way, to look upon him as an institution, one of the public characters of the place.

It was less his madness than the story of it which set him apart in their regard. Many of the older dwellers remembered 'Liza Hosking. In the minds of those who had known her she was present rather as a sketch than as a finished portrait. Others, to whom her name was only a rumor saw her through the mist of years, young and slightly made and radiant in her holiday frock of long ago, a dainty bit of rose-leaf, tripping, with lifted skirt, through the sunlit village street.

On the western side of Praa Sands was an old disused shaft, the opening of a submarine tin mine. It lay in a depression among the sand hills unprotected and shored up at the mouth with heavy timbers rotten and black with ooze. Sea water, green and transluscent, filled it to within a fathom of the surface.

Anthony and 'Liza made this old mine their trysting-place. They used to meet here in the long twilight summer evenings, and it was here that 'Liza coaxed him to meet her for the last time on the eve of their wedding day, in June. It was a sudden whim of hers, and she clung to it persistently. They were to meet there at 7, and a little after 6 a girl friend saw her go past, turning back to wave a greeting as she went.

No one knew whether the shingle at the edge crumbled or whether she lost her footing and slipped. But Anthony, coming to meet his sweetheart a little before the hour, found her there face downward, a twist of fair hair showing above the imprisoned sea water, and a fold of her gay muslin skirt caught on a nail in the side timbers of the shaft. She had tried to save herself in rolling, for a tuft of coarse grass was clutched and uprooted. The sand at the sides was loosened, and had slid and shifted with her as she fell.

Anthony's hair did not turn gray according to the established tradition of fiction. It was not even at once that the shock told upon his nerves. He was one of those who dragged the slim, limp little figure out with ropes, and he carried her in his arms, her wet skirts dripping and clinging about her, along the footpath to her home.

It broke him down completely, nevertheless. It was as though life stood still with him on that June evening. He went about his work silently, like a wreck of himself, and within the year his mind had entirely given way.

He never recovered it. There were periods when his conversation was as rational as possible; he had at such times a clear memory for events, and could reason intelligently on many subjects. But his brain swung back always soon or later, to the old unbalance.

Curiously, though Anthony went to the funeral, he never associated in any way the little cross in the churchyard with his dead sweetheart. He thought of her always in connection with the spot where they used to meet, and where he had seen her last.

Every Sunday evening he would walk to Praa Sands, and sit there by the old mine waiting for her, though local energy had so far aroused itself that the shaft had been long since filled in with rubbish and carted stones. This was felt to be a belated concession to public safety. Not many of the younger generation even know of its exact whereabouts.

Habit led Anthony to the shaft instinctively. No coaxing could draw him away. He held his tryst there in the summer evenings, a middle-aged, broken-down man in shabby clothes, his hat pushed to the back of his grizzled hair, and his hands clasped round his knees, watching for his sweetheart of thirty years ago. His mind had no regard to the passing of time. He expected to see her at any minute in her muslin gown, coming to him over the rise of the sandhills against the evening sun.

Picnic parties used to come to Pree Sands in the summer time, but Anthony took no notice of these holiday makers. It was doubtful whether he was even aware of their vicinity. If he passed them by, it was as one who walked alone in their midst, a shadow across the sunlit grass.

But one day the kindly-faced woman who presided over the little iron tea house called him in to have a cup of tea. He sat down on the bench near the door in the sunshine. There was a 3-year-old baby there, the child of one of the young women of the village, and over a piece of currant cake he struck up with Anthony one of the swift friendships of childhood. Thereafter the two were close friends.

The baby's house was on the outskirts of the village, and Anthony used to stop unfailingly to exchange a greeting. Sometimes Anthony took the baby for miniature walks up the road and back. George Frederick's mother watching smilingly from the background. There was an effect of domesticity about these perambulations. Once Anthony was known to produce from his tail pocket with great ceremony a red and white sugarstick.

It was an afternoon toward the end of the summer that George Frederick's mother, returning from the grocer's with a packet of tea, missed the baby from the doorstep. A neighbor had seen him go past, clutching Anthony's finger. Confident in his safe return, she sat down on the step to watch for his reappearance at the bend of the road, but this time George Frederick did not come back.

Except the next door neighbor, no one had seen either George Frederick or Anthony. Many volunteered recollection of having noticed the child in the morning, or the day before. The woman hurried anxiously from house to house. She had still in her apron pocket the change from the grocer's, and it jingled as she ran.

Just before supper time Anthony's old mother heard the news. She came limping up the street, her black cap strings flying and her wrinkled face drawn and hard. She advanced fiercely upon these people, from whom she had always held herself apart, and they made place for her silently.

She gripped George Frederick's mother by the wrist. The young woman's eyes were red and swollen.

"It's all 'e," she cried in her shrill pitched voice. "My boy never laid hand on a child of yours. He's never harmed livin' soul in his life. If he's gone away it's because you all have druv him to it wi' yer aping and jibing."

She pushed the woman on one side and started off up the street. There was a definite purpose in her gait. Her lameness seemed almost to have left her. To the group of onlookers her gaunt figure stood stern and accusing against the gold of the sunset.

George Frederick's mother ran after her and caught her by the arm.

"Let me come," she cried. "Let me come wi' you."

Anthony's mother answered no word, but she did not shake off the woman's hand. She was saying over and over to herself: "My boy! My boy!"

The two women passed side by side along the narrowing road. Anthony's mother strode steadily on; it was not easy to keep pace with her. A gold-green haze was over the flat stretches of meadow land. Presently the road began to dip. In front was a chain of low sandhills, and beyond the sea, purple-edged in the falling light. A long way off a scaffold-like erection stood out black against the glow. It was the swing on the picnic ground at Praa Sands.

They found them there, Anthony and George Frederick, children both, tired out at the edge of the old shaft. George Frederick was asleep, and there were traces of grimy tears on his cheeks when his mother caught him up. The other son was seated on the ground, his head bent into his hands. His hat lay on the sand beside him, and he did not answer when his old mother, stumbling forward, dropped on her knees by his side. Young had come back to him belated, and he was walking with his sweetheart 'Liza Hosking through the fields of asphodel.

THE PANAMA HAT.

There was a man whose chief desire
Was a Panama hat.
He said: "That's what I most require;
It is the thing I most admire;
I'll have to beg or buy or hire
Me a Panama hot."

He envied every man he saw
In a Panama hat.
He gazed at window shows with awe,
And sighed: "They cost a heap, but, pshaw!
I pretty near would break the law
For a Panama hat."

He talked to every man and maid
About a Panama hat.
No chat of marriage he assayed;
Nor weather, crops, or trusts, or trade;
Just: "How I'd like to be arrayed
In a Panama hat!"

He soon fell ill; he worried so
Over a Panama hat.
And when he lay in sickness low
They asked him where he'd like to go
"Wherever," he said, "they can show
Me a Panama hat."

At last his feeble spirit fled—
With no Panama hat.
They preached a sermon o'er his head,
In which they hoped, the speaker said,
That he with wings was garnished—
And a Panama hat.

Take warning from this lesson true
On a Panama hat.
Don't let your longings pester you
Until your sick and sad and blue;
But if you must, go dare and do
For a Panama hat.
—Baltimore American.

Misdirected Generosity.

Kansas City Star: Cuba confers no favor on this country in granting amnesty to all Americans confined in its prisons. By this act Neeley, the convicted post-office boodler, goes free. It would have been much better if the Cubans had chosen some other method of showing their gratitude to the American people. Creating justice to oblige a country that is not concerned for the liberation of thieves is good feeling sadly misdirected.

Canada Experiences a Chill.

Philadelphia Record: Consternation has been created in Canada by the proposed syndicate against outside steamship lines running to Canadian ports. It is feared that immigration to Canada may either be obstructed by excessive charges or diverted by antagonistic solicitation through syndicate agencies in Europe and arrangements with trunk lines of railway in the United States. There is already talk in the Canadian newspapers of the maintenance of an efficient trans-Atlantic passenger service, if it be necessary, by the aid of a government subvention.

Innovation of Peace.

Minneapolis Times: Swords will not be beaten into plowshares in South Africa nor spears into pruning hooks but it is said that arrangements have been made for the sale of the barb wire trochas to the Boers at a nominal price for use in making fences. Thus the wire that stopped the fierce Boer, or failed to stop him, will keep peace-loving kine within proper bounds hereafter and may it serve warlike uses no more forever.

REFLECTIONS ON NOISE.

Baltimore Sun: Why does man express sentiments of friendship and hospitality through the medium of noise? Is the custom a survival of prehistoric days, a relic of barbarism? A friendly nation sends over a prince of the blood royal. A squadron of our warships meets him at sea and at once proceeds to make the welkin ring with the thunder of artillery. Another nation commissions some of its leading men to bring us a message of cordial regard. No sooner are the visitors within sight of our shores than appreciation of the honor bestowed upon us is expressed in noise. Cannon roar and bugles blare, and an ear-splitting din voices the popular welcome. It is a custom among some savage tribes to rub noses as an expression of friendship. Civilized people regard such practices as ridiculous. But, as a matter of common sense, is nose-rubbing more ridiculous than noise-making as a method of expressing emotion? Each seems to be a very primitive way of welcoming the stranger within our gates. Old people wonder why at Christmas time and Fourth of July the youngsters celebrate with firecrackers and torpedoes. Isn't that custom quite as sensible as the adult's way of expressing hospitality with a series of explosions? What is there in noise that makes it so fascinating to mankind?

LATEST FASHION NOTES.

A Light Weight Midsummer Costume.

Among the fabrics of the season is a sort of zebeline, iron gray in color with a surface showing white hairs, which is very similar to the material greatly liked for cold weather wear; but of course it is very light in weight. It is rather exclusive in effect when made up, as such materials do not seem to appeal to persons of common tastes.

The gored skirt is very simple in outline, close-fitting in the upper portion, flaring below and finished on the edge with rows of stitching done with Corticelli stitching silk, a coarse silk generally used by the best dressmakers for this purpose. Overlaid upon this were appliqué flowers cut from white broadcloth, stitched in heavy black silk, which is also used for the outline stitch and French knots which compose the center and stamens of the flower and are worked with Corticelli embroidery silk. The belted blouse with basque shows the same flower, below which the white silk vest is bordered by scallops outlined by bias straps of the white cloth.

Reality Versus Pipe Dream.

Portland Oregonian: The difference between J. P. Morgan and the Count of Monte Cristo is that the count only thought he owned the earth.

Where Reform Is Needed.

Philadelphia Ledger: Now that we have an extradition treaty with Chile, which closes that refuge to United States fugitives from justice, it becomes still more imperative that we shall have one with Canada revised, improved and brought up to date. Canada is so convenient an asylum for American rascals that it should be made as nearly thief-tight as possible.

Rude Jolts For Cupid.

Cleveland Leader: Eight injunctions have been issued in Nebraska to prevent the marriage of a frisky octogenarian. Who will say that the power of the courts is not being abused in that case?

DEFECTIVE PAGE

BECOMING A MOTHER

Is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of **Mother's Friend** during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does **Mother's Friend** carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period. Sold by all druggists at $1.00 per bottle. Book containing valuable information free.

IS INSANE.

Miss Jane Toppan Goes to Asylum For Life.

Barnstable, Mass., June 24.—Miss Jane Toppan, a nurse, was found "not guilty" of the murder by poisoning of Mrs. Mary D. Gibbs, of Cataumet, Aug. 12, 1901, by a special sitting of the superior court here yesterday. The time occupied in the trial was scarcely six hours. When the government presented its evidence the sensational incident appeared in the testimony of Dr. Henry R. Stedman, of Boston, an alienist, who said that Jane Toppan told him in the presence of other medical experts that she had caused the death of Mrs. Gibbs by giving her a poisonous dose of atrophine and morphine.

When the defense puts its medical experts on the witness stand the contention of mental and moral irresponsibility of the defendant was maintained.

Miss Toppan was ordered committed to Taunton insane asylum for life. She will be taken there by Deputy Sheriff Bradford, of Hyannis.

Three deaths occurred within a short time of each other, all accompanied by peculiar circumstances, causing suspicion. In addition, the deaths of the following persons, who were nursed by Miss Toppan, had been inquired into: Israel P. Dunham, of Cambridge, died May 26, 1895, aged 85; Mrs. Dunham, his wife, died Sept. 15, 1897; Miss Connors died at Cambridge in 1900; Mrs. Alden F. Davis died at Cambridge, July 4, 1901, aged 62 years; O. M. Brigham, of Lowell, died Aug. 29, 1899, aged 53 years; Florence N. Calkins, housekeeper for Mrs. Brigham, died Jan. 15, 1900; Mrs. Edna Banister, Tumbridge, sister of Mrs. Brigham, died Aug. 27, 1901.

AT CLOQUET.

Cloquet, June 23.—(Special to The Herald.)—The 10-year-old son of Mr. and Mrs. J. F. Von Felden, was accidentally drowned yesterday morning in the St. Louis river, opposite the Indian village, on the reservation. Mrs. Von Felden is the teacher in the government school at that point. It is supposed that the boy was walking on the logs.

A. F. Monroe is on the street again. He has been laid up for some days with a broken rib.

D. H. Allen met with an accident Sunday evening which might easily have resulted much more seriously. While attending a night call, he was thrown from his conveyance, on a rough road, and his face, striking a rock, was badly cut and bruised.

Dr. Heming announces that his diphtheria patients in the old Alstad building are all doing nicely.

It has been decided not to dedicate the Library building on July 4, as the finishing touches will not have been put on by that time.

A Finlander named John Mattson died in the Cloquet hospital on Saturday last, of hemorrhage of the bowels. He was admitted in the morning and died in the afternoon.

The Ladies' Guild of St. Andrews' church gave a supper Saturday night in the guild room, and were well patronized.

Next Saturday's edition of The Herald will contain a cut of the new Catholic church.

The residents on Tenth and Eleventh streets north of Cloquet avenue should be compelled to clean up. These streets are in a deplorable condition.

BRIEF TELEGRAMS.

Stoverson Swanson, of Moose Lake, Carlton county, Minn., has filed for the Republican nomination as representative from the Fifty-second legislative district, composed of Carlton, Cass, Aitkin and Itasca counties.

The president Monday gave assurances to Representative McCleary, of Minnesota, that he would stop at Mankato, this state, on his Western trip this fall. A similar assurance was given a committee of Dallas, Tex., citizens. The exact date on which he will visit both cities will be arranged later.

In reply to a cablegram of the 18th inst. to Gen. Chaffee to cable the names of the men of troop M, Fifth cavalry, who were captured May 20, near Morong and murdered June 1, the war department is advised that Sergt. Louis Steward, Corp. William J. Black, Corp. Edmond J. Finnegan, Trumpeter Charles W. Davis and Private Patrick Carr were murdered.

O. E. Miller, president, and Henry Clark Davis, general manager of the St. Luke's society, were held responsible tonight by the coroner's jury for the fire at the St. Luke's Sanitarium, which destroyed eleven lives. The other four employes arrested after the fire were released. Miller and Davis were re-arrested a few minutes after the verdict of the jury was read.

"Philadelphia" Tommy Ryan knocked out George Block, St. Louis' pride and welterweight in the seventh round Monday night at the Business Men's gymnasium. The fight was a fast one and the men were even at forms when the knockout blow, a right hand hook to the point of the jaw, was delivered.

J. G. W. Cowles, of Cleveland, has been elected chairman of the board of trustees of Oberlin college. The election means that Mr. Cowles will be the president of Oberlin college until a permanent successor to the late President Barrows is named.

A portable engine exploded on the farm of George W. Rowe, near Mount Vernon, Ind., killing the engineer, Tom Rowe, and fatally injuring George Rowe, Harry Rowe, George W. Homas and a young boy, Harry Rowe, Jr. A woman named Smith, who was near, was also badly hurt by a piece of the flying machinery.

Fred Warner, heir to $100,000, has been found by the South Bend Tribune. For years he has been tramping the country as an umbrella mender. He has gone to Kalamazoo, Mich., to claim the fortune which is held for him by Elmer Beck.

Fire caused by the overturning of a lantern in a stable at Madison, Ill., Monday night, wiped out practically the entire city. At midnight the damage was estimated at $200,000. Practically the entire population united in fighting the fire. The loss is believed to be partially covered by insurance.

Edward B. Comstock, 126 East Fourteenth street, Minneapolis, killed himself early Monday morning. He fired a bullet into his head and another into his heart. Mr. Comstock, who was an architect's assistant, was a member of a Minneapolis national guard company at the outbreak of the Spanish-American war. He did not volunteer and was called a coward by his comrades. This preyed on his mind, and is believed to have been the main reason for his suicide.

A bad complexion never gets better of itself. Doctor with Satin-Skin Cream, gaining healthy satin skin. 25c.

BRYAN IS SEVERE

He Denounces the "Harmony Meeting" of the Democrats.

Can Be No Harmony Where Cleveland Is Concerned.

Stinging Statement Issued By Former Democratic Candidate.

Lincoln, Neb., June 24.—The absence of W. J. Bryan from the Democratic harmony dinner at New York is pretty well explained by a statement given out by Mr. Bryan commenting on the dinner. At the outset Mr. Bryan says there is no such thing as Democratic harmony where former President Cleveland is concerned. He says:

"The banquet given on the evening of June 19 by the Tilden club of New York city was advertised as a 'harmony meeting,' but it turned out to be what might have been expected of such a gathering—an ovation to the chief guest, former Democrat Grover Cleveland. There can be no such thing as harmony between men like him and those who believe in Democratic principles and he is frank enough to say so. He spent no time looking for 'middle ground' upon which to gather together discordant elements. He boldly called upon the members of the party to abandon their convictions and accept the construction he places upon Democratic principles. He even taunted the party with being a sort of prodigal son and invited it to give up its diet of husks and return to its father's house.

"He spoke of his 'retirement from political activity,' and said: 'Perhaps there are those who would define my position as one of banishment instead of retirement. Against this I shall not enter a protest. It is sufficient for me in either case that I have followed on the matters of difference within our party the teachings and counsel of the great Democrat in whose name party peace and harmony are tonight invoked. No confession of party sins, therefore, should be expected of me. I have none to make, nor do I crave political absolution.'

"He not only boasted of his course, but put his brand upon those who sat at the meal with him. Having asserted that his Democratic faith compelled him to leave the party (or resulted in his banishment) he described the banqueters as sharing in that faith.

"He is not only defiant, but insists that party success can only be secured by an open and avowed return to his ideas. Harmony is to be secured not by the suppression of differences, but by the culmination of those who differ from him."

Mr. Bryan says he will print in his paper Mr. Cleveland's speech, "to show that the reorganizers do not want harmony, but control, and that their control means the abandonment of the party's position and a return to the policies and practices of President Cleveland's second administration.

He continues: "He (Cleveland) secured his nomination in 1892 by a secret bargain with the financiers; his committee collected from the corporations and spent the largest campaign fund the party ever had; he filled his cabinet with corporation agents and placed railroad attorneys on the United States bench to look after the interests of their former clients. He turned the treasury over to the Wall street syndicate, and the financial member of his official family went from Washington to become the private attorney of the man who forced (?) the treasury department to sell him government bonds at 105 and then resold them at 117. He tried to prevent the adoption of the income tax provision, refused to sign the only tariff reform measure passed since the war, and while thundering against the trusts in his messages did even less than Knox has done to interfere with high-handed methods.

"His administration, instead of being a fountain of Democracy, sending forth pure and refreshing streams, became a stagnant pool, from whose waters foul vapors arose—poisonous to those who lingered near.

"Having debauched his party, he was offended by its effort to reform, and gave it over to the enemy. Virginius killed his daughter to save her chastity; Cleveland stabbed his party to prevent its return to the paths of virtue.

"And now, still gloating over his political crimes, he invites the party to return to him and apologize for the contempt which it has expressed for him. Will it? Not until the principles of Jefferson are forgotten and the works of Jackson cease to inspire.

"If we are to have reorganization, Cleveland himself should accept the presidential nomination. It would be due him; his reinstatement would be poetic justice to him and retribution to those whose Democratic conscience revolted against his undemocratic conduct. Of course, he would get no Democratic votes, but being closer to plutocracy than any Republican likely to be nominated, he might divide the enemy, and even Democrats would have what little consolation would come from receiving their disappointment in advance.

"A merchant about to fail invited his creditors to a dinner, and after stating his condition, secured a year's extension from all present. One of the number, a relative, waited until after the others had retired, and then accosted the debtor: 'Of course, I promised with the others to extend the time, but you are going to make me a preferred creditor, are you not?'

"'Yes,' replied the debtor, 'I'll make you a preferred creditor. I'll tell you now that you are not going to get anything; the rest won't find it out for a year.'

"Mr. Cleveland's nomination would have this advantage over the nomination of any other reorganization, he would make the Democrats preferred creditors and tell them that they would not be benefited by his administration.

"Mr. Cleveland's speech should be read in full. It answers a useful purpose; it outlines the plan of campaign decided upon by the plutocratic elements for which the reorganizers stand. Tariff reform is to be made the chief issue, and the men who voted for Mr. McKinley, the high priest of protection, are to carry on a sham battle with their companion of 1896, while the financiers make the dollar redeemable

Mme. Yale's Hair Tonic.

The first and only discovery in the history of chemistry known to turn gray hair back to its natural and original color without dye. It acts on the natural live coloring matter of the hair, increasing and giving it circulation. It tones up the debilitated nerve force and the torpid glands to a healthy reaction, curing all diseases of the scalp. It creates a luxuriant growth, stops hair falling in from twenty-four hours to one week. It softens the hair when harsh or dry; contains no greasy matter, sulphur or lead, or any other injurious or unpleasant substance. Permanently cures dandruff.

MME. YALE'S HAIR TONIC is a perfect Hair Dressing, rendering the hair glossy and fluffy, greatly aiding it to remain in curl.

Manufactured only by Madame M. Yale, 189 Michigan avenue, Chicago.

Call for Mme. Yale's book to beauty: "Women's Wisdom" (contains 96 pages.) Given Free.

We see Mme. Yale's Hair Tonic at cut price and are her Duluth agents.

in gold and fasten upon the country an asset currency and a branch bank system. Trusts are to be denounced in sonorous terms, while the campaign managers mortgage the party to the trust magnates in return for campaign fund. Sometimes imperialism will be denounced, as in Mr. Hopkins' Illinois convention; sometimes ignored, as in Mr. Cleveland's speech, but whether denounced or ignored, the secret and silent power that can compel submission to the demands of the financiers and to the demands of the trust magnates can compel submission to the Democrats of the exploiters and representatives of militarism. The fight is on between a Democracy that means plutocracy and a Clevelandism which means plutocracy. Every speech made by Mr. Cleveland shows more clearly the seriousness of the policies for which he stands. We have more to fear from those who, like Mr. Hill, endorse Mr. Cleveland's views, but conceal their real purpose in ambush language.

CAVED IN.

Rifle Range at Sea Girt Collapses, Killing Three.

Sea Girt, N. J., June 24.—The partially completed rifle range caved in at 6 o'clock yesterday, catching three men who were trying to escape, between the toppling front walls and rear wall, crushing them to death instantly.

Gen. Bird W. Spencer, the inspector-general of rifle practice, of New Jersey, and his assistant, Lieut. Col. Richard B. Reading, who had only the moment before stopped to talk to the men while on inspection of the work, had most miraculous escapes from the same fate.

The men who were killed were Anson Hale, John B. Marsh and Jacob Shibley, residents of Manasquan, N. J. All three are married. Hale leaves a family of eight and Shibley two children.

Last winter the legislature of New Jersey appropriated $7000 to rebuild in concrete the butts of the rifle range. The quartermaster general was put in charge of the work. It had been completed with the exception of the frame-work in the 600-yard pit. It was here the men were working. Col. Olcott says the accident was caused by the men removing the braces too soon. The accident will not interfere with the holding of the inter-state contests in August and September.

NO SPLIT IN CHURCH

Rector of Oshkosh Parish Says It Did Not Secede.

Declares It Is Still Loyal to the Episcopal Diocese.

Forms and Ceremonies and Mission Work Are Objected To.

Oshkosh, Wis., June 24.—Rector John W. Greenwood of Trinity church, of this city, denies that his parish has seceded from the Protestant Episcopal church, but declares that there are many forms and ceremonies in vogue in the diocese of Fond du Lac which neither he nor his parishioners would countenance or participate in.

"Trinity parish has not seceded," he said. "It is still loyal to the Protestant Episcopal church. Its clergy and people are ready to render all reasonable obedience; to contribute their just proportion to diocesan expenses, and to follow any leadership that is worth the while. We do not, however, help to support diocesan missionary work, as we used to do, because we have no interest whatever in the kind of thing to the extension of which our money would be applied."

The report that Trinity parish was about to secede arose from the fact that it is not represented at the diocesan council at Fond du Lac.

In explaining the action and stand of Trinity in this regard, Mr. Greenwood said:

"One reason why the Trinity clergy and deputies no longer attend the annual council is that the high celebration of the holy eucharist, at which they are urged to be present, seems to them a direct violation of the intention of canon 24, section 2 of title 1 of the canons of the Protestant Episcopal church. Among the ceremonies or particulars not ordained or authorized in the book of common prayer are specified the elevation of elements in the holy communion in such manner as to expose them to the view of the people as objects toward which adoration is to be made, and any act of adoration of or toward the elements in the holy communion, such as bowings, prostrations or genuflections.

"These injunctions are apparently systematically ignored nearly everywhere through our diocese, but nowhere more so than at the cathedral or on the occasion of annual council. We do not feel called upon to take up the cudgel in behalf of the church at large upon the point. Nor have we any formal complaint of our own to make. If our brother churchmen want the mass instead of the communion of the prayer book, let them have it, say we, but we are willing that they should enjoy it alone.

"The most cogent reason, however, for absenting ourselves from the council is, as one of our representative parishioners said not long ago, that at Fond du Lac we feel altogether out of place. There is the old conflict between the priestly and the prophetic types of thought, almost always in antagonism to each other, and in this case carried on both sides, it may be, to extremes. If I am to speak the simple truth again, as I have spoken of it before, I have only to say that we of Trinity are not inordinate lovers of forms and ceremonies, and our consciences do not oblige us to make any terms with the priests who invent them.

"One of the important questions in the confessional, which is now being reintroduced among us is this: 'Have you disobeyed your priest?' but so far as I know, it matters not to any one of the 500 parishioners of Trinity what the priest says, unless he speaks the truth.

"This is the real state of affairs. If it keeps on intensifying, we shall regret it, but cannot hold ourselves responsible. We would not make the Episcopal church one whit narrower than it is; we would engender no unnecessary friction; we would unite with the extremest of churchmen in particular works of love and mercy, but doctrines which our own intelligence forbids us to accept we flatly decline to help support."

BRIBERY.

Councilman Creates Great Scandal In City of Cleveland.

Cleveland, O., June 24.—During a meeting of the city council last night, Councilman Kohl suddenly raised up in his seat and held up over his head $2000 in money, at the same time making the statement that it was the partial payment on what was to be a bribe of $5000 to him for his efforts to introduce certain unfavorable amendments to the applications of the East Ohio Gas company (natural gas), seeking admission to this city. There was the greatest excitement in the chamber when this statement was heard, and Mr. Kohl immediately turned the money over to the council clerk.

Mayor Johnson, who was present, then charged Dr. F. W. Daykin as being the man who was acting as a go-between and who gave Kohl the money.

The East Ohio Gas company is a Standard Oil branch, and wants a franchise to run pipes into this city.

YOUNGER OBJECTS

To Efforts to Secure an Absolute Pardon.

St. Paul, June 24.—Cole Younger is not in favor of an immediate attempt to secure an absolute pardon.

This fact was brought to light by his vetoing a plan originated by Mayor H. F. Bevans of Morris and Col. William Colville, during the reunion of the First Minnesota.

Col. Colville sent for Younger and outlined the plan, which was to start a petition, headed by members of the old First regiment, asking that an absolute pardon be granted to Cole and Younger.

Cole, however, was opposed. "We don't want to be in a hurry in this matter," he said. "I won't have anything to do with the plan, nor will I sanction it. The board of control, Warden Wolfer and the state board of pardons should be consulted first. When they are ready to act, they will. I very much regretted the recent attempt made by my brother to secure a pardon, and the result of the venture teaches the wisdom of waiting."

The Best Cough Medicine.

I sell more of Chamberlain's Cough Remedy than of all similar preparations put together, and it gives the best satisfaction of any medicine I ever sold. I guarantee every bottle of it.—F. C. Jaquith, Inland, Mich. This remedy is for sale at Boyce's drug store.

ROOSEVELT'S CHOICE

Not Agreeable to Platt, Who Makes Threats.

Washington, June 24.—Pleasant relations between President Roosevelt and Senator Platt are threatened with a serious rupture over the filling of the vacant United States district judgeship created by the appointment of Judge Cox to the United States circuit bench.

Senator Platt is supporting Representative Ray, of New York, for the position. Friends of Representative Sherman have been urging his appointment on the president.

President Roosevelt has announced his intention of ignoring the claims of both Mr. Ray and Mr. Sherman and of appointing Attorney General John C. Davies, of New York, if Mr. Davies wants the position.

Senator Platt has said: "If Davies is appointed he will never be confirmed, because Senator Depew and I will both oppose his confirmation, and the senate will naturally follow the New York senators on such an important appointment."

President Roosevelt has said: "It makes no difference who objects to Davies being appointed on the United States bench. If Davies wants the place he will have it. That's all there is about it. He is a man whom I know very well and in whom I have every confidence."

Whence comes this mighty far-reaching power that enables Rocky Mountain Tea to make such wonderful cures. Try it and see. Ask your druggist.

INQUEST SHOWS MURDER.

Minnesota Man Killed In the Far West.

Tacoma, Wash., June 24.—John Yeschik and his mother, Mrs. Marie Yock, residents of Renville, Minn., were passengers on the west-bound Northern Pacific train on homeseekers' tickets. At the summit of the Stampede tunnel Yeschik got out at a stop and walked ahead of the train to see the scenery. When the train started he could not get on, and two days later his dead body was found lying face downward in a small creek.

There were deep knife gashes under his arm pits and on his elbow. His shoes and socks and hat had been removed and cannot be found. The inquest reveals murder and there is much mystery in the case. The mother proceeded on the train to Portland.

MRS. WEBB HURT.

Wife of Dr. Seward Webb Thrown From Horse.

New York, June 24.—Mrs. Seward Webb, daughter of the late William H. Vanderbildt, has been severely injured by a fall from her horse, says a Burlington, Vt., dispatch to the World. The animal shied while Mrs. Webb was riding near Shelburns farms with a party of friends. The rider was thrown to the ground and was unconscious several hours. After an examination doctors from Burlington announced that the injuries were not serious, although Mrs. Webb will be confined to the house for some time and will suffer severely.

NEWSIES' PICNIC

Tomorrow the Day For Which the Boys Have Been Longing.

Will Go on Steamer Newsboy to Fond du Lac Grove.

Fine Contests Arranged With Handsome Prizes For Rewards.

Tomorrow is the day of the Herald's Newsboys' picnic. 'Nuff said. Any one who has ever attended one will know that the best sort of a time is assured and all sorts of "eatin'." The picnic this year will be held at Fond du Lac, and during the day about 500 leather lunged young men will disport themselves in various ways at that place and come home in the best of spirits. The Herald has never had a bad day for its picnics, and the youngsters have come to believe that the stand-in with the weather man and The Herald will not fail them this time of all others.

Probably more interest has been taken in the picnic this year than ever before, and A. C. Pearson, the circulator of The Herald, under whose charge the boys will be, reports that the business men in general seem to realize that the newsboys' picnic has come to stay, and are doing all in their power to help it along by liberal contributions.

It is rather early in the season for watermelons, but a newsboys' picnic without watermelons would not be a newsboys' picnic, so it has been arranged that eighty-three melons will be taken along. How many are to be brought back has not yet been announced.

The boys will be under the care of A. C. Pearson, who has had charge of all of the previous ones. There is probably no other man in the city that could handle that number of youngsters successfully and bring them back safe and sound, and his word is law in places where a policeman's club would be needed. Swimming will be a feature of the day and to guard against possible accidents in the aquatic line Mr. Pearson has arranged to have the water sounded and ropes out. Seven experienced swimmers will be along and there is practically no danger of any accident.

The crowd will leave on the steamer Newsboy at 8 o'clock tomorrow morning. Messrs. Clough and Nickleson, the managers of the boat, have handed it over to its namesakes for the day and will change their regular trip from 9 o'clock to 8 o'clock. Returning the boat will arrive in the city at 3:30, instead of 6 o'clock, resuming their regular schedule the day after.

The newsboys will meet at The Herald office at 7:30 tomorrow morning, where they will be given instructions and tickets by A. C. Pearson, after which they will form in line and march to the station. From that time on eating, games and eating will occupy their time until about 3 o'clock, when they will be started home in time to get out on the streets with the "Hurald."

The list of games and contests is as follows:

Bottle swimming race.
Base ball game between Duluth carriers and West Duluth carriers.
Fast dressing race.
Leap frog race.
Bun eating contest.
100-yard dash.
Carriers' paper throwing contest.

There will also be a swimming race for the carriers and a fine fishing pole for the boy who catches the most fish during the day. The rod, which is a seven-foot one and of split bamboo, is donated by the Zenith Paper company.

The bottle swimming race is a new one and consists of having an equal number of bottles and contestants. The bottles, which will be empty and corked, must be pushed along with the head and although it sounds easy it is a very difficult thing to do.

The donations, which have been made by some of the men of Duluth who were once boys themselves, are as follows:

Water melons, Duluth General Electric company, H. W. Coffin, Duncan & Brewer, Alger-Smith company, C. W. Ericson, G. G. Barnum, Burgess Electric company, Cooley & Underhill, Consolidated Abstract company, J. H. Dight, James C. Hunter, Meyers Bros., Thompson & Dunlop, an ex-newsboy; tickets printed by Peachey & Lounsbury; pocket knives for prizes, Marshall-Wells Hardware company. The Duluth Candy company gave 100 pounds of peanuts, while F. A. Patrick sent a dozen neckties for prizes, and Jesse Norton gave fifty pounds of sugar. Two hundred pounds of ice were donated by the Duluth Ice company; one case of oranges by the Knudson-Ferguson company; one case of lemons by George W. Buck; a fine fishing rod by the Zenith Paper company, and last but not least, the steamer "Newsboy" for the newsboys by the managers, Clough and Nickleson.

INDEMNITY LANDS.

Strong Effort to Get Resolution Through Congress.

Washington, June 24.—A strong effort will be made this week by the Minnesota delegation to pass the joint resolution authorizing the state of Minnesota to select school indemnity lands. For some reason Judge Lacey, chairman of the committee on public lands, is adverse to calling up the resolution. State Auditor Dunn has been writing and wiring to congressmen stating that action should be had at once in order that the interests of the state may be protected.

Homeseekers' Rates.

To Pacific coast and points on Southern Pacific in Oregon, Tuesday, July 1 and 15, and every first and third Tuesday thereafter during August, September and October, the Northern Pacific railway will sell home-seekers' tickets to all points on Pacific coast and Southern Pacific railway in Oregon at one fare plus $2. For tickets and full information call at city office, 332 West Superior street, or Union depot.

NORBECK,

The Missing Minneapolis Detective, Captured at Carver.

Minneapolis, June 24.—Infatuation for a woman led to the capture of City Detective Christopher C. Norbeck, whose disappearance last week caused the suspension of his trial for bribe-taking. Norbeck's bondsmen had offered $1000 reward for his apprehension. The fugitive stepped into the long distance telephone booth at Carver, twenty-five miles from here yesterday afternoon and sought communication with Carrie Emerson, the woman now in jail charged with aiding him in his flight from justice. Norbeck evidently was ignorant of her imprisonment. The telephone operator detained the fugitive and sent a message to the sheriff. The arrest followed.

The prisoner was transferred to the county jail at Chaska and County Attorney Al Smith hastened there last evening with a number of officers. To Mr. Smith Norbeck promised that he would make a full confession disclosing the entire system of police corruption in connection with which he was indicted.

Irwin A. Gardner, the former special officer, sentenced to six years' imprisonment for bribery-taking, was secretly removed to the penitentiary at Stillwater Monday. His confinement is expected to wring a confession from him and further revelations are expected concerning the municipal corruption pool.

IN MICHIGAN.

Canadian Masons Are to Visit Lake Superior Mines.

Houghton—Members of the Masonic fraternity of Port Arthur, Canada, will be the guests of the Masons of the Lake Superior copper country next Wednesday. The visitors will be shown through the Tamarack-Osceola mills and upon return to Calumet a banquet and promenade will take place, after the Canadians have been shown the sights of the great copper metropolis.

Work on the new life-saving station to be built at the ship canal will be begun by Contractor George Horst, of Grand Rapids, in two weeks. He is waiting for the ground to be laid out. Capt. D. D. Gaillard, of Duluth, chief engineer in charge of government work in this division, was here Wednesday and looked over the dredging work at Portage entry.

Hancock—The new pumping station at Hancock, which has been built at a cost of $50,000 to the village, will be finished and in operation about the middle of the week. The plant is housed in a substantial brick structure with steel frames and roof, and is one of the best in this part of the state. The duplicate pumps were built by the Allis-Chalmers company, of Milwaukee, and Mr. Richardson, the company's representative, has been busy with a force of men for the last week making the necessary connections.

Persons, whose names have not been made public, are now forming a company to erect a new brass and iron foundry to be located near the docks of the Portage Coal and Dock company. As soon as the necessary preliminary details are completed construction work on the new plant will be begun. The foundry will give employment to a large force of men and promises to develop into quite an industry.

Calumet—Construction work on the extension of the Copper Range railroad between Hancock, Lake Linden and Calumet is progressing rapidly. Large gangs of men are now at work leveling hills and filling ravines along what is regarded as one of the most difficult routes in the copper country. Contractor McCullum, of McCullum & McArthur, who have the contract for the culverts, says their work, which is more than half completed, will be finished within four weeks. Large consignments of timber for the building of bridges is being placed on the ground daily.

The Finnish American citizens of Calumet will celebrate the anniversary of John the Baptist next Saturday, June 28, although not in the same spirit in which they or their fathers did in the fatherland. For centuries the people of Finland observed St. Jean Baptiste ray with a great deal of religious ceremony. The Finns of Calumet, however, have dropped much of the religious part and the chief purpose of the day is to bring Finnish-Americans together in social reunion. Finnish benevolent and fraternal societies will participate and a program of music, speeches and out-door games will be given. Among the distinguished guests who have signified their intention of being present are Charles Marcel and R. C. Gurder, members of parliament for Bonaventure and L'Assumption respectively.

Each of the chief organs of the body is a link in the chain of life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of heart or lungs, liver or kidneys, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of disease of the stomach and other organs of digestion and nutrition. Diseases of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

"I was in poor health when I commenced taking Doctor Pierce's medicines," writes Mr. Elmer Lawler, of Volga, Jefferson Co., Ind. "I had stomach, kidney, heart, and lung troubles. Was not able to do any work. I had a severe cough and hemorrhage of the lungs, but after using your medicine a while I commenced to gain in strength and flesh, and stopped coughing right away. Took about six bottles of 'Golden Medical Discovery.' I feel like a different person. I gladly recommend your medicine to all sufferers, for I know it cured me."

The use of Dr. Pierce's Pleasant Pellets will cure that foul breath.

SERIOUS BLUNDER

To Reject the Pacific Cable Bill, Thinks Representative Mann.

Proposal to Erect Federal Buildings In Smaller Towns.

Officials at Capital Seem to Have Gone Title Mad.

From The Herald Washington Bureau.

Washington, June 14.—(Special to The Herald.)—Representative Mann, of Illinois, thinks the house made a serious blunder when it rejected the bill providing for the construction of a Pacific cable. Said he today:

"The total cost of a cable from San Francisco to Manila, constructed by the government or by contract with the government, would not exceed $9,000,000. This is not much more than the cost of a protected cruiser for the navy. A government cable in time of war, and particularly in time when war was imminent or was only threatened, across the Pacific, would be worth for military purposes more than several additional naval vessels of any class. A cable message from Washington to Manila of only one word will cost $6.64, including the address and signature. It is quite true that in ordinary cable business the cable code is very generously used, so that much can be said with few words, and yet a cable message of a number of words is usually required, and even a message of many words is often necessary. Under the reduced rate of today, which is $1.66 per word, a 10-word commercial message from Washington to Manila costs $21.58. The proposition of the Commercial Cable company is that it will carry messages between San Francisco and Manila and between San Francisco and China or Japan at the rate of $1 per word. This will make a message of one word cost $4 and a message of ten words cost $13. Our government may seize the cable in time of war, even though constructed by the private company, by the payment of exorbitant sums, as we did in the Spanish war when we paid $2,000 a day for the cable running from New York to Haiti. It is also true that the government could not seize the cable before hostilities were actually declared, although it might be much more important to have control of it before war was actually declared than afterwards. The government should own its cable."

* * *

The omnibus public building bill signed by the president last week authorized the construction of postoffice buildings in nearly two hundred towns in different parts of the country. Heretofore bills for buildings have been passed largely as a matter of favor to some influential senator or representative. Many buildings have been erected in comparatively small towns and for offices where the postal revenues were very light. Representative Acheson, of Pennsylvania, proposes to remedy the injustice that has been done thriving towns and he has prepared a bill which authorizes the secretary of the treasury to erect a suitable building for a postoffice in each town where the postoffice receipts exceed $25,000. It is believed that this bill will meet with general favor. In towns with a population of 15,000 or 20,000, where the postoffice receipts reach $25,000, the government generally has to pay a rent of from $1,000 to $1,200 a year. Mr. Acheson figures that the interest on 2 per cent bonds will not exceed the amount paid for rent in such towns, and that $50,000 to $60,000 will be sufficient to procure a site and erect a suitable building in a town of that size.

* * *

Officials in Washington seem to have gone title mad. Never before has there been such a craze for decorations from governments. Before a decoration can be accepted it is necessary that congress pass a bill authorizing such acceptance. As these bills are referred to the committee on foreign relations it is easy enough to keep track of officials who have ambitions for recognition. The latest applicants are H. H. D. Pierce, assistant secretary of state; Col. Theodore Bingham, U. S. A., and Capt. R. P. Rogers, U. S. N., who acted as an escort to the French visitors to the unveiling of the Rochambeau statue. The decoration they want is the cross of the Legion of Honor proffered by the French government in recognition of their services. The foreign relations committee has received nearly a hundred bills authorizing the acceptance of decorations since the beginning of the present congress. Officials of nearly every branch of the government service are represented in these bills. So pronounced has the decoration fad become that Senator Platt, of Connecticut, and other sturdy senators have become disgusted. As one of them expressed it the other day, the proud boast of the patriot in years gone by, "I am an American citizen," has been revised by the officials of today to, "I am an American citizen with a decoration." Efforts to have these bills taken from the calendar and passed under the unanimous consent rule have been invariably balked by senators, who in sarcastic language objected to such action. The senate has passed several of the bills, however, and hardly a day passes without one or more of them coming up for consideration.

THE DAKOTAS.

Witnesses Testify as to Shooting of Joseph Coleman.

SOUTH DAKOTA.

Faulkton—There were no startling developments in the Coleman trial Monday, Thomas Daschle and Joe Sohli, neighbors of Joe and Ed Coleman, occupied the witness chair. They were called to the Coleman ranch at the time Ed was shot, and testified to finding the body on the bed. There were no signs of life, but Joe insisted that his brother was yet alive. Daschle swore there was no blood found on the chair or floor in the dining room where Joe said he found Ed sitting after being shot, but much blood was found on the bed where the body was lying.

Joe asked the neighbors present to make a box and place Ed's body in it, as he wanted to take it to Mellette early in the morning. This they did, and Joe left alone with his brother's body in the wagon bound for Mellette about 4 in the morning.

Sioux Falls—W. H. Levy, who some years ago was a partner of A. B. Melville, then a prominent attorney of Huron, has been engaged by the South Dakota Merchants' association as organizer for the state. He will make Sioux Falls his headquarters.

Deadwood—L. A. O. Anderson, aged 23, died of dropsy. His father is L. L. Anderson, foreman at the National smelter in Rapid City.

An employe of the Golden Reward smelter, John Wade, was seriously burned about the hips and back by being plunged into a pot of molten slag in the smelter.

Lake Preston—Syver H. Larson, one of the early settlers of this county, died at the age of 71 years. He owned a large farm twelve miles northeast of here. He left a large family. The funeral was held at the Lutheran church, and the services were conducted by Rev. L. Thoreson, of Vienna, S. D., and Rev. C. H. Driesbach, of this place.

Lead—One of the attractions at the carnival of gold, to be held in Lead the first week in July, will be $500,000 in gold bricks on public exhibition. The committee having charge of the entertainment has prevailed on the Homestake company to hold several cleanups for the occasion, and there will be some fifteen bars of bullion, each worth from $20,000 to $35,000, displayed under strong guard. This will afford a sight that few persons have ever witnessed.

NORTH DAKOTA.

Grand Forks—The Epworth league state convention elected the following officers: President, Professor W. P. MacVay, first vice president, Rev. G. A. Olson, Wahpeton; second vice president, Mrs. M. B. Burns, Jamestown; third vice president, C. W. Moses, Drayton; fourth vice president, Mrs. C. F. Wheeler, Minot; secretary, Professor William Bryant, Grand Forks; treasurer, Miss Grace Harper, Bathgate; superintendent junior work, W. C. Fry, Hunter.

Bismarck—Gust Parsons, unmarried, engaged as a sidewalk builder, committed suicide last night in a room at the Franklin hotel by blowing out his brains. No reason is known.

Wahpeton—"Uncle John" Woodhull is the originator of a plan which will materialize Thursday in the first meeting of the Red River Valley Old Settlers' association, in the opera house of Wahpeton. Some 200 persons have responded to requests for information, stating that they have been residents of the valley for twenty-one years or more. Many of these will be present, among others being Col. Plummer, of Casselton, and Editor Winship of the Grand Forks Herald. The morning's session will be executive; in the afternoon will be given a banquet and in the evening a ball. This meeting is intended to be the first of annual conventions of old settlers of the Red river valley in Minnesota and North Dakota, and of Manitoba as well, a territory 300 miles long by fifty in width.

Fargo—When W. H. White, of this city was in Egypt on a recent trip, he secured a sample of the soil in the celebrated valley of the Nile and is having a chemical and comparative analysis of the soil made with the Red River valley dirt. The tests are being made at the North Dakota agricultural college, and Mr. White is anxious to see if the Nile is really more fertile than the Red River valley, which is frequently spoken of as the "Nile of America."

Delightful Eastern Trip.

The Lake Shore & Michigan Southern railway has just issued a new summer book, "Lake Shore Tours," showing a selected list of Eastern resorts with routes and fares. Copy will be sent on appliion to W. B. Hutter, N. W. P. A., 122 Endicott arcade, St. Paul, Minn., or C. F. Daly, C. A. G. P. A., Chicago.

DEFECTIVE PAGE

RECORD-BREAKING FOULARD SEASON

Ball Dresses and Shirt Waist Suits Made of This Soft Silk---Modish Notion For a Young Girl.

New York, June 21.—So far it has been a record-breaking season for foulards. Ten gowns of this cool, soft silk have been sold to every three of any other fabric. There are foulards rendered costly and beautiful by elaborations of expensive lace and by the introduction of hardly less expensive hand needlework in the tucking and seam decorations; there are foulards that sell for as little as $13 or $14 per complete costume, and are utilized for rough and ready morning wear; and there are other foulards that grace the ball room and the dinner table. All this shows the wide influence and versatile possibilities of foulard as a summer fabric, for, in its own province, it simply has yet no rivals. For morning wear the polka dotted silk, white dots preferably on a dark or brighter blue ground, is of supreme importance. It is cut on a rather severe and entirely girlish shirt waist suit model, or it is tucked and trained a little. A little simple tucking and the use of a bit of solid dark blue foulard gives this incomparable summer dress all the decoration and distinction it needs.

Other equally pretty, but slightly less serviceable suits, are seen. One is a cool, wave green linen lawn, tucked elaborately and treated with broad bands of embroidery an stitched straps of very light green taffeta. This is a box robe, as are nearly all the fully embroidered so-called wash gowns that we see. This is the season when such dainty devices drop temptingly in price, and, though they do not wash, they are made up at small cost, are exceedingly elegant and elaborate in appearance, and one doing over per season, at the hands of the professional cleaner, brings them out as crisp and attractive as though quite new.

Alongside the greatly to be commended linen lawn appears a smart, heavily ribbed white pique, trimmed with equally smart and sturdy blue cotton vesting. The white pique has its long tucks stitched down with blue, and a flounce, collar and cuff finish of the vesting. A word of high commendation is due this vesting, which is a fabric imported from Manchester, and which up to date has been almost exclusively used in the masculine summer wardrobe. The virtues of this well woven, well colored material have made a strong appeal to feminine taste, and some of the best golf and general outing suits made up this summer have been wrought from the strong vesting. It comes in all manner of agreeable tones and tints, and single walking skirts, in gray and blue, gray, bottle green, brown and red, are to be bought at the department stores. A commendable effort has been made to introduce the wearing of blue jeans as rough outing skirts. Fresh blue jeans possess a strong and not very agreeable odor; it shrinks as well, and, to the soul that loves a thing because of its high price, blue jeans can make no appeal whatever. Aside from these defects, it is an ideal knock-about goods. It washes away its odor, and assumes in time a hue of soft and tender blue that is artistically charming, and it knows no such term as wearing out. Those examples of blue jeans skirt seen so far are happily cut on perfectly simple lines, and their ample patch pockets and big pearl belt buttons give all the air of easy rustic simplicity that dignifies the costume of the farmer's boy.

All the younger set of dancers carry bouquets this summer to their dancing parties, while women of every age wear an amazing amount of flowers in their hair and on their gowns. Artificial flowers serve, of course, in places of the real blossoms as garnitures for frocks, but it is rather a modish notion for a dancing or dining girl to wear a record-breaking single blossom in her hair instead of assuming that now commonplace American crown, the all around diamond tiara. The fluffy net boa, with its ankle long front streamers, must no longer fluff up about your ears, if you would represent the latest phase of the most artistic style. The frills of the very properest sort of a boa lie quite flat out on the shoulders and form a full, flouncy, fairy cape or pelerine, and the ends are very stole like and greatly ornamented. Cape ruffled is the more technical and truly descriptive name of these newest shoulder ornaments, and some of them consist of three very full frills spreading away from the neck, with a broad lace collar extending on top of them all.

Added to the dozen and one styles of small bag and leather portmonnales already in use, we have one other. This is a side bag, attached to the dress belt by chain and hook. It is made of richly perfumed Russian leather of glove kid softness, or of boiled Flemish leather richly engraved. Its top and corners and monogram, chain and hook are of the handsomest chased Russian copper gilt.

Leather covered parasol handles are among the gay trifles of the summer hour, but more popular and appreciated are the grass green gros-grained silk sunshades that have excellently carved wood handles. A buffalo's head, a long, half striped ear of corn, a calumet, or any strictly American motif are among the handles most eagerly sought for. By another luxurious device we now set warmly colored jewels in wooden handles. Opals are thought to look well in a peach wood handle, turquoise appear to advantage when sunk in maple, and cabochon amethysts gain a renewed interest when pressed into the surface of carved olive wood.

Now that white hose are kept in stock in behalf of cleanly, hygenic infants, the mothers, who hanker not unjustifiably for their children's sake after the simple fashions of their own childhood, have persuaded some powers that be to bringn back the pretty cotton prints that we all fancied so twenty years ago. These spriggled cottons have been made up as plentifully as ginghams for the arduous summer, through which the most ladylike juvenile puts her clothes. The method of the make-up is also a restoration of an old style, for little misses are wearing the sweet Kate Greenaway fahsions. The little yoked slip hanging full from the bust and quite sleeveless, save for a puff above the elbow, is refreshingly quaint, and the former Greenaway gown is improved by a yoke wholly of linen lace. This keeps the child ideally cool, while a band of such lace at the foot of the short skirt contributes a nice finish.

PARISIAN PEIGNOIR.

This dainty imported model reveals madame correctly attired in that sanctuary of the social bells—her dressing room. The negligee is of Honiton over pink taffeta with the new twisted effect trimming the front.

SMART OUTING SUIT.

This is one of the daintiest of the new tub gowns. It is in fine grass tan linen. The sailor blouse is trimmed with tan linen lace, the collar effect being formed by deftly turned tucks. The skirt is very plain and full.

SHOCKING

Plunge of a Wealthy Philadelphia Girl In Vice.

Baltimore, Md., June 24.—The daughter of one of the wealthiest men in Philadelphia, having a high position in the exclusive circles of the Quaker city, will not be married to the wealthy and socially prominent young man to whom she was engaged. Her sudden disappearance some days ago led her parents to believe they had eloped.

The young man, however, was found in total ignorance of the whereabouts of the missing girl. Five days went by before she was located.

Then came a letter from Baltimore. The writer was once an intimate friend of the missing girl. She had found her friend on Charles street in a pitiable condition of semi-intoxication.

It was then discovered that the young woman had gone on a Bohemian expedition with a Philadelphia man. A resort in that city was first visited, and a day later the couple came to Baltimore.

They visited a suburban club, where their conduct became so hilarious they were asked to leave. Their whereabouts was then unknown until the following day, when the man left the girl.

That afternoon the young woman, hopelessly intoxicated, was seen at a resort with another young man. They were traced to a prominent hotel, where the pair registered under the surname of the Philadelphia society man to whom the young woman was to have been married.

Three days later the recognition occurred on Charles street, and on the fifth day after her disappearance she returned to her grief-stricken family.

The young lady's fiance broke off the engagement, and an offer is said to have been made to him of half a million dollars to renew it. This he is also reported to have declined.

A REPUTATION

How It Was Made and Retained In Duluth.

A good reputation is not easily earned, and it was only by hard, consistent work among our citizens that Doan's Kidney Pills won their way to the proud distinction attained in this locality. The public endorsement of scores of Duluth residents has rendered invaluable service to the community. Read what this citizen says:

Mr. Fred Hicks, of 412 Fourth street east, engaged in the shoe business, says: "I have had trouble all my life with my kidneys, the result of a nervous difficulty from which I suffer. Often severe heavy aching pain existed across the small of my back, and it was accompanied with irregularity and an unnatural condition of the kidney secretions. I tried everything in my power to check the trouble, but was unsuccessful until I procured Doan's Kidney Pills at W. A. Abbetts' drug store. I tried that remedy like I had tried a score in the past, with little expectation of receiving any benefit. I was surprised at the results, and although I do not expect to become absolutely clear of the kidney trouble, I have at least found a preparation upon which I can depend to bring relief when I appeal to it."

For sale by a ,dealers. Price, 50 cents. Foster-Milburn company, Buffalo, N. Y. Sole agents for the United States.

Remember the name, Doan's, and take no o'her.

SUCCESS

Of Judge Taft's Mission to Rome Is Assured.

Rome June 24.—There is no doubt of the negotiations of Judge Taft, governor of the Philippines, with the vatican regarding the disposition of the friars' lands in the islands, ending in the success of the American proposals in all essential points. Reports of serious hitches are denied by those who are best entitled to know. Some diversity of opinion regarding details has developed. This is prolonging the negotiations longer than anticipated, and the answer of the papal secretary of state, Cardinal Rompolla, to Judge Taft was too general in form to satisfy the American governor's wish, but it will all be straightened out. Judge Taft will today present another note to Cardinal Rampolla precisely indicating the American wishes, and asking for a categorical reply thereto.

BOY

Knew That He Was Going to Die.

Cleveland, Ohio, June 24.—Fourteen-year-old Fernin Joseph Nugent seems to have known that he was going to die long before his family believed it. He told them that he was about to pass away. He suffered from heart disease.

He asked his mother to carry him to the front door so he might look out and see the street. His wish was complied with. Then he begged his mother to carry him to the room which had been his father's before his death five years ago. As he passed through the rooms he stopped frequently to examine wistfully the familiar objects which they contained. The bed on which his father had died seemed to fascinate him and with a contented smile he asked to be put to bed.

"Now, mamma," said Joseph when they had put him to bed, "I want you all to stay around me and tell my friends to come, too, because I have only got one more hour to spend with you all." And then when we began to cry he smiled as sweetly almost as an angel, and told those about him not to worry, because he was not afraid.

"I have seen papa and I know that I will die within the hour."

Then the choir boys from St. John's cathedral, where Fernin was an acolyte, and who had been summoned, began to arrive and to shake hands with him. Fernin recognized them all and it was "Hello Joe," "Hello Jack," as long as he could see any of them. Then he talked with them.

"Good-bye, fellows," he said. "When I'm gone, be good to your mothers and you will get along all right."

"Was there no doctor at his bedside," Mrs. Nugent was asked.

"Oh, yes, and the priest was there, too, but it did no good."

"Fernin died a little before 9 o'clock," quietly explained the boy's sister, which was within the sixty minutes of the time the boy said he had to live.

TIME ALLOWANCE

Caused Cicely to Lose the Yacht Race.

Island of Heligoland, June 24.—The Leander, owned by Rupert Guiness, arrived here at 8:50 p. m. yesterday, so that both of the yawls, the Vol au Vent, owned by John Dempsey, and the Leander, which started from Dover, England, at noon June 21, in the race to this island for the German emperor's cup, beat the new English schooner yacht Cicely, owned by Cecil Quentin, designed to challenge Emperor William's American built yacht Meteor. The Cicely was the first yacht in the race to reach here, but she was beaten on time allowance. She allowed the Vol au Vent five and a half hours and the Leander three and a half hours.

TORPEDO BOAT SUNK.

Kiel, Germany, June 24.—Torpedo boat No. 42, of the German navy, was run down and sunk today by a British steamer at the mouth of the Elbe. The commander of the torpedo boat and three of her crew are missing.

HENDREN & TALLANT CO

Sale Began Today. *The New Store* You Lose by Delaying.

MILLINERY CLEARANCE!

Prices at Half and Less to Close Season.

Beginning today we cut the prices on everything in our Millinery Department to half its original price and less.

Not an old hat, shape or trimming in the house as all were placed in stock only this season. Thus you see we are not offering a "job lot" of passe styles that have grown ancient in the stockrooms of some jobber. We show by far the cleanest line of millinery in the city.

Bargains on paper and in reality are two different propositions. We urge that you see our line and secure our prices before making your purchases. We will gladly have them compared with any other. We only ask for patronage upon merit.

Flowers are included in this sale.

SOME PRICES FOR THIS GREAT EVENT.

Remember these prices are upon the very best materials obtainable and not upon an inferior quality of merchandise, purchased for this sale only.

PREACHER

Scores Peter, the Fisher, as "A Tough Old Nut."

Cleveland, Ohio, June 24.—Dr. Charles A. Eaton, pastor of the Euclid Avenue Baptist church, John D. Rockefeller's place of worship, does not think much of the veracity of Peter the fisher of Gallilee. In fact he declared in a street sermon that "Peter was a tough old nut, an old lying fisherman," because he denied his Master after the Savior had been taken in the Garden of Gethsemane. His exact words were:

"When Christ called Peter he was a cursing, lying old fisherman. When questioned about Jesus he swore and lied, denying Christ as Jesus had said he would before the cock crew. In fact, to use the language of the street, he was a tough old nut.

"Fifty days later this lying, cowardly, cursing old fisherman was delivering the inaugural sermon of the Christian propaganda. It took some great fact to transfer this lying fisherman into the St. Peter, and this great fact that Christ lives."

Dr. Eaton was preaching from the steps of the court house to a crowd of 300 men. He asked the members of the audience to be the jury and said he would submit the case to them. He said that Christ was the medium through which everlasting life was obtained.

"Christ still lives," he said. He arose from the dead and awaits his brothers in heaven."

Observing a number of physicians in the audience—delegates to the Institute of Homeopathy—he appealed to them.

"Science will help you little in this matter," he declared. "Science has little or nothing to say of eternal life. I can give you this, my friends. If you have not eternal life, in you, you never will have it. The followers of Buddha know where he was buried. Believers in Mahomet know his last resting place, but who can say where Jesus is buried? There were thousands of followers who would have kept watch over the sacred spot, and there were thousands who did not believe in him who would have gladly proved his burial, but they have left no such record."

BOWLERS.

Make-Up of the All-American Team Is Completed.

Dayton, Ohio, June 24.—The make-up of the All-American bowling trio which will tour the country to the Pacific coast, beginning Oct. 6, was completed today. Al Selbach, the left-fielder of the Baltimore American league club, and the champion bowler of Ohio, will captain the team. The other members are: John J. Voorheis, champion of New York; Phil Wolf, champion of Brooklyn, and Ernest Peterson, the star bowler of Chicago. Sam Karpf, Dayton, Ohio, secretary of the American Bowling congress, who is arranging the tou, will manage the team.

In addition to the three diamond-studded trophies to be awarded to the team of three making the best showing against the All-Americans while en route, there will be a large number of special prizes. A solid gold headed cane will be awarded to the bowler of California, Oregon, Washington and Utah making the highest score in any single game.

The team of bowlers in Minnesota, Montana, North and South Dakota making the best day's record against the trio, will receive a handsome trophy. The same conditions will apply to the bowlers of Missouri, Illinois, Wisconsin, Michigan and Nebraska, for the "pick" prize. There will be several other special contest prizes.

In order to arrange and announce the schedule of the trio in due time, Manager Karpf has decided to book no dates after Aug. 15.

Removal!

On or before July 1st, I will move from 201 W. Superior St. into my new quarters at

12 West Superior Street,

Near Lake Avenue.

PROF. JOHNSON KILLED.

Fennville, Mich., June 24.—Professor John C. Johnson, member of the faculty of the Wisconsin State university at Madison, was instantly killed yesterday afternoon near Pier Cove by falling from a load of goods he was moving to his summer cottage. A wheel of the wagon crushed his head. He leaves a widow and three children.

Cuts, Bruises and Burns Quickly Healed.

Chamberlain's Pain Balm is an antiseptic liniment, and when applied to cuts, bruises and burns, causes them to heal without maturation and much more quickly than by the usual treatment. For sale at Boyce's drug store.

PRIMUS

Brand Butter

is churned every day. The most scrupulous care is exercised to make it perfectly clean. Wholesome and delicious. Only the best of sweet cream is used in its manufacture.

A Home Produot

You can have it delivered to your home the same day it is made. Any of the thousands of consumers in Duluth who use only PRIMUS will tell you it excels all other makes.

All leading Grocers handle it.

MILLERS BUYING

Eastern Flour Men Are In Duluth Market After Wheat.

Market Has an Advance, Duluth Leading In Strength.

More Wet Weather For Wheat Country--- Flax Steady.

Duluth Board of Trade, June 24.—The foreign demand that was the feature of this market last week has fallen off, but it has been succeeded by a sharp demand from Eastern millers. They have been in this market for two or three days and have bought about 500,000 bus of No. 1 northern wheat which is the only grade of which there is any store left unsold. There is said to be less than a million bushels of grain in this market now unsold. The Eastern men have paid a considerably higher premium for this wheat than they would have had to pay some little time ago, when they would not touch the stuff.

The wheat market started out rather easy this morning, but a bullish tone was soon developed and prices went up with a rush. The opening weakness was due to indifferent cables and a rather favorable weather map. The suddenly developed strength was caused largely by prediction of more showers in the wheat and corn country. The Liverpool market closed higher.

Primary receipts were 422,000 bus, last year 536,000 bus. Shipments 294,000 bus, last year 545,000 bus. Clearances of wheat and flour were 190,000 bus. Bradstreet reports a decrease of 4,400,000 bus in the world's visible supply.

Corn and oats were both very strong in the Chicago market. Corn advanced 4c and oats 5c. Primary receipts of corn were 405,000 bus, last year 355,000 bus. Shipments, 171,000 bus, last year 414,000 bus. Clearances were 7,000 bus.

Reports of wheat at Duluth and Minneapolis, 250 cars, and at Chicago, 38, a total of 288 cars, against 146 last week and 429 a year ago.

Wheat continued to fluctuate narrowly the last end of the session. A nervous feeling pervaded the pit on the probability of manipulation in July options. July closed steady, a shade up at 74⅝c.

There was renewed covering in July corn at the opening influenced by bad growing weather in Iowa. This started all options higher but free offerings of September on the advance caused a loss of some of the early gain. Trade was not active early. July opened ½@¾c up at 67⅝@67¾c, dipped to 67¼c and recovered the high price. September sold at the opening at 66⅝c, but dipped to 65⅝c. Receipts, 354 cars.

Corn, in spite of selling of September corn that was the feature of the day, kept in fair demand. July was being manipulated to very high prices almost without the knowledge of the pit. The close was very firm, July ⅝c higher at 67⅝c. September closed ¼c up at 60⅛c.

Oats were quiet early, but maintained a firm tone. The cash demand was excellent, future options were in good demand and the only weakening influence was selling of September in the way of paralleling. Crop advices were not the best. July opened ⅝c up at 41c, dipped to 40⅞c, advanced to 41¼c and steadied near 41c. Receipts 261 cars.

Provisions were somewhat nervous early. Hogs reached $7.90 at the yards—a new top price for the year. Products generally showed some advance on this influence, but there was good outside liquidation and some selling by packers that brought recessions. July pork opened unchanged to 10c higher at $18.50 to $18.60 and dipped to $18.45. July lard opened unchanged to 2½c up at $10.65@$10.67½ and July ribs 5c lower at $10.85 and sold at $10.77½@10.80.

Close, wheat, June, 75c; July, 74⅝c; September, 72¼c; December, 72⅞c. Corn, June 67⅜c; July, 67⅝c; September, 60¼c; December, 48⅛@48⅜c; May, 44⅝c. Oats, July, 37¾c; new, 41⅜c; September, 29½c; new, 32⅜c; December, 29⅝@29¾c; new, 32⅜c. Pork, June, $18.40; July, $18.40; September, $18.67½; January, $16.70. Lard, June, $10.67½; July, $10.67½; September, $10.70@10.72½; October, $10.85; November, $10.17½; December, $9.60; January, $9.37½; May, $9.27½. Ribs, June, $10.85; July, $10.85; September, $10.77½; January, $8.60. Flax, cash, Northwestern, $1.74; Southwestern, $1.54; September, $1.41; October, $1.38. Rye, July, 57c; September, 54½c. Barley, cash, 60@70c. Timothy, September, $4.45. Clover, cash, $8.35. Cash wheat, No. 2 red, 80@81c; No. 3 red, 79@80c; No. 2 hard winter, 77c; No. 3 hard winter, 75@76c. No. 1 northern spring, 76½@77c; No. 2 northern spring, 75c; No. 3 spring, 68@73c. Corn, No. 2, 66¾@67c; No. 3, 62@63½c. Oats, No. 2, 43½@44c; No. 3, 42½@43c.

Sheep receipts, 10,000; slow; lambs, steady; good to choice wethers, $4.90@4.75; fair to choice mixed, $3.75@4.50; Western sheep, $2.50@4.75; native lambs, $5.00@7.00; Western lambs, $5.10@6.75. Receipts yesterday—Cattle, 17,294; hogs, 33,842; sheep, 26,590. Shipments—Cattle, 4183; hogs, 5629; sheep, 880.

MIDWAY HORSE MARKET.

Minnesota Transfer, St. Paul.—Barrett & Zimmerman report the market opened with every indication of a fair trade this week. Stock was plentiful of all classes including a large number of Western horses and buyers both from local quarters and from out of town were on the market. Values:

Drafters, extra	$160@225
Drafters, choice	140@160
Drafters, common to good	125@140
Farm mares, extra	125@145
Farm mares, choice	100@125
Farm mares, common to good	50@100
Western horses	25@ 60

MARKET REPORT.

Received over private wire of R. E. Baker, grain and stock broker, 507 Board of Trade, Duluth, Minn.

Chicago, June 24.—Favorable weather in this country and abroad together with weak cables from Paris caused our wheat market to open lower, but at the decline there was good buying on unfavorable threshing returns from the Southwest, also strength in coarse grains. Prices recovered the early loss, but eased off again toward the end of the session. The market closed July ¼c higher, September and December ¼@⅜c lower than last night. Liverpool reported their market as opening quiet, but later advanced and closed ½d higher for the day on unfavorable reports regarding the health of the king of England. Continental markets were generally weak, affected by the favorable weather.

There was a good demand for cash wheat here but seaboard reported demand there quiet. There is very little new wheat being offered to arrive and it looks as though farmers would not be in a hurry to sell at present prices. Anyway, whatever they may sell is pretty sure to meet an urgent demand from home millers who are practically bare of stocks. Considering the prices of coarse grains wheat looks cheap and should sell higher. Estimated receipts, 25 cars.

There was a large and active trade in corn and the principal feature was the strength in the distant futures. The July option ranged from 67¾c to 68c and closed at 67⅞c. September closed ¼c and December closed ⅛c higher than last night. The weather was generally favorable for the crop but cash demand was somewhat better. Country offerings were light and receipts fading off. Foreign markets were steady. Liverpool closed ½d higher for the day. Estimated receipts, 130 cars.

There was a large and active trade in oats today and the market ruled very strong on light country offerings and excellent cash demand. No. 3 white on track sold at 41c, the highest of the season. New England demand was good. The general situation continues strong with demand exceeding the supply and no prospects of any large receipts in the near future. Estimated tomorrow, 115 cars.

Provisions opened strong on less hogs than expected, but the advance was promptly met by very heavy selling by brokers of ribs, this selling was credited to the same source as yesterday's heavy realizing. The market received timely support from the other leader and advanced quickly, the closing was higher for pork than yesterday, lower for ribs and about the same for lard. The feature is the buying by outsiders, but as that is what has been wanted by the packers for months past, the end is not far away. Eighteen dollars for pork is more attractive than $9, but we think there is less money in it and advise selling any option on the list.

Temperatures were moderate yesterday and cool last night. Scattered showers fell, Charles City, Iowa, reporting a rainfall of 2.32 inches.

CROP CONDITIONS.

Cold Weather and Frosts Affect Crops Somewhat.

Washington, June 24.—The Weather Bureau's weekly summary of crop conditions is as follows:

The week ending June 23 was abnormally cool in all districts east of the Rockies except along the Sout Atlantic and Gulf coasts, with more or less damaging frosts in the central and northern Rockies, the Dakotas, Minnesota and portions of Iowa and New York. Local showers have affected feed in portions of the central Gulf states and over very limited areas in Texas, but in much the greater part of that state no rain has fallen and high temperatures have prevailed. Portions of the lower Missouri valley and lower lake region continue to suffer from excessive rains. The conditions over the Pacific coast were favorable, nothwithstanding the prevalence of hot, drying winds in Washington. The unseasonably low temperatures have checked the growth of corn over the northern portion of the corn belt and cultivation has been retarded by rains in portions of the upper valley, upper lake region and the Missouri valley. In the lower Missouri valley, Oklahoma, Kentucky, Tennessee and the middle and southern Atlantic states, the crop has made remarkable progress. In central Gulf states early corn has been seriously injured by drought and in Texas the crop is the poorest for a number of years.

Winter wheat harvest has been delayed by rain in the lower Missouri valley, but has progressed favorably in the Ohio valley and middle Atlantic states.

The crop has experienced no unfavorable conditions during the week although low temperatures have checked ripening over the nortern portion of the winter wheat states, where th hads are filling well. In Oregon and Washington, hot, drying winds have prevailed, but wheat has escaped injury and in California, where shipments have begun, harvesting continues under favorable conditions. Spring wheat has made excellent progress generally throughout the spring wheat region and is heading in the more northerly portions. Too rank growth, however, is reported from Wisconsin and Iowa, with a tendency to rust in the last named state.

MR. BROWN OF AMERICA.

Myron Baynard Brown's aunt last week appeared and wanted him to return home to America, but he has declined, and may remain for some time yet, says the London Express.

Mr. Brown, who for thirteen years has lived in his yacht off the Brightlingsea coast, is an American millionaire.

During that time steam has been kept up on his yacht ready for him to sail at a moment's notice, but the attractions of the Essex coast have been too strong for him.

As a man of 36 he left the shores of America to anchor in the North sea.

Since 1899 the huge amount he has given away cannot be called charity, because some of the recipients of the American millionaire's bounty are noted "wastrels." Mr. Brown gives for the pleasure of giving.

Sometimes it happens that the men or women to whom he gives are in urgent need of money. More often than not they are of the genus cadger, but in each case this strange millionaire gives without reflection or without inquiry.

All the year around he receives shoals of begging letters, which arrive at the rate of a sack a day. He reads them all carefully, and sends money to the writers of about one in every ten. The amounts he gives vary between a guinea and a thousand pounds.

It is an extraordinary sight to see the large number of boats laden with beggars swarming around his yacht, the Calfrei, waiting hours until he signifies by a nod that he will see one or two applicants.

Sometimes he will refuse to see anyone for days, and the boats wait in vain.

One sturdy beggar came reularly from London once a week for a year to see the capricious millionaire, but without seeing him. At the year's end Mr. Brown saw him, gave him £100, and told him not to come again.

Innumerable stories are told of Myron Brown's strangé benevolence. At one time he would visit cottages and leave bank notes in children's cloth; at another he saved a boatman's life by sending him to a hospital and paying for an operation. On another occasion he paid the losses of an old man and woman who had sunk all in a bank.

Many are the tricks resorted to to deceive him, but it makes little difference.

Mr. Brown is a man of many moods. For days he will shut himself up in his cabin and refuse to see even the steward who waits upon him.

In the words of a boatman: "When the moon is full he never gives away a half-penny, but when it gets on well to the half he throws money away right and left."

The authorities of Brightlingsea do not look upon him with a very kindly eye, and, indeed, they would hail his departure with relief.

Even the man who says he don't read advertisements goes to a well-advertised store and calls for an advertised article. To "soak in" ads should appear often in The Herald.

THE CHICAGO MARKET.

Wheat Opened Easy But a Bullish Tone Developed.

Chicago, June 24.—Indifferent cables, a somewhat favorable weather map and selling of September wheat started the wheat market with an easy tone today. July wheat opened in shade to ¼@⅜c lower at 74⅞@75c and sold down to 74c. There soon developed a bullish tone partly on the prediction of showers again in the wheat and corn country. Corn was firm and July wheat mounted to 74⅝c and steadied near 74⅝c. Local receipts were 38 cars, 6 of contract grade; Minneapolis and Duluth reported 250 cars, making a total for the three points of 288 cars, against 146 last week and 429 a year ago.

Wheat continued to fluctuate narrowly the last end of the session. A nervous feeling pervaded the pit on the probability of manipulation in July options. July closed steady, a shade up at 74⅝c.

There was renewed covering in July corn at the opening influenced by bad growing weather in Iowa. This started all options higher but free offerings of September on the advance caused a loss of some of the early gain. Trade was not active early. July opened ½@¾c up at 67⅝@67¾c, dipped to 67¼c and recovered the high price. September sold at the opening at 66⅝c, but dipped to 65⅝c. Receipts, 354 cars.

Corn, in spite of selling of September corn that was the feature of the day, kept in fair demand. July was being manipulated to very high prices almost without the knowledge of the pit. The close was very firm, July ⅝c higher at 67⅝c. September closed ¼c up at 60⅛c.

Oats were quiet early, but maintained a firm tone. The cash demand was excellent, future options were in good demand and the only weakening influence was selling of September in the way of paralleling. Crop advices were not the best. July opened ⅝c up at 41c, dipped to 40⅞c, advanced to 41¼c and steadied near 41c. Receipts 261 cars.

Provisions were somewhat nervous early. Hogs reached $7.90 at the yards—a new top price for the year. Products generally showed some advance on this influence, but there was good outside liquidation and some selling by packers that brought recessions. July pork opened unchanged to 10c higher at $18.50 to $18.60 and dipped to $18.45. July lard opened unchanged to 2½c up at $10.65@$10.67½ and July ribs 5c lower at $10.85 and sold at $10.77½@10.80.

DULLNESS IN STOCKS

News of King Edward's Serious Illness Caused Flurry.

It Was Only Temporary and Effect Soon Passed Away.

Weakness of Some of the Industrial Stocks the Feature.

New York, June 24.—The news of the serious illness of the king of England caused only a temporary flurry in Wall street. This was partly due to the fact that the news of the success of the operation on the king was received almost immediately after the opening of the exchange. The general run of stocks fell only small fractions. Prices generally recovered when the advice of the advance of stocks that were strong yesterday was renewed. The dull and irregular market that followed was caused by the weakness of some of the industrial stocks which are not subjected to influence of foreign markets.

New York, June 24.—The disturbing effect of the illness of the king of England, caused a downward swing of stock prices at the opening, but the declines did not exceed a point in the leading active stocks. The point loss was shown by Canadian Pacific, St. Paul and Atchison. Only a few other stocks declined more than ½. The pressure of the liquidation was not heavy, the offerings being on only moderate blocks.

Some sharp losses occurred in the inactive specialties before supporting orders became effective. Union Bag preferred declined 2¼, American Snuff 2¼, Colorado Fuel 2 and New York Air Brake. Paper preferred, New York, C. & St. L., Rock Island and Texas & Pacific 1 to 2 points. The rebound in prices was led by the Southwestern roads, Missouri Pacific and Texas & Pacific rallying strongly and the Wabash's rising ⅞ and ¾ over last night. Chicago Great Western and North American advanced 1¼ and 1½. A few other stocks scored full recoveries. Chicago & Eastern Illinois rose 3½ and the preferred a point. Colorado Fuel and Amalgamated became weak again, the latter losing 2¼ and Anaconda 2½. The general market became dull and heavy again.

The buying to support the market discontinued and the weakness of Colorado Fuel and Copper seemed to overcome the market. The former lost 2¾ and the latter 2¼. Anaconda lost 4¾ and prices generally fell to the lowest. There were losses of 1 to 2 by leading stocks in the grangers, Southwesterns and Pacifics, trunk lines and specialties. The coalers were comparatively firm. Ice preferred rose 3. With a rally of a point each in Colorado Fuel and Copper the market steadied. Bonds were irregular.

The rally extended to 2 in Colorado Fuel, 1½ in Amalgamated and a point in St. Paul and Canadian Pacific. General Electric rose 3 but Corn Products preferred dropped 3½. An active demand for Reading carried the price to 67 and helped to keep the market steady.

The failure of the general market to respond appreciably to the rise in Reading induced some selling and prices sagged a fraction all around. The market became intensely dull but hardened somewhat in spots. Brooklyn Transit rose to 67¾.

Reading advanced again to nearly a point over last night, St. Paul scored a full recovery and Sugar rose ¼ over last night; but the languid repose elsewhere prompted renewed selling in the late dealings and prices easily gave way, some stocks selling lower than at first. Canadian Pacific's loss reached 3¼, Amalgamated and Colorado Fuel lost only part of their recovery. The closing was dull and heavy.

Stock quotations reported for The Herald by Edwards, Wood & Co., Room A, Torrey building, Duluth. Closing prices are bid prices:

STOCK GOSSIP.

Waldorf to Edwards, Wood & Co.: Market views tonight again reflect conservatism and the reports of larger commission houses incline to the opinion that a good reaction in prices should be recorded before purchases will be justified. They make the point that while corn conditions and prospects are good, the manipulation of specialties does not bring in any considerable following. Nor does it stimulate the general list. No difficulty is experienced in putting up stocks, when it comes to selling them there are no buyers save the covering bears. This tells plainly the story of manipulation and professionalism in the current price movements. Discussing the question of bear arguments, the same observers say that while the latter relate mostly to temporary causes they are of sufficient importance to bring about the desired setback in the market. The price level is high. The public holds aloft except where pools are at work stocks are straight. Much uneasiness is caused by the heaviness of, and liquidation in, minerals industrial stocks, for example, A. C. P., United States Steel and Colorado Fuel. The unrest of labor is also the source of apprehension, because it seems to be spreading and of disappointment because it has lasted much longer than was anticipated a fortnight ago by people who supposed themselves well informed. Such are the bear arguments on which most stress is laid and to unprejudiced speculators they appear sufficiently important to outweigh for the time being, anyhow the admittedly bullish factors in the outlook. The decline in the industrial shares naturally gives rise to a good deal of theorizing the most improbable of which is said tonight is to the effect that the Morgan interest is attacking the Standard Oil specialties, A. C. P. and the latter interest in retaliation is hammering Morgan pet specialties, the United States Steel shares.

• • •

Ridgley to W. H. Laidley & Co.: The immediate situation looks rather uncertain. Several incidents have arisen which may exert a temporarily depressing influence unles the big men expect to hold stocks at present levels. It is certain that with good crops assured, an active bull speculation will prevail with much higher prices all ...rough the list. I do not think the declines will extend very far in any case. The outlook is for marked dullness for the next few days. I have no advice to offer on Industrials except not to sell them short. It must be admitted they don't look, but with so many bears on the industrials, would not be surprising to see some of them run up sharply.

• • •

New York to Paine, Webber & Co.: On any decline today stocks should be purchased for a turn. It is generally believed that Pennsylvania interests are buying Wabash. Everybody bearish on copper and on any further decline, stocks look a purchase. Excellent buying of Atchison prefererd and common. Gould people talking very bullish on their properties. People who should know say the Illinois Central will absorb Chicago & Eastern Illinois. No change in the strike situation.

• • •

Dow-Jones to W. H. Laidley & Co.: One of the leading officials of Wabash says: "From what I hear, Mr. Gates has been the principal buyer of Wabash common. Just what his motive is I don't know. At a directors' meeting the question as to what heavy purchases made, was discussed and Mr. Gould said he was not afraid of any other road getting control."

THE COPPER STOCKS.

Following are the closing quotations of copper stocks at Boston today, reported by Paine, Webber & Co., 308 West Superior street.

COPPER GOSSIP.

Boston to W. H. Laidley & Co.: Coppers were dull and uninteresting, but a little more activity was hown today than for some time past. Copper Range was the leader, but outside speculative interest very small. Until Amalgamated Copper does better I do not look for any radical change in prices, but upon further decline would advise the purchase of copers in general.

• • •

Boston to Paine, Webber & Co.: The king's illness and reported death gave the traders a chance to sell the market all day. There was some liquidation in the early trading in copers, but it was well taken. Impossible to find out anything in Amalgamated. The general gossip is very bearish, but the feeling is made worse for the purpose of getting a lower level on some of the coppers to buy them. Best advices from New York are that the general market is a purchase on this weakness.

THE COTTON MARKET.

New York, June 24.—The cotton market opened firm with prices unchanged to 5 points higher on active demand from shorts and moderate foreign support in large part based on further drouth report from the Southwestern cotton belt. Following the call the market gained several points more on general buying after which there was a setback under profit-taking by early buyers and unfavorable news from London without, however, any marked declines here. The initial cables from Liverpool noted an advance of 2½ to 4 points in futures and 1-16 in spot cotton, where no improvement was expected. The weather chart gave generally fair conditions throughout the belt and the forecast for the West gave little promise of rain in Texas, with the next few days. The one single lot of 100 sold in the early trading at 904, this being a net rise of 25 points in the last two days.

Cotton spot closed steady; middling uplands, 9¼c; middling gulf, 9½c; sales, none. Cotton futures closed steady; June, 8.96; July, 8.67; August, 8.38; September, 8.63; October, 7.92; November, 7.85; December, January and February, 7.86; March, 7.80.

NEW YORK MONEY.

New York, June 24.—Close: Money on call steady at 2¼@3 per cent; closed offered at 2½ per cent; prime mercantile paper, 4½@5 per cent; sterling exchange, firm, with actual business in bankers' bills at $4.87⅞ for demand and at $4.83⅝@4.83⅞ for 60 days; posted rates, $4.86@4.86½ and $4.88½@4.89; commercial bills, $4.84⅝@4.85⅜; bar silver, 53c; Mexican dollars, 42½c. Government bonds steady; state bonds, inactive; railroad bonds, irregular.

TREASURY BALANCES.

Washington, June 24.—Today's statement of the treasury balances in the general fund, exclusive of the $150,000,000 gold reserve in the division of redemption, shows: Available cash balance, $202,361,647; gold, $99,859,895; silver, $24,297,974; United States notes, $10,128,572; treasury notes of 1890, $147,669; national bank notes, $9,691,114; total receipts this day, $1,865,223; total receipts this month, $37,690,457; total receipts this year, $550,818,157; total expenditures this day, $570,000; total expenditures this month, $30,345,000; total expenditures this year, $467,716,797; deposits in national banks, $126,858,386.

INSANITY OF ANIMALS.

"Animals go crazy just like human beings," said an observant citizen to the New Orleans Times-Democrat, "and I have seen some rather curious instances in my time. I have often wondered why some man who makes a special study of animal psychology hasn't taken the subject up. Really here is a good field for some scientist who is fond of speculating on such subjects. I recall the case of a horse who displayed unmistakable evidences of insanity. The horse was moody. He was a fine animal, almost perfect physically, and went all the gaits. He was one of the best buggy horses I ever saw, and could trot a mile in a jiffy. About once a month he would get into an unhappy mood. There was no doing anything with him. He would not obey any of the usual commands. He was simply wild. He would run away in a minute. One day his owner and a friend went out for a drive. It was one of the bad days with the horse. It was one of his crazy days. He became unmanageable and ran away. The owner was badly bruised and his friend was killed. The horse was badly crippled by running off of a bridge. He was so badly hurt that he was not of much good afterwards. He was unquestionably crazy. I have seen other animals display the same weakness. I have seen crazy cats, crazy dogs, crazy cows and crazy animals of various kinds, and it seems to me that there is a good field here for some man who takes an interest in such matters."

NEWS OF THE LAKES

Steamer Leland Was On Fire Near Portage Lake Canal.

Search Made For the Drowned Seamen of the Wilson.

Divers Thus Far Fail to Locate a Single Body.

Houghton, Mich., June 24.—(Special to The Herald.)—While about ten miles out from the ship canal the steamer Leland caught fire last night. The fire was first reported by the steamer Carthagena, which passed out of the canal shortly after 7 o'clock. The steamer gave the signal of distress and the life-saving crew at once responded. The vessel could be plainly seen from the canal enveloped in smoke. Rowing out to a point about seven miles from the Leland, the life-saving crew, no longer able to see the flames and smoke, returned. Proceeding toward Duluth the Carthagena was seen to pass the Leland, and as no signal was given the life-saving crew became satisfied that no relief was needed. Telephone communication with the life-saving station and other points in that vicinity is interrupted because of a tangle in the wires, and it is impossible to obtain more definite information from that source. The Leland is but little known here. She passed up late in the afternoon, having two consorts in tow, the schooners Racine and James G. Blaine, laden with coal. She is a freighter, but carried a number of passengers. It is understood the captain's family is aboard on a tour of the lakes.

NO BODIES FOUND.

A search was made yesterday afternoon for the bodies of the drowned seamen of the steamer Wilson, but no bodies were found. The survey was made and divers sent down. They looked all about the vicinity of the wreck without finding a single body. Another effort will be made later. Nothing was done today, but divers will be sent down again as soon as possible.

LOST TWO MEN.

Port Huron, June 24.—(Special to The Herald.)—The steamer Cahill, which passed down last night, reported losing two men overboard on Lake Huron between Lexington and Port Austin. A lifeboat was lowered, but the men

HALDEN PICKS IT

Gracefully Permitted to Select Republican State Delegation.

Powerful Group of Men Who Will Push His Interests.

William L. Windom, Chairman of the Convention ---The Resolutions.

The St. Louis county Republican convention was called to order promptly at 2 o'clock this afternoon by E. L. Millar, chairman of the county committee. With the calling of the convention to order his duties as chairman ceased, and he called for nominations for chairman of the meeting.

John H. Norton nominated W. L. Windom for temporary chairman. No other names were proposed, and Mr. Windom was unanimously elected. C. W. F. Hagg and J. H. Norton were appointed a committee to escort Mr. Windom to the chair.

The next business in order was the electing of a temporary secretary. Alderman L. A. Barnes was nominated by Joe Allen and he was declared elected. There was no opposition.

Chairman Windom was disposed to expedite business, and proceeded at once to the selection of a committee on credentials. N. B. Morrison suggested, in view of the fact that there were no contests, that the committee on credentials combine the duties of a committee on permanent organization. The suggestion met with no opposition.

Chairman Windom appointed the following committee on credentials and permanent organization: N. B. Morrison, Joe Allen and Capt. Charles TreZona, the latter of Ely. The convention then became informal pending the report of the committee.

At 2:25 the committee reported that all of the delegates present, 147 in all, were entitled to seats. It was recommended that the temporary organization be made permanent. The report was unanimously adopted.

E. L. Millar moved that a committee of three be appointed on resolutions. The motion prevailed and the chairman named Capt. D. E. Stevens, E. L. Millar and Judge Nelson, the latter of Virginia.

Chairman Windom made a few remarks, dwelling upon the wealth of St. Louis county. It was brought out in a speech on the responsibilities of the convention. He said Republicanism should prevail in the county, districts and state, for the reason that the Republican party had in its history proved its ability and fitness to cope with all questions that have come to it to solve.

Mr. Windom spoke of the desirability of promoting the candidacy of Odin Halden, whose name was received with applause.

Mr. McKay moved that, in view of the fact that Odin Halden is a candidate for a state office, that he be permitted to name the delegation to the Republican convention at St. Paul July 1. The reason advanced for this suggestion was that Mr. Halden would know better than any other person who can get away to attend the convention and who will further his interest most effectively, as well as those of the county.

George G. Mallory heartily seconded Mr. McKay's motion. Mr. Halden was not present, but a list of names known to be satisfactory to him was submitted by Mr. McKay. It was as follows:

E. B. Hawkins, Hibbing, chairman; E. H. Hudson, John Miller, J. R. Cotton, F. B. Daugherty, E. R. Jefferson, L. M. Willems, D. E. Stevens, C. H. Graves, W. F. McKay, Joseph Sellwood, J. J. Eklund, Hugh J. P. Johnson, M. Bunnell, A. D. Davidson, Ole Larson, Joseph Allen, F. E. Searle, T. M. Pugh, G. J. Mallory, P. C. Schmidt, G. H. Laybourn, Napoleon Grignon, of Duluth; John Pengilly, Towner, A. Larson, Soudan; Charles Trezona, Matt Gleason, Ely; Nick Cowling, Morse; R. R. Trezona, Fayal; M. S. Hawkins, Mountain Iron; J. B. Hearding, M. Prettner, Nell McInnis, F. C. Talboys, Eveleth; P. Mitchell, Harry Thomas, John Kilduran, Hibbing; M. C. Palmer and Fred Rossum, Virginia.

The report of the committee on resolutions was as follows:

We, the Republicans of St. Louis county, in convention assembled, hereby renew our allegiance to the Republican party, with its glorious history and traditions, and we re-affirm our faith in and subscribe to the declaration of principles and platform of the last national Republican convention.

We rejoice in the wise and far-seeing statesmanship of the lamented McKinley and congratulate the people upon the great achievements of his administration and we heartily commend President Roosevelt in carrying out the policies of that administration and on his masterful grasp of and courageous stand upon all public questions.

We cheerfully endorse the honest, fearless and efficient administration of Governor Van Sant and hereby instruct our delegation to the state convention to vote for him and to use all honorable means to secure his renomination.

We point with pride to the material growth and prosperity of St. Louis county and its increased importance as a constituent part of the state. We call attention to the fact that its present financial condition is the best in its history that its present tax rate is its lowest and is, likewise, the lowest of any county in the state. We rejoice in the further fact that St. Louis county in the last five years has paid more money into the state treasury than any other county. These results have been accomplished under the honest, courageous and business-like administration of the present county auditor, Hon. Odin Halden, and we hereby present his name to the coming republican state convention as a candidate for state auditor, and hereby instruct our delegation to that convention to vote for him and to use all honorable means to secure his nomination.

We hereby declare that we are in favor of the election of United States senators by direct vote of the people.

We stand for the right of labor to organize for its own protection and advantage, and recognize, among the benefits accruing therefrom, the tendency to and realization of shorter hours and increased wages. We favor an eight-hour law as to all state contracts and believe in arbitration as the best method for adjusting all disputes between labor and capital.

We are irrevocably opposed to trusts and all monopolies and trust combinations and we favor an amendment to the constitution of the United States granting full power to congress to regulate and control the same.

We favor just and equal taxation and believe that non-resident corporations should be equitably taxed with domestic corporations.

We favor municipal ownership of public utilities.

We favor the proposed constitutional amendment increasing the gross earnings tax on railroads in this state to be voted on this fall and call special attention to the fact that its submission was secured by a Republican legislature and a Republican state administration.

CITY BRIEFS.

Tibbetts, undertaken 31 East Sup. St.

Smoke X-Ray and Duluth Herald cigar.

Foresters' dance, Court Eastern Star, Lester Park, Wednesday, June 25.

Parlor theater. Enjoy life. See our show.

Deputy Game Warden Green has taken seven nets from the water between Minnesota Point and New Duluth during the past two weeks.

The tug Sarah M. Smith has brought in her first raft of beached logs which she has picked up on the south shore.

Judge W. G. Bonham has filed his certificate of candidacy for the office of judge of probate, which he now holds. He has made an excellent record during his one term in that office, and his friends say that the custom of allowing two terms will apply in his case and will give him a renomination.

There will be a social dancing party at Hunter hall, Thursday evening, June 26, given by Zenith lodge No. 99 D. of H. All are invited.

Second citizenship papers have been granted by the district court to William Hutchinson, of Great Britain, and Giovani Di Meo, of Italy.

Parlor theater—A show for the people.

PERSONALS.

At the Spalding: H. E. Stiel, St. Paul; Robert Pratt, Minneapolis; V. H. Beutell, New York; M. C. Prouty, Marquette; William Scott, Grand Rapids; John A. Heavenrich, Chicago; G. N. Michaud and wife, St. Paul; Henry F. Hopper, Detroit; C. H. Bettman, Chicago.

M. C. Kimberly, general superintendent; W. L. Darling, chief engineer; F. G. Prest, purchasing agent, and E. J. Pearson, assistant general superintendent of the Northern Pacific road were in the city yesterday on a tour of inspection of the company's lines.

Mrs. J. H. Generaux and little daughter, Margie, sister of W. A. Nichols, left over the Northern Pacific this morning for Maple, Wis.

Mrs. W. A. Nichols and little son, Clancey, left this morning to visit relatives and friends in Lake Nebagamon.

Mrs. A. C. Albachten and children left yesterday for their summer home at Fond du Lac.

Ward Amess, Jr. and Fred Lewis returned today from Chicago, where they went to the Derby.

Miss Mary McFadden left this afternoon for St. Paul.

Capt. D. H. Presnell returned last evening from St. Paul, where he attended the reunion of the First Minnesota volunteer infantry.

Capt. D. D. Gaillard, the government engineer for the Lake Superior district, left in the government launch Vidette, this morning for an inspection trip of the harbor at Two Harbors.

George H. Bent, of Chicago, son of George L. Bent, manufacturer of the Crown pianos and organs, is in the city on a combined business and pleasure trip.

Harry Leach, of Chicago, is at the Spalding.

John McClure, of St. Paul, is at the Spalding.

Most of the delegates to the Democratic convention to St. Paul tomorrow left this afternoon over the Eastern Minnesota road.

T. J. Walsh, of Tower, is registered at the McKay.

John S. Knoll, of Los Angeles, Cal., is at McKay guest.

Editor Atkinson, of Hibbing is at the McKay.

The range delegation at the St. Louis this morning includes F. C. Talboys, Eveleth; P. S. Colvin, E. B. Myers, Hibwabik; E. Morcom, Tower; Benjamin Collins, Thomas Whitta, John E. Dennis, Charles Trezona, W. C. Hodge, G. W. Holmes, Ely; George H. Vivian, Soudan.

Mr. and Mrs. Herbert Kelly, of Ely, are at the St. Louis.

T. K. Berkelund, of Biwabik, passed through the city yesterday en route to attend the Democratic convention at St. Paul.

George Myers, of Chisholm, manager of the Mashek Lumber company, is at the St. Louis.

P. E. Dowling, editor of the Eveleth Star, is registered at the St. Louis.

R. C. Mitchell, Jr., who, during the past year has been attending the Mining school at Moscow, Idaho, returned home yesterday to spend his vacation.

Miss Jo Barnes has returned from Evanston, Ill., where she was graduated last week from the Northwestern university. The graduates from that university this year numbered 506. Miss Barnes will be at home for two weeks with her mother in Lester Park.

BARS WOOD.

First Four Wards Are In Cement Sidewalk District.

From this time on wooden sidewalks in the residence districts of the First, Second, Third and Fourth wards, are prohibited.

This does not mean that all wooden walks will have to immediately give way to cement or stone walks.

The Fifth ward was also included in the original cement walk district mapped out by Alderman Hamilton, but at the request of the Fifth ward aldermen most of the proposed Fifth ward district was stricken from the cement walk ordinance, passed last night.

When the ordinance becomes effective on the day of its publication wooden walks will be prohibited on all streets running east and west through the Fourth, Third and Second wards as far as Twenty-fifth avenue east in the First ward, as high up the hillside as Fourth street.

The Fifth ward is to have cement walks on First and Second streets from Eighth avenue east to the boundary of the Fourth ward.

Under the new ordinance Second and First avenues west are to have cement walks on both sides of the thoroughfare from Superior street to Fourth street. The east side of Third avenue west is also included in the district as far up the hill as Third street. Beyond that point the grade is considered too steep for a cement walk.

BROTHERS KILLED.

Two Milwaukee Boys Struck By Electric Car.

Milwaukee, June 24.—Arvy and Hilber Emmerman, aged respectively 13 and 19 years, were instantly killed by an electric car today at the Fifty-fourth street crossing, town of Wauwatosa. The boys were playing on the track and did not notice the aproach of the train. the lads were sons of Philip Emmerman, who lives at Fifty-fifth street and Grand avenue, and is employed at West Allis.

TRIAL OF TUGMEN.

Attempt to Revoke Licenses Has Commenced.

Chicago, June 24.—The struggle between the Great Lakes Towing company and its striking employes, in which the company seeks to cause a revocation of its former employes' licenses, began before the government steamboat inspectors today. The trial will be private.

Great Northern Railway.

POPULAR EXCURSION.

Only $45.00 to Portland, Ore., and return, with stopover privileges at Spokane, Seattle and Tacoma. Only $50.00 to San Francisco and return. See Great Northern railway, corner Spalding hotel, for details, or write F. J. Whitney, G. P. & S. P. for pamphlet, "Pacific Coast Convention, 1902."

HALF MILE DISTANT

John Moore Accidentally Shot at Powers & Simpson's Camp.

Man Practicing With Rifle Half Mile Away Did It.

Bullet Completely Severed the Spinal Cord ---Chances Slim.

John Moore, accidentally shot near Hibbing last night, is in a very critical condition at St. Mary's hospital.

The accident is extraordinary both as to its manner and results. Mr. Moore is employed at Power & Simpson's logging camp near Hibbing. After eating supper last evening he and several other men sat down on a bench in front of the log cabin.

Suddenly Moore fell forward on his face. He had been struck by a stray bullet from the rifle of a man that was practicing a half mile away.

Too stunned by the blow Mr. Moore lost all control of his body from the center of the back down. He was completely paralyzed on both sides.

The men in the camp rushed him to a handcar on the logging road near by and carried him to Hibbing on it. At Hibbing arrangements were made to rush the injured man to Duluth and he arrived at St. Mary's early this morning.

Dr. W. H. Magie operated on the injured man this morning. The bullet had severed the spinal cord in two and lodged in the spinal canal.

The case is said to be one of the most remarkable on record, and it is very doubtful if Mr. Moore will recover. Should he get well he can never again use the lower part of the body.

The name of the man who did the shooting could not be learned. It would probably be a difficult matter to fix the blame as there were two men shooting. Neither saw Mr. Moore and did not know of the accident for some time afterward, so that it would be extremely difficult to find out which of the two really did the shooting.

TO CANADA.

Big Excursion to the Canadian Lands Recently Bought.

About twenty-five Duluth business men will leave tomorrow noon over the Great Northern for Coon Creek junction, where they will take a special train for Winnipeg. This special train will carry about 100 of the leading bankers, capitalists and business men of the west and Northwest. They are going up to look over the large tract of lands recently acquired by the Saskatchewan Valley Land company, of which A. D. Davidson, and others of this city, were the promoters.

Some sensational reports have been printed about the trip, arising doubtless from the prominence of the men that are to be members of the party. George C. Howe said this afternoon that the trip was being made merely to look over the farming country in the newer part of Western Canada, not for the purpose of purchasing additional land, as had been stated.

It cannot be said at this time just whom will join the party from Duluth, but among them will be Mr. Davidson, George C. Howe, A. D. Rae, A. L. Ordeman and quite a number of others.

Prominent among those from other parts of the West will be: Gov. S. R. Van Sant, of Minnesota; ex-Gov. Lind, of Minnesota; Justice Collins, of the supreme court of Minnesota; Gov. Cummins, of Iowa; Gov. Nash, of Ohio; G. Thorne, of the Park National bank of New York; James McDonlad, of the Hanover National bank, New York; James B. Forgan, of the First National bank of Chicago; E. D. Hulbert vice president of the Merchants' Loan and Trust company, of Chicago; Robert Stuart, president of the American Exchange National bank, of Chicago; James H. Eckels, ex-controller of the currency, now president of the Commercial National bank, of Chicago; Vice President Welling, of the Illinois Central railway; Henry B. Black, assistant manager of the Bank of Montreal, Chicago; A. E. White, vice president of the Continental Packing company, Chicago.

There will aso be in the party well-known bankers of the states of Iowa, Nebraska, of the Twin Cities and Duluth. Other members of the party of visitors who have accepted the invitation to look over Western Canada lands are Horace S. Rich, of Red Wing, Minn.; M. M. Williams, of Little Falls, Minn.; F. E. Kenaston, G. F. Piper, Minneapolis; W. Douglas, Cedar Rapids, Iowa; and A. K. Davis, Little Falls, Minn.

The party will travel in a special train of five cars, and will arrive in Winnipeg early Thursday morning. Its members will be entertained by the municipal corporation of Winnipeg that day, and will be entertained at a garden party at the government house. Friday morning it will leave over the Canadian branch of the C. P. R. for Scuris, and from Souris over the main line to Regina. At Regina the party will remain over night and go by daylight to Prince Albert. It is expected that the party will return next Monday.

DAYKIN ARRAIGNED.

Is Accused of Attempting to Bribe Councilman.

Cleveland, June 24.—Dr. F. W. Daykin, who was arrested at midnight last night as the result of a sensational denouncement of Councilman Kohl at the meeting of the city council, in which Daykin was accused of paying a large sum of money for Kohl's vote in the fight against the natural gas ordinance, was today released on $10,000 bail. Subsequently Dr. Daykin was arranged in central police court. At the request of the defense the case was continued until July 1.

Manufacturing Company.

The Minnesota Mining and Manufacturing company, of Two Harbors, has incorporated with a capital stock of $500,00.

This company is organized for the manufacture of abrasives and has a land department to operate in conjunction with the industrial department. William A. McGonagle, of this city, is one of the incorporators, and the others are Henry S. Bryan, Herman W. Cable, Dr. J. W. Budd and John Dwan, of Two Harbors.

The Sundby Tea company, of Duluth, incorporated with a capital of $10,000. Christian Sundby, Andrew B. Peterson and Christian J. Ness are the incorporators.

STRUCK A CAR

Runaway Team Smashes Into an Interstate Car.

The heavy brewing wagon belonging to the Hamm Brewing company collided with interstate car 156 at Sixth avenue west and Superior street at 1:43 o'clock this afternoon. The brewery wagon was coming down the avenue at a good rate of speed and struck superior street just as the car was passing. The rig struck the car about the middle, and the wagon tongue punched a hole in the forward end of the car. Both horses fell and slid under the car, and it was only the prompt action of Motorman Kirkpatrick in stopping suddenly that prevented them from having their legs run over. There were a number of passengers in the car and one or two men in the wagon, but nobody was injured. It was claimed that the driver did not hear the gong of the car when it was approaching the avenue crossing.

TIMBER PURCHASE.

W. H. Gilbert Gets Large Tract of Pine.

One of the most important timber deals since the early part of this year was closed within the last week, W. H. Gilbert, of Ashland, purchasing from Frank R. Weber 60,000,000 feet of standing pine in section 64-15, 16, 17 and 18, bordering on Vermilion lake. The sale was made through C. R. Ash, of this city, and while no figures are given out it is rumored that the purchase price was in the neighborhood of $200,000. Mr. Gilbert arrived from Ashland this morning and confirmed the news of his purchase. Mr. Gilbert said he is thinking of putting in a mill at Vermilion lake to manufacture the lumber. The tract is said to be one of the best in the Vermilion lake country.

HONOR FOR CHOATE.

London, June 24.—Oxford university today conferred the honorary degree of doctor of civil law on Joseph H. Choate, the United States ambassador to Great Britain.

GOLD STAMPING FRAUDS.

Misleading Refining Mark That Are Frequently Used.

When some porch climber has made a raid on a brownstone front and gone through the jewel case on a mahogany dresser, probably the owner of the jewel case knows within a few dollars of the actual loss she has sustained, whether it is reported to the police in those figures or not. But with the ordinary victim of holdups and sneak thieving it is a question if they have any idea of how much or how little the crooks will realize on the proceeds of the melting pot, says the Chicago Tribune.

"For this reason," said a prominent manufacturer of jewelry, "you may get on a train here and go West, Northwest and Southwest, especially, buying up rings and old jewelry that bear carat stamps, and I'll venture that in a thousand pieces taken at random, you won't find ten in which the gold is true enough to bear out the carat stamp.

"Why? Simply because the public cannot tell a 14-carat ring from one eighteen carats fine, and for the further reason that neither the state nor national government has put a penalty upon such cheats or undertaken—as the British government has done—to stamp the genuineness of gold jewelry and silver plate. This leaves the public open to any imposition which may be possible to a 'crooked' house. The result is with us, for instance, that in buying old gold for the melting pot, we pay no attention to the carat stamp.

"This is a statement in general, however. There are those manufacturing firms whose stamp we know to be genuine, whether it be ten carat or twenty-four carat. Yet in sharp contrast to these are houses which manufacture a 14-carat goods which they sell to retailers as such, yet stamped eighteen carat 'for the trade.' Now, when it is considered that a house offering such goods might have no moral hesitancy in making 12-carat stuff instead of the contract function, you can see where the injustice comes in for the final purchaser. Upon this stuff finally comes to be old gold for the melting pot, you can imagine that we are apt to buy according to the carat stamps."

For, as a matter of commercial fact, there is a sharp difference in the actual value of a piece of gold eighteen carats fine and one that is only fourteen carats. An ordinary wedding ring will weigh five pennyweights. If it be eighteen carats fine it represents a final gold standard value of $4 even; if it is only fourteen carats and stamped eighteen, however, it will bring only $3.20, a difference in favor of the 18-carat gold, and this is $16 on 100 pennyweights—a difference which makes a sharp profit in a year for an unscrupulous manufacturer.

Gold twenty-four carats fine is pure gold In that degree of fineness it is not especially attractive. It is extremely soft and does not admit of a high polish. In fact, it is never worked in that form, unless it might be at a special order of some one who had a freakish desire for it. At twenty-two carats it occasionally is made into wedding rings, because of the desire to have the metal as nearly pure as possible, but even then it is easily bent and wears rapidly. Gold at eighteen carats is best adapted to the manufacture of showy jewelry. It then has one fourth of the alloy in it, and with that proportion of stiffening metal it takes on its most brilliant polish, wears longest, and is most satisfactory to the wearer. Gold seldom is stamped as low as ten carats, but the range of bullion value for each pennyweight, from twenty-four carats down to ten, is: For 24-carat gold, $1.04; for eighteen carats, 80 cents; for sixteen carats, 72 cents; for fourteen carats, 64 cents, and for ten carats, 48 cents.

"However much better 18-carat gold may be for manufacturing purposes it is nevertheless true that most of the gold jewelry one sees is not above fourteen carats," said a Chicago manufacturer who has grown gray in the business. "Most of this 14-carat gold is stamped eighteen carats, too. There is the robbery. Only an expert can distinguish these four degrees of fineness, but in effect it is quite as bad for a jeweler to sell 14-carat gold for 18-carat as it would be for a grocer to sell baking powder that is 25 per cent chalk. Yet the grocer can be prosecuted, and it is doubtful if the jeweler could be.

"The thing that we need is a government inspection of jewelry, or at least a national law making the government the prosecutor when a false stamp is put upon gold or silver. I don't know that the English 'hall-mark' method could be made satisfactory, as I understand it causes British manufacturers much trouble and inconvenience. It has seemed to me that a national statute making it a penitentiary offense for stamping gold falsely would be enough. Men will break municipal and state laws much more readily than they will risk prosecution by the government.

"To take our United States mints, we have no better regulated government institutions. For a good many years now we have done our own refining, but when we used to send it out to private refineries we never got more than 90 per cent of our gold; when we sent it to the United States mints we got it all, paying only a slight charge for the work. The point that I would make is that with our coins and the general work of our mints, unquestioned anywhere in the world, it is a crying shame that our gold and silver plate is questioned everywhere. England has accomplished something in that way, even if by a clumsy method; why can't we?"

Of gold in general there is a good deal of tradition abroad among the people. "Etruscan" gold and "Guinea" gold are frequently on the tongue, but according to expert handlers of the metal gold of twenty-four carats fineness is simply pure gold, without reference to whether it came from some California placer, some Australian "digging," or from some deep mine in South Africa.

Gold is never pure, however, when taken out in nuggets, dust or "color," so that as it comes from the mine it may have its marked characteristics. If copper is one of the chief foreign metals in the nuggets or dust, the gold will show red; if it be silver the gold will show a greenish-yellow. Thus if for some design a manufacturer wishes to make up three shades of gold, he uses a copper alloy for the red, silver for the greenish-yellow and leaves the middle shade as nearly pure as possible. The alloy that is used depends wholly upon the shade and polish desired.

As to alloys in general, those for gold coins average about 10 per cent, showing 90 parts gold and 10 of copper. In gold jewelry and plate the world's average must be found somewhere between 75 parts gold and 25 parts copper, and 92 parts gold and 8 parts copper. As to gold coins of the United States, for instance, the gold in a $20 piece was not as fine as that in a $10 piece, up to 1834, the one being .900 fine and the smaller coins .916 2-3. Several changes were made affecting these and small gold coins until finally the fineness was fixed at 900, uniformly. As against this 10 per cent of alloy in United States gold coins, however, British coins have only 8 1-3 per cent of foreign metal.

In the manufacture of gold jewelry the question of waste, present and final, must enter largely into the general ledger account of profit and loss. However, a loss that may show in the books of two, four or five years may be wiped out in great measure, when the wooden floors of the working rooms are torn up, and the gold recovered from the crevices and the grain of the wood.

In the meantime in one down town factory, the sweepings from the floors and the contents of the traps in the workroom sinks yield $1500 a year of the precious dust which has escaped both the workman and the espionages of his employer.

Articles of Incorporation of the DULUTH SAFETY CAR STAKE COMPANY, of Duluth, Minnesota.

The undersigned hereby associate themselves as a body corporate under and by virtue of the provisions of Title 2, of Chapter 34 of the General Statutes of Minnesota, and the acts amendatory thereof, and for that purpose adopt the following articles of incorporation:

ARTICLE I.

The name of this corporation shall be "Duluth Safety Car Stake Company."

The general nature of its business shall be to manufacture and sell, or cause to be manufactured and sold, apparatus for use upon railroad cars known as the safety car stake, and in connection with such business, to take out such patents upon safety car stakes or other appliances as may be necessary or convenient, or to purchase such patents from other persons, and to buy, sell, use or deal in such safety car stakes or patents of such stakes as may by the corporation be deemed and generally, to buy, hold, sell or dispose of such property, real, personal or mixed, as may be necessary or convenient to the general purposes herein expressed.

The principal place of business of the corporation shall be Duluth, Minnesota.

ARTICLE II.

The corporation shall commence on the 16th day of June, 1902, and shall continue for the period of thirty years.

ARTICLE III.

The amount of the capital stock of the corporation shall be twenty thousand dollars ($20,000.)

Eleven thousand dollars ($11,000) of said stock to be paid in and the balance of said stock to be issued from time to time, as purchased, subscribed and paid for and no stock in this corporation shall be issued for less than par.

ARTICLE IV.

The highest amount of indebtedness or liability to which the corporation at any time shall be subject is twenty thousand dollars ($20,000.)

ARTICLE V.

The names of the persons forming the association for incorporation are: Winfield C. Gray, Alexander Henrikson, John Cashin, Adam McAdams, Henry W. Cheadle, Victor R. Method, John Feehely, Alexander W. Stewart and Carl J. Petruschke, all of whom are residents of Duluth, Minnesota.

ARTICLE VI.

The government of said corporation and the management of its affairs shall be vested in the following officers, to-wit: A board of three directors, who shall be stockholders of the corporation, and a president, vice president, secretary and treasurer. The board of directors shall be chosen annually by the stockholders at such time and place as shall be provided by the by-laws and if no such time or place is specified therein then at the annual meeting of stockholders herein provided for and the said board of directors shall at their first meeting after their election annually and within ten days after such election elect a president, vice president, secretary and treasurer. The board of directors and officers shall hold their respective offices for the term of one year and until others shall be chosen in their stead. The board of directors until the first meeting of the stockholders shall be C., E. Judd, C. H. Thornton and F. G. Stevens. The officers of said corporation until their successors are chosen shall be C. E. Judd, president; C. H. Thornton, vice president, and F. G. Stevens, secretary and treasurer. The annual meeting of the stockholders of said corporation shall be held at the office of the company at Duluth, Minnesota, on the first Monday of July annually in each year unless otherwise provided by the by-laws, and all meetings of the stockholders and directors may be held at such times and place as may be provided for in the by-laws.

ARTICLE VII.

The capital stock of this corporation shall be divided into one hundred shares of one par value of one hundred dollars ($100.00) each.

In testimony whereof, we have hereunto set our respective hands and seals this 4th day of June, A. D. 1902.

C. E. JUDD. (Seal.)
F. G. STEVENS. (Seal.)
C. H. THORNTON, (Seal.)

In presence of—
John Arnold Keyes,
Ora Wishart.

STATE OF MINNESOTA, COUNTY OF ST. LOUIS—SS.

I, John Arnold Keyes, a notary public in and for the county of St. Louis, and state of Minnesota, do hereby certify that on the 4th day of June, A. D. 1902, at the city of Duluth, in the county of St. Louis and state of Minnesota, personally appeared before me C. E. Judd, F. G. Stevens and C. H. Thornton, all being to me personally known to be the persons described in and who executed the foregoing articles of incorporation and they severally duly acknowledged that they executed said articles freely and voluntarily for the uses and purposes therein expressed.

Witnesseth, my hand and official seal at Duluth, Minnesota, this 4th day of June, A. D. 1902.

JOHN ARNOLD KEYES,
Notary Public, St. Louis County, State of Minnesota.
(Notarial Seal.)

STATE OF MINNESOTA, COUNTY OF ST. LOUIS—SS.

On this thirteenth day of June, A. D. 1902, before me, a notary public, within and for said county, personally appeared Winfield C. Gray, Alexander Henrikson John Cashin, Adam McAdams, Henry W. Cheadle, Victor R. Method, John Feehely, Alexander W. Stewart and Carl J. Petruschke, to me known to be the persons described in, and who executed the foregoing instrument and acknowledged that they executed the same as their free act and deed.

HARRY WM. LANNERS,
Notary Public, St. Louis County, Minnesota.
(Notarial Seal.)

OFFICE OF REGISTER OF DEEDS.
State of Minnesota, County of St. Louis—ss.

I hereby certify that the within instrument was filed in this office for record, June 23, 1902, at 9 a. m., and was duly recorded in Book S of Misc., page 212.

A. LOFGREN,
Register of Deeds.
By THOS. CLARK,
Deputy.

STATE OF MINNESOTA, DEPARTMENT OF STATE.

I hereby certify that the within instrument was filed for record in this office on the 17th day of June, A. D. 1902, at 10½ o'clock a. m., and was duly recorded in Book C3 of Incorporations, on page 223.

P. E. HANSON,
Secretary of State.

Notice to Contractors.

Sealed proposals addressed to the Village Council of Grand Rapids, Minnesota, and endorsed, "Proposals for an Electric Light Plant," will be received by the Village Recorder of the said Village of Grand Rapids until 8 o'clock p. m. on Monday, the 7th day of July, 1902, for the construction of an electric light plant for the Village of Grand Rapids, according to the specifications and plans now on file.

Bonds of the village for the sum of $25,000 have been issued and sold by it, at par, for the purpose of raising funds sufficient to purchase, build, establish and control all necessary outildings, machinery, apparatus and material for making, generating and supplying light for public and private use in said village.

Proposals will be received on the following work:

First—The building.
Second—The machinery.
Third—The electric lines.

Bidders may make in addition a proposal for the entire work.

Proposals will be publicly opened and read at a meeting of the Village Council on the evening of July 7th, 1902. The proposal or proposals which are deemed for the best interest of the village will be accepted.

The right is reserved to reject any or all proposals, and to change any item or items in the specifications.

Blank forms of proposals, instructions to bidders and specifications may be obtained and plans may be seen and examined at the office of the Village Recorder of Grand Rapids, Minnesota, and at the office of Edward P. Burch, Consulting Engineer, 1210-1212 Guaranty building, Minneapolis, Minn. All information will be given on application.

D. M. GUNN,
President.

FRED A. KING,
Recorder.

MINNESOTA HISTORICAL SOCIETY

BALDWIN FAVORED

For Governor By St. Louis and Carlton Counties.

Fesler and Cullum For Rosing But Outvoted.

Minneapolis, June 25.—(Special to The Herald.)—The St. Louis and Carlton county delegations declared unequivocally for Senator C. O. Baldwin for governor at a caucus held this morning, but it was not without an interesting little fight. Bert Fessler and M. B. Cullum, members of the state committee, opposed it on the ground that it was simply an attempt of the reorganization powers to sidetrack St. Louis county and get it out of the way so that the Lawler and O'Connor crowd could get into control.

Last night two surprises were sprung. Ramsey county came out for Senator John A. Johnson, of St. Peter, and in this many Democrats saw the hands of Lawler and O'Connor. Later Hennepin county declared for Frank D. Larrabee, the Minneapolis attorney. The state committee had practically declared for Rosing at its meeting last night, only three members opposing him. The Baldwin talk began last night, and the Duluth delegation took hold of it and pushed it along with energy. Several adjoining counties have promised to follow Duluth's lead on this, and there is a prospect that, if a deadlock ensues this afternoon, Baldwin may be nominated.

Fessler and Cullum argued that Baldwin would not run if nominated, and that if St. Louis county refused to go for Rosing it would mean the nomination of Johnson and assumption of control by the reorganizers. The other members of the delegation said Baldwin was by all odds the strongest man yet named outside of Lind, and that he could be nominated by proper work. After some argument, the delegation declared strongly for Baldwin. Carlton county joining in, and prepared an effective plan for working in his interest. Attempts to bring up Rosing as second choice or to arrange for a caucus at which the delegation might change its mind failed of passage.

It is openly charged that the state committee is trying to procure Rosing's nomination, through the convention if possible, but through its own efforts if that attempt fails. It is claimed that, if the committee sees it cannot get him named, it will push for Lind, and when he declines, the committee will appoint Rosing as candidate for governor.

Members of the committee in this morning's caucus said that the fight would be between Rosing and Johnson, but the other delegates pointed out that if Ramsey, Hennepin and St. Louis counties were against Rosing, his strength could not be large, and Baldwin would have the best chance. The endorsement of Baldwin was unanimous when it came to the final vote. There will be a warm time at the convention this afternoon.

Temporary organization was effected, with Senator Patrick McGovern, of Waseca, recommended by the central committee as temporary chairman, at noon, after which and the appointment of the necessary committees, an adjournment was taken to 2 o'clock.

H. P. Hall this morning said: "My name will not be mentioned in the convention today, unless it may be for clerk of the supreme court, which I shall not accept. Numerous friends from various parts of the state assured me last night that if I had the Ramsey county delegation conditionally for me, there would be no question of my nomination for governor, but the powers which control the delegation are not with me, though assurances have been otherwise. It's the old story of 'a prophet is not without honor save in his own country.' It is easier to slaughter a man in the house of his friends than any other way, and in politics, the easiest way is the best."

The convention was called to order in the Exposition building at 12:30 o'clock by L. A. Rosing, chairman of the state central committee. On motion of Humphrey Barton, Senator Peter McGovern was made temporary chairman, and was escorted to the platform by Mr. Barton, Senator Gauzewitz of Owatonna and Senator Dart of Litchfield. C. M. King, of Wright county, was made temporary secretary; W. J. Rohr, of Crookston, assistant secretary.

Senator McGovern opened up promptly in his address on state issues. He caused a round of applause by saying that John Lind would now be governor if the will of the people had been respected. He condemned the Republican party for the tax commission and the extra session. The tax commission, he said, was one of the

(Continued on Page 10.)

KING RESTS QUIETLY

Some Improvement Is Noted But a Fatal Issue May Come Without Warning.

Bulletins Issued By the Physicians Fail to Lessen General Anxiety.

London, June 25, 6:35 p. m.—The following bulletin was issued by the king's physician at 6:30 p. m.

"His majesty passed a fairly comfortable day. His general strength was well maintained and there are no symptoms causing special annxiety."

At 3:30 p. m. today, Sir Francis Knollys, private secretary to King Edward, told a reporter of the Associated Press that no particular change had occurred, but that the king was maintaining the improvement in his condition.

The following statement was made this afternoon on the highest medical authority: "Until the tubes now draining the cavity of the abscess have been withdrawn it will be impossible to feel certain that the king will pull through. What his physicians have new to fear is that peritonities or hemorrhage may supervene. There must always be this danger in such cases. Again, it is a fact that an abscess due to perityphlitis may have a fatal issue without any warning symtoms. All the indications are often masked until the post-mortem, and there are many cases on record where the disease was only discovered after death from an extraneous cause, such as an accident. At any rate the king's grave illness must invalid him for some time."

London, June 25, 11:27 a. m.—Anxious suspense over the condition of King Edward VII shared, as is evidenced by shoals of telegrams from abroad, by the whole civilized world, hardly will be much lessened by the bulletin issued by the attending physicians at 10:30 o'clock this morning, as follows:

"His majesty was very restless and had no sleep during the early part of the night. He obtained some sleep, however, after 1 o'clock this morning and no outward symptoms presented themselves. Considering all circumstances, his majesty may be said to be progressing satisfactorily.

"Lister, Treves, Laking, Smith, Barlow."

Earlier unofficial reports had been more favorable than the official medical pronouncement. They spoke of the king as having passed a good night, with peaceful rest, and the announcement of his majesty's restlessness and lack of sleep are regarded by the general public as by no means reassuring, although court officials profess satisfaction. The absence of all mention of the patient's temperature causes comment, although probably the statement that up to the present "no untoward symptoms presented themselves," is intended to indicate that there has been no dangerous rise in temperature.

In medical circles the opinion is expressed that, in the phrase just quoted the surgeons are saying all they can. In fact,the whole meaning of the bulletin is concentrated therein, the rest being purely corollary thereto.

Throughout the morning the vicinity of the palace was invaded by seekers after information. A curiously cosmopolitan crowd gathered about the railings awaiting the morning bulletin, and directly after it was posted there was a great scramble to read its contents.

The prince of Wales arrived just as the bulletin was being issued. Lord Lister, who came directly from the king's apartment after having assisted in drawing up the bulletin, left shortly afterwards, and the more cheerful expression apparent in his face was taken as an indication that he was satisfied with the condition of the patient.

Callers continued to arrive in great numbers throughout the morning. Among the earliest distinguished personages were Lord Salisbury, Arch-Duke Francis of Austria and the duke of Norfolk.

The duke of Cambridge, who arrived later, had previously presented a set of colors to the Middlesex regiment, addressing which, he said, the king's illness was a very grave blow and a very trying one. But, he added, he was very glad to be able to speak hopefully of the progress made by his majesty because he had received favorable news from those in attendance upon the king.

Private information from Buckingham palace substantially bears out the official bulletin issued at 10:30 o'clock, except that the king had rather a worse night than was indicated therein. His majesty, however, is resting easier and was sleeping at 10:30 o'clock this morning.

The exodus of the coronation embassies already has commenced. The next two or three days doubtless will see the departure of all but one or two, and these will close up their official establishments and remain in London merely as private persons.

The medical bulletins are rapidly posted about London and the same scenes as witnessed yesterday were enacted today. By noon long strings of carriages were waiting to put down visitors at the ambassadors' and main entrances of the palace.

Tomorrow has been officially appointed a day of intecession for the king, and in every parish church in the United Kingdom special intercessory services will be held. Catholics, non-conformists, Jews, Salvationists, and other religious bodies are all arranging special prayers, while in the camps of the colonial and other visiting troops, be they Mohammedans, Sun Worshippers, Brahmins or Fire or Fetish worshippers, whether from China, Borneo, Fiji, Central Africa or Hindustan, or from the Indian reservations of Canada, the usual hour for prayers finds them supplicating their deity in behalf of the king.

Joseph H. Choate, the United States ambassador, has withdrawn the invitations to the dinner which he was to give June 29, and Whitelaw Reid, the United States special ambassador, is busy today cancelling all his engagements. The royal equerries are still in attendance at Mr. Reid's residence, Brooke House. The government conveyed to Mr. Reid a courteous intimation that royal carriages would be at the disposal of the Americans so long as they remain in London, but Mr. Reid has determined to close up the special embassy as quickly as compatible with decorum. He will go to the continent for a short stay and may possibly visit Scotland, returning to America early in the autumn.

So far as known no concerted action has been taken by the special embassies with the view of expressing their regrets to the royal family, each sending condolences in behalf of his own nation.

Prince Leopold, of Bavaria, Arch-duke Francis Ferdinand, of Austria; Prince Albert, of Belgium, and Admiral Gervais, special envoy of France, have already left London.

It is said that Queen Alexandra is bearing up well and is much touched with the expressions of sympathy pouring in from all parts of the world. Among the telegrams received by the queen was one from Gen. Booth, who is in Berlin, in which he says the Salvation Army all over the world will pray for the recovery of the king.

As the day progressed the crowds around the palace augmented, and the cautious wording of the early bulletin was much discussed. Soon after 2 p. m. a second bulletin was posted as follows:

"The king passed a comfortable morning and his condition so far is satisfactory."

This was regarded as being somewhat more favorable, and the good impression which it created was enhanced by the arrival at the palace shortly afterwards of the duke and duchess of Asota, who came from Dorchester house to lunch with the royal family. The observers deduced therefrom that unless the king's condition was fairly satisfactory, the queen would not have entertained the visitors, for she has been unremitting in nursing her husband and has hitherto been constantly at his bedside.

Two thousand names of visitors were registered at the palace yesterday.

MILLIONS ARE LOST

To Underwriters By Coronation Postponement.

King's Death Would Stagger Many Companies.

New York, June 25.—Postponement of the coronation means an enormous loss to the underwriters, says a London dispatch to the Journal of Commerce. An underwriter of prominence estimates that the claims which will have to be faced will amount to from $850,000 to $900,000. For many weeks policies have been steadily applied for, and readily granted, insuring the risk of the coronation not taking place on the 26th and 27th inst. During the past day or two, since rumors of the king's illness had been prevalent, few policies of this kind have been written, and then only at exorbitant rates, but prior to the disquieting reports a heavy business had been transacted with those who had stands on which they intended to let seats, tradesmen whose interests would suffer and innumerable individuals and corporations whose financial loss would be serious in the event of a postponement. The rates charged in April were 2 to 15 guineas per cent (12 6-10 to 15 7-10 per cent). By a week ago it had gotten down to 5 guineas per cent (5¼ per cent).

During the recent smallpox excitement Lloyds underwriters issued thousands of policies against catching the disease at a rate of 2s 6d per cent (one-eighth of 1 per cent), and had only a few claims to meet.

The underwriters also came out exceedingly well on their speculation as to the queen's jubilee procession in 1897, and all who had won on that occasion went in for the coronation premiums as greedily as if there had been no risk to be feared and the premium was all profit. Others held aloof from such commitments in connection with the jubilee, plunged in hungrily on the coronation gamble. Many of the underwriters have policies on the life of the king for six months. The rate for this last week was 10 guineas per cent (10½ per cent), but it rose on Tuesday to 50 guineas per cent (52½ per cent).

In the event of the death of King Edward VII the insurance companies of England will suffer the most staggering blow known in the history of that branch of financial investment.

It will cause a loss of tens of millions of dollars to the regularly organized life insurance companies alone. A much greater loss will fall upon financial companies of various other kinds which have taken heavy risks on the king's life at high rates of interest.

King Edward carries the enormous sum of $3,600,000, placed with English companies. This is on personal policies, upon which he pays premiums out of his private purse. The total risks on his life on policies by business men is placed at $21,000,000.

The czar of Russia is said to carry peronal insurance of $4,000,000, as well as $1,500,000 on the life of the czarina and $2,500,000 on that of the Grand Duchess Olga. The emperor of Germany carries $5,000,000 personal insurance.

The business section of London is slow in recovering from the stunning effects of yesterday's developments. While the barriers around Westminster Abbey have been removed, the decorations are being completed for the benefit, tomorrow and Sunday, of the cowds. The demolition of the stands has begun and progresses slowly. The hotels and provision dealers are hit the hardest. Thousands of pounds of perishable food of the most expensive varieties are crowding every refrigerator in London, while orders for many tons more telegraphically cancelled yesterday will remain a source of litigation or compromise. The caterers of the fashionable West End establishments have already announced that they are willing to share the losses of their patrons who had given orders for delivery tomorrow or Friday. Few of the caterers or hotels availed themselves of insurance, the recently offered Lloyd's rate of 10 per cent being considered too high. Many proprietors of reviewing stands are thus protected. But the important question remains as to whether the money paid for seats will necessarily be refunded. Only a few seats out of nearly half a million were sold with any specific proviso on this point.

The manufacturers of medals and souvenirs are badly hurt. One of these said that ten million medals, dated June 26 and June 27, already struck, were now valueless.

Altogether, London's business loss is incalculable and the people of Portsmouth, where preparations involving a big expenditure had been made to reap a harvest from the naval review, are simply crushed.

The streets of London today seemed deserted, compared with the beginning of the week. The chief points of interest were Buckingham palace and Fleet street. At both localities crowds of people surrounded every bulletin board and anxiously bought numerous "extras."

A curious fact in this connection is that some of the outlying suburbs had no general realization of the postponement of the coronation till the residents read the morning papers. The demand for papers in this city and the nearer suburbs yesterday absorbed the whole supply before reaching the outer fringe of London.

The general postoffice is overburdened with telegrams. Many private messages filed yesterday could not be transmitted and were not delivered today.

THE HARDEST PROBLEM

That Ever Confronted the Minnesota Democracy Is the Selection of a Candidate For the Governorship.

Minneapolis, June 25.—(Special to The Herald.)—Chaos, perplexity of mind, and more chaos.

That faintly describes the situation last night, on the eve of the convention day, when the delegates to the Democratic state convention began to gather and face the situation and each other.

Without the Lind letter that was given to the public through The Herald last Saturday, the convention would be simply a jolly ratification meeting. With it, the Democracy of the state, crystallized by the delegates sent up by the people into a state convention, faces one of the hardest problems it has met in its history.

It is not that John Lind is the only man in the state that could be nominated for governor. Indeed, it is remarkable what a wealth of really fine material there is at hand.

But the trouble comes through the feeling among many of the delegates that John Lind ought to be nominated in spite of his ungrateful refusals.

There seemed to be grave danger last night that a Lind stampede might be started in this afternoon's convention, and that his nomination might place the party in an anomalous and even ridiculous position.

Cooler and calmer judgment seemed to be that he should be taken at his word. It was argued that if he was nominated nothing would result but two horns of a dilemma, on one of which the Minnesota Democracy might be impaled.

In that event, if he persisted in his refusal, which most people deem most likely, the party would be without a candidate. True it is that the state committee could name a man to fill the vacancy, but a candidate lacking the support of a convention direct from the rank and file of the party would be a candidate with a serious handicap. That is one horn of the dilemma.

The other is that if John Lind did accept the nomination, he himself, and the party whose candidate he would be, would be placed in an embarrassing position by reason of his receding from a position postively and firmly adopted.

Either alternative, it was figured, would provide choice campaign ammunition for the opposition.

And yet, in the face of these facts, there were many delegates last night who would look at no other course than the nomination of Lind. If the counsels of those who realized fully the effect of a nomination of Lind under the circumstances were the ones to prevail, these difficulties would be eliminated, a good, strong candidate nominated, and the pathway of the party would be smoothed.

But the strong regard of the people of the state for Lind finds so vigorous a reflection in the delegates that were gathering here last night that it was realized that the hardest kind of work would be necessary to prevent a landslide to Lind this afternoon. It was feared that if once his name was brought before the convention in a proper manner, no power on earth could prevent his nomination.

"You might as well try to stop an eruption of Mount Pelee," was the way one delegate expressed it.

The state central committee and the Hennepin county delegation were meeting last night at the West hotel, and in both meetings the question of whether or not John Lind should be nominated was the main issue. A division of opinion was wide enough in each to keep them in session until a late hour. The state committee adjourned without making any definite agreement. The trend of sentiment in the committee was toward Rosing.

The state committee had other things to consider, such as the formation of a platform. Not that the committee was to form one, but that it was to outline a skeleton to be filled in by the convention. It was stated on good authority last night that the platform would declare for the enforcement of all laws, but that it would not make an issue on the merger question, except to arraign the state administration for failing to proceed against the merger of the iron range roads.

On the whole, providing a Lind landslide could be averted, the trend seemed to be toward L. A. Rosing, of Cannon Falls.

H. P. Hall, while he had many friends, did not seem to be developing the expected strength, and he was not prominently mentioned as a second choice candidate. His home delegation, from Ramsey county, was not instructed for him, "but was told to vote for Lind first, last and all the time." This, in the face of the Lind letter, is a significant indication of what a task those who believe it to be bad policy to nominate Lind under the circumstances have on hand.

There is a strong undercurrent for Senator C. O. Baldwin, and if any assurance were at hand that he would run if nominated, there would not be much difficulty in getting him nominated.

* * *

J. Adam Bede was in the Twin Cities last evening and he received word that the Pine, Isanti and Mille Lacs county conventions had endorsed him in strong terms. He had heard only from these, but had assurances that others would do the same thing. Isanti county wound up its resolutions with "Thank God for Adam."

STILLMAN H. BINGHAM.

A TERRIFIC STORM

Sweeps Over Central Indiana, Carrying Death and Destruction In Its Path.

Indianapolis, June 25.—The most terrific storm in many years swept over central Indiana about 9 o'clock this morning. Telegraph and telephone wires were torn down along its trail and at noon communciation with the storm-swept section was almost entirely interrupted.

From information which had reached Indianapolis up to noon it was believed there had been a heavy loss of life.

The storm spent most of its force in the country twenty or thirty miles northeast of Indianapolis, lying between the Greenfield electric line on the south and the Union Traction lines to Anderson on the north. Maxwell, Cleveland and Pendleton suffered most severely. Telephone messages from Greenfield say that an awful storm had swept over Hancock county, taking in Wilkinson and Pendleton.

It blew down houses in all of these towns, and from ten to eighteen people were reported killed.

Three men in the chain factory in Maxwell are supposed to be killed. In a funeral procession at Cleveland, Ind., eighteen horses are reported killed.

At Maxwell a grain elevator was blown down, as well as the chain factory.

Several people are supposed to be killed in Pendelton. Nearly every house in Cleveland is blown down. The roof was blown off the Hollweg-Reese bottle factory in Greenfield.

At McCordsville, Ind., trees were reorted blown across the track of the Union Traction company, completely stopping traffic, and since 10:10 this morning no Gas Belt Traction cars have reached or left Indianapolis. At Linden the plant of the Greer-Wilkinson Lumber company was wrecked, its lumber house being unroofed. Lebanon reported that an immense tree had been blown across the telephone wires, destroying for a time all outside communication.

The first intimation which Indianapolis had of the storm was at 9 o'clock this morning, when the sky became suddenly overcast. In less than an hour the sun was again shining.

The local telephone and telegraph companies suffered severely.

The greatest damage to the independent company's systems was reported in Hamilton county. The Union Traction company, in this city, received a message shortly before noon saying that several people were reported killed at McCordsville, and that traction cars were tied up from here to Anderson. In many places trees were blown across the track, and it would be hours before the tracks were cleared.

A telephone message from Broad Ripple at noon today reports that the Y. M. C. A. camp has been destroyed. Nobody was injured.

EXPERT AUTHORITY

Cables Story Concerning Illness of King Edward.

New York, June 25.—The following special cable was today received by the New York Medical Journal from its London correspondent, whom they consider the highest medical authority in Great Britain, and who is in intimate touch with everything that transpires at the bedside of the king:

"London, June 25, 12 noon.—The king's disease is perityphilitis, following cold contracted nine days previously. His symptoms became rather acute a week ago, but had subsided, and it was hoped that he would go through the coronation ceremony. Owing to a sudden exacerbation early on Tuesday morning, an operation was decided upon at 10 o'clock, and the operation was performed at noon on Tuesday by Sir Frederick Treves, the anaesthetic being administered by Dr. Frederick Hewitt. The abscess was opened around the caecum, the pus evacuated and the cavity drained. There was no resection of the bowel, the newspaper reports that tubing was required to preserve the continuity of the intestine being entirely misleading. The recovery from anaesthesia was satisfactory; the patient passed a restless night, succeeded by improvement, his condition being favorable on Wednesday noon."

THOMPSON NOMINATED

As Candidate For Governor of Nebraska By Both Democrats and Populists---Bryan Was First Nominated By Populists.

Grand Island, Neb., June 25.—At 11 o'clock both conventions nominated W. H. Thompson, of Grand Island, for governor.

Grand Island, Neb., June 25.—At 7 o'clock the fusion conventions adjourned for breakfast without having secured a nomination for governor and with the prospects for fusion still in doubt.

Each of the conventions had selected a nominee for governor during the night, the Populists naming M. F. Harrington, of Holt county, and the Democrats selecting C. J. Smyth, of Omaha. Both conventions began to ballot on these names and entered into a deadlock, which lasted until 5 o'clock this morning.

At that hour William J. Bryan was nominated by the Populists by acclamation and the Democratic convention was notified. Mr. Smyth appeared before the Democratic convention and announced that fusion with himself as a nominee seemed impossible, and offering to withdraw. At the same time Harrington announced his withdrawal.

Mr. Bryan thanked the convention for the honor, but said that he could not accept the nomination for reasons already familiar to the public. He made a plea for harmony and for fusion.

After discussing a mode of proceedure, a new ballot was ordered. Five out of six counties called cast their vote for Harrington, the Populist choice, when that gentleman appeared to say that he had positively withdrawn and asked the convention to nominate W. H. Thompson. The suggestion was acted on with unanimous consent, and Thompson was borne to the platform on the shoulders of a number of delegates. The Democratic convention adjourned for breakfast.

This action was made known to the Populist convention, which took its seventh ballot. Thompson leading with 284 votes. Adjourned to 9 o'clock.

The Populists reconvened at 9 o'clock and the first ballot taken resulted in the nomination of Gen. P. H. Barry. The Democratic convention was notified of this action and the two bodies were again in deadlock, balloting on Thompson and Barry.

YALE MISSION IN EAST

President Hadley Makes the Announcement of a New Project to Be Established and Conducted By Yale Men.

New Haven, Conn., June 25.—One of the most important announcements of the Yale commencement season was the reference by President Hadley, in his address this morning to the plan of a group of Yale men to establish a mission in the far East. This mission, which is the first of its kind to be established by graduates of any American college is to be conducted along the broadest lines, carrying on evangelical, medicinal and especially educational work in a large student center in North China. It is to be undenominational and independent of any existing society, but will work in harmony with them, and in specially close sympathy with the American board. This last named society has promised its moral support and its co-operation in certain practical matters, such as the purchase and distribution of supplies.

The mission is to be under the leadership of Rev. Harlan P. Beach, of the class of 1887, at present educational secretary of the Student Volunteer movement, and from 1883 to 1890 a missionary in China.

The mission is an entirely voluntary association of Yale men and will hold no official connection with the university, but many of the officials of the latter including the president are among its strongest supporters. It is to be controlled by a council of forty men who have consented to serve in this capacity, with the following officers:

President, Rev. Timothy Dwight, D.D., LL.D.

Vice President, Rev. Edwin S. Lines, D.D., of New Haven.

Corresponding secretary, William Sloane, of New York.

Treasurer, Pierce N. Welch, of New Haven.

The Congregational, Episcopalian, Presbyterian and Baptist churches are thus represented among the officers of the council. All details of administration will be left to an executive committee consisting, at present, of the following Yale men, who have developed the plans for the mission and raised an instalment fund of about $20,000: Deans Saunders and Wright; F. Wells Williams, professor of Oriental history at Yale; James W. Cooper, D.D., Yale corporation; Rev. H. T. Beach, secretary of the student volunteer movement; Arthur C. Williams, of the class of 1898; Professor Edward B. Reed and Anson Phelps Stokes, Jr., secretary of the university.

Professor Reed will act as executive secretary. The medical examiner is to be Dr. Walter James, of New York.

Rev. L. P. Thurston of the class of 1898, with another recent graduate, will go to China this fall, spending a year studying the language.

It is expected that in due season, Yale will send out a score of men to this mission, who will work for Christian education in China.

OLD KILAUEA VERY ACTIVE

San Francisco, June 25.—The bark Roderick Dhu brings news from Hawaii that Kilauea volcano is more active than at any time since the outbreak of four years ago.

Since June 3, smoke and flame have been issuing from the crater in great quantities. From Hilo the sky in the direction of the volcano resembles a great storm cloud by day and at night the flaming torch above the crater can be seen for many miles by vessels passing the island.

In the vicinity of the crater the earth trembles almost constantly and subterranean rumbling is heard. It is believed a still greater rumbling is coming.

WILL HAVE MEETING ANYWAY

Chicago, June 25.—British-Americans of Chicago will not abandon the demonstration and entertainment arranged for tomorrow night in the First Regiment Armary in honor of coronation day, despite the king's illness and the consequent indefinite postponement of the crowning ceremony.

Should the king's health improve, the meeting will be as joyful in tone as if it were really a celebration of the coronation, as at first planned; if his condition should remain critical it will be expressive of sympathy and sorrow; if he should expire it will be a memorial meeting.

This was decided last night at a meeting of the general committee. A resolution of sympathy, to be sent to Queen Alexandra was passed.

TAKE CARE OF THE LITTLE FEET

We have just the shoes for growing feet, strong comfortable and of natural shape. Our Children's Shoes have the reputation of being *the best*. Boy or girl can be fitted and suited here. Our prices are kept down to a satisfactory point. Kid, Calf and Black Russia are some of the good leathers that go into our Children's Shoes, while $1.00, $1.50, $2.00 and $2.50 are some of our prices. Full heels, half heels and spring heels—all sizes. Shoe the children here once to test our shoes.

M. S. BURROWS

Dugan & Hudson's Shoes for Boys and Girls. Hanan Shoes for Men and Women. Have your Shoes shined in our Shoe Department for five cents.

SPECIAL SALE OF

Children's Summer Needs

Boys' Blouse Waists—6 to 14 Years.

25 dozen Star Blouses (the best made) collars attached or detached in fine Madras cloths, in all colors—

Regular $2.00 qualities $1.50
Regular $1.25 qualities $1.00

Fancy Blouses—2½ to 10 Years.

Fancy Blouses with large sailor collars, beautifully made and trimmed throughout; worth up to $4.00—reduced in price to

50c, 75c and $1.00.

Boys' Wash Suits.....$1.00 to $5.00
Boys' Wash Pants.....25c to 75c
Peter Thompson Dresses for Little Girls.

M. S. BURROWS

The Best Shoes for Boys and Girls.

ASK CHANGE.

Jobbers Want Brick Paving at Avenue Intersections Taken Up.

Duluth's leading wholesale concerns will again urge the city to replace the vitrified brick paving on Superior street with a less slippery material at avenue intersections.

Some of the leading wholesalers claim that their horses are being ruined by the falls they get on Superior street after going up the avenues from Michigan street.

There is not as much falling as when the pavement was first put down, as the drivers are more careful and not loading the wagons so heavily.

The business men say the necessity for lighter loads makes extra work and delays shipping and delivery, and they are most anxious that the avenue intersections should be paved with something that will give teams the same sure footing that they had on the old cedar block paving.

Among the firms that have petitioned for the change are: The Wright-Clarkson Grocery company, the Stone-Ordean Grocery company, F. A. Patrick & Co., the Marshall-Wells Hardware company, the Gowan-Peyton-Twohy company, L. W. Leithhead Drug company, the Northwestern Fuel company, the Cudahy Packing company, the Armour Packing company, the Nelson Morris company, Totman Bros., the East End Ice company, the Knudsen-Ferguson company, the Fitzsimmons-Derrig company and the Kelly-How Hardware company.

To Assimilate Food

see that your stomach and liver are in proper condition. To do it easily and pleasantly take

Beecham's Pills

Sold Everywhere. In boxes 10c. and 25c.

"One Minute Cough Cure beats all other medicines for coughs, colds, croup and throat and lung troubles," says D. Scott Currin, of Loganton, Pa. Perfectly safe. Acts immediately. Croup yields to it. Cure grip, bronchitis, coughs. Max Wirth.

IS NOT TRUE.

Thomas D. Merrill Does Not Believe Split Rock Smallpox Story.

Thomas D. Merrill, of the Split Rock Lumber company, says that he believes that the report that smallpox exists at Split Rock to an alarming extent is untrue. The company has received no reports of the existence of smallpox from its men, and is confident that it would have been notified that it had broken out. Mr. Merrill says that he does not doubt that the statement that a man who had smallpox was brought down from there, but that is not enough to indicate that it exists to an alarming extent. The man might not have belonged at Split Rock at all, but have come from other places in that vicinity. One of the company's men came down from the camp yesterday, but said nothing here about any smallpox at the camp.

Mr. Merrill will send a man up there to investigate. The spreading of the report that there is an epidemic there will injure the company's business, for it will make it difficult for it to get men to go there.

CARRYING MANY CARS

Missabe Road Breaking Its Record For Long Trains.

One of Big Hill Engines In Use on the Line.

Grades Well Adapted to Heavy Trains---New Engines Coming.

The Duluth, Missabe & Northern road is running the heaviest ore trains it has ever hauled over its line. It is duplicating, practically, the long trains that are being hauled over the Duluth & Iron Range without the use of "pusher" engines, which the several adverse grades on the latter road make necessary.

The Missabe thus far runs only one of these heavy trains a day, and that when one mine can furnish such a trainload of ore to bring to the docks. One of the big hill engines, 201 and 302, is being used for this purpose when needed. The number of cars hauled on these heavy trains runs to about sixty-seven. The shorter trains, which are hauled by the standard road engines on that line, average from fifty-three to fifty-five.

The practical elimination of the long grade and its curves which formerly existed just on the other side of the big hill leaves the Missabe road with almost all the grades in favor of the traffic moving toward the docks. When this work was completed this season, and the roadbed as altered was well ballasted up, a trial was made with the long-train system that had been installed on the Iron Range earlier in the spring.

The test was so satisfactory that the long-train system has been used steadily ever since, whenever it pays to haul that many more cars. As a result, only one of the heavy engines is being used for transfer work between the yards at Proctor and the docks.

The tonnage on these long trains is not as great as that on the Iron Range, however, for the capacity of the cars is not as great.

The Missabe expects the delivery in September of three new engines, all of them duplicating big No. 302. These new moguls will be put into the road service at once, and the average tonnage of the ore trains run will be materially increased.

The Missabe is said to be averaging about 1900 gross tons of ore to the trainload when a long train is made up, which is about 400 tons greater than the small train's tonnage.

It is said, too, that the Missabe is making a little better running time on its heavy ore trains than is possible to make on the Iron Range because of the several heavy grades that are encountered on the latter road on the way to the dock.

Both steel corporation ore-hauling roads are making a much better shipping record than they were a week ago, when the dispatch of vessel tonnage was seriously interfered with by the bridge accident at the Soo. In spite of that accident, the Missabe hopes to break its heretofore highest monthly record of about 710,000 tons.

The Duluth & Iron Range's new ore dock at Two Harbors is practically ready for use, if ore is not already being dumped into its pockets. The tracks leading to it from the yards are said to be practically in place and ready for traffic to pass over them. The Iron Range's traffic will probably show a considerable gain during the latter half of the season.

In discussing the fact that the Missabe is increasing its volume of shipments over former seasons, while the Iron Range is not hauling relatively such a heavy business, an iron man said:

"A few weeks ago, we heard some complaints about the steel corporation giving Duluth the worst of it by diverting the larger part of the ore movement over the Iron Range. Duluth people ought to be satisfied now that they can see the Missabe sending a much larger tonnage over its docks here than ever before, while the Iron Range is not getting the ore to make a corresponding gain in its past records. As a matter of fact, I don't suppose that this cuts any ice with the corporation, at all. The apportionment of traffic among its roads is simply a business matter, but I simply refer to the fact to show that it is far from its purpose to discriminate against Duluth proper in its ore shipments."

The Iron Range has returned to 90-pound steel for an experiment. For some years it laid considerable 100-pound rails on its main line. It was one of the very few roads in this country to adopt 100 pounds as the standard rail. Developments have indicated, however, that perhaps better corresponding results can be obtained with a somewhat lighter rail, and the road will try the two weights and determine the relative results.

THE COAL MEN DINE

Visitors Entertained at an Elegant Banquet at Spalding.

Mayor Welcomes Them and Several Happy Toasts Are Made.

Tables Are Set and Adorned In Handsome Style.

The members of the Lake Erie Bituminous Coal Shippers' association were entertained at a banquet at the Spalding hotel last night. Not all who came up earlier in the day were able to remain for the dinner, but a large share of the visitors sat down to the spread.

Gen. C. McC. Reeve, of Minneapolis, was introduced as toastmaster by C. E. Wales, president of the Pioneer Fuel company, who made an introductory address, touching on the visit to Duluth of so many men engaged in the coal trade, and the benefit to be derived from such fraternal gatherings.

Mayor Hugo extended a welcome to the visitors on behalf of the city, and expressed his pleasure over their coming.

The chief addresses of the evening were made by Judge Koon of Minneapolis and J. L. Washburn, of this city. Judge Koon spoke of the great progress that has been made at Duluth. He added that once upon a time the Twin Cities had had no fear of competition from Duluth. Now, however, he declared, the older cities are watching with a jealous and apprehensive eye every move that was made at the head of the lakes.

Mr. Washburn spoke largely of the development that had been accomplished here, and cited evidences of its rapidity and stability. He also congratulated the visitors upon their coming together in fraternal spirit, and spoke of the good that always grew out of such assemblages.

Other speakers were Joseph Cavanaugh, one of the oldest men engaged in the railroad coal trade; R. E. Elmore of Milwaukee, who quoted Proctor Knott and cited material evidences of today to prove that these sarcastic prophecies were inspired with the true spirit of the prophet, though made in badinage, and B. S. Russell, of Jamestown, N. D.

The Spalding did itself proud with its menu and the management of the dinner. The tables were set in the form of an expanded V. The decorations were largely green and potted plants, centering at the junction of the tables with a large grouping of beautiful potted flowers. Flaaten's orchestra played.

Some members of the party left for their homes last evening and this morning, but a number of them remained and will leave this evening.

Social Dance

Given by Zenith Lodge No. 99, D. of H., at Hunter Hall, Thursday Evening, June 26, 1902. All are invited. Tickets 50c. Good Music.

Need of Fire Tug.

The municipal conference committee held a meeting yesterday afternoon and the heads of the various city departments considered the necessity of the city owning a fire tug.

Mayor Hugo is particularly interested in the fire tug proposition and suggested that the city might lay by a little money from year to year in order to eventually get a fire tug, even if it were not possible to secure one within the next year.

Now With Wieland Shoe Co.

Prof. Albert White, who for a number of years had charge of the shoe shining stands at the Newall hotel, Pittsburg, Pa., has arrived in Duluth to accept a similar position with the Wieland Shoe company.

THE BARGAIN SHOE STORE OF DULUTH.

FOR EVERY FOOT—Man—Woman—Child—

This up-to-date shoe store places at your selection without any question the finest assortment of good, reliable, fashionable Footwear possible to be gathered in any store and assures you a saving of 50 cents or more on every pair of shoes you buy.

The new Colonial Oxfords, very comfortable and fashionable—elsewhere $3.00, special tomorrow..... **$2.48**

Shoes Shined by an Artist—5c. Special Shining Chairs for Ladies.

SCORNFUL LOOK

On Thomas B. Reed's Face Had No Effect.

New York, June 25.—Thomas B. Reed, former speaker of the house of representatives, while boarding an uptown elevated train at Franklin street, stepped on the toes of a colored man and narrowly escaped a beating at the hands of the injured man.

Mr. Reed weighs over 250 pounds.

As his weight came down on the negro's foot the latter yelled in pain and rage so that he was heard a block away.

"I beg your pardon, sir," said Mr. Reed in a conciliatory tone.

"You big stiff, why don't you look where you're going?" cried the angry colored man. "I'll punch you full of holes."

The negro followed Mr. Reed into the car, sat down near him and kept up a running fire of expletives and sulphurous language until the train stopped at Bleecker street, when he limped off the car.

Mr. Reed made no reply to the tirade leveled at him, but from time to time would cast a withering glance of scorn at the offended man, a glance that had often cowed an unruly member of congress, but it had no effect upon the colored man, except to renew his volubility.

Mr. Reed looked relieved when the man left the car.

NEW JERSEY TAXES

Paid By Morgan Interests Cover State's Expenses.

New York, June 25.—It has been discovered that the corporations controlled by J. P. Morgan and his associates pay in corporation taxes the entire running expenses of the state of New Jersey.

The total annual tax is $150,738. The United States Steel company comprises eight consolidated corporations and this total tax is $54,020. The Federal Steel company pay $8737; the American Wire Cloth company, $9250; the American Bridge company, $7936; the American Sheet Steel company, $6060; the Carnegie company, $11,510, and the National Steel company, $6700.

ONE MORE DAY.

Another Chance to Kick Against Assessments.

While today was the last day for the board of review to be in session, the members of the board decided to sit in final session tomorrow morning. This is to give every person a chance to register objections to the assessments made on their personal and real property, and is a sort of special courtesy on the part of the board toward the delinquent kicking public.

Creamy essence of sweet flowers, healing balsams and milk of plants describes dainty Satin-Skin Cream. 25c.

Another Improvement.

CHICAGO, BOSTON AND NEW YORK TRAVEL.

On and after June 15th, the Erie railroad will still further improve their Boston and New York service by offering to the public a handsome limited train to leave Chicago from Dearborn station every day at 10:30 a. m., arriving New York next afternoon at 3:30, and Boston at 9 o'clock.

There is no doubt that this service will be highly patronized, as this new train will land the traveler in New York city in ample time to permit him to proceed leisurely to his hotel or home, rest, dress, dine and spend the evening in whatever manner may appeal to him most.

This every-day morning train will consist of standard Pullman drawing-room and sleeping cars. All meals en route served by the famous Erie dining cars. No extra fare charged on this train.

Ticket office, 242 South Clark street, Chicago.

PERSONALS.

R. Murchison, of the department of public works, left last evening for Fergus, Ont., called there by the serious illness of his brother.

Mrs. John Mollitor and children, of Bay View Heights, have returned from an extended visit with relatives in Minneapolis.

The Misses Jeane Hess and Anna Ryan are visiting Thomas Healy at Hibbing this week.

John Shaben arrived from Two Harbors yesterday and left last night for Grantsburg, Wis., to attend the funeral of his brother-in-law, Joseph Bonneville. Mr. Shaben was accompanied by Mrs. I. Bonneville, of this city.

Mrs. James Cash and daughter, Miss Evelyn, returned from California yesterday.

Misses Grace and Raenael St. Clair have gone to Sparta and Eveleth for a few days.

Mrs. Alexander Sharp left Saturday for Sterling, Ill., to attend the wedding of her nephew, C. R. Martin, brother of B. A. Martin, of this city.

E. B. Rigdon will leave over the Great Northern tomorrow for Seattle, where he will make his home.

Editor C. M. Atkinson, of Hibbing, was at the McKay yesterday.

Mrs. J. D. Shilling, of Biwabik, will leave via the Omaha this afternoon for Pennsylvania, where she will make her future home. Mr. Shilling has been superintendent of the Biwabik mine for years, but has accepted the superintendency of a Pennsylvania mining company.

Miss Sanderson, of Tower, was at the McKay this morning on her way to Chicago for a visit.

Mr. and Mrs. A. McDonald left today via the Great Northern for Victoria, B. C.

W. D. Hutter, Northwestern passenger agent for the Lake Shore road, is in town today.

George Lonstorf will return to Milwaukee today via the Omaha.

C. E. McFadden, of Mexico City, was at the Spalding yesterday. He is spending a few days with friends living here.

Quite a bunch of neighborhood newspaper men were at the St. Louis last evening. Among them were D. C. Anderson of the Carlton Vidette, W. H. Noyes of the Barnum Gazette, Peter Schaefer of the Ely Miner, and Fred D. Vibert of the Cloquet Pine Knot.

Will C. Brown goes to Marquette on this evening's South Shore.

R. R. Dunn came up from St. Paul last evening, and is at the Spalding.

H. W. Reade, an Escanaba lumberman, is at the Spalding today.

C. F. Bates has gone to Minneapolis.

L. H. Kitchell is back from a trip to Chicago.

D. R. McLennan goes goes East on this afternoon's Fast Mail.

Rev. K. A. Lundin takes this evening's South Shore for Ishpeming.

Masonic Notice!

All members of Palestine and Ionic Lodges, A. F. & A. M. and sojourning Master Masons are requested to meet at Masonic Temple Thursday, June 26, at 1:45 p. m., for the purpose of attending the funeral of our late brother, Albert Gasser. By order W. M.

F. R. KENNEDY, Sec'y.

Attention, Sir Knights!

All Sir Knights of Duluth Commandery No. 18 and sojourning Knights Templar are requested to meet at Masonic Temple Thursday, June 26, at 1:45 p. m. for the purpose of acting as escort to Palestine Lodge No. 19 at the funeral of our late Sir Knight, Albert Gasser. By order, E. C.

ALFRED LERICHEUX, Rec'd'r.

CITY BRIEFS.

Tibbetts, undertaker, 31 East Sup St

Smoke X-Ray and Duluth Herald cigar.

Foresters' dance, Court Eastern Star, Lester Park, Wednesday, June 25.

Parlor theater. Enjoy life. See our show.

John Moore, the man accidentally shot through the spinal column at Hibbing Monday evening, will probably live a short time. His condition was reported very critical this afternoon and at St. Mary's hospital it is reported that he has very poor chances of living, recovery of the use of the lower portion of his body is impossible.

H. T. Shuman, who is employed in the Clark & Jackson mill had his foot seriously injured yesterday afternoon by an accident to a small upright engine, a part of which flew off and bruised him badly. It is not thought amputation will be necessary. Shuman is a practical millwright and lives at the corner of Twenty-sixth avenue west and Huron street.

Parlor theater—A show for the people.

Dr. Emma Breinholm is able to resume her practice, after a few weeks' illness.

The ferry Estelle is laid up for inspection and some boiler repairs. The Mayflower is running in her place.

The Board of Trade baseball team will play the Duluth Business university at Oneota Park on Saturday afternoon. Arrangements have been made for a sort of Ladies' day, the women being admitted free.

Frank W. Zaffke, a merchant of Backus, Minn., filed a petition in bankruptcy today. He states that his liabilities are $2476.68, while his assets are $455.29.

NOMINATIONS.

Washington, June 25.—The president today sent the following nominations to the senate: Postmasters: Iowa—Charles M. Jukly, Fairfield. South Dakota—Charles W. Anderson, Platte.

PANAMA WINS.

The House Conferees Accept the Senate Bill.

Washington, June 25.—The house conferees on the inter-oceanic canal bill have decided to accept the senate bill in favor of the Panama route. The conference closed at 2:35 o'clock, and the report will be made soon.

NEW ONES APPEAR

Three More Mueller Heirs Admitted to the Case.

Provisions Made For Taking of Depositions In Europe.

Father Webber, Important Witness In the Case Today.

The feature in the Mueller case before Judge Cant in district court this morning was an order making Katherine Simon, Adelbert Mueller and Alois Mueller defendants in the action, and making provision for the taking in Milwaukee of the depositions of the three new defendants. A. A. Farrington, court stenographer, has been chosen by all parties concerned to act as commissioner to take the depositions. Provision was also made in the order for the taking of necessary depositions by a commission in Europe, the depositions to be returned to the court not later than Sept. 1, 1902.

Mrs. Mueller was again put on the stand shortly before the court adjourned this noon. Her four sons, Charles Frederick, Rudolph Otto and August, were asked to stand in front of her while Attorney R. R. Briggs questioned her as to the resemblance in each son to her husband. She testified that Charles resembled his father in the eyes, forehead, nose, teeth and the dimple on his chin. Rudolph, she said, bore a resemblance to his father in his ears and under lip, but his father's nose was straighter. Otto Mueller, she testified, resembled her husband's father, but has a wart on his forehead resembling one on her husband's head, except that it is larger. August, the younger son, the witness said, resembles her husband when he speaks, walks or shakes his head. She also said that her husband had control over his children and made them mind him.

The deposition of Rev. Father Charles J. Webber, of West Superior, who was Johann Mueller's spiritual adviser up to the time of his death, was introduced in evidence this morning. There were three depositions of Father Webber, taken at different times, but the substance of the testimony was about the same.

The deposition shows that Father Webber refused to answer any questions relating to the conversations that took place between himself and Johann Webber when the latter was at the hospital, on the ground that such conferences were confidential, being given under the secrecy of the confessional and according to the rules of the Catholic church he would be remiss in his duty if he divulged the conversation. Every question that bore any relation to Mueller's last conferences with the priest received the invariable answer, "I decline to answer."

Father Webber testified willingly to such information that he could give regarding Mueller, previous to his being taken to the hospital. He testified that about two months before Mueller went to the hospital he told him at the Schweitzer hotel in West Superior that he had some mining land in Minnesota thathe believed would some day make him wealthy, that he would like to get money to take care of some small mortgages against the property and make some improvements on it, but did not know where he could get the money. Father Webber says he was also shown some papers purporting to represent Mueller's title to the land, but did not pay much attention to them at the time.

On cross-examination Father Webber testified to the general appearance of Mueller, that he had brown hair, was stooped in figure, walked slow and carried his hands at his back.

The deposition of Mrs. Laura Jackson, daughter of Peter Schweitzer, was also read. It dealt mostly with a ring which is alleged to have belonged to Mueller and which her father had given to her sister.

INVITED.

President Roosevelt Is Urged to Visit Duluth On His Trip.

The following invitation to President Roosevelt to visit Duluth during his coming Western trip is being prepared by the Commercial club and, when signed by the principal officers of the club, the common council, board of trade county commissioners and board of education, will be forwarded to Congressman Morris for his signature, and to be presented by him to the president:

To the President of the United States, Executive Mansion, Washington, D. C.: Sir—Having learned of your prospective visit to the Northwest during the early fall, the undersigned, the civic and commercial bodies of this city and St. Louis county, take great pleasure in extending to yourself and party a most cordial invitation to visit Duluth on this occasion.

In this era of prosperity which we are sharing with the rest of the country, the Duluth-Superior harbor has attained the first rank among the ports of the world, as having the largest floating commerce, having now exceeded the port of Liverpool by nearly one-half. These facilities we shall be glad to have you see.

If you can find it convenient to honor us with this visit we shall be very much pleased.

We beg to present this invitation through our representative in congress, the Hon. Page Morris. Trusting that it may meet with your favor, we are, etc.

Funeral Is Held.

The funeral of Ida McCormack, the colored woman murdered last Saturday evening by Charles Henderson, was held this afternoon in Durkan & Crawford's undertaking rooms.

It seemed that all the colored people in the city attended the service, which was conducted by the pastor of the African Methodist church. The burial occurred in Park Hill cemetery.

Scald head is an eczema of the scalp—very severe sometimes, but it can be cured. Doan's Ointment, quick and permanent in its results. At any drug store, 50 cents.

W. D. GORDON, Auctioneer,

Next to Gateley's Four Doors East of Lake Avenue. 10 East Superior Street.

AT WEST DULUTH

The general topic of conversation in West Duluth is the Fourth of July celebration which is to be held on the nation's birthday. The sub-committees met last night and gave their reports, which indicate that a very successful time is in prospect. S. C. Confer has been appointed marshal of the procession, and H. R. Patterson and E. O. Armstrong will be the aides. The committee o nparade has ofered several prizes for the business houses and the fraternal organizations which shall have the best floats in the parade, as follows: Ten dollars to the local fraternal organization having the largest number of men in the line of march; $10 for the best uniformed lodge; $10 for the best uniformed rank; $10 for the most beautiful float, and the same amount for the most ludicrous one.

The line of march will be as follows: Fifty-ninth avenue to Raleigh street, east on Raleigh street to Fifty-fifth avenue, to Grand avenue, on Grand avenue to Bristol, and thence to the grandstand on Fifty-sixth avenue.

Practically all of the money for the celebration has been raised and its success is assured.

FAUBISTER-REMFREY.

A very pretty home wedding took place last evening when Miss Annie Faubister was married to Charles Remfrew at the home of the bride's parents on Grand avenue. Rev. W. E. Loomis, of the Asbury Methodist church, read the marriage service. Miss Ella Faubister, a sister if the bride, was bridesmaid, and Thomas Remfrey, a brother of the groom, acted for him. Only a few friends of the family were present.

A SHORT ILLNESS.

Oscar Gafvert died this morning after an illness of but two days, at the home of his brother, Otto Gafvert, 901 Fifty-sixth avenue west. Gafvert contracted a cold last Sunday afternoon which quickly turned into pneumonia, resulting in his death.

The news will come as a great shock to his many friends, as there was no more popular young man in this part of the city than he. He was but 22 years of age, and has been employed in Kugler's drug store for the past six months. No arrangements have been made for the funeral.

NEW CLUB FORMED.

The first meeting of the West Duluth Musical and Athletic club was held at the residence of J. Rockwell, 5905 Huntington street, last Tuesday evening. The club has been organized for musical, literary and athletic purposes, and will meet once a week on Tuesdays during the summer. A cantata will be given, the proceeds of which will be used towards procuring tennis and golf grounds. Miss Alice A. Rockwell, a pupil of F. W. Wodell, of Boston, will be the conductor, and Mrs. H. S. Rockwell, a pupil of R. S. Ambrose, will be the accompanist. The program committee is composed of the following: Misses Gertrude Mallory, Marie Sims, Alice Gilbert, and Messrs. Smith, Huntoon and Reginald Graham.

The membership committee is composed of Miss Lottie Mallory, Miss Judith Stuart and Isaac Fraser Noxdu.

WEST DULUTH BRIEFS.

Frank Goodrow was arrested yesterday afternoon on the complaint of Mrs. J. H. Sullivan, who claims that he owes her $40 for board. He will be tried July 16. Goodrow makes the third man who has been arrested for attempting to beat a board bill.

Mr. and Mrs. C. C. Salter, Mr. and Mrs. L. A. Barnes, Mr. and Mrs. Alvah Merritt, Mr. and Mrs. E. J. Zauft and Dr. and Mrs. Graham made up a party that enjoyed a trip on the steamer Mary Mann yesterday afternoon. They spent some time at Zenith park and returned home in the evening.

A bicycle accident took place yesterday morning which may turn out seriously. George Morrison, aged 76, while going to work, was run down by a bicyclist and had his right hip dislocated. He was carried to St. Mary's hospital, where his injuries were attended to, and this afternoon he was resting very comfortably. On account of his age it is feared that the injuries may turn out more seriously than at first thought of.

John W. Craig, the infant son of Mrs. Ruth Craig, died this morning of stomach trouble. He was one month old. The funeral will take place tomorrow afternoon at 2 o'clock, the interment being at Oneota cemetery.

The West Duluth lodge No. 315, I. O. G. T., was entertained by the Duluth lodge No. 37 of the same order last night. A special program was presented and an agreeable time was had by every one.

Mrs. Lundquist, of Minneapolis, who has been visiting Mrs. Elstrom for the past two weeks, returned to her home this morning.

Hiram J. Eaton, of Virginia, was visiting Dr. Canfrey yesterday.

Frank Lefave left for a visit to his old home in St. Raphael's, Ont., last night.

Miss Carrie Webb and Edward Webb, of Hibbing, returned home this morning after a very pleasant visit with Mr. and Mrs. J. Krakenberg, of 336 West Fifty-eight street.

Mrs. Charles Silger was agreeably surprised yesterday by a number of her friends of the Royal Neighbors on the occasion of her birthday anniversary. The afternoon was pleasantly passed, a delicious lunching being served.

Dr. Forbes returned today from a trip through the western part of the state.

A daughter was born this morning to Mr. and Mrs. Alfred Johnson, of 205 Seventieth avenue west.

Mr. and Mrs. William Rowe, of McKinley, who have been visiting at the home of Mrs. Axford, returned home this morning.

Daniel Bishop was brought in from Fond du Lac and taken to the Red Cross hospital yesterday afternoon. Mr. Bishop is seriously ill.

The ladies of the Oneota Methodist church ice cream social in the church parlors on Trusday evening.

Filiatrault, undertaker. West Duluth.

The Epworth league of the Asbury M. E. church, will give a lawn social at the home of Miss Mallory Wednesday evening.

FATHER IS WILD

J. Edelson Greatly Worked Up Over Daughter's Elopement.

Reported to Police That She Stole Family Silverware.

Daughter Charges Him With Hiding It and Accusing Her.

Lower St. Croix avenue was tremendously agitated this morning over the discovery of the elopement of Rachel Edelson with her cousin Charles Edelson.

The marriage was quietly performed several days ago. J. Edelson, father of the girl, learned of it last night for the first time and at midnight he reported to the police that his daughter had run away with her cousin, taking all the silverware and everything of value in the house. He did not mention to the police that she was married.

Today the young bride learned of the charges made by her father and returned to the parental home at 424 St. Croix. She and her father had a busy session—a sort of gleesome charivari for the neighborhood, which took particular interest in the elopement on account of the youth, beauty and popularity of the bride.

The missing silverware was found under the sidewalk near the Edelson house and before the neighbors the daughter announced that her father hid it there himself and then reported that she had stolen it, in order to have her arrested for marrying her cousin.

The father did not deny this, but became very angry, so that persons had to step between him and his daughter.

The neighborhood seemed to stand by the youthful bride pretty well and trouble was averted.

It is said by mutual friends that the two cousins, while very young, have had quite a romance. They were married at the home of a friend a few days ago and the girl returned to the father's house with the intention of keeping the wedding a secret for some time. It came out, however, through a member of the family that was told in confidence, and the bride insists that the father drove her from the house.

Mr. Edelson says that he did not drive her away, but that she ran away.

AMONG THE RAILROADS.

Travel Exceptionally Heavy at the Present Time.

Both railroads and hotels report that travel is exceptionally heavy just now. The Omaha fast mail carried two sleepers full of people into Duluth yesterday and was well filled this morning. The South Shore is carrying well filled trains in and out, and this morning brought in two coaches of immigrants in addition to its regular equipment. Duluth-Twin City trains are also exceptionally well patronied over all roads.

Superintendent Bell, of the Union station, says that travel is far ahead of last year for this early in the season, and it seems to be growing very rapidly.

The interior woodwork of the Union depot is being brightened up with varnish and paint.

The Omaha is expecting a large excursion the last of the week from Sioux City, but none of the local offices have been officially notified just yet as to what to expect.

Dance at Oatka this evening—Lisbon Orchestra.

Great For Duluth.

Mr. Bagley, of F. D. Day & Co., jewelers, has just had completed the finest souvenir for Duluth that has ever been gotten up. It is in the form of a small traveling cup, of a metal that will not tarnish, very artistic in design and shows five interesting views of Duluth. The price is another attractive feature, being $1.00 each. It is another successful venture of this popular firm.

POPULAR

EXCURSION

To Port Arthur

—ON—

Steamer AMERICA

Friday, June 27, 2 p.m.

Calling at Washington Harbor, Isle Royale, by daylight. **FARE $5 ROUND TRIP** including Meals and Berth.

FOR CANADA.

Duluth Men Leave For Trip to Saskatchewan Valley.

Twenty-four Duluth men left today to join the party that is enjoying the special train excursion given by the Saskatchewan Valley Land company. The Duluth party left on the Great Northern afternoon train today for Coon Creek Junction, where the special train leaving St. Paul with the bulk of the party will pick them up.

The Duluth men, besides A. D. Davidson and A. D. McRae, include: George C. Howe, J. L. Washburn, W. E. Richardson, John F. McCarthy, C. E. Bassett, J. W. Reynolds, F. L. Buell, A. H. Comstock, R. F. Fitzgerald, A. W. Frick, C. R. Haines, Oscar Mitchell, F. A. Patrick, Simon Clark, L. E. Lum, Mille Bunnell, Barnett and Nathaway. There were also these from Two Harbors: M. O. Aubolee, J. D. Anderson, W. N. Moulton, Dr. J. D. Budd, Mr. Floathe and John Dwan.

The special train will be made up of five cars. It is due in Winnipeg early tomorrow morning. Thursday will be spent in that city as guests of the municipality. Friday another special will be taken over the C. P. R. to Souris and other points near which is located the land recently acquired by the Saskatchewan Valley Land company. It is understood that the object of the trip is to give the party an opportunity to gain some idea of the future wonderful possibilities of this undeveloped territory and to see the land owned by the company.

PENSIONS GRANTED.

Washington, June 25.—(Special to The Herald.)—The following pensions have been granted: Original—Samuel D. Kemered, of Park Rapids, $8. Increase—John I. Roley, of Howard Lake, $8; Charles Sweezoo, of Anoka, $8.

FIRE AT MERCUR, UTAH.

Salt Lake, Utah, June 25.—A telephone message from Mercur, the second largest mining camp in Utah, says the town has been nearly destroyed by fire.

VIRULENT CANCER CURED.

Startling proof of a wonderful advance in medicine is given by Druggist G. W. Roberts, of Elizabeth, W. Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklin's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and microbe poisons at the same time this salve exerts its matchless healing power, blood diseases, skin eruptions ulcers and sores vanish. Bitters, 50c; Salve, 25c. at W. A. Abbett's Drug Store.

DEFECTIVE PAGE

In all of Minnesota's history never such a Millinery event as this. Come early and avoid the rush.

PANTON WHITE COMPANY
THE BIG GLASS BLOCK STORE
DULUTH, MINNESOTA.

One thousand two hundred and seventy-two Women's elegant trim'ed hats bought at 25 cents on the dollar.

The Most Sensational Millinery Sale

Ever Held in Minnesota Commences Tomorrow at 8 a. m.

The hundreds who have viewed and admired and wanted to buy these hats today can have the pleasure and profit of purchasing tomorrow.

Tomorrow morning the sale commences and everybody can buy. The entire purchase of 1272 stylish, new summer Millinery which we have just secured from the great millinery importer and manufacturer, Frederick Michaels, of New York, will be offered for sale. These hats are made up in the height of fashion, from excellent high class materials, from patterns furnished by the foremost Parisian designers. Every hat is fascinating and fashionable, and the most critical will be able to secure something exactly to her liking. They are trimmed and made of every seasonable stylish material that enters into elite millinery and every color that is now in vogue is shown. **We bought the lot for spot cash at 25c on the dollar and our public is given the advantage of our good fortune.** The assortment is so large that we are obliged to devote three large Bargain Counters on the first floor, and the long tables in our ladies' waiting room, second floor, to this sale. They have been assorted into three lots, as follows:

Lot One at

95c

On Bargain Counter No. 1—Elegant Tri'med Hats worth $2.50 to $3.25.

Lot Two at

$1.59

On Bargain Counters Nos. 2 and 3—Tri'med Hats worth $3.50 to $6.50.

Lot Three at

$2.69

Hats worth from $7.50 to $9.50—to be sold on 2nd floor—Reception Room.

There is no spirit of exaggeration in this advertisement. Every value is conservatively stated—every assertion is mildly set forth.

These are unquestionably the best Trimmed Hats in quality, style and economy that have ever been offered in Minnesota—all fresh, new—and just think of it, over a THOUSAND TO CHOOSE FROM—no two alike--all new ideas--AND SUCH PRICES!

Remember, the most important millinery sale ever held in this city begins tomorrow morning at the Glass Block Store.

MAY HAVE BASEBALL

Andrew Porter of Superior Has Scheme to Provide It.

Will Play In Duluth Saturdays and Superior Sundays.

Plans to Bring Superior People Here at Little Inconvenience.

Duluth is to have ball games every Saturday afternoon. Manager Andy Porter, of the Superior ball team, has secured the privileges of the ball grounds at the driving park for the season and will bring outside teams to Duluth to play with his aggregation. All Sunday games will be played in West Superior though Manager Porter said he would play some in this city were it possible to do so.

The ball grounds have not been in use for some time and are not in very good condition. Work will be started in a few days of getting them ready. No date has yet been set for the opening game, but Manager Porter says that the Duluth fans will be treated to the real thing within a couple of weeks. The management figures it out that by playing Saturday games in Duluth and Sunday games in West Superior the baseball project can be made to pay and the fact that a number of Duluth men have been signed to play with the Superior team will do much to keep up interest in the games even when played in West Superior.

It has been suggested to Manager Porter that he call the aggregation the Duluth-Superior ball team, but it is hardly likely that the suggestion will be adopted. Some of the Duluth fans have offered another suggestion to the effect that when the team wins a game it be called the Duluth team and when it loses it be called Superior team. The Superior fans have objections to this plan, however, and for the present, at least, the team will go under the name of Superior.

The ball team played at Ashland last Sunday and was defeated, but the management is not downcast over it. It is claimed that the boys will play a stronger game after they have played together a few times, that the luck has been in the team play.

Another project that is being talked of in connection with the games in Duluth is the running of a ferry from West Superior to the dock nearest to the ball grounds in this city. This plan has been tried once or twice on previous occasions and is said to have worked very well. A boat can run from the Tower avenue slip to the coal dock just west of the ore docks in a very short time and the Superior fans say that they can avoid all the delays incidental to a trip around by street cars, with possible waits at the draw bridge and a transfer at Garfield avenue.

The matter will be taken up with the coal dock people and their permission will be asked for the landing of passengers from West Superior to see the ball games. It is thought that if this trip up the bay can be made attractive a much larger crowd can be drawn from West Superior to witness the games in Duluth. No trouble is anticipated in getting a ferry boat to carry the crowds, providing a landing dock can be secured.

Impaired Digestion

May not be all that is meant by *dyspepsia* now, but it will be if neglected.

The uneasiness after eating, fits of nervous headache, sourness of the stomach, and disagreeable belching may not be very bad now, but they will be if the stomach is suffered to grow weaker.

Dyspepsia is such a miserable disease that the tendency to it should be given early attention. This is completely overcome by

Hood's Sarsaparilla

which strengthens the whole digestive system

DULUTH OPERATIC CLUB

Mr. George Tyler will receive applicants at his studio, 309 Masonic Temple, Sundays 5 to 6 p.m.

RACING MEET.

Preparations For Big Event at Oneota Park July 4.

With baseball practically dead in Duluth the outdoor sport followers have turned their attention to horse racing.

Some of the finest animals in the Northwest are owned in Duluth and the track at Oneota Park is the scene of brisk brushes every day.

The first public racing of the season is scheduled for July 4 and from present indications it will be the finest program ever seen in Duluth since the closing of the famous Woodland track in Duluth's big days of boom prosperity.

While the Oneota track is admittedly not the fastest course in the Northwest it will be put in the best possible shape for the inaugural meeting on July 4.

The St. Louis County Driving association is liberally advertising the meeting offering good stakes and purses calculated to catch the attention of owners of fast horses throughout Minnesota and Wisconsin.

St. Paul and Minneapolis horse owners are interested and are inquiring particularly about the 2:29 and 2:30 events for which purses of $50 are offered.

Eveleth, Hibbing and Virginia have fast horses, but it is feared that they will not be entered in the Duluth meet on account of the Hibbing races on July 3, 4 and 5.

Each morning at Oneota Park the Duluth string is given breezes over the track and it is said that this city alone will put ten horses in the 2:29 events. There are twenty-five horses quartered at the track at present, which substantiates the report that the local horse owners expect to go in for trotting on a large scale.

Dance at Oatka this evening—Lisbon Orchestra.

FOR LIBEL.

Editor Noyes Will Cause Arrest of Editor Quinn.

Albert F. Quinn, publisher of the Cloquet Independent, has incurred the displeasure of Representative W. H. Noyes, editor of the Barnum Gazette, to such an extent that a warrant has been sworn out by the latter for his arrest on the charge of criminal libel.

The Grand Rapids Herald-Review printed a bitter attack on the career of Mr. Noyes in the house, and called him a corruptionist and bribe-taker. The Independent copied the item and, in commenting on it, said, "while admitting the justice of the strictures," etc.

Mr. Quinn will be arrested probably today and have his hearing before the week is out.

Mr. Noyes is a candidate for senator from the Forty-first district.

NOMINATIONS CONFIRMED.

Washington, June 25.—The senate has confirmed the nominations of Col. William H. Carter, assistant adjutant general, and Maj. Tasker H. Bliss, commissary, to be brigadier generals.

FROSTY IN NEW YORK.

Ballston, N. Y., June 25.—Frost was reported on the lowlands, near here, today. The thermometer registered 34 degrees at 4 o'clock this morning.

WILL STOP THE GAME

Coal Shippers to No Longer Sell Direct to Railroads.

Will Have to Buy Supplies From the Dock Companies.

This Action Said to Be Result of the Present Junket.

It is said that one result of the little junket of soft coal men to the head of the lakes will be that the shippers from Lake Erie will refuse to sell further supplies to railroads. It is claimed that as a result of this practice in the past there has been discrimination in price to some railway consumers and not to the largest buyers.

"For some time past," said one of the members of the party, "shippers have sold direct to railroads when they sought to buy from us, instead of referring them to the dock companies. It has been a nice game for the railroads, in some instances at least, for not being as closely familiar with the trade situation in various local markets in the West and Northwest as the dock companies themselves, our sales agents have been bunkoed into cutting prices.

"The result of this has been to give some little transfer or terminal or logging roads their coal supplies for less money than the Chicago & Northwestern system pays for its fuel. If there is to be discrimination in favor of anybody, it ought to be the large consumer, not the small consumer, who gets it. But I believe we can place the railroad coal business on an equitable basis, and not force one railroad to pay for the favor granted another. That is what this discrimination amounts to. If a man having an article for sale has to, or does, cut his price to one party, he naturally seeks to make up his loss on the price quoted to another."

It is said that most of the small railway consumers of coal that obtain their supplies here are paying their full price for it. All the logging roads are said to buy from the dock companies. The two steel corporation roads buy in the Lake Erie market, making their purchases through the Pittsburg Steamship company. It is understood that this coal is bought on the dock at Lake Erie ports, so the steamship company can bring it up in its own vessel bottoms at the minimum cost per ton. In this way it is said, the steel corporation interests here get their coal netted to them as a very nice figure.

"We purpose in the future," said the shipper first quoted, "to refer all roads coming to us for figures to the dock companies. There is no reason in the world why the dock companies should not sell all the coal that is required in this territory. They are organized for that purpose, are better prepared to handle the trade from their markets, and there is no reason why their organizations should be maintained if we are to sell from our Lake Erie offices. I don't know that we are going to be able to bring this about right away. Our organization is not so close as some people seem to think. If it were, we would simply act as an organization. But there seems to be a well-developed sentiment among coal shippers that the trade situation in each selling market should be handled by the interests located there for that purpose, and not be dipped into at our end of the line, and we hope to bring about this reform this season."

Dance at Oatka this evening—Lisbon Orchestra.

THE RECORD.

Street Railway Company Carried 55,000 People Circus Day.

Monday broke the record for the number of passengers carried in a single day by the Duluth street railway system. Fifty-five thousand fares were collected.

The Duluth-Superior Traction company owns the lines on both sides of the bay, but the accounts are kept in three divisions, the Duluth, Superior and Interstate. The 55,000 fares represented everything that appears in the Duluth division and half of that in the Interstate.

It was a busy day for the street railway employes, and all of them had to work overtime, some running up to fourteen and fifteen hours. Every car was out nearly all day.

CITIZENSHIP

Is Refused to Former Resident of Philippines.

Washington, June 25.—An answer approved by the administration was filed yesterday by Clerk Young, of the district supreme court, to a rule to show cause why he should not be required to admit the citizenship declaration papers of Antonio M. Opisso y de Yenza, recently an inhabitant of the Philippines. The answer says the petitioner is not authorized by the present law to declare such intentions.

OHIO COURT

Decision Sustains the Willis Tax Levying Law.

Columbus, Ohio, June 25.—An important decision was announced by the Ohio supreme court yesterday, sustaining the Willis tax law levying a fee of one-tenth of one per cent on the subscribed capital stock of private corporations, which, it is estimated, will yield the state an additional revenue of $500,000. A decision was also handed down declaring unconstitutional the special salary laws for more than half the counties in the state. These acts took the place of the old fee system. The fee system will have to be returned under the decision.

CONSTERNATION IN BERLIN.

New York, June 25.—Consternation is the only word which can be used to describe the feeling provoked here, says a Berlin dispatch to the Herald, by special editions of the papers containing news of the postponement of the coronation. It is generally admitted that King Edward is a strong connecting link between this country and England.

A Watch Case Wears

at point of contact with the hand or pocket. A solid gold case wears thin and weak and a cheap filled case wears shabby. A Jas. Boss Stiffened Gold Case is guaranteed to wear for 25 years. It is made of two layers of solid gold with a layer of stiffening metal between, all welded together in one solid sheet. The outside gold will last a quarter of a century and the stiffening metal will keep the case strong as long as you wear it. This is why thousands wear the

JAS. BOSS Stiffened GOLD **Watch Case**

on costly works in preference to a solid gold case. Ask your jeweler to show you a Jas. Boss Case and look for the Keystone trade-mark stamped inside. Send for Booklet.

Local forecast for twenty-four hours from 7 p. m. (central time) today: Duluth, West Superior and vicinity: Partly cloudy tonight and Thursday, with possibly local showers. Slightly cooler tonight. Brisk and high northerly winds.

H. W. RICHARDSON,
Local Forecast Official.

Chicago, June 25.—Forecast till 7 p. m., Thursday: Minnesota—Partly cloudy tonight with cooler in east and possibly showers in northeast portions. Thursday generally fair.

Wisconsin—Showers and thunderstorms this afternoon and probably east portion tonight. Thursday probably fair.

The Dakotas—Generally fair tonight and Thursday.

Upper lakes—Winds becoming high northerly on Superior this afternoon, on Michigan this afternoon or tonight, and on Huron by Thursday morning. Showers and squalls by today and tonight. Thursday probably fair.

Storm northwest warnings ordered displayed at all upper lake stations at 10 a. m.

Cause of the Maine's Blowing Up.

The blowing up of the Chinese cruiser Kai-Chai, in the Yangsto-Kiang river naturally recalls the similar fate of the battleship Maine in the harbor of Havana. The Kai-Chai was quietly lying at her dock, when suddenly a sheet of flame shot horizontally from one side, her deck lifted and she went to the bottom. Her crew consisted of approximately 200 seamen and officers, and only two are reported to have escaped. It will be recalled that the battleship Maine was lying quietly at her assigned moorings in Havana harbor, when suddenly there was a tremendous explosion which destroyed the torward end of the ship and caused the death of 264 seamen and officers. The explosion was ascribed by the Americans to a submarine torpedo, while the Spaniards claimed that it was the result of chemical changes that caused the fulmination of a cartridge in the magazine, which was located in the forward part of the Maine. An investigation by submarine experts resulted in the finding that the ship was destroyed by an explosion under her bottom, this conclusion having for its basis the fact that the keel and bottom plates were pointing upward at an acute angle. The Spaniards held in rebuttal that the explosion was from within, and that the upward and outward force so completely destroyed the upper portion of the hull that when the Maine settled to the bottom the pressure of the water beneath her forced the keel and bottom pintes upward to the angle in which they were found. The Chinese disaster will add strength to the Spanish contention and revive the controversy in regard to the cause of the Maine's destruction.

A Friend of the Smoker.

The defenders of My Lady Nicotine have found a powerful backer in an English physician who claims that smoke retards the growth of the bacilli of several dangerous diseases. He probably will not be able to induce the opponents of the weed to agree with him, but his views will give great comfort to the smokers who have been seared by the deliverances of medical experts respecting the effect of nicotine on the nervous system. The new friend of the smoker is Dr. Dumon, an eminent London authority, who has made a special study of the action of tobacco smoke upon the various organisms found in the cavity of the mouth. Dr. Damon finds that while tobacco smoke has no effect upon typhoid fever germs or tetanus (lock jaw) it greatly retards the growth of the bacilli of influenza, of diphtheria, and of consumption. It may be said that few smokers actively engaged in the pursuit are troubled either with typhoid fever or lockjaw. Lockjaw would materially interfere with the enjoyment of a cigar or a pipe. Of course every smoker will testify that at sundry times he has had touches of influenza, diphtheria and consumption, and with the aid of tobacco smoked out and destroyed their germs.

An actress playing in St. Paul has evolved a new advertising scheme. She has not lost any diamonds, but claims she received a diamond ring in a bouquet sent to her hotel by an admirer and has advertised that if the gentleman will forward his address the ring will be returned, otherwise it will be given to some charity.

BILLS IN DEADLOCK.

Rarely has it been that so many important measures have been in controversy between the senate and house at this stage of the session of congress as is the case at the present time. It is unusual for so many changes to be made in bills in the process of legislation as is the case now. Among the measures stil in deadlock are the army appropriation bill and the navy appropriation bill. Both of these measures are still in conference, with but little promise of an early agreement being reached on either of them. The delay is threatening serious consequences in both branchs of the service. The money for the army and navy becomes available, under the bills, on July 1, and until the measures have been passed nothing can be done toward contracting for the next year's supplies, and work now in progress can not be continued after June 30. Much concern is felt at the navy yards lest delay in passing the measures may result in suspending work and causing enforced idleness among the employes. The war department has also received a cablegram from Manila making inquiries as to whether the authorities there should go ahead with contracts for ice and army supplies pending action upon the appropriation bill.

Another measure that is in conference, with many differences that promise to be difficult of adjustment, is the act known as the anti-anarchy bill, for the protection of the president and other cabinet officers in the line of the presidential succession and for the general suppression of anarchy. The recent outbreak of the reds at Paterson has caused many inquiries to be made as to the status of this proposed legislation. The senate bill upon this subject was passed in March, after slight debate. This bill was comparatively simple. It was radically amended by the house in terms already published, and the matter is still in debate. The canal bill is also in conference, and the Philippines bill will also doubtless soon reach that stage. It is hard to see from the present outlook how congress will be able to adjourn by July 4, which is the time set by common consent.

SHIPBUILDING BOOM.

Another blow at the ship subsidy steal has been dealt by the formation of the great shipyard combine, embracing eight big concerns with $20,000,000 of capital stock, incorporated under the laws of New Jersey. The new trust starts out with contracts for construction on hand amounting to $36,046,000. Net profits for the next eighteen months are estimated at $2,675,000, and during the next three years, $6,675,000. Annual net profits upon the current business of the yards for repairs and other items will, it is expected, considerably increase the above estimates, and the calculation does not include the economies under combination, which practical experts assert will greatly increase the net earnings of the concern.

It is safe to say that the promoters of this shipbuilding combine must know what they are doing, because they are members of leading shipbuilding firms in the country, while the heavy investment by the Morgan syndicate has strengthened their belief that we need no subsidies to make shipbuilding pay. Having established commercial supremacy, why should not the United States also acquire maritime supremacy? We have money to buy ships and also money to build them, and as cheaply as other nations, and what will Europe now do to meet the double competition?

UNIFORM DIVORCE LAW.

It was to be supposed that a uniform divorce law in all the states of the Union would be unanimously approved by all classes. Many arguments have been made in favor of legislation looking to this end, and they were apparently sound. It now transpires that there are opponents to a law of this kind, and the opposition comes from those who would naturally be expected to favor an improvement in the existing conditions. This is apparent from an article by Mrs. Elizabeth Cady Stanton in Collier's Weekly. Mrs. Stanton complains that most of the suggestions for the change have come from judges and bishops, and as "judges and bishops are proverbially conservative, their tendency would be to make the laws in the free states more restrictive than they now are, and thus make it more difficult for wives to escape from unhappy marriages. The applicants for divorce are chiefly women, as Naquet's bill, which passed the chamber of deputies of France some years ago, abundantly proves. In the first year there were 3000 aplications, the greater number by women. Unhappy husbands have many ways of mitigating their miseries impossible to wives, who are financial dependents and burdened with children. Husbands could easily leave the country and invest their property in foreign lands. Laws affect only those who respect and obey them, and those made to restrain unprincipled men fall with crushing weight on women. A young woman with property of her own can now free herself from an unworthy husband by spending a year in a state having liberal divorce laws, and in due time marry again. Because an inexperienced girl has made a mistake, perhaps owing partly to her advisers, shall she be denied the rights to marry again?"

In view of the sources of the suggestions for a uniform law, Mrs. Stanton thinks that "we may infer that the proposed national law is to place the whole question on a narrower basis, rendering null and void the laws that have been passed in a broader spirit, according to the needs and experiences in certain sections of the sovereign people. And here let us bear in mind that the widest possible law would not make divorce obligatory on any one; while a restricted law, on the contrary, would compel many, marrying perhaps under more liberal laws, to remain in unconcenial relations. As we are still in the experimental stage on this question, we are not qualified to make a perfect law that would work satisfactorily over so vast an area as our boundaries now embrace. I see no evidence in what has been published on this question of late by statesmen, ecclesiasts, lawyers and judges that any of them has thought sufficiently on the subject to prepare a well-digested code or a comprehensive amendment to the national constitution."

The Chicago wife who wanted a divorce because her husband persisted in having the mother of an earlier wife live in the same house with him has learned something practical. "A man has a right to keep his mother-in-law in his house," says a learned judge, "just as he has a right to keep a dog. If the dog does not bite, his wife cannot complain because he keeps it in the house, and it is the same with an ex-mother-in-law." But how is it if the ex-mother-in-law has a biting tongue?

The American girl is beginning to enter the broad field of athletic sports. Miss Helen Downes of the class of '03, Elmira college, who has been declared the best all-round college girl athlete, is especially good in the hurdles, running and the running broad jump. And at Muncie, Ind., the other day Miss Effie Smith ran 100 yards in 11½ seconds, beating all the high school boys.

A distinguished American lately declared at a scientific meeting in London that the English railway system was fifty years behind our own. But a late report says that train accidents in England during the year 1901 did not result in the death of a single passenger. Some people would prefer to be antiquated and safe.

The Milwaukee Evening Wisconsin says the weather this year recalls the story of the old medical practitioner who was asked to name the dates between which the wearing of heavy flannels might be safely dispensed with. He said: "In this climate, take them off on the 30th of June, and put them on on the 1st of July."

A woman at Marysville, Ohio, is the granddaughter of a soldier of the war of 1812, the daughter of a soldier of the civil war, the widow of a soldier of the civil war and the mother of two soldiers of the Spanish war, one of whom is dead. What a big pension she must be getting!

Threescore and ten are the allotted years of man, but a couple in Philadelphia have been married for 67 years. He is 94 and she is 89, and they both declare that they are not tired of each other yet. They, at least, are satisfied that marriage is not a failure.

Professor Hill brought back so much volcano dust from Martinique that his supply of sacks and bags gave out and he utilized his surplus socks to pack it in. The scientific mind is generally fertile in expedients, says the Boston Globe.

The Republican state convention and Ringling's circus will both open at St. Paul on July 1. With two big shows in one day the Saint will be kept busy.

Indiana is talking of substituting the electric chair for the gallows. Every state in the United States should make the change.

There are 40,000 students in the ten leading colleges of the United States. What a noise their combined yell would make.

LINES TO A LAUGH.

Chicago Tribune: Borus (struggling author)—I had a most remarkable dream last night.

Naggus (literary editor)—Let's hear it, Borus—Not yet. I am going to have it copyrighted first.

Detroit Free Press: Mrs. Parvenue (at Newport)—How can you prove that you are a real lord?

Lord Forgivus—Well, I'm broke, for one thing.

Los Angeles Herald: Conductor—Let's see. Did I get your ticket?

Smart Passenger—Yes, sir; you took it up at Montalvo and punched h—l out of it.

Conductor—I beg your pardon, sir, but it isn't customary on local tickets to punch out the passenger's destination.

Philadelphia Press: Willie (studying his Virgil)—Pa, I'm stuck. The Trojan gladiator is saying something to his rival here and I can't make it out.

Pa (looking up from his sporting sheet) —Maybe he's telling him to go get a reputation.

Washington Star: "There is nothing more unwise," said the friend, "than a needless and ostentatious display of wealth."

"That's right," answered Mr. Gripper Sorghum; "there are enough people trying to get it away from you without issuing any challenges."

Chicago Tribune: Constituent—What's the use of those long debates of yours in the senate on the Philippine question? Have you succeeded in changing a single vote by them?

Eminent Statesman—Well, of course we can't tell about that until after the fall elections.

New York Sun: Knicker—Hear you had an accident with your auto.

Bocker—Yes, Miss Prettygirl and I became so absorbed we let it find it own way home. It evidently lived up a telegraph pole.

Baltimore American: "I see by the paper," said the grocer, "that the congressmen have passed a resolution that no more liquor can be sold in the capitol building."

"I reckon," said Mr. Meddergrass, absent-mindedly, reaching into the box of ginger snaps, "that this here Philippeen investigation has led them to try that there water cure on themselves."

Reflections of a Bachelor.

New York Press: Women can make a little knowledge go so far that it will never come back again.

It takes just as long to find out what you don't know about women as what you do know.

If they only knew it, the people who pride themselves on employing no tact simply employ bad manners.

A man's ideas on reform in politics from day to day are very much biased by what kind of breakfast he had.

The time a woman usually picks out to sit on a man's knee and ask him how much he loves her is just when he is having trouble to make his favorite pipe draw.

When Doctors Disagree.

Chicago Chronicle: Dr. S. A. Knopf, of New York, a profound and learned authority upon cuberculosis, arises to announce that tuberculosis is absolutely noninfectious. On the very same day Dr. Henry L. Holton, of Vermont, an equally profound and learned authority, takes occasion to observe that tuberculosis is an acutely infectious disease—one of the most infectious. It is little matters like these that inspire the general public with such deep confidence in doctors.

TWO TO ONE

Are Chances of Recovery In Cases of Perityphlitis.

New York, June 25.—According to Sir Frederick Treves, who performed the operation on King Edward, and himself one of the greatest living surgeons and specialists on abdominal troubles, the chances of death in cases of perityphlitis where abscesses form, as in that of King Edward, are about one in three.

Sir Frederick Treves also declares that the period when death is most likely to occur, if at all, is from the fifth to the eighth day. Judging from the opinions of this distinguished physician, it may be assumed that either the king's condition has developed suddenly—or he has been sick for several days and the physicans have been attempting to "patch up" their patient for the week's ceremonies, says the Times.

What physicians regard as one of the exhaustive essays written on the subjct of perityphlitis is that of Sir Frederick Treves, published in a medical work known as "System of Medicine." Every phase of the malady is treated in that essay and many of the typical cases cited bear remarkable similarity to that of King Edward. The following are some extracts from that essay of interest to laymen:

"Perityphlitis represents the very commonest variety of peritonitis and the remarkable frequency of inflammation in this position is due to the fact that the appendix is one of the weakest points within the abdomen. Perityphlitis may be met with in patients of all ages. Cases have been recorded in children respectively 7 and 13 months of age. On the other hand the disease has been met with in patients of advanced age. The greater proportion of cases occur in young adults and the period of greatest frequency is between 10 and 20."

MRS. TANKE

Reported to Have Confessed and May Free Husband.

Henderson, Minn., June 25.—Yesterday the defense in the Tanke trial asked that the trial of Mrs. Tanke be postponed for a few days, as the defense is not at present prepared to try the case. The trial was set for July 11.

A question was brought up by the defense as to whether this court has jurisdiction in the case of Mrs. Tanke, as she was not present in the county court when change of venue was made for Mr. and Mrs. Tanke.

H. J. Peck, attorney for defendant, Tanke, made a motion for a new trial on the grounds that new evidence of great importance had been discovered. The court set July 5 as the date to decide whether a new trial will be granted, and sentence will be deferred until that time.

The story is prevalent that Mrs. Tanke has made a partial confession, thereby freeing Tanke.

The story in circulation is that Mrs. Tanke knows the whereabouts of a revolver which she claims caused the death of Wellner, and that the deed was committed by others than Tanke. She also knows where Wellner's watch is, and has unfolded much other evidence injurous to the testimony of the state, inasmuch as it will destroy nearly all the evidence of the detectives.

This story, however, is given little credence. It is known, however, that the defense and state have both sent parties to the Wellner farm to investigate and see if there is any truth in her confession.

PLAYING THE RACES.

New York Pool Room For Women Raided.

New York, June 25.—Acting Capt. Dillon of the Tenderloin station, received the following letter by mail yesterday:

"Capt. Dillon—This is to notify you that there is a woman's poolroom at 516 Sixth avenue, one flight up. My wife spends most of her time there, losing the money I give her. Won't you please close the place, for it is ruining my wife and my home?

A VICTIM."

When the races started the detectives went to work. They found the first floor of the address was supposed to be the Herald Square Employment agency.

There were about twenty-five women in the rear room, all of whom seemed to be anxiously scanning cards. At a desk on a raised platform sat a woman who seemed to be running the place. Another woman at the telephone soon began to describe the third race at Sheepshead Bay.

Then the detectives broke into the room. The twenty-five women were in a panic. Lizzie Guest, the proprietress, frantically tried to put evidence in her stocking. She and five others were taken to the police station. The others were allowed to go home.

POISONED CANDY

Sent By Unknown Person to Young Lady.

Waterbury, Conn., June 25.—That Miss Clara McAlenney, 22, a pretty dry goods girl, is not dead, is due to her own good luck in the discovery that a box of choice candies brought her by a uniformed messenger yesterday afternoon were sprinkled with iodoform. She was very ill after eating the candies, but will recover. The authorities have searched for those who sent the candy to the girl and found only that two women accosted the boy and sent the box, with the precaution to be sure and find the right girl. The girls in the store say that Clara is the victim of jealousy and that a man will be found in the plot when it is unraveled, but Miss McAlenney knows of no enemy cruel enough to perpetrate such a trick.

MORE WAGES

Demanded By Street Car Men of Chicago.

Chicago, June 25.—Increases in wages ranging from 2½ to 50 per cent were demanded by employes of the Chicago City Railway company at a meeting held last night. A scale stipulating the payment of 30 cents an hour to all motormen and conductors and from $2 to $2.25 a day for barn men was adopted and a committee appointed to present the scale to the traction officials tomorrow afternoon. The meeting was attended by nearly 300 men.

Duluthians Interested.

C. A. Aske, who, with a number of Duluthians, are interested in the construction of the Alaska Central railway, has received word that Mr. Hines, the Montana multi-millionaire, has been elected to the board of directors of the new railroad.

The road is to be built from Resurrection bay to Rampart, the most northerly white settlement on the North American continent. It passes through timber, coal and gold mining country, and the Duluth people interested feel greatly encouraged in interesting Mr. Hines.

THE DAKOTAS.

Mystery Concerning Robbery of Mail Pouch Not Solved.

NORTH DAKOTA.

Jamestown—The mystery concerning the robbery of a mail pouch of $3000 two years ago at Harvey seems to be as far from solution as ever. The case was before the United States grand jury recently, but no indictment was found against the man Soule, who fled on the night of the robbery. A Harvey jeweler testified before the grand jury that Soule had a mail pouch key, and that after the robbery Soule told the jeweler that it "worked like a charm." Soule was roadmaster on the Soo at the time of the robbery.

A telephone line is to be erected between Jamestown and Courtenay. Robert Walker is making arrangements to put in the line. Stations will be established at convenient points.

Minot—E. J. Jennings, formerly of St. Paul, who was injured in the wreck on the Great Northern, near Granville, died here Monday, and a coroner's jury returned a verdict finding the road gulty of criminal negligence. A. H. Eckert, a St. Paul traveling man, was one of the three hurt. He will recover, as will Conductor F. H. Martin.

Fargo—There is a big scare at Minot over the report that disbarment proceedings have been instituted against seven Ward county attorneys. Special Inspector Ruby was sent to that section to investigate. Six of the attorneys on the black list are in towns outside of Minot. They will have to show cause why they will not be disbarred from practicing before the land office. The charges preferred against them are under the head of speculation in contests. Some of them would employ a list of men to institute contest proceedings, and then settle the matter with the original claim holders. The busines is reported to have been profitable.

SOUTH DAKOTA.

Faulkton—The state rested in the Coleman murder trial Tuesday. Eight witnesses for the state were examined at the morning session, the feature of which was the story told by the defendant at Mellette of how the shooting occurred. His story contradicts, as told by the witness, as to length of time his brother lived after receiving his wound. The state has shown beyond a doubt that the defendant's story of the affair was impossible. The theory of the defense is hard to predict.

White Rock—Mrs. Carrie Nation, of Topeka, Kan., arrived here by mistake Tuesday morning. She spoke at the Big Stone Lake Chautauqua last night and was due to speak at Fairmount, Minn., tonight. She took the wrong train and started for Fairmount, N. D., getting off here to await the night passenger. She spoke here at 2:30, out of doors.

Pierre—One rancher in Lyman county, west of the river, reports that the first cutting of his alfalfa yielded a return of two and one-half tons an acre, and he estimates that the second cutting will exceed this in amount.

Big Stone—Monday was Carrie Nation day at the Big Stone Lake Chautauqua, and it was a big day in every respect. A large crowd was present to meet her and almost without exception those present were agreeably disappointed. They came to see a freak, and went away feeling that Mrs. Nation's whole heart and soul were in the work, and that she had said a great many very good things. She held vast audiences both afternoon and evening.

Huron—Up to this time nothing definite has been learned as to the whereabouts of Mrs. George McEtheron, whose disappearance on the 17th caused so much excitement, and whom it was reported had been drowned in the James river. Later developments clearly indicated a well-laid plan for elopement with the hired man, Roy Underhill, employed on the McEtheron stock ranch. All manner of rumors are afloat; but officers say they have no positive knowledge of the hiding place of the woman.

IN MICHIGAN.

Arrangements Completed For Reunion of Upper Peninsula Vets.

Calumet—The seventh annual reunion of the Upper Peninsula Veterans' association will be held in Ishpeming July 9 and 10. The railroads will offer reduced rates, and delegations are expected from almost every point in this section of the state. A long list of distinguished visitors will be present, including Governor A. T. Bliss of Michigan, Congressman Charles D. Sheldon of this district, Col. O. A. Jones, of Detroit; Gad Smith, of Marquette; H. C. Fifield, of Ohio, and many others.

Sault Ste. Marie—One of the boldest things that has happened in the Canadian Soo for a long time is the stealing of two Indian girls from the government home, Wawanosh. The girls were the prettiest in the institution, and it is feared they were taken for a bad purpose.

Menominee—Sheriff Stiles received a telegram from Hermansville that there had been a $900 burglary committed there. He has not yet found the thief. The theft was committed by a stranger, who entered the room of Mike Kipoldi and another laborer and took the money, which was in a small box.

Former Alderman Joseph Walker, of Marinette, at one time president of the Vessel oaders' union has been adjudged insane and will be taken to the asylum at Oshkosh.

Stephenson—Rev. Father Baith is probably the only priest in the United States who combines with his church duties those of a manager of an opera house. Some time ago the congregation built a handsome new church at the cost of $16,000. Stephenson had no theater, and business men petitioned Father Baith to allow them the use of the old church as a place for entertainment. He complied with the request, and so successful has the idea been that the father recently purchased scenery and fitted up a first-class stage in the old church building, and now has a full-fledged opera house. Brown's comedy company opened the new theater last week.

ITASCA CONVENTION.

Grand Rapids, Minn., June 25.—The Republican county convention yesterday elected the following delegates to the state convention: R. W. Faulkinhor, I. D. Rassmussen, W. C. Tyndall, D. M. Gunn, H. R. King, W. C. Gilbert, L. F. Knox and George H. Spear. The convention provided for a county campaign committee and named D. W. Gunn member of the congressional committee from Itasca county. A resolution to endorse J. Adam Bede for congress was voted down.

IS HONORED.

Farewell For Rev. K. S. Lundin of Swedish Baptist Church.

The First Swedish Baptist church was crowded to its doors last night at the farewell reception given by the congregation to its departing minister and his family. It was an evidence of the high esteem in which Rev. Lundin is held by the church he served for nearly seven years.

The other Swedish Baptist churches of the head of the lake and their pastors were invited, and there were present: Rev. F. Linden, Rev. C. A. Aldeen and Rev. D. Lofstrom of Superior. The church was handsomely decorated.

Rev. Mr. Linden, of the Bethel Baptist church, was the first speaker on the program. He dwelt on the importance in Christian work of co-operation between the pastor and congregation, and paid a high tribute to Rev. Lundin.

Rev. C. A. Aldeen and Rev. D. Lofstrom spoke in complimentary terms of Rev. Lundin. The latter studied with him three years at the Theological school in Morgan Park, Chicago.

J. Bergquist spoke on behalf of the congregation, and said that great work had been done spiritually and financially through the earnest efforts of Rev. Lundin during his pastorate.

In a neat speech, O. Lingwall presented Mr. and Mrs. Lundin with an envelope containing about $100 as a mark of the high esteem in which the congregation holds its departing minister.

At the close of the program, Rev. Lundin made a few remarks, thanking them for the the tender devotion and sympathy he had always received at the hands of his congregation and friends, and especially for this touching reception. He spoke encouraging words to the various branches of the church, urging them to be faithful in their work for the Lord. The church choir and a mixed quartet rendered several fine selections.

Rev. and Mrs. Lundin will leave this evening, at 6:45, on the South Shore road, for their new field of work at Iron Mountain, Mich. He will become pastor of the Swedish Baptist church at that place.

Temperance Meeting.

The third union meeting of the Scandinavian Christian Temperance union will be held at Lincoln park, Sunday afternoon, at 3 o'clock. There will be an address by Rev. A. F. Elmquist, of the Bethany Lutheran church, on "The Temperance Education Laws of the United States." There will be singing by the Orpheus choir under the direction of Professor Lundholm. In case of rain the meeting will be held at Zion Norwegian Lutheran church.

F. J. CHENEY & CO., Toledo, Ohio.

Sold by druggists, 75 cents.

Hall's Family Pills are the best.

MALARIA An Invisible Enemy to Health

Means bad air, and whether it comes from the low lands and marshes of the country, or the filthy sewers and drain pipes of the cities and towns, its effect upon the human system is the same.

These atmospheric poisons are breathed into the lungs and taken up by the blood, and the foundation of some long, debilitating illness is laid. Chills and fever, chronic dyspepsia, torpid and enlarged liver, kidney troubles, jaundice and biliousness are frequently due to that invisible foe, Malaria. Noxious gases and unhealthy matter collect in the system because the liver and kidneys fail to act, and are poured into the blood current until it becomes so polluted and sluggish that the poisons literally break through the skin, and carbuncles, boils, abscesses, ulcers and various eruptions of an indolent character appear, depleting the system, and threatening life itself.

The germs and poisons that so oppress and weaken the body and destroy the life-giving properties of the blood, rendering it thin and watery, must be overcome and carried out of the system before the patient can hope to get rid of Malaria and its effects.

SSS S. S. S. does this and quickly produces an entire change in the blood, reaching every organ and stimulating them to vigorous, healthy action. S. S. S. possesses not only purifying but tonic properties, and the general health improves, and the appetite increases almost from the first dose. There is no Mercury, Potash, Arsenic or other mineral in S. S. S. It is strictly and entirely a vegetable remedy.

Write us about your case, and our physicians will gladly help you by their advice to regain your health. Book on blood and skin diseases sent free.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

DULUTH MUST ACT

If Naval Training School Is Wanted, Work Is Necessary.

Other Cities Along the Lakes Are Competing For It.

Report That School Will Be One of Country's Best.

A naval training school is to be established on the great lakes at some place not yet decided on.

Other lake ports are making a hustle for the location, but as yet Duluth has done nothing.

The training school will be similar to that at Newport, R. I., where young men are taken and put through a course of practical instruction second only to Annapolis.

The object is to get competent men in the navy to act as non-commissioned officers. The graduates of the naval training schools, however, are eligible to the commissioned grades of the service.

It is reported from Washington that the school on the great lakes will be one of the finest in the country and the port that secures it will have an institution that will make the city famous in naval circles in years to come.

It has been suggested that Duluth citizens get together and make an extraordinary effort to secure the station for Minnesota Point. In this connection it is urged that Duluth has the best location of any port along the chain of lakes. The harbor is the best and especially well fitted for the work of naval instruction. Admiral Schley is said to have remarked this some years ago when he visited this port at the head of a board of naval survey.

If Duluth gets the proposed training station it will have to word hard against the lobbying of Cleveland, Detroit, Chicago and Buffalo. These cities are already mentioned but there is not one of them that can offer the natural advantages for such an institution that Duluth can.

ARE SOLD.

Yards and Remains of Glenmont Company's Plant Disposed of.

The yards and remains of the mill of the Glenmont Lumber company at Cass Lake, have been sold at public auction to satisfy a mortgage of $19,000 on the property, held by the Scanlon-Gipson Lumber company, of Minneapolis, for which the Glenmont company was cutting lumber on contract at the time the mill burned. The property brought $10,500 at auction. The mill site at Cass Lake is said to be one of the best in Northern Minnesota and it is quite likely that the Brooks-Scanlon people will build.

The Brooks-Scanlon company had a small-sized strike on among its yardmen a few days ago. About forty of the men decided that they were not getting enough pay and walked out. They were getting $2 and asked $2.25. The company refused to meet the demand, discharged all the strikers and filled their places with new men. Later a few of the men were taken back at the old wages.

The work on the logging road, which was delayed a number of days because of wet weather has been resumed and the track has been ballasted for quite a distance.

A large amount of logs have been driven down the river to the big mill at Scanlon so that the company is not depending entirely on the logging road to supply it and the work of grading the road can be facilitated.

DOING WELL.

Wheat In Northwestern States Is In Good Condition.

Wheat is progressing well in Northwestern states, according to the crop reports for the week ending Monday last that have been so far received. The North Dakota report is as follows:

"The past week has been unusually wet, with comparatively low temperature and frosts in most sections Friday and Saturday nights, doing only slight damage to grain, however, some early flax being cut down. Gardens suffered the most, in some places the tender vegetation in them was totally destroyed.

"Wheat is in very good condition in all parts of the state; in the southern portion that sown early is beginning to head. It has stooled well, and the plant is generally healthy and vigorous, and completely covers the ground.

"Oats are likewise in an excellent condition. They have come up more evenly than usual, and never promised a better crop than they do at this time.

"Flax, millet and barley seeding is still in operation, and will probably be until the end of this month. Early sown flax is up, but in the bottoms and on low land the plant is sickly and turning yellow, but as a rule it is either up or coming up and growing fast, although it would be benefited by warmer weather.

"Corn is backward in all sections; the weather has been too cold for it, and there has also been more rain than it needed. It has come up well; in the southern sections it is large enough to cultivate, but needs plenty of warm, dry weather for a couple of weeks.

"Grass, as a rule, never was more plentiful at this time of the year than it is now. While millet is being sown as a forage crop, there is an abundance of wild grass, promising a large supply of hay."

The Minnesota report says:

"There has been no rain in the extreme southwest during the week, and though showers were general elsewhere on the 17th, 19th and 20th, and there were light showers in the Red River valley on the 16th, the total rainfall for the week was small in the southern half of the state and in the Red River valley. The weekly rainfall in Becker, Douglas and Wilkin counties were the largest reported, and these ranged only from 0.75 of an inch to 1 inch. The temperatures during the week were low for the season, and on the morning of the 21st it is probable that severe frosts would have been general if there had not been fresh winds during the night; in the southwestern counties the winds were light, and frosts caused temporary injury to corn, young flax, gardens and millet.

"The cool weather has retarded the growth of corn, which is generally rather small. The week has been favorable for the cultivation of corn and potatoes. Potatoes are doing very well, and the earliest have tubers large enough for use.

"The dry, cool weather has been beneficial for the small grains and they continue in a vigorous condition, though there is fear of lodging on rich soils; a little rust is said to have appeared in some southern fields. In the southwest early wheat is beginning to head, and elsewhere heading will soon be general; early oats are also beginning to head. Barley is heading; early flax is in bloom, and rye is beginning to turn color. Clover cutting is begun, and timothy is coming into blossom; haying will be general before the end of the month. The crop of wild grass is large. In the Red River valley the fields of late seeded wheat are very weedy, and a few of them have been plowed and seeded to flax."

SLEEP FOR BABY AND REST FOR MOTHERS

Sleep for Skin Tortured Babies and Rest for Tired Mothers, in Warm Baths with

Cuticura SOAP

And gentle applications of Cuticura Ointment, purest of emollients and greatest of skin cures, to be followed in severe cases by mild doses of Cuticura Resolvent Pills. TO SAW IT.

Recent Purchase of Timber to Be Cut By Akeley & Sprague.

Akeley & Sprague, a Minneapolis lumber firm, has recently made some white pine purchases on the north shore of Lake Superior that aggregate about 100,000,000 feet. The purchase is said to have been made from several parties, some of them residing in this city. The timber is said to be located along a number of good driving streams down which the logs will be floated to Lake Superior and then rafted across to Washburn, Wis., to be sawed at the company's mill.

The mill has an annual capacity of 50,000,000 feet, and at the present time is sawing on a contract with the Edward Hines Lumber company, of Chicago. Akeley & Sprague will saw the logs for the firm's own business. The timber is said to be of an excellent quality and much of it will average as high as three logs to the thousand feet, a somewhat unusual size for white pine logs in that section of the country.

Spring fever is another name for torpid liver and inactive bowels. DeWitt's Little Early Risers remove all danger by stimulating the laiger, opening the bowels and cleansing the system of impurities. Safe pills. Max Wirth.

Whence comes this mighty far-reaching power that enables Rocky Mountain Tea to make such wonderful cures. Try it and see. Ask your druggist.

WASSAVED BY PLUCK

An Exciting Incident of the Opening of the Yukon.

Capt. Jack Williams Had Narrow Escape From Rushing Ice.

The Ice Was Four Hours Passing Through a Gorge.

Tacoma, Wash., June 25.—The upheaval of the ice that binds the Yukon is always fascinating and exciting, but no greater and more spectacular scene in connection with the breaking has been chronicled than that at Five Fingers rapids several days ago. The high, rocky pillars that stand as barriers at the rapids choked with ice, and for days sustained a weight of hundreds of thousands of tons of ice and blockaded water, which, when it broke, tore through the gorge with terrific force and a speed of thirty miles an hour in wildest tumult.

All the rocky barriers that form the channel and the "Fingers" were sustaining an untold weight of ice and water, gathered there as the result of the flow of days from the upper Yukon. The water spread far up the stream, and threatened to overflow the banks, and there is no telling what might have been the result had not the government blasted the keystone of ice from the lower portion and opened the gorge.

Capt. Jack Williams, of the White Pass company, fired the charge which opened the jam. He was standing in front of the "Fingers" and yet on a piece of ice when the telling shot was fired. With unexpected suddenness the the great mass of blockaded matter forced the situation, and Williams was sent swirling down the stream before the cracking, maddening tumult of escaping waters and chaotic ice floes. Fortunately, he was swept to the base of one of the cliffs, and there found a narow niche in which to cling. He seized the projecting wall and sprung to the niche, and with his back turned to the bluff and facing the wild procession of the elements, he stood in fear and trembling. One solid hour he stood on that rock, and the grinding, crunching and plunging ice went past him in merciless roar.

Williams' fellows had gone to the lower end of the rapids, expecting to see him on some ice floes far down the stream, or, perhaps, most likely, not to see him at all. Walter Wensky, German consul at Dawson, happende along at that time, and, with a strong field glass, scanned the cannon. Wensky went up stream instead of down, and soon located him in the niche.

The roaring of the rushing ice and water through the rocky gorge made it impossible to hear any one speak in the vicinity of where Williams stood and be heard. It was all men could do to hear one another when they stood together. The tremendous force of miles of ice and water above the "Fingers" was driving the water through the gorge at the hurricane speed of thirty miles an hour. It was one wild, plunging race, of which Consul Wensky says:

"Never in my life had I seen such a spectacle of grandeur, such a magnificent demonstration of nature's physical forces exerting their awful power. If ever there was a scene awe-inspiring in its effect on man, this was one.

"There being no time to lose in an effort to save Williams, we rushed up the river, and after traveling some distance came to where we could shout across to a wood camp. A man named Ebo was there, and he heard us. We told him of the predicament and he took a rope and went to the rescue. The line was made fast and dropped fifty feet over the bluff. It fell within the reach of Williams and he seized it. A few seconds later he was dangling from the line and swinging in mid-air as he desperately fought and climbed for life. The struggle did not last long. Muscular and active that he was, Williams soon scaled the cliff and was safe.

"The intensity of that grand escaping flood and jam thrills me yet. The ice was four hours passing through the gorge. It was swollen to fifteen feet above the normal level of the river as it made its escape, and went on plunging and grinding with the fury of a monster. Far below the rapids the river traveled at great speed, cutting away in the distance around bends of the stream with the white-mailed turbulent crest as far as the eye could reach, running until finally worn out and exhausted miles away."

It's the well-spring of joy. The center around which happy home life centers. Rocky Mountain Tea. That great family remedy that makes home happy. Ask your druggist.

AT CASS LAKE.

Improved Conditions Result From Passage of Morris Bill.

Cass Lake, Minn., June 25.—(Special to The Herald.)—The improved business condition in Cass Lake since the passage of the Morris bill, last week, is truly wonderful. The average Cass Lake citizen, after three years of patient waiting and hoping that something would be done looking toward the opening of the valuable agricultural lands embraced within the Chippewa Indian reservation, is inclined to become boisterously joyful. Instead of a vacant stare, bothered by possible financial ruin, the citizen now has a bright vision and walks with a brisk step that betokens extreme satisfaction. Already are a large number of people coming into the village, looking for investments, and also to look over the land in this vicinity. During the past three days there have been many transfers of village property, and the prices paid have invariably been a substantial increase, of at least 25 per cent, over the original price paid.

A large crowd is expected on Thursday, Friday and Saturday of this week, when the eighth annual tournament of the Northern Minnesota Firemen's Tournament association will be held here, and on the Sunday following, June 29, when there will be three special trains run into Cass Lake, two from St. Cloud and Melrose, and one from Grand Forks. For the tournament a rate of a fare and a third for the round trip to Cass Lake has been granted by the Great Northern, and for excursion day a single fare will suffice.

Several new blocks are already under way of erection, and many more will follow. The future welfare of the community is assured, and the prediction is freely made that Cass Lake will within the next year rank as the leading city of northeastern Minnesota, outside Duluth and Brainerd.

SAVED FROM AN AWFUL FATE.

"Everybody said I had consumption," writes Mrs. A. M. Shields, of Chambersburg, Pa. "I was so low after six months of severe sickness, caused by bay fever and asthma, that few thought I could get well, but I learned the marvelous merit of Dr. King's New Discovery for consumption, used it and was completely cured." For desperate throat and lung diseases it is the safest cure in the world, and is infallible for coughs, colds and bronchial affections. Guaranteed bottles 50c and $1.00. Trial bottles free at W. A. Abbett's Drug Store.

FLOAN, LEVEROOS & COMP'Y

AT VILLA MARIA.

The June Musical and Other Happenings.

Frontenac, Minn., June 25.—The June musical of vocal, piano and violin numbers was given by the following young ladies and little girls: Miss Mabel Collins, '02, Grand Forks, N. D.; Miss Elva Mansfield, '02, Duluth; Misses Mayme Hitchcock, '02, Gertrude McGraw, Madge Morrill, Marie Huhn, Evelyn Meyer, Beatrice Bown, Minneapolis; Misses Mary Mulligan, Evelyn Treglgas, Mary Cox, Luella Warren, Margaret Mulligan, Florence Garrett, St. Paul; Miss Elizabeth Hunt, Fergus Falls; Beulah Garrard, Frontenac; Miss Gertrude Gilbert, Grand Rapids; Miss Aurora Blair, St. Louis, Mo.; Miss Margaret Grandy, St. Thomas, N. D.; Gladys Johnson, Minneapolis, and Rose Rush, Bigstone, S. D.

The Atheneum closed this year's entertainments with the closet scene from "Hamlet," and the court scene from "The Merchant of Venice." After the latter the audience were offered of all refreshments of the year the very dantiest and best.

Father Jager, of Minneapolis, assisted by Father Kaesen, of St. Paul, gave Marie Huhn her first holy communion recently. Mr. and Mrs. Anthony Huhn and their son Alexander spent the day with Maria. Some days later Miss Mary Cox, of St. Paul, Miss Hortense Le Roy, of Duluth; Miss Bessie O'Neil, of Belle Creek, and Miss Maria Huhn, were confirmed at St. Mary's church, Lake City, by Bishop Cotter, of Winona, who was assisted by Fathers Gallagher, Gaughan and McAuliffe. The reverend clergy paid the villa a visit in the afternoon.

"I suffered from dyspepsia and indigestion for fifteen years," says W. T. Sturdevant, of Merry Oaks, N. C. "After I had tried many doctors and medicines a friend persuaded me to try Kodol. It gave immediate relief. I can eat anything I want now and my digestion is good." Max Wirth.

SPOKE TOO PLAINLY

Marriageable Girls of Debating Society Are Disliked.

Bachelors of Bay Side, L. I., Publicly Criticised By Them.

One, Who Is Free With Money, Met Their Approval.

New York, June 25.—The young ladies' single blessedness debating society of Bay Side, L. I., has stirred up a sensation which threatens to paralyze the social life of the town for many a day to come. With two or three exceptions the marriageable young men of Bay Side are not on speaking terms with members of the Methodist Episcopal church.

The parents of many of the young men are also inclined to say harsh things concerning the young women. Rev. Henry C. Millington, pastor of the church, comes in for his share of the censure.

The society met in Literary hall, Bay Side, last Thursday night. Circulars had been posted about the town announcing that the subject of debate would be "The Matrimonial Question." The bachelors of Bay Side were particularly invited to be present, with the assurance that the debate would interest them. Many of the best people in Bay Side were present.

Among the young women who took part in the debate were Misses Frances Easton, Marion Hendrickson, Missouri Martin, Florence Cristen, Carrie and Regina Shatter and Lucy Lange. The merits of each of the eligible young men present were openly discussed from the platform, for the edification of all present. In many instances the individual was dwelt upon at length.

"He has such lovely eyes," was said on one candidate. "But he thinks he's handsome and that everyone is in love with him," interposed the second critic.

"And he smokes cigarettes," added a third.

Many of the young women, it is said, came much nearer the truth than they intended. The blushing young men became fearful that more was known concerning them than they had suspected.

"Jimmy" Dayton, a young lawyer, was the only one of Bay Side's young men who met with the full approval of the society. He has an office in the city.

"He's very genile and refined," commented the first critic.

"And he's got plenty of money and isn't afraid to buy soda water," chimed in another. "And yet he's not a spendthrift," added a third.

It was decided that Mr. Dayton was intelligent, handsome, modest, interesting, ambitious, discreet; that he had a manly form, a classic face, good teeth, heavenly eyes, a winning smile and small and shapely hands and feet; that he was polite, kind, truthful and honest; that he did not wear a Panama hat; that he did not wear a Panama saloons, and that he alone of all the bachelors in Bay Side was worthy the confidence and encouragement of its marriageable young women.

Mr. Dayton is making a strenuous effort to kee up his reputation and appear modest. All the other bachelors are busy trying to think up mean things to say about him.

HARVARD WON FROM YALE.

New Haven, Conn., June 25.—Harvard defeated Yale yesterday afternoon in the commencement ball game and the defeat greatly dampened the Yale enthusiasm manifested prior to the game. Many of the classes that returned for reunion marched around the diamond headed by brass bands. Attendance, 10,000. Score:

Yale	0	0	1	2	1	0	0	0	0	4	8	3
Harvard	1	0	3	0	0	3	2	1	0	10	13	2

McKelvey, Curran and Winslow; Clarkson and Mill. Umpire, Lynch.

PRISONERS ESCAPE.

Six Get Away From Jail at Oconto, Wis.

Oconto, Wis., June 25.—Six prisoners who were bound over to the November term of the circuit court on a charge of robbery broke jail early yesterday. They made their escape through a hole drilled through a solid brick wall. At the trial they gave their names as John Lane, Thomas Ward, James Scott, Ed Hogan, F. F. McCormick and James Hoy. Two of the men have since been identified as "Dad" Flynn and "Lefty" Fitzgerald, who were arrested this spring on a charge of robbery of a postoffice in Rock county.

Piles always yield to DeWitt's Witch Hazel Salve. Cures skin diseases, all kinds of wounds. Accept no counterfeits. Max Wirth.

Dance at Oatka this evening—Lisbon Orchestra.

BRIEF TELEGRAMS.

In a fight Tuesday night between half a dozen Finlanders near the Central theater, at Hurley, Wis., Jacob Mendola shot and fatally wounded a man whose name is unknown. Mendola fled to the woods, but was captured and lodged in jail. The Finns came from Ironwood.

Fire destroyed twenty or more residences, covering an area of three blocks in East Dallas, Texas. Several firemen were injured or overcome by heat, but none seriously. The loss is $75,000, with insurance of less than half.

The supreme court has armed the constitutionality of the Michigan statute forbidding the manufacturers and sale of colored oleomargarine and sustained the convictions of George W. Rotter, A. Petoskey, grocer, who was convicted of selling the colored article.

Chicago to New York In Twenty Hours.

The Pennsylvania Special—the new trains over the Pennsylvania Short Lines established June 15th—runs on that schedule, leaving Chicago Union Station 12 noon daily. For reservations and information, apply to H. R. Dering, A. G. P. Agt., 248 South Clark street, Chicago.

FIRE AT PORTLAND, ORE.

An Entire Block of Frame Buildings Destroyed.

Portland, Ore., June 25.—Fire last night destroyed an entire block of frame buildings bounded by Seventh, Park, Glisan and Hoyt streets. Thirty-five horses belonging to the Wakefield-Morse Transfer company burned to death, among them three valuable pacers. A number of people asleep in the Park lodging house escaped with great difficulty.

The total loss is about $35,000; insurance, $20,000.

No need to fear sudden attacks of cholera infantum, dysentery, diarrhoea, or summer complaint, if you have Dr. Fowler's Extract of Wild Strawberry in the medicine chest.

BOYS SAFE.

Newsies Lose Their Hats But Save Their Persons.

Five hundred Duluth newsboys spent today at Fond du Lac.

They met in the circulating department of The Herald at 7:30 this morning, where they were formed in line and marched to the Fifth avenue west dock.

The steamer Newsboy was appropriately chartered for this excursion and the hustling crowd of boys was taken to Fond du Lac and return without accident.

In point of attendance the picnic this year was fully equal to any of previous years. The boys seemed to enjoy themselves immensely.

Five carrier pigeons from the loft of Henry Flynn accompanied the newsboys. One of the birds made the flight from Fond du Lac to the loft, a distance of eighteen miles, in about twenty minutes.

The message it carried announced that on the trip up the St. Louis river several hats were lost overboard, but no boys. The youngsters enjoyed themselves dancing and singing.

The Newsboy was sighted on the return trip about 2 o'clock this afternoon. The newsboys, while having a good time, were exceedingly anxious to be back in the city in time to keep their evening engagements with customers.

CONTRACT LET.

Silberstein & Bondy Addition Is to Be Built.

The contract was let this morning for the fine addition to Silberstein & Bondy's big store. Pearson & Fawcett were the successful bidders and will push the work along as rapidly as possible.

Another story will be added to the present building, and there will be considerable remodeling, so that when the building is finished, early in the fall, it will be one of the best equipped of modern retail dry goods houses.

The enlarging of this store and the extensive improvements to the present building is made necessary by the growth of business making such an urgent demand for more room.

SENT FREE TO MEN

Free Trial Package of This New Discovery Mailed to Every Man Sending Name and Address—Quickly Restores Strength and Vigor.

Free trial packages of a most remarkable remedy are being mailed to all who will write the State Medical Institute. They cured so many men who had battled for years against the mental and physical suffering of lost manhood that the institute has decided to distribute free trial packages to all who write. It is a home treatment and all men who suffer with any form of sexual weakness resulting from youthful folly premature loss of strength and memory, weak back, varicocele, or emaciation of parts can now cure themselves at home.

A. E. ROBINSON, M.D., C.M.
Medical Director.

The remedy has a peculiarly grateful effect of warmth and seems to act direct to the desired location, giving strength and development just where it is needed. It cures all the ills and troubles that come from years of misuse of the natural functions and has been an absolute success in all cases. A request to the State Medical Institute, 636 Elektron building, Ft. Wayne, Ind., stating that you desire one of their free trial packages will be complied with promptly. The institute is desirous of reaching that great class of men who are unable to leave home to be treated and the free sample will enable them to see how easy it is to be cured of sexual weakness when the proper remedies are employed. The institute makes no restrictions. Any man who writes will be sent a free sample, carefully sealed in plain package so that its recipient need have no fear of embarrassment or publicity. Readers are requested to write without delay.

AT HARVARD.

President Roosevelt to Get Degree From Alma Mater.

Boston, June 25—President Roosevelt, who comes to Boston to attend the commencement exercises of his alma mater, Harvard university, arrived here this morning. He was received at the station by Governor Crane. The president's visit had been anticipated, and a committee, representing the commonwealth, including Adjt. Gen. Dalton and Col. W. F. Brigham of the governor's staff and Gen. Curtis Gully met Mr. Roosevelt as he crossed the border of the state. At the station in Boston the governor greeted the president and under escort of the first battalion of cavalry, the governor's bodyguard, he was accompanied to his hotel. The president intended to remain in Boston only today, but a varied program was before him, including his attendance at Harvard commencement, where a degree was to be conferred, his appearance as a guest at the Harvard alumni dinner, at the banquet of the Spanish war veterans, at the Algonquin club early in the evening, and at the banquet of the International Association of Press Clubs later. It was the president's plan to depart at midnight for New London, where tomorrow he would witness the annual boat race between Harvard and Yale.

FIRE AT ST. PAUL.

St. Paul, June 24.—(Special to The Herald.)—Fire at noon today destroyed the wall paper and paint establishment of the P. H. Sims Co., 386 North Prior avenue. The loss will figure between $8000 and $10,000. The Sims company carried a large stock, and their loss will be about $8000. The upper floors were occupied by Doctors A. Henderson, B. A. Phillips and F. E. Horsnell. The building was damaged $2500.

SOUTH DAKOTA STORM.

St. Paul, June 25.—(Special to The Herald.)—Last night's storm was severe in the vicinity of Hudson, S. D., Chatsworth and Beresford. All telegraph and telephone wires are prostrated and reports are in complete.

UNDERTAKING AND EMBALMING.

ELKS, ATTENTION!
Meet at Elk Hall, 1:30 p. m. Thursday, to attend funeral of Brother Albert Gasser.
JOHN COX, E. R.

TOO LATE TO CLASSIFY.

OUR BODIES ARE PROTECTED, THE face and hands neglected. No wonder skin improves, revives, clears; using Satin-Skin Cream and Powder. 25c.

The demolition of several houses and the killing of one person, besides immense damage to crops are among the uncertain reports from that district.

ALL UNTRUE

Are Reports of Desperate Condition of the King.

London, June 25, 8 p. m.—The reports which are again being circulated in New York of King Edward's desperate condition are untrue. Sir Thomas Lipton spent an hour at Buckingham palace this afternoon and the Associated Press has his authority for making a statement.

"The chances yesterday," said Sir Thomas, "were decidedly against his recovery, but you can say that at 2 o'clock he was doing well. His majesty's physicians are satisfied with his progress. The chances were then in his favor."

The King's mind is entirely clear and, while Sir Thomas was at the palace, he received word that it was his majesty's wish that the arrangement for the dinner for the poor of London, July 5, should be proceeded with. Before tomorrow morning over 500,000 invitations will have been sent out. The dinner involves the employment of over 8000 stewards, an army of waiters and 1500 music hall entertainers.

All the arrangements are in Sir Thomas Lipton's hands and it can be imagined that he would not proceed with the final arrangements unless he and others were confident of being able to carry them out.

The prince of Wales held a reception of the colonial premiers at St. James' palace in behalf of the king this afternoon.

Tonight's issue of the official gazette will contain the coronation honors. Among the titles conferred is a baronetcy on Sir Thomas Lipton.

7:20 p. m.—The private secretary of King Edward, Sir Francis Knollys, said at 7:15 p. m. that his majesty continued to improve and that everything was going on satisfactorily.

ON STATE ISSUES

Will Pennsylvania Democrats Fight the Fall Campaign.

Erie, Pa., June 25.—The Democratic state convention was held here today for the nomination of a ticket for state offices to be filled in November. The platform makes no reference to national questions, which indicates that the convention will be made strictly on state issues. The only office for which there was a contest was governor. The candidates were ex-Governor Robert E. Pattison, of Philadelphia; ex-Congressman J. A. Kerr, of Clearfield; George W. Guthrie, of Pittsburg, and Col. John A. Woodward, of Bellefonte. Ex-Judge John C. Reyburn, of Armstrong county, was unopposed for lieutenant governor, and Senator William E. Miller, of Carlisle, had a clear field for secretary of internal affairs.

NYGOOD DEAD.

St. Paul, June 25.—A Hurley, Wis., special to the Dispatch says: Jack Mann shot John Nygood last night. The latter died today. The murdered is in jail. Both are Finns.

MRS. IDA L. ROSER

Grand-Niece of Ex-President James K. Polk, Writes to Mrs. Pinkham Saying:

"DEAR MRS. PINKHAM:—I have been married for nearly two years, and so far have not been blessed with a child. I have, however, suffered with a complication of female troubles and painful menstruation, until very recently.

MRS. IDA L. ROSER.

"The value of **Lydia E. Pinkham's Vegetable Compound** was called to my attention by an intimate friend, whose life had simply been a torture with inflammation and ulceration, and a few bottles of your Compound cured her; she can hardly believe it herself to-day, she enjoys such blessed health. I took four bottles of your Compound and consider myself cured. I am once more in fine health and spirits; my domestic and official duties all seem easy now, for I feel so strong I can do three times what I used to do. You have a host of friends in Denver, and among the best count, Yours very gratefully.—MRS. IDA L. ROSER, 326 18th Ave., Denver, Col."—*$5000 forfeit if above testimonial is not genuine.*

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write to Mrs. Pinkham, Lynn, Mass., for special advice—it is free.

REFUSAL JUSTIFIED

Striking Tugmen Cannot Be Compelled to Answer Questions.

General Dumont Answers An Inquiry By Buffalo Inspectors.

When Answers Might Incriminate Themselves Can Remain Silent.

In the early part of the month several of the striking tug men at Duluth were called before Inspectors Monaghan and Chalk to give testimony asked for by the inspectors at Buffalo who were conducting a hearing there, in which hearing the question as to whether the strike was a conspiracy to hinder commerce was involved. The Duluth men declined to testify, on the ground that they might incriminate themselves, and the Buffalo inspectors thereupon wrote to Supervising Inspector General James A. Dumont at Washington asking as to their rights in the matter.

Gen. Dumont answers that they have no right to compel the men to answer questions that might incriminate themselves.

The Buffalo inspectors submitted two questions as follows:

"Has a licensed officer who is charged with violating section 4449 of the United States laws, and is on hearing before this board on such charges, the right to refuse to answer a question material to the inquiry, on the ground that his answer may subject him to the penalty of section 4449?

"When a licensed officer is duly summoned to give testimony before this board in a hearing, and refuses to answer questions which are, in the opinion of the board, material and proper, has the board authority to compel answer under penalty of suspension or revocation of the witness' certificate of license or otherwise?"

Gen. Dumont decides that the answer to the first inquiry must be in the affirmative and to the latter in the negative.

His letter reviews the power of the inspectors to revoke or suspend a license, and holds that the law confers upon them judicial powers empowering them to find certain facts in a judicial way and punish infractions of the law. When a witness is summoned, in Gen. Dumont's opinion, he has the same privileges as any witness in a trial court of competent jurisdiction. When it reasonably appears that the answer sought for to any question will have a tendency to expose the witness to a penal liability, or to a criminal charge, the authorities are clear and explicit that he is not bound to answer.

He says that while a licensed officer on trial can only be subject to the suspension or revocation of his license, the evidence disclosed might show that he has incurred a penal liability for which he would be liable to indictment and punishment.

The officer on trial is, he says, liable to be deprived of his office, together with its salary and its emoluments, and for that reason, when called upon as a witness, he is entitled to the privileges of a witness—to refuse to answer any question that may tend to expose him to a penalty of forfeiture.

DEATH LIST.

New York, June 25.—Charles D. Posten, one of the foremost pioneers of Arizona, who, in 1853, led a party of New Yorkers and opened up the first silver mine ever worked in Arizona by Americans, is dead. He served as Arizon's first delegate to congress. He was a native of Kentucky, where he was once a leading attorney.

New York, June 25.—Mrs. Julia A. Simpson, great grandniece of Charles Carroll, one of the signers of the declaration of independence, is dead here from heart disease. She was 73 years old and was noted for charitable work in connection wi... the women's prison on Blackwell's island.

...ushington, June 25.—Walter S. Cox, formerly associate justice of the supreme court of the District of Columbia, and one of the most distinguished jurists in this section, died here today. Judge Cox presided over the trial of Guiteau for the assassination of President Garfield.

ALL DISCHARGED.

Union Pacific Lets Five Hundred Men Go.

Cheyenne, Wyo., June 25.—The Union Pacific has discharged the remaining 500 men employed in its shops here making 650 in all. This includes thirty boilermakers and helpers who struck. The order discharging the men states the shops are to be closed permanently and the dismantling of the machinery will be commenced at once and everything will be prepared for a long idleness.

The clerical force will be reduced making the reduction in salary $50,000 a month.

ENGINEER SCHULTZ DEAD.

St. Paul, June 25.—A Brainerd, Minn., special to the Dispatch says: E. C. Schultz, the Northern Pacific engineer who was injured in the collision near Staples, died last night at the sanitarium, being the eighth victim of the wreck. His death was sudden, and a post-mortem examination showed a clot of blood on the brain.

SUMMISSION EXPECTED.

Manila, June 25.—Lieut.-Col. Frank B. Baldwin, operating in the island of Mindanao, expects the complete submission of all the datios June 27, when the murderers of the American soldiers will be given up.

DONATION FOR STRIKES.

Indianapolis, June 25.—A cash donation of 50,000 to be used in carrying on the strike in the West Virginia coal fields was received at national headquarters of the United Mine Workers in Indianapolis. It came from the Illinois miners.

Low Rates to the East.

Via the Lake Shore & Michigan Southern railway to Chautauqua and return, July 4th and 25th. $14.00 for the round trip. Portland, Maine, and return, July 5th to 9th; one fare for the round trip; return limit may be extended to Aug. 15th. Providence, R. I., and return, July 7-8-9, one fare for the round trip; return limit may be extended to Aug. 15th. Full information on application to W. B. Hutter, N. W. P. A., 122 Endicott Arcade, St. Paul, or C. F. Daly, Chief A. G. P. A., Chicago.

ORDER TO EXAMINE ACCOUNTS, ETC.—

State of Minnesota, County of St. Louis. —ss.

In Probate Court, Special Term, June 11th, 1902.

In the Matter of the Estate of Charles W. Field, Deceased:

On reading and filing the petition of Charles W. Field, Jr., executor of the estate of Charles W. Field, deceased, representing among other things, that he has fully administered said estate, and praying that a time and place be fixed for examining, settling and allowing the final account of his administration, and for the assignment of the residue of said estate to the parties entitled thereto by law.

It is ordered, that said account be examined, and petition heard by this court on the second day of July, A. D. 1902, at 10 o'clock a. m., at the probate office, in the court house, in the city of Duluth, in said county.

And it is further ordered, that notice thereof be given to all persons interested, by publishing a copy of this order once in each week for three successive weeks prior to said day of hearing, in The Duluth Evening Herald, a newspaper printed and published at Duluth, in said county.

Dated at Duluth, this eleventh day of June, A. D. 1902.

By the Court,
W. G. BONHAM,
Judge of Probate.

(Seal of Probate Court, St. Louis Co., Minn.)

Duluth Evening Herald, June-11-18-25-1902.

Notice to Contractors.

Sealed proposals addressed to the Village Council of Grand Rapids, Minnesota, and endorsed, "Proposals for an Electric Light Plant," will be received by the Village Recorder of the said Village of Grand Rapids until 8 o'clock p. m. of Monday, the 7th day of July, 1902, for the construction of an electric light plant for the Village of Grand Rapids, according to the specifications and plans now on file.

Bonds of the village for the sum of $25,000 have been issued and sold by it, at par, for the purpose of raising funds sufficient to purchase, build, establish and control all necessary buildings, machinery, apparatus and material for making, generating and supplying light for public and private use in said village.

Proposals will be received on the following work:

First—The building.
Second—The machinery.
Third—The electric lines.

Bidders may make in addition a proposal for the entire work.

Proposals will be publicly opened and read at a meeting of the Village Council on the evening of July 7th, 1902. The proposal or proposals which are deemed for the best interest of the village will be accepted.

The right is reserved to reject any or all proposals, and to change any item or items in the specifications.

Blank forms of proposals, instructions to bidders and specifications may be obtained and plans may be seen and examined at the office of the Village Recorder of Grand Rapids, Minnesota, and at the office of Edward P. Buren, Consulting Engineer, 1210-1212 Guaranty building, Minneapolis, Minn. All information will be given on application.

D. M. GUNN,
President.

FRED A. KING,
Recorder.

Grand Rapids, Minnesota, June 14, 1902.

Duluth Evening Herald, June 17 to July 7, 1902.

WHEAT IS WEAKER

Sharp Decline With Duluth as the Weakest Market.

Some Wheat Worked For Export on the Decline.

Eastern Millers Still Buying---Flax Is Quiet and Steady.

Duluth Board of Trade, June 25.—The wheat market started out rather weak this morning and declined further, with very dull trading. The cables were lower and the weather conditions were favorable for the growing crops and harvesting. On the other hand the threshing returns from the Southwest were poor and corn was firm.

The Duluth market was weaker than others and the decline here enabled the shippers to work a few loads of wheat for export. Eastern millers were still in the market today after wheat and got some. The July premium over September declined from 4c to 3½c this morning, however. The Liverpool market closed unchanged to ½d lower. Paris was ¼@⅜c lower and Antwerp unchanged.

Primary receipts of wheat were 348,000 bus, last year 411,000 bus. Shipments 241,000 bus, last year 211,000 bus. Clearances of wheat and flour were 311 000 bus.

July corn and oats contained their advance in the Chicago market today the crop reporting 3c higher and the latter ¾c higher. Primary receipts of corn were 354,000 bus, last year 384,000 bus. Shipments 216,000 bus, last year 177,000 bus. Clearances were 12,000 bus.

Receipts of wheat at Duluth and Minneapolis 273 cars, and at Chicago, 300, a total of 573 cars, against 271 last week and 182 last year.

Trading in wheat on the Duluth floor was very light. The opening for July was ½c off at 76c, and it sold off to 75¾c at 10:30 and 75½c at 11:50, continuing at that price and closing there. This was a decline of 1c, Chicago fell ¾c and Minneapolis ⅝c.

Cash sales were heavier than for some time aggregating 25,000 bus. Prices continued at ½c over July for No. 1 northern, 1c under for No. 2 and 3c under for No. 3.

Flax trading was dead and the market unchanged except for a decline of ¼c in September.

Following are the closing prices:

Wheat: Cash—No. 1 hard, 77¾c; No. 1 northern, 75¾c; No. 2 northern, 74¼c; No. 3 spring, 72½c. To arrive—No. 1 hard, 78¾c; No. 1 northern, 75¾c; July, 75¾c; September, 71⅝c. Manitoba—No. 1 northern, cash, 75¾c; No. 2 northern, 73¾c. Oats—Cash, 46c; September, 31¼c. Rye—To arrive, 59c; September, 53½c. Flax—Cash, $1.70; to arrive, $1.69; on track, $1.70. May, $1.70; September, $1.43; October, $1.38½; cash No. 1 Northwestern, $1.03.

Cars Inspected: Wheat, 31; last year, 37; flax, 5.

Receipts: Wheat, 8874 bus; corn, 13,795 bus; rye, 957 bus; flax, 1080 bus.

Shipments: Wheat, 57,567 bus.

THE CHICAGO MARKET.

Grain Trade Quiet and Inclined to Steadiness.

Chicago, June 25.—Grain trade was quiet and inclined to steadiness at the opening today. July wheat opened unchanged to ½c lower at 74⅝@74⅝c on lower cables and on a somewhat favorable weather map. Threshing returns were poor and very little stuff is being offered from Oklahoma, Kansas, Indiana and Illinois because of doubt as to grade. Corn was firmer and influenced a little improvement in the tone of wheat. July sold to 74½c and steadied. Local receipts were 30 cars, 6 of contract grade; Minneapolis and Duluth reported 273 cars, making a total for the three points of 303 cars, against 311 last week and 182 a year ago.

There was almost no export demand in wheat and on free selling for profits July slumped off to a weak close, ⅝c down, at 73⅝c.

Both July and September corn opened ¼@⅜c higher on higher cables and cold wet weather in much of the corn belt. Receipts were light and because of small contract grading the old deliveries were firm. There was free taking on of September by elevator interests. The July was pushed within ½c of the high price last week. Gossip had it again that the packing house crowd would try a fight against the big bull interests. This bear crowd is supposed to be short 20,000,000 bus of July and September. July opened at 68¾c to 68¾c, sold at 68½c and steadied at 68¾c. September opened at 69¾c to 69½c, dipped to 69¼c, ad advanced to 69⅞c. Receipts were 154 cars, 14 of contract grade.

Corn shorts suffered from the manipulative tactics of the bulls as the session advanced. July was pushed to 69c and a considerable number of short accounts were covered, although there was nothing of the excitement that marked selling at the same price during last week's tumult. The close was firm, 5c up, at 68½c for July, and steady, a shade lower, for September, at 666⅞c.

The good cash demand in oats, with No. 2 white selling yesterday at 51c buoyed up oats futures at the opening. July started ¼c to ⅜c up at 42¾c to 42⅝c. Receipts were 120 cars. Trade was not particularly active, but the tone was strong. There was talk of manipulation in this pit similar to that of the May deal.

Provisions slumped pretty badly early in the session. Hogs at the yards were weaker in general although some fine stock brought $7.85. In the main, however, the animals that are arriving are poor and light. The dip in the hog market gave a good reason for packers to depress products and it was said that the big houses were shifting the load they have been carrying, to the shoulders of the outside bulls. July pork opened 5½c lower, at $18.32½, and sold down to $18.25; September pork, 17½c to 7½c lower, at $18.50 to $18.55, dipped to $18.47½ and rallied to $18.52½. July lard opened unchanged to 2½c down, at $10.67½ to $10.70, dipped to $10.62½, and steadied at $10.65; July ribs were not quoted early. September ribs opened 15c down at $10.62½, and advanced 5c. Close: Wheat—June, 75¼c; July, 73⅝c; September, 71½c; December, 72¾c. Corn—June, 68c; July, 66¾c; September, 66⅝@⅝c; December, 46⅜c; May, 44⅞c. Oats—June, 44c; July, 38⅝c; new, 42⅜c; September, 29¾c; new, 34½c; December, 29½c; new, 34c. Pork—June, $18.22½; July, $18.22½; September, $18.47½; January, $16.44½. Lard —June, $10.57½; July, $10.57½; September, $10.62½@10.62½; October, $10.35; January, $9.27½. May, $9.22½. Ribs—June, $10.07½; July, $10.00; September, $10.00@10.02½; January, $8.50. Tallow—Cash Northwestern, $5.45; Southwestern, $5.44; September, $4.20; October, $4.35. Rye—July, 51¼@51½c; September, 54½c. Barley—Cash, 66@69c. Timothy—September, $4.50. Clover—Cash, $8.35. Cash wheat—No. 2 red, 78@80c; No. 2 red, 74@76c; No. 2 hard winter, 69@71c; No. 3 hard winter, 74@76c; No 1 northern spring, 74@76c; No. 2 northern spring, 74c; No. 3 spring, 68@73c. Corn—No. 2, 66c; No. 3, 65½@66c. Oats—No. 2, 44c; No. 3, 43½c.

GRAIN GOSSIP.

Logan & Bryan, Chicago: Wheat—The market here was quiet and tone was easier. The weather in the Southwest was favorable for harvesting and the cash demand general was quiet. The movement of new wheat so far is slow and opinion vary as to its probable volume. The threshing returns are irregular, but in general they indicate a moderate yield in Oklahoma and Indian territory a small yield in Kansas, and a spotty crop in Missouri. On the whole the returns are disappointing. We do not ourselves look for a large early movement of winter wheat. This market is at the moment somewhat unsettled by the premiums and uncertainty on the July option. We are inclined to think this will all adjust itself within the first few days of the month. There is no reason for a material premium on July wheat.

Corn—Although the closing was a little easy the market throughout the day averaged higher mainly in the covering of shorts. The weather continues wet through the section for corn and the indications are more favorable. A marked improvement in the weather would cause some selling. Local conditions are still congested and prices as a whole are creeping upward. We think December corn should be bought on the breaks.

Oats—There was a sharp advance early, but it brought profit-taking sales and the closing was easy. There is, however, no change in the general situation. Cash oats are scarce and selling around 30c a bus. We see no material sense in September oats selling at such a discount. There is absolutely no stock of contract oats and when the movement of the new crop begins it will undoubtedly be met by a large consumptive demand. We think September oats are a purchase on their merits and of course should anything unfavorable happen to the growing crop they will advance sharply.

• • •

C. M. Boynton, from Creston, Iowa: Our trade advises us that the spring wheat in our territory is practically ruined by rust, and from what we have seen we think the advice is about correct. So far oats have suffered but little damage, and, while corn has not grown much for two or three days on account of cold cloudy weather, the corn is farther advanced than usual for this season of the year, and we regard the prospects for both corn and oats very good. There are a few cars of corn scattered over the territory, but most of it is held for 60c, and we seem unable to buy any under these figures. The hay crop is practically made and will be a good crop.

Temperatures have risen in the central districts and have fallen in the northwest. Showers fell over portions of all districts, heavy as follows: Huron, S. D., 1.54 inches; Grand Meadow, Minn., 1.02; Montevideo, Minn., 1.56; New Ulm, Minn., 2.30; Worthington, Minn., 1.06; Estherville, Iowa, 1.50; Forest City, Iowa, 1.54 inches.

MARKET REPORT.

Received over private wire of B. E. Bak er, grain broker, 507 Board of Trade, Duluth, Minn.

Chicago, June 25.—Trade in wheat was light today and mostly of a professional character. There was some early buying on poor threshing returns from the Southwest, but later there was good selling by both bulls and bears on favorable weather. The market closed weak, July ¾c, September ½c and December ⅝c lower than last night. Liverpool reported the market steady, unchanged to ½d lower for the day. Continental markets were generally lower and especially Paris on the favorable weather. Broomhall cabled crop in France is three weeks late, but this may be regained in a fortnight if the present favorable conditions continue. Prospects point to a good average crop. Cash demand here was rather quiet and the seaboard reported the demand there for export also quiet. We see nothing in the situation to cause any material declines, in fact look upon present prices as low enough, considering the small stocks and prospects of only a moderate winter wheat movement. The world's crops are not harvested yet and there is plenty of time for an accident which could only help the bulls. Estimated receipts for tomorrow, 25 cars.

There was a large and active trade in corn today and the marked ruled firm, principally on the selling by shorts. July ranged from 68¾c to 69c and closed at 68¾c. There was a good demand for September and December during the greater part of the day but free scrolling on the advance caused some setback and the market closed practically unchanged from yesterday. Foreign cables were firmer; Liverpool closed ¼d higher for the day. Country movement is light and cash demand rather quiet. Crop reports are generally favorable, although there are some complaints of too much rain. Estimated receipts for tomorrow, 15 cars.

There was a fairly large weak undertone today and the market ruled strong. Country movement is very light, while the cash demand continues good. No. 3 white sold today from 40c to 50c on track, the highest price of the season. Shorts were good buyers, still there was more or less buying for long accounts, but on the advance there was considerable profit-taking caused a setback. Demand from the East was good. Legitimate situation continues strong, and we look to see prices go still higher. Estimated receipts for tomorrow, 125 cars.

Provisions opened weak on large run of hogs and under pressure to sell by the English packers had a sharp decline and closed materially lower for ribs. Outsiders were buyers early, but liquidated later. There seems now no doubt that one or two important holders have sold most of their product and the steady big run of hogs and accumulations of stocks are having depressing effect on others. Estimated receipts for tomorrow, 35,000 head.

KILLED HIS WIFE.

David Burnside Then Shot Himself Fatally.

New York, June 25.—David S. Burnside, 24 years old, residing in Brooklyn, has shot and killed his wife, Lillian, aged 22 years, in a concert saloon on the Bowery at Coney Island, and then fired a bullet into his own head, with probably fatal effect. The couple had been married two weeks.

TRAMPS FIGHT.

Hoboes Have Lively Scrap on Freight Train.

Evanston, Wyo., June 25.—A number of tramps stealing a ride on a Union Pacific freight had a bloody battle with clubs near here yesterday. As a result one man was taken to Ogden in a dying condition, two others received bullet wounds and several others were badly beaten up. A number of others were thrown or jumped from the fast moving train, all receiving more or less injuries. The cause of the trouble was not learned.

FOUND DEAD IN BED.

Bloomington, Ill., June 25.—Col. Henry G. Reeves, a widely known Republican politician, was found dead in bed here today. He was private secretary to Governor Fifer during his administration and was a member of his staff. He was also prominent in Masonic and G. A. R. circles.

VENEZUELA'S TROUBLES.

New York, June 25.—Advices from Bogota, under date of June 19, reports according to the Panama correspondent of the Herald that President Marroquin, has announced that the forces of Gen. Gonzales Ventura at present in Boyca are not advancing upon the Venezuelan frontier. President Marroquin also brands as false the report that he is preparing for an attack upon Venezuela, although he states that he is always ready to defend Colombian territory against aggression. Mr. Hart, American minister to Bogota arrived at Colon Tuesday morning and came to Panama in the evening. He will leave for Bogota at the first opportunity.

Dance at Oatka this evening—Lisbon Orchestra.

DULLNESS IN STOCKS

Prices Advanced Strongly At the Opening But Declined.

Renewed Firmness at Noon Under Leadership of Coalers.

Gains Nearly Wiped Out Later and Close Was Steady.

New York, June 25.—The tendency of the London market to rally this morning relieved New York from pressure from that source and prices advanced strongly at the opening. Canadian Pacific rose a point and the grangers and Southwesterns generally, Manhattan and Reading rose large fractions. Dealings were quite large and well distributed.

The opening gains were supplemented by further advances, the shorts buying to cover. The Southwesterns were most in demand, but St. Paul and Amalgamated were also bought quite freely. The principal advances included 1¾ in St. Louis Southwestern preferred, 1½ in American ice preferred and St. Joe & Grand Island first preferred, and a point in Amalgamated, Brooklyn Transit, St. Paul, Reading, New York Central and Kansas & Texas preferred. A decline of a point in Sugar weakened the entire list, St. Paul, Brooklyn Transit and Amalgamated lost their rise and the Southwesterns yielded a fraction. Chicago & Eastern Illinois, Great Northern preferred, Ann Arbor preferred and North American lost 1 to 1½. Supporting orders checked the decline.

Small offerings of various active stocks put the list a shade lower, but there was no decided weakness at any point. Delaware & Hudson rose 2½ points, while corn products fell 1¾ and American Lifecle preferred and St. Paul preferred 1¼. Stocks showed renewed firmness at noon under the leadership of the coalers. Reading rose a full point over last night and Colorado Fuel 2. Bonds were steady at noon.

Tennessee Coal made a rise of 1½ and Hocking Valley and Northwestern advanced strongly. Sugar recovered all its early loss. The list generally was firm, but there was very little trading in railroad stocks. Lackawanna sold at 275, unchanged from the preceding sale.

The reaction in Colorado Fuel extended to 2½. Ice lost 1½, the preferred 3½, Iowa Central 1¾, the preferred 2 and Hocking Coal about a point. General Chemical preferred advanced 1½. The general market was dull and sluggish and inclined to run off.

The sale by Colorado Fuel was completely wiped out and that of St. Louis Southwestern pfd nearly so. Canada Southern, Distilling, pfd lost a point each. There was a slight hardening again, but the movement was barely perceptible. St. Paul rose 1¼ over last night. The closing was dull and steady.

Stock quotations reported for The Herald by Edwards, Wood & Co., Room A, Torrey building, Duluth. Closing prices are bid prices:

STOCK GOSSIP.

Waldorf to Edwards, Wood & Co.: Although the heaviness of the market is ascribed to the news of King Edward's illness, the best opinion is that in any event it would have reacted. The very narrowness of speculation is conducive, so traders say, of lower prices. It is probably true that but for the activity of Harris-Gates interest in the market the stagnation would be complete; fully 50 per cent of present business being credited to Mr. Gates and his associates, who are said to have extensive committments on the long side of Reading, St. Paul and Union Pacific. It is pointed out that as stocks are held to an altogether unprecedented extent by railroads this interest has no difficulty in bidding them up. But the public gives no sign of taking hold and it is considered an unfavorable sign that now when bonds should be active in anticipation of July disbursements they are comparatively dull. This is disappointing feature of the situation in evidence not only in bonds but in stocks. It may be that the investments due usually at this season are simply belated and will appear next week; the comment of commission houses is that if it does not prices will reflect its absence.

• • •

Ridgley to W. H. Laidley & Co.: Nobody can predict with certainty the immediate market. Should the illness of King Edward prove fatal it may cause some weakness in securities all over the world, but men would doubtless support our stocks at or near present levels in any event. The other factor which the bears are making free use of is probably tightening of money. The public is not in the market, so a serious decline is not possible. The harvest outlook is good. The men still have their load of undistributed stocks and in self-defense must give the market support when occasion requires. In short I am of the opinion that stocks should be bought on any setback today.

THE COTTON MARKET.

New York, June 25.—The cotton market opened firm, with prices 5 to 6 points up and following the call worked quite sharply upward on a small scramble of local shorts for cover, a change in front by former outside bear interests, foreign buying of the fall months and some demand from commission houses. July climbed to 8.77 and August reached 8.48 before the movement gave any sign of letting up and even then a reaction of 2 to 3 points only occurred. The dominating influences were dry weather reports from Texas and a pronounced advance in the English market. The latter, according to private cables, was due largely to a general movement of the bears for cover, prompted by the four days of adjournment now at hand at a time when the Texas crop was reported in a critical state through long absence of moisture. The New Orleans market contributed to the strength here indirectly, July advancing to 9.00 there, while the trade here, as a rule, had believed the bull clique had abandoned its position.

Cotton spot closed quiet and steady; middling uplands, 9¾; middling gulf, 9¾; sales, none. Cotton futures, steady; June, 9.06; July, 8.74; August, 8.45; September, 8.11; October, 8.00; November, December, January and February, 7.83; March, 7.95.

THE COPPER STOCKS.

Following are the closing quotations of copper stocks at Boston today, reported by Paine, Webber & Co., 308 West Superior street.

Stock.	Bid.	Asked.
Adventure	22½	23
Arcadian	4½	5¼
Allouez	2¾	3
Atlantic	28½	29½
Anaconda	26	27
Amalgamated	63½	64
Calumet & Hecla	585	595
Centennial	17½	18½
Copper Range Con.	53	53½
Franklin	10½	11⅛
Isle Royale	11¾	12¼
Bingham	31½	33
Mass	18¾	19
Mayflower	2⅛	2⅜
National	1½	2
Mohawk	41½	42
Michigan	11¾	12½
Old Colony	2½	3
Old Dominion	19¾	20½
Osceola	60	61
Parrot	28	29½
Phoenix	130	135
Rhode Island	1¼	1¾
Santa Fe	1¾	2
Tamarack	175	180
Tecumseh	2¾	3¼
Trimountain	95	100
Utah	20½	21
Victoria	6	6¼
Winona	4¼	5
Wolverine	54½	55½
Wyandot	1¼	1½
Elm River	3	3½
Trinity	12	13
Dominion Coal	135	136
Daley-West	48	49
U. S. Mining	19	19½
Calumet & Arizona	.....	42½

COPPER GOSSIP.

Boston to Paine, Weber & Co.: The production of silverine this month should exceed 200 tons of mineral. This month closes the fiscal year.

An official from the Daly-West Mining company says: The surplus now held by our company is 300,000 pounds. We are prepared to sink a new shaft in the Quincy mine, where there is more ore than any yet sunk and the production will be largely increased. I do not think it likely that the directors will increase the dividend at the next meeting, but will be done before many months.

• • •

Dow-Jones to W. H. Laidley & Co.: New York copper market easy and about 10 points lower for Lake, which is offered at 12.35, with 12 best bid. Electrolytic offered at 12.00@⅛, 11.90 bid. Casting at 12 spot.

• • •

Boston to W. H. Laidley & Co.: A little more activity was noticeable in the copper market today, but there was very little doing, however, compared with the preceding sale. The reaction in Colorado Fuel extended to 2½. Ice lost 1½, the preferred 3½, Iowa Central 1¾, the preferred 2 and Hocking Coal about a point. General Chemical preferred advanced 1½. The general market was dull and sluggish and inclined to run off.

The sale by Colorado Fuel was completely wiped out and that of St. Louis Southwestern pfd nearly so. Canada Southern, Distilling, pfd lost a point each. There was a slight hardening again, but the movement was barely perceptible. St. Paul rose 1¼ over last night. The closing was dull and steady.

TREASURY BALANCES.

Washington, June 25.—Today's statement of the treasury balances in the general fund, exclusive of the $150,000,000 gold reserve in the division of redemption shows: Available cash balance, $208,710,096; gold, $106,214,609; silver, $24,395,373; United States notes, $10,344,680; treasury notes of 1890, $91,160; national bank notes, $6,725,331; total receipts this day, $2,357,576; total receipts this month, $58,425,999; total receipts this year, $793,155,713; total expenditures this day, $735,000; total expenditures this month, $31,080,000; total expenditures this year, $468,451,797; deposits in national banks, $127,311,981.

NEW YORK MONEY.

New York, June 25.—Close: Money on call, steady, at 2½@3 per cent; closing bid and asked, 2½@3 per cent; prime mercantile paper, 4½@5 per cent; sterling exchange firm, with actual business in bankers' bills at $4.87¾ for demand, and at $4.85¾ for sixty days; posted rates, $4.86¼ and $4.88½@4.89; commercial bills, $4.85¾; bar silver, 52¾c; Mexican dollars, 42¼c; government bonds, steady; state bonds inactive; railroad bonds irregular.

HEARING CONTINUED.

Case Against Striking Tug Men Is Postponed.

The case of H. G. Inman against eighteen of the striking tugmen for hindering commerce was set for today at 10 o'clock. H. R. Spencer appeared for the plaintiff and asked to have it continued on account of the inability of the plaintiff's counsel to be present until next week. He is engaged on a case in Chicago. The defendants wished to go on with the case, or to have it continued until December, when navigation closes. Inspectors Monaghan and Chalk were willing to have the case postponed until next week, or, if the department would permit it, to continue it until December. A motion was made to have the case heard tomorrow afternoon if the plaintiff's attorney is able to get here by that time. If the department agrees to the continuance of the case until December, the prosecution agrees to bear all the cost of the transportation of witnesses.

MINER DROWNED.

Joplin, Mo., June 25.—William Brown, a miner of Minden, Mo., fearful of being lynched for murder of a fellow worker jumped into the Elk river near Lanagan, forty miles from here and was drowned.

DIED FROM WOUNDS.

Kansas City, June 24.—Albert L. Sechrest, who was shot at his home here by Dr. Louis Zorn, a wealthy retired physician, as a result of a dispute over money, died of his wounds and Dr. Zorn has been held without bail.

Scald head is an eczema of the scalp—very severe sometimes, but it can be cured. Doan's Ointment, quick and permanent in its results. At any drug store, 50 cents.

FIGPRUNE Cereal

The Ideal Drink at the Breakfast Table

A delicious beverage having all the satisfying qualities of coffee and tea.
It is made from choice California figs and prunes and selected grain, properly blended by our special process.
By our method of roasting, the starch cells of the grain are not carbonized and 5 to 10 minutes boiling releases the nutritive elements of the cereals.

Figprune is the best Cereal Coffee that nature and science has yet produced.

WE TRUST THE PEOPLE

NEWS OF THE LAKES

Severe Summer Storm Is Predicted For the Lakes.

Captains Warned to Remain In Shelter For a Time.

Heavy Wind and Thunder Squalls Among Possibilities.

Chicago, June 25.—(Special to The Herald.)—Storm signals are flying at lake ports today from Duluth to Ogdensburg. A severe storm is headed for the lake region and will strike Lake Superior and Lake Michigan by this evening. It may be morning before the wind shifts to the northward on Lake Huron and Lake Erie. Lake Ontario may not get the full force of the gale until tomorrow afternoon. From the outlook at noon today, Professor Cox opines that the wind will come nearly straight from the north on Lake Michigan and Lake Superior with a slant to the northeast. Chicago, Duluth and Buffalo may have an hour with thunder squalls and such things, the wind will blow, and perhaps at times may become higher. It will be a bad storm at best for lake vessels and all captains were warned to remain in shelter until the main force of the wind had passed.

HADLEY IS UNLOADING.

The steamer Hadley reached the Pioneer coal dock last evening and the unloading process was continued. The cargo will be unloaded by tonight, when the Hadley will be towed to the dry dock at West Superior for repairs.

Nothing further was done today in the way of examining the wreck of the Wilson or searching for the bodies of the drowned sailors.

PASSED DETROIT.

Detroit, June 25.—(Special to The Herald.)—Up: W. Brown, Fayette Brown, 10 last night; Mohawk, Suttana, 10:20; Livingstone, 11; Mount Clements, midnight; Gliddon, 12:30 a. m.; Jones Mills, 3; Compeller, 2; Sacramento, Matanzas,

STATE OF MINNESOTA, COUNTY OF ST. LOUIS.—SS.
District Court, Eleventh Judicial District.
In the matter of the condemnation of certain lands in township fifty-one (51), north of range fourteen (14) west; township fifty-one (51), north of range fifteen (15) west, township fifty-two (52), north of range thirteen (13) west; township fifty-two (52), north of range fourteen (14) west; township fifty-two (52), north of range fifteen (15) west; township fifty-three (53), north of range thirteen (13) west; township fifty-three (53), north of range fourteen (14) west; township fifty-three (53), north of range fifteen (15) west; township fifty (50), north of range fourteen (14) west, and township fifty(50), north of range fifteen (15) west; according to the government surveys thereof. And in Duluth Heights, Third Division, according to the recorded plat thereof. Park View Division of Duluth, Duluth Proper, Second Division, according to the recorded plat thereof; Bay Front Division of Duluth, First Re-arrangement, according to the recorded plat thereof; Murray Hill Addition to Duluth, according to the recorded plat thereof; and in Randall's Division of Duluth, according to the recorded plat thereof; all in St. Louis County, Minnesota, on the petition of Highland Canal and Power Company.

O. L. Young,—
Respondents.
YOU AND EACH OF YOU, are hereby notified that HIGHLAND CANAL AND POWER COMPANY, a corporation created, organized and existing under and by virtue of title one 1), of Chapter thirty-four (34), General Statutes of Minnesota, for the year 1894, and acts amendatory thereof and supplemental thereto, will, on the 26th day of July, 1902, at 9:30 o'clock in the forenoon, of said day, at a special term at the court house in the city of Duluth and county of St. Louis, state of Minnesota, present to the district court in and for said county, a petition signed by it and in its behalf, by its president and secretary, setting forth a description of a canal and water-way enterprise and enterprise for the generation and distribution of power for public use, which it is about to prosecute in said county of St. Louis, and describing the lands, property, estate and easements which it will be necessary for it to appropriate, take and use for the purpose of such enterprise, in said county, and setting forth also the name of each and every owner, incumbrancer or other person interested in the same, or any part thereof, so far as the same can be ascertained from the public records, and by view of the premises or other inquiry touching the ownership and occupation, and praying the appointment of three (3) competent, and disinterested persons, to ascertain and determine the compensation to be paid to such owner or owners, respectively, and to all tenants, incumbrancers and others interested, for the taking or injuriously affecting such land or real estate.
YOU AND EACH OF YOU will further take notice, that the line of the proposed water-way and power plant, which said company is about to construct, maintain and operate in said county of St. Louis, has been located and its route determined.
The following is a list of the lands proposed to be taken, viz:
The south half of the northwest quarter; the northwest quarter; the northwest quarter of the southeast quarter; the south half of the southeast quarter, and the southwest quarter, of Section 26.
The south half of the northeast quarter; the southeast quarter, and the southwest quarter, at section 27.
The southeast quarter of the southeast quarter of Section 28.
The east half of the southeast quarter of the northeast quarter; the east half; the northeast quarter of the southwest quarter, and the south half of the southwest quarter, and the south half of the northwest quarter, of Section 33.
All of Section 34.
All of Section 35.
The west half of the northwest quarter; the south half of the northeast quarter of the southeast quarter; the south half of the southeast quarter and the southwest quarter of Section 36.
All in Township 53, north of Range 15 west.
The southeast quarter of the northwest quarter of the southwest quarter; the southwest quarter of the northwest quarter, and the northeast quarter of the southwest quarter; the southeast quarter of the southwest quarter; the south half of the northeast quarter of the southwest quarter, and the west half of the southwest quarter of the southeast quarter, and the west half of the southwest quarter of the southeast quarter of the southwest quarter of Section 25.
The south half of the south half of Section 2.
The south half of the southeast quarter of the northeast quarter; the southeast quarter; the south half of the north half of the southwest quarter, and the south half of the southwest quarter, of Section 31.
The southeast quarter of the northwest quarter; the south half of the southwest quarter of the northwest quarter; the northwest quarter of the southwest quarter; southwest quarter of southwest quarter, and lots one, two, three, four, five and six, of Section 32.
The south half of the northwest quarter; the northeast quarter; the northwest quarter of the southeast quarter; the south half of the southeast quarter, and the south half of Section 33.
All of Section 34.
The northwest quarter of the northwest quarter; the west half of the southwest quarter of the northwest quarter; the south half of the southwest quarter of the northwest quarter and the east half of the southwest quarter, and the northwest quarter of the southwest quarter, of Section 35.
The northeast quarter of the northeast quarter of the northwest quarter; and lots one to eleven inclusive, of Section 36.
All in Township 53, north of Range 14 west.
The southwest quarter of the southeast quarter of the southeast quarter; the south half of the southwest quarter; the southeast quarter of the southwest quarter; the west half of the southwest quarter of the southeast quarter, and the northwest quarter of the southwest quarter, of Section 29.
The east half of the northeast quarter of the northeast quarter; and the northeast quarter of the southeast quarter of the northeast quarter of Section 32.
The east half of the northeast quarter of the northeast quarter; the southeast quarter of the southeast quarter; the east half of the southeast quarter of the southeast quarter; the south half of the southeast quarter of the southwest quarter of the southeast quarter; the south half of the southwest quarter of the southeast quarter; the southeast quarter of the southwest quarter of the southeast quarter; the southwest quarter of the southeast quarter of the southeast quarter; the south half of the southwest quarter; the southeast quarter of the southwest quarter; the northeast quarter of the southwest quarter, and the southeast quarter of the southeast quarter, of section 33.
All of sections 7 and 8.
The southwest quarter of the northwest quarter of the northwest quarter; the northeast quarter of the northwest quarter; the south half of the northwest quarter; the south half of the northeast quarter of the northwest quarter; the northwest quarter of the northeast quarter; the south half of the northeast quarter of the northeast quarter; the south half of the southeast quarter of the northeast quarter; the south half of the southeast quarter; the north half of the southwest quarter of the southeast quarter, and the southeast quarter of the southeast quarter of section 6.
All of sections 7 and 8.
The southwest quarter of the northwest quarter of the northwest quarter; the northeast quarter of the northwest quarter; the south half of the northwest quarter; the south half of the northeast quarter of the northwest quarter; the northwest quarter of the northeast quarter; the south half of the northeast quarter of the northeast quarter; the south half of the southeast quarter of the northeast quarter; the south half of the southeast quarter; the north half of the southwest quarter of the southeast quarter, and the southeast quarter of the southeast quarter of section 7.
The northeast quarter of the northeast quarter; the south half of the northeast quarter of the northwest quarter; the southeast quarter of the northwest quarter; the east half of the southwest quarter of the northwest quarter; the northeast quarter of the southwest quarter; the southeast quarter of the southwest quarter; the south half of the southeast quarter, and the southeast quarter of the southeast quarter of section 12.
All of Section 13.
The north half of the north half of the northeast quarter; the south half of the northeast quarter of the northeast quarter; the southeast quarter of the northeast quarter; the east half of the southwest quarter of the northeast quarter; the southeast quarter of the northwest quarter; the east half of the southwest quarter of the northwest quarter; the northeast quarter of the southwest quarter; the southeast quarter of the southwest quarter; the south half of the southeast quarter; the southeast quarter of the southeast quarter, and the southeast quarter of the northeast quarter of section 18.
All of sections 17 and 18.
The north half of the northwest quarter; the northeast quarter of the southwest quarter of the northwest quarter, and the northwest quarter of the northeast quarter of section 19.
The east half of the northwest quarter; the east half of the east half of the southwest quarter of the northwest quarter; the north half of the north half of the south half of the northwest quarter of the northeast quarter; the north half of the north half of the northeast quarter of the southwest quarter; the south half of the south half of the northeast quarter of the southwest quarter; the north half of the south half of the northeast quarter of the southwest quarter; the south half of the southeast quarter of the northeast quarter; the northeast quarter of the southeast quarter; the northwest quarter of the southeast quarter; the south half of the southeast quarter of the southeast quarter; the southeast quarter of the southeast quarter of the southeast quarter; the northeast quarter of the southeast quarter; and the northeast quarter of the southeast quarter of section 20.
The north half of the northwest quarter of the northwest quarter of the northwest quarter; the southeast quarter of the northwest quarter of the northwest quarter; the northeast quarter of the northwest quarter of the northwest quarter; the east half of the northwest quarter of the northwest quarter; the northeast quarter of the northwest quarter; the east half of the southeast quarter of the northwest quarter; the southeast quarter of the northeast quarter; the south half of the northeast quarter of the northeast quarter; the east half of the southeast quarter of the northeast quarter; the northeast quarter of the southeast quarter; the north half of the southeast quarter of the southeast quarter, and the northeast quarter of the southeast quarter of section 21.
The east half of the northeast quarter of the northwest quarter; the east half of the southeast quarter of the northwest quarter; the northeast quarter of the northeast quarter; the southeast quarter of the northeast quarter; the east half of the southwest quarter of the northeast quarter; the southeast quarter of the northwest quarter; the east half of the southwest quarter of the northwest quarter; the northeast quarter of the southwest quarter; the southeast quarter of the southwest quarter; the south half of the southeast quarter; the southeast quarter of the southeast quarter, and the southeast quarter of the northeast quarter of section 22.
The north half of the northwest quarter of the northwest quarter; the southeast quarter of the northwest quarter of the northwest quarter; the northeast quarter of the northwest quarter; the north half of the northeast quarter of the northwest quarter; the southeast quarter of the northeast quarter; the north half of the southeast quarter of the northeast quarter; the northeast quarter of the southeast quarter; the northwest quarter of the southeast quarter; the south half of the southeast quarter of the southeast quarter; the southeast quarter of the southeast quarter of the southeast quarter; the northeast quarter of the southeast quarter; and the northeast quarter of the southeast quarter of section 23.
The north half of the northwest quarter of the northwest quarter; the southeast quarter of the northwest quarter of the northwest quarter; the northeast quarter of the northwest quarter of the northwest quarter; the east half of the northwest quarter of the northwest quarter; the northeast quarter of the northwest quarter; the east half of the southeast quarter of the northwest quarter; the southeast quarter of the northeast quarter; the north half of the southeast quarter of the northeast quarter; the northeast quarter of the southeast quarter; the northwest quarter of the southeast quarter; the south half of the southeast quarter of the southeast quarter; the southeast quarter of the southeast quarter of the southeast quarter; the northeast quarter of the southeast quarter; and the northeast quarter of the southeast quarter of section 24.

CATCH ON.

The manufacture of iron and steel at West Duluth is now assured and that means a large growth. I have the greatest bargains in acres adjoining the platted part of West Duluth ever offered—there is 100 per cent profit in the next 12 months—indeed it is worth almost that much more than the price now. Call and inquire about it.

C. E. LOVETT, 706 Palladio Bldg

Articles of Incorporation of the DULUTH SAFETY CAR STAKE COMPANY, of Duluth, Minnesota.

The undersigned hereby associate themselves as a body corporate under and by virtue of the provisions of Title 2, of Chapter 34 of the General Statutes of Minnesota, and the acts amendatory thereof, and for that purpose adopt the following articles of incorporation:

ARTICLE I.

The name of this corporation shall be "Duluth Safety Car Stake Company."

The general nature of its business shall be to manufacture and sell, or cause to be manufactured and sold, apparatus for use upon railroad cars known as the safety car stake, and in connection with such business, to take out such patents upon safety car stakes or other appliances as may be necessary or convenient, or to purchase such patents from other persons, and to buy, sell, use or deal in such safety car stakes or parts of such stakes as may by the corporation be desired and generally, to buy, hold, sell or dispose of such property, real, personal or mixed, as may be necessary or convenient to the general purposes herein expressed.

The principal place of business of the corporation shall be Duluth, Minnesota.

ARTICLE II.

The corporation shall commence on the 16th day of June, 1902, and shall continue for the period of thirty years.

ARTICLE III.

The amount of the capital stock of the corporation shall be twenty thousand dollars ($20,000.)

Eleven thousand dollars ($11,000) of said stock to be paid in and the balance of said stock to be issued from time to time, as purchased, subscribed and paid for and no stock in this corporation shall be issued for less than par.

ARTICLE IV.

The highest amount of indebtedness or liability to which the corporation at any time shall be subject is twenty thousand dollars ($20,000.)

ARTICLE V.

The names of the persons forming the association for incorporation are: Winfield C. Gray, Alexander Henrikson, John Cashin, Adam McAdams, Henry W. Cheadle, Victor R. Method, John Feehely, Alexander W. Stewart and Carl J. Petruschke, all of whom are residents of Duluth, Minnesota.

ARTICLE VI.

The government of the corporation and the management of its affairs shall be vested in a board of nine directors and in a president, vice president, secretary and treasurer, and such other officers as the board of directors shall deem expedient to manage the affairs of the corporation; any two of which offices may be filled by the same person.

The directors shall be elected annually at a meeting to be held on the first Tuesday after the first day of January of each year and they shall immediately thereafter annually elect from their number the other officers of the corporation.

Until the annual meeting of 1903, Winfield C. Gray, Alexander Henrikson, John Cashin, Adam McAdams, Henry W. Cheadle, Victor R. Method, John Feehely, Alexander W. Stewart and Carl J. Petruschke shall constitute the first board of directors and Winfield C. Gray shall be president; Alexander Henrikson, vice president; John Cashin, secretary, and Henry W. Cheadle, treasurer, and until their successors are elected and qualified.

ARTICLE VII.

The capital stock of the corporation shall be divided into twenty thousand shares ($20,000) of one dollar ($1.00) each.

In witness whereof, we have hereunto set our hands and seals this thirteenth day of June, A. D. 1902.

WINFIELD C. GRAY, (Seal.)
ALEXANDER HENRIKSON, (Seal.)
JOHN CASHIN, (Seal.)
